## Undergraduate courses

### Combined courses

Bachelor of Nutrition Science/Bachelor of Commerce .....	418
Bachelor of Vision Science/Master of Optometry.....	423
Bachelor of Arts/Master of Teaching (Secondary) .....	429
Bachelor of Science/Master of Teaching (Secondary).....	434
Bachelor of Arts/Master of Arts (International Relations) .....	439
Bachelor of Arts/Bachelor of Science (version 1) .....	444
Bachelor of Arts/Bachelor of Science (version 2) .....	445
Bachelor of Arts/Bachelor of Laws (version 3) .....	447
Bachelor of Arts/Bachelor of Laws (version 4) .....	448
Bachelor of Arts/Bachelor of Laws (version 5) .....	449
Bachelor of Arts/Bachelor of Commerce (version 1) .....	451
Bachelor of Arts/Bachelor of Commerce (version 2) .....	452
Bachelor of Arts – Chinese/Bachelor of Commerce (version 1) .....	456
Bachelor of Arts – Chinese/Bachelor of Commerce (version 2) .....	458
Bachelor of Arts – Indonesian/Bachelor of Commerce.....	460
Bachelor of Business Information Systems/ Bachelor of Information Technology.....	461
Bachelor of Commerce/Bachelor of Science.....	463
Bachelor of Commerce/Bachelor of Laws (version 2).....	466
Bachelor of Commerce/Bachelor of Laws (version 3).....	467
Bachelor of Laws/Bachelor of International Studies (version 3) .....	470
Bachelor of Laws/Bachelor of International Studies (version 4) .....	471
Bachelor of Property and Real Estate/ Bachelor of Commerce.....	474
Bachelor of Arts/Bachelor of Management.....	478
Bachelor of Forensic Science/Bachelor of Criminology .....	479
Bachelor of Science/Bachelor of Laws (version 3).....	484
Bachelor of Science/Bachelor of Laws (version 4).....	485
Bachelor of Exercise and Sport Science/ Bachelor of Nutrition Science .....	487
Bachelor of Criminology/Bachelor of Laws (version 2) .....	493
Bachelor of Criminology/Bachelor of Laws (version 3) .....	494
Bachelor of Construction Management (Honours)/ Bachelor of Property and Real Estate .....	496
Bachelor of International Studies/Bachelor of Commerce (version 2) .....	500
Bachelor of International Studies/Bachelor of Commerce (version 3) .....	501
Bachelor of Teaching (Secondary)/Bachelor of Arts.....	504
Bachelor of Teaching (Science)/Bachelor of Science (version 2) .....	511
Bachelor of Teaching (Science)/Bachelor of Science (version 3) .....	514
Bachelor of Nursing/Bachelor of Midwifery.....	519
Bachelor of Design (Architecture)/Bachelor of Construction Management .....	525
Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours).....	526

Bachelor of Commerce/Bachelor of Information Systems.....	531
Bachelor of Commerce/Bachelor of Business Analytics .....	532
Bachelor of Information Systems/ Bachelor of Health Sciences.....	535
Bachelor of Information Systems/Bachelor of Information Technology .....	536
Bachelor of Engineering/Bachelor of Science .....	537
Bachelor of Engineering/Bachelor of Commerce (version 2) ...	539
Bachelor of Engineering/Bachelor of Commerce (version 3) ...	540
Bachelor of Engineering/Bachelor of Information Technology.....	542
Bachelor of Criminology/Bachelor of Information Technology (I.T. Security) .....	544
Bachelor of Criminology/Bachelor of I.T. Security .....	546
Bachelor of Criminology/Bachelor of Cyber Security (version 3) .....	549
Bachelor of Nursing/Bachelor of Public Health and Health Promotion .....	552
Bachelor of Nursing/Bachelor of Applied Science (Psychology) (version 1).....	557
Bachelor of Nursing/Bachelor of Psychological Science (version 2) .....	560
Bachelor of Public Health and Health Promotion/ Bachelor of Commerce.....	565
Bachelor of Criminology/Bachelor of Psychological Science....	570
Bachelor of Health Sciences/Bachelor of Arts (version 2) .....	574
Bachelor of Health Sciences/Bachelor of Arts (version 3) .....	576
Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management).....	580
Bachelor of Property and Real Estate/Bachelor of Laws (version 2) .....	585
Bachelor of Property and Real Estate/Bachelor of Laws (version 3) .....	586

### Faculty of Arts and Education

Associate Degree of Arts, Business and Sciences.....	1
Diploma of Arabic .....	3
Diploma of Chinese .....	6
Diploma of Indonesian .....	9
Diploma of Spanish.....	12
Diploma of Language.....	15
Associate Degree of Arts .....	20
Bachelor of Arts (version 1).....	24
Bachelor of Arts (version 2).....	51
Bachelor of Arts (Psychology).....	85
Bachelor of International Studies (Global Scholar) .....	89
Bachelor of Arts (Professional and Creative Writing) (version 1) .....	94
Bachelor of Arts (Professional and Creative Writing) (version 2) .....	97
Bachelor of Creative Writing (version 3).....	100
Bachelor of Arts (Public Relations) (version 1) .....	104
Bachelor of Communication (Public Relations) (version 2)....	106
Bachelor of International Studies (version 1) .....	110
Bachelor of International Studies (version 2) .....	113

Bachelor of Arts (Media and Communication).....	118
Bachelor of Criminology.....	119
Bachelor of Communication (Journalism).....	124
Bachelor of Entertainment Production.....	128
Bachelor of Communication (Media) (version 1).....	131
Bachelor of Communication (Digital Media) (version 2).....	133
Bachelor of Communication (Advertising).....	137
Bachelor of Design (3D Animation).....	141
Bachelor of Design (Digital Technologies).....	145
Bachelor of Design (Visual Communication).....	149
Bachelor of Creative Arts (Film and Television) (version 1).....	153
Bachelor of Film, Television and Animation (version 2).....	156
Bachelor of Creative Arts (Photography) (version 1).....	160
Bachelor of Creative Arts (Photography) (version 2).....	162
Bachelor of Creative Arts (Animation and Motion Capture) (version 1).....	166
Bachelor of Creative Arts (Animation and Motion Capture) (version 2).....	169
Bachelor of Creative Arts (Visual Communication Design).....	173
Bachelor of Creative Arts (Dance) (version 2).....	176
Bachelor of Creative Arts (Dance) (version 3).....	179
Bachelor of Creative Arts (Dance) (version 4).....	182
Bachelor of Creative Arts (Drama) (version 2).....	185
Bachelor of Creative Arts (Drama) (version 3).....	188
Bachelor of Creative Arts (Film and Digital Media).....	192
Bachelor of Creative Arts (Visual Arts) (version 2).....	193
Bachelor of Creative Arts (Visual Arts) (version 3).....	196
Bachelor of Arts (Honours).....	201
Bachelor of Arts – Advanced (Honours).....	207
Bachelor of Creative Arts (Honours).....	212
Bachelor of Communication (Honours).....	215
Associate Degree of Education (version 1).....	600
Associate Degree of Education (version 2).....	602
Bachelor of Early Childhood Studies.....	606
Bachelor of Early Childhood Education.....	609
Bachelor of Education (Early Years).....	612
Bachelor of Early Childhood Education (International).....	617
Bachelor of Education (Primary) (version 3).....	621
Bachelor of Education (Primary) (version 4).....	623
Bachelor of Education (Primary) (version 5).....	632
Bachelor of Health and Physical Education (version 3).....	639
Bachelor of Health and Physical Education (version 4).....	642
Bachelor of Early Childhood Education (Honours).....	647

## Faculty of Health

Return to Practice/Initial Registration of Overseas Nurses – Registered Nurse.....	770
Bachelor of Health Sciences (version 1).....	773
Bachelor of Health Sciences (version 2).....	781
Bachelor of Medical Imaging.....	792
Bachelor of Medicine Bachelor of Surgery.....	796
Bachelor of Public Health and Health Promotion.....	800
Bachelor of Food and Nutrition Sciences.....	805
Bachelor of Nutrition Science.....	806
Bachelor of Nutrition Science (Dietetics Pathway).....	812

Bachelor of Nursing.....	818
Bachelor of Nursing (Clinical Leadership).....	824
Bachelor of Social Work (version 1).....	829
Bachelor of Social Work (version 2).....	830
Bachelor of Exercise and Sport Science.....	837
Bachelor of Applied Science (Psychology).....	847
Bachelor of Psychological Science.....	850
Bachelor of Psychology (Honours).....	857
Bachelor of Occupational Therapy.....	865
Bachelor of Health Sciences (Honours).....	871
Bachelor of Public Health and Health Promotion (Honours).....	875
Bachelor of Health and Medical Science (Honours).....	879
Bachelor of Food and Nutrition Sciences (Honours).....	882
Bachelor of Nursing (Honours).....	886
Bachelor of Exercise and Sport Science (Honours).....	890
Bachelor of Arts (Psychology) (Honours).....	893
Bachelor of Psychological Science (Honours).....	897

## Faculty of Business and Law

Bachelor of Commerce (version 1).....	1145
Bachelor of Commerce (version 2).....	1146
Bachelor of Management.....	1161
Bachelor of Commerce – Sport Management.....	1162
Bachelor of Business Information Systems.....	1163
Bachelor of Laws (version 1).....	1164
Bachelor of Laws (version 2).....	1165
Bachelor of Laws (version 3).....	1166
Bachelor of Laws.....	1172
Bachelor of Sport Development.....	1173
Bachelor of Management.....	1177
Bachelor of Business.....	1178
Bachelor of Information Systems.....	1185
Bachelor of Business Analytics.....	1186
Bachelor of Property and Real Estate.....	1189
Bachelor of Business (Sport Management).....	1195
Bachelor of Laws (Honours).....	1198

## Faculty of Science, Engineering and Built Environment

Bachelor of Engineering Science.....	1426
Bachelor of Information Technology (Mobile and Apps Development).....	1428
Bachelor of Architectural Technology.....	1429
Global Science and Technology Program.....	1432
Bachelor of Computer Science.....	1433
Bachelor of Artificial Intelligence.....	1438
Bachelor of Science (version 3).....	1443
Bachelor of Science (version 4).....	1448
Bachelor of Biological Science.....	1457
Bachelor of Biomedical Science (version 2).....	1460
Bachelor of Biomedical Science (version 3).....	1463
Bachelor of Forensic Science.....	1471
Bachelor of Information Technology.....	1476
Bachelor of Information Technology (Computer Science and Software Development).....	1482

Bachelor of Information Technology (Interactive Media) ...	1484
Bachelor of Information Technology (Games Design and Development).....	1485
Bachelor of Games Design and Development.....	1487
Bachelor of Information Technology (I.T. Security).....	1490
Bachelor of I.T. Security .....	1492
Bachelor of Cyber Security .....	1494
Bachelor of Marine Science .....	1499
Bachelor of Design (Architecture).....	1504
Bachelor of Construction Management .....	1508
Bachelor of Construction Management (Honours).....	1509
Bachelor of Engineering .....	1514
Bachelor of Zoology and Animal Science.....	1522
Bachelor of Environmental Science (Wildlife and Conservation Biology).....	1527
Bachelor of Fisheries and Aquaculture .....	1532
Bachelor of Environmental Science (Environmental Management and Sustainability) .....	1534
Bachelor of Environmental Science (Marine Biology) .....	1538
Bachelor of Science (Honours).....	1544
Bachelor of Forensic Science (Honours) .....	1547
Bachelor of Civil Engineering (Honours) (version 1).....	1550
Bachelor of Civil Engineering (Honours) (version 2).....	1552
Bachelor of Electrical and Electronics Engineering (Honours) .....	1558
Bachelor of Electrical and Electronics Engineering (Honours) .....	1561
Bachelor of Mechanical Engineering (Honours) (version 1).....	1567
Bachelor of Mechanical Engineering (Honours) (version 2).....	1570
Bachelor of Mechatronics Engineering (Honours) (version 1) .....	1576
Bachelor of Mechatronics Engineering (Honours) (version 2) .....	1579
Bachelor of Software Engineering (Honours) .....	1585
Bachelor of Environmental Engineering (Honours).....	1590
Bachelor of Information Technology (Honours) (version 2) ...	1595
Bachelor of Information Technology (Honours) (version 3) ...	1596
Bachelor of Environmental Science (Honours).....	1600

## Postgraduate courses

### Combined courses

Master of International Finance/Master of Professional Accounting .....	590
Master of Business Administration (International)/Master of Commerce .....	591
Master of Business Administration (International)/Master of Professional Accounting .....	592
Master of Business Administration (International)/Master of Information Systems.....	593
Master of Business Administration (International)/Master of International Finance.....	594
Master of Business Administration/Master of Leadership.....	595
Master of Politics and Policy/Master of Business Administration .....	596
Master of Information Technology/Master of Information Systems.....	597

## Faculty of Arts and Education

Graduate Certificate of Indigenous Research .....	218
Graduate Certificate of Development and Humanitarian Action .....	219
Graduate Certificate of Sustainable Development and Humanitarian Action .....	222
Graduate Certificate of International and Community Development .....	225
Graduate Certificate of International Relations.....	228
Graduate Certificate of Museum Studies .....	231
Graduate Certificate of Writing and Literature.....	234
Graduate Certificate of Communication.....	237
Graduate Certificate of Humanitarian Leadership .....	240
Graduate Certificate of Creative Arts.....	243
Graduate Certificate of Land and Sea Country Management .....	246
Graduate Certificate of International and Community Development .....	248
Graduate Certificate of Humanitarian Assistance .....	251
Graduate Certificate of Cultural Heritage .....	254
Graduate Certificate of Humanitarian Health .....	255
Graduate Diploma of Indigenous Research .....	258
Graduate Diploma of Sustainable Development and Humanitarian Action .....	260
Graduate Diploma of International and Community Development .....	263
Graduate Diploma of International Relations.....	266
Graduate Diploma of Professional Political Practice .....	269
Graduate Diploma of Museum Studies .....	272
Graduate Diploma of Digital Media .....	275
Graduate Diploma of Literary Studies.....	278
Graduate Diploma of Creative Writing .....	281
Graduate Diploma of Television Production .....	284
Graduate Diploma of Visual Communication Design (version 1) .....	287
Graduate Diploma of Visual Communication Design (version 2) .....	289
Graduate Diploma of Communication (version 1).....	292
Graduate Diploma of Communication (version 2).....	294
Graduate Diploma of Children's Literature .....	297
Graduate Diploma of Public Relations (version 1).....	300
Graduate Diploma of Public Relations (version 2).....	303
Graduate Diploma of Journalism (version 1) .....	306
Graduate Diploma of Journalism (version 2) .....	309
Graduate Diploma of Creative Arts .....	312
Graduate Diploma of Land and Sea Country Management.....	315
Graduate Diploma of Professional Writing .....	317
Graduate Diploma of Writing and Literature.....	320
Graduate Diploma of International and Community Development .....	323
Graduate Diploma of Humanitarian Assistance .....	326
Graduate Diploma of Cultural Heritage .....	329
Master of Development and Humanitarian Action (version 1) .....	330
Master of Development and Humanitarian Action (version 2).....	333

Master of Sustainable Development and Humanitarian Action (version 3).....	336
Master of Arts (International Relations) (version 1).....	339
Master of Arts (International Relations) (version 2).....	342
Master of Arts (International Relations) (version 3).....	346
Master of Arts (International Relations).....	351
Master of International and Community Development (version 2).....	353
Master of International and Community Development (version 3).....	356
Master of International and Community Development (version 4).....	359
Master of Politics and Policy.....	362
Master of Communication (version 1).....	366
Master of Communication (version 2).....	371
Master of Communication.....	377
Master of Arts (Writing and Literature).....	380
Master of Humanitarian Assistance (version 1).....	382
Master of Humanitarian Assistance (version 2).....	386
Master of Creative Arts.....	390
Master of Arts (Writing and Literature) (version 1).....	393
Master of Arts (Writing and Literature) (version 2).....	396
Master of International and Community Development.....	402
Master of Humanitarian Assistance.....	406
Master of Cultural Heritage.....	410
Master of Arts.....	414
Doctor of Philosophy.....	416
Graduate Certificate of Education.....	650
Graduate Certificate of Specialist Inclusive Education.....	652
Graduate Certificate of Teaching English to Speakers of other Languages (Education).....	655
Graduate Certificate of Languages Teaching.....	657
Graduate Certificate of Education Business Leadership.....	659
Graduate Certificate of Stem Education.....	661
Graduate Certificate of Higher Education Learning and Teaching.....	662
Graduate Certificate of Teaching English to Speakers of other Languages.....	664
Graduate Certificate of Education Research.....	667
Graduate Certificate of Digital Learning Leadership.....	670
Master of Education.....	672
Master of Applied Learning and Teaching.....	673
Master of Education (Leadership and Management).....	677
Master of Education (Special Educational Needs) (version 1)....	681
Master of Specialist Inclusive Education (version 2).....	684
Master of Education (Leadership and Management).....	688
Master of Education (Special Educational Needs).....	690
Master of Education (Teaching English to Speakers of other Languages).....	691
Master of Languages Teaching.....	694
Master of Teaching English to Speakers of other Languages....	698
Master of Teaching.....	703
Master of Teaching (Early Childhood).....	704
Master of Teaching (Primary).....	709
Master of Teaching (Secondary).....	715
Master of Teaching (Primary and Early Childhood).....	723

Master of Teaching (Primary and Secondary).....	728
Master of Education.....	735
Master of Education.....	737
Master of Digital Learning Leadership.....	741
Master of Education (Research).....	744
Doctor of Philosophy.....	746

## Faculty of Health

Graduate Certificate of Health Economics.....	901
Graduate Certificate of Therapeutic Child Play.....	903
Graduate Certificate of Applied Sport Science.....	906
Graduate Certificate of Disability and Inclusion.....	908
Graduate Certificate of Human Nutrition.....	911
Graduate Certificate of Health Promotion.....	914
Graduate Certificate of Public Health Nutrition.....	917
Graduate Certificate of Diabetes Education.....	920
Graduate Certificate of Agricultural Health and Medicine.....	923
Graduate Certificate of Health Research Practice.....	927
Graduate Certificate of Nursing Practice (Intensive Care).....	930
Graduate Certificate of Public Health.....	933
Graduate Certificate of Health and Human Services Management.....	934
Graduate Certificate of Nursing Practice (Cardiac Care).....	936
Graduate Certificate of Nursing Practice (Emergency Care)....	939
Graduate Certificate of Nursing Practice (Critical Care).....	942
Graduate Certificate of Nursing Practice (Perioperative).....	945
Graduate Certificate of Hospital Administration.....	948
Graduate Diploma of Psychological Science.....	950
Graduate Diploma of Health Economics.....	953
Graduate Diploma of Therapeutic Child Play.....	955
Graduate Diploma of Applied Sport Science.....	959
Graduate Diploma of Disability and Inclusion.....	961
Graduate Diploma of Health Promotion.....	964
Graduate Diploma of Human Nutrition.....	968
Graduate Diploma of Nursing Practice (Intensive Care).....	971
Graduate Diploma of Psychology.....	974
Graduate Diploma of Health and Human Services Management.....	978
Graduate Diploma of Psychology (Pre-Practice).....	980
Graduate Diploma of Nursing Practice (Cardiac Care).....	984
Graduate Diploma of Nursing Practice (Emergency Care).....	987
Graduate Diploma of Nursing Practice (Critical Care).....	990
Graduate Diploma of Nursing Practice (Perioperative).....	993
Graduate Diploma of Nursing Practice.....	996
Graduate Diploma of Midwifery.....	998
Master of Social Work.....	1003
Master of Health Economics.....	1007
Master of Child Play Therapy.....	1011
Master of Child Play Therapy.....	1015
Master of Applied Sport Science.....	1019
Master of Disability and Inclusion.....	1023
Master of Optometry.....	1026
Master of Human Nutrition.....	1031
Master of Dietetics.....	1036
Master of Clinical Exercise Physiology.....	1040

Master of Professional Psychology .....	1044	Graduate Certificate of Financial Planning .....	1243
Master of Health and Human Services Management .....	1048	Graduate Certificate of International Accounting .....	1246
Master of Public Health.....	1051	Graduate Certificate of Leadership .....	1248
Master of Nutrition and Population Health.....	1055	Graduate Diploma of Business Administration (version 1) ...	1251
Master of Health Promotion .....	1058	Graduate Diploma of Business Administration (version 2) ...	1252
Master of Psychology (Clinical) .....	1061	Graduate Diploma of Human Resource Management.....	1255
Master of Psychology (Organisational) .....	1067	Graduate Diploma of Commerce .....	1257
Master of Health and Human Services Management.....	1072	Graduate Diploma of Information Systems .....	1260
Master of Public Health.....	1077	Graduate Diploma of Marketing .....	1262
Master of Health Promotion .....	1082	Graduate Diploma of International Finance .....	1265
Master of Nursing Practice.....	1087	Graduate Diploma of Business Administration (International).....	1268
Master of Nursing Practice (Nurse Practitioner) .....	1094	Graduate Diploma of Property.....	1270
Master of Philosophy.....	1097	Graduate Diploma of Legal Studies.....	1274
Master of Surgical Research.....	1100	Graduate Diploma of Financial Planning .....	1276
Master of Social Work (Research).....	1103	Graduate Diploma of Professional Accounting and Law ....	1279
Master of Nursing.....	1105	Graduate Diploma of Business Analytics .....	1282
Master of Applied Science.....	1107	Graduate Diploma of Business Analytics .....	1283
Master of Applied Science.....	1109	Graduate Diploma of Business (Arts and Cultural Management) .....	1286
Doctor of Philosophy .....	1111	Graduate Diploma of Financial Planning .....	1289
Doctor of Philosophy .....	1113	Graduate Diploma of International Accounting .....	1293
Doctor of Medicine.....	1115	Graduate Diploma of Professional Accounting.....	1295
Doctor of Philosophy .....	1119	Master of Business Administration (version 2).....	1299
Doctor of Philosophy .....	1121	Master of Business Administration (version 3).....	1300
Doctor of Philosophy .....	1123	Master of Business Administration (Healthcare Management).....	1311
Doctor of Philosophy .....	1125	Master of Business Administration (Healthcare Management).....	1312
Doctor of Psychology (Clinical).....	1128	Master of Commerce .....	1316
Doctor of Psychology (Forensic).....	1135	Master of Business Administration .....	1317
Doctor of Philosophy .....	1137	Master of Business (Sport Management).....	1318
Doctor of Philosophy .....	1139	Master of Professional Accounting .....	1319
<b>Faculty of Business and Law</b>		Master of Information Systems.....	1323
Masters Qualifying Program.....	1141	Master of International Business .....	1328
Masters Qualifying Program Extended .....	1143	Master of Commercial Law .....	1329
Graduate Certificate of Business Administration (version 2) .....	1202	Master of Laws .....	1330
Graduate Certificate of Business Administration (version 3) .....	1203	Master of Marketing.....	1333
Graduate Certificate of Professional Accounting.....	1206	Juris Doctor .....	1334
Graduate Certificate of Corporate Management .....	1209	Master of Business Administration (International) .....	1339
Graduate Certificate of Property.....	1210	Master of Arts and Entertainment Management.....	1340
Graduate Certificate of Human Resource Management.....	1213	Master of Legal Studies .....	1341
Graduate Certificate of Commerce.....	1215	Master of Leadership.....	1346
Graduate Certificate of Business (Sport Management) .....	1218	Master of Leadership.....	1347
Graduate Certificate of Business (Arts and Cultural Management) .....	1221	Master of Financial Planning.....	1348
Graduate Certificate of Information Systems .....	1223	Master of Business (Sport Management).....	1349
Graduate Certificate of Marketing .....	1225	Master of Accounting and Law .....	1352
Graduate Certificate of International Finance.....	1227	Master of Professional Accounting and Law.....	1353
Graduate Certificate of Business Administration (International).....	1230	Master of International Finance .....	1357
Graduate Certificate of Legal Studies.....	1232	Master of Business Administration (International) .....	1361
Graduate Certificate of Financial Planning .....	1234	Master of Commerce .....	1368
Graduate Certificate of Accounting and Law.....	1237	Master of Marketing.....	1375
Graduate Certificate of Professional Accounting and Law ....	1238	Master of Business Analytics.....	1376
Graduate Certificate of Entrepreneurship .....	1241	Master of Business Analytics.....	1377
		Master of Arts and Cultural Management.....	1381

Master of Financial Planning.....	1382
Master of Financial Planning.....	1386
Master of International Accounting.....	1391
Master of International Accounting – ACCA .....	1395
Master of Human Resource Management .....	1399
Master of Business (Arts and Cultural Management) .....	1402
Master of Marketing.....	1406
Master of Accounting and International Finance.....	1410
Master of Professional Accounting and Finance .....	1411
Master of Leadership.....	1415
Master of Commerce .....	1418
Master of Laws – Major Thesis .....	1420
Doctor of Philosophy .....	1422
Doctor of Business Administration .....	1425

## Faculty of Science, Engineering and Built Environment

Master of Science .....	750
Master of Engineering.....	752
Master of Science .....	754
Master of Engineering.....	756
Master of Science .....	758
Doctor of Philosophy .....	760
Doctor of Philosophy .....	762
Doctor of Philosophy .....	764
Doctor of Philosophy .....	766
Doctor of Philosophy .....	768
Graduate Certificate of Landscape Design.....	1603
Graduate Certificate of Sustainable Regional Development ...	1605
Graduate Certificate of Research Management.....	1608
Graduate Certificate of Cyber Security .....	1611
Graduate Certificate of Cyber Security .....	1614
Graduate Certificate of Artificial Intelligence .....	1617
Graduate Certificate of Engineering .....	1620
Graduate Certificate of Planning.....	1621
Graduate Certificate of Data Analytics.....	1623
Graduate Certificate of Data Science .....	1626
Graduate Certificate of Information Technology.....	1629
Graduate Certificate of Information Technology.....	1632
Graduate Certificate of Virtual and Augmented Reality.....	1635
Graduate Certificate of Professional Practice (Engineering)....	1636
Graduate Certificate of Professional Practice (Information Technology) .....	1639
Graduate Certificate of Information Technology Leadership .....	1640
Graduate Certificate of Construction Management.....	1643
Graduate Diploma of Landscape Design.....	1645
Graduate Diploma of Sustainable Regional Development ....	1647
Graduate Diploma of Sustainability .....	1651
Graduate Diploma of Cyber Security .....	1653
Graduate Diploma of Artificial Intelligence.....	1656
Graduate Diploma of Engineering.....	1659
Graduate Diploma of Planning.....	1664
Graduate Diploma of Biotechnology and Bioinformatics....	1666
Graduate Diploma of Data Analytics.....	1667

Graduate Diploma of Data Science .....	1670
Graduate Diploma of Information Technology .....	1673
Graduate Diploma of Virtual and Augmented Reality.....	1676
Graduate Diploma of Professional Practice (Engineering) .....	1679
Graduate Diploma of Information Technology Leadership ....	1682
Graduate Diploma of Construction Management.....	1684
Master of Architecture .....	1687
Master of Architecture (Design Management) .....	1691
Master of Landscape Architecture.....	1694
Master of Architecture (Design Management) .....	1699
Master of Sustainability.....	1703
Master of Cyber Security.....	1709
Master of Cyber Security (version 1) .....	1713
Master of Cyber Security (version 2) .....	1717
Master of Cyber Security (Professional) .....	1721
Master of Applied Artificial Intelligence .....	1725
Master of Applied Artificial Intelligence (Professional) .....	1730
Master of Engineering.....	1735
Master of Engineering (Professional).....	1740
Master of Engineering.....	1746
Master of Planning (Professional) .....	1753
Master of Biotechnology and Bioinformatics .....	1757
Master of Data Analytics .....	1762
Master of Data Science .....	1766
Master of Information Technology .....	1770
Master of Information Technology (Professional) .....	1776
Master of Professional Practice (Engineering) .....	1782
Master of Information Technology Leadership .....	1785
Master of Construction Management .....	1788
Master of Construction Management (Professional).....	1792
Master of Facilities Management .....	1796
Master of Architecture (Research).....	1797
Master of Construction Management (Research).....	1799
Master of Science .....	1801
Master of Science .....	1803
Master of Science .....	1805
Master of Science (Research).....	1807
Master of Engineering.....	1811
Doctor of Philosophy .....	1813
Doctor of Philosophy .....	1815
Doctor of Philosophy .....	1817
Doctor of Philosophy .....	1819
Doctor of Philosophy .....	1821

## Institute of Frontier Materials

Master of Philosophy (Electromaterials) .....	748
---	-----

# Associate Degree of Arts, Business and Sciences

<i>Award granted</i>	Associate Degree of Arts, Business and Sciences
<i>Duration</i>	2 years full-time or part-time equivalent
<i>Deakin course code</i>	A200

*Offered to continuing students only from 2015*

## Course overview

The Deakin Associate Degree of Arts, Business and Sciences provides a supported entry to tertiary study. The course provides flexible pathways into university and a range of Deakin target degrees including the Bachelor of Arts, Bachelor of Commerce, Bachelor of Education (Primary), Bachelor of Health Sciences and Bachelor of Science.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

### Course offered at Warrnambool or Waurn Ponds (Geelong)

Students must complete 16 credit points as follows:

1. Four credit points of core units
2. Four credit points of elective units chosen from an approved selection of units
3. At least four credit points at level one from their target degree, and
4. No more than four credit points at level two from their target degree

### Course offered in conjunction with a TAFE partner

Students enrol concurrently in the Associate Degree course and a relevant TAFE qualification at a partner location, with credit granted from the TAFE qualification into the Deakin Associate Degree.

Students must complete their TAFE diploma plus 8 credit points as follows:

1. Four credit points of core units
2. Four credit points of elective units chosen from an approved selection of units

## Course structure

### Core units

- EAD101 Learning for a Knowledge Society (No longer available for enrolment)  
 EAD102 E-Literacy for Contemporary Learning (No longer available for enrolment)  
 EAD104 Work and the Sustainable Society (2 credit points) (No longer available for enrolment)

### Elective units

- ACV101 Contemporary Art Practice: Body  
 ACV102 Contemporary Art Practice: Space

SLE144	Aquatic Life (No longer available for enrolment)
SLE155	Chemistry for the Professional Sciences

# Diploma of Arabic

<i>Year</i>	2019 course information
<i>Award granted</i>	Diploma of Arabic
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurin Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years part time
<i>Deakin course code</i>	A221
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 5.

## Course overview

Whether you're brushing up or starting from scratch with a whole new language, Deakin's Diploma of Arabic is an award-winning program designed to sharpen your language skills and deepen your cultural understanding. By studying Arabic alongside your degree, you'll gain linguistic skills, as well as the essential cultural, historical and social perspectives that will give you a leading edge in a range of exciting careers.

Want to study an award-winning language program and develop your language skills to build a global career?

Learning a language is not only fun, it gives you insight into different cultures, develops your adaptability and communication skills, and makes you more employable.

The Arab countries of the Middle East and North Africa form an area of global importance, with broad strategic, economic, religious and cultural influence. Our Arabic language program provides both language practice and insights into the Arabic culture.

Through this diploma, you'll develop communication skills in modern standard Arabic and gain fluency by taking part in activities across a range of topics focusing on grammar, vocabulary and sentence structure. You'll also learn about cultural, sociolinguistic and sociocultural considerations relevant to the Arabic language, as well as gain knowledge of Middle Eastern history, culture and society.

An optional Arabic In-Country Language Program gives you the chance to practise the language with native speakers of Arabic in its natural and authentic environment. The eight-week study program is held in Oman or Abu Dhabi, where you'll develop practical language skills and learn about the culture and way of life in the host country.

## In-Country study

The In-Country Language Program is available to students completing a major sequence in Arabic via study abroad. The program is a unique part of language study and an excellent way of accelerating completion of the major.

As a second or third-year student, you can spend eight weeks studying language and culture in its own environment. You'll be able to converse, read and write about more complex topics and build upon your knowledge of grammar.

For more information about the In-Country Language Program please refer to the Work-integrated learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

## Career opportunities

The Diploma of Arabic will equip you with skills in the Arabic language that will give you a competitive edge, and expand your employment options far beyond Australian shores to exciting and challenging positions in the Arab Gulf States, the Middle East and North Africa.

Adding an international aspect to your degree can open doors to better career opportunities in:

- the arts
- business or trade
- diplomacy or security
- education
- foreign policy
- health
- international development
- IT or engineering
- sciences.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire theoretical, technical knowledge of the language system (pronunciation, grammar, syntax, and sociolinguistic practices) in Arabic and apply this knowledge in a range of contexts to undertake paraprofessional work and as a pathway for further learning
Communication	Communicate effectively and naturally in a range of daily and professional/academic contexts both orally and in writing using appropriate grammar, syntax, pronunciation and sociolinguistic practices in Arabic
Digital literacy	Use online technologies and new media for communication and immersion in authentic material in Arabic as well as for autonomous language study
Critical thinking	Analyse and evaluate information relating to and expressed in Arabic to support effective and natural language use
Problem solving	Use individual initiative to identify linguistic and sociolinguistic problems and apply knowledge of the systems of Arabic to develop personal strategies for solving problems in communication and cultural interpretation
Self-management	Demonstrate autonomy, responsibility, and commitment to enhancing mastery of Arabic
Teamwork	Work and study collaboratively with other language students and also native speakers of Arabic
Global citizenship	Understand and analyse issues related to the societies that use Arabic in the domestic, regional, and global context

*Approved by Faculty Board May 2014*

## Course rules

To qualify for the award of Diploma of Arabic, a student must successfully complete:

- 8 credit points from the specified list of units below and;
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### **Arabic**

Arabic major sequence for students with no prior language study.

#### **Level 1**

AIB151	Arabic 1A
AIB152	Arabic 1B

#### **Level 2**

AIB251	Arabic 2A
AIB252	Arabic 2B

#### **Level 3**

AIB351	Arabic 3A (2 credit points)
AIB352	Arabic 3B (2 credit points)

The Arabic major sequence for students who have completed Arabic at Level 12 or equivalent begins at second level and consists of the following units:

#### **Level 1**

AIB251	Arabic 2A
AIB252	Arabic 2B

#### **Level 2**

AIB351	Arabic 3A (2 credit points)
AIB352	Arabic 3B (2 credit points)

Approved Study Abroad may replace EITHER AIB351 or AIB352

#### **Level 3**

AIB309	Advanced Arabic Language Skills
AIB310	Introduction to Translation Skills

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Diploma of Chinese

<i>Year</i>	2019 course information
<i>Award granted</i>	Diploma of Chinese
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurin Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years part time
<i>Deakin course code</i>	A222
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 5.

## Course overview

Whether you're brushing up or starting from scratch with a whole new language, Deakin's Diploma of Chinese is designed to sharpen your language skills and deepen your cultural understanding. By studying Chinese alongside your degree, you'll gain the linguistic skills, as well as the essential cultural, historical and social perspectives that will give you a leading edge in a range of exciting careers.

Do you want to develop your language skills to build a global career?

Learning a language is not only fun, it gives you insight into different cultures, develops your adaptability and communication skills, and makes you more employable.

Mandarin Chinese is the most widely spoken language in the world, and as a continuing ancient civilisation, Chinese culture is boundlessly fascinating. Our Chinese language program allows you to gain proficiency in spoken and written Chinese, and provides an understanding of the Chinese culture and ways of life.

Through this diploma, you'll gain fluency by taking part in activities across a range of topics focusing on grammar, vocabulary and sentence structure. You'll also learn about cultural, sociolinguistic and sociocultural considerations relevant to the Chinese language.

Increase your understanding and career opportunities by taking complementary units related to China and Asia in:

- language and culture studies
- history
- international relations.

An optional Chinese In-Country Language Program gives you the opportunity to spend six to eight weeks intensively studying the Chinese language and culture. You'll be able to converse, read and write about more complex topics and build upon your knowledge of grammar.

## In-Country study

The In-Country Language Program is available to students completing the Diploma of Chinese via study abroad. The program is a unique part of language study and an excellent way of accelerating completion of the diploma.

As a second, third or advanced-level student, you can spend six weeks studying language and culture in its own environment. You'll be able to converse, read and write about more complex topics and build upon your knowledge of grammar.

For more information about the In-Country Language Program please refer to the Work-integrated learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

## Career opportunities

The Diploma of Chinese will equip you with skills in the Chinese language that will give you a competitive edge, and expand your employment options far beyond Australian shores to exciting and challenging positions in China, Taiwan and Hong Kong.

Adding an international aspect to your degree can open doors to better career opportunities in:

- the arts
- business or trade
- diplomacy or security
- education
- foreign policy
- health
- international development
- IT or engineering
- sciences.

<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 5.

## Course overview

Whether you're brushing up or starting from scratch with a whole new language, Deakin's Diploma of Indonesian is designed to sharpen your language skills and deepen your cultural understanding. Deakin's Diploma of Indonesian is a great complement to your studies in any discipline, plus you'll gain a global perspective and boost your employability.

Do you want to develop your language skills to build a global career?

Learning a language is not only fun, it gives you insight into different cultures, develops your adaptability and communication skills, and makes you more employable.

Through this diploma, you'll learn communication skills in Bahasa Indonesia and develop an understanding of the Indonesian culture and ways of life. Gain fluency by taking part in activities across a range of topics focusing on grammar, vocabulary and sentence structure. You'll also learn about cultural, sociolinguistic and sociocultural considerations relevant to the Indonesian language.

Indonesia is Australia's closest Asian neighbour and the region is increasingly important to Australia economically, politically and culturally. Many western businesses operate in the country, including:

- ANZ
- Commonwealth Bank
- IAG
- Rio Tinto
- other businesses in a range of economic sectors.

An optional Indonesian In-Country Language Program gives you the opportunity to spend six weeks studying the Indonesian language and culture in its own environment. You'll be able to converse, read and write about more complex topics and build upon your knowledge of grammar.

## In-Country study

# Diploma of Spanish

<i>Year</i>	2019 course information
<i>Award granted</i>	Diploma of Spanish
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurin Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years part time
<i>Deakin course code</i>	A224
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 5.

## Course overview

Whether you're brushing up or starting from scratch with a whole new language, Deakin's Diploma of Spanish is a great complement to your studies in any discipline, plus you'll gain a global perspective and boost your employability.

Do you want to develop your language skills to build a global career?

Learning a language is not only fun, it gives you insight into different cultures, develops your adaptability and communication skills, and makes you more employable.

Spanish is a major international language with more than 400 million speakers on five continents. It's the national language of more than 20 countries and the third most widely spoken language in the world (after Mandarin and English).

Through this diploma, you'll learn communication skills in Spanish and develop an understanding of the Spanish culture and ways of life. Gain fluency by taking part in activities across a range of topics focusing on grammar, lexicons, vocabulary and sentence structure. You'll also learn about cultural, historical sociolinguistic and political dimensions of the societies and cultures that make up the Spanish speaking world.

An optional In-Country Language Program gives you the opportunity to spend time overseas studying language and culture. This will enable you to converse, read and write about more complex topics and to discuss ideas and information.

## In-Country study

The In-Country Language Program gives you the opportunity to spend time overseas studying language and culture. Students build upon their knowledge of grammar and develop further proficiency in Spanish at the high beginner/low intermediate level.

For more information about the In-Country Language Program please refer to the Work-integrated learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

## Career opportunities

The Diploma of Spanish will equip you with skills in the Spanish language that will give you a competitive edge, and expand your employment options far beyond Australian shores to exciting and challenging positions in Latin America and Spain.

This qualification will allow you to work in areas such as:

- business or trade
- diplomacy or security
- education
- foreign policy
- health
- international development
- IT or engineering
- sciences
- the arts.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Whether you're brushing up or starting from scratch with a whole new language, Deakin's Diploma of Language is designed to sharpen your language skills and deepen your cultural understanding. It's a great complement to your studies in any discipline, plus you'll gain a global perspective and boost your employability.

You'll gain fluency by developing skills in grammar, vocabulary and sentence structure through participation in activities across a range of topics. You'll also get the chance to learn about various cultural, sociolinguistic and sociocultural considerations relevant to the language that you choose to study.

The rise of a global economy means that graduates with language qualifications are highly sought-after. We offer studies in Arabic, Chinese, Indonesian and Spanish – all of which play an important role in global diplomacy, defence, security, commerce and trade-related fields.

A diploma in languages will give you a competitive advantage for roles in business, diplomacy, foreign policy and international development. You'll graduate with competency in your language of choice and ready for a range of local and international careers.

Optional in-country study programs mean you can also immerse yourself in international cultures, practicing the language with native speakers in its natural environment. The six-week study programs are held in Oman (Arabic), China (Chinese), and Indonesia (Indonesian), giving you the chance to develop practical language skills and to learn about the culture and way of life in your host country.

AIB252 Arabic 2B

#### Level 3

AIB351 Arabic 3A (2 credit points)

AIB352 Arabic 3B (2 credit points)

The Arabic major sequence for students who have completed Arabic at Level 12 or equivalent begins at second level and consists of the following units:

### Level 1

AIB251	Arabic 2A
AIB252	Arabic 2B

### Level 2

AIB351	Arabic 3A (2 credit points)
AIB352	Arabic 3B (2 credit points)
AIB205	Second Year Arabic In-Country (no longer available for enrolment)
AIB306	Third Year Arabic In-Country (no longer available for enrolment)

### Level 3

AIB309	Advanced Arabic Language Skills
AIB310	Introduction to Translation Skills

## Chinese

*Note: A major in Chinese is not available in Cloud (online) mode*

Chinese major sequence for students with no prior language study.

### Level 1

AIC181	Chinese 1A
AIC182	Chinese 1B

### Level 2

AIC281	Chinese 2A
AIC282	Chinese 2B

### Level 3

AIC381	Chinese 3A
AIC382	Chinese 3B

The Chinese major sequence for students who have completed Chinese at level 12 or equivalent (non-background speakers) begins at second level and consists of the following units:

### Level 1

AIC281	Chinese 2A
AIC282	Chinese 2B

### Level 2

AIC381	Chinese 3A (2 credit points)
AIC382	Chinese 3B (2 credit points)

Post-level 12 students who are not background speakers must complete this major sequence by undertaking 2 credit points from the following units:

AIC385	Chinese for Business Purposes A
AIC386	Chinese for Business Purposes B
AIC287	Intensive Chinese In-Country A (no longer available for enrolment)
AIC388	Intensive Chinese In-Country B (no longer available for enrolment)

Chinese major sequence at advanced level for background speakers only.

### Level 1

AIC283	Chinese 2C
AIC284	Chinese 2D

### Level 2

AIC383	Chinese 3C (2 credit points)
AIC384	Chinese 3D (2 credit points)

**Level 3**

Advanced speakers must complete this major sequence by undertaking 2 credit points from the following units:

AIC387	Advanced Chinese for Business Purposes C
AIC389	Advanced Chinese for Business Purposes D
AIC390	Advanced Intensive Chinese In-Country (no longer available for enrolment)

**Indonesian**

Indonesian major sequence for students with no prior language study.

**Level 1**

AIF146	The Language, Culture and People of Indonesia
AIF142	Conversational Indonesian B
AIF145	Conversational Indonesian (2 credit points)*

\* AIF145 (Trimester 3 unit) can replace units AIF146 and AIF142 in the major. It cannot be studied in conjunction with either AIF146 or AIF142.

\* AIF145 not available to students who are waiting on an offer from VTAC for the current year.

**Level 2**

AIF241	Formal and Informal Indonesian A
AIF242	Formal and Informal Indonesian B

**Level 3**

AIF341	Professional and Academic Indonesian A (2 credit points)
AIF342	Professional and Academic Indonesian B (2 credit points)

*Note: Approved Study Abroad may replace either AIF341 or AIF342*

The Indonesian major sequence for students who have completed Indonesian at level 12 or equivalent (non-background speakers) begins at second level and consists of the following units:

**Level 1**

AIF241	Formal and Informal Indonesian A
AIF242	Formal and Informal Indonesian B

**Level 2**

AIF341	Professional and Academic Indonesian A (2 credit points)
AIF342	Professional and Academic Indonesian B (2 credit points)

**Level 3**

AIF345	Indonesian for Business Purposes ** OR
AIF321	Contemporary Issues in Indonesia **
AIF354	History and Development of the Indonesian Language ** OR
AIF320	Indonesian Society Through Literature **

Indonesian major sequence for students at advanced level for background speakers only.

**Level 1**

AIF341	Professional and Academic Indonesian A (2 credit points)
AIF342	Professional and Academic Indonesian B (2 credit points)

**Levels 2 and 3**

AIF320	Indonesian Society Through Literature **
AIF321	Contemporary Issues in Indonesia **
AIF345	Indonesian for Business Purposes **
AIF354	History and Development of the Indonesian Language **

\*\* AIF320, AIF321, AIF345, AIF354 – Students to check each unit for: Alternating odd or even year; Campus; and Trimester offerings

*Note: Approved Study Abroad may replace either AIF341 or AIF342*

## **Spanish**

Spanish major sequence for students with no prior language study.

### **Level 1**

- ALS100 Spanish 1A
- ALS150 Spanish 1B

### **Level 2**

- ALS200 Spanish 2A
- ALS225 Introduction to the Spanish-Speaking World
- ALS250 Spanish 2B

### **Level 3**

- ALS300 Intermediate Spanish 3A
- ALS325 Cultures of Resistance in the Spanish – Speaking World
- ALS350 Advanced Spanish 3B

The Spanish major sequence for students who have completed Spanish at level 12 or equivalent (non-background speakers) begins at second level and consists of the following units:

### **Level 1**

- ALS200 Spanish 2A
- ALS225 Introduction to the Spanish-Speaking World
- ALS250 Spanish 2B

### **Level 2**

- ALS300 Intermediate Spanish 3A
- ALS325 Cultures of Resistance in the Spanish – Speaking World
- ALS350 Advanced Spanish 3B

### **Level 3**

- ALS360 Selected Topics in Spanish
- ALS370 Advanced Topics in Spanish

# Associate Degree of Arts

<i>Year</i>	2019 course information
<i>Award granted</i>	Associate Degree of Arts
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Burwood (Melbourne), Waurn Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	2 years full-time or part-time equivalent
<i>Deakin course code</i>	A250
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 6.

## Course overview

University can be a challenge, which is why we've designed a course that offers you a supported learning environment and a guaranteed pathway into Deakin's Bachelor of Arts or Bachelor of Criminology. The Associate Degree of Arts teaches you the learning skills you need to be successful at university, including communication, digital literacy, critical thinking and teamwork skills. From your first trimester, you'll also complete units from your target degree (depending on which stream you choose).

Are you interested in studying at university but not sure you meet the entry requirements for a bachelor degree?

Deakin's Associate Degree of Arts is the perfect stepping stone to university study. You'll benefit from supported entry into tertiary study, while building your confidence and skills to complete your target degree.

Choose the general or criminology stream and learn how to navigate university in a supportive learning environment. You'll experience smaller class sizes with world-class teachers in our state-of-the-art facilities, and get a taste of what it takes to become a successful university student. In addition to foundation units, you can follow your passions by choosing from a range of electives including:

- advertising
- anthropology
- children's literature
- creative writing
- design
- history
- international relations
- journalism
- media studies
- public relations
- sociology
- visual arts.

If you're choosing the criminology stream, you'll learn the core theories and knowledge around crime, as well as having the opportunity to select a range of electives to complement your studies.

From day one you'll be a part of the Deakin community and campus atmosphere. Studying an associate degree prepares you to successfully complete further university study.

## Career opportunities

Upon graduation from the Associate Degree of Arts, you'll have the opportunity to continue studying or use the degree as a standalone qualification. You'll have guaranteed entry into our Bachelor of Arts or Bachelor of Criminology depending on which specialisation you take, plus receive credit that could put you straight into your second year.

You'll also have the opportunity to apply to transition into other bachelor degrees, including communication, design, psychology, health science, nursing, commerce, management or science.

An associate degree equips you with the skills to succeed in both university and your career.

## Pathways

Students who successfully complete the A250 Associate Degree of Arts are guaranteed entry into A300 Bachelor of Arts (General stream students) or A329 Bachelor of Criminology (Criminology Stream students) and may receive up to 16 credit points of Recognition of Prior Learning into these courses.

Following successful completion of the Associate Degree of Arts, students may also apply to transition, with credit, into a selected range of other Bachelor degrees, including Communications, Psychology, Health Science, Nursing, Commerce, Management or Science (including Marine Biology).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

### Generic

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire broad theoretical knowledge of and academic skills in the Arts, with some depth in the underlying principles and concepts in one or more disciplines or areas of practice in the Humanities, Social Sciences and/or the Creative Arts.  Develop cognitive, technical and creative skills to understand discipline specific language in the Arts and apply this knowledge in employment contexts or for further studies.
Communication	Acquire skills in oral, written and electronic communication and the ability to use these skills to coherently present knowledge and ideas in a range or contexts.
Digital literacy	Research, analyse and communicate information in using knowledge of, and technical skills in a range of digital technologies.
Critical thinking	Use cognitive skills to identify analyse and critically evaluate information through the application of principles, concepts and techniques in one or more disciplines or areas of practice in the Humanities, Social Sciences and/or the Creative Arts.
Problem solving	Apply cognitive, technical and analytical skills and knowledge of principles and concepts in the Arts to investigate and transmit responses to sometimes complex problems in the Humanities, Social Sciences and/or the Creative Arts.

Deakin graduate learning outcomes	Course learning outcomes
Self-management	Act with autonomy, responsibility and accountability in learning and working independently and in collaboration with others in professional, and scholarly contexts.
Teamwork	Work and learn collaboratively with others and as a member of a team.
Global citizenship	Understand and appreciate international perspectives in a global environment and act with awareness of ethics, cultural diversity and social responsibility in academic and work environments.

Approved by Faculty Board 2014

## Criminology Stream

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Review and analyse major social science theories and key criminological concepts, theories and technical knowledge relating to crime and criminal justice issues, including the causes and consequences of crime, ways of responding to crime, and core debates in policing and security as well as broader issues of policy and politics, inclusion and exclusion, governing and governance, security, social justice, citizenship and human rights.
Communication	Effectively communicate the findings and analyses of criminological concepts, theories and technical knowledge, in a selection of written, digital and oral formats, to a range of audiences.
Digital literacy	Employ a range of generic and specialist criminal justice-specific digital communication technologies to apply criminological knowledge, conduct research and deliver reports and presentations to a diverse range of audiences.
Critical thinking	Analyse and critically evaluate theoretical approaches to crime problems and current policies and practices of governments and criminal justice practitioners and professions.
Problem solving	Employ initiative and creativity in conjunction with accepted evidence-based criminological methods to identify solutions to sometimes complex problems in criminology.
Self-management	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skills development in the criminological field.
Teamwork	Work and learn collaboratively with others in the criminology field and from different disciplines and backgrounds while still maintaining responsibility for their own learning.
Global citizenship	Analyse and address criminological issues in the domestic and global context taking into consideration cultural and socio-economic diversity, social and environmental responsibility and the application of the highest ethical standards.

Approved by Faculty Board 2014

## Course rules

To qualify for the Associate Degree of Arts students will be required to complete 16 credit points of study, comprising:

- 4 credit points of foundation units
- 12 credit points of units taken from the General stream or the Criminology stream
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Foundation units

EAD110	Communication Skills for Study and Work
EAD111	Digital literacy: Finding, Evaluating and Interpreting Information
EAD112	Critical Thinking and Problem solving: Using Analysis to Develop Solutions
EAD113	Teamwork: Working Constructively with Others

### General stream

Major Sequence areas to be chosen from the Bachelor of Arts (A300). Please read the A300 course entry carefully for details of which major sequences are available at each campus location.

- 2 units from a first major sequence at level 1
- 2 units from a second major sequence at level 1
- 2 units from a third major sequence at level 1
- 2 electives at level 1
- 2 units from first major sequence at level 2
- 2 units from second major sequence at level 2

### Criminology stream

ACR101	Introducing Crime and Criminology
ACR102	Introducing Crime and Criminal Justice
ACR201	Issues in Criminal Justice
ACR202	Criminology Theory
ACR203	Crime, Victims and Justice
ACR204	Crime, Media and Justice

Plus 6 electives at level 1 (electives may be taken inside or outside the Faculty of Arts and Education)

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Arts

Year	2019 course information
Award granted	Bachelor of Arts
Duration	3 years full-time or part-time equivalent
CRICOS course code	012762C
Deakin course code	A300 (version 1)

Final offering of course version Trimester 3 2015

## Course overview

As a Deakin Arts graduate you will develop some of the most important skills a student can gain at university. You will become expert at managing knowledge and communicating information and develop skills of critical analysis and systematic thinking.

The Bachelor of Arts provides the opportunity to develop an imaginative understanding and appreciation of the theory and practice of the social sciences, humanities and arts. It will also give you: an enhanced cultural sensitivity; skills and knowledge relevant to employment in the modern workforce; and an understanding of information technology tools and systems used in learning and employment.

The degree is structured in a way that offers maximum flexibility. It gives you the opportunities to pursue your own interests and design courses of study that suit your needs. You may study particular areas in-depth or undertake a wide range of units.

You are required to complete at least one major sequence chosen from a variety of study areas including performing and creative arts, languages, history, media and communication, and sociology. Up to one-third of the course may be taken outside the Faculty of Arts and Education, providing even greater possibilities for interesting course combinations.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work, that are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Assessment

Assessment within the award of Bachelor of Arts varies from written assignments and examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises, and tests.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the Bachelor of Arts a student must complete 24 credit points of study including:

- an approved Arts major sequence of at least 8 credit points from the campus at which you are enrolled
- no more than 8 credit points taken outside the course-grouped units for the BA (in effect this means that up to 8 credit points may be taken outside the recognised Faculty of Arts and Education major sequences)
- no more than 10 credit points at level 1
- at least 14 credit points at level 2 or above
- 4 credit points at level 3

## Major sequences

Refer to the details of each major sequence for availability.

All students enrolled in the Bachelor of Arts course are required to complete at least one Arts major sequence offered on the campus at which they are enrolled.

Major	Campus	Notes
Animation	Burwood (Melbourne)	
Anthropology	Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)

Spanish	Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)	
Visual Arts	Burwood (Melbourne), Waterfront (Geelong)	

## Details of major sequences

### **Animation – unit set code MJ-AU00011**

#### *Burwood (Melbourne)*

The Animation major sequence offers the opportunity to develop a moving image, graphic and animation practice within the expanding digital domain. Students will explore digital animation production and publication options that include web, CD and DVD publication possibilities, and develop the skills to work with and manage such technologies effectively. Students are encouraged to develop skills in all aspects and types of animation production and learn to write and think analytically about such creative work.

On completion of the Animation major sequence students should have the following skills:

- An ability to implement and manage all stages of production of a professional digital animation project.
- An ability to develop a unique production path for a digital project for a variety of publication platforms.
- An ability to think and write effectively about innovative moving image animation work and digital culture.
- An ability to use advanced digital image production technologies.
- An ability to work in collaborative and team settings on graphic moving image tasks.
- An ability to work efficiently to deadlines in an industrial setting.

#### **Level 1**

AMC100 Unit no longer available for enrolment

AMC104 Unit no longer available for enrolment

#### **Level 2**

ACF212 Visual Effects and Motion Graphics (previously AMC203)

AMC204 3D Character Animation

ADA201 Creating 3D Characters (previously AMC226)

AMC228 Building 3D Objects & Worlds

**Level 3**

Select 2 credit points from the following:

- ACC317 Communication and Creative Arts Internship A (formerly ALX321)  
 AMC300 Pre-Production & Project Pitch  
 AMC327 Designing Animated Worlds

**Anthropology – unit set code MJ-A000007**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Anthropology is the study of the lives of people in a range of societies. This major sequence investigates kinship and family; gender; economic and political anthropology; work and consumption; religion, ritual and witchcraft; person, society and cosmos; death; the impact of and problems caused by expanding European nations on the peoples of Africa and the Pacific; globalisation; processes of change in the Third World; international tourism; festivals; medical anthropology; communal conflict; ethnicity; international migration and doing fieldwork.

On successful completion of the Anthropology major sequence, students should have the following skills:

- A detailed understanding of cultural diversity
- An appreciation of the full array of globalising forces at work in the contemporary world
- An ability to reflexively relate the cultural realities of other societies to their own social experience
- An informed and refined critical consciousness in regard to social life.

**Level 1**

- ASS101 Peoples of the World  
 ASS102 Culture and Communication

Select 6 credit points, including at least 2 credit points at level 2 and at least 2 credit points at level 3 from the following:

**Level 2 and 3**

- ASS203 Being Human (With the Nonhuman)  
 ASS204 Urban Spaces, Global Places  
 ASS205 Anthropology of Poverty and Development  
 ASS206 Medical Anthropology  
 ASS233 Myth and Ritual  
 ASS234 Environmental Anthropology  
 ASS330 Cyborg Anthropology  
 ASS329 Anthropology of Crime and Violence

**Arabic – unit set code MJ-A000029**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

The Arab countries of the Middle East and North Africa form an area of critical global importance having broad strategic, economic, religious and cultural influence. The Middle East comprises the fourth largest trading block among Australia's overseas trading partners, with the total value of Australia's trade with the Middle East more than doubling in the last decade.

The major sequence provides for the development of communication skills in modern standard Arabic and language fluency is enhanced through contextual knowledge of Middle Eastern history, culture and society. Students taking Arabic are encouraged to take complementary units in the relevant area studies in order to obtain sound background knowledge of the cultural, geopolitical and historical issues relevant to the regions where Arabic is spoken.

The following units complement the Arabic major sequence:

- AIE153 Historical Foundations of the Middle East  
 AIE154 Modern Middle East Politics  
 AIE255 Issues in Middle East Politics

## In-Country study

Competitive in-country scholarships are available to assist students in study in the Middle East. For further information please contact the experiential learning officer on telephone 03 5227 2693.

Students undertaking the Arabic major or the Language and Culture Studies major (referred to later) are encouraged to study abroad during the trimester 3. Intensive in-country units provide opportunities for students to increase their level of linguistic proficiency and cultural understanding. Deakin has well-established links with a number of institutions in Syria, Jordan, Oman and Tunisia. These relationships form an important feature of the Arabic program.

In-country units are offered at both second and third-level levels, and students who successfully complete these units will receive 2 credit points towards the major sequence. It is possible, therefore, for students to complete the major sequence in two levels. This is an excellent way of accelerating completion of the major. Not only is the in-country experience a unique part of the language study, the fact that students will have completed the major in two levels gives them flexibility in the third level to take additional units.

The Arabic major sequence is offered at two levels; beginners' level (little or no prior knowledge of the language) and post-level 12 Arabic.

On successful completion of the Arabic major sequence, students should have the following skills:

- An ability to read, comprehend and respond correctly in writing in Arabic
- An ability to listen, comprehend and communicate orally with correct grammar, pronunciation and intonation in Arabic
- An ability to understand oral interpreting and written translation tasks, from English into Arabic and vice versa, at an advanced level (post-level 12 level)
- An ability to use the language to research and understand various cultural practices in the Arab world.

Arabic major sequence for beginners

### Level 1

AIB151	Arabic 1A
AIB152	Arabic 1B

### Level 2

AIB205	Second Year Arabic In-Country (no longer available for enrolment)
AIB251	Arabic 2A
AIB252	Arabic 2B
AIB306	Third Year Arabic In-Country (no longer available for enrolment)

### Level 3

AIB351	Arabic 3A (2 credit points)
AIB352	Arabic 3B (2 credit points)

Students undertaking the beginners' sequence may undertake AIB309 and/or AIB310 in their final level as electives in addition to the prescribed major sequence.

The Arabic major sequence for students who have completed Arabic at year 12 or equivalent begins at second level and consists of the following units:

### Level 1

AIB251	Arabic 2A
AIB252	Arabic 2B

### Level 2

AIB205	Second Year Arabic In-Country (no longer available for enrolment)
AIB306	Third Year Arabic In-Country (no longer available for enrolment)
AIB351	Arabic 3A (2 credit points)
AIB352	Arabic 3B (2 credit points)

### Level 3

AIB309	Advanced Arabic Language Skills
AIB310	Introduction to Translation Skills

## **Australian Studies – unit set code MJ-A000012**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (Online)*

The Australian studies major sequence comprehensively examines major debates in Australian society in its global contexts. At each level, students are encouraged to explore a range of sources from popular culture to politics and policy.

On successful completion of the Australian Studies major sequence, students should have the following skills:

- An ability to reconstruct/explain social, political and cultural events;
- An ability to relate the global/international and the Australian;
- An ability to recognise the impact of the Australian past on the present;
- An ability to analyse change today and place contemporary issues and debates in context;
- An ability to incorporate a reflective perspective; that is, to illustrate the range of opinions between different scholars and disciplines on the subject and how and why interpretations have differed;
- An ability to evaluate media coverage of current political debates such as those over citizenship/identity and Indigenous issues;
- An ability to appreciate social, class, ethnic, cultural and gender differences;
- An ability to study Australian society from an interdisciplinary perspective.

Notes:

(i) *Australian Studies major sequence students must complete: The 4 core units AIA105, AIA106, AIA200 and AIA300 plus a further 4 credit points with at least 1 credit point at level 3 from the list below.*

(ii) *Warrnambool enrolled students are able to complete this major sequence via campus mode by selecting the following elective units AIH238, AIH337 and AIP230, in addition to the core units.*

### **Level 1**

- AIA105 Visions of Australia: Time and Space From 1700 to 2010 (CORE)  
 AIA106 Sex, Race and Australia's People (CORE) (No longer available for enrolment)

### **Level 2**

- AIA200 Indigenous Australians in the 20th Century (CORE) (No longer available for enrolment)  
 AIH238 Australia and the Two World Wars \*  
 AIH288 Exploring Australia's Indigenous Pasts  
 AIP230 Understanding Public Policy  
 AIP247 Media and Politics: Campaign Strategies

### **Level 3**

- AIA300 Australia's Asia: From Yellow Peril to Asian Century (CORE) (No longer available for enrolment)  
 AIG300 Australian Urban Geography: National and International Perspectives  
 AIH326 Australia's Empire: Colonialism in Papua New Guinea  
 AIH337 Race, Science and Religion in Australia 1860s to 1920s (No longer available for enrolment)

\* AIH238, AIH326 offered at Warrnambool via D@YD.

## **Childrens Literature – unit set code MJ-A000063**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (Online)*

In the Children's Literature major sequence, students explore a wide variety of literary and popular texts, from picture books for the very young and novels and films intended for young adults, to adult texts relevant to young people's literary education. The sequence focuses on how these texts imagine and convey ideas and values, and on the interplay between texts for young audiences and the social and cultural contexts in which they are produced and received. The sequence caters to students interested in children's literature as a prominent domain of literary production, and is of particular relevance to those who intend to work with children and young people as primary or secondary teachers and librarians, and those who wish to produce texts for young people. Units aim to equip students with critical, analytical and research skills which will enable them to critique texts for children and young people and to recognise the socialising agendas which inform them.

On successful completion of the major, students should have the following skills:

- An ability to recognise and critique the language and narrative strategies whereby texts for children and young people position readers
- An ability to read texts for children and young people in relation to cultural discourses and practices
- An ability to use critical terminology where appropriate, and to draw upon knowledge of relevant aspects of literary, visual and cultural theory
- An ability to articulate how various genres and forms of texts shape the communication of ideas and values to young audiences

Students must take 5 core units, and 3 selected units from listing below, of which at least 1 should be at level 3

#### Level 1

- ALL153 Literature for Children and Young Adults  
ALL154 Power Politics and Texts for Young People

#### Level 2

- ALL228 The Golden Age in Children's Literature  
ALL230 Re-Imagining Literature for Young People

#### Level 3

- ALL326 Gender, Sexuality and Texts for Young People

Select 3 credit points from the following, including at least one level 3 unit:

- ALL260 Australian Literature  
ALL375 Shakespeare: Six Plays, Six Worlds  
ALL381 Reading the End of Nature  
ACV203 Visual Narrative Studio – (No longer available for enrolment)  
ALL274 Supernatural Literature – (No longer available for enrolment)

### **Chinese – unit set code MJ-A000028**

#### *Burwood (Melbourne), Waurn Ponds (Geelong)*

Standard Chinese, commonly known as Mandarin Chinese, is a major language of the world. It is the official language in the People's Republic of China, Taiwan and Singapore and widely used in community groups in Hong Kong, South-East Asia, North America and Australia. Chinese is also one of the five official languages of the United Nations. China is Australia's biggest trading partner. Students studying Chinese are encouraged to select complementary units in Asian Studies in order to gain a sound background knowledge of the cultural, geopolitical and historical issues relevant to the regions where Chinese is spoken. Chinese is available at beginners, post-level 12 and advanced (background speaker) levels.

On successful completion of the Chinese Language major sequence, students should have the following discipline-specific skills:

- An ability to read, comprehend and respond correctly in writing in Chinese
- An ability to listen, comprehend and communicate orally with correct grammar, pronunciation and intonation in Chinese
- An ability to correctly interpret and translate from English into Chinese and vice versa
- An ability to function effectively and in an appropriate manner in the Chinese culture.

Chinese major sequence for beginners

#### Level 1

- AIC181 Chinese 1A  
AIC182 Chinese 1B

#### Level 2

- AIC281 Chinese 2A  
AIC282 Chinese 2B

**Level 3**

AIC381	Chinese 3A
AIC382	Chinese 3B

The Chinese major sequence for students who have completed Chinese at level 12 or equivalent (non-background speakers) begins at second level and consists of the following units:

**Level 1**

AIC281	Chinese 2A
AIC282	Chinese 2B

**Level 2**

AIC381	Chinese 3A (2 credit points)
AIC382	Chinese 3B (2 credit points)

Post-level 12 students who are not background speakers must complete this major sequence by undertaking 2 credit points from the following units:

AIC287	Intensive Chinese In-Country A (no longer available for enrolment)
AIC385	Chinese for Business Purposes A
AIC386	Chinese for Business Purposes B
AIC388	Intensive Chinese In-Country B (no longer available for enrolment)

Chinese major sequence at advanced level for background speakers only

**Level 1**

AIC283	Chinese 2C
AIC284	Chinese 2D

**Level 2**

AIC383	Chinese 3C (2 credit points)
AIC384	Chinese 3D (2 credit points)

**Level 3**

Advanced speakers must complete this major sequence by undertaking 2 credit points from the following units:

AIC387	Advanced Chinese for Business Purposes C
AIC389	Advanced Chinese for Business Purposes D
AIC390	Advanced Intensive Chinese In-Country (no longer available for enrolment)

***Criminology – unit set code MJ-A000045***

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Criminology is an engaging field of study with diverse career prospects. A Bachelor of Arts with a major sequence in criminology provides a solid educational foundation in the principles of criminological thoughts and research that will enable graduates to choose between seeking employment in related industries and seeking to undertake further study. Deakin's criminology program involves broad fields of study with students covering a considerable breadth and depth of crime and criminal justice issues, as well as specialisation in areas such as victimology, media, terrorism, crime prevention, security and surveillance.

The major sequence aims to produce graduates with the ability to engage in debates concerning crime and justice issues, matters that are part of everyday life, and practical knowledge and skills in an engaging field of study with diverse career prospects.

In line with Deakin's commitment to providing flexible study options, you can choose to study the Bachelor of Arts (major sequence in criminology) full time or part time, at Waurn Ponds (Geelong) or via Cloud (online) mode. All subjects provide considerable online activities.

You will also have the opportunity to significantly fast-track your studies, completing the course in just two years by making the most of Deakin's trimester system.

## Career opportunities

As a graduate of this major promising career opportunities await in both the public and private sector, state and federal police, intelligence agencies, and a range of law enforcement, anti-corruption and crime prevention agencies at federal, state and local government level, as well as in correctional services, community services and private security industries.

### Students commencing from 2014:

The Criminology major sequence comprises 8 credit points of ACR coded units including the following compulsory six core units: ACR101, ACR102, ACR201, ACR202, ACR301 and ACR302, plus 2 ACR coded elective units.

#### Level 1

ACR101	Introducing Crime and Criminology (core)
ACR102	Introducing Crime and Criminal Justice (core)

#### Level 2

ACR201	Issues in Criminal Justice (core)
ACR202	Criminology Theory (core)
ACR203	Crime, Victims and Justice
ACR204	Crime, Media and Justice
ACR210	Crime, Surveillance and Society
ACR211	Crime Prevention and Security
ACR212	Crime, Surveillance and Technology
ACR213	Crime, Terrorism and Security

#### Level 3

ACR301	International and Comparative Criminal Justice (core)
ACR302	Criminology Research (core)

### Students who commenced prior to 2014:

Continuing Criminology students who commenced prior to 2014 to contact Student Services Office for re-enrolment advice and to review Course Plans. From 2014, most Criminology ASL coded units have been replaced with Criminology ACR coded units.

Students applying with prior study or recognition for prior learning will need to contact the student services office to review their enrolment plans.

## **Dance – unit set code MJ-A000025**

### *Burwood (Melbourne)*

Each unit within the Dance major sequence develops practical skills in contemporary technique and choreography and interrelates this learning with theoretical studies in dance history, analysis and aesthetics. There is an ongoing development of technique, craft, and theory over the three level levels, with class material becoming increasingly specialised and challenging as students' progress. Skills in oral and written communication, personal and group management, reflection and decision-making are developed over the three level levels in tandem with the development of physical, compositional and research skills. This learning intensifies at level 3 with production and research project units which not only place students' work in a public and professional context, but also focus on the development of specialised skills in the associated technical, production, marketing and administration areas.

On successful completion of the dance major sequence, students should have the following discipline-specific skills:

- an ability to demonstrate high-level contemporary dance technique
- an ability to demonstrate well-developed independent choreographic practice
- an ability to think and write analytically about dance and its values
- an ability to manage artistic and technical aspects of dance promotion
- an ability to learn and apply safe dance practices for maintenance of physical and personal wellbeing

**Level 1**

- ACD101 Introduction to Contemporary Dance Practice A  
 ACD102 Introduction to Contemporary Dance Practice B

**Levels 2 and 3**

- ACD203 Contemporary Dance Practice and History A [No longer available for enrolment]  
 ACD204 Contemporary Dance Practice and History B [No longer available for enrolment]  
 ACD307 Specialised Technique and Dance Performance  
 ACD309 Major Choreographic Project A: Process  
 ACD310 Major Choreographic Project B: Performance (2 credit point)

*Note: the following may also be taken in addition to the prescribed major sequence.*

- ACC317 Communication and Creative Arts Internship A  
 ACC318 Communication and Creative Arts Internship B  
 ACD110 Dance Improvisation and Body Awareness [No longer available for enrolment]

**Drama – unit set code MJ-A000031****Burwood (Melbourne)**

This major sequence provides skills in contemporary drama practices and perspectives, together with an understanding of their application in a wide range of artistic and social contexts. It includes acting theory and practice, performance styles and processes, theatre history, text studies, community theatre and technical studies.

On successful completion of the Drama major sequence, students should have the following discipline-specific skills:

- an ability to develop individual vocal technique and voice production
- an ability to understand and respond to the technical, expressive and/or compositional demands of a range of performance styles and genres
- an ability to successfully achieve performance realisation based on chosen compositional and performance strategies
- an ability to analyse, compose and collaborate in order to build effective relationships between actor, director, designer and writer in processes of performance realisation.

**Level 1**

- ACP109 Improvisation: Principles in Action  
 ACP177 Genre and Performance – (No longer available for enrolment)

**Level 2**

Select one of:

- ACP205 Performance, Image, Site  
 Or  
 ACP206 Adaptation and Solo Performance  
 and  
 ACP280 Major Performance Project: Page to Stage (No longer available for enrolment, alternate unit ACP281)  
 ACP207 Practical Approaches to Dramatic Text

**Level 3**

- ACP323 Out of the Box: Theatre in Alternative Contexts  
 ACP378 Out of the Ether: Devised Theatre (2 credit points)

The following units may also be taken in addition to the prescribed major sequence.

- ACC317 Communication and Creative Arts Internship A  
 ACC318 Communication and Creative Arts Internship B

**Film and Video – unit set code – MJ-A000046.1***Continuing students only***Burwood (Melbourne)**

The Film and Video major sequence aims to develop students' creative and critical thinking while providing a practical and theoretical grounding in the production and application of film, video and television. The sequence puts these media in the historical and social context of the institutions, technologies and artistic and personal forces from which they have emerged.

In level 1, students learn formal and theoretical concepts through analysis of case studies and a series of projects which demand individual input, team collaboration, as well as recording, filming, direction, and post-production techniques. Collaborative skills are extended in level 2 through investigation of team management, narrative, representation, editing, and audiences, as well as the relationship between the actor, director, producer and exhibitor.

Students also undertake case studies in genre and the creative practices and aesthetic approaches of significant practitioners or movements. The final level provides opportunities for students to develop unique and individual creative practices through units including Documentary Production Practice which explores the use of actuality in narrative, as well as the Independent Production Practice, which explores non-representational, contemplative and oppositional structures, together with strategies that rework or synthesise conventional forms.

**Level 1**

ACF105 Sound, Light, Motion – Unit no longer available for enrolment

ACF106 Screen Practices

Select 6 credit points, including at least 2 credit points at level 3 from the following:

**Level 2**

ACF201 Short Fiction Film

ACF205 Television Studio Production

ACF206 Contemporary Topics in Screen Cultures

**Level 3**

ACC317 Communication and Creative Arts Internship A

ACC318 Communication and Creative Arts Internship B

ACF301 Independent Production Practice – Unit no longer available for enrolment

**Film Studies – unit set code MJ-A000046.2****Burwood (Melbourne)**

The Film Studies major sequence aims to develop students' creative and critical thinking while providing a practical and theoretical grounding in the production and application of film, video and television. The sequence puts these media in the historical and social context of the institutions, technologies and artistic and personal forces from which they have emerged.

In level 1, students learn formal and theoretical concepts through analysis of case studies and a series of projects which demand individual input, team collaboration, as well as recording, filming, direction, and post-production techniques. Collaborative skills are extended in level 2 through investigation of team management, narrative, representation, editing, and audiences, as well as the relationship between the actor, director, producer and exhibitor.

Students also undertake case studies in genre and the creative practices and aesthetic approaches of significant practitioners or movements. The final level provides opportunities for students to develop unique and individual creative practices through units including Documentary Production Practice which explores the use of actuality in narrative, as well as the Independent Production Practice, which explores non-representational, contemplative and oppositional structures, together with strategies that rework or synthesise conventional forms.

**Level 1**

- ACF103 Writing with the Camera  
ACF104 Screening History

**Level 2 and 3**

- ACF202 Documentary Production  
ACF205 Television Studio Production  
ACF206 Contemporary Topics in Screen Cultures  
AIH263 History Written with Lightning: Film and the Past (No longer available for enrolment)  
ACF301 Independant Production Practice – Unit no longer available for enrolment  
ACF320 The Australian Moving Image

The following unit is also available in addition to the major sequence:

- ACC317 Communication and Creative Arts Internship A  
ACC318 Communication and Creative Arts Internship B

**History – unit set code MJ-A00023**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

In History, students explore the historical precursors of the modern world: the forces and great events of especially the nineteenth and twentieth centuries, and the ways historians have interpreted them. Among the themes given special attention are war and peace, modernisation and social change, colonialism, nationalism and internationalism, gender in history and the Holocaust. In focusing on such themes, students can choose a sequence from units which cover American, African-American, Asian, Australian and European histories. All units aim to stimulate and challenge students to come to understand past human behaviour and to acquire critical, analytical and research skills. Students should note that not all units are currently available at all campuses.

On successful completion of the History major sequence, students should have the following discipline-specific skills:

- an ability to illustrate the range of opinion between historians on the subject and how and why historians' interpretations have differed
- an ability to distinguish between different types of written material in terms of their function, authorship and intention
- an ability to place a primary source document in its contemporary framework
- an ability to initiate and conduct interviews and respect the interviewee as a source
- an ability to be sensitive to the need for appreciation of cultural and gender differences
- an ability to reflect on the ways in which we construct the past.

**Level 1**

At level one students must select the two units listed below:

- AIH107 World History Between the Wars 1919–1939  
AIH108 The Cold War World: 1945–1991

**Levels 2 and 3**

Select 6 credit points, ensuring at least 2 credit points at level 2 and at least 2 credit points at level3 from the list below:

At level 2, all students must include AIH264 and/or AIH288. At level three all students must take the unit AIH399.

**Level 2**

- AIH203 Papua New Guinea: Exploring Village, Nation and the Kokoda Track (No longer available for enrolment)  
AIH205 Sex and Gender in the British Empire  
AIH238 Australia and the Two World Wars  
AST256 Sport in History  
AIH263 History Written with Lightning: Film and the Past (No longer available for enrolment)  
AIH264 The Holocaust (Optional core unit 1)  
AIH266 Modern Asian History (No longer available for enrolment)  
AIH267 Conflict and Its Legacies in Modern Asia  
AIH288 Exploring Australia's Indigenous Pasts (Optional core unit 2)

**Level 3**

AIH320	History Internship (no longer available for enrolment)
AIH326	Australia's Empire: Colonialism in Papua New Guinea
AIH389	The French Revolution and the Struggle for Freedom
AIH399	Making History (Core unit)

**Indonesian – unit set code MJ-A000030**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Indonesia is Australia's nearest Asian neighbour and the fourth most populous country in the world. There are more than 220 million people who speak Bahasa, Indonesia, the national language.

Indonesia is increasingly important to Australia economically, politically and culturally: knowledge of Indonesian language and culture is a desirable asset in many fields. Student who have completed university study of Indonesian typically find employment in business, government service, and a wide range of service industries including travel, tourism and communication.

Additionally, Bahasa Indonesia is offered by many Australian schools and an ability to teach the language is a sought-after qualification for primary and secondary teachers. The Indonesian language program gives students a high level of mastery of spoken and written Bahasa Indonesian and also provides a thorough understanding of Indonesian culture and way of life.

**In-Country study**

The Faculty offers the opportunity for students to undertake in-country studies of Indonesian at third year levels. Students who successfully complete these units will receive credit towards the major sequence. It is possible, therefore, for students to complete the major in two levels. This is an excellent way of accelerating completion of the major. Not only is the in-country experience a unique part of the language study, the fact that students can complete the major before their third level also gives some flexibility in the third level to take additional units.

On successful completion of the Indonesian language major sequence, students should have the following skills:

- an ability to read, comprehend and respond correctly in writing in Indonesian
- an ability to listen, comprehend and communicate orally with correct grammar, punctuation and intonation in Indonesian
- an ability to read and interpret written Indonesian
- an ability to read, comprehend, apply and synthesise original Indonesian sources
- an ability to compare and contrast Indonesian and Australian society

To obtain a major sequence in Indonesian, students must complete 8 credit points. There are two possible pathways to do this, beginners' and post-level 12.

Indonesian major sequence for those entering at beginners' level

**Level 1**

AIF142	Conversational Indonesian B
AIF145	Conversational Indonesian *
AIF146	The Language, Culture and People of Indonesia

\* AIF145 (Trimester 3 unit) can replace units AIF146 and AIF142 in the major. It cannot be studied in conjunction with either AIF146 or AIF142.

\* AIF145 not available to students who are waiting on an offer from VTAC for the current year.

**Level 2**

AIF241	Formal and Informal Indonesian A
AIF242	Formal and Informal Indonesian B

**Level 3**

AIF341	Professional and Academic Indonesian A (2 credit points)
AIF342	Professional and Academic Indonesian B (2 credit points)

Indonesian major sequence for those entering at post-level 12 level

### Level 1

AIF241	Formal and Informal Indonesian A
AIF242	Formal and Informal Indonesian B

### Level 2

AIF341	Professional and Academic Indonesian A (2 credit points)
AIF342	Professional and Academic Indonesian B (2 credit points)

### Level 3

AIF345	Indonesian for Business Purposes **
Or	
AIF321	Contemporary Issues in Indonesia **
AIF354	History and Development of the Indonesian Language **
Or	
AIF320	Indonesian Society Through Literature **

\*\* AIF320, AIF321, AIF345, AIF354 – Students to check each unit for: Alternating odd or even year; Campus; and Trimester offerings.

Indonesian stream for students at advanced level for background speakers only

### Level 1

AIF341	Professional and Academic Indonesian A
AIF342	Professional and Academic Indonesian B

### Level 2 and 3

AIF320	Indonesian Society Through Literature **
AIF321	Contemporary Issues in Indonesia **
AIF345	Indonesian for Business Purposes **
AIF354	History and Development of the Indonesian Language **

\*\* AIF320, AIF321, AIF345, AIF354 – Students to check each unit for: Alternating odd or even year; Campus; and Trimester offerings

*Note: Approved Study Abroad may replace either AIF341 or AIF342*

## **Journalism – unit set code MJ-A000014**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (Online)*

This major sequence provides students with the skills and knowledge to become qualified journalists in the broadcast and print media. Initially, studies focus on the mass media and the extent to which journalists live up to the ethical standards set both by their profession and the expectations of the public. Comparative studies focus on the role of journalists and the news media in different political systems and cultures. Students will gain an understanding of the theoretical and practical elements of radio and television journalism, and the role radio plays as a communication medium. The laws of defamation and other legal constraints to which the profession of journalism is subject are examined in the final level. Students will also develop research techniques, practical skills and an understanding of the methods and techniques required for specialist writing. The writing component within the course is intensive, to bring students' work to a standard that can be published in a daily newspaper or mainstream magazine.

On successful completion of the Journalism major sequence, students should have the following skills:

- an ability to write in academic style with adequate referencing
- an ability to identify, research, write and construct stories suitable for print, broadcast and online media
- an ability to interview for print, broadcast and online media and select material for inclusion in stories
- an ability to analyse the social role of journalism both nationally and internationally and identify the theoretical issues raised by news, current affairs and feature publications and programs
- an ability to appreciate the role of the production process in any media product
- an ability to work in teams and to develop presentation skills in a group setting.

Students must complete 8 credit points from the list below:

### Core units

#### Level 1

- ALJ111 News Reporting 1
- ALJ112 News Reporting 2

Students to select 6 credit points from below units:

#### Level 2

- ACC213 Media Law and Ethics
- ALJ215 Multi-Platform Journalism – (No longer available for enrolment)
- ALJ216 Feature Writing
- ALJ218 Audio Journalism
- ALJ220 Journalism in Society

#### Level 3

- ALJ319 Broadcast Journalism (Television) – (No longer available for enrolment)

- \* ALJ321 Journalism Internship (Final year of offer 2017 – students to select ACC317 from 2018)
- \* ACC317 (Formerly ALJ321) – Internship units are normally undertaken in third level (or equivalent) and are subject to completion of specified prerequisite units and special application requirements. Interested students should contact Arts and Education Student Services and Enrolment Enquiries on their campus for further information.

### **Language and Culture Studies – unit set code MJ-A00052**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Students must complete a 4 credit point sub-major in one of the languages: Arabic, Chinese, or Indonesian. In addition, students must select 4 credit points of contextual studies units, which must include at least 2 credit points at level 3, from the elective list below.

#### Arabic sub-major

Students must complete 4 credit points of Arabic units (AIB)

#### Chinese sub-major

##### Levels 1 and 2

Students must complete 4 credit points of Chinese units (AIC)

#### Indonesian sub-major

Students must complete 4 credit point of Indonesian units (AIF)

#### Elective units

- AIE153 Historical Foundations of the Middle East
- AIE154 Modern Middle East Politics
- AIE255 Issues in Middle East Politics
- AIE334 China: From Empire to Republic
- AIE335 Modern China: Liberation, Cultural Revolution and Reform
- AIR243 Unit no longer available for enrolment
- ASC233 International Migration and Multicultural Societies
- ASR100 World Religions

**Literary Studies – unit set code MJ-A000013***Burwood (Melbourne), Waurn Ponds (Geelong) Warrnambool, Cloud (Online)*

The Literary Studies major sequence is interdisciplinary and theoretical in orientation. The units focus attention on literary texts in the contexts of their production and reception. Insights from anthropology, philosophy, psychology, history and linguistics form part of this process. There are opportunities for creative writing alongside critical analysis. Texts studies range from Shakespearean plays to recent world fiction and poetry.

On successful completion of the Literary Studies major sequence, students should have the following discipline-specific skills:

- an informed ability to read texts of a wide variety
- an ability to write creatively as an extension of literary studies texts
- an ability to conduct a comparative analysis of text/culture relationships
- an ability to explain the intercultural and cross-cultural forces in human society and history in so far as they are reflected in literature
- an ability to understand and apply methodologies of contemporary literary criticism and theory
- an ability to critically appreciate the nature of disciplinary knowledge in Literary Studies
- an ability to reflect upon different theoretical positions in relation to literary and non-literary texts.

*Note: this major is only available to students at Warrnambool who are already formally enrolled in the major.*

**Literary Studies major sequence***Burwood (Melbourne), Waurn Ponds (Geelong) and Cloud (online) mode*

Students must take all of the following units at level 1 and 2 and then select 2 units at Level 3

**Level 1**

- ALL101 The Stories We Tell: Inventing Selves and Others  
 ALL102 From Horror to Romance: Genre and Its Revisions

**Level 2**

- ALL201 Love Death and Poetry – (No longer available for enrolment)

ALL376	Classics and Trash
ALL375	Shakespeare: Six Plays, Six Worlds

### **Mathematical Modelling – unit set code MJ-S000007**

*Continuing students only*

Students enrolled in a Bachelor of Arts degree may undertake an 8-credit-point major sequence in mathematical modelling offered by the Faculty of Science, Engineering and Built Environment.

For details of the Mathematical Modelling major sequence refer to the Bachelor of Science.

### **Media Studies – unit set code MJ-AU00008**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Media Studies is a dynamic and versatile field that responds to a rapidly changing environment and produces graduates who have the skills and knowledge to adapt to shifting communication climates. Students will engage in critical analysis, creative application, and vocational-led study in units that involve the examination and creation of various virtual and non-virtual media texts. The major sequence explores themes such as social media and surveillance, advertising and consumerism, media genre and representation, issues of piracy and censorship, and media industry processes of planning and production – areas pertinent to numerous Media and Cultural industries (incorporating digital media, film, television, marketing and advertising, among others).

*Warrnambool students please note: this major is only available to students at Warrnambool who are already formally enrolled in the major.*

#### **Core units**

##### **Level 1**

ALC104	Media Genres: Negotiating Textual Forms and Pleasures
ALC105	Media Culture and Technological Transformations: Living in the Digital Age – (No longer available for enrolment)

## **Middle East Studies – unit set code MJ-A000053**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

A major in Middle East Studies will give students a comprehensive understanding of the events and issues shaping the region. There will be emphasis on both historical and contemporary issues relevant to the analysis of the Middle East as a regional system, as well as its place in the international system. A particular stress will be placed on the changing role of the United States in the Middle East since the end of the Cold War and its push to reshape the region's political landscape according to American national interests. Several of the endemic conflict situations that exist in the Middle East will be examined throughout the sequence, including the War on Terror; the invasion and occupation of Iraq, the Israel-Palestine impasse; the 2006 Israel-Lebanon crisis; Iran's nuclear ambitions, and the role of 'rogue states'.

On successful completion of the Middle East Studies sequence, students should have the skills and capacities to:

- comprehend and critically analyse debates in relation to the Middle East
- understand the organisation of government in the Middle East and North Africa
- communicate clearly, in written and oral form, about the issues of the Middle East
- understand and explain the principles that inform political action at local, national and global levels in relation to the region
- articulate a coherent argument in response to set topics
- identify, understand and analyse political ideas and arguments

### **Level 1**

#### **Core units**

ASP216 Ethics in Global Society

**International Relations – unit set code MJ-A000018***Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

The International Relations major sequence focuses on understanding conflict and cooperation and, war and peace in contemporary international politics. Students examine the system of states before, during and after the Cold War, the nature of power and security, global issues, human rights and Australia's place in the world.

On successful completion of the International Relations major sequence, students should have the following discipline-specific skills:

- an ability to identify and critically synthesise themes and arguments
- an ability to develop policies within real-world contexts
- an ability to distinguish declaratory policy from operational policy (i.e. words from deeds)
- an ability to understand and explain the international forces which shape our environment.

Students majoring in International Relations should also consider a complementary major sequence or electives in Politics and Policy Studies or major or minor in Middle East Studies.

AIR348 Activists Beyond Borders

AIR349 Diplomacy and the United Nations

**Philosophy – unit set code MJ-A000048***Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Philosophy provides an introduction to most of the central themes in contemporary philosophical studies. A distinctive feature of the major is its focus upon Asian philosophy, psychoanalysis and philosophy as practiced in continental Europe. Individual units cover questions which deal with the nature of human existence; value, belief and purpose; and knowledge and belief.

On successful completion of the Philosophy major sequence, students should have the following skills:

- an ability to develop and articulate abstract ideas
- an ability to reflect upon and critique assumptions about life, values and society
- an ability for logical thinking and rational argument
- an ability to debate philosophical issues arising in fields such as ethics, political values, knowledge systems, religion and interpersonal relationships.

**Level 1**

- ASR100 World Religions
- ASP109 Freedom and Power: Existentialism and Beyond
- ASP129 Love, Sex and Death

**Levels 2 and 3**

Select 6 credit points with at least 2 credit points at level 2 and at least 2 credit points at level 3 from the following:

- ASP208 Introduction to Logical Reasoning
- ASP214 Justice and Equality
- ASP215 Philosophy, Happiness, and the Good Life
- ASP216 Ethics in Global Society
- ASP224 Freud and Philosophy
- ASP227 Philosophies of Religion: Western, Asian, and Contemporary Inquiries
- ASP228 Philosophy, Art, Film
- ASP263 Buddhist Studies in India
- ASP210 Plato and Nietzsche
- ASP309 20th Century French Philosophy
- ASP326 Language and Reality

**Photography – unit set code MJ-A000049*****Burwood (Melbourne)***

The Photography major sequence is based around creative, critical and professional practice. Students can choose to develop their artistic, academic or professional aspirations.

Level 1 introduces students to the basics of photographic techniques and practice and to the history of photography with respect to Australian and international artists. Using analog and digital technologies, students explore the uses of referent-based and non-referent based images as social and cultural artefacts.

Level 2 introduces a range of professional analog and digital photographic formats, darkroom and studio environments as well as the application of photographic imagery in virtual and collaborative environments at a global level. Students also engage in the discourse that surrounds contemporary photographic practice.

Level 3 introduces students to a range of alternative analog and digital photographic formats and their application in creative practice. Students are strongly encouraged to experiment, research and develop their own conceptual and aesthetic sensibilities. The work undertaken at this level is applicable to exhibition, installation, multimedia, and collaborative productions and provides a strong basis for further postgraduate studies and professional practice.

**Level 1**

- ACI101 Analogue Photography
- ACI102 Digital Photography

**Level 2**

- ACI201 Alternative Imaging
- ACI202 Digital Imaging 2: Advanced
- ACI203 Darkroom Practices
- ACI204 Contemporary Documentary and Narrative Photography

**Level 3**

Select 2 credit points from the following:

- ACC317 Communication and Creative Arts Internship A
- ACI301 Experimental Photography and Creative Practice
- ACI302 Photographic Lighting 2: Studio Lighting

## **Politics and Policy Studies – unit set code MJ-A000005**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (Online)*

In Politics and Policy Studies, students will examine issues of power and authority through studies of policy, institutions and political movements. Students will also be introduced to the political values, ideas and ideologies that orient political action. Throughout the sequence of units, students will be encouraged to understand contemporary political problems at local, national and global levels. Key themes include democracy, citizenship, globalisation, the environment and gender. Our units are intended to encourage student to make better sense of the world in which they live and to understand the current social and political challenges they face. Central is a concern to understand how Australian and global institutions ought to respond to complex policy problems in an era of globalisation and rapid change.

On successful completion of the Politics and Policy Studies sequence, students should have the skills and capacities to:

- comprehend and critically analyse political issues and policy debates
- identify, understand and analyse political ideas and arguments
- understand and explain the principles that inform political action at local, national and global levels
- understand the organisation of government in Australia and other countries
- apply key political concepts to contemporary debates and policy issues
- communicate clearly, in written and oral form, about political issues and policy options.

### **Level 1**

AIP107 Introduction to Politics  
AIP116 Visions and Values in Politics

### **Level 2**

Select 4 credit points at level 2 from the following:

AIE255 Issues in Middle East Politics  
AIP209 Asylum Challenges in Australia and Asia  
AIP230 Understanding Public Policy  
AIP243 Europe's Political Transformation  
AIP245 Environmental Politics  
AIP247 Media and Politics: Campaign Strategies  
AIR292 Study Tour: America and the International System

### **Level 3**

AIP300 Democracy and Dissent  
AIP301 Political Parties and Social Movements

## **Psychology – unit set code MJ-H000008**

*Continuing students only*

Students enrolled in a Bachelor of Arts may undertake a major sequence in psychology offered by the Faculty of Health as a major sequence within their BA degree.

The Psychology major sequence is course-grouped for the Bachelor of Arts, that is, the units do not count towards the eight non-course-grouped units able to be taken outside the Faculty.

Students intending to become psychologists, however, must take four levels of academic study (three levels of undergraduate study, including ten units of Psychology, plus either a level-4 Honours in Psychology or the level-4 Graduate Diploma of Psychology). The 10-credit-point undergraduate Psychology sequence consists of two units at level 1, HPS111 and HPS121, five units at level 2, HPS201, HPS202, HPS203, HPS204 and HPS205 plus three units at level 3, HPS301, HPS307 and HPS308.

Students may also choose to take a limited sequence in psychology of 8 credit points (depending on the requirements of their course). These sequences are designed as terminal studies in psychology to complement other studies within an award. They do not meet the requirements for entry into fourth-level studies in psychology, nor will they lead to professional qualifications in psychology. Students may also choose to take individual elective units in psychology, if they have the relevant prerequisites.

The 8-credit point sequences normally consist of two units at level one, HPS111 and HPS121, two or three units at level 2, selected from HPS202, HPS203, HPS204 and HPS205, and two or three units at level 3, selected from HPS302, HPS303, HPS304 and HPS307, HPS308 and HPS395. Students wishing to take alternative psychology units must seek approval from the School of Psychology.

**Level 1**

- HPS111 Psychology A: Fundamentals of Human Behaviour
- HPS121 Psychology B: Individual and Social Development

**Level 2**

Select 3 units from level 2 from the list below:

- HPS202 Child and Adolescent Development
- HPS203 The Human Mind
- HPS204 Human Social Behaviour
- HPS205 Brain, Biology and Behaviour (No longer available for enrolment)

**Level 3**

Select 3 units from level 3 from the list below:

- HPS302 Pathways Through Adulthood
- HPS303 Cognition and Behaviour – No longer available for enrolment.
- HPS304 The Social Psychology of Relationships
- HPS307 Personality
- HPS308 Psychopathology
- HPS395 Cognitive Neuroscience

The 10 credit point undergraduate Psychology sequence consists of two units at level 1, HPS111 and HPS121, five units at level 2, HPS201, HPS202, HPS203, HPS204 and HPS205 plus three units at level 3, HPS301, HPS307 and HPS308.

**Level 1**

- HPS111 Psychology A: Fundamentals of Human Behaviour
- HPS121 Psychology B: Individual and Social Development

**Level 2**

- HPS201 Research Methods in Psychology A (Core unit)
- HPS202 Child and Adolescent Development
- HPS203 The Human Mind
- HPS204 Human Social Behaviour
- HPS205 Brain, Biology and Behaviour (No longer available for enrolment)

**Level 3**

- HPS301 Research Methods in Psychology B
- HPS307 Personality
- HPS308 Psychopathology

## **Professional and Creative Writing – unit set code MJ-A000062**

*Burwood (Melbourne), Waurn Ponds (Geelong)*

Gain expertise, practical experience and develop creative skills. In all units, the emphasis is on publication or the achievement of professional standards. Initially, you undertake various forms of constructive, descriptive and narrative writing, progressing to editing, non-fiction and fiction writing, script writing and poetry writing.

You may find employment in freelance editing and writing, finance, health and manufacturing industries, government departments, media and entertainment industries, publishing companies, tourism, hospitality and service industries.

### **Level 1**

ALW101 Writer's Toolkit: Craft and Creativity  
ALW102 Writing Spaces: Paradigms and Provocations

### **Level 2 and 3**

Select 6 credit points, including at least 2 credit points at level 2 and 2 credit points at level 3 from the following:

ALW205 The Role of the Editor  
ALW223 The Lyric Essay: Playing with Ideas  
ALW225 Designing Fictions  
ALW227 Scriptwriting: Character, Event, Consequence  
ALW395 Experimental Writing Lab  
ALW396 Producing Digital Anthologies: From Concept to Publication (2 credit points)

The following writing-related elective may be taken in addition to the prescribed major sequence:

AIX117 Professional Writing for Work

## **Public Relations – unit set code MJ-A000021**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (Online)*

The Public Relations major sequence is concerned with the management of communication between people, agencies and various publics. Students will study such areas as crisis and issues management, organisational public relations and public relations campaigns; and will develop the necessary skills for effective public relations.

On successful completion of the Public Relations major sequence, students should have the following discipline-specific skills:

- an ability to explain the role of public relations in society;
- an ability to differentiate between the various areas of public relations;
- an ability to explain the legal and regulatory context of public relations;
- an ability to prepare public relations strategies using traditional, internet and social media tactics;
- the ability to write and communicate for public relations practice across a broad range of professional contexts.

### **Core units**

#### **Level 1**

ALR103 Introduction to Public Relations  
ALR104 Strategic Communication and Writing

Select 6 credit points, including at least 2 credit points at level 2 and at least 2 credit points at level 3 from the following:

### Level 2 and Level 3

ALR206	Social Media Strategy and Tactics – (No longer available for enrolment)
ALR207	Media Relations – (No longer available for enrolment)
ALR276	Ethical Communication and Citizenship
ALR279	Public Relations Management
ALR300	Public Relations Campaigns and Practice (2 credit points)
ALR310	Marketing Communication – (No longer available for enrolment)
ALR383	Lobbying, Advocacy and Public Opinion

### **Social and Political Thought – unit set code MJ-A000050**

*Continuing students only. Final year of offer 2016.*

This major sequence ranges across communications, politics, sociology, philosophy, gender studies, and international relations. A focus on theorising about society and politics is the common theme. This major has no corresponding Honours programme, but it offers a good supplement for any students interested in undertaking Honours in Sociology, Politics, Philosophy, Communications, or International Relations.

### Level 1

ALC101	Contemporary Communication: Making Sense of Text, Image and Meaning (No longer available for enrolment)
AIP116	Visions and Values in Politics
Or	
ASC102	Introduction to Sociology B

### Levels 2 and 3

Select 6 credit points, including at least 2 credit points at level 3 from the following:

AIP300	Democracy and Dissent
AIP301	Political Parties and Social Movements
ALC209	Screening Contemporary Masculinities (No longer available for enrolment)
ASC308	Social Theory Rewired: Power, Passion and Post Humanism
ASP214	Justice and Equality
ASP215	Philosophy, Happiness, and the Good Life
ASP216	Ethics in Global Society

### **Sociology – unit set code MJ-A000019**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (Online)*

Sociology is the study of society and social relations. Thinking sociologically allows the individual to step outside the taken for granted processes of everyday living towards examining the processes which create, maintain and change social groups in society.

On successful completion of the Sociology major sequence, students should have the following discipline-specific skills:

- an ability to explain key sociological concepts such as socialisation, modernity, postmodernity, gender, social class, race and ethnicity; an ability to identify core theoretical understandings in sociology
- an ability to apply sociological analysis to a range of contemporary issues such as health, family life, deviance and the media
- an ability to understand conflict, cohesion and social change in societies
- an ability to explain the systems, practices and technologies of control and their historical transformation in Western cultures
- an ability to recognise the impact of social policy on social life
- an ability to critically assess the work of other social researchers.

**Level 1**

ASC101	Introduction to Sociology A
ASC102	Introduction to Sociology B

**Level 2 and 3**

Select 6 credit points, including compulsory core units ASC308 and ASC250 and 2 level 3 units from the following:

ASC206	Sociology of Health
ASC210	Youth Culture and Identity
ASC211	Religion and Social Change
ASC233	International Migration and Multicultural Societies
ASC250	Contemporary Social Research (Core unit)
ASC287	Love, Sex and Relationships
ASC304	Culture and Control: Boundaries and Identities
ASC308	Social Theory Rewired: Power, Passion and Post Humanism (Core unit)
ASC320	Sex, Crime and Justice in An Electronic Age
ASC321	Sociology Internship (no longer available for enrolment)
ASC346	Media, Stories and Power

**Visual Arts – unit set code MJ-A00015*****Burwood (Melbourne), Waterfront (Geelong)***

The Visual Arts major will appeal to students who are interested in careers across a variety of traditional media including painting, drawing or 3D modelling and new technologies including digital/photo imaging and computer-generated prints. A broad based course structure enables students to overlap disciplines to develop individual vision and expression by exploring the aesthetic, formal and social concerns of visual communication.

On successful completion of the Visual Arts major sequence, students should have the following skills:

- an ability to produce a conceptually, formally and thematically coherent body of work of exhibition standard
- an ability to identify a professional niche in the art industry and a preparedness to enter that industry
- an ability to negotiate the marketplace and develop productive working relationships with galleries, professional organisations and funding bodies; and
- an ability to position their own work in relation to their field of research

*Note: this major is only available to students at Warrnambool who are already formally enrolled in the major. ACV307 and ACV308: final year of offer 2014 for continuing Warrnambool students enrolled in the major; after that time units will only be available for Warrnambool students at Waterfront (Geelong).*

**Level 1**

ACV101	Contemporary Art Practice: Body
ACV102	Contemporary Art Practice: Space

**Level 2**

Students to select 3 units from level 2 units on offer, including one of ACV205 or ACV206.

ACV203	Visual Narrative Studio (No longer available for enrolment)
ACV205	Contemporary Art Practice: Pluralism
ACV206	Contemporary Art Practice: Abstraction
ACV210	Integrated Practice 1
EEA211	Navigating the Visual World

**Level 3**

Select one of:

- ACV306 Artists' Books Studio (No longer available for enrolment)  
Or  
ACV307 Contemporary Art Practice: Research  
Plus  
ACV308 Contemporary Art Practice: Production (2 credit points) (No longer available for enrolment – Students advised to enrol in ACV312)

The following units may be taken in addition to the prescribed major sequence:

- ACC317 Communication and Creative Arts Internship A  
ACC318 Communication and Creative Arts Internship B

**Spanish – unit set code MJ-A000051**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Spanish is a major international language with more than 400 million speakers on five continents. It is the national language of more than twenty countries and the third most spoken language in the world (after Mandarin and English). Spanish is an official language of the United Nations and of other important international organisations such as the European Union and the Organisation of American States. In the United States of America, Spanish is the second most widely spoken language. In Australia, Spanish is one of the seven most common languages (excluding English) spoken in the home (ABS Census data 2011).

Spanish as a foreign language is a popular choice for a great number of people all over the world. For English speakers, Spanish is relatively accessible. Studying a Spanish major can have multiple cultural and linguistic benefits and position students in the best possible place to become worldly citizens.

Introduction of the Spanish major further reinforces the commitment to internationalisation of the curriculum in the Deakin Languages program. Students learn languages, develop cultural awareness and competency, and acquire an international perspective. Acquiring Spanish language skills, and knowledge of the cultures and societies of the Hispanic world, will enable students to pursue a range of career paths from international trade and commerce, to the diplomatic corps, and education. There is an added layer of depth for the University as a whole – to its engagement with the world, and enhanced graduate outcomes for students seeking work in a global market.

Spanish major sequence for students with no prior language study.

**Level 1**

- ALS100 Spanish 1A  
ALS150 Spanish 1B

**Level 2**

- ALS200 Spanish 2A  
ALS225 Introduction to the Spanish-Speaking World  
ALS250 Spanish 2B

**Level 3**

- ALS300 Intermediate Spanish 3A  
ALS325 Cultures of Resistance in the Spanish – Speaking World  
ALS350 Advanced Spanish 3B

The Spanish major sequence for students who have completed Spanish at Level 12 or equivalent (non-background speakers) begins at second level and consists of the following units:

**Level 1**

- ALS200 Spanish 2A
- ALS225 Introduction to the Spanish-Speaking World
- ALS250 Spanish 2B

**Level 2**

- ALS300 Intermediate Spanish 3A
- ALS325 Cultures of Resistance in the Spanish – Speaking World
- ALS350 Advanced Spanish 3B

**Level 3**

- ALS360 Selected Topics in Spanish
- ALS370 Advanced Topics in Spanish

# Bachelor of Arts

<i>Year</i>	2019 course information

<i>Campus</i>	Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	012762C
<i>Deakin course code</i>	A300 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Study a Bachelor of Arts at Deakin and open the door to a world of opportunity. You can tailor your degree to complement your interests and set yourself up to be flexible across the jobs of the future.

Are you ready to design your future?

Choose two or more areas of study from over 35 disciplines in the humanities, social sciences, communication and creative arts to build your future-focused degree.

You will develop specialist knowledge in your chosen disciplines and learn how to apply critical, creative and strategic thinking to real-world issues. This course equips you with transferable skills in communication, research, analysis and problem-solving, making you highly employable within a range of industries.

Learn from teaching staff that are active in their fields, and recognised as leading practitioners. You'll learn in customised facilities, gaining hands-on experience relevant to your chosen disciplines.

Benefit from the many work placements we offer and you'll graduate ready to take your studies beyond the classroom and into the real world. Advance your job-readiness and gain a competitive edge by studying abroad for a trimester, undertaking an international study tour, or completing an internship as part of your course.

## Professional recognition

Depending on your specialisation, certain majors are accredited by relevant bodies.

If you choose public relations, you'll study subjects accredited by the Public Relations Institute of Australia. Our design-related units are also recognised by the Design Institute of Australia.

## Career opportunities

The Bachelor of Arts builds valuable and transferable career skills, making you highly employable within many industries. The range of disciplines on offer also lets you follow your passion and develop the specialist skills to pursue the career you want.

You'll be able to take your degree into a range of careers, including:

- administration
- advertising
- business
- communication
- community services
- criminal justice
- ethnic affairs
- finance
- Galleries, Libraries, Archives, and Museums (GLAM) sector
- government
- human rights
- journalism
- marketing
- media
- multimedia
- not-for-profits
- performing and visual arts
- personnel and industrial relations
- photography
- policing
- policy development
- politics
- public relations
- publishing
- research
- social work
- tourism.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Pathways

Upon completing your Bachelor of Arts, you are eligible for entry into a range of specialist Masters degrees which will provide opportunities for you to become a highly-skilled professional, capable of rapid career development. Students with a Bachelor of Arts may be eligible for credit in these degrees, giving you a headstart and allowing you to build on your undergraduate degree in areas such as:

The Humanities and Social Sciences – with Masters offered in Cultural Heritage, Development and Humanitarian Action, Humanitarian Assistance, International and Community Development, International Relations and Politics and Policy.

Communication and Creative Arts – with Masters offered in Communication, Creative Arts, and Writing and Literature.

Education – the Bachelor of Arts articulates into a postgraduate preservice teaching qualification through the Master of Applied Learning and Teaching and the Master of Teaching, which has options for teaching in Early Childhood, Primary, Secondary, also provides dual qualifications for Primary and Early Childhood or Primary and Secondary teaching.

Further Education pathway options include Masters in Education, Education (Leadership and Management), Languages Teaching, Professional Practice (Digital Learning), Specialist Inclusive Education, and Teaching English to Speakers of Other Languages.

## Research pathways

A Bachelor of Arts may also lead to a Bachelor of Arts (Honours), Bachelor of Creative Arts (Honours), or even a Higher Degree by Research.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate a broad and coherent body of knowledge in the Arts disciplines, with depth in the underlying principles and concepts in one or more disciplines or areas of practice.
Communication	Demonstrate highly developed skills in oral, written and electronic communication and the ability to communicate research outcomes, and produce scholarly papers.
Digital literacy	Research, analyse, synthesise and disseminate information using a range of appropriate technologies and resources in a rapidly-changing global environment.
Critical thinking	Use critical and analytical thinking and judgment in selecting and applying appropriate theories and methodologies to evaluate information and knowledge about society, culture and the arts.
Problem solving	Apply cognitive, technical and creative skills to generate solutions to unpredictable and sometimes complex problems in the Humanities, Social Sciences and the Creative Arts, including cross-disciplinary approaches.
Self-management	Demonstrate autonomy, responsibility and accountability for personal actions and a continued commitment to learning in personal, professional, and scholarly contexts.
Teamwork	Work and learn collaboratively with colleagues, other professionals and members of the wider community.
Global citizenship	Demonstrate an awareness of ethical issues, cultural diversity, and social responsibility when engaging in scholarship and professional roles in the local, national or international community.

*Approved by Faculty Board*

## Course rules

To complete the Bachelor of Arts, students must attain 24 credit points. Most units (think of units as 'subjects') are equal to 1 credit point.

The 24 credit points must include:

- two major sequences of at least 8 credit points each; OR
- one major sequence of at least 8 credit points plus one minor sequence of at least 4 credit points

Remaining credit points may be used to undertake additional major or minor sequences, or to take electives.

Students must also ensure that they have met the following course rules to be eligible to graduate with a Bachelor of Arts:

- a maximum of 10 credit points at level 1
- a minimum of 4 credit points at level 3
- a maximum of 8 credit points in units beyond the Bachelor of Arts
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Designing your own Bachelor of Arts

Your selection of Major/s, Minor/s, and electives will enable you to design a unique Bachelor of Arts which best suits your needs.

- **Major:** Your choice of major/s will develop your expertise in particular area/s of study. Each of our majors are carefully scaffolded to give you a comprehensive understanding of your chosen area of study. Within each major sequence, you will also have the opportunity to develop the knowledge and skills that will prepare you for your future careers.
- **Minor:** If you choose to undertake a minor you will develop additional knowledge in another area of study. Students will often choose minors that complement their major/s, or use them to discover and pursue their interests.
- **Electives:** These are units that you may select which interest you or support your career development. By giving you as many as 12 electives to choose from, over the three levels, the Bachelor of Arts is all about you and your developing interests.

Consider your first year as a taster to find out what areas interest you most – choose your areas of interest and enrol in the level 1 units from at least two Major sequences, and up to four electives. After your first year, you will know the areas of study that interest you the most. By the time you start your second year, you will be ready to decide on which majors and/or minors you want to complete in your degree.

## Transition to university study

We offer two units that are specifically designed to help students with the transition to university study:

- AIX160 Introduction to University Study, and
- AIX117 Professional Writing for Work.

New students are encouraged to enrol in one or both of these units in their first year.

## Major sequences

A major or minor sequence is a group of units in a particular area of study taken over the three levels of your course. Each unit is usually worth 1 credit point.

A major sequence is made up of 8 credit points, and a minor sequence is made of 4 credit points.

Please check the rules of each major and minor sequence to see which units you need to complete to achieve the required credit points.

Students enrolled in other courses and faculties may take an Arts major sequence (8 credit points), minor sequence (4 credit points) or individual electives from these discipline areas, subject to meeting the prerequisites.

Area of study	Type of sequence	Availability
Advertising	Major and Minor	Burwood (Melbourne), Cloud (online)
Animation	Major and Minor	Only available to students who commenced prior to 2018
Anthropology	Major and Minor	Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online)
Arabic	Major and Minor	Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online)
Australian Studies	Major and Minor	Only available to students who commenced prior to 2018
Buddhist Studies	Minor	Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online)
Children's Literature	Major and Minor	Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online)

Sustainability & Society	Minor	Burwood (Melbourne), Cloud (online)
Visual Arts	Major and Minor	Burwood (Melbourne), Waterfront (Geelong)
Visual Communication Design	Major and Minor	Only available to students who commenced prior to 2018

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Details of major sequences

### **Advertising – unit set code – MJ-A000069 (major); MN-A000069 (minor)**

*Burwood (Melbourne), Cloud (Online)*

#### Overview

Sitting at the intersection of other communication degrees, advertising is an attractive option for those who wish to seek a professional outcome in the Bachelor of Arts. Students will work with client driven projects to enhance their communication skills. This practice and theory based series of units offers students technical and communication skills in the contemporary practices of the advertising industry, introducing them to this dynamic and competitive field.

#### Career outcomes

You may find employment in the exciting field of advertising or related disciplines including journalism, public relations and digital media. Students can combine their advertising skills and knowledge with many associated areas of study to create their own unique pathway into the vibrant, fast paced world of contemporary communication.

## Units

- To complete a Major sequence in Advertising select eight (8) credit points as outlined below;
- To complete a Minor sequence in Advertising select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete the following 2 units from level 1:

ALA101 Advertising Principles and Practices  
 ALA102 Creative Brand Communication

Complete the following 4 units from level 2:

ALA201 Art Direction and Visualisation  
 ALA202 Copywriting and Ideation

ASS233 Myth and Ritual  
ASS234 Environmental Anthropology

Complete the following 2 units from level 3:

ASS329 Anthropology of Crime and Violence  
ASS330 Cyborg Anthropology

**Arabic – unit set code – MJ-A000029 (major); MN-A000029 (minor)***Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)***Overview**

Australia's trade with the Middle East has more than doubled in the past decade, making it an increasingly important region with broad strategic, economic, religious and cultural influence. Studies in Arabic help you develop communication skills in modern standard Arabic, with language fluency further enhanced through an understanding of Middle Eastern history, culture and society. In-country language programs are available to students undertaking a major sequence in Arabic.

**Career outcomes**

Graduates expect to gain employment in a wide range of organisations, including the education sector, federal defence agencies, government departments, immigration departments/ consultancies, intelligence agencies, major corporations, management consultancies, media organisations, multicultural associations, research and translation services.

## In-Country study

The In-Country Language Program is available to students completing a major sequence in Arabic via study abroad. The program is a unique part of language study and an excellent way of accelerating completion of the major. Second and third year students have the opportunity to spend eight weeks studying language and culture in its own environment. This enables students to converse, read and write about more complex topics and to discuss ideas and information. Students also build upon their knowledge of grammar based on what they have learned previously. Upon successful completion of this program, students will be awarded a preclusion for either AIB351 or AIB352. For more information about the In-Country Language program please refer to the Work Integrated Learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

### Units

- To complete a Major sequence in Arabic select eight (8) credit points as outlined below;
- To complete a Minor sequence in Arabic select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

The Arabic major sequence is offered at two levels; beginners' level (little or no prior knowledge of the language) and post-level 12 Arabic.

Arabic major sequence for beginners

Complete the following 2 units from level 1:

AIB151     Arabic 1A  
AIB152     Arabic 1B

Complete the following 2 units from level 2:

AIB251     Arabic 2A  
AIB252     Arabic 2B

Complete the following 2 units from level 3:

AIB351     Arabic 3A (2 credit points)  
AIB352     Arabic 3B (2 credit points)

*Approved Study Abroad may replace with AIB351 or AIB352*

Students undertaking the beginners' sequence may undertake AIB309 and/or AIB310 in their final level as electives in addition to the prescribed major sequence.

The Arabic major sequence for post-level 12 Arabic:

Complete the following 2 units from level 2:

AIB251     Arabic 2A  
AIB252     Arabic 2B

Complete the following 4 units from level 3:

AIB351     Arabic 3A (2 credit points)  
AIB352     Arabic 3B (2 credit points)  
AIB309     Advanced Arabic Language Skills  
AIB310     Introduction to Translation Skills

*Approved Study Abroad may replace with AIB351 or AIB352*

*Notes:*

*(i) The following units complement the Arabic major sequence:*

AIE153     Historical Foundations of the Middle East  
AIE154     Modern Middle East Politics  
AIE255     Issues in Middle East Politics

## **Australian Studies**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

Only available to students who commenced prior to 2018, contact your course adviser for further information

## **Childrens Literature – unit set code – MJ-A000063 (major); MN-A000063 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

*Warrnambool offering available to students who commenced prior to 2018*

### **Overview**

Deakin is a world leader in children's and young people's literature and has developed a full major in the Bachelor of Arts in this growing field. Discover major trends in children's texts across a range of media, and how stories for young people reflect and challenge the values of their time. This study area caters to students who are interested in children's literature as a prominent domain of literary production and is of particular relevance to those who intend to work with children and young people as primary or secondary teachers and librarians, and those who wish to produce texts for young people.

### **Units**

- To complete a Major sequence in Children's Literature select eight (8) credit points as outlined below;
- To complete a Minor sequence in Children's Literature select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete the following 2 units from level 1:

ALL153 Literature for Children and Young Adults  
ALL154 Power Politics and Texts for Young People

Complete the following 2 units from level 2:

ALL228 The Golden Age in Children's Literature  
ALL230 Re-Imagining Literature for Young People

Complete the following 2 units from level 3:

ALL326 Gender, Sexuality and Texts for Young People  
ALL350 Children's literature around the world

Complete 2 units selected from:

ALL275 Shakespeare Today  
ALL255 Fantasy Literature  
ALL256 Gender, Sex and Literature  
ALW252 Writing for Young People  
ALL376 Classics and Trash

## **Chinese – unit set code – MJ-A000028 (major); MN-A000028 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong)*

### **Overview**

Mandarin Chinese is one of the world's most important languages. It is the official language of the People's Republic of China, Taiwan and Singapore and is widely used in community groups throughout South-East Asia, Hong Kong, North America and Australia. It is one of the five official languages of the United Nations. Develop your communication skills in Chinese, with language fluency further enhanced through an understanding of Chinese culture, history and society. In-country language programs are available to students undertaking a major sequence in Chinese, giving you the opportunity to travel overseas and try out your language skills with native speakers.

### **Career outcomes**

Careers in this field include work in the communications industry, community and government organisations, community health organisations, education sector, ethnic affairs associations, foreign affairs departments, multicultural organisations, tourism associations and translation services.

## In-Country study

The In-Country Language Program is available to students completing a major sequence in Chinese via study abroad. The program is a unique part of language study and an excellent way of accelerating completion of the major. Second, third and advanced level students have the opportunity to spend between six and eight weeks studying language and culture in its own environment. This enables students to converse, read and write about more complex topics and to discuss ideas and information. Students also build upon their knowledge of grammar based on what they have learned previously. The program contributes as two credit points (2cp) towards the Chinese language major. For more information about the In-Country Language program please refer to the Work Integrated Learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

### Units

- To complete a Major sequence in Chinese select eight (8) credit points as outlined below;
- To complete a Minor sequence in Chinese select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Chinese major sequence for beginners

Complete the following 2 units from level 1:

AIC181 Chinese 1A  
AIC182 Chinese 1B

Complete the following 2 units from level 2:

AIC281 Chinese 2A  
AIC282 Chinese 2B

Complete the following 2 units from level 3:

AIC381 Chinese 3A (2 credit points)  
AIC382 Chinese 3B (2 credit points)

The Chinese major sequence for students who have completed Chinese at level 12 or equivalent (non-background speakers) begins at second level and consists of the following units:

Complete the following 2 units from level 2:

AIC281 Chinese 2A

### **Geography – unit set code – MN-AU00032 (minor)**

*Burwood (Melbourne)*

*Offered to continuing students only from 2018, contact your course adviser for further information*

## Units

To complete a Minor sequence in Geography select the following four (4) units from below

AIG103 People and Place: An Introduction to Human Geography  
SLE102 Physical Geography  
AIG211 Geographies of Heritage and Tourism  
AIG300 Australian Urban Geography: National and International Perspectives

### **Gender and Sexuality Studies – unit set code – MJ-A000070 (major); MN-A000070 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

## Overview

What is gender and sexuality studies?

Gender and Sexuality Studies provides an analytical approach to the significance of sex, gender and sexuality in many parts of our lives and the important roles they often play in how we understand ourselves and the structures we live in. In art and literature, popular culture and the media, politics and the law, marketing and advertising, health and wellbeing, the economics of family life and work, our public identities and intimate lives, sex, gender and sexuality are prominent features of contemporary and historical life.

Gender and Sexuality Studies at Deakin provides a structured interdisciplinary programme for studying sex, gender and sexuality, drawing on local knowledges and histories, while also situating these ideas in their global context.

Through an integrated study of local experiences and transnational flows of knowledge and influences, Gender and Sexuality Studies at Deakin provides students with an understanding of key forces which shape our understandings and lived experiences of gender and sexuality, both as cultural phenomena and as embodied practices. In particular, the programme emphasizes the intersectional dimensions of gender and sexuality, addressing questions of class, citizenship, ethnicity, race, religion, ability and geographical location. Throughout their studies, units in the Major help students to develop skills to analytically reflect on, and contribute to, a range of important debates. These include discussions about how sex, gender and sexuality inform understandings of the self, and how we recognize and respond to difference.

## Why undertake a gender and sexuality studies major?

The Gender and Sexuality Studies Major forms part of your Bachelor of Arts degree. It offers graduates core disciplinary knowledge in Gender and Sexuality Studies, drawing on feminist studies and LGBTI/queer studies. It provides students with the skills and knowledge to research, analyse and discuss expressions of gender and sexuality across times and places. It builds a strong understanding of key concepts, critical vocabularies, historical contexts and contemporary issues.

A major in Gender and Sexuality Studies will equip you with the skills not only to recognize and respond to crucial social issues, but also to analyse and re-imagine them.

## Career outcomes

The prominence of sex, gender and sexuality in our lives means that developing a strong historical and critical understanding of sex, gender and sexuality will be of use for people working in a wide variety of vocations, especially those which focus on working with and understanding people and the complex social structures that we live in.

Gender and Sexuality Studies helps prepare students to work as researchers, writers and creative practitioners. The Major will help people working within many different areas such as the law, criminology, social policy, community development, archives and museums, social work, education, psychology, marketing and healthcare to develop specialist knowledge of sex, gender and sexuality which they can apply within their specific vocational settings.

## Units

Complete the following 4 core units:

AGS101	Sex and Gender: Ideas That Changed the World
AGS102	Histories of Sex and Gender
AGS200	Cultural Studies of Sex and Gender

AIH389	The French Revolution and the Struggle for Freedom

## **Indonesian – unit set code – MJ-A000030 (major); MN-A000030 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

### **Overview**

Indonesian language studies develop communication skills in Bahasa Indonesia, as well as an understanding of Indonesian culture, history and society. With more than 220 million speakers of Bahasa Indonesia, and Indonesia being Australia's closest Asian neighbour, the region is increasingly important to Australia economically, politically and culturally. In-country language programs are available to students undertaking a major sequence in Indonesian, giving you the opportunity to travel overseas and try out your language skills with native speakers.

### **Career outcomes**

Careers in this field include work in the communications industry, community and government organisations, community health organisations, the education sector, ethnic affairs associations, foreign affairs departments, multicultural organisations, tourism associations and translation services.

### **In-Country study**

The In-Country Language Program is available to students completing a major sequence in Indonesian via study abroad. The program is a unique part of language study and an excellent way of accelerating completion of the major. Second and third year students have the opportunity to spend between six and eight weeks studying language and culture in its own environment. This enables students to converse, read and write about more complex topics and to discuss ideas and information. Students also build upon their knowledge of grammar based on what they have learned previously. The program contributes two credit points (2cp) towards the Indonesian language major. Upon successful completion of this program students will be awarded a preclusion for either AIF341 or AIF342. For more information about the In-Country Language program please refer to the Work Integrated Learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

### **Units**

- To complete a Major sequence in Indonesian select eight (8) credit points as outlined below;
- To complete a Minor sequence in Indonesian select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Indonesian major sequence for those entering at beginners' level

Complete the following 2 units from level 1:

AIF142      Conversational Indonesian B  
AIF146      The Language, Culture and People of Indonesia

Complete the following 2 units from level 2:

*Note: AIF320, AIF321, AIF345, AIF354 – Students to check each unit for: Alternating odd or even year; Campus; and Trimester offerings*

Approved Study Abroad may replace either AIF341 or AIF342

### **International Politics – unit set code – MJ-A000071 (major); MN-A000071 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

#### **Overview**

International Politics provides you with an understanding of the global system of states and the major challenges of the international system. You will explore contemporary issues such as human rights, refugees and asylum seekers, terrorism, war, humanitarian responses and development, capitalism, power, diplomacy and the role of the United Nations, the politics of the United States, and the issues facing the Middle East.

#### **Career outcomes**

Graduates can expect to gain employment in a wide range of areas including federal defence agencies, foreign affairs departments, immigration departments/consultancies, major corporations, non-government organisations, management consultancies and multicultural associations.

#### **Units**

- To complete a Major sequence in International Politics select eight (8) credit points as outlined below;
- To complete a Minor sequence in International Politics select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete the following 2 units from level 1:

- AIP107 Introduction to Politics  
 AIR102 War, Terrorism and Humanitarian Responses

Complete 4 units from level 2, selected from:

AIE255	Issues in Middle East Politics
AIP208	Government and Politics of the United States
AIR200	Global Capitalism and Power
AIP211	Politics of Development
AIR204	Great Power Relations
AIP209	Asylum Challenges in Australia and Asia
AIR203	Human Rights in World Politics
AIR292	Study Tour: America and the International System
AIS203	Immersion Program: Japanese Politics, Society and Culture

Complete 2 units from level 3, selected from:

AIP300	Democracy and Dissent
AIR349	Diplomacy and the United Nations
AIE365	Middle East Study Tour

### ***International Relations – unit set code – MJ-A000018 (major); MN-A000018 (minor)***

*Burwood (Melbourne), Waurm Ponds (Geelong)\*\*, Cloud (Online)*

\*\* Waurm Ponds (Geelong) availability to be confirmed

#### **Overview**

International relations provides you with a better understanding of conflict and cooperation, and war and peace, in contemporary international politics. Study issues in global politics: the nature of power and security, globalisation and global governance, human rights and global justice, the politics of the Asian region and Australia's place in the world.

#### **Career outcomes**

Graduates can expect to gain employment in a wide range of areas including federal defence agencies, foreign affairs departments, immigration departments/consultancies, major corporations, management consultancies and multicultural associations.

Students majoring in International Relations should also consider a complementary major sequence or electives in Politics and Policy Studies or major or minor in Middle East Studies.

#### **Units**

- To complete a Major sequence in International Relations select eight (8) credit points as outlined below;
- To complete a Minor sequence in International Relations select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete the following 2 units from level 1:

AIR101	World in Crisis
AIR102	War, Terrorism and Humanitarian Responses

Complete the following unit from level 2:

AIR242	Key Concepts in International Relations
--------	---

Complete a further 3 units from level 2, selected from:

AIE255	Issues in Middle East Politics
AIR200	Global Capitalism and Power
AIR202	Australia and the Changing Asia-Pacific
AIR203	Human Rights in World Politics
AIR204	Great Power Relations
AIS204	Gender, Globalisation and Development
AIR292	Study Tour: America and the International System
AIS203	Immersion Program: Japanese Politics, Society and Culture

Complete 2 units from level 3, selected from:

AIE365	Middle East Study Tour
AIR348	Activists Beyond Borders
AIR349	Diplomacy and the United Nations

**Journalism – unit set code – MJ-A000014 (major); MN-A000014 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

*Warrnambool offering available to continuing students only*

### Overview

This long-established program at Deakin offers the skills and knowledge needed to prepare you for employment in the communications industries, across print, TV, radio and online. There is an emphasis on practical hands-on learning and gain experience and develop skills in communicating information in engaging, interesting and accessible ways across different media formats. The curriculum covers news and feature writing, radio and TV reporting, multimedia and online journalism, local and international journalism and media ethics and law. In your final year undertake intensive news production work and an industry internship.

### Career outcomes

You may find employment in advertising agencies, consumer and business magazine publishers, freelance journalism, metropolitan, suburban and country newspapers, press agencies, public relations agencies, publishing companies, radio stations and television channels.

### Units

- To complete a Major sequence in Journalism select eight (8) credit points as outlined below;
- To complete a Minor sequence in Journalism select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete the following 2 units from level 1:

ALJ111	News Reporting 1
ALJ112	News Reporting 2

Complete 4 units from level 2, selected from:

ALJ216	Feature Writing
ALJ218	Audio Journalism
ALJ221	Video Journalism
ALJ220	Journalism in Society

Complete the following 2 units from level 3:

ALJ304	Local Journalism
ALJ313	Journalism Law and Ethics

**Language and Culture Studies – unit set code – MJ-A000052 (major)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

### Overview

Develop your linguistic skills in Arabic, Chinese or Indonesian, but also gain essential cultural, historical and social perspectives.

### Career outcomes

Careers in this field include work in the communications industry, community and government organisations, community health organisations, the education sector, ethnic affairs associations, foreign affairs departments, multicultural organisations, tourism associations and translation services.

### Units

Students must complete 4 credit points in one of the languages: Arabic, Chinese, or Indonesian. In addition, students must select 4 credit points of contextual studies units, which must include at least 2 credit points at level 3, from the elective list below.

### *Arabic*

Students must complete 4 credit points of Arabic units (AIB)

### *Chinese*

Students must complete 4 credit points of Chinese units (AIC)

### *Indonesian*

Students must complete 4 credit point of Indonesian units (AIF)

## Contextual studies units

### Level 1

Complete the following 4 units from level 3:

ALC304 The Celebrity Industries: Star Images, Fan Cultures and Performance  
ALC305 Media Ecologies  
ACC302 Advertising: Desire, Consumption and the Attention Economy  
ACF320 The Australian Moving Image

## **Middle East Studies – unit set code – MJ-A000053 (major); MN-A000053 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

### Overview

Middle East studies provide a comprehensive understanding of the events and issues shaping the region, with an emphasis on both historical and contemporary issues relevant to the analysis of the Middle East as a regional system, as well as its place in the international system. Importance is placed on the changing role of the US in the Middle East since the end of the Cold War and its push to reshape the region's political landscape according to American national interests. Several of the endemic conflict situations that exist in the Middle East are examined, including the War on Terror; the invasion and occupation of Iraq; the Israel-Palestine impasse; the 2006 Israel-Lebanon crisis; Iran's nuclear ambitions; and the role of 'rogue states'.

### Career outcomes

Graduates can expect to gain employment in a wide range of organisations, including the education sector, federal defence agencies, government departments, immigration departments/consultancies, intelligence agencies, major corporations, management consultancies, media organisations, multicultural associations and research.

### Units

- To complete a Major sequence in Middle East Studies select eight (8) credit points as outlined below;
- To complete a Minor sequence in Middle East Studies select the following four (4) units: AIE153, AIE154, AIE255 and AIE364

 ASP263 Buddhist Studies in India  
 ASP210 Plato and Nietzsche

Complete the following 2 units from level 3:

ASP309 20th Century French Philosophy  
 ASP326 Language and Reality

**Photography – unit set code – MJ-A000049 (major); MN-A000049 (minor)***Burwood (Melbourne), Waterfront (Geelong)***Overview**

Students undertaking the Photography Major sequence in the Bachelor of Arts will learn basic techniques and practices of photography, using analogue and digital technologies at Level 1. At Level 2, students can select from a range of units that cover professional analogue and digital photographic formats, ambient and artificial studio lighting, documentary and narrative storytelling as well as advanced darkroom and alternative techniques. Students are strongly encouraged to experiment, research and develop their own conceptual and aesthetic sensibilities and to draw on their interdisciplinary studies. At Level 3, students refine their photographic technique and focus on developing individual style with a focus on folio preparation. Work undertaken at this level provides a strong basis for postgraduate studies and professional practice. At all levels of the Photography Major Sequence students are supported to produce exhibition-quality work, using industry standard equipment and workflow and are encouraged to maximize opportunities for interdisciplinary installation and collaboration.

**Career outcomes**

You may find employment opportunities in community arts organisations, creative practice, freelance photography, photo journalism, professional studio photography and web and multimedia design companies.

**Units**

- To complete a Major sequence in Photography select eight (8) credit points as outlined below;
- To complete a Minor sequence in Photography select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete 2 units from level 1, selected from:

ACI101	Analogue Photography
ACI102	Digital Photography

Complete 4 units from level 2, selected from:

ACI203	Darkroom Practices
ACI202	Digital Imaging 2: Advanced
ACI204	Contemporary Documentary and Narrative Photography
ACI205	Photographic Lighting 1: Natural and Artificial Lighting
ACI201	Alternative Imaging

Complete the following 2 units from level 3:

ACI302	Photographic Lighting 2: Studio Lighting
ACI303	New Worlds: Intersections of Art and Science

**Politics and Policy Studies – unit set code – MJ-A000005 (major); MN-A000005 (minor)***Burwood (Melbourne), Waurm Ponds (Geelong)\*\*, Cloud (Online)**Warrnambool offering available to continuing students only*

\*\* Waurm Ponds (Geelong) offered to Waurm Ponds (Geelong) enrolled students by combination of located learning and Cloud (online) modes.

**Overview**

A Politics and Policy Studies major will enhance your understanding of the big issues in the world today, and assist you to develop the skills to make a difference in your lifetime. We investigate the challenge posed to Australia and the world by climate change; asylum seekers and refugees; development; inequality; political parties and new social movements. We examine the ideas behind the policy and the rhetoric. We look globally for different solutions; investigate how policy lessons are learned; and assess the impact on domestic and global politics. We examine how and why some people are able to exercise power better than others, and assess ideas and opportunities for addressing the pressing social, economic, and environmental issues of our time.

## Career outcomes

Graduates can expect to gain employment in many fields including foreign affairs, Intelligence and security, Journalism, Government organisations, Civil society organisations, Business, Policy advocacy, Policy research, Policy design and analysis, Political and social research, Political advisors, Politics, Public communication, Public relations and lobbying, Public service, Speech-writing, Teaching.

- ALW396 Producing Digital Anthologies: From Concept to Publication (2 credit points)

The following level 3 credit point is recommended as an elective to compliment the major stream:

- ALW395 Experimental Writing Lab

### **Professional Experience and Practice – unit set code – MN-AU00033 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

#### **Overview**

This minor introduces Arts, Humanities and Social Science students to the principles of professional development in order to increase students' understanding of how their studies can contribute to their skill set and employability and enable them to make informed decisions about their studies and potential career pathways. As such, the units in this minor focus on career development, experiential learning and are organised around four themes: self-awareness, opportunity awareness, decision making and in the middle and final years, work-integrated learning. Drawing on practical experiences and engagement with placement opportunities, students in the minor explore how Arts, Humanities and Social Science degrees can facilitate graduate employability, and will consider what is involved in developing their personal 'professional brand'.

#### **Career outcomes**

This minor provides foundation to improve the career readiness of students as they complete their major in their principle discipline, underpinning course specific skills with a broad range of soft skills. The structure of the minor encourages students to better understand how soft skills can be learnt, developed and refined through placement, work experience and community involvement.

Students who successfully complete this minor will graduate with a sound understanding of how the labour market functions, how to interact with this market and ultimately, develop and use their own personal brand to gain employment in the increasingly competitive world of work.

#### **Units**

To complete a Minor sequence in Professional Experience and Practice select four (4) units from below.

Complete 1 unit from level 1, selected from:

- APE101 Create Your Own Career

Complete 2 units from level 2, selected from:

- APE201 Individual Professional Project
- APE202 Team Professional Project

Complete 1 unit from level 3, selected from:

- APE301 Professional Practice Internship

**Public Relations – unit set code – MJ-A000021 (major); MN-A000021 (minor)***Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)**Warrnambool offering available to continuing students only***Overview**

Public relations practitioners are 21st century communication specialists who manage and coordinate relationships between organisations, agencies and the public. With a focus on ethical and sustainable communication practices, the course builds key knowledge and skills in core public relations responsibilities such as: event management and campaigns; social media tactics and media relations; strategic planning, management and communication; and the allied field of marketing communication. Final-year students have the opportunity to develop their skills further by undertaking an industry internship, working with real clients to develop a public relations campaign. The degree's structure also allows you to pursue study in areas such as journalism, media studies, visual communication design and marketing. This flexibility means our degree combines theory and real-life practice to prepare you for employment in a wide variety of public relations, media and communications roles.

**Career outcomes**

Our graduates can be found working in corporations, government departments, as well as in not-for-profits and NGOs.

**Units**

- To complete a Major sequence in Public Relations select eight (8) credit points as outlined below;
- To complete a Minor sequence in Public Relations select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete 2 units from level 1, selected from:

- ALR103 Introduction to Public Relations  
ALR104 Strategic Communication and Writing

Complete 4 units from level 2, selected from:

- ALR276 Ethical Communication and Citizenship  
ALR279 Public Relations Management  
ALR210 Media Relations Strategy  
ALA203 Integrated Communication

Complete the following 2 units from level 3:

- ALR383 Lobbying, Advocacy and Public Opinion  
ALA302 Transmedia Storytelling

**Sociology – unit set code – MJ-A000019 (major); MN-A000019 (minor)***Burwood (Melbourne), Waurn Ponds (Geelong)\*\*, Cloud (Online)**Warrnambool offering available to continuing students only*

\*\* Waurn Ponds (Geelong) availability to be confirmed

**Overview**

Sociology is the study of the processes that create, maintain and change social groups. It explores ways of thinking about personal and public issues in modern social life and how to link them together through the study of society and social relations. Third-year students have the opportunity to further develop their skills by undertaking an internship.

**Career outcomes**

You may find employment opportunities in community relations, the education sector, government departments, the health industry, local councils, market research companies, welfare organisations and youth work.

## Units

Complete a further minimum of 1 unit from level 3, selected from:

ASC304 Culture and Control: Boundaries and Identities  
ASC320 Sex, Crime and Justice in An Electronic Age  
ASC346 Media, Stories and Power

### ***Sport and Society – unit set code – MN-AU00038 (minor)***

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

#### Overview

Historically, sport's prominent role in society can be traced back at least to the ancient Olympic Games in Greece (dating from 776BCE). Today, sport enjoys ever-increasing popularity and influence as its global reach can be gauged from local participation at the grassroots level through to professional competitions on the international stage. Sport and Society is a multi-disciplinary minor that provides students with an opportunity to examine sport's profound impact on society from cultural, social, educational, political, and economic perspectives. Sport's role in society can be studied through filters such as: gender imbalances in media representation, corporate sponsorship, and government funding; ethnicity and class divides within wider society exemplified by sporting codes; educational policies in public and private schooling; elite sport as big business; and sport's role in health.

#### Career outcomes

Sports-related career opportunities can be pursued in the public and private sector, including roles in sporting organisations, education, government agencies, and media.

## Units

To complete a Minor sequence in Sport and Society select any four (4) units from below.

MMS201 Sport in Society  
AST256 Sport in History  
AST205 Sport, Bodies, Action!  
HSE309 Behavioural Aspects of Sport and Exercise

## **Spanish – unit set code – MJ-A000051 (major); MN-A000051 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

### Overview

Approximately 406 million people speak Spanish, making it second only to Mandarin Chinese in terms of its number of native speakers worldwide. Deakin's Spanish studies will not only help you to develop communication skills in this important language, but also provide you with an understanding of the history and culture of Spanish-speaking countries. In-country language programs are available to students undertaking a major sequence in Spanish.

### Career outcomes

Graduates can expect to gain employment in a wide range of organisations, including the education sector, immigration departments, federal defence agencies, intelligence agencies, government departments, multinational corporations, management consultants, non-government agencies, multicultural associations, research, and translation services.

### In-Country study

The In-Country Language Program is available to students completing a major sequence in Spanish via study abroad. The program offers students who have completed their first year of Spanish language study the opportunity to spend six weeks studying language and culture in its own environment. Students build upon their knowledge of grammar based on what they have learned in ALS100 and ALS150, and develop further proficiency in Spanish at the high beginner/low intermediate level. This program is one credit point (1cp) experience which can contribute towards the Spanish language major. Upon successful completion of this program, students will be awarded a preclusion for ALS200.

For more information about the In-Country Language program please refer to the Work Integrated Learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

### Units

- To complete a Major sequence in Spanish select eight (8) credit points as outlined below;
- To complete a Minor sequence in Spanish select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Spanish major sequence for students with no prior language study.

Complete 2 units from level 1, selected from:

ALS100 Spanish 1A  
ALS150 Spanish 1B

Complete the following 3 units from level 2:

ALS200 Spanish 2A  
ALS225 Introduction to the Spanish-Speaking World  
ALS250 Spanish 2B

Complete the following 3 units from level 3:

ALS300 Intermediate Spanish 3A  
ALS350 Advanced Spanish 3B  
ALS325 Cultures of Resistance in the Spanish – Speaking World

The Spanish major sequence for students who have completed Spanish at Level 12 or equivalent (non-background speakers) begins at second level and consists of the following units:

Complete the following 3 units from level 2:

ALS200 Spanish 2A  
ALS225 Introduction to the Spanish-Speaking World  
ALS250 Spanish 2B

Complete the following 5 units from level 3:

ALS300	Intermediate Spanish 3A
ALS350	Advanced Spanish 3B
ALS325	Cultures of Resistance in the Spanish – Speaking World
ALS360	Selected Topics in Spanish
ALS370	Advanced Topics in Spanish

**Religious Studies (previously Studies of Religions) – unit set code – MJ-A000067 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

**Overview**

Understanding religion has seldom been as important as it is today. There is increasing dialogue among the greater religions of the world, but there is also increasing misunderstandings of religious traditions. Religious ideas are regularly debated in the media and featured in popular culture and religious beliefs play a significant role in conflict, peace building, and international development. With countries and communities becoming more diverse and complex, the need for cross-cultural religious literacy and inter-disciplinary expertise in religion is becoming more urgent.

The Religious Studies Major is a multi-disciplinary major that looks at religion and religions from diverse viewpoints and methodologies. The major includes units from the disciplines of anthropology, philosophy, sociology, literary and cultural studies and others. It also offers the possibility of focusing on particular religious traditions.

**Units**

- To complete a Major sequence in Religious Studies select eight (8) credit points as outlined below;
- To complete a Minor sequence in Religious Studies select the following required units ASR100, ASR200 AS300 and one further ASR coded level 2 elective

Complete the following unit from level 1:

ASR100	World Religions
--------	-----------------

Complete a further unit from level 1, selected from:

ASP129	Love, Sex and Death
ASS101	Peoples of the World

Complete the following unit from level 2:

ASR200	Religion, Spirituality and Popular Culture
--------	--

Complete a minimum of 3 further units from level 2:

ASC211	Religion and Social Change
ASP227	Philosophies of Religion: Western, Asian, and Contemporary Inquiries
ASP263	Buddhist Studies in India
ASR205	Mindfulness, Meditation, and Buddhism
ASR206	Gender and Sexuality in Islam
ASR207	Tibetan Buddhism
ASR208	Contemporary Islam
ASS233	Myth and Ritual

Complete the following 2 units from level 3:

ASR300	Religion, Rights and Governance
ASS330	Cyborg Anthropology

Minor study – students must complete core units ASR100, ASR200 AS300 and one ASR coded level 2 elective.

**Visual Communication Design – unit set code – MJ-A000061 (minor)***Burwood (Melbourne), Waterfront (Geelong)**Offered to continuing students only***Units**

- To complete a Major sequence in Visual Communication Design select eight (8) credit points as outlined below;
- To complete a Minor sequence in Visual Communication Design select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete 2 units from level 1, selected from:

ACG102 no longer available for enrolment  
 ACG103 Design Skills

Complete 4 units from level 2, selected from:

ACG204 Design and Society – (No longer available for enrolment)  
 ACG206 Web Design and Interactivity – (No longer available for enrolment)  
 ACG207 Professional Practice in Design – (No longer available for enrolment)  
 ACG208 Branding Design – (No longer available for enrolment)

Complete the following 2 units from level 3:

ACG305 Design Practice  
 ACG307 Global Design Strategies

**Sustainability and Society – unit set code – MN-AU00041 (minor)***Burwood (Melbourne)***Overview**

Sustainability and Society is a cross-disciplinary approach to human/environment related issues facing all societies. Drawing on case studies from both Australia and abroad, students will grapple with challenges to multiple and intersecting environments as well as the diverse stakeholders who rely on these places for a range of material and spiritual purposes. Students are invited to appreciate the environmental perspectives of other cultures, as well as to scrutinise their own taken-for-granted assumptions about environmental issues, environmentalism, identities that emerge in relation to conservation discourses, as well as the very nature of 'nature' itself.

**Career outcomes**

Career opportunities exist in the nature education sector, environmentally focussed government agencies, cultural institutions, media organisations, the public service and the marketing and tourism industries, particularly in relation to eco-tourism.

**Units**

To complete a Minor sequence in Sustainability and Society select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3.

SLE121 Environmental Sustainability  
 ALR276 Ethical Communication and Citizenship  
 ASS234 Environmental Anthropology  
 AIG300 Australian Urban Geography: National and International Perspectives  
 ALL381 Reading the End of Nature  
 SHD201 Creating Sustainable Futures

**Visual Arts – unit set code – MJ-A000015 (major); MN-A000015 (minor)***Burwood (Melbourne), Waterfront (Geelong)***Overview**

Gain qualifications, skills and knowledge for professional practice in the visual arts. Develop skills for a specialised industry vocation or for a broader role in the fields of culture and the arts. The course combines contemporary theory with specialised studio practice, incorporating digital technologies. Final-year students are able to participate in visual arts internships.

**Career outcomes**

Graduates may find employment in art galleries and museums, commercial art, cultural associations, the education sector, film production companies, graphic design businesses, media consultancies and services in art therapy.

**Units**

- To complete a Major sequence in Visual Arts select eight (8) credit points as outlined below;
- To complete a Minor sequence in Visual Arts select any four (4) units from below, including a minimum of one (1) credit point at level one, and no more than one (1) credit point at level 3

Complete 2 units from level 1, selected from:

ACV101 Contemporary Art Practice: Body  
ACV102 Contemporary Art Practice: Space

Complete 4 units from level 2, selected from:

ACV205 Contemporary Art Practice: Pluralism  
ACV206 Contemporary Art Practice: Abstraction  
ACV214 Art and Technology  
ACV207 Materialising the Image: Visual Art and Photography Since 1989  
ACV210 Integrated Practice 1

Complete the following 2 units from level 3:

ACV311 Visual Arts History and Theory in the Expanded Field  
ACV310 Integrated Practice 2

**Design – unit set code – MJ-AU00072 (major); MN-A000072 (minor)***Burwood (Melbourne), Waterfront (Geelong)***Units**

To complete a Minor sequence in Design select four (4) units from below:

ADD101 Design Thinking  
ACG103 Design Skills  
ADV201 Web Design and Interactivity  
ADD203 Professional Practice in Design

**Islamic Studies – unit set code – MN-A00042 (minor)***Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)***Overview**

Islam is one of the three major Abrahamic faiths and is the world's fastest growing religion that is predicted to overtake Christianity as the preeminent creed in the next fifty years. Further, due to the rise of Islamic extremism, both Islam and Muslims are often in the media and a major focus of politics at both the state and federal level. However, often the discussions pertaining to Islam and Muslims are subject to inaccuracies and disinformation. Therefore, the aim of this course is to provide students with the opportunity to obtain religious literacy in relation to Islam through both theoretical and textual analysis, alongside an analysis of popular culture and current affairs.

## Career outcomes

Gaining knowledge and religious literacy in relation to Islam can lend itself to a careers in both the public and private sector in fields such as public policy, consultancy, and education.

## Units

To complete a Minor sequence in Islamic Studies select four (4) units from below:

ASR100	World Religions
ASR208	Contemporary Islam
ASR206	Gender and Sexuality in Islam
ASR300	Religion, Rights and Governance

## **Buddhist Studies – unit set code – MN-A00043 (minor)**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (Online)*

## Overview

Buddhist Studies provides students with a multi-dimensional understanding of Buddhist cultures, philosophies, and practices both in traditional settings and contemporary interpretations. You will gain knowledge of the major Buddhist traditions and learn how core Buddhist practices and ideas – such as mindfulness meditation – have been adapted in contemporary Western settings and have impacted on our ideas of personal development and on public issues in modern social life. Buddhism is often simplistically viewed as a way of life or a philosophy rather than a complex, multi-dimensional religious tradition. By engaging with this course of study you will develop a critical awareness of the much richer scope of Buddhist thought and cultures – East and West.

You will also have the opportunity to study Indo-Tibetan Buddhism with Tibetan monks in a traditional environment in the Buddhist Studies in India study tour with ASP263 Buddhist Studies in India.

For more information about the Buddhist Studies in India study tour ASP263 please refer to the Work Integrated Learning website or contact the WIL team: [artsed-wil@deakin.edu.au](mailto:artsed-wil@deakin.edu.au).

## Career outcomes

Religious literacy and understandings of different cultural and religious perspectives is an indispensable skill in our global society as is the ability to analysis multiple perspectives. Career opportunities exist for our students in the education sector, publishing, government agencies, cultural institutions, multicultural associations, media organisations, the public service and the marketing and tourism industries.

## Units

To complete a Minor sequence in Buddhist Studies select four (4) units from below:

ASR100	World Religions
ASR207	Tibetan Buddhism
ASR205	Mindfulness, Meditation, and Buddhism
ASR300	Religion, Rights and Governance

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

## Bachelor of Arts (Psychology)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Arts (Psychology)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurm Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	077384J
<i>Deakin course code</i>	A301
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

### Course overview

Study the Bachelor of Arts (Psychology) and learn about human behaviour, cognitive processes, and the factors that influence all of us to think and act in different ways.

You will also develop essential skills in critical thinking and problem solving as you gain knowledge in your areas of study in the humanities, social sciences and creative arts.

Why not study psychology your way, with more flexibility and diverse opportunities?

Learn the perfect mix of skills sought by employers by studying one degree, with exposure to two distinct areas of interest. Combining your passions in psychology and the arts can open doors and make you more employable once you graduate.

You will study psychology as a scientific discipline and learn to appreciate the important role it plays within society. You will cover a range of psychology areas including:

- behavioural and clinical neuroscience
- child and adolescent psychology
- relationships and the psychology of groups
- cognitive psychology
- forensic psychology
- psychopathology.

Electives in areas such as the arts, social sciences and humanities broaden your skill set and depth of knowledge, and expand your career prospects.

Your learnings in psychology will stem straight from our dedicated research centres, keeping you at the forefront of psychological innovation.

Our School of Psychology has strong partnerships with industry, including collaborative activities with government agencies, public and private organisations, hospitals and other universities.

These partnerships ensure that your degree remains relevant to industry and workforce needs. You will be in high demand by employers who want graduates that are ready to face problems with confidence.

You will get the chance to build real-world experience by electing to undertake the Psychology at Work (Internship) unit in your final year of study, giving you 140 hours of practical industry placement, strengthening your employment prospects.

If you are intending to become a psychologist, this course is the pathway to a 4th year level of study (honours or graduate diploma level). After completing a 4th year of study, you will be eligible to apply to register as a provisional psychologist. Students wishing to become fully registered psychologists can then apply to continue their study by undertaking one of the following:

- Master of Psychology (Clinical)
- Master of Psychology (Organisational)
- Master of Professional Psychology
- Doctor of Psychology (Clinical).

## Professional recognition

Deakin's Bachelor of Arts (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC) and recognised by the Psychology Board of Australia (PBA). This recognition allows you to pursue further study, which can lead to professional registration.

## Career opportunities

Completing this degree will give you important skills valued by employers such as critical analysis and systematic thinking. With both cross-disciplinary and specialist knowledge, you will have the ability to confidently enter a variety of fields including:

- creative arts
- education
- historical and cultural heritage
- human resources
- law enforcement
- media and communication
- politics and government
- social service.

To take your career in psychology to the next level, you may opt to continue with further study, which can lead to professional registration. This will broaden your career opportunities, including specialist fields of psychology such as:

- clinical psychology
- forensic psychology
- organisational psychology
- education
- developmental psychology
- health and community psychology
- cognitive neuroscience
- counselling
- other specialist areas.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work, that are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Assessment

Assessment within the award of Bachelor of Arts (Psychology) varies from written assignments and examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises, and tests.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate a broad and coherent body of knowledge in the Arts disciplines, with depth in the underlying principles and concepts in one or more disciplines or areas of practice.
Communication	Demonstrate highly developed skills in oral, written and electronic communication and the ability to communicate research outcomes, and produce scholarly papers.
Digital literacy	Research, analyse, synthesise and disseminate information using a range of appropriate technologies and resources in a rapidly-changing global environment.
Critical thinking	Use critical and analytical thinking and judgment in selecting and applying appropriate theories and methodologies to evaluate information and knowledge about society, culture and the arts.
Problem solving	Apply cognitive, technical and creative skills to generate solutions to unpredictable and sometimes complex problems in the Humanities, Social Sciences and the Creative Arts, including cross-disciplinary approaches.
Self-management	Demonstrate autonomy, responsibility and accountability for personal actions and a continued commitment to learning in personal, professional, and scholarly contexts.
Teamwork	Work and learn collaboratively with colleagues, other professionals and members of the wider community.
Global citizenship	Demonstrate an awareness of ethical issues, cultural diversity, and social responsibility when engaging in scholarship and professional roles in the local, national or international community.

*Approved by Faculty Board June 2014*

## Course rules

To qualify for the Bachelor of Arts (Psychology), a student must successfully complete 24 credit points of study including:

- 10 credit points of Psychology units including the approved 10-credit-point Psychology major sequence
- 10 credit points of Arts units including an approved Arts major sequence of at least 8 credit points.
- 4 electives credit points from units offered by either Faculty or by another Faculty
- no more than 10 credit points at Level 1
- a minimum 4 credit points at level 3
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

#### Level 1

HPS111	Psychology A: Fundamentals of Human Behaviour
HPS121	Psychology B: Individual and Social Development

#### Level 2

HPS201	Research Methods in Psychology A
HPS202	Child and Adolescent Development
HPS203	The Human Mind
HPS204	Human Social Behaviour

#### Level 3

HPS301	Research Methods in Psychology B
HPS307	Personality
HPS308	Psychopathology
HPS310	Brain, Biology and Behaviour

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Arts major sequence

Refer to A300 Bachelor of Arts handbook course entry for list of Arts majors on offer.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Bachelor of International Studies (Global Scholar)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of International Studies (Global Scholar)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	092876G
<i>Deakin course code</i>	A306
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Develop intercultural competencies and an established global perspective by studying Deakin's Bachelor of International Studies (Global Scholar). You'll gain foundation knowledge of the international political climate and travel overseas to begin building a global career from the very start of your studies.

The relationships between countries and political powers is ever-changing. Are you ready to learn how to navigate these international environments?

Designed for high-achieving students, you'll proactively build a professional portfolio of international experiences while learning about the forces that shape government, business and society throughout Australia and the world.

Understand how events of the past have contributed to today's environment and apply transversal and analytical skills to reflect on the past and tackle the future. You'll learn what it takes to establish and maintain a professional presence as an international relations professional, as well as build a graduate portfolio that highlights the key learning outcomes you've acquired throughout your degree.

Choose to major in disciplines that will offer a unique perspective to your degree such as:

- anthropology
- Arabic
- Chinese
- Indonesian
- international relations
- language and culture studies
- Middle East studies
- politics and policy studies
- Spanish.

As a global scholar, you'll visit countries for a few weeks or even a whole trimester. Whether you choose to study at one of our partner universities, or gain practical experience by completing an internship, you'll gain a competitive edge that will make you highly valued by employers. We know travelling abroad can be an expensive experience, so we also offer scholarships to help you complete your studies overseas.

Graduate as a global scholar from Deakin and you'll be ready to step into the real-world as an effective intercultural communicator with the skills to advise on policy and critically analyse the international issues of past and present.

## Career opportunities

Graduating from this course prepares you with the analytical skills and international experience to apply your knowledge to a range of roles. Build your career in Australia or overseas working in roles including:

- foreign correspondent
- foreign exchange analyst
- human rights advocate
- immigration agent
- international aid officer
- international management consultant
- international trade law consultant
- law reform officer
- political journalist
- trade agreements negotiator
- trade delegate.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Elective units may be selected that include work-based training or community-based learning. Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Review, analyse and apply key concepts in International Studies relating to international politics and society, globalization and development, intercultural competency, global citizenship, and professional development with reference to one or more Social Science disciplinary perspectives and appropriate theories and technical knowledge.
Communication	Effectively communicate ideas, arguments and analyses of cross-cultural communication, knowledge and skill transferability, personal and professional development and diverse organisational contexts in a selection of written, digital and oral formats to a range of audiences including practitioners working in the area of International Studies.

Deakin graduate learning outcomes	Course learning outcomes
Digital literacy	Employ a range of digital technologies and platforms appropriately to conduct research, engage in discussion and debate, document personal and professional skills and attributes, communicate effectively with and deliver reports and presentations to a diverse range of audiences within and outside the field of International Studies.
Critical thinking	Analyse and critically evaluate conceptual and theoretical approaches to issues of international politics and society, intercultural competency, global citizenship, and professional development in the context of an increasingly complex globalized world that requires appreciation of local, national, regional and international dynamics and their interactions.
Problem solving	Employ initiative and creativity in conjunction with appropriate Social Science methods of research and analysis including self-reflection to systematically investigate and generate context-sensitive and pragmatic solutions to complex real-world problems pertaining to cross-cultural communication, knowledge transferability, personal and professional development and diverse organisational contexts.
Self-management	Demonstrate autonomy, responsibility, accountability and a sustained and ongoing commitment to learning and skill development as a reflective practitioner in the area of International Studies and its communities of practice and scholarship.
Teamwork	Work and learn collaboratively with others in the field of International Studies and from other disciplines and backgrounds while still maintaining responsibility for their own learning.
Global citizenship	Analyse and respond appropriately to issues of cross-cultural communication and the transferability of knowledge and skills in different geographic, knowledge and organisational contexts as a reflective scholar and practitioner, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and adherence to professional and academic ethical standards.

*Approved by Faculty Board June 2016*

## Course rules

Student must successfully complete 24 credit points of study including:

- 6 core units
- An approved major sequence of at least 8 credit points selected from Anthropology, Arabic, Chinese, Indonesian, International Relations, Language and Culture Studies, Middle East Studies, Politics and Policy Studies or Spanish
- A second approved Arts major sequence of at least 8 credit points, or approved Arts minor sequence of at least 4 credit points
- No more than 10 credit points at level 1
- No more than 8 credit points taken outside the Faculty of Arts and Education
- A minimum of 4 credit points at level 3

- At least 4 credit points of international experience, which must include either AIS331 International Internship B (4 credit points) or AIS330 International Internship A (2 credit points), with additional credit points selected from the list of approved international experiences below:
  - trimester of study at an overseas university exchange partner
  - in-country language program (in Chinese, Indonesian, Arabic, or Spanish)
  - approved study abroad program or approved study tour (AIS203), (AIR292) or other
  - approved onshore internship with an international organisation (available for (AIS330) only)
  - 2 credit points of consecutive language units other than an in-country language program (AIB151 & AIB152; AIB251 & AIB252; AIC181 & AIC182; AIC281 & AIC282; AIC283 & AIC284; AIF146 & AIF142; AIF241 & AIF242; AIF341 & AIF342; AIF145; ALS100 & ALS150; ALS200 & ALS250) can be taken to achieve one credit point of the international experience requirement
- Completion of the Global citizenship Program
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Major sequences

Refer to the details of each major sequence for availability.

- Anthropology
- Arabic
- Chinese
- Indonesian
- International Politics
- International Relations
- Language and Culture Studies
- Middle East Studies
- Politics and Policy Studies

# Bachelor of Arts (Professional and Creative Writing)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Arts (Professional and Creative Writing)
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	055182A
<i>Deakin course code</i>	A316 (version 1)

*For 2015 and prior continuing students only*

## Course overview

Deakin's Bachelor of Arts (Professional and Creative Writing) aims to provide the qualities and attributes that will enable you to work both in specialised fields, and across professional boundaries.

Initially you will undertake various forms of constructive, descriptive and narrative writing, progressing to editing, creative non-fiction and script writing as well as the traditional genres of poetry and fiction writing. The final level's focus is on exploring and taking risks with individual writing styles, plus developing creative research projects and publications.

You will develop broadly based skills in the processes of writing and revision, and gain expertise and practical experience across a range of genres, styles and professional environments. In all writing and editing units, the emphasis is on working towards industry standards appropriate for publication and the writing/editing industry.

The course will encourage you to explore opportunities for writing/editing in new media, cross-genre experimentation and creative production.

You will also learn the practical skills necessary to support, create and collaborate in work across a range of forms, in writing, film, drama and new media.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

### For students who commenced 2015

Students must complete 24 credit points of study comprising:

- 15 credit points of core units
- 9 credit points of elective units

### For students who commenced 2012–2014

Students must complete 24 credit points of study comprising:

- a major sequence of at least 8 credit points in Professional and Creative Writing
- a sub-major of 4 credit points selected from ONE of the parallel studies: Children's Literature, Film Studies, Journalism or Literary Studies

## For students who commenced prior to 2012

Students must complete 24 credit points of study comprising:

- a major sequence of at least 8 credit points in Professional and Creative Writing
- a sub-major of 4 credit points selected from the major sequences of Anthropology, Australian Studies, Film Studies, History, Journalism, International Relations, Language and Culture Studies, Literary Studies, Philosophy, Public Relations, Politics and Policy studies, Sociology

### And for all students:

- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1
- at least 14 credit points at level 2 or above
- at least 4 credit points at level 3

## Course structure

### For students who commenced 2015

#### Level 1

- ACC100 Communication in Everyday Life  
 ACC101 Creativity and Dangerous Ideas – (No longer available for enrolment)  
 ALW101 Writer's Toolkit: Craft and Creativity  
 ALW102 Writing Spaces: Paradigms and Provocations

And either:

- ALL101 The Stories We Tell: Inventing Selves and Others  
 Or  
 ALL102 From Horror to Romance: Genre and Its Revisions

Plus 3 electives

#### Level 2

- ACC200 Freelancing in the Arts  
 ALL201 Love Death & Poetry – (No longer available for enrolment)  
 ALW205 The Role of the Editor

*Note that ALW393 is no longer available from 2016, so students should instead take either ALW394 (2 cp), ALW395, plus 5 electives, or may instead choose ALW394 (2 cp), ALW396 Publishing An Anthology: Writing Collaborations (2 cp) plus 4 electives.*

## For students who commenced 2014 and prior

The Professional and Creative Writing major sequence requires 8 credit points selected from:

- ALW101 Writer's Toolkit: Craft and Creativity
- ALW102 Writing Spaces: Paradigms and Provocations

Plus a further 6 credit points from the following, ensuring at least 2 credit points are undertaken at level 2 and 2 credit points at level 3:

- ALW205 The Role of the Editor
- ALW223 The Lyric Essay: Playing with Ideas
- ALW225 Designing Fictions
- ALW227 Scriptwriting: Character, Event, Consequence
- ALW394 Studio Writing Project (2 credit points)
- ALW395 Experimental Writing Lab
- ALW396 Producing Digital Anthologies: From Concept to Publication (2 credit points)
- ALW240 Poetry: Making It Strange (No longer available for enrolment)
- ALW392 Theorising Creativity (No longer available for enrolment)
- ALW393 Editing Collaborations: Producing an Anthology (No longer available for enrolment)
- ALW394 Writing Project B (1 credit point) (No longer available for enrolment)
- ALX321 Creative Industries Internship (No longer available for enrolment)

# Bachelor of Arts (Professional and Creative Writing)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Arts (Professional and Creative Writing)
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	055182A
<i>Deakin course code</i>	A316 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Pipelining course version from 2018*

## Course overview

Professional formation for ambitious writers within and across genres, preparation for industry, entrepreneurial projects and literary arts/publishing fields.

Deakin's Bachelor of Arts (Professional and Creative Writing) provides a practice-based and theoretically strong preparation for professional writers working in specialised literary/publishing fields and industry, and for entrepreneurial contexts. Students engage in practice ranging from narrative-driven works to experimental innovations, editing, creative nonfiction and script writing, as well as new takes on traditional genres of poetry, and short and extended fiction writing. In the final year, students work on studio projects to develop and extend their style and craft, as well as doing creative research work and producing professional-standard publications, for web and page.

The course encourages identifying and pursuing opportunities for writing/editing in new media, cross-genre experimentation and creative production with an awareness of entrepreneurial initiative and know-how. Collaboration, robust practice, professionalism and creative sustainability are emphasised at all levels. Students hone skills necessary to work with interdisciplinary teams, in writing, film, drama and new technologies. The course prepares dedicated writers for fourth-year solo projects in Deakin's robust Honours program, and for postgraduate pathways in creative writing research and innovation.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply knowledge of creative writing modes and theories and their production in the context of professional, historical, cultural and stylistic frameworks, including skills in composition, editing, presentation and aspects of publication
Communication	Communicate through writing that is technically and aesthetically proficient and demonstrates awareness of, or ability to extend, established writing conventions to produce works that communicate effectively using suitable written forms and techniques
Digital literacy	Employ a range of generic and industry-specific digital technologies for the research, production and presentation of creative materials, including technologies for the innovative generation or dissemination of work, or those required in various professional contexts
Critical thinking	Demonstrate competencies in the production of texts and discourses informed by rigorous research, close reading, critical thinking and analysis, and by selecting and applying the appropriate creative writing forms and conventions
Problem solving	Analyse and respond creatively to editorial or publishing briefs or opportunities by employing creative and professional writing or communication strategies to identify, solve or reframe aesthetic, theoretical or real-world challenges and limitations
Self-management	Demonstrate responsibility for personal learning through autonomy, accountability and a continued commitment to learning and skill development, as a reflective practitioner in the Professional and Creative Writing industry and scholarly and other contexts
Teamwork	Actively participate and make constructive contributions to processes of creative and critical collaboration within or across disciplines, sharing of peer feedback in writing workshops and online forums, and demonstrate professional and ethical negotiation with collaborators and colleagues
Global citizenship	Demonstrate ethical global citizenship and awareness of cultural diversity and social responsibility when engaging in scholarship and in professional roles and community collaborations

*Approved by Faculty Board December 2014*

## Course rules

Students must complete 24 credit points as follows:

- 16 credit points of compulsory core units
- 8 credit points of elective units
- no more than 10 credit points at level 1
- at least 14 credit points at level 2 or above
- at least 4 credit points at level 3
- no more than 8 credit points taken outside the Faculty of Arts and Education
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACC100	Communication in Everyday Life
ACC101	Creativity and Dangerous Ideas (No longer available for enrolment)
ALW101	Writer's Toolkit: Craft and Creativity
ALW102	Writing Spaces: Paradigms and Provocations

And either

ALL101 The Stories We Tell: Inventing Selves and Others

Or

ALL102 From Horror to Romance: Genre and Its Revisions

Plus 3 electives

### Level 2

ACC200	Freelancing in the Arts
ALL201	Love Death & Poetry – (No longer available for enrolment)
ALW205	The Role of the Editor
ALW223	The Lyric Essay: Playing with Ideas
ALW225	Designing Fictions
ALW227	Scriptwriting: Character, Event, Consequence

Plus 2 electives

### Level 3

ALW394	Studio Writing Project (2 credit points)
ALW395	Experimental Writing Lab
ALW396	Producing Digital Anthologies: From Concept to Publication (2 credit points)

Plus 3 electives

### Electives

Students undertaking A316 have room in their course to complete a set of electives. We recommend approaching your selection of electives with some intentionality. Think about what kind of writer you wish to become, and which skills/fields would assist you in your goals.

Electives can be used to:

- Explore fields of study and ideas that inspire you. You may consider history, literary studies, philosophy, creative arts, gender studies, children's literature, journalism, design, language (other than English) or other field.
- Complete a 4 unit suite that complements the main study.
- Complete a number of units that have some degree of coherency by completing at least two units in one area of study

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Creative Writing

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Writing
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurin Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	095259J
<i>Deakin course code</i>	A316 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Want to use your knack for writing in a pathway to a fulfilling career and life-long creative satisfaction? Deakin's Bachelor of Creative Writing can show you how. Finesse your writing and gain expertise across a range of genres and styles. You'll explore contemporary approaches and their histories in areas like creative nonfiction, scriptwriting, poetry, as well as short and extended fiction writing.

Do you have an eye for detail and an idea for a good story?

Under the tutelage of staff who are published authors themselves, you'll study the craft of writing, art of storytelling, creativity and the process of editing and revision. You'll explore narrative-driven works, experimental innovations, creative nonfiction and script writing, as well as new takes on traditional genres of poetry, and short and extended fiction writing.

You'll benefit from unique opportunities to:

- gain industry experience
- work on studio projects
- conduct creative research work
- produce content for professional-standard digital and print publications.

Collaborate and improve your skills working with peers in interdisciplinary teams for writing, film, drama and new technologies. You'll gain insight into writing and editing for new media, cross-genre experimentation and creative production.

Through this course, you'll have access to internships in magazine and book publishing houses, as well as within broadcast and print media, helping you to develop important industry connections and drive your creative practice forward.

We also encourage you to pursue opportunities for writing and editing in new media, including for our own international writing journal, *Verandah*.

## Career opportunities

As a creative writing graduate, you will have the practical skills to work with interdisciplinary teams in writing, film, drama and new technologies. Career opportunities include:

- author
- book editor
- copyeditor
- copywriter
- journalist
- magazine editor or writer
- publisher
- scriptwriter
- speechwriter
- technical writer.

You may also choose to transition into fourth-year solo projects in Deakin's selective Honours program, or postgraduate studies in creative writing research and production.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

 ALM101 Making Social Media  
 IND101 Introduction to Aboriginal Studies

Complete four 1-credit point units chosen from the following list:

ALW242	Poetry: Events in Language
ALW205	The Role of the Editor
ALW252	Writing for Young People
ALL256	Gender, Sex and Literature
ALW251	Writing for Games: Designing Quests and Characters
ALL255	Fantasy Literature
ACP206	Adaptation and Solo Performance
ADV201	Web Design and Interactivity
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives

Complete one 1-credit point units chosen from the following list:

ALW395	Experimental Writing Lab
ACC317	Communication and Creative Arts Internship A

### Electives and majors

Complete six electives, of which at least two must be 2nd or 3rd level.

We suggest students complete at least 4 units in a subject area different to their degree, preferably a linked sequence of study in the same area. This choice can include units from any degree in the University but is best chosen from the subject areas in the Bachelor of Arts. Electives can be used to:

- Explore fields of study and ideas that inspire you. You may consider history, literary studies, philosophy, creative arts such as photography, film and so on, gender studies, children's literature, journalism, design, language (other than English) or other fields.
- complete a 4 unit suite that complements the main study.
- complete a number of units that have some degree of coherency by completing at least two units in one area of study.

*Note: Regarding majors, students who wish to graduate from the Bachelor of Creative Arts with a parallel major can be in consultation with the course director to plan the necessary course structure. Ideally, this is done in the early trimesters of your degree and before completion of any course electives or general electives.*

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

There will be opportunities throughout the course for students to engage with real briefs/submission opportunities and industry professionals, in the form of Guest Lecturers and international exchange initiatives when available. These experiences will be integrated into unit assessment, where students will access content/tasks to more closely connect the learning experience with industry practices.

# Bachelor of Arts (Public Relations)

Year	2019 course information
Award granted	Bachelor of Arts (Public Relations)
Campus	Offered at Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)

## Course overview

Build the reputation of brands, people and organisations with skills and techniques developed through Deakin's Bachelor of Communication (Public Relations). Learn how innovative and ethical communication fosters meaningful relationships with stakeholders as you develop the capabilities to create inspiring campaigns and events, manage issues and become an adaptive communications expert.

Do you want to create, inspire and problem solve? Steer your way to a dynamic career in communication

Develop a thorough understanding of public relations in the 21st century so you can design and implement effective and memorable campaigns.

Through this course you'll learn about the social, administrative, cultural and ethical implications of public relations activity. You'll also gain insights into how PR has kept pace with advancements in technology and the changing political, economic and social landscape.

From day one, you'll have the opportunity to develop your skills in writing, editing, researching, event organisation and publishing with the aim to prepare you for the challenges of the current media landscape. Learn from academics who are active in their field, with years of invaluable experience, ensuring you gain the professional skills to conduct strategic and tactical communication research, planning and evaluation.

You'll also establish links with professionals in industry, work with clients in real-life scenarios and explore work-based internships or study experiences overseas. From preserving reputations to crisis management, you'll graduate job ready with a portfolio of public relations work and an understanding of the art of managing news positively.

## Professional recognition

The Bachelor of Communication (Public Relations) is accredited by the Public Relations Institute of Australia (PRIA). Graduates are eligible for accelerated membership of the PRIA, ensuring you remain connected and up-to-date with current industry standards.

## Career opportunities

With Deakin's accredited public relations degree, you can work across a range of sectors, including business, government or not-for-profit organisations. Deakin graduates find work as:

- account executives
- advertising copywriters
- advertising account managers
- customer relations officers
- community relations officers
- customer relations managers
- government relations officers
- communication and stakeholder relations
- marketing and communications coordinator
- media and communications advisors
- media relations advisors
- public relations officers
- social media account managers
- digital content coordinators
- digital communications specialists
- event management officers.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Pathways

Further studies are available at Honours and Postgraduate level. Many students choose to enter into the Bachelor of Communication (Honours) or the Master of Communication.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Employ communication theories and concepts to the practice of public relations to inform professional practice within government, civil and business organisations.
Communication	Effectively communicate analyses, findings and strategies in Public Relations to a range of audiences using written, digital and oral formats.
Digital literacy	Use digital communication technologies to research and strategically engage with audiences and stakeholder.
Critical thinking	Analyse and critically evaluate theoretical approaches to Public Relations practice and issues including the need to understand current social and legal norms, policies and practices, in the local, national and global context.
Problem solving	Employ initiative and creativity in conjunction with accepted evidence-based communication methods to generate innovative approaches and solutions to complex, real world issues within the professional Public Relations environment.
Self-management	Exhibit autonomy, responsibility, accountability and a commitment to learning and skills development in a professional context.
Teamwork	Work and learn collaboratively with real world (external) clients and others from different disciplines and backgrounds to build effective relationships and achieve communication goals.
Global citizenship	Demonstrate communication strategies that are respectful and inclusive of cultural and socio-economic diversity, social and environmental responsibility and the application of ethical standards.

*Approved by Academic Board*

## Course rules

To qualify for the award of Bachelor of Communication (Public Relations), a student must complete 24 credit points including:

- 11 credit points of core units (10 units)
- 3 course electives from list A
- 4 course electives from list B
- 6 credit points of electives (of which two must be at level 2 or 3)
- no more than 10 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACC100	Communication in Everyday Life
ALR103	Introduction to Public Relations
ALR104	Strategic Communication and Writing

### Level 2

ALR210	Media Relations Strategy
ALR276	Ethical Communication and Citizenship
ALR279	Public Relations Management

### Level 3

- ALR300 Public Relations Campaigns and Practice (2 credit points)
- ACC320 Communication Internship A: Placement
- ACC321 Communication Internship B: Career Development
- ALR383 Lobbying, Advocacy and Public Opinion

- MIS203 Making Sense of Information
- IND201 Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives

### Electives

Complete six electives, of which at least two must be 2nd or 3rd level

We suggest students complete at least 4 credit points in a subject area different to their degree, preferably a linked sequence of study in the same area. This choice can include units from any degree in the University but is best chosen from the subject areas in the Bachelor of Arts ([deakin.edu.au/course/bachelor-arts](http://deakin.edu.au/course/bachelor-arts)). We also recommend students complete at least two more credit points from the course electives listed above.

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

There are opportunities to engage in global mobility programs such as communication study tours (domestic and international and subject to offer); overseas internships, and study abroad.

# Bachelor of International Studies

Year	2019 course information
Award granted	Bachelor of International Studies
Duration	3 years full-time or part-time equivalent
CRICOS course code	075375D
Deakin course code	A326 (version 1)

*Offered to continuing students only*

## Course overview

The Bachelor of International Studies is a course for students seeking an international orientation, with a commitment to a period of study at an overseas university, internship at an international organisation or participation in an in-country language program.

As part of the course you are required to successfully complete at least 2 credit points of international experience, selected from one or more of the following:

- trimester of study at an overseas university exchange partner
- international internship (AIS330) or (AIS331)
- in-country language program (in Chinese, Indonesian or Arabic)
- approved study abroad program or approved study tour (AIS203), (AIR292) or other
- approved onshore internship with an international organisation (available for (AIS330) only).
- 2 credit points of consecutive language units other than an in-country language program (AIB151 & AIB152; AIB251 & AIB252; AIC181 & AIC182; AIC281 & AIC282; AIC 283 & AIC284; AIF146 & AIF 142; AIF 241 & AIF242; AIF341 & AIF342; AIF145; ALS100 & ALS150; ALS200 & ALS250) can be taken to achieve one credit point of the international experience requirement

Read more about student experiences on internship at [deakin.edu.au/arts-ed/internships/bis/map](http://deakin.edu.au/arts-ed/internships/bis/map) and [deakin.edu.au/arts-ed/courses/intstud.php](http://deakin.edu.au/arts-ed/courses/intstud.php).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the award of Bachelor of International Studies, a student must successfully complete 24 credit points of study including:

- 4 core units

And either

- A major sequence of 8 credit points in international relations plus 4 credit points from one of the major sequences listed below taken over 2 levels

Or

- A major sequence of 8 credit points from one of the major sequences listed below plus 4 credit points of international relations units taken over 2 levels

Plus

- At least 2 credit points of international experience, selected from one or more of the following:
  - trimester of study at an overseas university exchange partner
  - international internship (AIS330) or (AIS331)
  - in-country language program (in Chinese, Indonesian or Arabic)
  - approved study abroad program or approved study tour (AIS203), (AIR292) or other
  - approved onshore internship with an international organisation (available for (AIS330) only)
- no more than 8 credit points taken outside the Faculty of Arts and Education
- a minimum of 4 credit points at level 3

**Notes:**

(i) If the 4 cp is taken in Language and Cultural Studies – students need to undertake two language units and two contextual units.

(ii) Students in a combined International Studies course (D338 BIS/B Commerce, or D323 B Laws/BIS) should note that within the 16 credit points required for the Bachelor of International Studies they must complete 4 credit points of core units, an 8-credit-point major sequence and at least 2 credit points of international experience.

(iii) It is envisaged that students would complete the international experience in the third or fourth year of their course.

**Major sequences**

Refer to the details of each major sequence for availability.

- Anthropology
- Arabic
- Chinese
- Indonesian
- International Relations
- Language and Culture Studies
- Middle East Studies
- Politics and Policy Studies
- Spanish

**Course structure**

For students who commence from 2014:

Core units (6 credit points)

- AIR345 American Foreign Policy (No longer available for enrolment)

# Bachelor of International Studies

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of International Studies
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	075375D
<i>Deakin course code</i>	A326 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Dive into other cultures and build a global career by studying Deakin's Bachelor of International Studies, an experience-rich course designed to give you a deep understanding of the international forces shaping the world today.

Ready to make the world your office?

The Bachelor of International Studies is a degree that can take you anywhere. You'll have the opportunity to gain valuable skills, make lifelong international connections and add value to your degree through one of our many international experiences.

If you have an interest in other cultures, languages and perspectives outside of your own, this is a course that allows you to turn your passion into a rewarding career. First-hand experiences in other countries and cultures let you develop the practical and soft skills required to pursue a global career. You might see yourself studying at an overseas university, mastering a new language through an In-Country Language Program or working in a rural village as part of an international internship.

It's this international experience, combined with engaging course content delivered by teachers with extensive industry experience, that allows you to develop a systematic understanding of other cultures and societies. Feel confident about analysing and interpreting the international forces shaping government, business and community life in contemporary Australia, and impress employers with inter-cultural skills and experience.

Get even more out of your degree by choosing from 10 majors to match your unique career aspirations. Your major allows you to become an expert in a specialty area, and the knowledge you'll build will act as a bridge between you and your dream job.

## Career opportunities

The professional, social and personal experiences on offer throughout this course prepare you for employment in a range of areas in the public sector including:

- diplomacy
- defence
- immigration
- education
- finance
- communications
- trade and aid
- large corporations and small and medium-sized businesses with an international orientation
- non-government organisations with regional and global links.

If you're considering further study, Deakin's honours program and postgraduate pathways can open up a world of research and employment opportunities in Australia and abroad.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Elective units may be selected that include work-based training or community-based learning. Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. See Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Review, analyse and interpret international forces shaping government, business and community life in Australia and in other countries pertaining to cross-cultural communication and interactions; knowledge and skills transferability; the principles of personal and professional development and their application; and working in diverse organisational contexts, and respond to these issues in a theoretically-informed and contextually-appropriate manner drawing upon both scholarship and practice.
Communication	Effectively communicate ideas, arguments and analyses of cross-cultural communication, knowledge and skill transferability, personal and professional development and diverse organisational contexts in a selection of written, digital and oral formats to a range of audiences including practitioners working in the area of International Studies.
Digital literacy	Employ a range of digital technologies and platforms appropriately to conduct research, engage in discussion and debate, document personal and professional skills and attributes, communicate effectively with and deliver reports and presentations to a diverse range of audiences within and outside the field of International Studies.
Critical thinking	Analyse and critically evaluate theoretical approaches to issues in International Studies pertaining to cross-cultural communication, knowledge transferability, personal and professional development and working in diverse organisational contexts and demonstrate the appropriate application of theoretical knowledge in different cultural and organisational settings.

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Employ initiative and creativity in conjunction with appropriate Social Science methods of research and analysis including self-reflection to systematically investigate and generate context-sensitive and pragmatic solutions to complex real-world problems pertaining to cross-cultural communication, knowledge transferability, personal and professional development and diverse organisational contexts.
Self-management	Demonstrate autonomy, responsibility, accountability and a sustained and ongoing commitment to learning and skill development as a reflective practitioner in the area of International Studies and its communities of practice and scholarship.
Teamwork	Work and learn collaboratively with others in the field of International Studies and from other disciplines and backgrounds while still maintaining responsibility for their own learning.
Global citizenship	Analyse and respond appropriately to issues of cross-cultural communication and the transferability of knowledge and skills in different geographic, knowledge and organisational contexts as a reflective scholar and practitioner, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and adherence to professional and academic ethical standards.

Approved by Faculty Board May 2014

## Course rules

Student must successfully complete 24 credit points of study including:

- 6 core units
- a major selected from the major sequences listed below
- no more than 8 credit points taken outside the Faculty of Arts and Education
- a minimum of 4 credit points at level 3
- at least 2 credit points of approved international experience such as:
  - trimester of study at an overseas university exchange partner
  - international internship (AIS330) or (AIS331)
  - in-country language program (in Chinese, Indonesian, Arabic, or Spanish)
  - approved study abroad program or approved study tour (AIS203), (AIR292) or other
  - approved onshore internship with an international organisation (available for (AIS330) only)
  - 2 credit points of consecutive language units other than an in-country language program (AIB151 & AIB152; AIB251 & AIB252; AIC181 & AIC182; AIC281 & AIC282; AIC283 & AIC284; AIF146 & AIF142; AIF241 & AIF242; AIF341 & AIF342; AIF145; ALS100 & ALS150; ALS200 & ALS250) can be taken to achieve one credit point of the international experience requirement
- AAI018 Academic Integrity (0-credit-point compulsory unit)

Notes:

(i) Students enrolled in D338 or D323 are not able to accommodate AIS331 International Internship B (4 credit points) within the 16 credit points allocated to the Bachelor of International Studies. However, AIS330 International Internship A (2 credit point) placements can be for up to 12 weeks if desired. Please contact the Unit Chair for further information.

(ii) It is envisaged that students would complete the international experience in the third or fourth year of their course.

## Major sequences

Refer to the details of each major sequence for availability.

- Anthropology
- Arabic
- Chinese
- Indonesian
- International Relations
- International Politics
- Language and Culture Studies
- Middle East Studies
- Politics and Policy Studies
- Spanish

## Course structure

### Core units

AIS101	Intercultural Communication
AIS201	International Studies @ Work
AIR200	Global Capitalism and Power
AIX117	Professional Writing for Work
AIS204	Gender, Globalisation and Development
AIS303	International Studies Capstone Portfolio

## International experience

All students must complete at least 2 credit points of international experience, selected from one or more of the following:

- trimester of study at an overseas university exchange partner
- international internship (AIS330 or AIS331)
- in-country language program (in Chinese, Indonesian, Arabic, or Spanish)
- approved study abroad program or approved study tour (AIS203 or other)
- approved onshore internship with an international organisation (available for AIS330 only).
- 2 credit points of consecutive language units other than an in-country language program can be taken to achieve one credit point of the international experience requirement

AIS203 Immersion Program: Japanese Politics, Society and Culture

Further information on the international student experience and on previous students' overseas internships is available at: [deakin.edu.au/arts-ed/internships/bis/map](http://deakin.edu.au/arts-ed/internships/bis/map).

Students seeking to undertake an internship will enrol in the appropriate unit (either AIS330 or AIS331) once the Unit Chair has approved their planned placement.

AIS330 International Internship A (2 credit points)

or

AIS331 International Internship B (4 credit points)

AIS330, AIS331 – Internship units are normally undertaken in third level (or equivalent) and are subject to completion of specified prerequisite units and special application requirements. Interested students should contact Arts and Education Student Services and Enrolment Enquiries on their campus for further information.

For further information regarding the in-country language programs, refer to the major sequences in Indonesian, Chinese and Arabic.

## Work experience

This course includes completion of least 2 credit points of international experience, selected from one or more of the following:

- Trimester of study at an overseas university exchange partner
- International internship (AIS330 or AIS331) in-country language program (in Chinese, Indonesian or Arabic)
- Approved study abroad program or approved study tour (AIS203 or other)
- Approved onshore internship with an international organisation (available for AIS330 only).
- 2 credit points of consecutive language units other than an in-country language program can be taken to achieve one credit point of the international experience requirement

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

All students are required to complete a minimum of 2 credit points of international experience (see International Experience, above).

## Bachelor of Arts (Media and Communication)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Arts (Media and Communication)
<i>Campus</i>	Offered at Burwood (Melbourne) and Waurin Ponds (Geelong), Warrnambool (For students who commenced prior to 2015 only)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	048014J
<i>Deakin course code</i>	A328

*Offered to continuing students only*

### Course overview

Deakin's Bachelor of Arts (Media and Communication) is specifically designed to enable you to graduate with a 'multiskilled' qualification appropriate for a rapidly evolving area in which skills, careers and job markets are increasingly transient. In this course, you can choose subjects that suit your specific interests and professional ambitions in the areas of animation, film studies, visual communication design, journalism, media and communication, photography, public relations and visual arts.

### Course rules

Students must complete 24 credit points as follows:

- Two core units
  - ALC101 Contemporary Communication: Making Sense of Text, Image and Meaning (No longer available for enrolment; students to select replacement unit ALC104)
  - ALC102 Contemporary Communication: Making Sense of New Media (No longer available for enrolment; students to select replacement unit ALC105)
- At least 12 credit points from any of the following BA majors:
  - Animation
  - Film Studies
  - Film and Video
  - Visual Communication Design
  - Journalism
  - Media and Communication
  - Photography
  - Public Relations
  - Visual Arts
- No more than 8 credit points outside the course-grouped units for the BA
- No more than 10 credit points at level 1
- At least 14 credit points at level 2 or above
- At least 4 credit points at Level 3

# Bachelor of Criminology

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Criminology
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurm Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	057849B
<i>Deakin course code</i>	A329
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Learn the who, why and how of crime with Deakin's Bachelor of Criminology. With the perfect balance of theory and practical learning, join the university with the most established criminology program in Victoria and graduate armed with the critical thinking skills to tackle criminal justice issues. We'll help you understand the inner workings and impacts of criminal behaviour and various responses to it, from environmental crime to terrorism, and how to use this understanding when making decisions within the criminal justice system.

Are you ready to make a change in understanding and preventing crime?

Do more than learn theory in the classroom. Understand the thinking and research surrounding a breadth of criminology topics, while building a portfolio that will showcase your knowledge and set you up for your future career. Study topics that are crucial to the prevention of crime, such as cyber security, surveillance, anti-terrorism and policing.

Understand the historical repercussions, technological developments and media representations of crime and the desirable outcomes of criminal justice processes. Get hands-on experience with our work-integrated learning opportunities, which allow you to bridge theory with practice and gain insight into how the study of criminology applies across different industries and sectors. You can even take your learning overseas and gain a global perspective on how other countries approach criminology.

Our course is designed in conjunction with professional bodies including Victoria Police and the Australian Criminal Intelligence Commission. This means you'll develop the skills in demand by employers and graduate ready to confidently advise on criminal justice issues in fields including:

- anti-corruption agencies
- correctional services
- community services
- crime prevention agencies
- intelligence agencies
- law enforcement
- local, state and federal government
- private security industries
- state and federal police.

Need more flexibility in your studies? Take advantage of our flexible learning options and find the right balance for you. You can choose to study part time or full time, on campus or 100% online. You can also take advantage of Deakin's trimester system and fast-track your degree and complete your Bachelor of Criminology in just two years.

Complement your studies by pairing the Bachelor of Criminology with another degree. From arts to cyber security, you'll graduate with a unique course combination valued by employers that will further expand your career opportunities.

Be ready to thrive in a field that challenges perceptions of crime. Get in touch and learn how you can graduate ready to tackle criminal issues.

## Career opportunities

Graduates from this course can look forward to a diverse and challenging career as:

- crime analysts
- jury consultants
- police development managers
- private investigators
- forensic psychologists
- correctional officers
- parole officers
- crime reporters
- crime researchers
- criminologists
- intelligence officers
- federal police officers (requires further study).

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Assessment

Assessment within the award of Bachelor of Criminology varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Review and analyse major social science theories and key criminological concepts, theories and technical knowledge relating to crime and criminal justice issues, including the causes and consequences of crime, ways of responding to crime, media representations of crime, core debates in policing, security and surveillance, as well as broader issues of policy and politics, inclusion and exclusion, governing and governance, security, social justice, citizenship and human rights.
Communication	Effectively communicate the findings and analyses of criminological concepts, theories and technical knowledge, in a selection of written, digital and oral formats, to a range of audiences.
Digital literacy	Employ a range of generic and specialist criminal justice-specific digital communication technologies to apply criminological knowledge and conduct social and criminological research and deliver reports and presentations to a diverse range of audiences within and outside the field.
Critical thinking	Analyse and critically evaluate theoretical approaches to crime problems and current policies and practices of governments and criminal justice practitioners and professions in the context of broad social change, new crimes, new responses and an increasing responsibility for preventing and controlling individual and complex crimes at local, state, national and international levels.
Problem solving	Employ initiative and creativity in conjunction with accepted evidence-based criminological methods to generate innovative and pragmatic approaches and solutions to complex problems in the areas of individual crime, complex and organised crime, the criminal justice process, questions of justice and injustice, local, national and international policing, surveillance, privacy and technology, and domestic and international crime and security issues.
Self-management	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skill development, as a reflective practitioner, while working in the criminological field.
Teamwork	Work and learn collaboratively with others in the criminology field and from different disciplines and backgrounds while still maintaining responsibility for their own learning.
Global citizenship	Analyse and address criminological issues in the domestic and global context as a reflective scholar and practitioner, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and the application of the highest ethical standards.

*Approved by Faculty Board May 2014*

## Course rules

To qualify for the award of Bachelor of Criminology, students must complete 24-credit points as follows:

- At least 12-credit points of ACR coded units, including the compulsory core units of ACR101, ACR102, ACR201, ACR202, ACR301 and ACR302;
- Up to 12-credit points can be non-ACR coded units;
- No more than 10-credit-points at level 1 including ACR101 and ACR102;
- At least 14-credit points at level 2 or above including ACR201 and ACR202;
- At least 4-credit points at level 3 including ACR301 and ACR302;
- No more than 8-credit points taken outside the Faculty of Arts and Education.
- AAI018 Academic Integrity (0-credit-point compulsory unit)

Students are encouraged to consider completing a second major sequence and therefore may wish to select elective units in accordance with that major sequence. Please refer to A300 Bachelor of Arts for a list of Faculty of Arts and Education major sequences.

Students are also encouraged to consider taking electives from the Professional Experience and Practice Minor sequence APE101, APE201, APE202 and APE301.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one of both or these units in their first year.

## Course structure

### Students commencing from 2014

#### Level 1

- ACR101 Introducing Crime and Criminology (core)  
 ACR102 Introducing Crime and Criminal Justice (core)

#### Level 2 and 3

- ACR201 Issues in Criminal Justice (core)  
 ACR202 Criminology Theory (core)  
 ACR301 International and Comparative Criminal Justice (core)  
 ACR302 Criminology Research (core)

Plus at least six credit points from:

- ACR203 Crime, Victims and Justice  
 ACR204 Crime, Media and Justice  
 ACR210 Crime, Surveillance and Society \*  
 ACR211 Crime Prevention and Security \*  
 ACR212 Crime, Surveillance and Technology \*\*  
 ACR213 Crime, Terrorism and Security \*\*  
 ACR303 Criminology Practicum (2 credit points)

\* ACR210, ACR211 – Trimester 1 (alternate years 2020, 2022) and Trimester 3 (alternate years 2019, 2021)

\*\* ACR212, ACR213 – Trimester 3 (alternate years 2020, 2022) and Trimester 1 (alternate years 2019, 2021)

### Students commencing prior to 2014

Continuing Criminology students who commenced prior to 2014 to contact Student Services Office for re-enrolment advice and to review Course Plans. From 2014, most Criminology ASL coded units have been replaced with Criminology ACR coded units.

Students applying with prior study or recognition for prior learning will need to contact the student services office to review their enrolment plans.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

## Bachelor of Communication (Journalism)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Communication (Journalism)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurin Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	083978K
<i>Deakin course code</i>	A331
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

### Course overview

In today's fast-paced digital age, we've never been hungrier for news – sharing it with the masses in real time, as it happens. The Bachelor of Communication (Journalism) will give you the skills to unearth a great news story, engage with your audience and deliver the news across a range of media platforms.

Do you want hands-on real-life newsroom experience while you study?

From day one, you'll have the opportunity to identify, research and plan news and feature stories, so you can write, edit and publish them straight from our newsroom and creative media labs on campus. Through industry experience, and guided by media practitioners with extensive experience across print, television, radio and digital media, you'll learn about:

- community journalism
- feature writing
- interview techniques
- media law and ethics
- multi-platform and broadcast journalism
- news reporting
- researching stories.

While developing your knowledge in communication and media, you'll also get sought-after broadcasting experience during your studies through an internship with a major newspaper, radio station or television network.

This course will prepare you for employment in the communications industries, across all media platforms, whether working for large news organisations, allied media businesses or freelancing.

## Career opportunities

Our graduates work in-house or freelance for print, radio, television and multimedia newsrooms. They also work in business, government and the not-for-profit sector, taking up roles as:

- advertising copywriters
- book, magazine or newspaper editors
- copywriters
- digital content managers
- digital marketing specialists
- food writers
- foreign correspondents
- journalists
- magazine writers
- media and communications advisers
- news presenters
- reporters
- social media coordinators
- speechwriters
- travel writers.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Pathways

Further studies are available at Honours and Postgraduate level. Many students choose to enter into the Bachelor of Communication (Honours) or the Master of Communication

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate theoretical and practical knowledge of journalism through analysing, applying and communicating the key disciplinary principles and concepts.
Communication	Demonstrate communication skills in accordance with journalistic standards to be able to conduct interviews, write, produce and present stories for print, broadcast and online media in a style appropriate for the specific publication and audience.
Digital literacy	Conduct research for news and current affairs and analyse, synthesise and disseminate information using a range of technologies, including social media, for a variety of local and global audiences.

Deakin graduate learning outcomes	Course learning outcomes
Critical thinking	Select, critically analyse and evaluate information relating to the construction of news stories and demonstrate a critical awareness of different publication styles and media audiences in Australia and internationally.
Problem solving	In the context of newsgathering and production, respond to journalistic challenges including unpredictable and sometimes complex problems and situations and generate pragmatic and creative solutions.
Self-management	Demonstrate the ability to reflect on knowledge acquisition and skills development and how these relate to career aspirations and the development of a professional identity which is responsive to change in work environments journalistic practice.
Teamwork	Work collaboratively and constructively to achieve team goals and foster effective relationships with the team.
Global citizenship	Employ relevant legal, ethical and cultural knowledge when engaging in journalistic practice in a range of diverse cultural, social and political environments domestically and internationally.

Approved by Faculty Board January 2017

## Course rules

To qualify for the award of Bachelor of Communication (Journalism) a student must complete 24 credit points including:

- 18 credit points of core units
- 6 credit points of electives
- no more than 10 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACC100	Communication in Everyday Life
ALJ111	News Reporting 1
ALJ112	News Reporting 2

### Level 2

ALJ216	Feature Writing
ALJ218	Audio Journalism
ALJ221	Video Journalism

### Level 3

ALJ330	News Production 1
ALJ331	News Production 2
ACC320	Communication Internship A: Placement
ACC321	Communication Internship B: Career Development
ALJ304	Local Journalism

## Electives

Complete three 1 credit point units chosen from the following course electives:

ACG103	Design Skills
ALR103	Introduction to Public Relations
ALR104	Strategic Communication and Writing
ALA101	Advertising Principles and Practices
ALA102	Creative Brand Communication
ALM101	Making Social Media
ALM102	Making Video
IND101	Introduction to Aboriginal Studies

Complete four 1 credit point units chosen from the following course electives:

ALJ220	Journalism in Society
ALC215	Global Media
ALR276	Ethical Communication and Citizenship
ALM202	Quantified Media
ACF202	Documentary Production
ALA302	Transmedia Storytelling
ACC303	Communication Research Practices
ALJ313	Journalism Law and Ethics
MIS203	Making Sense of Information
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives

Complete six electives, of which at least two must be 2nd or 3rd level

We suggest students complete at least 4 units in a subject area different to their degree, preferably a linked sequence of study in the same area. This choice can include units from any degree in the University but is best chosen from the subject areas in the Bachelor of Arts ([deakin.edu.au/course/bachelor-arts](http://deakin.edu.au/course/bachelor-arts)). We also recommend students complete at least two more course electives listed above.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Students will have the opportunity to contribute to D\*Scribe, SCCA's online news portal run by third-year students enrolled in the degree's two capstone units: News Production A and News Production B.

There are opportunities to engage in global mobility programs such as communication study tours (domestic and international and subject to offer); overseas internships, and study abroad.

# Bachelor of Entertainment Production

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Entertainment Production
<i>Duration</i>	3 years full-time or part-time equivalent
<i>Deakin course code</i>	A332
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

The Bachelor of Entertainment Production offers students exposure to an array of production and programming contexts in the entertainment industries. Apply now to start a new journey.

The course combines prerequisite Entertainment Production units with elective units that allow you to develop and maintain complementary studies in related fields. Deakin is committed to providing students with a degree that combines, as closely as possible, creative potential with workplace know-how.

The first year introduces students to key concepts in Entertainment Production. The second year develops skills in distributing and programming entertainment, giving hands on experience in pitching, budgeting, and programming live events. The third year builds professional skills in the workplace and concludes with an Entertainment Industries Work Placement.

All units are taught in a collaborative manner in small seminar groups that allow students to maximize their learning potential. Dedicated workstations encourage individual work as well as group projects.

Assessment tasks focus on real world problems, developing creative problem solving skills. In the first year, students promote an independent film in Melbourne. In the second year, they produce and program their own festival and event. During the third year, they move into the workplace. At the completion of the degree, students have developed professional networks and workplace-ready skills.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Research, analyse, create, distribute and disseminate entertainment productions using a range of appropriate and specialist technologies and resources in a rapidly-changing global media context. Demonstrate an awareness of legal, ethical, and cultural knowledge when producing, analyzing, and disseminating entertainment across a range of local and international cultural, social and political environments.

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire the knowledge and skills to: <ul style="list-style-type: none"> <li>• Identify business opportunities in the production and development of entertainment</li> <li>• Design and devise outlets and platforms for the circulation, promotion and distribution of entertainment</li> <li>• Analyse venues, audiences and programming of entertainment production in local contexts and understand the possible application and development of this research globally.</li> <li>• Research, analyse and map audience composition</li> <li>• Collect and analyse entertainment data and apply critical perspectives to its evaluation and interpretation</li> </ul>
Communication	Demonstrate highly developed skills in oral, written, and electronic communication.  Demonstrate the ability to communicate clear research outcomes to diverse audiences.  Demonstrate the capacity to produce entertainment that communicates effectively to a broad demographic in a style appropriate to the specific media platform and/or entertainment venue
Digital literacy	
Critical thinking	Use critical and analytical thinking and judgment in the selection, creation, development, and dissemination of entertainment production.  Demonstrate the ability to independently evaluate the concepts, content and consumption of entertainment production today.
Problem solving	Apply cognitive, technical, business and creative skills to generate pragmatic and creative solutions to the unpredictable and diverse needs of entertainment industries.  Demonstrate cognitive and creative skills to make, transmit and evaluate entertainment productions.
Self-management	Demonstrate creative initiative, social, cultural and ethical responsibility, and accountability for personal actions.  Demonstrate the capacity to independently manage time and resources, to fulfil the obligations of working in a collaborative environment, and to identify, research, evaluate and meet production needs and solutions.
Teamwork	Work and learn collaboratively with colleagues, other professionals and members of the wider community.  Demonstrate the capacity to collaborate as a producer of entertainment productions.  Work collaboratively to build personal contacts and networks that enable job-readiness at graduation.
Global citizenship	

Approved by Faculty Board May 2014

## Course rules

To qualify for the award of Bachelor of Entertainment Production a student must complete 24 credit points including:

- 12 credit points of core units
- 12 credit points of electives
- no more than 10 credit points at level 1
- at least 14 credit points at level 2 or above
- no more than 8 credit points taken outside the Faculty of Arts and Education
- AAI018 Academic Integrity (0-credit-point compulsory unit)

### Level 1

ACC100	Communication in Everyday Life
ACC101	Creativity and Dangerous Ideas (No longer available for enrolment)
AEI101	Producing Entertainment
AEI102	Consuming Entertainment (No longer available for enrolment)

plus 4 electives

### Level 2

ACC200	Freelancing in the Arts
ACC213	Media Law and Ethics
AEI203	Distributing Entertainment
AEI204	Programming Entertainment

plus 4 electives

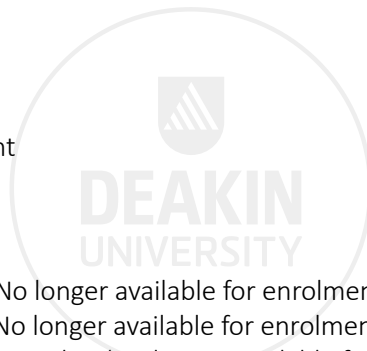

### Level 3

AEI305	Entertainment in Practice (No longer available for enrolment)
AEI307	Evaluating Entertainment (No longer available for enrolment)
AEI308	Entertainment Industries Internship (No longer available for enrolment)

plus 4 electives

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Communication (Media)

Year	2019 course information
Award granted	Bachelor of Communication (Media)
Cloud Campus	No
Duration	3 years full-time or part-time equivalent
CRICOS course code	083980E
Deakin course code	A333 (version 1)

*Offered to continuing students only*

## Course overview

The Bachelor of Communication (Media) is a dynamic and versatile degree that produces graduates who have the skills and knowledge to adapt to shifting communication climates and proactively situate themselves within the broad field of Media and Cultural Industries (incorporating film, television, digital media, marketing and advertising, and many other areas). Students will engage in critical analysis, creative application, and vocational-led study in units that involve the examination and creation of various virtual and non-virtual media texts. Embedded within the degree is an in-depth exploration of themes such as social media and surveillance, advertising and consumerism, media genre and representation, issues of piracy and censorship, and media industry processes of planning and production, among many other workplace-relevant areas.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the award of Bachelor of Communication (Media) a student must complete 24 credit points including:

- 15 credit points of compulsory core units
- 9 credit points of elective units (from any discipline area)
- no more than 10 credit points at level 1
- at least 14 credit points at level 2 and above
- no more than 8 credit points taken outside the Faculty of Arts and Education

## Course structure

### Level 1

ACC100	Communication in Everyday Life
ACC101	Creativity and Dangerous Ideas – (No longer available for enrolment)
ALC104	Media Genres: Negotiating Textual Forms and Pleasures
ALC101	Contemporary Communication: Making Sense of Text, Image and Meaning – (No longer available for enrolment)

### Level 2

ACC213	Media Law and Ethics
ALC202	Advertising: Desire, Consumption and the Attention Economy
ALC203	Exploring Digital Media: Contexts of Online Participation – (No longer available for enrolment)
ALC205	Digital Media and the Surveillance Society – (No longer available for enrolment)

And select one of:

- ALC204 Media Representations and Affects – (No longer available for enrolment)
- or
- ALC215 Global Media

3 electives

**Level 3**

- ALC301 Contemporary Media Industries – (No longer available for enrolment)
- ALC302 Digital Media Entrepreneurship (2 credit points)
- ALC303 Media Research Practices – (No longer available for enrolment)
- ALC305 Media Ecologies

And select one of:

- ALC304 The Celebrity Industries: Star Images, Fan Cultures and Performance
- or
- ACF320 The Australian Moving Image

3 electives or 2 electives and ACC317 Communication and Creative Arts Internship A

# Bachelor of Communication (Digital Media)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Communication (Digital Media)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurn Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	089296K
<i>Deakin course code</i>	A333 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Combine your interests in communication technologies, social media and content production to discover a career in digital media. Through the Bachelor of Communication (Digital Media), you'll develop confidence in your creative, analytic and production skills to communicate professionally across traditional and digital platforms. You will learn how to engage audiences, build communities and help organisations and clients with digital content solutions.

Do you want to carve a career in today's rapidly evolving media climate?

Gain an understanding of the function and influence of communications industries locally and globally, and learn practical skills in social media content creation, podcasting, website creation, video-making and more. With an emphasis on emerging technologies and real-world learning, you'll explore themes like:

- how to build social media identities
- engaging audiences with podcasts and videos
- how to run crowdfunding campaigns
- how to become a digital media entrepreneur
- how to manage social media in organisations.

Broaden your skill set and career opportunities by taking core elective units in related communication fields like advertising, design, public relations, journalism, screen and more. You'll also have the chance to undertake industry internships so you can network with professionals and gain experience in your chosen field before you even graduate.

Through practical assessments and internships, this degree enables you to build a dynamic network, digital portfolio and strong professional-personal brand to give you an edge with future employers.

## Career opportunities

Digital media work spans a diverse range of industries and organisations, from multimedia businesses to public relations agencies to content providers in the entertainment industry.

Deakin graduates find work in the following roles:

- content producer/digital producer
- social media officer/coordinator
- media assistant/officer/advisor
- community engagement officer/coordinator
- marketing analyst/coordinator
- various social media specialist freelance work.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Pathways

Further studies are available at Honours and Postgraduate level. Many students choose to enter into the Bachelor of Communication (Honours) or the Master of Communication.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Review, understand and analyse major media theories and concepts relating to digital media culture, technological innovation, research methods, and professional practices in digital industry contexts.
Communication	Develop high level communication skills to effectively engage and interact with different audiences by demonstrating the ability to merge creativity and critical thinking across various media modes.
Digital literacy	Use a range of generic and industry specific digital media technologies to address diverse communication needs for a range of audiences and to deliver creative projects, media products, and accessible presentations to diverse audiences within and outside the field.
Critical thinking	Critically and analytically evaluate media issues, debates, organisations, and industries and practices, while using sound judgement and initiative to examine assumptions underpinning available theoretical perspectives
Problem solving	Apply critical thinking and creative practice to identify and resolve practical, real-world problems that apply to professional Media industry contexts.
Self-management	Demonstrate independent, motivated, and self-directed learning and the ability to complete work consistently and effectively as an independent researcher and practitioner.
Teamwork	Collaborate in an active and productive manner as part of teams that may include people of diverse backgrounds working on Media-related projects, while simultaneously maintaining personal responsibility for their own learning and contributions.
Global citizenship	Operate effectively and responsibly in a variety of social, economic, political and professional contexts, participating across a range of Media platforms with an awareness of professional legal and ethical responsibilities.

*Approved by Faculty Board March 2017*

## Course rules

To qualify for the award of Bachelor of Communication (Digital Media) a student must complete 24 credit points including:

- 18 credit points of core units
- 6 credit points of electives (at least two must be 2nd or 3rd level)
- no more than 10 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACC100	Communication in Everyday Life
ALM101	Making Social Media
ALM102	Making Video

### Level 2

ALM201	Unit description is currently unavailable
ALM202	Quantified Media
ALC215	Global Media

### Level 3

ALC305	Media Ecologies
ALC302	Digital Media Entrepreneurship (2 credit points)
ACC320	Communication Internship A: Placement
ACC321	Communication Internship B: Career Development

### Electives

Complete three 1 credit point units chosen from the following course electives:

ACG103	Design Skills
ALA101	Advertising Principles and Practices
ALA102	Creative Brand Communication
ALR103	Introduction to Public Relations
ALR104	Strategic Communication and Writing
ALJ111	News Reporting 1
ALJ112	News Reporting 2
IND101	Introduction to Aboriginal Studies

Complete four 1 credit point units chosen from the following list:

ADV201	Web Design and Interactivity
ALR276	Ethical Communication and Citizenship
ACF202	Documentary Production
MIS203	Making Sense of Information
ALA302	Transmedia Storytelling
ACC303	Communication Research Practices
ACC302	Advertising: Desire, Consumption and the Attention Economy
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives

Complete six electives, of which at least two must be 2nd or 3rd level

We suggest students complete at least 4 units in a subject area different to their degree, preferably a linked sequence of study in the same area. This choice can include units from any degree in the University but is best chosen from the subject areas in the Bachelor of Arts ([deakin.edu.au/course/bachelor-arts](http://deakin.edu.au/course/bachelor-arts)). We also recommend students complete at least two more credit points from the course electives listed above.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There will be opportunities throughout the course for students to engage with real briefs and industry professionals. These experiences will be integrated into units where students will have external clients or industry representatives provide content to more closely connect the learning experience with industry practices.

# Bachelor of Communication (Advertising)

<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	095289C
<i>Deakin course code</i>	A334
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Catch people's attention, understand the world of brand communication and tell the story that sells. Designed to inspire the next generation of big idea thinkers, the Bachelor of Communication (Advertising) at Deakin allows you to understand complex audiences, analyse media effectiveness and hone your creative thinking.

Do you have a way with words and consider yourself a confident problem-solver?

Explore the principles and practice of advertising with hands-on learning at Deakin. Experiment with future-focused approaches to brand communication, and critically evaluate the role and impact of advertising on society.

From your first year onwards, you'll be connected to a network of advertising professionals who become part of your learning journey. Gain valuable industry experience and build your resume with an internship at an advertising agency or with an 'in house' brand or creative team.

If you're a strategic thinker and like to understand what motivates people, you'll relish the chance to work on real-world client briefs throughout your studies, helping you forge valuable connections with industry professionals.

Through this course, you'll be immersed in:

- advertising principles and practices
- branded content
- copywriting and ideation
- emerging advertising media
- creative work
- strategic planning.

You can also broaden your skill set and career opportunities by taking core elective units in related communication fields like design, public relations, journalism and digital media.

With an accredited advertising degree under your belt, you could transform brand communication in the digital era.

## Professional recognition

The Bachelor of Communication (Advertising) is accredited by the International Advertising Association, ensuring you're across the latest industry standards and remain connected to industry after you graduate.

## Career opportunities

Pursue a career in agencies, or work in-house in the commercial, corporate, government and not-for-profit sectors. Deakin graduates find work in roles such as:

- account manager
- advertising art director
- advertising copywriter
- digital creative
- brand specialist
- digital marketer or media specialist
- marketing and communications officer
- media researcher or planner
- social media coordinator.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Pathways

Further studies are available at Honours and Postgraduate level. Many students choose to enter into the Bachelor of Communication (Honours) or the Master of Communication.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply knowledge of advertising principles, planning processes and creative practice to the evaluation of brand messaging and develop engaging, research-driven and ethically sound multi-channel advertising media content.
Communication	Articulate knowledge of advertising industry conditions and apply visual, spoken and textual communication skills to achieve effective advertising outcomes across various cultural and organisational contexts.
Digital literacy	Evaluate and apply the software, hardware and digital content that is used to research, produce, disseminate and consume advertising-related media.
Critical thinking	Identify and critically analyse contemporary advertising and media platforms as a means of building the adaptability required to develop creative brand content applicable to various sociocultural and organisational contexts.

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Apply theories and principles of advertising strategy, consumer behaviour, client management and creative process in response to real world client briefs and standard and complex communication problems.
Self-management	Maintain professional practice and future career development using self-directed learning skills that have encourage reflective practice consistent with a selected specialisation in the areas of communication strategy, advertising management and creative practice.
Teamwork	Contribute positively to collaborative projects, demonstrate the ability to plan and strategise in the context of team driven campaigns, including the ability to display initiative, provide considered feedback and be flexible in the context of project delivery.
Global citizenship	Engage with and critically evaluate research materials on ethical and intercultural communication and apply reflective practice principles to model the responsibilities expected of advertising practitioners who work within diverse social, cultural and regulatory frameworks.

Approved by Faculty Board March 2017

## Course rules

# Bachelor of Design (3D Animation)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Design (3D Animation)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	095255B
<i>Deakin course code</i>	A343
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Let your imagination run free and create the unexpected with the Bachelor of Design (3D Animation) at Deakin. Explore how animation is used across film, television, advertising, web, motion capture and game design – and learn to draw or digitally create characters that leap off the page.

Do you dream of working with Pixar, Dreamworks or Studio Ghibli?

During your degree, you'll learn the tools, strategies and design methodologies required to develop your creative, technical and analytical skills in animation production. You'll also explore design histories and theories and gain expertise in animation methods like computer graphic animation (3D CG modelling, character design and rigging, CG lighting and rendering) and motion-capture techniques.

Throughout your course, you'll work on real client briefs and ongoing creative projects. What better way to kickstart your career than by working with industry professionals from the moment you start university – tackling on-the-job challenges you'll face in the real world.

If you're creative, and love moving picture, this course could be for you. You can even specialise in design areas you're interested in by choosing elective units in your second and third year.

## Professional recognition

Deakin's Bachelor of Design (3D Animation) is recognised by the Design Institute of Australia (DIA), so you'll be up-to-date with the current industry practices and developments. The DIA also offers student membership and access to some of the biggest design events and experts in the nation.

## Career opportunities

As a graduate, you'll be a well-equipped multidisciplinary designer ready to work in motion design, animation, film, television, web design, Augmented Reality (AR) and Virtual Reality (VR). Roles include:

- 2D or 3D animator
- augmented realities designer
- arts editor
- cartoonist
- digital designer
- game developer
- illustrator
- modeller
- motion capture technician
- motion graphics designer
- multimedia developer
- VR designer.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Develop theoretical knowledge and practical skills in the forms, functions, processes, languages and materials of animation. Developing the capacity to meet client requirements in a rapidly changing industry setting.
Communication	Effectively communicate a range of conceptual, and aesthetic ideas through written, digital and oral formats for a range of audiences in scholarly and professional contexts.
Digital literacy	Utilize theoretical knowledge and practical skills with digital technology to achieve animation outcomes.
Critical thinking	Acquire skills in critical thinking and the analytical evaluation of design. Critically engaging a range of strategies to achieve professional industry based outcomes.
Problem solving	Employ creative methods to resolve real world complex problems through analysis, critical thinking, prototyping and alternative approaches.

Deakin graduate learning outcomes	Course learning outcomes
Self-management	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skills development in animation and design
Teamwork	Lead, deliver and perform within a collaborative professional team to deliver industry standard outcomes
Global citizenship	Critically engage animation's capacity to act as an agent of change in multiple contexts. To identify and develop proposals for personal and corporate social, cultural and ethical responsibilities in a global and domestic context.

Approved by Faculty Board March 2017

## Course rules

To qualify for the award of Bachelor of Design (3D Animation), a student must complete 24 credit points including:

- 10 x common core units (totalling 11 credit points)
- 2 x level 1 3D Animation Core units
- 1 x level 2 3D Animation unit
- 2 x level 1 3D Animation Course electives (from list A)
- 2 x level 2 3D Animation Course electives (from list B)
- 6 x open elective units
- no more than 12 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Units

#### Level 1

ADD101	Design Thinking
ADD102	Design Skills and Technologies 1
ADA102	Designing 3D Environments
ADD104	Design Laboratory
ADD103	Design Skills and Technologies 2
ADA101	Designing 3D Motion

Plus two Level 1 course elective units from list A

#### Level 2

ADD201	Designing User Experience
ADD202	Design Strategies
ADD203	Professional Practice in Design
ADA203	Interactive Animation Design Studio

Plus two Level 2 course elective units from list B

Plus two open electives

#### Level 3

ADD302	Individual Design Portfolio
ADD303	Design to Change the World
ADD301	Collaborative Design Project (2 credit points)

Plus four open electives

## Course electives

### Level 1

Students to select 2 from list A below:

ADV101	Drawing and Illustration
ACF107	Principles of Animation
ACI102	Digital Photography
IND101	Introduction to Aboriginal Studies
SIT110	Creative Coding
SIT183	Application and Design of Virtual and Augmented Reality Systems

### Level 2

Students to select 2 from list B below:

ADA201	Creating 3D Characters
ADA202	Animation, Performance and Capture
ADA204	Advanced Motion Graphics
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Visual Communication Design have successfully conducted a Design/Animation study tour program to Japan for over seven years. This study tour includes visits to industry and university partners, workshops with Japanese students and academics.

Students can choose to complete one or two internship units as an elective.

Visual Communication Design, in the past, has students involved with Deakin Marketing department, Verandah magazine, small work based projects that have come from the community and participating in exhibitions. The program is a rich program with many opportunities for students to expand on their learning experiences.

# Bachelor of Design (Digital Technologies)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Design (Digital Technologies)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>

<i>Deakin course code</i>	A344
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Creative problem-solvers with a love of design and an aptitude for technical IT skills should explore our Bachelor of Design (Digital Technologies). Learn about User Experience (UX), design strategies, digital technologies and interactive media, to deliver impactful digital solutions for creative and social issues in our changing world.

Do you eat, sleep and breathe design – and love to work in a team environment?

Explore technological entrepreneurship and innovation and specialise in an area – such as creative coding, robotics or 3D motion – that interests you the most, through our flexible core units. If you're looking for a career that's creative and rewarding, this unique combination of technical and artistic skills will lead you to a fascinating profession outside of the traditional IT or creative arts streams.

Learn the fundamentals of design thinking and strategies, and develop the technical skills required to explore:

- software design
- mobile app design
- web design
- user interface design
- design for augmented and virtual realities.

Graduate job ready after working on projects from real client briefs, helping you to create a strong portfolio throughout your studies.

## Professional recognition

Deakin's Bachelor of Design (Digital Technologies) is recognised by the Design Institute of Australia (DIA), so you'll be up-to-date with the current industry practices and developments. The DIA also offers student membership and access to some of the biggest design events and experts in the nation.

## Career opportunities

Graduates are open to many career opportunities in creative agencies, advertising and design studios, print houses and corporate companies, taking up roles as:

- design engineers
- digital designers
- digital media designers
- graphic designers
- industrial designers
- User Interface (UI) designers
- virtual reality experience designers
- web designers.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Utilize agile, practical and theoretical proficiencies in the unified application of digital design technologies for information, immersion and augmentation. Graduates will be able to meet client requirements in a rapidly changing industry setting.
Communication	Interpret and transmit ideas and interactions employing specific language, concepts and technologies to response to intelligent digital application scenarios.
Digital literacy	Utilize theoretical knowledge and practical skills to evaluate digital applications with regard to software development.
Critical thinking	Develop skills in critical thinking and the analytical evaluation of digital applications. Creatively engage with a range of strategies to demonstrate professional prototyping and industry outcomes.
Problem solving	Utilize design thinking methods to empathise, analyse, ideate, prototype and test complex interactive, augmented and human centred design products.

Deakin graduate learning outcomes	Course learning outcomes
Self-management	Initiate autonomous and self-directed management techniques; demonstrating professional responsibility and accountability to a wide range of digital applications.
Teamwork	Lead, deliver and perform within a collaborative team to produce broad professional outcomes within a multidisciplinary and agile creative environment.
Global citizenship	Critically engage designs capacity to act as an agent of change in multiple contexts. To identify and develop proposals for personal and corporate social, cultural and ethical responsibilities in a global and domestic context

Approved by Faculty Board March 2017

## Course rules

To qualify for the award of Bachelor of Design (Digital Technologies) a student must complete 24 credit points including:

- 15 x core units (totalling 16 credit points)
- 2 x course elective units from list A
- 6 x open elective units
- No more than 12 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Units

#### Level 1

ADD101	Design Thinking
ADD102	Design Skills and Technologies 1
SIT120	Introduction to Responsive Web Apps
ADD104	Design Laboratory
ADD103	Design Skills and Technologies 2
SIT124	Exploring I.T.

Plus two 2 course elective units from list A

#### Level 2

ADD201	Designing User Experience
ADD202	Design Strategies
ADD203	Professional Practice in Design
ADT201	Digital Technologies Design Studio
SIT264	Authoring of Interactive Media

Plus three open electives

#### Level 3

ADD302	Individual Design Portfolio
ADD303	Design to Change the World
ADD301	Collaborative Design Project (2 credit points)
SIT317	Enterprise, Entrepreneurship and Innovation

Plus three open electives

## Course electives

Complete two 1-credit point units chosen from the following course electives list A:

SIT110	Creative Coding
SIT122	Robotics Studio
SIT183	Application and Design of Virtual and Augmented Reality Systems
SIT123	Data Capture Technologies
ADA102	Designing 3D Environments
ADA101	Designing 3D Motion
IND101	Introduction to Aboriginal Studies

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Visual Communication Design have successfully conducted a Design/Animation study tour program to Japan for over seven years. This study tour includes visits to industry and university partners, workshops with Japanese students and academics.

Students can choose to complete one or two internship units as an elective.

Visual Communication Design, in the past, has students involved with Deakin Marketing department, Verandah magazine, small work based projects that have come from the community and participating in exhibitions. The program is a rich program with many opportunities for students to expand on their learning experiences.

# Bachelor of Design (Visual Communication)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Design (Visual Communication)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	095257M
<i>Deakin course code</i>	A345
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Get introduced to the professional design world through Deakin's Bachelor of Design (Communication). Learn the tools, strategies and design thinking methodologies required to be an adaptive, multidisciplinary communications designer. From day one you'll learn to shape your ideas into smart and appealing concepts for users, customers and society as a whole, under the guidance of industry leaders and established designers.

Want the skills to thrive in a career in communication design?

You'll learn how to interpret design briefs and develop specialised skills in web design and interactivity, as well as traditional skills in typography, branding and print design. You'll benefit from Deakin's networks and relationships within the design industry and have opportunities to include your work in exhibitions and showcases.

Take your learning further and specialise in:

- creative coding
- designing 3D environments
- digital photography
- IT
- principles of animation
- user experience (UX).

In this exciting course, you'll learn from industry leaders in state-of-the-art facilities, culminating in a collaborative industry project in your final year. You'll graduate ready to make a real impact in the rapidly-changing field of design.

## Professional recognition

Deakin's Bachelor of Design (Visual Communication) is recognised by the Design Institute of Australia (DIA), so you'll be up-to-date with the current industry practices and developments. The DIA also offers student membership and access to some of the biggest design events and experts in the nation.

## Career opportunities

Graduates are open to many career opportunities, including in the areas of advertising, graphic design studios, print houses, publishers, corporate companies, government and private practices. Potential careers include:

- communications designer
- art director/creative director
- animation and motion designer
- web designer
- graphic designer
- interactive designer
- illustrator
- packaging (FMCG) designer.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Develop theoretical knowledge and practical skills in the forms, functions, processes, languages and materials of visual communication design. Developing the capacity to meet client requirements in a rapidly changing industry setting.
Communication	Effectively communicate ideas using specific language, concepts and media to transmit ideas in response to design briefs.
Digital literacy	Utilize theoretical knowledge and practical skills with digital technologies to achieve user experience design outcomes.
Critical thinking	Acquire skills in critical thinking and the analytical evaluation of design. Critically engaging a range of strategies to achieve professional industry based outcomes.
Problem solving	Utilize design thinking methods to empathise, analyse, ideate, prototype and test complex and ill-defined problems.
Self-management	Initiate autonomous and self-directed management techniques; demonstrating professional responsibility and accountability to a wide range of design projects.
Teamwork	Lead, deliver and perform within a collaborative professional team to deliver industry standard outcomes.
Global citizenship	Critically engage designs capacity to act as an agent of change in multiple contexts. To identify and develop proposals for personal and corporate social, cultural and ethical responsibilities in a global and domestic context.

# Bachelor of Creative Arts (Film and Television)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Film and Television)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	077370D
<i>Deakin course code</i>	A351 (version 1)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Pipelining course version from 2018*

## Course overview

Explore the professional technologies, creative practices and insightful theories of screen production within a dynamic setting strongly linked to the creative arts and communications industry. Apply to study a Film and Television course.

The Bachelor of Creative Arts (Film and Television) at Deakin University provides a hands-on education using state of the art technology within an inspiring creative arts environment. Deakin Film & Television students have the flexibility to be multi-skilled and to create their own specialist skill-sets within the broad and dynamic fields of screen production and screen culture. The course includes units in studio and location production, film analysis, creativity and the business of freelance work alongside overseas study tours and opportunities for internships with leading production companies.

Film and television are multidisciplinary creative forms, so this course also provides access to the theory and practice of other creative arts including photography, animation and motion capture, drama, dance, visual arts and visual communication design. You can further tailor your own set of skills and knowledge by taking elective units from across the University.

The major discipline of film and television focuses on the development of the creative and analytic skills required for successful, professional and artistic practice. The degree comprises study in many areas including narrative genre and structure, documentary and experimental forms, team and project management, visual language, digital cinematography and editing, sound design, high definition broadcast TV studio production, scriptwriting and short filmmaking.

In Deakin Film and Television, you will be exposed to a range of historical, theoretical and critical approaches to the production, reception and analysis of global screen culture.

The course will prepare you for the changing opportunities and challenges of the media and creative industries by allowing cross-discipline collaboration, multi-skilling, internships, international study, and study in professional practice and entrepreneurship. The program draws upon the expertise of its academic staff (who are active in screen production themselves) together with special guests from industry.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate the knowledge and skills to: <ul style="list-style-type: none"> <li>• Compose and design moving images and sound to communicate ideas</li> <li>• Employ established film and television genres, forms and styles.</li> <li>• Plan and manage film and television production.</li> <li>• Devise film and television productions using the common approaches to narrative and non-narrative in film and television.</li> <li>• Integrate cultural and gender diversity in the creation of and representation in, film and television.</li> </ul>
Communication	Effectively communicate the intent, design approaches and ideas in creative work through written, oral and digital form to a range of audiences.
Digital literacy	Evaluate requirements for, make recommendations in relation to, and use high level digital film and television production technologies to create film and television products to be distributed through a range of digital platforms.
Critical thinking	Develop, research and evaluate ideas, concepts and processes for making film and television productions, through creative, critical and reflective thinking and practice.
Problem solving	Apply narrative, aesthetic, technical, logistical, organisational, critical and Interpersonal skills and knowledge to produce film and television productions.
Self-management	Demonstrate initiative and reliability, an ability to self-evaluate and manage time and resources to fulfil the obligation of working in a collaborative environment and to identify, evaluate and research project needs and solutions.
Teamwork	Demonstrate the ability to work in different capacities in a range of production team models in film and television production.
Global citizenship	Demonstrate an awareness of cultural and social diversity and issues of globalisation in the making of film and television productions.

Approved by Faculty Board October 2015

## Course rules

### For students commencing from 2015:

To qualify for the award of Bachelor of Creative Arts (Film and Television) a student must complete 24 credit points including:

- 15 credit points of compulsory core units
- 9 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

Students who commenced 2013–2014 should follow the course rules and structure shown in the handbook for their year of commencement.

### Level 1

- ACC100 Communication in Everyday Life
- ACC101 Creativity and Dangerous Ideas (No longer available for enrolment)
- ACF103 Writing with the Camera (Formerly ACM112)
- ACF104 Screening History (Formerly ALC106)
- ACF105 Sound, Light Motion – Unit no longer available for enrolment

2 electives

### Level 2

- ACC200 Freelancing in the Arts
- ACF201 Short Fiction Film (Formerly ACM213)
- ACF202 Documentary Production (Formerly ACM217)
- ACF205 Television Studio Production (Formerly ACM237)
- ACF206 Contemporary Topics in Screen Cultures (Formerly ALC216)

3 electives

### Level 3

- ACF301 Independent Production Practice (Formerly ACM318)
- ACF302 Developing a Project: Ideas to Scripts (Formerly ACC307)
- ACF303 Narrative Film and Television Project (2 credit points)

4 electives

### Electives and course map

Students are encouraged to consider taking units from the following recommended electives:

- ACC317 Communication and Creative Arts Internship A
- ACC318 Communication and Creative Arts Internship B
- ACF320 The Australian Moving Image (Formerly AAM319)

### Assessment

Assessment within the award of Bachelor of Creative Arts (Film and Television) varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Film, Television and Animation

<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	095258K
<i>Deakin course code</i>	A351 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Take a great story and learn to shape it for film, TV or animation. From documentary and short narrative fiction, to more experimental productions, the Bachelor of Film, Television and Animation allows you to develop your own specialist skill set within the dynamic fields of screen production and screen culture.

Do you want to produce and direct in the media and entertainment industry?

Bring storytelling to the screen through a number of production and post-production roles and practices. Through this course, you'll explore:

- animation for screen
- digital cinematography
- editing
- film analysis
- film history
- high-definition broadcast TV studio production
- scriptwriting
- short filmmaking
- sound design
- studio and location production
- the business of freelance work
- visual language.

You'll also learn the art of storytelling in 2D and access Deakin's 3D animation program. Gaining a broad understanding of moving image, graphic and animation practice, you'll develop clever and creative ways of manipulating and animating images.

Working collaboratively with like-minded students on real industry briefs, you'll graduate with a working portfolio. Draw from the expertise of our academic staff, who are active in screen production themselves, and gain knowledge and insights from within the industry.

You'll also gain invaluable industry experience by working alongside your creative arts peers on a range of projects, such as broadcasting the Deakin Melbourne Boomers' national basketball competition home games through a live stream on Fox Sports.

This course opens up employment opportunities in fictional or factual production for cinema and television – or within the corporate, educational and advertising sectors. You could also work as an animator in the arts or digital content industries.

## Career opportunities

As a film, television and animation graduate, you may find employment in fictional and factual production for cinema and television and in the corporate, educational, music video and advertising sectors.

Past graduates have launched their careers with national awards and international recognition (through film festivals) for their student work. Deakin's internship program has also provided a start to successful careers in the field.

Deakin graduates work across the media and creative industries. Career opportunities include working as:

- animators
- audiovisual technicians
- camera operators
- documentary producers
- film and television producers or directors
- journalists
- film or television editors
- lighting designers
- presenters
- production managers
- scriptwriters
- sound engineers
- television program coordinators.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Demonstrate the knowledge and skills to:</p> <ul style="list-style-type: none"> <li>• Compose and design moving images and sound to communicate ideas.</li> <li>• Employ established film, television and animation genres, forms and styles.</li> <li>• Plan and manage film, television and animation production.</li> <li>• Devise film, television and animation productions using the common conceptual and narrative approaches in film, television and animation.</li> <li>• Integrate cultural and gender diversity in the creation of and representation in, film and television.</li> </ul>

Approved by Faculty Board January 2017

## Course rules

To qualify for the award of Bachelor of Film, Television and Animation a student must complete 24 credit points including:

- 18 x credit points of compulsory core units
- 6 x credit points of open electives
- no more than 12 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

- ACF103 Writing with the Camera
- ACF107 Principles of Animation
- ACF106 Screen Practices
- ACF104 Screening History (Formerly ALC106)

### Level 2

- ACF211 Screen Careers

### Level 3

- ACF307 Major Screen Project A – Development (2 credit points)
- ACF308 Major Screen Project B – Production (2 credit points)
- ACF320 The Australian Moving Image
- ACC317 Communication and Creative Arts Internship A

Complete three 1-credit point units chosen from the following list:

ALW101	Writer's Toolkit: Craft and Creativity
ACP103	Foundations of Acting and Performance
ACI101	Analogue Photography
ADA101	Designing 3D Motion
ADA102	Designing 3D Environments
ACG103	Design Skills
IND101	Introduction to Aboriginal Studies

### Electives

Complete six electives, of which at least two must be 2nd or 3rd level.

We suggest students complete at least 4 units in a subject area different to their degree, preferably a linked sequence of study in the same area. Students with a strong interest in animation should add units in 3-D Animation, Motion and similar units in the Bachelor of Design. More generally your best choices are often found in the subject areas of the Bachelor of Arts. Additional course elective units can be taken as open electives.

Complete four 1-credit point units chosen from the following list:

ACF202	Documentary Production
ACF205	Television Studio Production
ACF212	Visual Effects and Motion Graphics
ACF207	Animation Project
ACF209	Experimental Screens
ACF201	Short Fiction Film
ACF208	Cinematography
ACF210	Postproduction
ACA202	Acting and Directing for Screen
ACA203	The Art and Design of Sound
ACA201	Production Design for Screen and Performance
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Assessment

Assessment within the award of Bachelor of Film, Television and Animation varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

### Other learning experiences

Public Screenings & Industry Awards: Capstone unit students show their films at the Deakin Film and TV Visionnaire Awards screenings Sponsors include Final Draft, Black Magic, the Australian Cinematographers Society, Sound Firm, Chameleon Casting, Medea Films and the Australian Production Design Guild (APDG).

Opportunities for WIL (work-integrated learning) include internships with Toombuk Indigenous Production on the Marngrook Football Show (broadcast nationally from Deakin Television Studio on SBS-NITV) and with major television production company WTFN.

# Bachelor of Creative Arts (Photography)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Photography)
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	077371C
<i>Deakin course code</i>	A352 (version 1)

*Offered to continuing students only*

## Course overview

Photography is at the heart of contemporary visual culture. It is a medium of documentation and illusion, communication and artistic self-expression. Within the fine arts and commercial applications, media and social networks our lives have become so interconnected through photography that it is hard to imagine a world without it. More than any generation before we are also photographic makers – capturing and sharing the moments in our lives, promoting our ideas and expressing our points of view through images.

The photography programme at Deakin University is about creativity and reflective engagement with the medium, technical proficiency, self-expression and realising the career and academic aspirations of each student.

Our new Photography course is fresh and exciting with state of the art equipment and facilities that encompass the breadth of analog, chemical, digital, experimental and cross-media photographic practices in an engaging programme which reflects upon the theoretical, historical and the contemporary fine art and cultural dimensions of the medium.

Multi-disciplinary teaching staff/practitioners and technical support staff will guide and encourage you through a combination of lectures, practical workshops and demonstrations, class tutorials and critique sessions, gallery visits, solo and collaborative based projects. Guest speakers and professional practitioner presentations are a regular feature within the programme and students also undertake fieldwork and industry visits and exhibitions of their own works. Students also have the opportunity to enrich their studies with a variety of options for international study tours and work placement internships.

When you study Photography at Deakin you will also discover an exciting range of inter-disciplinary options and clear pathways to post-graduate research in an academy which nurtures creative practice, critical and conceptual thinking and the vocational skills required for fine arts and commercial career pathways aimed at maximising the student's individual potential.

## Fees and charges

## Course overview

Want to document and tell stories of the world around you through images? Develop the specialist knowledge, critical awareness and confidence required to establish yourself as an adaptive professional photographer, through Deakin's Bachelor of Creative Arts (Photography). With the guidance of leading photography experts and access to state-of-the-art equipment and facilities, you'll experiment, research and develop your own aesthetic sensibilities in this key medium of expression.

Do you want to use cutting-edge equipment to explore your creativity, while learning from the best in the industry?

Through this course, you'll study photography as a 21st century tool for connectivity. Accessing professional-grade facilities and equipment, you'll develop skills in:

- chemical and digital imaging
- portfolio creation
- project management
- visual communication
- experimental practices
- exhibition and online collaboration.

Our experienced industry practitioners and technical support staff will guide and encourage you through a combination of:

- lectures, practical workshops and demonstrations
- class tutorials and critique sessions
- gallery visits
- solo and group projects.

Guest speakers and professional practitioner presentations are a regular feature within this course and students also undertake fieldwork, industry visits and exhibitions of their own works.

Learn about the history, theory and culture of photography, and sharpen your skills through studying still and digital images, lighting design and photographic practice.

Get hands-on experience by exhibiting and showcasing your work in Deakin's own gallery spaces, as well as through participating in external festivals, exhibitions and award programs.

Through a range of international study tours and work placement opportunities, you can gain study credits plus real-world experience. Our work-integrated learning opportunities give you a chance to build your portfolio and create valuable industry networks.

## Career opportunities

Photography graduates are equipped to pursue careers as professional practitioners throughout the arts and commercial sectors. Our graduates have moved into career opportunities in roles and fields like:

- independent fine arts practitioner
- event and sports photographer
- commercial portraiture
- fashion or product photographer
- community-based arts
- gallery director or assistant.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Integrate conceptual, theoretical and technical skills in the development, production and presentation of a range of photographic practices and mediums. Synthesize and evaluate the visualization and expression of ideas and concepts within a photographic context.
Communication	Develop an ability to think critically and to effectively communicate concepts and ideas through photography.
Digital literacy	Develop skills in a range of generic and specific pre and post-production digital technologies in line with photographic industry standards.
Critical thinking	Demonstrate an ability to critically evaluate and analyse specific texts and approaches essential to photographic history, theory and practice and demonstrate skills in critical self-assessment.
Problem solving	Develop skills in identifying and applying appropriate solutions to solving a range of problems within a specific context.
Self-management	Demonstrate and reflect on the development of autonomy and initiative, time-management strategies and resourcefulness in planning, decision making and creative problem solving.
Teamwork	Effectively contribute to the planning, coordination, management and negotiation of interpersonal and creative differences through engagement in collaborative projects to achieve a group task.
Global citizenship	Demonstrate an awareness of the ethical and inter-cultural issues involved in the production and interpretation of photographic practice within a local and international contexts.

Approved by Faculty Board January 2017

## Course rules

To qualify for the award of Bachelor of Creative Arts (Photography) a student must complete 24 credit points including:

- 10 x credit points of core units (9 units)
- 3 course electives from list A
- 5 course electives from list B (at least one at level 3)
- 6 x credit points of open electives
- no more than 12 credit points at level 1
- at least 4 credit points at level 3
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACA101	Art and Performance: Roles of the Artist
ACA100	Art and Performance: New Directions for Creative Practice
ACI101	Analogue Photography
ACI102	Digital Photography

### Level 2

ACV207	Materialising the Image: Visual Art and Photography Since 1989
ACI203	Darkroom Practices
ACI205	Photographic Lighting 1: Natural and Artificial Lighting

### Level 3

ACI302	Photographic Lighting 2: Studio Lighting
ACI304	Folio and Professional Practice (2 credit points)

### Course electives

Complete three 1-credit point units chosen from the following course electives list A:

ACV101	Contemporary Art Practice: Body
ACV102	Contemporary Art Practice: Space
ACG103	Design Skills
ACF103	Writing with the Camera
IND101	Introduction to Aboriginal Studies

Complete five 1-credit point units chosen from the following course electives list B:

ACV210	Integrated Practice 1
ACI201	Alternative Imaging
ACI204	Contemporary Documentary and Narrative Photography
ACI202	Digital Imaging 2: Advanced
ACV214	Art and Technology
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives
ACI303	New Worlds: Intersections of Art and Science
ACV311	Visual Arts History and Theory in the Expanded Field
ACI301	Experimental Photography and Creative Practice
ACP323	Out of the Box: Theatre in Alternative Contexts
ACC317	Communication and Creative Arts Internship A

### Electives

Complete six electives, of which at least three must be 2nd or 3rd level

We suggest students complete at least 4 units in a subject area different to their degree, preferably a linked sequence of study in the same area. This choice can include units from any degree in the University but is best chosen from the subject areas in the Bachelor of Arts ([deakin.edu.au/course/bachelor-arts](http://deakin.edu.au/course/bachelor-arts)). We do recommend students complete at least two more course elective units listed above.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Assessment

Assessment within the award of Bachelor of Creative Arts varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## Other learning experiences

Within the Bachelor of Creative Arts (Photography) there are multiple opportunities for students to engage with aspects of the photography industry, including gallery and studio visits; artist talks; regional photo biennale excursions and assessments that encourage community engagement and collaboration with not-for-profit organisations.

Other formal learning experiences include the opportunity to participate in the Design/Animation study tour program to Japan. This study tour includes visits to industry and university partners as well as workshops with Japanese students and academics.

Additionally, BCA (Photography) students can choose to complete one or two internship units as an elective.

# Bachelor of Creative Arts (Animation and Motion Capture)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Animation and Motion Capture)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	077372B
<i>Deakin course code</i>	A353 (version 1)

*Offered to continuing students only*

## Course overview

The Bachelor of Creative Arts (Animation and Motion Capture) provides creative, technical and analytical skills in all aspects and types of animation and motion capture production. All students study 2D animation, 3D animation and motion capture while developing techniques for storytelling and other creative approaches to animation. Students develop knowledge and skills across a range of methods to gain a broad understanding of moving image, graphic and animation practice for future specialisation. Students explore animation methods such as time lapse, pixilation, 2D under camera stop motion (hand drawn, cut-out, ink on glass), 3D stop motion (Claymation, model and object animation), computer graphic animation (3D CG modelling, character design and rigging, CG lighting and rendering), and motion capture techniques (motion capture direction, post production and integration of motion capture in the 3D animation pipeline). Students will also develop skills in motion graphics, effects and compositing across a range of genres, and study the histories and theories that have shaped contemporary animation and motion capture practices. The degree draws upon the unique resources and infrastructure of the Deakin Motion.Lab, as well as the industry expertise of the Deakin Motion.Lab staff who provide motion capture services to Australian game development and animation companies. The course includes opportunities for internships within local creative industries and participation in international study tours to Japan and the US. The Bachelor of Creative Arts (Animation and Motion Capture) prepares students for Honours and Masters coursework in the discipline, and provides pathways to further study for higher research degrees such as Masters by research and PhD.

On completion of the degree students will have the ability to:

1. implement and manage all stages of production of a professional animation project
2. develop production paths for creative projects across a variety of publication outcomes and contexts
3. think and write effectively about animation principles, histories, technologies and cultures
4. use advanced digital image production technologies
5. work in collaborative and team settings on various animation tasks and projects
6. work efficiently to deadlines.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

### Students who commenced 2015

Student must complete 24 credit points including:

- 15 credit points of core units
- 8 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

## Students who commenced 2013–2014

Students must complete 24 credit points including:

- 12 credit points of core units which include either the Animation core sequence (8 cp) or the Motion Capture Core sequence (8 cp) and a cluster (4 cp) in the other of Animation or Motion Capture
- 12 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

## Course structure

### Students who commenced 2015

#### Level 1

ACC100	Communication in Everyday Life
ACC101	Creativity and Dangerous Ideas (No longer available for enrolment)
AMC100	Introduction to Animation (No longer available for enrolment)
AMC101	Motion Capture Fundamentals (No longer available for enrolment)
AMC104	Principles of Character Animation (No longer available for enrolment)

3 electives

#### Level 2

ADA202	Animation, Performance and Capture (Formerly AMC202)
ACF212	Visual Effects and Motion Graphics (Formerly ACM225, AMC203)
AMC204	3D Character Animation (Formerly ACM240)
ADA201	Creating 3D Characters (Formerly AMC126, AMC226)
AMC228	Building 3D Objects & Worlds (Formerly ACM138)

3 electives

#### Level 3

AMC300	Pre-Production & Project Pitch (Formerly ACM327)
AMC303	Advanced Motion Capture (No longer available for enrolment)
Or	
AMC327	Designing Animated Worlds (Formerly ACN203)
And	
AMC339	Documentary Animation (Formerly ACM239)
AMC340	Major Creative Project

3 electives

### Students who commenced 2013–2014

#### **Animation core sequence**

AMC228	Building 3D Objects & Worlds (Formerly ACM138 3D Animation 1: Screen Space, Layout, Landscape)
AMC100	Introduction to Animation (No longer available for enrolment)
AMC104	Principles of Character Animation (No longer available for enrolment)
ACF212	Visual Effects and Motion Graphics (Formerly ACM225, AMC203)
AMC339	Documentary Animation (Formerly ACM239 Digital Animation)

And one of:

ACM308	Delivering Moving Images (No longer available for enrolment)
AMC327	Designing Animated Worlds (Formerly ACN203)

And one of:

ACC316	Collaborative Major Creative Project (No longer available for enrolment)
AMC340	Major Creative Project (2 credit points from 2016)

### ***Motion Capture cluster***

AMC300 Pre-Production & Project Pitch (Formerly AMC327)

And 3 cp selected from:

- AMC101 Motion Capture Fundamentals (No longer available for enrolment)
- ADA201 Creating 3D Characters (Formerly AMC126, AMC226)
- ADA201 Creating 3D Characters (Formerly AMC202)
- AMC204 3D Character Animation (Formerly AMC240)

### ***Motion Capture core sequence***

- AMC101 Motion Capture Fundamentals (No longer available for enrolment)
- ADA201 Creating 3D Characters (Formerly AMC126, AMC226)
- ACN203 Digital Studio (No longer available for enrolment)
- ADA201 Creating 3D Characters (Formerly AMC202)
- AMC204 3D Character Animation (Formerly AMC240)
- AMC303 Advanced Motion Capture (No longer available for enrolment)
- ACC316 Collaborative Major Creative Project (No longer available for enrolment)
- AMC340 Major Creative Project (2 credit points)

### ***Animation cluster***

AMC300 Pre-Production & Project Pitch (Formerly ACM327)

And 3 cp selected from:

- AMC228 Building 3D Objects & Worlds (Formerly ACM138 3D Animation 1: Screen Space, Layout, Landscape)
- ACN108 History of Interactive Entertainment (No longer available for enrolment)
- ACF212 Visual Effects and Motion Graphics (Formerly ACM225, AMC203)
- AMC339 Documentary Animation (Formerly ACM239)

## **Assessment**

Assessment within the award of Bachelor of Creative Arts varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Creative Arts (Animation and Motion Capture)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Animation and Motion Capture)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>Deakin course code</i>	A353 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Apply for a Bachelor of Creative Arts (Animation and Motion Capture) to learn clever and creative ways of manipulating and animating images. Find out more.

Learn the art of storytelling in 2D and 3D animation and motion capture with our hands-on Bachelor of Creative Arts (Animation and Motion Capture). Prepare for creative and technical positions in animation, film, television, and games design.

This degree offers students creative, technical, and analytical skills in animation production. You explore animation methods such as time lapse, pixilation, 2D under camera stop motion (hand-drawn, cut-out, ink on glass), 3D stop motion (Claymation, modelling, and object animation) and computer graphic animation. You learn motion capture techniques including motion capture direction, post-production editing and integration of motion capture in the 3D animation pipeline.

Students who successfully complete the course can choose from a number of exciting roles. Our graduates are now working for motion capture and animation companies such as WETA, BlackMagic and Complete Post.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units as electives in their first year.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Review, practice and analyse key concepts, theories and techniques relating to 2D, 3D and motion capture animation ideas, principles and practices, including still and moving images, text and sound.</p> <p>Employ specialist digital and analogue approaches to creating and working with a range of content, styles and genres appropriate to the creative arts and industry sectors.</p> <p>Link animation and motion capture creative practice, concepts and methods to a broad range of issues in contemporary culture, including recent socio-technical shifts and trends in both analogue and digital audio-visual works and ideas related to the moving image and convergent media outcomes.</p> <p>Demonstrate a range of conceptual and aesthetic practices and approaches relating to contemporary production, critique and appreciation in the animation field.</p>
Communication	<p>Effectively communicate a range of conceptual and aesthetic examples, ideas and technical knowledge in relation to the animation discipline, through a selection of written, digital and oral formats.</p> <p>Utilise creative communication strategies for a range of audiences in scholarly, informal and professional contexts.</p>
Digital literacy	<p>Employ a range of generic and specialist verbal and audio-visual digital communication techniques to apply animation knowledge and conduct independent creative research to deliver animated sequences and presentations to a diverse range of audiences within and outside the field.</p>
Critical thinking	<p>Analyse and critically evaluate theoretical, conceptual and aesthetic approaches to animated moving images and the role of animation and motion capture practices in the context of major shifts in media technologies, affordances and screening contexts.</p>
Problem solving	<p>Employ creativity and imagination to identify, articulate and resolve complex aesthetic, conceptual and technical problems in animation and motion capture.</p> <p>Define, explain and evaluate a wide range of animation and motion capture strategies, styles and examples including narrative and non-narrative approaches.</p>
Self-management	<p>Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skill development as a reflective practitioner, in animation and motion capture in scholarly and professional contexts.</p>
Teamwork	<p>Work and learn collaboratively with others in the animation field and from different disciplines and backgrounds while maintaining responsibility for one's own learning.</p>
Global citizenship	<p>Acknowledge and appreciate cultural and socio-economic diversity in the domestic and global context as a reflective scholar and practitioner, taking into consideration social and environmental responsibility and the application of the highest ethical standards in professional networking contexts.</p>

Approved by Faculty Board October 2015

## Course rules

Students must complete 24 credit points comprising of:

- 16 credit points of core units
- 8 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACC100	Communication in Everyday Life
ACC101	Creativity and Dangerous Ideas (No longer available for enrolment)
AMC100	Introduction to Animation (No longer available for enrolment)
AMC101	Motion Capture Fundamentals (No longer available for enrolment)
AMC104	Principles of Character Animation (No longer available for enrolment)

Plus 3 electives

### Level 2

ACC200	Freelancing in the Arts
ADA202	Animation, Performance and Capture (previously AMC202)
ACF212	Visual Effects and Motion Graphics (previously AMC203)
AMC204	3D Character Animation
ADA201	Creating 3D Characters (previously AMC226)
AMC228	Building 3D Objects & Worlds

Plus 2 electives

### Level 3

AMC300	Pre-Production & Project Pitch
AMC339	Documentary Animation
AMC340	Major Creative Project (2 credit points)

Students are to select one of:

AMC303	Advanced Motion Capture (No longer available for enrolment)
Or	
AMC327	Designing Animated Worlds

Plus 3 electives

### Electives

Students are encouraged to consider taking units from the following recommended electives:

*Note: Students to check the handbook for pre-requisite and course cohort rule details on some units below*

ACF103	Writing with the Camera
ACG103	Design Skills
ACG206	Web Design and Interactivity – (No longer available for enrolment)
ACI102	Digital Photography
ACI303	New Worlds: Intersections of Art and Science
ALC203	Exploring Digital Media: Contexts of Online Participation – (No longer available for enrolment)
ACV306	Artists' Books Studio- (No longer available for enrolment)

## **Work experience**

Elective units may provide the opportunity for Work Integrated Learning experiences.

## **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## **Research and research-related study**

Independent research components are embedded across a number of units.

# Bachelor of Creative Arts (Visual Communication Design)

<i>Year</i>	2019 course information

<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	075372G
<i>Deakin course code</i>	A355
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Offered to continuing and pathway students only. Continuing and pathway students should contact their course advisor for further information.*

## Course overview

Deakin University, Visual Communication Design program believes that design is what links creativity and innovation. Deakin aims to instil in students a belief that design can be an agent for change by encouraging them to shape their ideas into practical and attractive propositions for users, customers and society as a whole.

Students are taught how to make ideas tangible and their abstract thoughts and inspirations realised in a professional and/or sociological context. Deakin's broad based definition of design respects the disciplinary overlaps of a changing profession, which now requires a more holistic approach to problem solving via design thinking methodologies.

Deakin's Bachelor of Creative Arts (Visual Communication Design) enables you to develop practical and theoretical skills in visual communication design. This course offers a dynamic combination of contemporary design theory with specialised studio practices and practical outcomes in a variety of design disciplines. It draws upon the expertise of its staff who are active practitioners in their fields, as well as visiting, special guest and casual academic staff. The Visual Communication Design program offers the opportunity to attend an international study tour and complete an internship as part of your course.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Prerequisites

because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate practical and theoretical skills in visual communication design through knowledge of contemporary design theory, specialised studio practices and technologies to achieve practical outcomes in a variety of design disciplines.
Communication	Effectively communicate ideas using visual media and transmit ideas and solutions to problems through written and oral presentation.
Digital literacy	Employ a range of generic and specialist skills in industry standard design programs and other digital literacies to source, analyse, generate and disseminate design solutions.
Critical thinking	Acquire skills in the critical evaluation of contemporary design practices, design conversations and design issues and apply these skills in professional design practice.
Problem solving	Demonstrate the ability to analyse and evaluate information to determine the appropriate design strategy and best method to solve visual communication design problems in professional practice.
Self-management	Demonstrate initiative and autonomy in planning decision-making and problem solving to prepare multiple design briefs and complete complex design outcomes.
Teamwork	Work collaboratively with others in visual communication design, from different disciplines and different backgrounds to complete design briefs.
Global citizenship	Analyse and address design issues in a domestic and global context taking into consideration cultural and socio-economic diversity and environmental responsibility and the application of professional ethical standards.

*Approved by Faculty Board March 2015*

## Course rules

### For students commencing from 2015:

To qualify for the award of Bachelor of Creative Arts (Visual Communication Design) a student must complete 24 credit points including:

- 14 credit points of core units
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

Students who commenced prior to 2015 should follow the course rules and structure shown in the Handbook for their year of commencement.

## Course structure

### Level 1

ACC100 Communication in Everyday Life  
ACC101 Creativity and Dangerous Ideas (No longer available for enrolment)  
ADV102 Typography and Publication Design  
ACG103 Design Skills

4 electives

### Level 2

# Bachelor of Creative Arts (Dance)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Dance)
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	060433M
<i>Deakin course code</i>	A356 (version 2)

*Offered to continuing students only*

## Course overview

The Bachelor of Creative Arts (Dance) focuses on developing students' physical, creative and intellectual skills, resources and capacities through study and practice in the art of contemporary dance in the studio setting. Core studies in technique, somatics, choreography, and dance history and theory are complemented by work with digital technologies, other creative arts disciplines; and public performance, overseas study tour and internship experiences. An intensive fourth year (Honours) is available to highly achieving students.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Prerequisites

Because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

### Students who commenced 2008–2014

Students must complete 24 credit points including:

- 12 credit points of core units
- 12 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

### Students who commenced 2015

Students must complete 24 credit points including:

- 15 credit points of core units
- 9 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

## Course structure

### Students who commenced 2008–2014

#### Level 1

- ACD101 Introduction to Contemporary Dance Practice A
- ACD102 Introduction to Contemporary Dance Practice B
- ACD110 Dance Improvisation and Body Awareness [No longer available for enrolment]

And either

- ACD105 Ballet for Contemporary Movers [No longer available for enrolment]

Or

- ACC100 Communication in Everyday Life

Or

- ACC101 Creativity and Dangerous Ideas (No longer available for enrolment)

Plus 4 cp of electives

#### Level 2

- ACC317 Communication and Creative Arts Internship A
- ACD211 Performance and Technology [No longer available for enrolment – students to select ACC317]
- ACD203 Contemporary Dance Practice and History A [No longer available for enrolment]
- ACD204 Contemporary Dance Practice and History B [No longer available for enrolment]

And either

- ACD206 Dance Production and Analysis (Previously 1 credit point) (No longer available for enrolment)

Or

- ACD309 Major Choreographic Project A: Process

Plus 4 cp of electives

*Note: Students who did not complete ACD206 prior to 2014 are strongly encouraged to consider taking ACD206 Dance Production and Analysis (now 2 credit points) among these electives*

#### Level 3

- ACD307 Specialised Technique and Dance Performance
- ACD308 Choreographic Research and Performance

And either

- ACC316 Collaborative Major Creative Project (2 credit points) (No longer available for enrolment)

Or

- ACD310 Major Choreographic Project B: Performance (2 credit points)

Plus 4 cp of electives

### Students who commenced 2015

#### Level 1

- ACC100 Communication in Everyday Life
- ACC101 Creativity and Dangerous Ideas (No longer available for enrolment)
- ACD101 Introduction to Contemporary Dance Practice A
- ACD102 Introduction to Contemporary Dance Practice B
- ACD110 Dance Improvisation and Body Awareness [No longer available for enrolment]

3 electives

## Level 2

ACD203	Contemporary Dance Practice and History A [No longer available for enrolment]
ACD204	Contemporary Dance Practice and History B [No longer available for enrolment]
ACD206	Dance Production and Analysis (No longer available for enrolment)
ACC317	Communication and Creative Arts Internship A
ACD211	Performance and Technology [No longer available for enrolment – students to select ACC317]

3 electives

## Level 3

ACD307	Specialised Technique and Dance Performance
ACD308	Choreographic Research and Performance
ACD309	Major Choreographic Project A: Process
ACD310	Major Choreographic Project B: Performance (2 credit points)

3 electives

## Assessment

Assessment within the award of Bachelor of Creative Arts varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## Electives

Dance Study Tours & Internships (ACC317) provide important options for electives within the BCA (Dance). Students may also choose electives from other disciplines within the School of Communication and Creative Arts, from the Arts and Education Faculty and from other Faculties, such as Health and Behavioural Sciences, depending on entry and pre-requisite requirements.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Creative Arts (Dance)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Dance)
<i>Campus</i>	Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	060433M
<i>Deakin course code</i>	A356 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course version is now pipelining. A new version will be offered from 2020.*

## Course overview

Immerse yourself in the exciting physical and conceptual possibilities of contemporary dance. Study a Bachelor of Creative Arts (Dance) at Deakin to learn how the art of contemporary dance engages with movement, innovation and thinking.

The Bachelor of Creative Arts (Dance) challenges and develops students' physical, creative and intellectual capacities through study and practice in the art of contemporary dance. In the studio setting, core studies in technique, somatics, choreography, and dance history and theory are complemented by work with digital technologies and other creative arts disciplines. Opportunities include public performance, overseas study tour and internship experiences.

## Career opportunities

The course prepares you to launch a career as a practitioner in the professional dance sector. When you graduate you will be equipped to work across disciplines in a variety of contexts, initiate independent arts projects, or use your skills and knowledge as Dance teachers, which are in strong demand both in the school system and private studios.

Career opportunities include:

- community art practice
- dance education
- event, festival and production management
- arts administration and curation
- dance therapies.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units as electives in their first year.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Develop practical and theoretical skills in contemporary dance through an embodied, perceptual understanding of the intricacies, qualities and sensations of movement; experiential anatomical knowledge; movement literacy; performance experience and understanding; choreographic principles and practices; historical, cultural and theoretical knowledge as it relates to the field of contemporary dance.
Communication	Using interpersonal, physical, oral and written means to communicate, foster and present physical skills development, choreographic creation, theoretical engagement and performance suited to a range of audiences.
Digital literacy	Employ a range of skills in digital literacies to source, analyse, and disseminate information.
Critical thinking	Research, practice and interrogate dance skills and concepts, analyse choreographic problems leading to the creation of choreographic artefacts and dance performance, critically and reflectively engage with written discourse in the field of contemporary dance.
Problem solving	Demonstrate the ability to analyse and evaluate information to determine the appropriate strategy and method to communicate ideas and concepts in contemporary dance practice.  Embody dance movement in authentic, sensate responses to physical challenges or creative tasks and in diverse social and cultural contexts.
Self-management	Demonstrate initiative and autonomy in planning, decision-making and problem solving in relation to classroom, choreographic and performance expectations.
Teamwork	Work collaboratively with others in dance, from different disciplines and different backgrounds to complete dance projects.
Global citizenship	Recognise and reflect on social, cultural and ethical issues as they apply to contemporary dance, and apply local and international perspectives to its practice.

Approved by Faculty Board October 2015

## Course rules

To qualify for the award of Bachelor of Creative Arts (Dance) a student must complete 24 credit points including:

- 16 credit points of core units
- 8 credit points of electives
- no more than 12 credit points at level 1
- at least 4 credit points at level 3
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACC100	Communication in Everyday Life
ACC101	Creativity and Dangerous Ideas (No longer available for enrolment)
ACD101	Introduction to Contemporary Dance Practice A (No longer available for enrolment)
ACD102	Introduction to Contemporary Dance Practice B (No longer available for enrolment)
ACD110	Dance Improvisation and Body Awareness (No longer available for enrolment)

3 electives

### Level 2

ACC200	Freelancing in the Arts
ACD203	Contemporary Dance Practice and History A [No longer available for enrolment]
ACD204	Contemporary Dance Practice and History B [No longer available for enrolment]
ACD206	Dance Production and Analysis [No longer available for enrolment]
ACD211	Performance and Technology [No longer available for enrolment – students to select ACC317]
ACC317	Communication and Creative Arts Internship A

2 electives

### Level 3

ACD307	Specialised Technique and Dance Performance
ACD308	Choreographic Research and Performance
ACD309	Major Choreographic Project A: Process
ACD310	Major Choreographic Project B: Performance '(2 credit points)'

3 electives

### Recommended electives

ACP109	Improvisation: Principles in Action
ACV101	Contemporary Art Practice: Body
ACF104	Screening History
ACI101	Analogue Photography
ACP205	Performance, Image, Site
ACD211	Performance and Technology – (No longer available for enrolment)
ACC317	Communication and Creative Arts Internship A
ACC318	Communication and Creative Arts Internship B
ACD311	Contemporary Dance in New York Study Tour

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Assessment

Assessment within the award of Bachelor of Creative Arts varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## Electives

Dance Study Tours & Internships (ACC317, ACC316) provide important options for electives within the BCA (Dance). Students may also choose electives from other disciplines within the School of Communication and Creative Arts, from the Arts and Education Faculty and from other Faculties, such as Health and Behavioural Sciences, depending on entry and pre-requisite requirements.

# Bachelor of Creative Arts (Dance)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Dance)
<i>Campus</i>	Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	060433M
<i>Deakin course code</i>	A356 (version 4)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course version is only available from 2020.*

## Course overview

Immerse yourself in the exciting physical, social and conceptual possibilities of contemporary dance. Study a Bachelor of Creative Arts (Dance) at Deakin to learn how the art of contemporary dance intersects with creativity, innovative thinking, community enrichment and technology. Study the diverse ways in which dance can engage and make a difference.

The Bachelor of Creative Arts challenges and develops students' physical, creative and intellectual capacities through practice-based learning. In the studio setting, core studies in technique, choreography, history and theory are complemented by work with digital technologies and other creative arts disciplines. Opportunities include exhibition, public performance and internship experiences.

## Career opportunities

The course prepares you to launch a career as a practitioner in the professional dance sector. When you graduate you will be equipped to work across disciplines in a variety of contexts, initiate independent arts projects, or use your skills and knowledge as Dance teachers, which are in strong demand both in the school system and private studios.

Career opportunities include:

- community art practice
- dance education
- event, festival and production management
- arts administration and curation
- dance therapies.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units as electives in their first year.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Interpret and apply conceptual, theoretical and technical skills in the analysis and presentation of a range of artistic artefacts within areas of specialisation and across multidisciplinary contexts.
Communication	Articulate critical engagement with a variety of mediums, methods and, techniques and strategies to present ideas, exhibitions, performances and practical work.
Digital literacy	Critically evaluate, manipulate and apply a range of information technologies, digital tools, devices and environments to support and develop ideas and creative expression.
Critical thinking	Analyze and synthesize research materials through multiple sources and mediums to generate original and innovative ideas about creative work in diverse cultural settings.
Problem solving	Identify, explore and create solutions to creative arts problems grounded in theory and/or practice.
Self-management	Develop, manage and critically reflect upon the producing and presenting of creative works in accordance with industry standards, development as a professional creative arts practitioner and personal learning goals.
Teamwork	Contribute in a constructive and respectful way to the collaborative production of creative outcomes.
Global citizenship	Demonstrate critical knowledge and awareness of diverse social and cultural contexts when engaging in creative arts practice.

Approved by Faculty Board March 2019

## Course rules

To qualify for the award of Bachelor of Creative Arts (Dance) a student must complete 24 credit points including:

- 8 core units (totalling 12 credit points)
- 4 Dance discipline units
- 2 course electives
- 6 electives
- no more than 10 credit points at level 1
- AA1018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

ACA100	Art and Performance: New Directions for Creative Practice
ACA101	Art and Performance: Roles of the Artist
ACA210	Creative Studio 2A
ACA211	Creative Studio 2B
ACA310	Creative Studio 3A
ACA311	Creative Studio 3B
ACA309	Creative Careers and Contexts
ACA397	Exhibition and Performance

2 course electives selected from:

ACV101	Contemporary Art Practice: Body
ACV212	Digital Practices and the Visual Arts

# Bachelor of Creative Arts (Drama)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Drama)
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	060434K
<i>Deakin course code</i>	A357 (version 2)

*Offered to continuing students only*

## Course overview

The drama program will develop your skills in contemporary drama practices and perspectives. It is a dynamic combination of acting theory and practice, performance styles and processes, theatre history, text studies, community theatre and technical skill development. Final year students are able to participate in performing arts (drama) internships.

Deakin's Bachelor of Creative Arts (Drama) offers you systematic exposure to collaborative possibilities between various art forms, the experience of bringing art forms together in major projects and training in creative arts enterprise and management. You will also receive grounding in the academic knowledge necessary to understand the arts and to create new forms of art. The program draws upon the expertise of its staff – who are active practitioners in their fields, and industry – and on visiting, special guest and casual academic staff.

Deakin Drama graduates have a well-deserved reputation for high levels of skill, flexibility and initiative. The course equips you with the skills to establish independent drama projects and production companies.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Prerequisites

Because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the award of Bachelor of Creative Arts (Drama) a student must complete 24 credit points including:

### Students who commenced 2008–2014

- 12 credit points of core units
- 12 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

### For students commencing from 2015

- 15 credit points of compulsory core units
- 9 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

## Course structure

### Students who commenced 2008–2014:

#### Level 1

- ACP101 Performance Laboratory A (No longer available for enrolment)  
 ACP109 Improvisation: Principles in Action (previously Improvisation and the Actor)  
 ACP110 Performance Laboratory (previously The Paradox of the Actor)  
 ACP177 Genre & Performance (No longer available for enrolment)

4 electives

#### Level 2

- ACP205 Performance, Image, Site (previously Performance of Alternative Spaces)  
 ACP206 Adaptation and Solo Performance (previously Processes of Realisation)

And 2 cp selected from:

- ACP279 The Integrated Performer (previously Body, Voice, Text) (No longer available for enrolment)  
 ACP280 Performance, Text, Realisation – (No longer available for enrolment, alternate unit ACP281)  
 ACP207 Practical Approaches to Dramatic Text  
 ACD211 Performance and Technology [No longer available for enrolment]

4 electives

#### Level 3

- ACP323 Out of the Box: Theatre in Alternative Contexts  
 ACP378 Out of the Ether: Devised Theatre

And 2 cp selected from:

- ACC316 Collaborative Major Project (2 credit points) (No longer available for enrolment)  
 ACP324 Ensemble Performance: Dramaturgy and Devising (A)  
 ACP326 Ensemble Performance: Dramaturgy and Devising (B)

4 electives

## For students commencing from 2015:

### Level 1

- ACC100 Communication in Everyday Life
- ACC101 Creativity and Dangerous Ideas (No longer available for enrolment)
- ACP101 Performance Laboratory A (No longer available for enrolment)
- ACP109 Improvisation: Principles in Action
- ACP110 Performance Laboratory
- ACP177 Genre & Performance (No longer available for enrolment)

2 electives

### Level 2

- ACP205 Performance, Image, Site

Select one unit from ACD211 or ACP206:

- ACD211 Performance and Technology [No longer available for enrolment]
- Or
- ACP206 Adaptation and Solo Performance
- ACP280 Performance, Text, Realisation – (No longer available for enrolment, alternate unit ACP281)
- ACP207 Practical Approaches to Dramatic Text

3 electives

### Level 3

- ACP323 Out of the Box: Theatre in Alternative Contexts
- ACP324 Ensemble Performance: Dramaturgy and Devising (A)
- ACP326 Ensemble Performance: Dramaturgy and Devising (B)
- ACP378 Out of the Ether: Devised Theatre (2 credit points)

4 electives

### Elective units

Students are encouraged to consider the following recommended elective units:

- ACC317 Communication and Creative Arts Internship A
- ACC318 Communication and Creative Arts Internship B
- ALL375 Shakespeare: Six Plays, Six Worlds
- ALW227 Scriptwriting: Character, Event, Consequence

## Assessment

Assessment within the award of Bachelor of Creative Arts varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

### Course overview

Want to be a part of the next generation of innovative performers and theatre makers? Deakin's Bachelor of Creative Arts (Drama) will help you master your craft, create new stories and forge your own unique path as a creative in the industry. Led by performance experts with years of industry experience, you'll explore techniques in acting, improvisation, voice and devising, as well as digital theatre crafts to work in theatre, film or television.

Want to launch your career in the performing arts and entertainment industries?

Through a dynamic combination of acting theory and practice, you'll gain a thorough understanding of the arts and be inspired to create new forms of art.

Through this course, you'll produce public performances at a professional standard, and explore important aspects of the theatre including:

- acting theory and practice
- different performance styles and processes
- site-based and community theatre
- text studies
- theatre history.

You'll have the chance to work on individual and group creative projects to develop your skills in ensemble creation and production management and participate in public performances. Plus, you can gain exposure to international theatre techniques by taking an overseas study tour or internship.

By the time you graduate, you'll have the foundations to work across the arts and entertainment industries in anything from live theatre, film and television to drama education, performance companies and community theatre.

## Career opportunities

Drama graduates are equipped to launch careers as independent theatre makers and pursue roles throughout the arts and entertainment industries. Career opportunities include:

- actor
- theatre director
- art centre manager
- festival manager
- drama educator
- community theatre practitioner
- production manager
- presenter.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units as electives in their first year.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Develop practical and theoretical skills in contemporary theatre and drama through kinaesthetic knowledge of performance techniques with reference to body, voice and text; knowledge of theatre history and performance theory; performance experience in a variety of theatrical and extra theatrical contexts; performance-making principles and practices; historical, cultural and theoretical knowledge as it relates to the field of contemporary theatre and drama.
Communication	Using interpersonal, physical, oral and written means to communicate, foster and present dramatic skills development, theatrical creation, theoretical engagement and performance suited to a range of audiences.
Digital literacy	Employ a range of skills in digital literacies to source, analyse, and disseminate information.

Deakin graduate learning outcomes	Course learning outcomes
Critical thinking	Research, practice and interrogate performance skills and concepts, analyse theatrical and dramatic problems leading to the creation of performance works in a variety of genres, critically and reflectively engage with written discourse in the field of theatre and drama.
Problem solving	Demonstrate the ability to analyse and evaluate information to determine the appropriate strategy and method to communicate ideas and concepts in contemporary theatre and drama practice.  Produce original creative work in a variety of performance genres and diverse social and cultural contexts.
Self-management	Demonstrate initiative and autonomy in planning, decision-making and problem solving in relation to workshop, rehearsal and performance expectations.
Teamwork	Work collaboratively with others in dance, from different disciplines and different backgrounds to complete theatre and drama projects.
Global citizenship	Recognise and reflect on social, cultural and ethical issues as they apply to theatre, drama and performance, and apply local and international perspectives to its practice.

Approved by Faculty Board October 2015

## Course rules

Students must complete 24 credit points comprising of:

- 18 x credit points of core units
- 6 x credit points of open electives
- no more than 12 credit points at level 1
- at least 4 credit points at level 3
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACA101	Art and Performance: Roles of the Artist
ACA100	Art and Performance: New Directions for Creative Practice
ACP109	Improvisation: Principles in Action
ACP110	Performance Laboratory
ACP103	Foundations of Acting and Performance

### Level 2

ACP207	Practical Approaches to Dramatic Text
ACP210	Performance Laboratory (B): Performance Composition
ACP281	Page to Stage: Major Performance Project

### Level 3

ACP324	Ensemble Performance: Dramaturgy and Devising (A)
ACP326	Ensemble Performance: Dramaturgy and Devising (B)
ACP378	Out of the Ether: Devised Theatre (2 credit points)

## Course electives

Complete two 1-credit point units chosen from the following list:

ALW101	Writer's Toolkit: Craft and Creativity
ACF103	Writing with the Camera
ACV101	Contemporary Art Practice: Body
ACI102	Digital Photography
ACD110	Dance Improvisation and Body Awareness [No longer available for enrolment]
AGS101	Sex and Gender: Ideas That Changed the World
IND101	Introduction to Aboriginal Studies

Complete four 1-credit point units chosen from the following list:

ACP206	Adaptation and Solo Performance
ACP205	Performance, Image, Site
ALW227	Scriptwriting: Character, Event, Consequence
ACA202	Acting and Directing for Screen
ACA201	Production Design for Screen and Performance
ACA203	The Art and Design of Sound
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives
ACP323	Out of the Box: Theatre in Alternative Contexts
ACC317	Communication and Creative Arts Internship A

Complete six electives, of which at least three must be 2nd or 3rd level

We suggest students complete at least 4 units in a subject area different to their degree, preferably a linked sequence of study in the same area. This choice can include units from any degree in the University but is best chosen from the subject areas in the Bachelor of Arts ([deakin.edu.au/course/bachelor-arts](http://deakin.edu.au/course/bachelor-arts)). We recommend students complete at least two more course elective units listed above or select from the following recommended units:

ACC317	Communication and Creative Arts Internship A
ACC318	Communication and Creative Arts Internship B
ALL375	Shakespeare: Six Plays, Six Worlds
ALW227	Scriptwriting: Character, Event, Consequence

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Assessment

Assessment within the award of Bachelor of Creative Arts varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## Other learning experiences

There are opportunities throughout the course for students to engage with real briefs, real sites of professional performance, and industry professionals. These experiences will be integrated into units where students create and craft projects for external clients (such as in the partnership with the Victorian Arts Centre in ACP 205 or with communities in ACP 323) in order to more closely connect the learning experience with industry practices. Students also have to option to enrol in international study tours.

# Bachelor of Creative Arts (Film and Digital Media)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Film and Digital Media)
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	077404K
<i>Deakin course code</i>	A358

*Offered to continuing students only*

## Course overview

The Bachelor of Creative Arts (Film and Digital Media) comprehensively explores the theories, techniques and practices of a major media discipline, enabling you to build your skills in a range of other creative arts theory and practices. The major disciplines of Film, Animation and Photography focus on the development of the creative and analytic skills required to successfully apply technique in professional and artistic practices.

## Course rules

Students must complete 24 credit points as follows:

- 12 credit points of core units which must be selected from one of:
  - Animation
  - Film or
  - Photography
- 12 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

## Electives

In choosing electives, students are encouraged to consider taking a major sequence or individual units from the following Bachelor of Arts major sequences:

- Animation
- Drama
- Film Studies
- Photography
- Visual Arts
- Visual Communication Design
- Dance

The following units are also available as elective options:

- ACC317 Communication and Creative Arts Internship A
- ACC318 Communication and Creative Arts Internship B

# Bachelor of Creative Arts (Visual Arts)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Creative Arts (Visual Arts)
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	060435J
<i>Deakin course code</i>	A359 (version 2)

*Although the course is based at the Geelong Waterfront campus, students can take cognate units of study at the Waurin Ponds Campus.*

*Offered to continuing students only*

## Course overview

Deakin's Bachelor of Creative Arts (Visual Arts) offers you a range of skills including: a grounding in the fundamental skills and techniques used in the broad field of the visual arts; exploration of diverse art forms and collaborative practice; the experience of bringing art forms together in major projects; training in creative arts enterprise and management; a grounding in the academic knowledge necessary to understand the arts; and critical, contemporary practices that prepare students for both higher degree research and careers as professional practitioners.

Deakin's visual arts program will give you the opportunity to gain qualifications, skills and knowledge for professional practice in the visual arts, and to understand and enable exchange across disciplines. You will develop skills for a specialised industry vocation or a broader role in the fields of culture and the arts. At the same time students will be introduced to critical and historical discourses that situate their practice in a research framework. The course combines cutting edge, contemporary theory with specialised studio practice incorporating digital technologies and interdisciplinary practices.

The program draws upon the expertise of its staff, who are active practitioners and leading researchers in their fields. It also engages with the arts industry, through visiting specialists and professionals, as well as through professional placements with art institutions, with major community and cultural events, and with contemporary artists.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Prerequisites

Because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>Deakin course code</i>	A359 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Note: Geelong Waterfront campus students can take units of study at the Waurn Ponds Campus.*

## Course overview

Develop your skills as a contemporary art practitioner through Deakin's tailor-made Bachelor of Creative Arts (Visual Arts). Through specialised studio practice and opportunities to exhibit your work in galleries and exhibitions, you'll develop your physical, creative and intellectual capacities to engage with the world through new and traditional media. You'll explore painting, drawing, printmaking, 3D, digital and multidisciplinary forms.

Want to experiment with expression and make a career out of adventurous, contemporary art?

From specialised studio practice and interdisciplinary learning to leading theory and critical thinking, you'll develop the skills to be an adaptable, articulate and creative practitioner. Draw inspiration from and gain expertise in:

- digital technologies
- traditional techniques
- interdisciplinary practices
- studio practice.

Draw on the expertise of our staff, who are active practitioners and leading researchers in their fields. You'll also engage with the arts industry through visiting specialists and professionals.

Choose to undertake work placements in art institutions, with contemporary artists as well as at major community and cultural events. You can also go overseas on an optional international study tour.

Through this course, you'll develop transferable skills in:

- critical thinking
- collaboration
- experimentation
- technique
- visual analysis.

By coupling your major with units in other creative arts disciplines, you'll expand your career opportunities in areas like marketing, media, and communications. Alternatively, work in arts and cultural communities when you graduate, or develop an independent studio career working towards exhibitions in commercial galleries or publicly-run arts spaces.

If you're considering becoming a visual arts teacher, you can combine your art specialisation with further postgraduate teaching studies.

## Career opportunities

Graduates are equipped with a dynamic skill set, ready for a career in the expanding arts industries. You may find work in roles such as:

- artist
- artist agent
- gallery or exhibition curator
- arts centre manager
- art director
- videographer
- creative director
- desktop publisher
- illustrator.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin’s website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Transition to university study

The faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units as electives in their first year.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Demonstrate a working knowledge of Visual Arts studio practice.</p> <p>Demonstrate knowledge of art theoretical and historical content through studio practice.</p> <p>Demonstrate particular depth of knowledge in the studio practice of painting and drawing.</p> <p>Adapt knowledge to analyse and interpret art and cultural products within the art world and within a broader context of cultural production.</p> <p>Apply discipline knowledge and problem solving skills to reflect on, engage with, and reshape cultural/societal practices</p>

Deakin graduate learning outcomes	Course learning outcomes
Communication	<p>Express ideas and opinions cogently through oral, written, and nonverbal (visual) channels.</p> <p>Engage critically with ideas through technically sophisticated and theoretically informed art practice.</p> <p>Demonstrate an understanding of the art industry and its cultural contexts through written and oral communication.</p>
Digital literacy	<p>Employ a range of digital media technologies to create art works.</p> <p>Demonstrate a high level of skill in both the manipulation of digital technologies as well as the creative extension of such technologies</p> <p>Critically engage with the interaction of old and new media technologies through scholarly writing and creative arts practice.</p>
Critical thinking	<p>Analyse and interpret cultural products (including the student's own work) and make informed judgements about their meaning, value, and efficacy.</p> <p>Use visual arts practice to develop self-reflexive habits that both develop and critically re-examine personally held views.</p>
Problem solving	<p>Develop skills in identifying, analysing and solving creative (ill-defined) problems through studio practice.</p> <p>Employ visual arts methodologies (ways of making) to define and explore new problems or re-frame existing ones.</p>
Self-management	<p>Use personal initiative and judgment to produce creative solutions to set creative briefs.</p> <p>Demonstrate initiative and autonomy in researching, developing and solving self-directed creative problems in the visual arts.</p> <p>Demonstrate skills in objective critical self-assessment.</p>
Teamwork	<p>Collaborate with peers within and across disciplines to generate creative outcomes in art practice and professional situations.</p> <p>Effectively negotiate interpersonal and creative differences through engagement in group projects.</p>
Global citizenship	<p>Demonstrate an awareness of ethical issues, cultural diversity, and social responsibility when engaging in Visual Arts scholarship.</p> <p>Demonstrate an awareness of the ethical and inter-cultural issues involved in the production and interpretation of visual representations.</p>

Approved by Faculty Board October 2015

## Course rules

Students must complete 24 credit points including:

- 10 x credit points of core units (9 units)
- 3 x course electives from list A
- 5 x course electives from list B (at least 1 unit at level 3)
- 6 x credit points of open electives (of which three must be at level 2 or 3)
- no more than 12 credit points at level 1
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Level 1

ACA101	Art and Performance: Roles of the Artist
ACA100	Art and Performance: New Directions for Creative Practice
ACV101	Contemporary Art Practice: Body
ACV102	Contemporary Art Practice: Space

### Level 2

ACV205	Contemporary Art Practice: Pluralism
ACV206	Contemporary Art Practice: Abstraction
ACV207	Materialising the Image: Visual Art and Photography Since 1989

### Level 3

ACV307	Contemporary Art Practice: Research
ACV312	Contemporary Art Practice: Production (2 credit points)

## Course electives

Complete three 1-credit point units chosen from the following course electives list A:

ACG103	Design Skills
ACF103	Writing with the Camera
ACP109	Improvisation: Principles in Action
ACP103	Foundations of Acting and Performance
ACI101	Analogue Photography
ACI102	Digital Photography
IND101	Introduction to Aboriginal Studies

Complete five 1-credit point units chosen from the following course electives list B with at least one level 3 unit:

ACV210	Integrated Practice 1
ACV214	Art and Technology
ACI201	Alternative Imaging
ACI204	Contemporary Documentary and Narrative Photography
ACI202	Digital Imaging 2: Advanced
IND201	Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives
ACV310	Integrated Practice 2
ACV311	Visual Arts History and Theory in the Expanded Field
ACI301	Experimental Photography and Creative Practice
ACP323	Out of the Box: Theatre in Alternative Contexts
ACC317	Communication and Creative Arts Internship A

Complete six electives, of which at least three must be 2nd or 3rd level

We suggest students complete at least 4 units in a subject area different to their degree, preferably a linked sequence of study in the same area. This choice can include units from any degree in the University but is best chosen from the subject areas in the Bachelor of Arts ([deakin.edu.au/course/bachelor-arts](http://deakin.edu.au/course/bachelor-arts)). We recommend students complete at least two more course elective units listed above.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Assessment

Assessment within the award of Bachelor of Creative Arts varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, seminar exercises and tests.

## Research and research-related study

Independent research components are embedded across a number of units.

## Bachelor of Arts (Honours)

<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year full-time or part-time equivalent
<i>CRICOS course code</i>	001816G
<i>Deakin course code</i>	A400
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

### Course overview

Deakin's Bachelor of Arts (Honours) lets you further your studies in an area that interests you most. As well as diverse coursework, you'll complete a substantial research thesis under supervision from an academic research professional. Stimulate your mind and heart and contribute new ideas to your chosen discipline.

Want to conduct your own research to make a real impact in the arts?

If you're a high-achieving student who wants to expand their research skills, you can design your own course with a specialisation in your chosen area.

This course is led by active academics and industry leaders who bring their passion for learning to the classroom. Benefit from their influence and industry connections.

Choose from majors across a range of social sciences, humanities and arts subjects, including:

- anthropology
- Arabic
- Buddhist studies
- Chinese
- criminology
- gender and sexuality studies
- geography and society
- history
- Indonesian
- international politics
- international relations
- Islamic studies
- language and culture studies
- Middle East studies
- philosophy
- politics and policy studies
- professional experience and practice
- sociology
- Spanish
- sport and society
- studies of religions
- sustainability and society.

As well as theoretical knowledge, you'll develop your understanding through a substantial research project. Our experienced academics will supervise you as you work on your thesis and engage with wider discourse around your chosen topic.

This course is a wonderful way to interrogate the world. Enjoy the intellectual stimulation and personal fulfilment that comes with deep learning about a subject that's vital to you, while appreciating the supportive, immersive environment Deakin has to offer.

After graduation, Bachelor of Arts (Honours) students are eligible to extend their research experience through masters and doctoral research programs.

## Career opportunities

As a Bachelor of Arts (Honours) graduate, your skills will be in demand in a range of careers, including:

- NGO policy officer
- politician
- museum marketing manager
- art centre manager
- artist agent
- social policy developer
- arts editor
- art director
- philosophy teacher
- archivist
- historic building inspector
- NGO adviser
- public servant
- records officer
- event operations manager
- gallery curator
- public relations manager
- media analyst.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire coherent and advanced knowledge of the underlying principles and concepts in a Humanities or Social Science discipline including Creative and Professional Writing, Children's Literature, Anthropology, Criminology, History, Languages, International Relations, Literary Studies, Middle East Studies, Politics or Sociology.</p> <p>Acquire advanced knowledge of research principles and methods.</p> <p>Apply this knowledge with initiative and judgement in planning and executing a piece of research and scholarship.</p>
Communication	Demonstrate advanced oral, written and electronic communication skills in the clear and coherent communication of research questions, design and outcomes to diverse audiences and in the production of scholarly papers.
Digital literacy	Acquire advanced technical skills in the use of a range of digital technologies to research, analyse, synthesise and disseminate information and resources in a rapidly-changing global environment.
Critical thinking	Employ intellectual independence and advanced theoretical knowledge and cognitive skills to critically analyse, evaluate and apply appropriate theories and methodologies in finding solutions to complex problems.
Problem solving	Apply advanced theoretical knowledge and cognitive and technical skills to review, analyse, identify and apply solutions to complex problems in the Humanities and Social Sciences.
Self-management	Demonstrate autonomy, responsibility, well-developed judgement and adaptability in learning and professional contexts and accountability for personal actions and in undertaking research and in the communication of research outcomes.
Teamwork	Work and learn collaboratively with colleagues, other professionals and members of the wider community.
Global citizenship	Demonstrate an advanced understanding and awareness of ethical issues, cultural diversity, and social responsibility when engaging in scholarship and professional roles in the local, national or international community.

Approved by Faculty Board November 2018

## Course rules

The Bachelor of Arts (Honours) course requires the completion of 8 credit points of study at level 4. Half of that requirement is met through coursework, which may include directed reading and/or enrolment in course work units, and half is satisfied through a research project (thesis or dissertation) of 14,000–16,000 words. Where creative works form a significant part of the assessment, they must be accompanied by an exegesis of at least 6000 words, depending on the discipline area. There are no attendance requirements for Cloud (online) enrolled students, although regular consultation with an appointed thesis supervisor is required. Students are also required to complete AAI018 Academic Integrity (0-credit-point compulsory unit).

## Discipline sequences

Refer to the details of each discipline for availability.

The School of Communication and Creative Arts offers the Bachelor of Arts (Honours) in the following disciplines:

Children's Literature; Literary Studies; and Professional and Creative Writing.

Notes:

(i) *The School of Communication and Creative Arts offers the Bachelor of Arts (Honours) at Burwood (Melbourne) to all students, to Waurn Ponds (Geelong) students and Cloud (online) students subject to agreement with the Honours Co-ordinator.*

(ii) *For disciplines in the creative arts (Animation and Motion Capture, Dance, Drama, Film and Television, Media and Communication, Photography, Visual Arts and Visual Communication Design) please refer to A450 Bachelor of Creative Arts (Honours)*

(iii) *For disciplines in communication (Journalism, Public Relations, Media and Communication) please refer to A451 Bachelor of Communication (Honours)*

The School of Humanities and Social Sciences offers the Bachelor of Arts (Honours) in the following disciplines:

Anthropology, Criminology, History, International Relations, Languages, Middle East Studies, Philosophy, Politics and Sociology.

Notes:

(i) *Anthropology, Criminology, History, International Relations, Languages, Middle East Studies, Politics, Philosophy and Sociology are all offered at Burwood (Melbourne), Waurn Ponds (Geelong) and Cloud (online).*

(ii) *Honours students who commenced prior to 2015 to contact the Faculty Honours Student Advisor in Student Central for enrolment advice.*

(iii) *Students enrolling in Trimester 2 will commence part-time but may convert to full-time study in the following year. Course completion may be 18 months to 2 years.*

### Course overview

Stand out from the crowd with advanced skills and knowledge gained in Deakin’s Bachelor of Arts – Advanced (Honours). You’ll develop high-level critical and systematic thinking skills in your area of interest and apply them through a supervised and supported independent project. You will also gain an imaginative appreciation of the social sciences, humanities and the arts, and skills relevant to employers at a global level.

Want to spend your days deeply immersed in a topic that you’re truly passionate about?

If you’re a high-achieving student, this course allows you to enrol immediately in a four-year honours degree that combines a Bachelor of Arts with an honours year. Learn to investigate, explore and inquire so you can pursue a diverse career, or continue your research through higher degree learning. Our Bachelor of Arts – Advanced (Honours) offers the opportunity to question and examine an area of particular interest to you, through a supervised research project with one of our professional academics. Hone your passion for your given subject and increase your awareness of cultural sensitivity and genuine reciprocity of values.

As a researcher, you’ll learn to think critically about how we find information, identify robust source material, and interpret and write about new ideas. You’ll gain skills relevant to a global market, applying new technology to established research methodology.

When you graduate, you’ll be eligible to apply for higher degrees by research and extend your new awareness through Deakin’s exceptional masters and doctorate programs.

## Career opportunities

As a Bachelor of Arts – Advanced (Honours) graduate, your skills will be in demand in a range of careers, including:

- NGO policy officer
- politician
- museum marketing manager
- art centre manager
- artist agent
- social policy developer
- arts editor
- philosophy teacher
- archivist
- NGO adviser

Approved by Faculty Board June 2016

## Course rules

To qualify for the award of Bachelor of Arts (Years 1 to 3), students must complete 24 credit points as follows:

- two major sequences of at least 8 credit points each. Majors must comprise 2 credit points at level 1 and a minimum of 2 credit points at level 3 (unless otherwise stated).

Or

- one major of at least 8 credit points and one minor of at least 4 credit points consisting of a minimum of 1 credit point at level one and no more than 1 credit point at level 3 \*\*

Plus

- No more than 10 credit points of units at level 1
- A minimum of 4 credit points at level 3.
- Up to a maximum of 8 credit points may be taken from outside the Arts course grouped units.
- AAI018 Academic Integrity (0-credit-point compulsory unit)

\*\* Students completing minors in Arabic, Chinese, Indonesian and Spanish are permitted to complete 4 cp across any 2 levels, i.e. students may complete 2 credit points at level 2 and 2 credit points at level 3

The Honours (4th year) requires the completion of 8 credit points of study from a discipline sequence below. Half of that requirement is met through coursework, which may include directed reading and/or enrolment in course work units, and half is satisfied through a research project (thesis or dissertation) of 14000-16000 words. There are no attendance requirements for Cloud (online) enrolled students, although regular consultation with an appointed thesis supervisor is required.

## Transition to university study

The Faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work, that are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Major sequences

All students enrolled in the Bachelor of Arts are required to complete at least one of the Arts major sequences listed below.

Not all major sequences are available via Campus study at Warrnambool. Students undertaking units in major sequences that are not available in Campus mode at their home campus may enrol in Cloud (online) offerings of those units.

Major and or Minor	Campus	Notes
Anthropology	Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)	
Children's Literature	Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online)	
Criminology	Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)

## Course overview

Take your creative practice to the next level. Explore advanced creative projects and research through a Bachelor of Creative Arts (Honours). You'll build your skills, critical engagement and depth of knowledge, and be treated as an independent practitioner exploring your individual creative practice.

Do you want to find your creative practice in the field and critically engage with the work of your contemporaries?

With a strong interdisciplinary focus, this course enables students from all creative arts disciplines – dance; drama; film, television and animation; photography; design; and visual arts – to learn from each other and develop their creative arts practice and scholarly research skills.

You'll form ongoing relationships with practitioners and peers in your creative areas through industry connections with several professional and government-run creative arts organisations.

With our teachers having worked at places such as Arts Victoria, Associated Press, BBC, Fairfax, Optus, Penguin Books and Samsung, you'll learn from leaders in the field.

Whether you choose to work in industry as an individual practitioner, or within a creative team, this honours program will help you develop as a critically engaged thinker and highly skilled practitioner and researcher.

After graduating, you can further your studies in research or professional practice by applying for direct entry into second year of the Master of Creative Arts by coursework, a Master of Arts by Research, or you could pursue a PhD.

## Career opportunities

A Bachelor of Creative Arts (Honours) will prepare you for any career within the creative arts industry. Explore exciting opportunities relevant to your specialisation in:

- animation
- dance
- design
- drama
- film and television
- photography
- visual arts.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Demonstrate the Knowledge and skills to undertake reflective practice-led research within a creative arts context. This includes:</p> <ul style="list-style-type: none"> <li>• Demonstrated ability to situate the creative self within a history and traditions of a creative discipline and the wider cultural and social context that shapes identity and creative practice.</li> <li>• Analyse and interpret one's own creative output mediated by self-critique integrated into creative process.</li> <li>• Identify the skills and knowledge necessary to undertake creative work making appropriate responses to a specific project.</li> <li>• Evidence and articulate a coherent and systematic engagement with key ideas in relation to contemporary art discourse.</li> </ul>
Communication	<p>Undertake practice-led research which includes the ability to:</p> <ul style="list-style-type: none"> <li>• Understand the relationship of practical creative processes to the discipline specific and interdisciplinary ideas and issues.</li> <li>• To formulate and present oral discussion of artwork, decision-making processes and relevant contemporary ideas in art and culture.</li> <li>• To formulate and present a proposal and written discussions of artworks, decision-making processes and relevant contemporary ideas in art and culture</li> </ul>
Digital literacy	<p>Ability to undertake and oversee documentation of creative work for presentation in digital formats.</p> <p>Understanding of web platforms sufficient to engage with and or produce work for distribution on the web to arts audiences.</p>
Critical thinking	<p>Identify and investigate ideas and issues relevant to art and culture.</p> <p>Evaluate the selection of ideas and issues focused through a creative arts project.</p> <p>Articulate the relationship of creative practice to the ideas and issues identified in the honours level project.</p>
Problem solving	<p>Identify, evaluate and select the methods, techniques and processes to best complete proposed creative arts project.</p> <p>Adjustment to logistics as process unfolds.</p>

Deakin graduate learning outcomes	Course learning outcomes
Self-management	<p>Devise individual creative projects and manage the time and use of resources necessary to complete the project.</p> <p>Communicate with supervisors, technical staff, and any collaborators involved in the production and presentation of creative work relevant to the completion of the project.</p> <p>Devise and implement communication and collaborative working skills required for the production of creative projects outside the scope of individual practice.</p>
Teamwork	<p>Work independently and collaboratively in the Creative and Performing Arts Discipline in response to project demands.</p>
Global citizenship	<p>Identify the relevance of the ideas and issues under investigation in a creative arts project for community and culture.</p> <p>Ability to articulate that relevance in the public presentation of creative work and in written discourse related to the project.</p>

Approved by Faculty Board June 2014

## Course rules

To qualify for the Bachelor of Creative Arts (Honours) students must complete 8 credit points of core units at level 4 and AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Units

ACA401	Advanced Creative Practice A (2 credit points)
ACA402	Advanced Creative Practice B (2 credit points)
ACA403	Creative Arts Research Project (2 credit points)
ACA410	Contemporary Debates in Creative Arts
ACA411	Investigating Creative Methods

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Independent research components are embedded across a number of units.

# Bachelor of Communication (Honours)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Communication (Honours)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year full-time or part-time equivalent
<i>CRICOS course code</i>	083986K
<i>Deakin course code</i>	A451
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

If there's a topic you can't get out of your head, or an idea you're longing to explore, pursue further studies after completing your Bachelor of Communication degree. Study Deakin's Bachelor of Communication (Honours) and open the door to a career in media and communication, or delve deeper into your research with a PhD.

## Career opportunities

Work across a range of industries from public relations, multimedia production and journalism, to advertising and marketing communication.

Deakin graduates find work across various organisations in the following roles:

- advertising art director
- advertising copywriter
- brand manager
- digital marketing or media specialist
- digital media designer
- event operations manager
- illustrator
- journalist
- marketing and communications officer
- media analyst
- media and communications adviser
- public relations manager
- social media coordinator
- tourism officer.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Develop an advanced theoretical and applied understanding of the Australian media system, the role and development of communications policy, and its application in varied professional contexts.</p> <p>Acquire advanced and coherent knowledge of Communication theories and concepts including research, strategy and tactics, contemporary communication methods and ethical communication, and apply this body of knowledge to topics spanning the associated industries including journalism, media and law and in planning and executing a research project</p>
Communication	<p>Acquire advanced communication skills to effectively communicate ideas, arguments and concepts and the outcomes of research and analysis in professional and scholarly contexts.</p> <p>Demonstrate advanced, effective communication skills to communicate ideas, arguments and analyses in written, digital and oral formats that meet academic and practitioner standards to a diverse range of audiences. The importance of written, oral and interpersonal communication will be enhanced through the variety of assessment processes.</p>
Digital literacy	<p>Use advance skills in generic digital communication technologies and specific digital technologies employed in the communications area to investigate, analyse and respond to diverse communication needs and to deliver projects, media products and evaluative presentations to academic and professional audiences.</p> <p>Capacity to employ appropriate digital technologies in utilising effectively sources and forms of information to support, develop and evaluate ideas, proposals, strategies and arguments.</p>
Critical thinking	<p>Critically evaluate and apply theory and knowledge of communications in professional and scholarly contexts. Review, analyse and synthesis literature in communications with intellectual independence. Bring this knowledge and skills to understanding of current issues and controversies in communications.</p> <p>Apply judgment, skills and analytical thinking in developing new understandings in scholarly and professional communications contexts.</p>
Problem solving	<p>Apply advanced knowledge and understanding of communication theory, concepts, and methodologies in identifying and providing solutions to current issues and problems in communications through research and professional practice.</p>

Deakin graduate learning outcomes	Course learning outcomes
Self-management	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skills development in professional and scholarly contexts.
Teamwork	Work and learn collaboratively with students from different disciplines and backgrounds and work effectively in different roles, including professional teams.
Global citizenship	Operate ethically, responsibly and with awareness of diverse social, cultural economic, political contexts in research and as a professional in the communications industry.

Approved by Faculty Board May 2014

## Course rules

To qualify for the award of Bachelor of Communication (Honours) students must complete 8 credit points of core units. These may be completed in a single year of full-time study (4 credit points per Trimester over 2 Trimesters) or part-time equivalent. Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Units

ACO410	Communication Research Methods (2 credit points)
ACO411	Communication Concepts (2 credit points)
ACO412	Advanced Communication Research A
ACO413	Advanced Communication Research B
ACO414	Advanced Communication Research C
ACO415	Advanced Communication Research D

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

## Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Certificate of Indigenous Research

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Indigenous Research
<i>Campus</i>	This course is an exit option only
<i>Duration</i>	0.5 year full-time or part-time equivalent
<i>Deakin course code</i>	A501
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Offered to continuing students only*

## Course overview

Are you interested in a qualification that sets you on a pathway towards a Masters or PhD by Research?

Are you interested in how Indigenous knowledge can reconfigure systems of thought in general? The focus of this course is to equip students with in depth research training specific to Indigenous knowledge systems.

The units of this course center on:

- Indigenous standpoint theories and cultural relationality
- Traditional and non-traditional research methodologies and ways of knowing
- Designing and implementing Indigenous research The four core subjects will provide a solid foundation in Indigenous Research theories, practices and interdisciplinary skills across diverse areas.

## Career opportunities

This course provides culturally appropriate Indigenous research training which equips you with the necessary knowledge to work alongside researchers in educational, government or private institutions. As a pathway towards a higher degree opportunities are open to research and academic roles in universities.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the Graduate Certificate of Indigenous Research, a student must successfully complete 4 credit points of units. Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

- IND721 Standpoint Theory in Indigenous Research
- IND722 Indigenous Research: Ways of Valuing and Being
- IND723 Indigenous Research: Ways of Knowing and Doing

and either:

- IND724 Indigenous Knowledge Modalities in Research
- or
- IND725 Theories and Debates in Indigenous Knowledges: Sites of Struggle

# Graduate Certificate of Development and Humanitarian Action

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Development and Humanitarian Action
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>

<i>Duration</i>	1 year part-time
<i>Deakin course code</i>	A505
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Offered to continuing students only*

## Course overview

Natural disasters, poverty, injustice, conflict. All around the world, the environment in which development and humanitarian workers find themselves is more complex and diverse than ever.

This course – developed in association with Save the Children – builds a unique, global platform where development & humanitarian practitioners and academics can share knowledge and experience, with a focus on improving leadership, preparedness and response capacities to national and international emergencies and developmental issues.

Deakin’s Graduate Certificate of Development and Humanitarian Action provides you with the analytical skills needed to understand the contexts of development and humanitarian programs as well as practical skills to apply in the field.

## Career opportunities

Students completing this course will be able to work in the development and humanitarian sector. This includes working for both international based non-governmental organisations as well as local community based organisations, national and provincial government departments, donors and multi-lateral organisations.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin’s website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire advanced and integrated understanding of development and humanitarian action and expert cognitive skills in the synthesis, and application of theory and practice in development and humanitarian action within diverse disciplinary contexts and worldviews.
Communication	Apply oral, written and interpersonal communication to plan, inform, and debate complex multi-disciplinary and multi-sectoral issues for improved social, environmental and economic outcomes to a wide range of audiences, and contexts.
Digital literacy	Demonstrate the ability to research, analyse, report and communicate complex information via the employment of a range of sector-specialised and generic technological modes to a wide variety of audiences including development, humanitarian, professional and scholarly communities.
Critical thinking	Investigate, critically analyse, synthesise and report on issues facing contemporary development and humanitarian scenarios in light of established concepts and practice and design and develop interventions, solutions and strategies to address them.
Problem solving	Demonstrate initiative, creativity and intellectual rigor in researching, identifying, planning, implementing, managing people and processes and evaluating proposed innovative responses to complex situations and problems encountered in a range of development and humanitarian emergencies, locally and globally.
Self-management	Plan, organise and perform as an independent and reflective practitioner in the field as well as in the sector generally, demonstrating a commitment to continuing professional development, scholarly research and professional contribution.
Global citizenship	Question, engage, provoke and innovate to ensure social justice, reduce poverty, promote environmental sustainability, and increase equality in personal and professional capacity to ensure environments conducive to achieving creative and fulfilling lives.

Approved by Faculty Board October 2016

## Course rules

To qualify for the award of Graduate Certificate of Development and Humanitarian Action, a student must successfully complete 4 credit points of study as listed below.

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

Each unit below is delivered via the FutureLearn platform and takes approximately 10 weeks to complete.

These units are broken down into easily-manageable two-week blocks, allowing you the freedom to fit learning around your work, family and lifestyle.

- ADH700 Introduction to International and Community Development
- ADH701 The Humanitarian World
- ADH716 Humanitarian Settlement
- ADH717 Sustainability and Development

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Certificate of Museum Studies

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Museum Studies
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year part time
<i>Deakin course code</i>	A529
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Learn the skills and knowledge to kick-start your career working in a museum.

Whether you want to work with objects and collections, manage a museum or heritage building, or protect and interpret significant sites, undertaking museum studies provides a pathway into this diverse and exciting sector.

Today's museums are evolving. They're designed to be much more accessible and, as such, are attracting more diverse audiences every day. Innovation and new technologies are pushing the modern museum to think outside the box and to engage with audiences in new ways.

This course aims to produce graduates who are independent, innovative, and creative thinkers who can competently undertake a range of tasks relevant to a career in museum work.

## Career opportunities

Graduates may find employment as practitioners in museums, heritage institutions, government agencies, private corporations, community organisations and in private practice. Typical job titles include: curator, heritage officer, collections manager, registrar, public programs officer, researcher and project officer.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Understand, investigate and evaluate conceptual and practical approaches to the identification, conservation, interpretation, management and use of museum objects.
Communication	Effectively communicate key theoretical and practical concerns in museum studies using oral, written, digital formats to specialist and non-specialist audiences.
Digital literacy	Use a range of digital technologies and information sources relevant to the museum context to discover, select, analyse, employ, evaluate, and disseminate both technical and non-technical information.
Critical thinking	Critically analyse key concepts in the identification, conservation, interpretation, management and employ this knowledge in the museum context using objects and collections to show how these can be utilized in a variety of different situations.
Problem solving	Apply advanced theoretical and knowledge and technical skills in the identification, conservation, interpretation, management and use of objects and collections in the museum context and develop solutions to real-world and ill-defined problems or issues in professional contexts.
Self-management	Demonstrate a high level of professionalism, consistently applying professional museum standards with a high level of responsibility and accountability to colleagues and relevant stakeholders and a consistent commitment to continual professional development.
Teamwork	Work effectively and collaboratively, demonstrating advanced level of responsibility and accountability in different roles in the museum context
Global citizenship	Analyse and address museum-related issues in the domestic, regional and global context as a critically reflexive reflective practitioner, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and the application of the highest ethical standards.

*Approved by Faculty Board 2015*

## Course rules

To qualify for the award of Graduate Certificate of Museum Studies, a student must successfully complete 4 credit points of study comprising:

- 4 credit points of compulsory core units
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

AIM722	Collections and Curatorship
AIM723	Heritage Interpretation
AIM734	Understanding Significance
AIM736	Museums, Heritage and Society

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Certificate of Writing and Literature

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Writing and Literature
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	0.5 year full time or equivalent
<i>Deakin course code</i>	A535
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Certificate of Writing and Literature is designed to balance critical and theoretical understandings with practical skills development in reading and writing. By providing a cross-disciplinary suite of units, the Graduate Certificate of Writing and Literature provides students with the opportunity to draw on the extensive range of knowledge available across the specialisations.

The Graduate Certificate of Writing and Literature offers a cross-disciplinary foundation in Writing and Literature. Students have the opportunity to choose from an extensive range of units across specialisations in Children's Literature, Creative Writing, Literary Studies and Professional Writing. The course provides specialised knowledge of critical and creative practices and ways of understanding writing, reading and preparing texts for publication as a cross-disciplinary activity. The course is designed for people with professional or personal interests in writing and literature who are seeking further professional qualifications while working.

## Career opportunities

The courses are designed for professionals working in fields requiring high-level analytical and writing skills, such as teaching, the public service and fields related to the publishing industry where flexibility and multi-skilling enhance employment opportunities.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire specialised knowledge of various aspects of writing and literature in particular the interplay between the study of literature and the production of effective creative and professional writing and specialised skills.  Apply this knowledge through independent critical thinking, sophisticated practice, and the ability to communicate your ideas more effectively.
Communication	Communicate through writing that is technically proficient and demonstrates awareness of, or ability to extend, established writing conventions to produce works that communicate complex ideas effectively using suitable written forms and specialised techniques.
Digital literacy	Employ a range of generic and specialised industry digital technologies for the research, production and presentation of texts, including technologies for the innovative generation or dissemination of complex ideas and works, or those required in various specialised professional contexts.
Critical thinking	Demonstrate specialised competencies in the production of texts and discourses informed by rigorous research, close reading, critical thinking and analysis, and by selecting and applying the appropriate writing forms and conventions to provide solutions to complex problems or specialised writing briefs.
Problem solving	Analyse and respond to editorial or publishing briefs or opportunities by employing specialised creative and professional writing or communication strategies to identify, solve or reframe complex aesthetic, theoretical or real-world challenges and limitations.
Self-management	Demonstrate personal and professional responsibility for learning through autonomy, accountability and a continued commitment to specialised learning and skill development, as a reflective practitioner in professional scholarly and other contexts
Teamwork	Actively participate in and make constructive contributions to processes of creative and critical collaboration within or across disciplines, sharing of peer feedback in writing workshops and online forums, and demonstrate professional and ethical negotiation with collaborators and colleagues.
Global citizenship	Demonstrate ethical global citizenship and awareness of cultural diversity and social responsibility when engaging in scholarship and in professional roles and community collaborations.

Approved by Faculty Board June 2014

## Course rules

To qualify for the award of Graduate Certificate of Writing and Literature, students must successfully complete 4 credit points of study comprised of: 2 credit points of core units; 1 credit point of Writing units; 1 credit point of Literature units, AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

### Core units

- ALL743 Foundations in Narrative Theory
- ALW740 Foundations in Professional and Creative Writing

### Writing units

- ACA715 Creative Enterprise Project
- ALC708 Blogging and Online Communication Techniques
- ALJ728 Feature Writing
- ALW730 Creative Nonfiction: the Personal Essay
- ALW732 Fiction Writing: Story, Structure and Starting Out
- ALW734 Script Writing
- ALW736 Experiments in Writing
- ALW738 Editing
- ALW739 Publishing

### Literature units

- ALL701 Retelling Myths and Tales: Classic to Contemporary
- ALL702 Criticism of Literature for Children: A Variety of Approaches
- ALL705 Vision and Revision: Short Stories Now
- ALL706 Historical Fiction
- ALL708 The Picture Book: Reading and Writing
- ALL721 Writing Fiction for Young Adults
- ALL722 Texts for Young Adults
- ALL727 Sex, the Body, and American Poetry
- ALL784 Writing and Film

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

There will be opportunities throughout the course for students to engage with industry professionals. These experiences will be integrated into units where students will have external clients or industry representatives provide content to more closely connect the learning experience with industry practices.

# Graduate Certificate of Communication

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Communication
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	0.5 year full-time or part-time equivalent
<i>CRICOS course code</i>	083989G
<i>Deakin course code</i>	A539
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8

## Course overview

The Graduate Certificate of Communication provides students with an opportunity to acquire specialist knowledge and expand their skills in the ever-changing communications and media industries.

Communications and media are among the world's fastest-growing industries and are subject to rapid and continuous technological, political, economic and social change. You can choose from a wide range of units in Public Relations, Journalism, Digital Media, Television Production and Visual Communication Design to gain distinctive interdisciplinary and cross-disciplinary perspectives on these industries, taught by those expert and experienced in the field.

Following successful completion of the Graduate Certificate of Communication, you may choose to apply for credit to continue your studies in Deakin's Master of Communication.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire specialist knowledge and skills in professional communication.  Demonstrate specialist knowledge of and skills in the application of contemporary communication methods in professional and scholarly contexts.
Communication	Use specialist cognitive and technical skills in communicating ideas, problems and arguments in a variety of modes across a range of professional communication contexts.
Digital literacy	Acquire specialist skills in generic and specific digital technologies used to address a range of communication needs in professional contexts and for diverse audiences within and outside the communications industries.
Critical thinking	Acquire advanced cognitive skills in the analysis and critical evaluation of communications theory and its application in professional practice and scholarship.  Demonstrate the ability to critically evaluate complex ideas, develop appropriate methodologies and communicate conclusions in professional communication and scholarly contexts.
Problem solving	Use specialist cognitive skills in communications to identify, investigate, analyse and synthesise complex information, problems and concepts and develop creative solutions in professional practice and scholarly contexts.
Self-management	Employ autonomy, accountability and initiative in responding creatively to new situations in professional contexts.
Teamwork	Demonstrate initiative and accountability in working and learning collaboratively in professional communications practice and scholarly contexts.
Global citizenship	Acquire specialist understanding of and the ability to reflect on issues in communications in both domestic and global contexts, as a scholar and in professional practice, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and the application of the highest ethical standards.

*Approved by Faculty Board November 2017*

## Course rules

To qualify for the award of Graduate Certificate of Communication, students must complete:

- 4 credit points in Communication from the units listed below plus
- AAI018 Academic Integrity (0-credit-point compulsory unit)

Students are strongly encouraged to look at specific concentrations and patterns of unit choice that develop their professional communication skills and should seek advice to create the best combination available to them to achieve their specific course learning outcomes. Students using the certificate as a pathway into the Master of Communication are strongly advised to complete ACX701 Communication Concepts as two of their 4 credit points; students using the certificate to seek entry into a specialised diploma should take all four units from a single sub-field to enable credit for those units to be granted towards the diploma.

## Course structure

### Units

ACC717	Law, Media and Communication
ACG702	Digital Publishing
ACG703	Design and Digital Skills
ACG706	Designing for Web Environments
ACG708	Design Thinking and Problem solving
ACG709	Strategic Branding and Design
ACF700	Writing with the Camera
ACF701	Television Studio Production
ACF702	Television Commercial Production
ACF703	Fractured TV: Audiences, Formats, Technology and Regulation
ACF704	Talking Heads: Personality and Persona On Screen
ACF705	Documentary Production Practice

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Certificate of Humanitarian Leadership

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Humanitarian Leadership
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Cloud Campus with some located learning requirements
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year part-time
<i>Deakin course code</i>	A540
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*This course is facilitated by the Centre for Humanitarian Leadership (CHL), Deakin University.*

## Course overview

The Graduate Certificate of Humanitarian Leadership is a uniquely intensive and challenging accredited leadership course designed for all actors involved in emergency and humanitarian responses.

Students will examine the leadership and strategic issues faced by local, national and international leaders and managers in the aid system. It helps students to critically reflect on the principles and values that underpin any humanitarian operations and explores the leadership behaviours aid workers should demonstrate to affected communities, to their teams, their organisation, and their partner agencies

## Career opportunities

Designed for all actors involved in emergency and humanitarian responses, this course will transform the leadership offered by humanitarians and emergency responders and their organisations.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

The GCHL includes two intensive residential units, one held in Melbourne, Burwood Campus and the second in Semarang, Indonesia. All students are required to participate in and successfully pass these residential units in order to complete the course.

Students find these face-to-face units very fulfilling as the content of the learning becomes more personal and relationships are forged with other students and faculty.

Students should be aware that these units are very intense and challenging in nature, similar to that of a first phase emergency response. They are not the usual university classroom practices but rather intensive experiential learning.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply specialised knowledge of the historical development of the humanitarian sector and relate this knowledge to the current humanitarian context through analysing current and future sector-wide trends and applying learning, best practice in leadership, sector standards and strategies to a range of complex national and international situations.
Communication	Effectively communicate the theories and practices of leadership in operational contexts of complex humanitarian emergencies, and influence and engage a diverse variety of stakeholders to effect change.
Digital literacy	Demonstrate specialised skills to select and apply sector-specialised as well as generic digital communication technologies to conduct and critically analyse research, communicate findings and other information and build relationships to engage a diverse group of stakeholders.
Critical thinking	Review and critically analyse current local physical and political and aid environments, synthesise knowledge from a variety of stakeholders and critically reflect on current and future humanitarian trends, to propose solutions and prioritise actions in relation to complex humanitarian dilemmas.
Problem solving	Use creative and critical thinking, high level professional judgement and leadership skills to identify resources, to engage stakeholders, and to plan, implement, manage and evaluate a range of solutions and responses to complex problems and dilemmas encountered in humanitarian operations.
Self-management	Demonstrate advanced leadership behaviours through independent and reflective learning, commitment to continuing professional development, response to feedback and critical reflection on their own behaviour and its impact on others; demonstrate accountability and responsibility for personal actions and outputs as leaders in complex humanitarian emergencies.
Teamwork	Operate as a proactive and constructive team member and leader working with key stakeholders in multi-skilled, multicultural and inter-agency response teams, to positively influence the team dynamic.
Global citizenship	Demonstrate the ability to apply humanitarian principles and values, and actively engage in humanitarian operations across a variety of contexts and communities, including local, national and international, taking into consideration cultural, social, political, economic, environmental and ethical issues.

*Approved by Faculty Board November 2018*

## Course rules

To qualify for the award of Graduate Certificate of Humanitarian Leadership, a student must successfully complete 4 credit points of study as listed below.

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

Complete 4 units in:

- AHL701 The Humanitarian World
- AHL702 Developing Humanitarian Leadership
- AHL703 Leadership in Humanitarian Operations
- AHL704 Demonstrating Strategic Leadership in Humanitarian Contexts

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing placements.

# Graduate Certificate of Creative Arts

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Creative Arts
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	0.5 year full-time or part-time equivalent
<i>CRICOS course code</i>	083983B
<i>Deakin course code</i>	A559
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Disciplines

- Burwood (Melbourne) – Animation & Motion Capture, Dance, Drama, Film & TV, Photography, Visual Communication Design and Visual Arts
- Waterfront (Geelong) – Photography & Visual Arts

## Course overview

Study a Graduate Certificate of Creative Arts and develop your creative practice in one of the seven disciplines offered at Deakin. Develop your knowledge and skills in creative arts research in relation to your creative practice. Find out more about the course online and apply today.

The Graduate Certificate of Creative Arts provides students with advanced academic and professional skills in creative arts. The course enables students to understand and explore the social, political and cultural contexts and history of ideas that inform contemporary approaches to the creative arts.

The Graduate Certificate of Creative Arts is available in any of the disciplines of the Creative Arts: Visual Arts, Photography, Film and Television, Animation, Design, Dance or Drama.

## Career opportunities

Graduates of the Graduate Certificate of Creative Arts, will possess advanced or expert knowledge and skills to work in a range of industry contexts spanning the Creative Arts within diverse organisations (non-profit through to corporate). Graduates will be able to undertake many roles which may be categorised from entrepreneurial, consulting, curatorial, through to art production within organisations such as museums and galleries, government (federal, state and local), and boutique arts companies. There are also many opportunities to be found in festivals, curatorial and community projects typically funded or auspiced by government and philanthropic entities. Organisations are looking for graduates who have knowledge and skills developed in a learning environment enhanced by contemporary and up-to-date production facilities, equipment and spaces (which Deakin provides). Graduates will also be well equipped to undertake independent artist careers.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply and extend specialist knowledge and technical and creative skills in creative arts practice in one or more disciplines or areas of creative arts including drama, dance, photography, visual arts, animation, film and television and design.
Communication	Use specialist creative arts technologies and skills to communicate complex ideas to a range of audiences in academic and non-academic contexts.  Harness specialist creative arts technologies, skills and discourse to communicate complex ideas to a range of audiences in academic and non-academic contexts.
Digital literacy	Draw on, analyse and assess digital technologies to produce, document, present and publish in the creative arts.
Critical thinking	Evaluate, interpret and synthesise complex ideas within creative arts drawing on discourse and practice.
Problem solving	Address theoretical and methodological challenges in the creation of work that is discursive and reflective and engages in creative decision-making processes within the relevant field.
Self-management	Develop systematic and episodic reflective approaches to creative work practices.
Teamwork	Apply advanced interpersonal and communication skills to participate effectively in the critical culture of production, completion and presentation of creative arts projects.
Global citizenship	Establish ethical approaches that interrogate the value of art and performance in diverse communities and cultures and transfer creative practice outcomes into real world contexts.

*Approved by Faculty Board November 2018*

## Course rules

To qualify for the award of Graduate Certificate of Creative Arts, a student must successfully complete 1 core unit and 3 electives from within the Master of Creative Arts, Master of Communication or Master of Arts (Writing and Literature).

- 1 credit point course work unit (ACA710 or ACA712)
- 3 credit point of electives chosen from within the Master of Creative Arts, Master of Communication or Master of Arts (Writing and Literature)
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core unit

Select one unit from:

- ACA710 Contemporary Debates in the Creative Arts
- or
- ACA712 Transgressive Acts in Cinema, Art, Performance

### Electives

Choose 3 credit points of electives from within the Master of Creative Arts, Master of Communication or Master of Arts (Writing and Literature)

Other units that may be counted as electives are:

- ECP711 Creativity and the Arts in Childhood
- MMK792 Arts Marketing
- MMM790 Arts Management
- ADS720 Arts and Sports-based Approaches to Community Development
- ACI700 Introduction to Digital Photography
- ALC708 Blogging and Online Communication Techniques
- ACF700 Writing with the Camera
- ACG708 Design Thinking and Problem solving
- ACF705 Documentary Production Practice
- ALW734 Script Writing
- ACA715 Creative Enterprise Project

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Certificate of Land and Sea Country Management

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Land and Sea Country Management
<i>Campus</i>	This course is an exit option only
<i>Duration</i>	1 year part time
<i>Deakin course code</i>	A560
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Note: This course is available through the Institute of Koorie Education. Students undertake intensive blocks of study under community based delivery. Please refer to the Institute of Koorie Education website.*

## Course overview

The Graduate Certificate and Graduate Diploma of Land and Sea Country Management provide specialist skills for Aboriginal and Torres Strait Islander students involved in the areas of land management facilitation, caring for country, environmental management, waste and water management, cultural heritage interpretation and protection, sustainability, project management and education. A key focus of the course is the exploration and convergence of Western Knowledge Systems and the application of Aboriginal and Torres Strait Islander Knowledge Systems that are currently building more a collaborative approach to the protection of both natural and cultural environments in Australia.

Units in the course may include assessment hurdle requirements.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities: appropriate to the level of study related to a discipline or profession.	<p>Articulate Aboriginal and Torres Strait Islander cultural knowledge and its underlying custodial ethic in the context of contemporary natural and cultural resource management.</p> <p>Apply Aboriginal and Torres Strait Islander perspectives and use the principles of project planning, management and implementation to contribute, realise and protect cultural heritage and the environment.</p>
Communication: using oral, written and interpersonal communication to inform, motivate and effect change.	Apply Aboriginal and Torres Strait Islander knowledge of cultural perspectives to communicate with a variety of audiences and engage in a community-based approach to contribute to and influence Western government policy designs and managerial practice.
Digital literacy: using technologies to find, use and disseminate information.	Apply knowledge of relevant technical tools and methodologies to locate, collect, analyse, interpret and synthesise complex information regarding natural and cultural landscapes.

Deakin graduate learning outcomes	Course learning outcomes
Critical thinking: evaluating information using critical and analytical thinking and judgment.	Critically analyse contemporary natural and cultural resource management governance frameworks and evaluate practices in order to include Aboriginal and Torres Strait islander perspectives to mitigate negative outcomes for natural and cultural heritage and resource environments.
Problem solving: creating solutions to authentic (real world and ill-defined) problems.	Facilitate dialogue, consult with community Elders, government and non-government agencies and research institutions to identify possible approaches to managing natural and cultural resources.
Self-management: working and learning independently, and taking responsibility for personal actions.	Demonstrate the ability to initiate projects and work independently and collaboratively to plan, manage, respond to and realise the management of natural and cultural resources.
Teamwork: working and learning with others from different disciplines and backgrounds.	Not Applicable
Global citizenship: engaging ethically and productively in the professional context and with diverse communities and cultures in a global context.	Not Applicable

Approved by Faculty Board 14 July 2016

## Course rules

The course comprises four units, each worth 1 credit point. Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

- IND710 Interpreting Cultural Landscapes
- IND711 Exploring Collaborative Land Management

Plus 2 units from the list below:

- IND712 Policy and Governance for Environmental Management
- IND713 New Media and the Environment
- IND714 Strategic Planning and Project Management for Country
- IND715 Research and Communication for Country
- IND716 Professional Practice for Land Management
- IND717 Facilitation and Engagement for Natural and Cultural Resources Management

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Certificate of International and Community Development

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of International and Community Development
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>

<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Good development promotes justice, reduces poverty, and builds environments for people to lead productive, creative, and fulfilling lives.

Development programs and project work for poverty reduction are major areas of professional employment. At Deakin, you'll be introduced to issues in international and community development and develop a balance of theoretical knowledge and practical skills that will allow you to undertake projects benefitting the communities in which you work.

You'll learn from leading international and community development practitioners and researchers with extensive knowledge and links within the field.

This course offers a guaranteed pathway into the Master of International and Community Development if you are hoping to progress your studies at Deakin further.

## Career opportunities

Employment in the development field provides a wide range of opportunities, both internationally and domestically. Graduates may find employment across the variety of organisations who work for social justice, empowerment, poverty alleviation, and community development. These include civil society organisations such as Non Government Organisations, Government agencies, bilateral, and multilateral agencies, as well as the private sector consulting. There is also potential work opportunities in related areas including teaching, the travel industry, consulting enterprises, journalism, and government and non-government agencies concerned with the flow of trade, services, capital and personnel.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Investigate, comprehend and apply specialised and critical understanding of the theory and practice of international and community development and the contribution of diverse disciplinary worldviews.
Communication	Apply advanced oral, written and interpersonal communication to plan, inform, and debate, complex multidisciplinary and multi-sectoral issues for improved social, environmental and economic outcomes to a range of audiences.
Digital literacy	Use advanced knowledge of digital information sources and applications to source, apply, analyse and report on complex data and information for effective research and professional development, across interpersonal, organisational and professional cultures.
Critical thinking	Research, critically analyse, report and act on global and local issues and opportunities in historical and contemporary development discourse
Problem solving	Comprehend, interpret and evaluate competing options for solving complex or “wicked” problems with creativity, innovation and respect.
Self-management	Demonstrate autonomy, responsibility, respect and accountability and a continued commitment reflective practice and ongoing learning in diverse international and community development contexts.
Teamwork	Contribute to effective collaboration, participation and achievement of mutually agreed upon team outcomes through active, engaged, respectful and self-reflective participation in research and practice, across practice, cultures and disciplines.
Global citizenship	Question, engage and examine a range of social justice, environmental, and development issues taking into consideration indigenous, local and global contexts.

*Approved by Faculty Board November 2018*

<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Good humanitarian action is intended to save lives, alleviate suffering and maintain human dignity before and after disasters and conflict. This is informed by principles of Humanity; Impartiality; Neutrality and Independence.

Effective humanitarianism involves quality preparedness and delivery of aid, working with affected communities and populations, their representatives and other stakeholders, to ensure their identified needs are met. Increasing complexity of humanitarian contexts requires an agile approach focussed on locally led action where possible and global engagement where required. Studying at Deakin will provide you with an introduction to the skills, knowledge, understanding and capability to be an effective worker in this dynamic and evolving system.

## Career opportunities

The Graduate Certificate of Humanitarian Assistance will improve your understanding of the humanitarian system and provide an opportunity for potential employment in the humanitarian system. Employment in the humanitarian field is expanding, including in related areas, such as teaching, training, organisation and community capacity building, disaster risk reduction assessment and programming, consulting enterprises, journalism and communications, project management and community development. Opportunities are available in government and non-government agencies concerned with the provision of all aspects of emergency and humanitarian action including service provision, logistical support, communications, program management and support, community engagement and support, funding, coordination, monitoring and evaluation.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply specialised knowledge of the historical development of humanitarianism and relate this knowledge to the humanitarian contexts, through analysing current and future sector-wide trends and applying learning, sector standards and strategies to a range of complex national and international situations.
Communication	Communicate the theories and practices of humanitarian action and influence and engage a diverse variety of stakeholders to effect change.
Digital literacy	Select and apply communication technologies to conduct and critically analyse research, communicate findings and other information and build relationships to engage a diverse group of stakeholders.
Critical thinking	Review and critically analyse current local and political aid environments, synthesise knowledge from a variety of stakeholders and critically reflect on current and future humanitarian trends to propose solutions and prioritise actions.
Problem solving	Use creative and critical thinking and high level professional judgement to identify resources, to engage stakeholders, and to plan and evaluate a range of solutions and responses to complex humanitarian problems.
Self-management	Engage in critical self-reflection through independent learning, commitment to continuing professional development and through receiving feedback.
Teamwork	Not explicitly assessed
Global citizenship	Apply humanitarian principles and values, and actively engage in humanitarian operations across a variety of contexts taking into consideration cultural, social, political, economic, environmental and ethical issues.

Approved by Faculty Board October 2018

## Course rules

To qualify for the award of Graduate Certificate of Humanitarian Assistance, a student must successfully complete 4 credit points of study comprising:

- 2 credit points of core units
- Any 2 credit points of 4 identified humanitarian elective units
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

Core units plus electives

AHL701 The Humanitarian World  
AHA716 Humanitarian Settlement\*

And

2 credit points of identified humanitarian electives from the following units:

AHA723 Fundamentals of Humanitarian Management  
ADH703 Evidence and Decision Making in Humanitarian Action  
AHA725 Project and Financial Management in Humanitarian Contexts  
AIR726 Human Rights in World Politics

\* Note this is a campus based unit, for cloud based delivery (FutureLearn) ADH716 is available as an alternate unit. FutureLearn is an online learning platform. Visit Deakin's website to learn more about studying through FutureLearn.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Certificate of Cultural Heritage

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Cultural Heritage
<i>Duration</i>	0.5 year full-time or part-time equivalent
<i>Deakin course code</i>	A585
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*This is an exit only course from the Master of Cultural Heritage or the Graduate Diploma of Cultural Heritage.*

## Course overview

The Graduate Certificate of Cultural Heritage is designed for professionals working in the heritage industry, or those who wish to gain employment in the heritage industry. This program of coursework will develop an extensive, cross-disciplinary knowledge of heritage principles and practice across a range of disciplines, as well as an awareness of community sensitivities. Successful completion of the Graduate Certificate of Cultural Heritage will lead you to entry to the Graduate Diploma of Cultural Heritage.

## Course rules

To exit from the Master of Cultural Heritage or the Graduate Diploma of Cultural Heritage with an award of Graduate Certificate of Cultural Heritage a student must have successfully completed 4 credit points of Cultural Heritage and Museum Studies coursework units including:

2 credit points of compulsory core units below:

- AIM723 Heritage Interpretation
- AIM734 Understanding Significance

AND 2 credit points from the specified list of units below:

- AIM703 Introduction to Heritage Planning
- AIM704 Heritage, Development and Tourism in the Asia-Pacific Region
- AIM705 Conservation Management Planning
- AIM708 World Heritage and International Heritage Practice
- AIM709 Intangible Heritage
- AIM714 Cultural Landscapes
- AIM715 Virtual Heritage
- AIM717 Heritage in the Field
- AIM722 Collections and Curatorship
- AIM727 Exhibitions
- AIM733 Applied Heritage Project
- AIM735 Leadership in Museums and Heritage Organisations
- AIM736 Museums, Heritage and Society

AND if commencing after 2018:

Student must also pass AAI018 Academic Integrity (0-credit-point compulsory unit)

# Graduate Certificate of Humanitarian Health

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Humanitarian Health
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year part-time
<i>Deakin course code</i>	A590
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Certificate in Humanitarian Health aims to prepare students as they prepare for deployments in the humanitarian sector. Students will develop their existing knowledge and skills in how to manage the public and clinical health issues that arise in complex humanitarian environments, such as conflicts and natural disasters.

Students will gain an understanding of the history of humanitarian sector and the underlying humanitarian principles and values and complex ethical issues in practice; the humanitarian actors and changes in the humanitarian system. Students will explore the humanitarian programme cycle and how health program management applies to this cycle. Addressing specific public and clinical health issues for particular vulnerable groups in humanitarian crises will be explored.

## Career opportunities

The course will respond to a limited number of university accredited postgraduate courses in humanitarian health domestically and internationally. The course will build on the professional training and experience of students to provide more in-depth education and analytical focus for those who have experience or wish to gain employment in the humanitarian sector through attaining a qualification in humanitarian health.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate specialised knowledge of the historical and current context and issues of the humanitarian sector and relate this knowledge to emergent public health issues in humanitarian crises.
Communication	Apply advanced communication skills to analyse, plan implement and evaluate interventions that address identified health needs in complex humanitarian crises to a range of stakeholders in the sector.
Digital literacy	Select relevant digital technologies to research, critically analyse, evaluate and communicate current research, evidence based practice and other information to diverse audiences regarding health issues in humanitarian crises.
Critical thinking	Critically analyse and interpret contextual information relating to health needs to plan, prioritise and evaluate health programs in complex humanitarian crises.
Problem solving	Critically analyse available information on a range of complex health needs to generate solutions to prevent disease and injury and protect health whilst considering context constraints and stakeholders needs in humanitarian crises.
Self-management	Demonstrate autonomy, responsibility and accountability through continued commitment to learning, reflective practice and professional development to lifelong learning in humanitarian health.
Teamwork	Collaborate with diverse teams members to effectively plan, implement and manage health programs as part of a multisectoral response to humanitarian crises.
Global citizenship	Evidence cultural competence in planning and developing equitable access to health services and interventions in multisectoral humanitarian contexts.

Approved by Faculty Board February 2018

## Course rules

To qualify for the award of Graduate Certificate of Humanitarian Health, a student must successfully complete 4 credit points of study as listed below and AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

Complete 2 units in:

- AHL701 The Humanitarian World
- AHL705 Management of Humanitarian Health Programs

Plus Complete 2 units selected from the following:

- HNN772 Healthcare in Low Resource/Complex Environments
- HNN773 Healthcare Management of Vulnerable Populations
- HSH744 Epidemiology 1
- HSH701 Principles and Practice of Public Health

## Work experience

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Diploma of Indigenous Research

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Indigenous Research
<i>Campus</i>	Offered at Waurin Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A601
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Are you interested in a qualification that is a pathway to a Masters or PhD by Research?

Are you interested in how Indigenous knowledge can reconfigure systems of thought in general?

The focus of this course is to equip students with in depth research training specific to Indigenous knowledge systems. The units of this course centre on:

- Indigenous research methodologies and ways of knowing
- Designing Indigenous research
- Investigating debates in your discipline area

All these culminate in a comprehensive thesis that build research capabilities and capacity. This unique research qualification is delivered by Indigenous academic staff with interdisciplinary skills across diverse areas.

## Career opportunities

This course provides students with comprehensive research training which equips you with the necessary skills and knowledge to work in a researcher role in educational, government or private institutions. As a pathway to Higher Degree by Research programs, opportunities are open to research and academic roles in universities.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Alternative exits

A501.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the Graduate Diploma of Indigenous Research, a student must successfully complete 8 credit points of units comprising of 6 core units and 2 research units. Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

IND721	Standpoint Theory in Indigenous Research
IND722	Indigenous Research: Ways of Valuing and Being
IND723	Indigenous Research: Ways of Knowing and Doing
IND724	Indigenous Knowledge Modalities in Research
IND725	Theories and Debates in Indigenous Knowledges: Sites of Struggle
IND726	Designing An Indigenous Research Project
IND727	Research Project A
IND728	Research Project B

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Diploma of Sustainable Development and Humanitarian Action

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Sustainable Development and Humanitarian Action
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A605
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*This course is an exit option only from A705 Master of Development and Humanitarian Action.*

## Course overview

Natural disasters, poverty, injustice, conflict. All around the world, the environment in which development and humanitarian workers find themselves is more complex and diverse than ever.

This course – developed in association with Save the Children – builds a unique, global platform where development & humanitarian practitioners and academics can share knowledge and experience, with a focus on improving leadership, preparedness and response capacities to national and international emergencies and developmental issues.

Deakin's Graduate Diploma of Sustainable Development and Humanitarian Action provides you with the analytical skills needed to understand the contexts of sustainable development and humanitarian programs as well as practical skills to apply in the field.

## Career opportunities

Students completing this course will be able to work in the development and humanitarian sector. This includes working for both international based non-governmental organisations as well as local community based organisations, national and provincial government departments, donors and multi-lateral organisations.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire advanced and integrated understanding of sustainable development and humanitarian action and expert cognitive skills in the synthesis, and application of theory and practice in sustainable development and humanitarian action within diverse disciplinary contexts and worldviews.
Communication	Apply oral, written and interpersonal communication to plan, inform, and debate complex multi-disciplinary and multi-sectoral issues for improved social, environmental and economic outcomes to a wide range of audiences, and contexts.
Digital literacy	Demonstrate the ability to research, analyse, report and communicate complex information via the employment of a range of sector-specialised and generic technological modes to a wide variety of audiences including sustainable development, humanitarian, professional and scholarly communities.
Critical thinking	Investigate, critically analyse, synthesise and report on issues facing contemporary sustainable development and humanitarian scenarios in light of established concepts and practice and design and develop interventions, solutions and strategies to address them.
Problem solving	Demonstrate initiative, creativity and intellectual rigor in researching, identifying, planning, implementing, managing people and processes and evaluating proposed innovative responses to complex situations and problems encountered in a range of sustainable development and humanitarian emergencies, locally and globally.
Self-management	Plan, organise and perform as an independent and reflective practitioner in the field as well as in the sector generally, demonstrating a commitment to continuing professional sustainable development, scholarly research and professional contribution.
Teamwork	Contribute to effective global and local collaboration, participation and achievement of mutually understood outcomes through sensitive, self-reflective and active engagement with research and practice, across cultures and disciplines.
Global citizenship	Question, engage, provoke and innovate to ensure social justice, reduce poverty, promote environmental sustainability, and increase equality in personal and professional capacity to ensure environments conducive to achieving creative and fulfilling lives.

Approved by Faculty Board June 2019

## Course rules

To qualify for the award of Graduate Diploma of Sustainable Development and Humanitarian Action, a student must successfully complete:

- 8 credit points of study as listed below
- AAI018 Academic Integrity (0-credit-point compulsory unit)

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

Each unit below is delivered via the FutureLearn platform and takes approximately 10 weeks to complete.

These units are broken down into easily-manageable two-week blocks, allowing you the freedom to fit learning around your work, family and lifestyle.

ADH700	Introduction to International and Community Development
ADH701	The Humanitarian World
ADH716	Humanitarian Settlement
ADH717	Sustainability and Development
ADH712	Food Security
ADH724	Disaster Risk Reduction and Management in Humanitarian Contexts
ADH714	Gender and Development
ADH702	Humanitarian – Development Nexus

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Diploma of International and Community Development

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of International and Community Development
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A611
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Get an understanding of the complex social, political, and economic issues facing our increasingly-globalised world. Study international and community development at Deakin and get the skills you need to make a difference – both at home and abroad.

Deakin's International and Community Development program is one of the longest running within Australia, giving you the assurance of many years' experience in teaching this highly-developed course.

This professional, cross-disciplinary course is suitable for graduates from all disciplines. Offered as a fully-online program, it is aimed at current and aspiring development professionals keen to deepen their knowledge of the world's development landscape.

The course examines the historical record of development, the socioeconomic and policy dimensions of development, and the foundation of sustainable development. You can specialise in either community development or international development, choosing from electives in areas such as poverty and health, gender and development, food security, microfinance and poverty reduction.

Good development promotes justice, reduces poverty, and builds environments for people to lead productive, creative and fulfilling lives. The course is designed to give you the specialised skills to help drive development projects in local and international communities, gaining expertise in all phases of project delivery including conceptualisation, project design, implementation, monitoring and assessment.

The Internship unit offers a chance to gain first hand work experience in a region or employment sector closely associated with topics studied in the course.

Career opportunities exist working in areas such as social justice, empowerment, poverty alleviation, and community development. These include non-government organisations (NGOs), government agencies, bilateral and multilateral agencies, and private sector consulting. You may seek opportunities in related areas including teaching, the travel industry, consulting enterprises, journalism, and government and non-government agencies concerned with the flow of trade, services, capital and personnel.

## Career opportunities

Employment in the development field provides a wide range of opportunities, both internationally and domestically. Graduates may find employment across the variety of organisations who work for social justice, empowerment, poverty alleviation, and community development. These include civil society organisations such as Non Government Organisations, Government agencies, bilateral, and multilateral agencies, as well as the private sector consulting. There is also potential work opportunities in related areas including teaching, the travel industry, consulting enterprises, journalism, and government and non-government agencies concerned with the flow of trade, services, capital and personnel. Students wishing to pursue a career in further research can take the research pathway.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Alternate exits

A511

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Use and apply advanced and critical understanding of the theory and practice of international and community development and the contribution of diverse disciplinary worldviews.
Communication	Apply advanced oral, written and interpersonal communication to plan, inform, and debate, complex multidisciplinary and multi-sectoral issues for improved social, environmental and economic outcomes
Digital literacy	Use advanced knowledge of digital information sources and applications to source, analyse and report on complex data and information for effective research and professional development, across interpersonal, organisational and professional cultures.
Critical thinking	Investigate, critically analyse, report and act on global and local issues and opportunities in historical and contemporary development discourse.
Problem solving	Demonstrate clear ability to comprehend and interpret competing options for solving complex or "wicked" problems with creativity, innovation and respect.
Self-management	Demonstrate autonomy, responsibility, respect and accountability and a continued commitment to learning and reflective practice in diverse international and community development contexts.
Teamwork	Contribute to effective global and local collaboration, participation and achievement of mutually understood outcomes through sensitive, self-reflective and active engagement with research and practice, across cultures and disciplines.
Global citizenship	Question, engage, provoke and innovate to ensure social justice, reduce poverty, promote environmental sustainability, and increase equality in personal and professional capacity to ensure environments conducive to achieving creative and fulfilling lives.

*Approved by Faculty Board June 2014*

## Course rules

### Students commencing after 2014:

To qualify for the Graduate Diploma of International and Community Development (ICD), a student must successfully complete AAI018 Academic Integrity (0-credit-point compulsory unit) and 8 cp of units in one of the following configurations:

- International Development Stream (3 cp) plus 5 cp of ICD electives
- Community Development Stream (3 cp) plus 5 cp of ICD electives
- Dual Stream (5 cp) plus 3 cp of ICD electives

Students who commenced prior to 2014 should follow the course rules and structure shown in the Handbook for their year of commencement.

## Course structure

### **International Development Stream**

ADS701	Introduction to International and Community Development
ADS733	The Economic Development Record (formerly AID733)
ADS734	Political Development Record (formerly AID734)

### **Community Development Stream**

ADS701	Introduction to International and Community Development
ADS704	Community Development Theory and Practice A (formerly ASD704)
ADS705	Participatory and Community Development Practice (formerly ASD705)

### **Dual Stream – International Development and Community Development**

ADS701	Introduction to International and Community Development
ADS704	Community Development Theory and Practice A (formerly ASD704)
ADS705	Participatory and Community Development Practice (formerly ASD705)
ADS733	The Economic Development Record (formerly AID733)
ADS734	Political Development Record (formerly AID734)

## Electives

### **International Development and Community Development electives**

ADS711	Non-Government Organisations and other Development Actors
ADH712	Food Security
ADH714	Gender and Development
ADS715	Cross Cultural Communication and Practice
ADH717	Sustainability and Development
ADS720	Arts and Sports-based Approaches to Community Development
ADS721	Policy and Advocacy in Development Contexts
ADS722	Private Sector Development: Corporations, Social-Enterprise and Microfinance
ADS723	The Development Project Cycle
ADS733	The Economic Development Record
ADS734	Political Development Record
ADS753	International and Community Development Internship (2 credit points)

### **External electives**

ASS705	Anthropology of Poverty and Development
ASS706	Poverty, Health and Illness

<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Course version for continuing students only*

## Course overview

Develop a systematic understanding of the international forces that shape our environment, as well as the skills to analyse and interpret international events. Study international relations at Deakin and be ready to further your professional aspirations within foreign affairs, politics, research, and media.

The forces of globalisation are generating profound effects on many spheres of economic, social and political activity. As such, a deeper knowledge of international relations is becoming necessary in many areas of public life.

Deakin's international relations courses are professional development programs providing relevant and respected postgraduate qualifications for those who work, or aspire to work, in the public service, commercial organisations, humanitarian organisations, and the not-for-profit sector.

The Graduate Diploma of International Relations (IR) aims to provide you with high-level skills in analysis and interpretation of global issues and events, plus an understanding of the complexities of contemporary international relations. You'll get a broad view of the world's various political, economic and social landscapes, and an understanding of the often delicate relationships that exist between them.

You'll choose from electives that explore topical subjects such as the rise of China, terrorism in international politics, global political economy, and Australian foreign policy.

Career opportunities for IR graduates exist in all levels of government, private sector corporations and small business, non-government organisations, the media, consultancy, the defence forces, foreign affairs departments, immigration departments, management consultancies, multicultural associations, education, health, politics and research.

## Career opportunities

Career opportunities for international relations graduates exist in all levels of government, private sector corporations and small business, non-government organisations, the media, consultancy, the defence forces, foreign affairs departments, immigration departments, management consultancies, multicultural associations, education, health, politics and research.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Use advanced and specialised knowledge of International relations to review and analyse major theoretical, conceptual and policy debates and disputes in International Relations pertaining to foreign policy, conflict and security, international and regional politics, globalisation, and international law with reference to empirical cases.
Communication	Effectively communicate the findings and analyses of International Relations theories, concepts and their application to real-world contexts, in a selection of written, oral and digital formats, to a range of audiences.
Digital literacy	Employ a range of digital communication technologies and platforms appropriately to conduct research, engage in debate, communicate findings, and deliver reports and presentations to a diverse range of audiences.
Critical thinking	Analyse, critically evaluate and synthesise theoretical conceptualisations of international politics and policy responses by a range of actors in the context of the changing international political system.
Problem solving	Employ initiative and creativity in conjunction with appropriate Social Science methods of research and analysis to investigate complex real-world problems in a systematic manner and generate and evaluate potential responses to issues in the areas of conflict and security, globalization, international crises and risks, foreign policy and international law.
Self-management	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skill development personally, academically and professionally in the field of International Relations.
Teamwork	Work and learn collaboratively with others in the field of International Relations and from other backgrounds while still maintaining responsibility for their own learning.
Global citizenship	Analyse and respond to issues in global politics in domestic, regional and international contexts as a reflective scholar and practitioner, taking into account cultural and socio-economic diversity, social and environmental responsibility and adherence to professional and academic ethical standards.

*Approved by Faculty Board May 2014*

## Course rules

To qualify for the Graduate Diploma of International Relations, a student must successfully complete:

- 4 credit points of core units
- 4 credit points of study of elective units
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

AIR707	The United Nations and International Organisation
AIR742	International Relations Theory
AIR747	Contemporary International Politics

# Graduate Diploma of Professional Political Practice

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Professional Political Practice
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Cloud Campus</i>	No
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A617
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*This course version is for continuing students only.*

## Course overview

If the idea of a career in politics excites you, then the Graduate Diploma of Professional Political Practice is your gateway to challenging and engaging political advisory roles.

This is a skills-based, highly targeted course designed to qualify you for professional and highly skilled work as a political advisor. You'll be helping ministers and other political figures carry out their various political, policy and media functions.

The course explores the parliamentary system and functions of parliament, the nature of diverse ideologies and how to bring about positive change in the world. Case studies and comparison of Australian practices with those of other countries are used to help in critical reflection on processes and outcomes.

You will gain a rigorous theoretical grounding in politics, plus a suite of practical skills that will help you to understand, and effectively contribute to our political system.

Your studies will introduce you to analytical tools in political contexts, and theoretical discussions of public policy will be grounded in a number of case studies relating to taxation, industry policy, industrial relations, social policy, gender and the environment.

You will learn about accountability in governance while exploring ways of responding effectively, imaginatively and ethically to these demands. You will also explore the nature of democracy, the challenges facing democracy today, and challenge your own assumptions about democracy in the West and elsewhere.

Other areas studied include intergovernmental relations, managing public expenditure, federal budget processes, how the media shape public opinion and the policy agenda, and the role of modern communication technologies.

Career opportunities for graduates exist in the following areas: local councils, public service departments and statutory authorities, state and federal parliaments, small business to multinational corporations, policy researchers in NGOs including overseas aid organisations, policy consultants, and roles working in political parties and electoral offices.

The course is a pathway for further learning, progressing into Deakin University's Master of Politics and Policy.

## Career opportunities

The courses are designed as professional development programs for early or mid-career professionals or for those involved in or, seeking to become involved in, policy making and management within the public, community and business sectors, domestically and internationally.

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Advanced knowledge of, and specialised cognitive skills involving Australia's political system and governance that may be applied in professional practice and adapted to different contexts.  Sound understanding of policy development, implementation and evaluation.
Communication	Ability to communicate effectively potentially complex knowledge and ideas involving political and policy issues to a variety of audiences, both specialist and non-specialist.
Digital literacy	Employ a range of digital communication technologies and platforms appropriately to conduct research, engage in debate, and communicate ideas, findings, etc.
Critical thinking	Cognitive skills to think critically and to generate and evaluate complex ideas, proposals etc. involving diverse institutions and actors, within and beyond the 'formal' political sphere.
Problem solving	Employ appropriate methods of research and analysis to investigate complex real world problems in a systematic manner and generate and evaluate potential responses to issues in such areas as: public policy; political institutions, processes and practices; democratic governance; citizen engagement; and, political communication.
Self-management	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skill development personally, academically and professionally in the field of politics and/or public policy.
Teamwork	Work and learn collaboratively with others from similar, but also at times quite different disciplines and backgrounds.
Global citizenship	Engage ethically and productively in a professional political context in addressing complex real world problems which involve different political 'jurisdictions' and societies or cultural communities with different 'world views'.  Recognise the potential value of engaging with and drawing upon the experiences and insights of experts and non-experts globally in understanding and addressing diverse political and policy challenges.

*Approved by Faculty Board June 2014*

## Course rules

To qualify for the award of Graduate Diploma of Professional Political Practice, a student must successfully complete 8 credit points of compulsory core units and AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

### Units

AIP740	Policy Lessons From Overseas
AIP748	Intergovernmental Relations
AIP773	Governance and Accountability
AIP780	Managing Public Expenditure
AIP781	Political Communication
AIP782	Engaging for Change
AIP783	Rethinking Democracy
AIP785	Political Competition

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Diploma of Museum Studies

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Museum Studies
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year full-time or part-time equivalent
<i>CRICOS course code</i>	012804J
<i>Deakin course code</i>	A629
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Get a professional qualification that allows you to work in the diverse museum sector. When you enrol in museum studies at Deakin, you'll learn how to identify, conserve and interpret objects and collections in museums and galleries and the role of museums within society. Today's museums are evolving. They're designed to be much more accessible and, as such, are attracting more diverse audiences every day. Innovation and new technologies are pushing the contemporary museum to think outside the box and to engage with audiences in new ways.

How do we know what material culture societies ought to conserve? What counts as heritage? Who decides? What is the role of museums in social cohesion, identity formation and development?

The Graduate Diploma of Museum Studies is designed to provide you with the range of hands-on skills and theoretical knowledge required to work in all kinds of museums. Some of the areas you'll study include heritage interpretation, collections and curatorship, cataloguing and documentation, and the ethical and legal implications of moving, acquiring or disposing of an object or collection. You'll also look at the role and function of exhibitions including budgets, planning, policy, and audience involvement

As part of your studies you can undertake an internship or practical placements in Australia or internationally, usually in professionally-staffed museum or heritage organisations. Internships and practical placements involve working on one or more projects, as agreed with the host institution. You'll be required to spend a minimum of 10 working days on the placement. This can be undertaken full-time (e.g. over a minimum of two weeks) or on a part-time basis.

Successful completion of the Graduate Diploma of Museum Studies will lead you to entry to the Master of Cultural Heritage. As a graduate, you may find employment in museums, heritage institutions, government agencies, private corporations, community organisations and in private practice. Typical job titles include: curator, heritage officer, collections manager, registrar, public programs officer, researcher, and project officer.

## Career opportunities

Graduates may find employment as practitioners in museums, heritage institutions, government agencies, private corporations, community organisations and in private practice. Typical job titles include: curator, heritage officer, collections manager, registrar, public programs officer, researcher and project officer.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A529.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Understand, investigate and evaluate conceptual and practical approaches to the identification, conservation, interpretation, management and use of museum objects.
Communication	Effectively communicate key theoretical and practical concerns in museum studies using oral, written, digital formats to specialist and non-specialist audiences.
Digital literacy	Use a range of digital technologies and information sources relevant to the museum context to discover, select, analyse, employ, evaluate, and disseminate both technical and non-technical information.
Critical thinking	Critically analyse key concepts in the identification, conservation, interpretation, management and employ this knowledge in the museum context using objects and collections to show how these can be utilized in a variety of different situations.
Problem solving	Apply advanced theoretical and knowledge and technical skills in the identification, conservation, interpretation, management and use of objects and collections in the museum context and develop solutions to real-world and ill-defined problems or issues in professional contexts.
Self-management	Demonstrate a high level of professionalism, consistently applying professional museum standards with a high level of responsibility and accountability to colleagues and relevant stakeholders and a consistent commitment to continual professional development.
Teamwork	Work effectively and collaboratively, demonstrating advanced level of responsibility and accountability in different roles in the museum context
Global citizenship	Analyse and address museum-related issues in the domestic, regional and global context as a critically reflexive reflective practitioner, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and the application of the highest ethical standards.

Approved by Faculty Board 2015

## Course rules

To qualify for the Graduate Diploma of Museum Studies, a student must successfully complete 8 credit points of study comprising:

- 4 credit points of core units;
- 4 credit points of electives selected from the specified list of units below; and
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

AIM722	Collections and Curatorship
AIM723	Heritage Interpretation
AIM734	Understanding Significance
AIM736	Museums, Heritage and Society

### Electives

AIM735	Leadership in Museums and Heritage Organisations
AIM727	Exhibitions
AIM708	World Heritage and International Heritage Practice
AIM709	Intangible Heritage
AIM715	Virtual Heritage
AIM717	Heritage in the Field
AIM718	Cultural Heritage and Museums Studies Field School

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Diploma of Digital Media

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Digital Media
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A634
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Deakin's Graduate Diploma of Digital Media critically engages with a world in which the diverse array of media and cultural industries are increasingly impacted by digital and online developments. Developed in consultation with industry, the course is designed to ensure future media professionals are engaged in practical ways with various forms of digital media platforms; not only critically understanding, but also curating their own content and developing a substantial ePortfolio relevant to organisational contexts. The course enables you to explore, analyse, create and share online content and learn how to creatively select and assemble media elements to create personal or brand identities, stories, and narratives.

Following successful completion of the Graduate Diploma of Digital Media, you may choose to apply for credit to continue your studies in Deakin's Master of Communication.

## Career opportunities

The Graduate Diploma of Digital Media is designed to produce graduates who are effective and multi-literate communicators. Graduates will be transmedia participants who work with and across multiple platforms as self-reflexive and flexible creators. They will meet the growing need for independent and collaborative researchers, who are innovative problem solvers and ethical global citizens. The course recognises that media professionals of the future will require versatile skill sets that enable them to adapt to ever-changing industry environments and, in doing so, be active participants and content curators online.

Jobs of the future in the communications and media industries will be obtained by those practitioners who have a strong online identity/presence and diverse portfolio. The Graduate Diploma of Digital Media seeks to create savvy media professionals who actively, productively and ethically engage with communities through online and traditional means.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate an advanced theoretical and applied understanding of contemporary digital and online media environments, particularly in relation to processes and practices in media and cultural industry contexts.
Communication	Demonstrate advanced and effective communication skills to communicate ideas, arguments and analyses in written, digital and oral formats that meet academic and media practitioner standards for a diverse range of audiences.
Digital literacy	Demonstrate an ability to utilise a range of digital media to communicate a variety of messages online to a professional standard.
Critical thinking	Demonstrate advanced cognitive skills in engaging with contemporary media debates, issues, and industry contexts in relation to their social, cultural, economic, legal, and ethical aspects.
Problem solving	Demonstrate an advanced understanding of industry-based problems and an ability to solve these through a strategic application of digital and online media platforms.
Self-management	Demonstrate autonomy, accountability, and initiative in responding effectively and creatively to new situations in professional contexts.
Teamwork	Demonstrate initiative and accountability in working collaboratively with peers in online environments to solve problems by completing media projects.
Global citizenship	Demonstrate and apply an advanced understanding of legal and ethical issues in relation to online media in a globalised media context, taking into account issues relating to intellectual property, social justice, diversities, and environmental impact.

*Approved by Faculty Board November 2017*

## Course rules

To qualify for the award of Graduate Diploma of Digital Media, students must successfully complete 6 credit points from the units listed below and 2 credit points of electives.

Electives may be chosen from the remaining units below or from any other postgraduate course in the School of Communication and Creative Arts; students who intend to move from the diploma into the Master of Communication are strongly advised to take ACX701 Communication Concepts for their two elective credit points.

Students must also complete:

AAI018 Academic Integrity

## Course structure

### Units

ACG706	Designing for Web Environments
ALC701	Social Media Principles and Practices
ALC702	Making Online Communities
ALC703	Digital Curation
ALC708	Blogging and Online Communication Techniques
ALR703	Digital Marketing
ACA715	Creative Enterprise Project
ACC700	Communication and Creative Arts Internship

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Unit Learning outcomes are regularly evaluated by Unit Chairs and panels. Assessments are designed and timed to ensure that students are clearly assessed on recent and topical content in ways that reflect real-world scenarios for professional and creative writers. Assessments also prepare students for later assessments.

## Research and research-related study

Research skills and knowledge are detailed in the Graduate Certificate of Communication and further opportunities are available as students progress through the course into the Diploma of Communication and Masters of Communication.

# Graduate Diploma of Literary Studies

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Literary Studies
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years part-time.
<i>Deakin course code</i>	A635
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Diploma of Literary Studies provides students with advanced skills in analysing literary works. It hones students' ability to research and analyse complex written information and to contextualise issues based on historical, political, cultural and social circumstances.

The Graduate Diploma of Literary Studies is designed for people with professional and personal interests in literature and in creative writing who are seeking further professional qualifications while working. The course offers you the possibility of studying at an advanced level a number of topics related to English or literary studies: The ways in which the discipline was constituted in the late nineteenth and early twentieth centuries and is now being reconstituted to reflect social and cultural change; generic traditions and variations; oral and written forms; creative and critical approaches; variations related to gender and age.

## Career opportunities

The courses are designed for professionals working in fields requiring high-level analytical and writing skills, such as teaching, the public service and fields related to the publishing industry where flexibility and multi-skilling enhance employment opportunities.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate a specialist knowledge of a range of literary theories, concepts, and approaches, and advanced skills in applying them to works of literature.
Communication	Demonstrate advanced command of the critical and theoretical vocabularies and language required to interpret, argue and fluently and persuasively transmit ideas.
Digital literacy	Demonstrate a high level of competence in the use of research databases, bibliographic and digital communication technologies to research, produce and present scholarly work.  Show judgement and discrimination in the identification and selection of relevant and credible information sources and with regard for their ethical use.
Critical thinking	Demonstrate advanced understanding of techniques to critically analyse and evaluate the influence of narrative strategies, genre conventions and cultural assumptions on the content of works of literature.  Demonstrate advanced skills in the application of theory and research to the interrogation of literary works.
Problem solving	Demonstrate advanced knowledge of theoretical, historical and contemporary critical and analytical approaches to literary analysis and skill in applying them to the design and execution of solutions to a range of scholarly, aesthetic and/or ideological problems.
Self-management	Demonstrate an ongoing commitment to reflective learning and initiative, autonomy, accountability and responsibility for learning outcomes.
Teamwork	Demonstrate the knowledge and skills to actively, collaboratively and ethically contribute to mutual learning goals in located and online environments.
Global citizenship	Demonstrate ethical and cross-cultural knowledge of, and skills when engaging with, the diverse cultural, social and political contexts in which literary texts are produced and consumed.

*Approved by Faculty Board November 2018*

## Course rules

To qualify for the Graduate Diploma of Literary Studies, students must successfully complete 8 credit points of study comprising:

- 1 credit point compulsory core unit;
- 4 credit points of course electives;
- 3 credit points of electives chosen from units within the specialisations of the Master of Arts (Writing and Literature) or Master of Communication or Master of Creative Arts
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core unit

ALL743 Foundations in Narrative Theory

### Course electives

Select 4 from the following:

ALL702 Criticism of Literature for Children: A Variety of Approaches

ALL705 Vision and Revision: Short Stories Now

ALL706 Historical Fiction

ALL727 Sex, the Body, and American Poetry

ALL784 Writing and Film

Students may choose to include the 5th unit listed above as one of the 3 electives

### Electives

2 credit points of electives chosen from the units offered in the specialisations of Master of Arts (Writing and Literature) or Master of Communication or Master of Creative Arts.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There will be opportunities throughout the course for students to engage with industry professionals. These experiences will be integrated into units where students will have external clients or industry representatives provide content to more closely connect the learning experience with industry practices.

# Graduate Diploma of Creative Writing

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Creative Writing
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year or part-time equivalent
<i>CRICOS course code</i>	0100134
<i>Deakin course code</i>	A636
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Diploma of Creative Writing provides students with the skills to write across a range of genres and writing styles. Students will graduate with a portfolio of writing showcasing their knowledge and skills in Creative Writing.

The Graduate Diploma of Creative Writing will advance and consolidate knowledge of Creative Writing theories, practice and skills for the conception, crafting, production and dissemination of creative writing outputs. Students will understand the complexities and opportunities of industries, which employ creative writers and possible careers within an international and domestic context.

The units in the program will be valuable for those experienced in writing but who may feel the need for further guidance, or those interested in beginning a career in writing. The School adopts the philosophy that writing and editing should be taught by published writers and practitioners. The teaching staff includes well-known writers and editors, and the program draws on the talents of other publishing professionals as guest speakers.

## Career opportunities

Graduates of this course will find employment opportunities in a broad range of organisations or will be able to pursue freelance or self-employment opportunities. Throughout the course, students will be exposed, not just to knowledge pertaining to their discipline, but also to practices and ways of understanding creative writing as a cross-disciplinary activity which intersects with other creative and communication fields in digital, promotional and multimedia landscapes.

Creative writers have never been more in demand. Writers use the most flexible and powerful of technologies – language and the ability to tell stories. Graduates may embark on careers in the industries of online media, gaming, as communications officers in organisations of many kinds (both arts-based, corporate and within government), may contribute to the literary field as editors, online curators, prose or poetry writers, may continue on to jobs within academe or the TAFE sector, may strengthen their profile as secondary teachers, copywriters or within the changing field of print media.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply general and specialised knowledge of creative writing modes and theories and their production in the context of professional, historical, cultural and stylistic frameworks, including technical skills in composition, editing, presentation and aspects of publication.
Communication	Communicate through writing that is technically and aesthetically proficient and demonstrates awareness of, or ability to extend, established writing conventions to produce works that communicate complex ideas effectively using suitable written forms and specialised techniques.
Digital literacy	Employ a range of generic and specialised industry digital technologies for the research, production and presentation of creative materials, including technologies for the innovative generation or dissemination of complex ideas and works, or those required in various specialised professional contexts.
Critical thinking	Demonstrate specialised competencies in the production of texts and discourses informed by rigorous research, close reading, critical thinking and analysis, and by selecting and applying the appropriate creative writing forms and conventions to provide solutions to complex problems or specialised writing briefs.
Problem solving	Analyse and respond creatively and professionally to editorial or publishing briefs or opportunities by employing specialised creative and professional writing or communication strategies to identify, solve or reframe complex aesthetic, theoretical or real-world challenges and limitations.
Self-management	Demonstrate personal and professional responsibility for learning through autonomy, accountability and a continued commitment to specialised learning and skill development, as a reflective practitioner in the Professional and Creative Writing industry, scholarly and other contexts.
Teamwork	Actively participate in and make constructive contributions to processes of creative and critical collaboration within or across disciplines, sharing of peer feedback in writing workshops and online forums, and demonstrate professional and ethical negotiation with collaborators and colleagues.
Global citizenship	Demonstrate ethical global citizenship and awareness of cultural diversity and social responsibility when engaging in scholarship and in professional roles and community collaborations.

Approved by Faculty Board November 2018

# Graduate Diploma of Television Production

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Television Production
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	2 years part-time or equivalent
<i>Deakin course code</i>	A637
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Study a comprehensive, hands-on course to kick-start your career in television production. Deakin's Graduate Diploma of Television Production is designed to equip Film and Television and Communication students and professionals with advanced skills in television production, working with state of the art production facilities including a full high-definition broadcast television studio.

As television programming influences culture more and more, the demand for quality television – and therefore well-trained television production graduates – is rising.

Deakin's Graduate Diploma of Television Production links theory and television practice with the development of critical and academic skills to enable you to respond to a rapidly changing industry environment. Course content ranges from cinematography and the changing landscape of television to documentary principles, advertisements and beyond. On completion of the course, you will be able to produce broadcast-quality television and television advertisements.

## Career opportunities

Graduates of the course are able to find employment with public and private broadcasters. Small independent production houses are also key employers for graduates of film and television courses. Regardless of the type of organisation, employers are looking for graduates who are technically proficient, demonstrate independent and creative thinking and who are above all autonomous problem solvers. Students will be equipped to understand the context of program innovation and industry change.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate the knowledge and skills to: <ul style="list-style-type: none"> <li>• Transform ideas into proposals for television production.</li> <li>• Employ concepts, techniques, and television formats, forms and styles in the creation of television programs in a changing industry context.</li> <li>• Devise, plan and manage television production.</li> <li>• Lead and contribute to collaborative teams.</li> <li>• Integrate cultural and gender diversity in the creation of film and television content and representations.</li> </ul>
Communication	Effectively communicate the intent, design approaches and ideas in television production through written, oral and digital form to a range of audiences.
Digital literacy	Evaluate requirements for, make recommendations in relation to, and use high level digital television production technologies to create television products.
Critical thinking	Develop, research and evaluate ideas, concepts and processes for television productions, through creative, critical and reflective thinking and practice.
Problem solving	Apply narrative, aesthetic, technical, logistical, organisational, critical and interpersonal skills and knowledge to create film and television productions.
Self-management	Demonstrate initiative and reliability, an ability to self-evaluate and manage time and resources to fulfill the obligation of working in a collaborative environment and to identify, evaluate and research project needs and solutions.
Teamwork	Demonstrate the ability to work in different capacities in a range of production team models in television production.
Global citizenship	Demonstrate an awareness of cultural and social diversity and issues of globalisation in the making of film and television productions.

# Graduate Diploma of Visual Communication Design

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Visual Communication Design
<i>Duration</i>	2 years part-time or equivalent
<i>Deakin course code</i>	A638 (version 1)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

The Graduate Diploma in Visual Communication Design provides practical and theoretical skills in Visual Communication Design. This is achieved through a combination of study incorporating the contemporary thinking and techniques required for professional design practice. It explores design's role as an agent of change and as a key link between creativity and innovation. It also addresses the social, cultural and ethical implications of design practice. The program delivers an in-depth study of new technology in design with an emphasis on typography, form and application. Historical and contemporary graphic design processes are explored within both local and international contexts.

The Graduate Diploma in Visual Communication Design encourages students to shape their ideas into practical and attractive propositions for users, customers and society as a whole. It offers a solid foundation for employment in communication design industry or continued study in the field.

## Alternative exits

A539.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate a specialised, developed knowledge of how to research, plan and produce design-based solutions to complex visual communication challenges. Advanced knowledge and skills for analysing communication design as applied in a local, national and international context.
Communication	Demonstrate sophisticated and effective communication skills using visual media. Transmit ideas, analysis, findings and strategies through advanced written and oral presentation
Digital literacy	Employ a range of specialist skills using industry standard design programs and other digital literacies to source, analyse, generate and disseminate design solutions to an advanced level.

Deakin graduate learning outcomes	Course learning outcomes
Critical thinking	Demonstrate advanced understanding of ethical and legal issues surrounding visual communication design.  Acquire advanced skills in the critical evaluation of contemporary design practices, design conversations and design issues and demonstrate application in own professional design practice.
Problem solving	Demonstrate the ability to analyse and evaluate information to inform professional design practice. Employ specialized knowledge, skills and creativity supported by research based theoretical underpinning to generate advanced design solutions to complex visual communication design briefs.
Self-management	Demonstrate advanced initiative and autonomy in planning, decision-making and problem solving in the field of visual communication design.
Teamwork	Demonstrate an ability to work and learn collaboratively, collegially and responsibly with a range of disciplines, clients and industry representatives.
Global citizenship	Demonstrate a responsibility to and understanding and appreciation of global, economic and ethical influences on the practice of visual communication design.

Approved by Faculty Board June 2014

## Course rules

To qualify for the Graduate Diploma of Visual Communication Design, a student must successfully complete 8 credit points of compulsory core units and AAI018 Academic Integrity (0-credit-point compulsory unit)

### Year 1

- ACG702 Digital Publishing
- ACG703 Design and Digital Skills
- ACG706 Designing for Web Environments
- ACI700 Introduction to Digital Photography

### Year 2

- ACA715 Creative Enterprise Project
- ACG708 Design Thinking and Problem solving
- ACG709 Strategic Branding and Design
- ALR733 Advertising Theory and Practice

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Graduate Diploma of Visual Communication Design

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Visual Communication Design
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years part-time or equivalent
<i>Deakin course code</i>	A638 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Diploma in Visual Communication Design provides practical and theoretical skills in Visual Communication Design. This is achieved through a combination of study incorporating the contemporary thinking and techniques required for professional design practice. The course explores design's role as an agent of change and as a key link between creativity and innovation. It also addresses the social, cultural and ethical implications of design practice as well as in-depth studies of new technology in design with an emphasis on typography, form and application. Historical and contemporary graphic design processes are explored within both local and international contexts.

The Graduate Diploma in Visual Communication Design encourages you to shape your ideas into practical and attractive propositions for users, customers and society as a whole. It offers a solid foundation for employment in the communication design industry or continued study in the field.

## Career opportunities

As a graduate of Deakin's Graduate Diploma of Visual Communication Design you will be able to communicate and produce industry and audience-relevant solutions to communication problems and opportunities which require visual design in the strategy mix. In addition, the course will develop graduates with sound theoretical grounding in cultural, business and professional skills to enable them to be effective practitioners.

Graduates are likely to find work in areas such as advertising and marketing communication, communication strategy, corporate branding, design consultancies or creative boutiques. Graduates may be employed, work on a freelance basis or be self-employed. With a focus on both Communication Design knowledge and technical skills, graduates are better prepared for the rapidly evolving, ever-changing communication industry.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

# Graduate Diploma of Communication

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Communication
<i>Duration</i>	1 year full-time or part-time equivalent
<i>CRICOS course code</i>	084026F
<i>Deakin course code</i>	A639 (version 1)

*Offered to continuing students only*

## Course overview

Communication is the world's fastest-growing industry. It is also an area of rapid and continuous technological, political, economic and social change. Deakin's perspective on media and communication integrates several disciplines and emphasises commonalities of theories, analyses, practices and institutions in different sectors of the industry. This distinctive interdisciplinary and cross-disciplinary perspective underpins a broad mix of subjects, in contrast to the narrow focus of other vocational courses. Students can choose from a wide range of units that suit their particular interests and units studied in the Graduate Diploma of Communication gain credit in Deakin's Master of Communication. This flexible approach to skill-building is designed to match the dynamic and unpredictable nature of the industry.

# Graduate Diploma of Children's Literature

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Children's Literature
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years part-time duration or equivalent.
<i>Deakin course code</i>	A641
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Diploma of Children's Literature provides students with advanced skills in analysing literary works in Children's Literature. It hones students' ability to research, analyse and contextualise issues based on historical, political, cultural and social circumstances in literature for children and young adults.

The Graduate Diploma of Children's Literature aims to provide students with specialist knowledge and skills in the field of children's literature. It is designed so that students become familiar with a broad range of texts, taking account of variations of genre, the historical and cultural contexts in which children's texts are produced, and the ideological frameworks in which they are located. The course will provide an introduction to contemporary theoretical approaches to the study of children's texts, so beyond the span of the course, students will be equipped to read texts in a more informed and theoretically grounded manner.

## Career opportunities

These courses are designed to provide training and qualifications in children's literature for graduates who wish to extend and develop their knowledge of the field of children's literature; teachers and librarians who are currently working in the area of children's literature in primary or secondary school settings, or who wish to specialise in children's literature; professionals working in fields associated with children's literature, such as publishing, retail and promotional activities; and primary and secondary teachers who wish to upgrade their qualifications.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate a specialist knowledge of a range of literary theories, concepts, and approaches, and advanced skills in applying them to writing for children and young adults.
Communication	Demonstrate advanced command of the critical and theoretical vocabularies and language required to interpret, argue and fluently and persuasively transmit ideas.
Digital literacy	Demonstrate a high level of competence in the use of research databases, bibliographic and digital communication technologies to research, produce and present scholarly work.  Show judgement and discrimination in the identification and selection of relevant and credible information sources and with regard for their ethical use.
Critical thinking	Demonstrate advanced understanding of techniques to identify, critically analyse and evaluate the influence of narrative strategies, genre conventions and cultural assumptions on the content of children's literature.  Demonstrate advanced skills in the application of theory and research to the interrogation of children's literature.
Problem solving	Demonstrate advanced knowledge of theoretical, historical and contemporary critical and analytical approaches to writing for children and young adults, and skill in applying them to the design and execution of solutions to a range of scholarly, aesthetic and/or ideological problems.
Self-management	Demonstrate an ongoing commitment to reflective learning and initiative, autonomy, accountability and responsibility for learning outcomes.
Teamwork	Demonstrate the knowledge and skills to actively, collaboratively and ethically contribute to mutual learning goals in located and online environments.
Global citizenship	Demonstrate ethical and cross-cultural knowledge of, and skills when engaging with, the diverse cultural, social and political contexts in which children's literature is produced and consumed.

*Approved by Faculty Board November 2018*

## Course rules

To qualify for the Graduate Diploma of Children's Literature, a student must successfully complete 8 credit points of study comprising:

- 1 credit points of compulsory core units;
- 4 credit points of course electives from list A
- 3 credit points of electives chosen from units within the specialisations of the Master of Arts (Writing and Literature), Master of Communication or Master of Creative Arts
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

ALL743 Foundations in Narrative Theory

Complete four 1-credit point units chosen from the following course electives list A below:

ALL701 Retelling Myths and Tales: Classic to Contemporary

ALL702 Criticism of Literature for Children: A Variety of Approaches

ALL708 The Picture Book: Reading and Writing

ALL721 Writing Fiction for Young Adults

ALL722 Texts for Young Adults

Students may choose to include the 5th unit listed above as one of the 3 electives

### Elective units

3 credit points of electives chosen from the units offered in the specialisations of Master of Arts (Writing and Literature), Master of Communication or Master of Creative Arts

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There will be opportunities throughout the course for students to engage with industry professionals. These experiences will be integrated into units where students will have external clients or industry representatives provide content to more closely connect the learning experience with industry practices.

# Graduate Diploma of Public Relations

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Public Relations
<i>Duration</i>	2 years part time or equivalent
<i>Deakin course code</i>	A643 (version 1)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

With a Graduate Diploma of Public Relations, you'll study key research methods and learn the cultural and ethical implications of PR. Apply to study today.

Understand the role of public relations in contemporary society and learn how to design and implement public relations campaigns.

You'll examine the theories and models that work behind major campaigns and critically analyse existing campaigns. From press release writing to effective marketing communication, you'll get the skills to tackle the everyday challenges in this growing field.

The growth of global technology and social media has allowed reputations to be altered at a rapid pace and issues amplified to reach global audiences. You'll learn the necessary hands-on skills to manage stakeholder expectations while dealing with anticipated or unexpected events.

Public relations is about influencing the behaviour, beliefs or attitudes of people, which means there is a lot of power and responsibility in the hands of PR professionals. This course teaches you how to appreciate the social, cultural and ethical implications of public relations activity.

Once you complete this exciting course, you may choose to continue your studies and get credit in our Master of Communication.

Graduates are eligible for membership of the Public Relations Institute of Australia (PRIA).

## Professional recognition

Graduates of the Graduate Diploma of Public Relations are eligible for membership of the Public Relations Institute of Australia (PRIA).

## Course overview

Develop the professional skills you need to be a journalist able to work across all media platforms.

Whether you want to start your journalism career or update your professional skills Deakin's Graduate Diploma of Journalism is for you. Positioned as a top quality, contemporary program of study it integrates journalism practice and journalism studies so will learn how to take advantage of new opportunities in journalism and the media industries. You'll be taught by experienced journalists with expertise across all the key media platforms: print, television, radio and digital online media. Throughout the course you'll have the opportunity to research, write, edit and publish news and feature stories. This means, when you graduate you'll have a portfolio of work which showcases your knowledge and skills as a journalist.

But we also know you're also looking for flexibility so our program is designed to help you manage the work/life/study balance. Depending on your circumstances you can choose to study on campus or via Cloud (online). And we also have a wide range of support services and excellent library facilities to assist you.

The Graduate Diploma of Journalism will build and enhance the professional skills you need to meet head on the opportunities and challenges of twenty-first century news and media industries.

## Course overview

Whether you want to start your journalism career or update your professional skills to work across all media platforms, Deakin's Graduate Diploma of Journalism is for you. Positioned as a top quality, contemporary program of study, the course integrates journalism theory and practice to enable you to learn how to take advantage of new opportunities in the media and communication industries.

You will be taught by experienced journalists with expertise across all key media platforms: print, television, radio and digital media. Throughout the course, you will have the opportunity to research, write, edit and publish news and feature stories, and work in Deakin's state-of-the-art digital newsroom and broadcast facilities.

When you graduate, you will have a portfolio of work which showcases your knowledge and skills as a journalist and expert communicator. On completion of the course, you can also take the opportunity to deepen your journalism expertise by seeking credit towards study in Deakin's Master of Communication.

The Graduate Diploma of Journalism will build and enhance the professional skills you need to meet head on the opportunities and challenges of the contemporary news and media industries.

## Career opportunities

The Graduate Diploma of Journalism is designed for people looking to break into journalism or who are already working in industry and are seeking to upgrade their qualifications or to refresh or advance their professional communication skills. The course recognises that media professionals of the future will require versatile skill sets that enable them to adapt to ever-changing industry environments and, in doing so, be active participants and content creators across multiple media platforms. Whether you want to work in newspapers, online, radio and television, specialist publishing or corporate communications, the Graduate Diploma of Journalism will provide you with the essential knowledge and skills needed to craft engaging and important news stories.

Graduates are likely to find work across a wide range of industry sectors with entertainment and content production companies (including news and other media organisations), multimedia businesses, government departments, and not-for-profit organisations. Graduates may be employed or work on a freelance basis. Roles may include news reporter, mobile journalist, producer, editor, sub-editor, blogger, copywriter, corporate communicator or media advisor.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Diploma of Land and Sea Country Management

Year	2019 course information
Award granted	Graduate Diploma of Land and Sea Country Management
Campus	Waurin Ponds (Geelong)*
Duration	1 year full-time or part-time equivalent
Deakin course code	A660
Approval status	This course is approved by the University under the Higher Education Standards Framework.
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Note: This course is available through the Institute of Koorie Education. Students undertake intensive blocks of study under community based delivery. Please refer to the Institute of Koorie Education website.*

## Course overview

The Graduate Certificate and Graduate Diploma of Land and Sea Country Management provides specialist skills for Aboriginal and Torres Strait Islander students involved in the areas of land management facilitation, caring for Country, environmental management, waste and water management, cultural heritage interpretation and protection, sustainability, project management and education. A key focus of the course is the exploration and convergence of Western Knowledge Systems and the application of Aboriginal and Torres Strait Islander Knowledge Systems that are currently building a more collaborative approach to the protection of both natural and cultural environments in Australia.

## Alternate exits

A560 Graduate Certificate of Land and Sea Country Management (Exit option only)

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities: appropriate to the level of study related to a discipline or profession.	<p>Articulate Aboriginal and Torres Strait Islander cultural knowledge and its underlying custodial ethic in the context of contemporary natural and cultural resource management.</p> <p>Apply Aboriginal and Torres Strait Islander perspectives and use the principles of project planning, management and implementation to contribute, realise and protect cultural heritage and the environment.</p> <p>Integrate Aboriginal and Torres Strait Islander knowledge and Western knowledge to inform contemporary environmental management practices.</p>
Communication: using oral, written and interpersonal communication to inform, motivate and effect change.	Apply Aboriginal and Torres Strait Islander knowledge of cultural perspectives to communicate with a variety of audiences and engage in a community-based approach to contribute to and influence Western government policy designs and managerial practice.

Deakin graduate learning outcomes	Course learning outcomes
Digital literacy: using technologies to find, use and disseminate information.	Apply knowledge of relevant technical tools and methodologies to locate, collect, analyse, interpret and synthesise complex information regarding natural and cultural landscapes.  Transform information and experiences into a narrative and use digital technologies to demonstrate the ability to record and document experiences and cultural practice.
Critical thinking: evaluating information using critical and analytical thinking and judgment.	Critically analyse contemporary natural and cultural resource management governance frameworks and evaluate practices in order to include Aboriginal and Torres Strait islander perspectives to mitigate negative outcomes for natural and cultural heritage and resource environments.
Problem solving: creating solutions to authentic (real world and ill-defined) problems.	Facilitate dialogue, consult with community Elders, government and non-government agencies and research institutions to identify possible approaches to managing natural and cultural resources.  Integrate Aboriginal and Torres Strait Islander cultural perspectives and natural and cultural resource management frameworks to create realistic solutions to authentic real world projects and programs.
Self-management: working and learning independently, and taking responsibility for personal actions.	Demonstrate the ability to initiate projects and work independently and collaboratively to plan, manage, respond to and realise the management of natural and cultural resources.
Teamwork: working and learning with others from different disciplines and backgrounds.	Critically reflect on the needs of the community and develop processes in order to work as a team in a sensitive manner to coordinate, facilitate and manage natural and cultural resources.
Global citizenship: engaging ethically and productively in the professional context and with diverse communities and cultures in a global context.	Observe appropriate protocols when discussing and facilitating management of Country in a consultative, ethical and sensitive manner for scholarship or professional practice.

Approved by Faculty Board 14 July 2016

## Course overview

The Graduate Diploma in Professional Writing provides students with an understanding of the publishing industry and of the requirements involved in writing and editing for different audiences. It hones students' ability to write in, and for, a range of contexts including freelance writing.

The Graduate Diploma of Professional Writing offers studies in various forms of professional writing and editing for graduates with major sequences in other disciplines. The emphasis is on the development of skills required to prepare work for publication. In each area of study, from editing to publishing and our cutting edge unit on blogging, students receive practical experience in the process of writing and revision. The program will develop students' understanding of the requirements of writing and editing for different readerships.

The units in the program will be valuable for those experienced in writing but who may feel the need for further guidance, or those interested in beginning a career in writing. Study at this level can also assist those who are engaged in writing in their employment area and wish to enhance their skills in written communication. The editing unit introduces students to the key skills required for employment in publishing books and magazines. The School adopts the philosophy that writing and editing should be taught by published writers and practitioners. The teaching staff includes well-known writers and editors, and the program draws on the talents of other publishing professionals as guest speakers.

## Career opportunities

The program is designed to provide career enhancement for students employed or wishing to be employed in the fields of professional writing or publishing. It enables students currently employed in these fields to upgrade their qualifications in order to apply for specialist positions and enhance their opportunities for promotion. It also provides for those seeking a qualification to enable refocusing of career options.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

## Course overview

The Graduate Diploma of Writing and Literature is designed to balance theoretical understandings with practical skills development. By providing a cross-disciplinary alternative, the Graduate Diploma of Writing and Literature provides students with the opportunity to draw on the extensive range of units available across a suite of specialisations.

The Graduate Diploma of Writing and Literature offers a cross-disciplinary foundation in Writing and Literature. Students have the opportunity to choose from an extensive range of units across specialisations in Children's Literature, Creative Writing, Literary Studies and Professional Writing. The course provides specialised knowledge of critical and creative practices and ways of understanding writing, reading and preparing texts for publication as a cross-disciplinary activity. The course is designed for people with professional or personal interests in writing and literature who are seeking further professional qualifications while working.

## Career opportunities

Graduates of this course will find employment opportunities in a broad range of organisations or will be able to pursue freelance or self-employment opportunities. The course provides professional development opportunities for those already employed in publishing, education, library services as well as published authors. Throughout the course, students will be exposed, not just to knowledge of writing and literature, but also to practices and ways of understanding writing as a cross-disciplinary activity which intersects with other creative and communication fields in digital, promotional and multimedia landscapes.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire specialised knowledge of various aspects of writing and literature in particular the interplay between the study of literature and the production of effective creative and professional writing and specialised skills.  Apply this knowledge through independent critical thinking, sophisticated practice, and the ability to communicate ideas effectively.
Communication	Communicate through writing that is technically proficient and demonstrates awareness of, or ability to extend, established writing conventions to produce works that communicate complex ideas effectively using suitable written forms and specialised techniques.
Digital literacy	Employ a range of generic and specialised industry digital technologies for the research, production and presentation of texts, including technologies for the innovative generation or dissemination of complex ideas and works, or those required in various specialised professional contexts.
Critical thinking	Demonstrate specialised competencies in the production of texts and discourses informed by rigorous research, close reading, critical thinking and analysis, and by selecting and applying the appropriate writing forms and conventions to provide solutions to complex problems or specialised writing briefs.
Problem solving	Analyse and respond to editorial or publishing briefs or opportunities by employing specialised creative and professional writing or communication strategies to identify, solve or reframe complex aesthetic, theoretical or real-world challenges and limitations.
Self-management	Demonstrate personal and professional responsibility for learning through autonomy, accountability and a continued commitment to specialised learning and skill development, as a reflective practitioner in professional scholarly and other contexts
Teamwork	Actively participate in and make constructive contributions to processes of creative and critical collaboration within or across disciplines, sharing of peer feedback in writing workshops and online forums, and demonstrate professional and ethical negotiation with collaborators and colleagues.
Global citizenship	Demonstrate ethical global citizenship and awareness of cultural diversity and social responsibility when engaging in scholarship and in professional roles and community collaborations.

*Approved by Faculty Board November 2018*

*This course is an exit only course.*

## Course overview

Get an understanding of the complex social, political, and economic issues facing our increasingly-globalised world. Study international and community development at Deakin and get the skills you need to make a difference – both at home and abroad.

Deakin's International and Community Development program is one of the longest running within Australia, giving you the assurance of many years' experience in teaching this highly-developed course.

This professional, cross-disciplinary course is suitable for graduates from all disciplines. Offered as a fully-online program, it is aimed at current and aspiring development professionals keen to deepen their knowledge of the world's development landscape.

The course examines the historical record of development, the socioeconomic and policy dimensions of development, and the foundation of sustainable development. You can specialise in either community development or international development, choosing from electives in areas such as poverty and health, gender and development, food security, microfinance and poverty reduction.

Good development promotes justice, reduces poverty, and builds environments for people to lead productive, creative and fulfilling lives. The course is designed to give you the specialised skills to help drive development projects in local and international communities, gaining expertise in all phases of project delivery including conceptualisation, project design, implementation, monitoring and assessment.

The Internship unit offers a chance to gain first hand work experience in a region or employment sector closely associated with topics studied in the course.

Career opportunities exist working in areas such as social justice, empowerment, poverty alleviation, and community development. These include non-government organisations (NGOs), government agencies, bilateral and multilateral agencies, and private sector consulting. You may seek opportunities in related areas including teaching, the travel industry, consulting enterprises, journalism, and government and non-government agencies concerned with the flow of trade, services, capital and personnel.

## Career opportunities

Employment in the development field provides a wide range of opportunities, both internationally and domestically. Graduates may find employment across the variety of organisations who work for social justice, empowerment, poverty alleviation, and community development. These include civil society organisations such as Non Government Organisations, Government agencies, bilateral, and multilateral agencies, as well as the private sector consulting. There is also potential work opportunities in related areas including teaching, the travel industry, consulting enterprises, journalism, and government and non-government agencies concerned with the flow of trade, services, capital and personnel. Students wishing to pursue a career in further research can take the research pathway.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check. Refer to the relevant unit guide

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Research, critically examine and apply advanced and critical understanding of the theory and practice of international and community development and the contribution of diverse disciplinary worldviews.
Communication	Apply advanced oral, written and interpersonal communication to plan, inform, and debate, complex multidisciplinary and multi-sectoral issues for improved social, environmental and economic outcomes to a range of audiences and contexts
Digital literacy	Apply advanced knowledge of digital information sources and applications to source, analyse and report on complex data and information for effective research and professional development, across interpersonal, organisational and professional cultures.
Critical thinking	Investigate, critically analyse, report and propose actions to act on a range of global and local issues and opportunities in historical and contemporary development discourse.
Problem solving	Research, comprehend, interpret and evaluate competing options for solving complex or "wicked" problems with creativity, innovation and respect.
Self-management	Work as an autonomous responsible, respectful, accountable and self-reflective practitioner, committed to ongoing learning and professional development in diverse international and community development contexts.

Deakin graduate learning outcomes	Course learning outcomes
Teamwork	Contribute to effective collaboration and achievement of mutually agreed upon team outcomes through active, engaged, respectful and self-reflective participation in research and practice, across local and global cultures and disciplines, including multidisciplinary contexts.
Global citizenship	Question, examine and engage in a range of social justice, environmental and development issues taking into consideration cross-cultural, indigenous, local and global contexts

Approved by Faculty Board 2018

## Course rules

To qualify for the Graduate Diploma of International and Community Development (ICD), a student must successfully complete AAI018 Academic Integrity (0-credit-point compulsory unit) and 8 cp of units

## Course structure

### Core

ADS701 Introduction to International and Community Development

ADS715 Cross Cultural Communication and Practice

### Electives

Plus, ANY six electives from:

ADS704 Community Development Theory and Practice A

ADS705 Participatory and Community Development Practice

ADS711 Non-Government Organisations and other Development Actors

ADS733 The Economic Development Record

ADS734 Political Development Record

ADS720 Arts and Sports-based Approaches to Community Development

ADS721 Policy and Advocacy in Development Contexts

ADS722 Private Sector Development: Corporations, Social-Enterprise and Microfinance

ADS723 The Development Project Cycle

ADS753 International and Community Development Internship (2 credit points)

ADH712 Food Security

ADH714 Gender and Development

ADH717 Sustainability and Development

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Diploma of Humanitarian Assistance

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Humanitarian Assistance
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A667
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Good humanitarian action is intended to save lives, alleviate suffering and maintain human dignity before and during and after disasters and conflict. This is informed by principles of Humanity; Impartiality; Neutrality and Independence.

Effective humanitarianism involves quality preparedness and delivery of aid, working with affected communities and populations, their representatives and other stakeholders, to ensure their identified needs are met. Increasing complexity of humanitarian contexts requires an agile approach focussed on locally led action where possible and global engagement where required. Studying at Deakin will provide you with an introduction to the skills, knowledge, understanding and capability to be an effective worker in this dynamic and evolving system.

## Career opportunities

The Graduate Diploma of Humanitarian Assistance will improve your understanding of the humanitarian system and provide an opportunity for potential employment in the humanitarian system. Employment in the humanitarian field is expanding, including in related areas, such as teaching, training, organisation and community capacity building, disaster risk reduction assessment and programming, consulting enterprises, journalism and communications, project management and community development. Opportunities are available in government and non-government agencies concerned with the provision of all aspects of emergency and humanitarian action including service provision, logistical support, communications, program management and support, community engagement and support, funding, coordination, monitoring and evaluation.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply specialised knowledge of the historical development of humanitarianism and relate this knowledge to the humanitarian contexts, through analysing current and future sector-wide trends and applying learning, sector standards and strategies to a range of complex national and international situations.
Communication	Communicate the theories and practices of humanitarian action and influence and engage a diverse variety of stakeholders to effect change.
Digital literacy	Select and apply communication technologies to conduct and critically analyse research, communicate findings and other information and build relationships to engage a diverse group of stakeholders.
Critical thinking	Review and critically analyse current local and political aid environments, synthesise knowledge from a variety of stakeholders and critically reflect on current and future humanitarian trends to propose solutions and prioritise actions.
Problem solving	Use creative and critical thinking and high level professional judgement to identify resources, to engage stakeholders, and to plan and evaluate a range of solutions and responses to complex humanitarian problems.
Self-management	Engage in critical self-reflection through independent learning, commitment to continuing professional development and through receiving feedback.
Teamwork	Not explicitly assessed
Global citizenship	Apply humanitarian principles and values, and actively engage in humanitarian operations across a variety of contexts taking into consideration cultural, social, political, economic, environmental and ethical issues.

*Approved by Faculty Board October 2018*

## Course rules

To qualify for the award of Graduate Certificate of Humanitarian Assistance, a student must successfully complete 8 credit points of study comprising:

- 2 credit points of core units
- Any 6 credit points of humanitarian (AHA) or identified ADH or AIR coded units
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

- AHL701 The Humanitarian World
- AHA716 Humanitarian Settlement

### Electives

Any 6 Humanitarian (AHA) or ADH or AIR coded units selected from:

- AHA721 Dynamics and Dilemmas of the Humanitarian Sector
- AHA722 Applied Humanitarian Assistance: From Theory to Practice
- AHA723 Fundamentals of Humanitarian Management
- AHA724 Disaster Risk Reduction and Management in Humanitarian Contexts
- AHA725 Project and Financial Management in Humanitarian Contexts
- ADH702 Humanitarian – Development Nexus
- ADH703 Evidence and Decision Making in Humanitarian Action
- AIR707 The United Nations and International Organisation
- AIR717 International Conflict Analysis
- AIR726 Human Rights in World Politics

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

### Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Diploma of Cultural Heritage

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Diploma of Cultural Heritage
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A685
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*This is an exit only course option from the Masters of Cultural Heritage.*

## Course overview

The Graduate Diploma of Cultural Heritage aims to produce graduates who are able to demonstrate, in their professional life, high level skills across a broad range of heritage practice. These courses are designed to develop an extensive, cross-disciplinary knowledge of heritage principles and practice and an awareness of community sensitivities.

## Alternate exits

A585

## Course rules

To exit from the Masters of Cultural Heritage with an award of Graduate Diploma of Cultural Heritage a student must have successfully completed 8 credit points of Cultural Heritage and Museum Studies coursework units including:

4 credit points of compulsory core units below

- AIM705 Conservation Management Planning
- AIM723 Heritage Interpretation
- AIM734 Understanding Significance
- AIM736 Museums, Heritage and Society

AND 4 credit points from the specified list of units below

- AIM703 Introduction to Heritage Planning
- AIM704 Heritage, Development and Tourism in the Asia-Pacific Region
- AIM708 World Heritage and International Heritage Practice
- AIM709 Intangible Heritage
- AIM714 Cultural Landscapes
- AIM715 Virtual Heritage
- AIM717 Heritage in the Field
- AIM722 Collections and Curatorship
- AIM727 Exhibitions
- AIM733 Applied Heritage Project
- AIM735 Leadership in Museums and Heritage Organisations

AND if commencing after 2018:

Students must also pass AAI018 Academic Integrity (0-credit-point compulsory unit)

# Master of Development and Humanitarian Action

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Development and Humanitarian Action

<i>Cloud Campus</i>	No
<i>Duration</i>	2 years full-time or part-time equivalent
<i>Deakin course code</i>	A705 (version 1)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Offered to continuing students only. Continuing students should contact a course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Natural disasters, poverty, injustice, conflict. All around the world, the environment in which development and humanitarian workers find themselves is more complex and diverse than ever.

This course – developed in association with Save the Children – builds a unique, global platform where development & humanitarian practitioners and academics can share knowledge and experience, with a focus on improving leadership, preparedness and response capacities to national and international emergencies and developmental issues.

Deakin's Master of Development and Humanitarian Action provides you with the analytical skills needed to understand the contexts of development and humanitarian programs as well as practical skills to apply in the field.

## Career opportunities

Students completing this course will be able to work in the development and humanitarian sector. This includes working for both international based non-governmental organisations as well as local community based organisations, national and provincial government departments, donors and multi-lateral organisations.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire advanced and integrated understanding of development and humanitarian action and expert cognitive skills in the synthesis, and application of theory and practice in development and humanitarian action within diverse disciplinary contexts and worldviews.
Communication	Apply oral, written and interpersonal communication to plan, inform, and debate complex multi-disciplinary and multi-sectoral issues for improved social, environmental and economic outcomes to a wide range of audiences, and contexts.
Digital literacy	Demonstrate the ability to research, analyse, report and communicate complex information via the employment of a range of sector-specialised and generic technological modes to a wide variety of audiences including development, humanitarian, professional and scholarly communities.
Critical thinking	Investigate, critically analyse, synthesise and report on issues facing contemporary development and humanitarian scenarios in light of established concepts and practice and design and develop interventions, solutions and strategies to address them.
Problem solving	Demonstrate initiative, creativity and intellectual rigor in researching, identifying, planning, implementing, managing people and processes and evaluating proposed innovative responses to complex situations and problems encountered in a range of development and humanitarian emergencies, locally and globally.
Self-management	Plan, organise and perform as an independent and reflective practitioner in the field as well as in the sector generally, demonstrating a commitment to continuing professional development, scholarly research and professional contribution.
Teamwork	Contribute to effective global and local collaboration, participation and achievement of mutually understood outcomes through sensitive, self-reflective and active engagement with research and practice, across cultures and disciplines.
Global citizenship	Question, engage, provoke and innovate to ensure social justice, reduce poverty, promote environmental sustainability, and increase equality in personal and professional capacity to ensure environments conducive to achieving creative and fulfilling lives.

*Approved by Faculty Board October 2016*

## Course rules

To qualify for the award of Master of Development and Humanitarian Action, a student must successfully complete 16 credit points of study as listed below.

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

*Note: Course structure is currently under revision*

Each unit below is delivered on FutureLearn and takes approximately 10 weeks to complete in addition to assessment tasks. These units are broken down into easily-manageable two-week blocks, allowing you the freedom to fit learning around your work, family and lifestyle.

ADS701	Introduction to International and Community Development
ADS734	Political Development Record
AHL701	The Humanitarian World
AHA721	Dynamics and Dilemmas of the Humanitarian Sector
AHA722	Applied Humanitarian Assistance: From Theory to Practice
ADS717	(Replaced by ADH717)
AHA725	Project and Financial Management in Humanitarian Contexts
ADS733	The Economic Development Record
ADS714	(Replaced by ADH714)
ADS711	Non-Government Organisations and other Development Actors
AHA724	Disaster Risk Reduction and Management in Humanitarian Contexts
ADS721	Policy and Advocacy in Development Contexts
AHA723	Fundamentals of Humanitarian Management
ADS712	(replaced by ADH712)
AHA716	Humanitarian Settlement

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Arts (International Relations)

Year	2019 course information
Award granted	Master of Arts (International Relations)
Campus	Offered at Burwood (Melbourne), Cloud (online)
Duration	2 years full-time or part-time equivalent
CRICOS course code	084542G
Deakin course code	A723 (version 1)

*Offered to continuing students only. Continuing students should contact a course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Deakin's Master of Arts (International Relations) aims to produce graduates who are able to demonstrate high-level skills of theoretical and empirical analysis and interpretation of global issues and events. In addition the course will give you a substantial understanding of the complexities of contemporary international relations.

The program is designed for those working in areas such as the public service, private sector corporations, small businesses and non-government organisations who want to develop systematic understanding of the international forces shaping their environment, and enhance their skills in analysis and interpretation.

The program provides the opportunity to examine key contemporary issues and developments in the Asia Pacific region and globally. Students develop skills in policy analysis, systematic understanding of the threats to peace and security, and global forces shaping political, social and economic life.

The program also offers optional postgraduate internships, allowing you an opportunity to gain experience overseas.

## Career opportunities

Career opportunities for international relations graduates exist in all levels of government, private sector corporations and small business, non-government organisations, the media, consultancy, the defence forces, foreign affairs departments, immigration departments, management consultancies, multicultural associations, education, health, politics and research.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To be awarded a Master of Arts (International Relations) a student must successfully complete 16 credit points comprising:

- 6 core units
- 10 credit points of study combining research and elective units in one of the following configurations

### Option 1

- 2 credit points of research training (AIX706 Research Design, plus one of AIX707 Qualitative Research or AIX708 Quantitative Research)
- 4 credit points independent research project (AIX702 Dissertation A, AIX703 Dissertation B)
- 3 credit points of electives

## Option 2

- 2 credit points of research training (AIX706 Research Design, one of AIX707 Qualitative Research or AIX708 Quantitative Research)
- 2 credit points independent research project (AIX704 Research Paper A and AIX705 Research Paper B)
- 5 credit points of electives

## Option 3

- 1 credit point research training (AIX706 Research Design)
- 1 credit point independent research project (AIX701 Research Project)
- 7 credit points of electives

## Specialisations

Refer to the details of each specialisation for availability.

To qualify for a specialisation within the Master of Arts (International Relations), a student must successfully complete 4 credit points of study from within that specialisation. Students who complete a specialisation of four (4) credit points will have the specialisation indicated on their academic transcript.

Specialisations are available in the following areas:

- Asia-Pacific Regional Politics
- Conflict and Security
- Human Rights and International Law
- International Political Economy and Global Governance

## Course structure

### Core units

AIR707	The United Nations and International Organisation
AIR726	Human Rights in World Politics
AIR728	Global Political Economy

# Master of Arts (International Relations)

Year	2019 course information
Award granted	Master of Arts (International Relations)
Cloud Campus	Yes
Duration	1 year full time or part time equivalent
Deakin course code	A723 (version 2)

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Get high-level skills in theoretical and empirical analysis to interpret global issues.

This course is ideal if you work in public service, the private sector or for a small business, as you'll learn how international forces shape your environment.

You'll develop skills in policy analysis, get a systematic understanding of the threats to peace and security, and global forces shaping political, social and economic life.

The Master of Arts (International Relations) aims to produce graduates who are able to demonstrate high-level skills of theoretical and empirical analysis and interpret global issues and events. This course will give you a substantial understanding of the complexities of contemporary international relations.

You'll examine key contemporary issues and developments around the world, particularly in the Asia Pacific region. The program also offers optional postgraduate internships, giving you the opportunity to get experience overseas.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Review and analyse major theoretical, conceptual and policy debates and disputes in International Relations pertaining to foreign policy, conflict and security, international and regional politics, globalisation, and international law with reference to empirical cases.
Communication	Effectively communicate the findings and analyses of International Relations theories, concepts and their application to real-world contexts, in a selection of written, oral and digital formats, to a range of audiences.
Digital literacy	Employ a range of digital communication technologies and platforms appropriately to conduct research, engage in debate, communicate findings, and deliver reports and presentations to a diverse range of audiences.
Critical thinking	Analyse, critically evaluate and synthesise theoretical conceptualisations of international politics and policy responses by a range of actors in the context of the changing international political system.

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Employ initiative and creativity in conjunction with appropriate Social Science methods of research and analysis to investigate complex real-world problems in a systematic manner and generate and evaluate potential responses to issues in the areas of conflict and security, globalization, international crises and risks, foreign policy and international law.
Self-management	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skill development personally, academically and professionally in the field of International Relations.
Teamwork	Work and learn collaboratively with others in the field of International Relations and from other backgrounds while still maintaining responsibility for their own learning.
Global citizenship	Analyse and respond to issues in global politics in domestic, regional and international contexts as a reflective scholar and practitioner, taking into account cultural and socio-economic diversity, social and environmental responsibility and adherence to professional and academic ethical standards.

Approved by Faculty Board May 2014

## Course rules

To be awarded a Master of Arts (International Relations) a student must successfully complete 16 credit points comprising:

- 4 core units
- 12 credit points of study combining research and elective units in one of the following configurations:

### Option 1

- 6 credit points of research project units (AIX706; AIX707 or AIX708; AIX702 (2cps); AIX703 (2cps))
- 6 credit points of electives chosen from the specialisations or general electives

### Option 2

- 4 credit points of research units (AIX704; AIX705; AIX706; AIX707 or AIX708)
- 8 credit points of electives chosen from the specialisations or general electives

### Option 3

- 2 credit point of research units (AIX701 and AIX706)
- 10 credit points of electives chosen from the specialisations or general electives

## Specialisations

Students who complete a specialisation of 4 credit points will have the specialisation indicated on their academic transcript.

Specialisations are available in the following areas:

- Asia-Pacific Regional Dynamics
- Conflict and Security
- Human Rights and International Law
- International Political Economy and Global Governance
- Transnational Activism and Civil Society
- General electives

## Course structure

### Core units

AIR707	The United Nations and International Organisation
AIR742	International Relations Theory
AIR747	Contemporary International Politics
AIR748	Security and Strategy

### Option 1

AIX702	Dissertation A (2 credit points)
AIX703	Dissertation B (2 credit points)
AIX706	Research Design

Plus either

AIX707	Qualitative Research
--------	----------------------

or

AIX708	Quantitative Research
--------	-----------------------

Plus 6 electives chosen from the specialisations

### Option 2

AIX704	Research Paper A
AIX705	Research Paper B
AIX706	Research Design

Plus either

AIX707	Qualitative Research
--------	----------------------

or

AIX708	Quantitative Research
--------	-----------------------

Plus 8 electives chosen from the specialisations

### Option 3

AIX706	Research Design
AIX701	Research Project

Plus 10 electives chosen from the specialisations

## Details of specialisations

## Course overview

Get high-level skills in theoretical and empirical analysis to interpret global issues.

This course is ideal if you work in public service, the private sector or for a small business, as you'll learn how international forces shape your environment.

You'll develop skills in policy analysis, get a systematic understanding of the threats to peace and security, and global forces shaping political, social and economic life.

The Master of Arts (International Relations) aims to produce graduates who are able to demonstrate high-level skills of theoretical and empirical analysis and interpret global issues and events. This course will give you a substantial understanding of the complexities of contemporary international relations.

You'll examine key contemporary issues and developments around the world, particularly in the Asia Pacific region. The program also offers optional postgraduate internships, giving you the opportunity to get experience overseas.

## Career opportunities

Career opportunities for international relations graduates exist in all levels of government, private sector corporations and small business, non-government organisations, the media, consultancy, the defence forces, foreign affairs departments, immigration departments, management consultancies, multicultural associations, education, health, politics and research.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Research information

Students will undertake research training and complete a research project in one of the three following options:

- one credit points of research training in research design, and a one credit point research project;
- one credit point of research training in research design and methods (qualitative or quantitative), and a two credit point research project; or
- two credit points of research training in research design and methods (qualitative or quantitative), and a four credit point research project developed in consultation with a supervisor from the relevant discipline

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Approved by Faculty Board May 2014

## Course rules

The Master of Arts (International Relations) is typically 8, 12 or 16 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To be awarded a Master of Arts (International Relations) a student must successfully complete the following:

- 6 core units
- AAI018 Academic Integrity (0-credit-point compulsory unit)
- 10 credit points of study combining research and elective units in one of the following configurations:

### Option 1 PhD Pathway

- 6 credit points of research project units (AIX706; AIX707 or AIX708; AIX702 (2cps); AIX703 (2cps))
- 4 credit points of electives chosen from the specialisations or general electives

### Option 2 Research Paper

- 3 credit points of research units (AIX704; AIX705; AIX706)
- 7 credit points of electives chosen from the specialisations or general electives

### Option 3 Research Project

- 2 credit point of research units (AIX701 and AIX706)
- 8 credit points of electives chosen from the specialisations or general electives

## Specialisations

Students who complete a specialisation of 4 credit points will have the specialisation indicated on their academic transcript.

Specialisations are available in the following areas:

- Asia-Pacific Regional Dynamics
- Conflict and Security
- Human Rights and International Law
- International Political Economy and Global Governance
- Transnational Activism and Civil Society
- General electives

## Course structure

### Core units

AIR707	The United Nations and International Organisation
AIR742	International Relations Theory
AIR747	Contemporary International Politics
AIR748	Security and Strategy
AIR728	Global Political Economy
AIR726	Human Rights in World Politics

### *Option 1 PhD Pathway*

AIX702	Dissertation A (2 credit points)
AIX703	Dissertation B (2 credit points)
AIX706	Research Design

Plus either

AIX707 Qualitative Research

or

AIX708 Quantitative Research

Plus 4 electives chosen from the specialisations or general electives

### *Option 2 Research Paper*

AIX704	Research Paper A
AIX705	Research Paper B
AIX706	Research Design

Plus either

AIX707 Qualitative Research

or

AIX708 Quantitative Research

Plus 6 electives chosen from the specialisations or general electives

### *Option 3 Research Project*

AIX706	Research Design
AIX701	Research Project

Plus 8 electives chosen from the specialisations or general electives

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Details of specialisations

### ***Asia-Pacific Regional Dynamics***

*Burwood (Melbourne), Cloud (online)*

#### Units

AIR701	China and the World
AIR712	Australian Foreign Policy

# Master of International and Community Development

Year	2019 course information
Award granted	Master of International and Community Development
Campus	Cloud (Online) (For students who commenced prior to 2014 only)
Duration	1.5 years full-time or part-time equivalent
CRICOS course code	036085D
Deakin course code	A727 (version 2)

*The final intake to this course version was in 2013.*

*Students who commenced in 2014 should refer to the course version for that year.*

*Students who commenced between 2015 and 2017 should refer to the course version for those years.*

*Students who commenced after 2017 should refer to the current version.*

*Further course structure information can be found in the handbook archive.*

## Course overview

The Master of International and Community Development is a professional coursework degree designed to serve the needs of those seeking a graduate qualification in international development studies and/or community development. As a graduate of this course you will gain expertise to design and lead creative, effective and culturally-sensitive ways of responding to the challenge of poverty and disempowerment. The philosophical foundation is based on your commitment to work globally and locally, learn from others and remain people-centred.

## Course rules

Students must successfully complete 12 credit points of study in one of the following configurations:

### Generalist Option

- 2 credit points of core units: ASD704/ADS704 and ASD705/ADS705 Or AID733/ADS733 and AID734/ADS734
- And
- 10 credit points of electives selected from the specified list of units below

### Specialist Options

- Single Specialisation – students may take a specialisation of 6 credit points in either Community Development or International Development (details below) and complete the degree with 6 credit points of electives, making a total of 12 credit points.

Or

- Double Specialisation – students may take both specialisations in Community Development (6cp) and International Development (6cp), including the core units from each specialisation.

In both the generalist and single specialist options students may take 4 credit points of Indonesian Language (AIF-coded units listed below) as electives. This option is not available to students undertaking the double specialisation.

The dissertation component (AIX702 and AIX703) provides a research pathway for students to apply for entry to PhD.

## Course structure

### **Community Development specialisation**

Students wishing to undertake a Community Development specialisation must complete 6 credit points of Community Development units (formerly ASD coded units), including core units ASD704/ADS704 and ASD705/ADS705, and 6 credit points of electives from the following list.

#### Core units

- ADS704 Community Development Theory and Practice A (Formerly ASD704)
- ADS705 Participatory and Community Development Practice (Formerly ASD705)

### **International Development specialisation**

Students wishing to undertake an International Development specialisation must complete 6 credit points of International Development units (formerly AID units), including core units AID733/ADS733 and AID734/ADS734, and 6 credit point of electives listed below.

#### Core units

- ADS733 The Economic Development Record (Formerly AID733)
- ADS734 Political Development Record (formerly AID734)

### **Double specialisation – Community Development and International Development specialisations**

Students wishing to undertake both the Community Development and International development specialisations must complete 6 credit points of Community Development (formerly ASD-coded units), including core units ASD704/ADS704 and ASD705/ADS705, and 6 credit points of International development (formerly AID-coded units), including core units AID733/ADS733 and AID734/ADS734.

#### Core units

- ADS704 Community Development Theory and Practice A (Formerly ASD704)
- ADS705 Participatory and Community Development Practice (Formerly ASD705)
- ADS733 The Economic Development Record (Formerly AID733)
- ADS734 Political Development Record (Formerly AID734)

#### International Development electives

- ADS710 Microfinance for Poverty Reduction (No longer available for enrolment)
- ADS711 Non-Government Organisations and other Development Actors (formerly AID711)
- ADH712 Food Security (formerly AID712, ADS712)
- ADS713 Aid, Trade and Development (No longer available for enrolment)
- ADH714 Gender and Development (formerly AID714, ADS714)
- ADS724 Humanitarian Emergencies and Disaster Relief (No longer available for enrolment)
- ADS733 The Economic Development Record (formerly AID733)
- ADS734 Political Development Record (formerly AID734)
- ADS735 Conflict Resolution and Development (No longer available for enrolment)
- ADS740 Participatory Approaches to Development (No longer available for enrolment)

#### Community Development electives

- ADS704 Community Development Theory and Practice A (formerly ASD704)
- ADS705 Participatory and Community Development Practice (formerly ASD705)
- ADH716 Humanitarian Settlement (formerly ASD716, ADS716)
- ADS715 Cross Cultural Communication and Practice (formerly ASD715)

#### General electives

- ADS753 International and Community Development Internship (2 credit points – formerly AID753)
- AIP773 Governance and Accountability
- ASS705 Anthropology of Poverty and Development
- ASS706 Poverty, Health and Illness

## **Indonesian Language**

### **Units**

AIF142	Conversational Indonesian B
AIF146	The Language, Culture and People of Indonesia

Or

### **Professional Practice Stream**

- ADS753 International and Community Development Internship

Plus electives from the list below to a total of 16 credit points

## **Dual Specialisation – International Development and Community Development**

Students wishing to undertake a Dual Specialisation must complete the following:

### **Core units**

Students are recommended to complete ADS701 Introduction to International and Community Development in their first year of study

- ADS701 Introduction to International and Community Development
- ADS704 Community Development Theory and Practice A
- ADS705 Participatory and Community Development Practice
- ADS707 Researching and Working with Communities A (No longer available for enrolment)
- ADS708 Researching and Working with Communities B (No longer available for enrolment)
- ADS733 The Economic Development Record
- ADS734 Political Development Record

And

### **Further Research Stream**

- AIX702 Dissertation A

And

- AIX703 Dissertation B

Or

### **General Stream**

- ADS718 Minor Dissertation (No longer available for enrolment)

Or

### **Professional Practice Stream**

- ADS753 International and Community Development Internship

Plus electives from the list below to a total of 16 credit points

**Electives for all options**

ADS704	Community Development Theory and Practice A
ADS705	Participatory and Community Development Practice
ADS710	Microfinance for Poverty Reduction (No longer available for enrolment)
ADS711	Non-Government Organisations and other Development Actors
ADH712	Food Security (formerly ADS712)
ADS713	Aid, Trade and Development (No longer available for enrolment)
ADH714	Gender and Development (formerly ADS714)
ADS715	Cross Cultural Communication and Practice
ADH716	Humanitarian Settlement (formerly ADS716)
ADH717	Sustainability and Development (formerly ADS717)
ADS724	Humanitarian Emergencies and Disaster Relief (No longer available for enrolment)
ADS733	The Economic Development Record
ADS734	Political Development Record
ADS735	Conflict Resolution and Development (No longer available for enrolment)
ADS740	Participatory Approaches to Development (No longer available for enrolment)
ADS753	International and Community Development Internship (2 credit points)
AIP747	Program and Policy Evaluation (No longer available for enrolment, alternative unit: AIP704);
AIP773	Governance and Accountability
ASS705	Anthropology of Poverty and Development
ASS706	Poverty, Health and Illness

# Master of International and Community Development

Year	2019 course information
Award granted	Master of International and Community Development
Campus	Cloud (Online) (For students who commenced between 2015 and 2017 only)
Duration	1 year full time or part time equivalent
Deakin course code	A727 (version 4)

*The final intake to this course version was in 2017. Students who commenced after 2017 should refer to the current version. Further course structure information can be found in the handbook archive.*

## Course overview

Get the expertise to respond to challenges of poverty, disempowerment and wider development aspirations in creative, effective and culturally-sensitive ways.

Good development promotes justice, reduces poverty and builds environments for people to lead sustainable, productive and fulfilling lives.

Development programs and project work for poverty reduction and social cohesion are major areas of professional employment. You can focus your studies on countries undergoing the development process or on communities within Australia.

Deakin's Master of International and Community Development provides you with analytical skills to understand the contexts of development programs as well as practical skills. These skills help you formulate, resource, implement, and evaluate international and community development projects.

As part of this course, you'll be required to undertake research in a relevant area. You'll also develop a good balance of theoretical knowledge and practical skills to allow you to undertake projects that benefit the communities in which you work.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire advanced and integrated understanding of international community development and expert cognitive skills in the synthesis, and application of theory and practice in international and community development within diverse disciplinary contexts and worldviews.
Communication	Apply oral, written and interpersonal communication to plan, inform, and debate complex multi-disciplinary and multi-sectoral issues for improved social, environmental and economic outcomes to a wide range of audiences, and contexts.
Digital literacy	Source, analyse and report on complex data and information for effective research and professional development, across interpersonal, organisational and professional contexts.
Critical thinking	Investigate, critically analyse, report and act on global and local issues and opportunities in historical and contemporary development discourse.

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Use advanced skills in the comprehension and interpretation of competing options for solving complex or “wicked” problems with creativity, innovation and respect.
Self-management	Plan, organise and manage competing demands on time, to work mindfully in a personal and professional capacity cross culturally.
Teamwork	Contribute to effective global and local collaboration, participation and achievement of mutually understood outcomes through sensitive, self-reflective and active engagement with research and practice, across cultures and disciplines.
Global citizenship	Question, engage, provoke and innovate to ensure social justice, reduce poverty, promote environmental sustainability, and increase equality in personal and professional capacity to ensure environments conducive to achieving creative and fulfilling lives.

Approved by Faculty Board June 2014

## Course rules

To qualify for the Master of International Community Development, a student must successfully complete 16 credit points of study according to one of the options listed below.

## Course structure

### Core units and streams

Students complete three core units (3 credit points), plus one of three streams (2 credit points or 4 credit points), plus one of three research options (2 credit points, 4 credit points or 6 credit points) plus electives to a total of 16 credit points.

### Core units

Students are recommended to complete ADS701 Introduction to International and Community Development in their first year of study

- ADS701 Introduction to International and Community Development
- ADS707 Researching and Working with Communities A (No longer available for enrolment)
- ADS708 Researching and Working with Communities B (No longer available for enrolment)

### Streams

#### *International Development Stream*

- ADS733 The Economic Development Record
- ADS734 Political Development Record

#### *Community Development Stream*

- ADS704 Community Development Theory and Practice A
- ADS705 Participatory and Community Development Practice

#### *Dual Stream – International Development and Community Development*

- ADS704 Community Development Theory and Practice A
- ADS705 Participatory and Community Development Practice
- ADS733 The Economic Development Record
- ADS734 Political Development Record

## Research options

### *Option 1: Research Project (6 cp)*

AIX706 Research Design

Plus one of

AIX707 Qualitative Research

Or

AIX708 Quantitative Research

Students then complete:

AIX702 Dissertation A (2cp)

And

AIX703 Dissertation B (2cp)

### *Option 2: Research Paper (4 cp)*

AIX706 Research Design

Plus one of

AIX707 Qualitative Research

Or

AIX708 Quantitative Research

Students then complete:

AIX704 Research Paper A

And

AIX705 Research Paper B

### *Option 3: Research Project (2 cp)*

AIX706 Research Design

Students then complete:

AIX701 Research Project

## Electives

ADS704 Community Development Theory and Practice A

ADS705 Participatory and Community Development Practice

ADS710 Microfinance for poverty reduction (No longer available for enrolment)

ADS711 Non-Government Organisations and other Development Actors

ADH712 Food Security (formerly ADS712)

ADS713 Aid, Trade and Development (No longer available for enrolment)

ADH714 Gender and Development (formerly ADS714)

ADS715 Cross Cultural Communication and Practice

ADH716 Humanitarian Settlement (formerly ADS716)

ADH717 Sustainability and Development (formerly ADS717)

ADS734 Political Development Record

ADS735 Conflict Resolution and Development (No longer available for enrolment)

ADS740 Participatory Approaches to Development (No longer available for enrolment)

ADS753 International and Community Development Internship (2 credit points)

AIP747 Program and Policy Evaluation (No longer available for enrolment, alternative unit: AIP704);

AIP773 Governance and Accountability

ASS705 Anthropology of Poverty and Development

ASS706 Poverty, Health and Illness

# Master of Politics and Policy

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Politics and Policy
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Cloud Campus</i>	No
<i>Duration</i>	<p>Depending on your professional experience and previous qualifications, the Master of Politics and Policy is typically 1, 1.5 or 2 years duration.</p> <ul style="list-style-type: none"> <li>• 1 year full time (2 years part time) – 8 credit points</li> <li>• 1.5 years full time (3 years part time) – 12 credit points</li> <li>• 2 years full time (4 years part time) – 16 credit points</li> </ul> <p>Deakin courses can also be studied part time over a longer period.</p>
<i>Deakin course code</i>	A729
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*This course version is for continuing students only.*

## Course overview

This course focuses on the development, implementation and politics of public policy.

Explore our role as citizens in the Australian community, the nature of diverse ideologies and the close relations between government, the private sector and community organisations.

The focus on democratic governance within contemporary contexts characterised by rapid change and globalisation distinguishes this course from traditional public policy studies.

The Master of Politics and Policy emphasises a dual focus on politics and public policy and offers a wide range of core units and elective units to appeal to public sector, business, NGO and community sector managers and leaders, and those wishing to acquire new skills.

The units explore public policy analysis frameworks, governance and accountability, political communication, managing public spending and corporate social responsibility.

You'll undertake practical training focused on the relations between government, the private sector and community organisations, and between different levels of government.

## Career opportunities

The courses are designed as professional development programs for early or mid-career professionals or for those involved in or, seeking to become involved in, policy making and management within the public, community and business sectors, domestically and internationally.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Research information

Students will undertake research training and complete a research project in one of the three following options:

- one credit point of research training in research design, and a one credit point research project;
- one credit point of research training in research design and methods (qualitative or quantitative), and a two credit point research project; or
- two credit points of research training in research design and methods (qualitative or quantitative), and a four credit point research project developed in consultation with a supervisor from the relevant discipline

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Use advanced knowledge of, and expert, specialised cognitive skills in Politics and Policy in professional practice or scholarship and apply this knowledge and skills to different contexts.</p> <p>Gain an advanced understanding of Public policy analysis frameworks and the development and implementation of public policy under conditions of democratic governance and accountability within contemporary contexts characterised by rapid change and globalisation</p>
Communication	Acquire communication skills to design, evaluate analyse and disseminate the findings of research that deploys political concepts, theories and technical knowledge, in a selection of written, digital and oral formats, to a range of specialist and non-specialist audiences.
Digital literacy	Employ a range of generic and specialist politics-specific digital communication technologies to apply political knowledge, to conduct political research, and to deliver reports and presentations to a diverse range of specialist and non-specialist audience.
Critical thinking	<p>Analyse and critically evaluate different interpretations of political phenomena.</p> <p>Demonstrate mastery of the research methods used to investigate political phenomena and technical skills in the design, evaluation, analysis of developments that contribute to professional practice or scholarship in governance and policy.</p>

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Utilise advanced understanding of the process of government and public sector management in professional practice and/or scholarship to generate approaches and solutions to complex problems of politics and governance.  Demonstrate advanced skills in investigating and analysing complex political phenomena using qualitative methodologies including textual, discursive and historical analysis, process tracing, and ethnographic techniques.
Self-management	Demonstrate the application of skills and knowledge in Politics and Policy with high level personal autonomy, responsibility, accountability in situations of professional practice and/or for further learning.
Teamwork	Work and learn collaboratively with others in the field of political science and from different disciplines and backgrounds while still maintaining responsibility for one's own learning.
Global citizenship	Analyse and address political issues in both domestic and global contexts as a reflective scholar and practitioner, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and the application of the highest ethical standards.

Approved by Faculty Board October 2015

## Course rules

The Master of Politics and Policy is typically 8, 12 or 16 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To qualify for the award of Master of Politics and Policy, a student must successfully complete the following:

- 4 credit points of compulsory core units;
- AAI018 Academic Integrity (0-credit-point compulsory unit) and;
- 12 credit points of study combining research and elective units in one of the following configurations:

### Option 1: Dissertation

- 2 credit points of research training (AIX706, plus one of AIX707 or AIX708)
- 4 credit points of research project (AIX702, AIX703)
- 6 credit points of electives

### Option 2: Research Paper

- 1 credit point of research training (AIX706)
- 2 credit points of independent research project (AIX704, AIX705)
- 9 credit points of electives

### Option 3: Research Project

- 1 credit point of research training (AIX706)
- 1 credit point independent research project (AIX701)
- 10 credit points of electives

## Course structure

### Core units

AIP740	Policy Lessons From Overseas
AIP773	Governance and Accountability
AIP783	Rethinking Democracy
AIP704	Making Policy

### Research units

AIX701	Research Project
AIX702	Dissertation A
AIX703	Dissertation B
AIX704	Research Paper A
AIX705	Research Paper B
AIX706	Research Design
AIX707	Qualitative Research
AIX708	Quantitative Research

### Elective units

AIP703	Political Values and Public Policy
AIP746	Challenges to Democratic Governance
AIP748	Intergovernmental Relations
AIP786	Social and Environmental Accountability (no longer available for enrolment)
AIP780	Managing Public Expenditure
AIP781	Political Communication
AIP782	Engaging for Change
AIP785	Political Competition

Students may undertake up to 3 credit points of electives from any other postgraduate course offered by any Faculty, with the Course Director's approval.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Master of Communication

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Communication
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	084000E
<i>Deakin course code</i>	A743 (version 1)

*Offered to continuing students only*

## Course overview

The Master of Communication is a stimulating course which creates professionals with advanced knowledge of communication, theory, analysis, research and skills. The course recognises the advances in communication technologies and the increasing globalisation of business enterprises.

The course is designed for those wanting to enter the professional communication industry and those already in the industry wanting to gain or add to their qualifications for career advancement prospects.

You can select to undertake specific and intensive training in the areas of journalism, TV production, visual communication design or public relations with the possibility of cross disciplinary exploration in media and communication. The coherent and flexible course structure allows you to build on your knowledge base so you can move across professional fields. The course acknowledges that a broader range of skills is required to remain competitive and maintain competencies in the industry.

## Professional recognition

Students taking the Public Relations stream may qualify for membership of the Public Relations Institute of Australia (PRIA) by completing 6 credit points of ALR-coded units.

## Alternative exits

A643, A649, A539, A637, A638, A639.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the Master of Communication, a student must successfully complete 16 credit points of study comprising:

Either

- 8 credit points in one of the specialisation options (Journalism, Public Relations, Television Production, Visual Communication Design)

Or

- 8 credit points of Cross-disciplinary Study

Plus

- A further 8 credit points of core units in research methods and independent research writing.

## Specialisations

Refer to the details of each specialisation for availability.

- Journalism
- Public Relations
- Television Production (Burwood campus only)
- Visual Communication Design

## Course structure

### Year 1

- ACX701 Communication Concepts (2 credit points)  
 ACX702 Applied Research Methods for Communication (2 credit points)

Plus 4 credit points of units from your chosen specialisation or 4 credit points from cross disciplinary study

### Year 2

- ACX703 Developing a Communication Research Project  
 ACX704 Academic Research Project 1  
 ACX705 Academic Research Project 2  
 ACX706 Academic Research Project 3

Plus 4 credit points of units from your chosen specialisation or 4 credit points from cross disciplinary study

### Journalism

Students must complete the following 8 cp of study:

- ALJ729 Newsroom Practice  
 ALJ728 Feature Writing  
 ALJ710 Multimedia Journalism  
 ALJ725 Editing and Design in a Multiple Media Environment (No longer available for enrolment)  
 ALJ722 Investigative and Narrative Journalism  
 ALJ724 Law Media and Communication (No longer available for enrolment)  
 ALJ721 International News  
 ACM701 Global Media and Law (No longer available for enrolment)

### Public Relations

Students must complete 8 cp of study, choosing from the following 9 units:

- ALR701 Public Relations Writing and Tactics  
 ALR731 Public Relations Theory and Practice  
 ALR702 Strategic Communication in an Organisational Context (No longer available for enrolment)  
 ALR700 Public Relations Campaigns  
 ALJ724 Law Media and Communication (No longer available for enrolment)  
 ALR704 Reputation Management: Crisis, Risk and Responsibility  
 ALR718 Public Relations, Activism and Social Change  
 ALR710 Marketing Communication  
 ALR782 Public Affairs and Opinion Formation

*Note: Students wishing to qualify for membership of the Public Relations Institute of Australia (PRIA) must select at least 6 credit points of ALR-coded units and complete their research thesis on an approved Public Relations project.*

## Television Production

Students must complete the following 8 cp of study:

ACM712	Writing with the Camera (No longer available for enrolment)
ACM717	Television Commercial Production (No longer available for enrolment)
ACM711	Television Studio Production (No longer available for enrolment)
ACM718	Documentary Production Practice (No longer available for enrolment)
ALJ724	Law Media and Communication (No longer available for enrolment)
ACM701	Global Media and Law (No longer available for enrolment)
ACM714	Fractured TV: Audiences, Formats, Technology and Regulation (No longer available for enrolment)
ALR733	Advertising Theory and Practice

## Visual Communication Design

Students must complete the following 8 cp of study:

ACG702	Digital Publishing
ACG703	Design and Digital Skills
ACG706	Designing for Web Environments
ACM708	Introduction to Digital Photography (No longer available for enrolment)
ACA715	Creative Enterprise Project
ALR733	Advertising Theory and Practice
ACG708	Design Thinking and Problem solving
ACG709	Strategic Branding and Design

## Cross disciplinary study

- A minimum of at least 4 cp of electives from Group 1
- A maximum of up to 4 cp of electives from Group 2

### Group 1 electives

ACF702	Television Commercial Production
ACI700	Introduction to Digital Photography
ACM708	Introduction to Digital Photography (No longer available for enrolment)
ACM711	Television Studio Production (No longer available for enrolment)
ALJ710	Multimedia Journalism
ALJ725	Editing and Design in a Multiple Media Environment (No longer available for enrolment)
ALJ728	Feature Writing
ALJ729	Newsroom Practice
ALR700	Public Relations Campaigns
ALR731	Public Relations Theory and Practice
ALR702	Strategic Communication in an Organisational Context (No longer available for enrolment)
ACM715	Talking Heads: Personality and Persona on Screen (No longer available for enrolment)
ACG702	Digital Publishing
ACG703	Design and Digital Skills
ACG706	Designing for Web Environments

### Group 2 electives

ALJ722	Investigative and Narrative Journalism
ALJ721	International News
ALR704	Reputation Management: Crisis, Risk and Responsibility
ALR782	Public Affairs and Opinion Formation
ALR718	Public Relations, Activism and Social Change
ALR710	Marketing Communication
ACM701	Global Media and Law (No longer available for enrolment)
ACM714	Fractured TV: Audiences, Formats, Technology and Regulation (No longer available for enrolment)
ACM718	Documentary Production Practice (No longer available for enrolment)
ALR733	Advertising Theory and Practice

ALC705	Organisational Communication: Culture, Diversity, Technology and Change (No longer available for enrolment)
ALC706	Culture, Communication and Globalisation: Critical Practices in/and Local Cultures (No longer available for enrolment)
ACA715	Creative Enterprise Project
ACC700	Communication and Creative Arts Internship

## Details of specialisations

### **Journalism**

Students must complete the following 8 credit points of study:

ACM701	Global Media and War (No longer available for enrolment)
ACC717	Law, Media and Communication (Formerly ALJ724)
ALJ710	Multimedia Journalism
ALJ712	Broadcast Journalism
ALJ713	Journalism Portfolio (No longer available for enrolment)
ALJ721	International News
ALJ722	Investigative and Narrative Journalism
ALJ728	Feature Writing
ALJ729	Newsroom Practice

### **Public Relations**

Students must complete 8 credit points of study listed below:

ACC717	Law, Media and Communication (Formerly ALJ724)
ALR700	Public Relations Campaigns
ALR701	Public Relations Writing and Tactics
ALR704	Reputation Management: Crisis, Risk and Responsibility
ALR710	Marketing Communication
ALR718	Public Relations, Activism and Social Change
ALR731	Public Relations Theory and Practice
ALR782	Public Affairs and Opinion Formation

*Note: Students wishing to qualify for membership of the Public Relations Institute of Australia (PRIA) must select at least 6 credit points of ALR-coded units and complete their research thesis on an approved Public Relations project.*

### **Television Production**

Students must complete the following 8 credit points of study:

ACC717	Law, Media and Communication (Formerly ALJ724)
ACF700	Writing with the Camera
ACF701	Television Studio Production
ACF702	Television Commercial Production
ACF703	Fractured TV: Audiences, Formats, Technology and Regulation
ACF704	Talking Heads: Personality and Persona On Screen
ACF705	Documentary Production Practice
ALR733	Advertising Theory and Practice

## Visual Communication Design

Students must complete the following 8 credit points of study:

### Year 1

ACI700	Introduction to Digital Photography
ACG702	Digital Publishing
ACG703	Design and Digital Skills
ACG706	Designing for Web Environments

### Year 2

ACA715	Creative Enterprise Project
ACG708	Design Thinking and Problem solving
ACG709	Strategic Branding and Design
ALR733	Advertising Theory and Practice

## Cross disciplinary study

- A maximum of up to 4 credit points of electives from Group 1
- A minimum of at least 4 credit points of electives from Group 2

### Group 1 electives

ACF700	Writing with the Camera
ACF701	Television Studio Production
ACF702	Television Commercial Production
ACF704	Talking Heads: Personality and Persona On Screen
ACG702	Digital Publishing
ACG703	Design and Digital Skills
ACG706	Designing for Web Environments
ACI700	Introduction to Digital Photography
ALJ710	Multimedia Journalism
ALJ712	Broadcast Journalism
ALJ728	Feature Writing
ALJ729	Newsroom Practice
ALR700	Public Relations Campaigns
ALR701	Public Relations Writing and Tactics
ALR710	Marketing Communication
ALR731	Public Relations Theory and Practice

### Group 2 electives

ACA715	Creative Enterprise Project
ACC700	Communication and Creative Arts Internship
ACC717	Law, Media and Communication (Formerly ALJ724)
ACF703	Fractured TV: Audiences, Formats, Technology and Regulation
ACF705	Documentary Production Practice
ACG708	Design Thinking and Problem solving
ACG709	Strategic Branding and Design
ALJ713	Journalism Portfolio (No longer available for enrolment)
ALJ721	International News
ALJ722	Investigative and Narrative Journalism
ALR704	Reputation Management: Crisis, Risk and Responsibility
ALR718	Public Relations, Activism and Social Change
ALR733	Advertising Theory and Practice
ALR782	Public Affairs and Opinion Formation

# Master of Communication

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Communication
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	084000E
<i>Deakin course code</i>	A743 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

The Master of Communication empowers you to confidently and creatively develop strategic communications that shape opinion.

With a strong focus on evolving technologies, critical thinking and problem solving, you'll develop the technical skills and knowledge needed to be a future leader in the rapidly changing media and communications landscape.

Advances in technology and the speed of information distribution has made proactive communications experts more sought-after than ever – why not graduate with a degree that puts you ahead of the pack? Whether you're looking to upskill, change roles or challenge yourself in a new discipline, the Master of Communication will enhance your understanding of the fluid media landscape while training you to be a thought leader and influencer across all sectors in the industry.

Broaden your repertoire of communication skills by working on briefs that simulate the cut and thrust of modern media campaigns, and tailor your degree to your career goals by undertaking intensive study in one of the following specialisations, or choosing to undertake aspects of all of the specialisations:

- Journalism
- Public relations
- Digital media
- Television production
- Visual communication design

Speaking of practical, hands-on learning, you'll have the opportunity to put theory into practice in world-class facilities with access to a newsroom, TV production facilities (where the Marngrook Footy Show is filmed), sound recording studios and news feeds.

Plus, if you're a student specialising in public relations, you might be eligible to graduate with PRIA membership, making you even more employable.

## Professional recognition

PRIA membership is available to graduates who specialise in public relations and complete a PR-related research project.

Find out more at Public Relations Institute of Australia.

## Career opportunities

The diverse skill set you'll develop throughout your Master of Communication can take you just about anywhere, from media agencies and newsrooms, to publications and government organisations. You may even choose to be a consultant, or freelance from your favourite place in the world.

Your degree will prepare you for a variety of roles, including:

- PR practitioner
- Media adviser
- Journalist
- Communication officer or coordinator
- Communication consultant or manager
- Producer – Project officer in government
- Technical writer – Content writer or developer
- Social media specialist

Not everyone knows where they'll be in five or ten years time. We'll train you to be flexible throughout your career by placing a greater emphasis on transferable skills – like strategic communication, critical thinking and social responsibility – that make you a more valuable prospect.

That means if your passions change in the future, you'll feel confident and well-equipped to make your move.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A643, A649, A539, A637, A638, A639, A634.

## Research information

Students will undertake a capstone research design and preparation unit worth one-credit-point, resulting in the completion of a professional practice-focused research project for an industry audience. An academic research project (scholarly thesis) option is also available. Students who undertake the academic research project will be eligible to apply for a PhD.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire advanced and integrated understanding of one or more complex knowledge domains relating to professional communication.</p> <p>Demonstrate expert knowledge and specialist skills in contemporary communication methods, and their application in one or more specialist areas of communication including Journalism, Public Relations, Digital Media, Television Production and Visual Communication Design and in scholarly contexts.</p>
Communication	Use specialist cognitive and technical skills in communicating ideas, problems and arguments in a variety of modes across a range of specialist areas of communication and in scholarly research.
Digital literacy	Acquire specialist skills in generic and specific digital technologies used to address a range of communication needs in research and professional contexts and for diverse audiences within and outside the communications industries.
Critical thinking	<p>Acquire expert cognitive skills in the analysis and critical evaluation of communications theory and its application in professional practice and scholarship.</p> <p>Demonstrate the ability to evaluate complex ideas, develop appropriate methodologies and communicate conclusions in the context of professional decision-making and scholarship.</p>
Problem solving	Use expert and specialised knowledge of and skills in communications to identify, investigate, analyse and synthesise complex information, problems and concepts and develop creative solutions in professional practice and scholarly contexts.
Self-management	Employ high level autonomy, accountability and initiative in responding creatively to new situations in professional practice and/or in the completion of a substantial research-based project.
Teamwork	Demonstrate initiative and accountability in working and learning collaboratively in professional communications practice and scholarly contexts.
Global citizenship	Acquire high-level understanding and the ability to reflect on issues in communications in both domestic and global contexts as a scholar and in professional practice, taking into consideration cultural and socio economic diversity, social and environmental responsibility and the application of the highest ethical standards.

*Approved by Faculty Board November 2017*

## Course rules

To qualify for the award of Master of Communication, students must successfully complete 16 credit points of study comprising:

- AAI018 Academic Integrity (0-credit-point compulsory unit) plus;
- Core Communication Program (4 credit points)

Students must complete a common foundation program in contemporary professional communication focusing on key communication concepts and applied research methods, studying these two units in either order in the first year of study:

- ACX701 Communication Concepts (2 credit points)
- ACX702 Applied Research Methods for Communication (2 credit points)

### Specialisation and Capstone Program (8 credit points)

Students must complete 8 credit points from one specialisation, to provide in-depth knowledge and professional expertise in a sub-field of communication, completing both of the following:

- four one-credit-point specialisation-specific units selected from one only of five specialisations (Digital Media; Journalism; Public Relations; Television Production; or Visual Communication); and
- a four-credit-point professional capstone program including a mandatory research project whose topic is relevant to that specialisation

### Electives (4 credit points)

Students select 4 credit points of electives from any specialisation in the course to create a distinctive degree to advance their professional careers and/or extend their academic knowledge in related areas. Students may complete up to two electives from any equivalent postgraduate course at Deakin University.

Students seeking PRIA accreditation for their degree must complete at least two credit points of electives using ALR-coded units, unless advised otherwise.

## Specialisations

Refer to the details of each specialisation for availability.

- Journalism
- Public Relations
- Television Production (Burwood campus only)
- Visual Communication Design
- Digital Media

## Course structure

### Core units

- ACX701 Communication Concepts (2 credit points)  
 ACX702 Applied Research Methods for Communication (2 credit points)

### **Professional capstone program**

Students will either take option A or option B noting that option B requires approval of the Course Director; most students will normally complete option A

#### *Option A*

- ACX703 Developing a Communication Research Project  
 ACX707 Professional Research Project 1  
 ACX708 Professional Research Project 2  
 ACC700 Communication and Creative Arts Internship

Or an elective related to the research project where no appropriate internship is available

### **Option B**

(only by approval of Course Director, based on performance in ACX703, and agreement of supervisor)

ACX703	Developing a Communication Research Project
ACX704	Academic Research Project 1
ACX705	Academic Research Project 2
ACX706	Academic Research Project 3

## **Work experience**

Elective units may provide the opportunity for Work Integrated Learning experiences.

## **Details of specialisations**

### **Journalism**

*Burwood (Melbourne), Cloud (online)*

#### **Units**

Select four units from the following list as well as the 4-unit capstone option:

ACC717	Law, Media and Communication
ALJ710	Multimedia Journalism
ALJ712	Broadcast Journalism
ALJ721	International News
ALJ722	Investigative and Narrative Journalism
ALJ728	Feature Writing
ALJ729	Newsroom Practice

### **Public Relations**

*Burwood (Melbourne), Cloud (online)*

#### **Units**

Select four units from the following list as well as the 4-unit capstone option

ALR700	Public Relations Campaigns
ALR701	Public Relations Writing and Tactics
ALR710	Marketing Communication
ALR731	Public Relations Theory and Practice
ALR704	Reputation Management: Crisis, Risk and Responsibility
ALR718	Public Relations, Activism and Social Change
ALR782	Public Affairs and Opinion Formation
ALR733	Advertising Theory and Practice

*Note: Students wishing to qualify for membership of the Public Relations Institute of Australia (PRIA) must select at least 6 credit points of ALR-coded units and complete their research thesis on an approved Public Relations project.*

### **Television Production**

*Burwood (Melbourne)*

#### **Units**

Select four units from the following list as well as the 4-unit capstone option:

ACF700	Writing with the Camera
ACF701	Television Studio Production
ACF702	Television Commercial Production
ACF703	Fractured TV: Audiences, Formats, Technology and Regulation
ACF704	Talking Heads: Personality and Persona On Screen
ACF705	Documentary Production Practice

## **Visual Communication Design**

*Burwood (Melbourne), Cloud (online)*

### **Units**

Select four units from the following list as well as the 4-unit capstone option:

ACG702	Digital Publishing
ACG703	Design and Digital Skills
ACG706	Designing for Web Environments
ACI700	Introduction to Digital Photography
ACG708	Design Thinking and Problem solving
ACG709	Strategic Branding and Design

## **Digital Media**

*Burwood (Melbourne), Cloud (online)*

### **Units**

Select four units from the following list as well as a 4-unit Professional capstone option

ACC717	Law, Media and Communication
ACI700	Introduction to Digital Photography
ALC701	Social Media Principles and Practices
ALC703	Digital Curation
ALR703	Digital Marketing
ACG706	Designing for Web Environments
ALC702	Making Online Communities
ALC708	Blogging and Online Communication Techniques

## **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Communication

<i>Year</i>	2019 course information

# Master of Humanitarian Assistance

Year	2019 course information
Award granted	Master of Humanitarian Assistance
Campus	Burwood (Melbourne), Cloud Campus
Duration	1 year full time or part time equivalent
CRICOS course code	092386D
Deakin course code	A757 (version 1)
Approval status	This course is approved by the University under the Higher Education Standards Framework.
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Note: This course includes compulsory short intensive classes (includes five days in Trimester 3 and five days in Trimester 1) held at a Deakin University campus for both campus and cloud located students.*

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

If you're working in or wishing to work in the humanitarian sector, kick-start your career with an industry-relevant, formal qualification.

The current environment in which humanitarian workers find themselves is more complex and diverse than ever. Conflicts are increasingly complicated and natural disasters are escalating in number and intensity. These often occur in regions already struggling with socio-economic and political constraints and fragility.

This course in humanitarian assistance is strategically positioned as the first course of its kind in the Asia-Pacific region. It builds a unique platform where humanitarian practitioners and academics can share knowledge and experience, with a focus on improving leadership, preparedness and response capacities to national and international emergencies.

Combining theory and practice, the course is delivered using both Deakin's interactive online study and intensive, located learning practice-based units. Coupled with action-based research in the sector this course enables you to be an effective and highly-skilled worker, both in Australia and internationally.

You will also be able to capitalise on Deakin's strong partnerships with relevant international non-government organisations (NGOs), United Nations agencies, other locally-based NGOs, government agencies such as Department of Foreign Affairs and Trade and other relevant stakeholders in the sector.

## Career opportunities

It is expected that completion of the Master of Humanitarian Assistance will place you in a favourable position to advance your professional standing. Employment in the humanitarian field is expanding, including in related areas, such as teaching, training, organisation and community capacity building, disaster risk reduction assessment and programming, consulting enterprises, journalism and communications, project management and community development. Opportunities are available in government and non-government agencies concerned with the provision of all aspects of emergency and humanitarian responses including service provision, logistical support, communications, program management and support, community engagement and support, funding, coordination, monitoring and evaluation.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Critique the historical development of the humanitarian sector and apply the key principles, exemplary practice and sector standards to current humanitarian context, both national and international, with particular focus on leadership, risk management, emergency responses, and recovery strategies.
Communication	Integrate, analyse, synthesise and evaluate the theory and practice of humanitarian emergencies and responses and communicate to a range of specialist and non-specialist audiences through reports, briefings, essays, case studies, and oral presentations.
Digital literacy	Demonstrate the ability to research, analyse, report and communicate complex information via the employment of a range of sector-specialised and generic technological modes to a wide variety of audiences including humanitarian, professional and scholarly communities.
Critical thinking	Investigate, critically analyse, synthesise and report on issues facing contemporary humanitarian scenarios in light of established concepts and practice and design and develop interventions, solutions and strategies to address them.
Problem solving	Demonstrate initiative, creativity and intellectual rigor in researching, identifying, planning, implementing, managing people and processes and evaluating proposed innovative responses to complex situations and problems encountered in a range of humanitarian emergencies, locally and globally.
Self-management	Plan, organise and perform as an independent and reflective practitioner in the field as well as in the sector generally, demonstrating a commitment to continuing professional development, scholarly research and professional contribution.
Teamwork	Contribute to the achievement of team goals and cohesiveness in diverse humanitarian emergency scenarios, humanitarian planning, implementation projects and research projects through active and constructive participation and contributions to resolving impasses and conflict.
Global citizenship	Demonstrate the ability to undertake a number of roles, in an efficacious and ethical manner, in a broad range of humanitarian operations across diverse cultural, social, political, economic and environmental spectrums.

Approved by Faculty Board June 2014

## Course rules

To qualify for the Master of Humanitarian Assistance, students must successfully complete 16 credit points of study comprising:

- 6 credit points of core units; and
- 10 credit points of study as a combination of research and elective units in one of the following three configurations.

### Option 1: Dissertation

- 2 credit points of research training (AIX706 Research Design, plus one of AIX707 Qualitative Research or AIX708 Quantitative Research)
- 4 credit points independent research writing (AIX702, AIX703)
- 4 credit points of electives

### Option 2: Research Paper

- 2 credit points of research training (AIX706 Research Design, plus one of AIX707 Qualitative Research or AIX708 Quantitative Research)
- 2 credit points of independent research writing (AIX704 Research Paper A and AIX705 Research Paper B)
- 6 credit points of electives

### Option 3: Research Project

- 1 credit point research training (AIX706 Research Design)
- 1 credit point independent research writing (AIX701 Research Project)
- 8 credit points of electives

## Course structure

### Core units

Students to complete the following 6 core units (6 credit points of study)

AHA721	Dynamics and Dilemmas of the Humanitarian Sector
AHA722	Applied Humanitarian Assistance: From Theory to Practice
AHA723	Fundamentals of Humanitarian Management
AHA724	Disaster Risk Reduction and Management in Humanitarian Contexts
AHA725	Project and Financial Management in Humanitarian Contexts
AHL701	The Humanitarian World

### Electives and research options

Students to select 10 credit points of study as a combination of research and elective units listed below

#### Electives

ADS711	Non-Government Organisations and other Development Actors
ADH712	Food Security (formerly ADS712)
ADH714	Gender and Development (formerly ADS714)
ADS715	Cross Cultural Communication and Practice
ADH716	Humanitarian Settlement (formerly ADS716)
ADS735	Conflict Resolution and Development (No longer available for enrolment)
ADS740	Participatory Approaches to Development (No longer available for enrolment)
ASS705	Anthropology of Poverty and Development

#### Internship

AHA726	Humanitarian Assistance Internship (4 credit points)
--------	--

## Research options

### *Option 1: Research Project (6 credit points)*

AIX706 Research Design

Plus one of

AIX707 Qualitative Research

Or

AIX708 Quantitative Research

Students then complete:

AIX702 Dissertation A (2 credit points)

And

AIX703 Dissertation B (2 credit points)

### *Option 2: Research Paper (4 credit points)*

AIX706 Research Design

Students then complete:

AIX704 Research Paper A

And

AIX705 Research Paper B

### *Option 3: Research Project (2 credit points)*

AIX706 Research Design

Students then complete:

AIX701 Research Project

# Master of Creative Arts

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Creative Arts
<i>Course Map</i>	Under advisement till further notice from the School of Communication and Creative Arts
<i>Campus</i>	Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	083981D
<i>Deakin course code</i>	A759
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Disciplines

- Burwood (Melbourne) – Animation & Motion Capture, Dance, Drama, Film & TV, Photography, Visual Communication Design and Visual Arts
- Waterfront (Geelong) – Photography & Visual Arts

## Course overview

Supercharge your creative portfolio with a Master of Creative Arts at Deakin University.

Explore and understand the ideas that shape the field and take your creative practice to the next level.

The Master of Creative Arts provides students who have completed an undergraduate degree in a creative arts discipline, with advanced academic and professional skills in creative practice research and creative arts production.

The program is aimed at future learners, creators, visionaries, citizens, practitioners, critics, programmers, policy makers and curators with interdisciplinary tailored online, off-site and face-to-face learning. Experiences are real-world-centred, respond to future debates and challenges in the creative arts. Seize your own dedicated space to formulate, develop and deliver a dynamic critical practice-led project that engages with the productive uncertainty of creative pursuits. The program suits both professional and research careers.

The Master of Creative Arts is available in any of the disciplines of the Creative Arts: Visual Arts, Photography, Film and Television, Animation, Design, Dance or Drama.

## Career opportunities

Graduates of the Master of Creative Arts, will possess advanced or expert knowledge and skills to work in a range of industry contexts spanning the Creative Arts within diverse organisations (non-profit through to corporate). Graduates will be able to undertake many roles that may be categorised from entrepreneurial, consulting, curatorial, through to art production within organisations such as museums and galleries, government (federal, state and local), boutique arts companies and design organizations (as examples). There are also many opportunities to be found in festivals, curatorial and community projects typically funded or auspiced by government and philanthropic entities. Organisations are looking for graduates who have knowledge and skills developed in a learning environment enhanced by contemporary and up-to-date production facilities, equipment and spaces (which Deakin provides). Graduates will also be well equipped to undertake careers as independent artists.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Alternative exits

A659, A559.

## Research information

Students will undertake 6 credit points of research units consisting of research methods, theory and research-based project units where they will be required to undertake practice-led research, and traditional research in one of the creative arts disciplines incorporating a Creative Research Thesis and a Creative Practice Research project consisting of a major creative production (16,000 word equivalent) AND a critical exegesis (4000 words).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Apply and extend specialist knowledge and technical and creative skills in creative arts practice in one or more disciplines or areas of creative arts including drama, dance, photography, visual arts, animation, film and television and design.
Communication	Use specialist creative arts technologies and skills including writing, movement, film, image and voice to interpret and communicate complex ideas to a range of audiences in academic and non-academic contexts.  Harness specialist creative arts technologies, skills and discourse to communicate complex ideas to a range of audiences in academic and non-academic contexts.
Digital literacy	Draw on, analyse and assess digital technologies to produce, document, present and publish in the creative arts
Critical thinking	Evaluate, interpret and synthesise complex ideas through within creative arts drawing on discourse and practice.
Problem solving	Address theoretical and methodological challenges in the creation of work that is discursive and reflective and engages in creative decision-making processes within the relevant field.
Self-management	Develop systematic and episodic reflective approaches to creative work practices.
Teamwork	Apply advanced interpersonal and communication skills to participate effectively in the critical culture of production, completion and presentation of creative arts projects.
Global citizenship	Establish ethical approaches that interrogate the value of art and performance in diverse communities and cultures and transfer creative practice outcomes into real world contexts.

*Approved by Faculty Board November 2018*

## Course rules

To qualify for the Master of Creative Arts, a student must successfully complete 16 credit points of study comprising:

- 8 credit points of course work units (ACA710, ACA711, ACA712, ACA701 (2cp), ACA702(2cp), ACA715)
- 4 credit points of research units ACA703(2cp), ACA704(2cp)
- A further 4 credit points of electives chosen from Master of Creative Arts, Master of Communication or the Master of Arts (Writing and Literature)
- Other units that may be counted as electives are: ECP711 Arts and early childhood, MMK792 Arts Marketing, MMM790 Arts Management
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

ACA710	Contemporary Debates in the Creative Arts
ACA712	Transgressive Acts in Cinema, Art, Performance
ACA701	Creative Studio A (2 credit points)
ACA702	Creative Studio B (2 credit points)
ACA715	Creative Enterprise Project
ACA711	Methods and Design for Creative Arts Research
ACA703	Advanced Creative Research Project A (2 credit points)
ACA704	Advanced Creative Research Project B (2 credit points)

### Electives

Choose 4 credit points of electives from within the Master of Creative Arts, Master of Communication or Master of Arts (Writing and Literature)

Other units that may be counted as electives are:

ECP711	Creativity and the Arts in Childhood
MMK792	Arts Marketing
MMM790	Arts Management
ADS720	Arts and Sports-based Approaches to Community Development
ACI700	Introduction to Digital Photography
ALC708	Blogging and Online Communication Techniques
ACF700	Writing with the Camera
ACG708	Design Thinking and Problem solving
ACF705	Documentary Production Practice
ALW734	Script Writing
ACA715	Creative Enterprise Project

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Master of Arts (Writing and Literature)

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Arts (Writing and Literature)
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	083999E
<i>Deakin course code</i>	A764 (version 1)

*Offered to continuing students only*

## Course overview

Deakin's Master of Arts (Writing and Literature) offers study in a unique combination of literary and creative writing options, together with the possibility for cross-disciplinary explorations and specialisations in the areas of Children's Literature, Creative Writing, Literary Studies and Professional Writing.

The course is delivered in both located and Cloud (online) study modes, employing flexible, blended teaching and learning methodologies and offering you a broad range of options to design your own program to suit your interests.

## Alternate exits

A535.2, A641, A636, A635, A661, A664

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the Master of Arts (Writing and Literature), a student must successfully complete 16 credit points of study comprising:

- 8 credit points in one of the specialisation options (Children's Literature, Creative Writing, Literary Studies, Professional Writing, Crossdisciplinary Study)
- 8 credit points of core units in theory, methods and advanced research (see Research Project)

## Details of specialisations

### **Children's Literature**

ALL701	Retelling Myths and Tales: Classic to Contemporary
ALL702	Criticism of Literature for Children: A Variety of Approaches
ALL708	The Picture Book: Reading and Writing
ALL721	Writing Fiction for Young Adults
ALL722	Texts for Young Adults
ALL743	Foundations in Narrative Theory

And

2 credit points of electives chosen from the units offered in the specialisations of Literary Studies, Creative Writing or Professional Writing

### **Literary Studies**

- ALL705 Vision and Revision: Short Stories Now
- ALL706 Historical Fiction
- ALL727 Sex, the Body, and American Poetry
- ALL743 Foundations in Narrative Theory
- ALL784 Writing and Film

And

2 credit points of electives chosen from the units offered in the specialisations of Children’s Literature, Creative Writing or Professional Writing.

- ALL755 The Other Side of the World: Literature of Sadness – The Body – Mind in Crisis  
(no longer available for enrolment)

### **Professional Writing**

- ACA715 Creative Enterprise Project
- ACC717 Law, Media and Communication (Formerly ALJ724)
- ALW738 Editing
- ALW739 Publishing
- ALW740 Foundations in Professional and Creative Writing
- ALW729 Writing for Communication Media is no longer available for enrolment.  
Students must instead take ALJ728
- ALJ728 Feature Writing

And

2 credit points of electives chosen from the units offered in the specialisations of Children’s Literature, Creative Writing, Literary Studies or specialisations within the Master of Communication (A743)

### **Creative Writing**

- ALW730 Creative Nonfiction: the Personal Essay
- ALW732 Fiction Writing: Story, Structure and Starting Out
- ALW734 Script Writing
- ALW740 Foundations in Professional and Creative Writing

And a minimum of 2 further creative writing units chosen from:

- ALW736 Experiments in Writing
- ALW738 Editing
- ALW783 Life Writing: Theory and Practice (No longer available for enrolment)
- ALW720 Narrative Nonfiction: Stories of Place (No longer available for enrolment)
- ALW735 Script Writing B (No longer available for enrolment)

And a maximum of:

2 credit points of electives chosen from the units offered in the specialisations of Children’s Literature, Literary Studies or Professional Writing.

## Cross-disciplinary study

- A maximum of up to 4 cp of electives from Group 1
- A minimum of at least 4 cp of electives from Group 2

### Group 1 electives

ALL702	Criticism of Literature for Children: A Variety of Approaches
ALL706	Historical Fiction
ALL722	Texts for Young Adults
ALL727	Sex, the Body, and American Poetry
ALL743	Foundations in Narrative Theory *
ALW730	Creative Nonfiction: the Personal Essay
ALW732	Fiction Writing: Story, Structure and Starting Out
ALW734	Script Writing
ALW738	Editing
ALW740	Foundations in Professional and Creative Writing *
ALW729	Writing for Communication Media (No longer available for enrolment)

\* It is recommended that students include either ALW740 or ALL743 or both in their first trimester of study.

### Group 2 electives

ACA715	Creative Enterprise Project
ACC700	Communication and Creative Arts Internship
ACC717	Law, Media and Communication (Formerly ALJ724)
ALL701	Retelling Myths and Tales: Classic to Contemporary
ALL705	Vision and Revision: Short Stories Now
ALL708	The Picture Book: Reading and Writing
ALL721	Writing Fiction for Young Adults
ALL784	Writing and Film
ALW736	Experiments in Writing
ALW739	Publishing
ALW720	Narrative Nonfiction: Stories of Place (No longer available for enrolment)
ALW735	Script Writing B (No longer available for enrolment)
ALW783	Life Writing: Theory and Practice (No longer available for enrolment)
ALL755	The Other Side of the World: Literature of Sadness – The Body – Mind in Crisis (No longer available for enrolment)

## Research project

### Core units

All students must complete the following 8 credit points of study

ALX722	Masters Research Project A
ALX723	Masters Research Project B
ALX724	Masters Research Project C
ALX725	Masters Research Project D
ALX726	Masters Research Theory A
ALX727	Masters Research Theory B
ALX709	Writing a Thesis: Theory, Methodology and Practice (2 cp) is no longer available for enrolment. Students must instead take ALX705
ALX705	Critical and Creative Research Methods

And

1 elective chosen from the units offered in the specialisations of Literary Studies, Creative Writing or Professional Writing

*Note for full-time students: In order to complete within the two year period students should complete ALX709 in the first year, followed by ALX726, ALX727, ALX722, ALX723, ALX724 and ALX725 in the second year.*

# Master of Arts (Writing and Literature)

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Arts (Writing and Literature)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	<p>Depending on your professional experience and previous qualifications, the Master of Arts (Writing and Literature) is typically 1, 1.5 or 2 years duration.</p> <ul style="list-style-type: none"> <li>• 1 year full time (2 years part time) – 8 credit points</li> <li>• 1.5 years full time (3 years part time) – 12 credit points</li> <li>• 2 years full time (4 years part time) – 16 credit points</li> </ul> <p>Deakin courses can also be studied part time over a longer period.</p>
<i>Deakin course code</i>	A764 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

The Master of Arts (Writing and Literature) gives candidates the opportunity to undertake advanced study in the disciplines of Writing and Literature. Students undertake both relevant coursework to their specialisation and a substantial research project (thesis) under the supervision of an academic with a professional research record.

The Master of Arts (Writing and Literature) offers study in a unique combination of literary, professional and creative writing options, together with the possibility for cross-disciplinary explorations. Students can choose between specialisations in the areas of Children's Literature, Creative Writing, Literary Studies and Professional Writing. Students are paired with an academic or professional staff member working – and nationally recognised – in their specialist field. This partnership provides students with mentoring through the extended research project (thesis), which is one of the highlights of this course. The unique research pathway in the Master of Arts (Writing and Literature) provides candidates with a new level of intellectual stimulation and personal enrichment and gives them the opportunity to contribute to a wider debate within their field, often through publication. The research training and skills acquired in this course enhance students' future career prospects in a broad range of occupations and ensures they are eligible to apply for entry to higher research programs.

## Career opportunities

This course is designed to broaden the skills of those working as teachers, librarians and writers, as well as professionals working in associated fields such as publishing and promotion. The course is also suitable if you are seeking a qualification to refocus your career options.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A535, A635, A636, A641, A661, A664.

## Research information

Students will undertake 7 credit points of research units consisting of research methods, theory and research-based project units where they will be required to complete a thesis comprising a creative production AND exegesis of 8000 words OR a written dissertation of 18,000–20,000 words.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire an integrated knowledge of a range of relevant writing and literature theories, concepts, and approaches to the critical analysis, creation and/or production of texts.</p> <p>Acquire advanced understanding of the cultural, historical, professional and/or stylistic differences and contexts of the domains of writing and literature, which include Creative Writing, Children's Literature, Professional Writing and/or Literary Studies.</p>
Communication	Demonstrate specialised command of the technical and aesthetic elements of different forms of writing, including proficient use of critical, theoretical and professional vocabularies and language to create, define, interpret, argue and fluently transmit ideas in scholarly, professional and/or creative texts produced for a variety of audiences and contexts.
Digital literacy	Master generic, academic, bibliographic and industry-specific digital communication technologies to research, produce and present scholarly and creative works. Use judgement and discrimination in the identification and selection of relevant and credible information sources and with regard for their ethical use.
Critical thinking	<p>Produce creative and critical works which address complex issues and ideas with rigor in the conduct of supporting research and presentation of evidence</p> <p>Use mature critical judgment in the synthesis and application of theory; and mastery of the critical, technical and creative skills required to generate and evaluate texts produced by self and others.</p>
Problem solving	Employ expert knowledge and skills in the use of specialist theoretical, historical and contemporary analytical and creative approaches to writing and literature that is reflected in the design and execution of creative and scholarly solutions to a range of technical, professional, aesthetic, critical and/or ideological problems.

Deakin graduate learning outcomes	Course learning outcomes
Self-management	Demonstrate high-level initiative and independence, responsibility, accountability and a continued commitment to learning and skill development in writing and literature and as a reflective learner and practitioner in scholarly, industry and/or professional contexts.
Teamwork	Demonstrate commitment to ethical and collaborative participation in scholarly, learning and/or industry settings and active contribution to the accomplishment of mutual learning and professional goals.
Global citizenship	<p>Develop and informed knowledge of the ethics of writing and interpreting textual representations of diverse groups, and insight into the influence of changing social, cultural and ideological factors on the production and consumption of creative, critical and professional texts.</p> <p>Use the highest standards of ethical conduct and social responsibility when engaging in scholarly, creative and/or professional practice in the local, national and international community.</p>

Approved by Faculty Board November 2018

## Course rules

To qualify for the Master of Arts (Writing and Literature), a student must successfully complete 16 credit points of study comprising:

- 6 credit points of study in either of the following configurations:

### Option 1

- 6 credit points from one of the specialisation options (Children's Literature, Creative Writing, Literary Studies, Professional Writing);

Plus

- 4 credit points of capstone unite (Capstone A)
- 6 credit points of electives

or

- 6 credit points of capstone units (Capstone B)
- 4 credit points of elective units

OR

### Option 2

- 6 credit points of cross-disciplinary study comprising ALW740, ALL743, 2 credit points of Literature units (Children's Literature and/or Literary Studies), and 2 credit points of units of Writing units (Creative Writing and/or Professional Writing)

Plus

- 4 credit points of capstone unite (Capstone A)
- 6 credit points of electives

or

- 6 credit points of capstone units (Capstone B)
- 4 credit points of elective units

All students must also complete: AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

### Capstone units

#### *Capstone A*

- ALX705 Critical and Creative Research Methods
- ALX726 Masters Research Theory A
- ALX720 Minor Research Project (2 credit points)

Plus 2 electives

OR

#### *Capstone B (Subject to course director approval)*

- ALX705 Critical and Creative Research Methods
- ALX726 Masters Research Theory A
- ALX722 Masters Research Project A
- ALX723 Masters Research Project B
- ALX724 Masters Research Project C
- ALX725 Masters Research Project D

### Units

Either:

6 credit points from one of the specialisation options (Children's Literature, Creative Writing, Literary Studies, Professional Writing)

OR

6 credit points of cross-disciplinary study comprising of:

- ALW740 Foundations in Professional and Creative Writing
- ALL743 Foundations in Narrative Theory

Plus 2 credit points of Literature units (Children's Literature and/or Literary Studies)

Plus 2 credit points of Writing units (Creative Writing and/or Professional Writing)

### Electives

Electives are to be chosen from units in the specialisations of the Master of Arts (Writing and Literature), Master of Communication or Master of Creative Arts.

*Note: The internship unit ACC700 is also available.*

### Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Details of specialisations

### **Childrens Literature**

*Cloud (online)*

#### **Units**

Students must complete:

- ALL743 Foundations in Narrative Theory
- ALL728 Literary Narratives

And complete four of the following units:

- ALL701 Retelling Myths and Tales: Classic to Contemporary
- ALL702 Criticism of Literature for Children: A Variety of Approaches
- ALL708 The Picture Book: Reading and Writing
- ALL721 Writing Fiction for Young Adults
- ALL722 Texts for Young Adults

*Note: Students may complete all five available units by taking the 5th unit as one of their electives*

### **Literary Studies**

*Burwood (Melbourne), Cloud (online)*

#### **Units**

Students must complete:

- ALL743 Foundations in Narrative Theory
- ALL728 Literary Narratives

And complete four of the following units:

- ALL702 Criticism of Literature for Children: A Variety of Approaches
- ALL705 Vision and Revision: Short Stories Now
- ALL706 Historical Fiction
- ALL727 Sex, the Body, and American Poetry
- ALL784 Writing and Film

*Note: Students may complete all five available units by taking the 5th unit as one of their electives*

### **Professional Writing**

*Burwood (Melbourne), Cloud (online)*

#### **Units**

Students must complete:

- ALW740 Foundations in Professional and Creative Writing
- ALW725 Writing Manifestos

And complete four of the following units:

- ALC708 Blogging and Online Communication Techniques
- ALJ728 Feature Writing
- ALW738 Editing
- ALW739 Publishing
- ACA715 Creative Enterprise Project

*Note: Students may complete all five available units by taking the 5th unit as one of their electives*

## **Creative Writing**

*Burwood (Melbourne), Cloud (online)*

### **Units**

Students must complete:

- ALW740 Foundations in Professional and Creative Writing
- ALW725 Writing Manifestos

And complete four of the following units:

- ALW730 Creative Nonfiction: the Personal Essay
- ALW732 Fiction Writing: Story, Structure and Starting Out
- ALW734 Script Writing
- ALW736 Experiments in Writing
- ALW738 Editing

*Note: Students may complete all five available units by taking the 5th unit as one of their electives*

### **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### **Other learning experiences**

There will be opportunities throughout the course for students to engage with industry professionals. These experiences will be integrated into units where students will have external clients or industry representatives provide content to more closely connect the learning experience with industry practices.

# Master of International and Community Development

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of International and Community Development
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A765
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

Get the expertise to respond to challenges of poverty, disempowerment and wider development aspirations in creative, effective and culturally-sensitive ways.

Good development promotes justice, reduces poverty and builds environments for people to lead sustainable, productive and fulfilling lives.

Development programs and project work for poverty reduction and social cohesion are major areas of professional employment. You can focus your studies on countries undergoing the development process or on communities within Australia.

Deakin's Master of International and Community Development provides you with analytical skills to understand the contexts of development programs as well as practical skills. These skills help you formulate, resource, implement, and evaluate international and community development projects.

As part of this course, you'll be required to undertake research in a relevant area. You'll also develop a good balance of theoretical knowledge and practical skills to allow you to undertake projects that benefit the communities in which you work.

## Career opportunities

Employment in the development field provides a wide range of opportunities, both internationally and domestically. Graduates may find employment across the variety of organisations who work for social justice, empowerment, poverty alleviation, and community development. These include civil society organisations such as Non-Government Organisations, Government agencies, bilateral, and multilateral agencies, as well as the private sector. There is also potential work opportunities in related areas including teaching, the travel industry, consulting enterprises, journalism, and government and non-government agencies concerned with the flow of trade, services, capital and personnel. Students wishing to pursue a career in further research may take research options one or two within the MICD.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A665.

## Research information

Students will undertake research training and complete a research project in one of the three following options:

- one credit points of research training in research design, and a one credit point research project;
- two credit points of research training in research design and methods (qualitative or quantitative), and a two credit point research project; or
- two credit points of research training in research design and methods (qualitative or quantitative), and a four credit point research project developed in consultation with a supervisor from the relevant discipline

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Undertake research to acquire advanced integrated understanding, synthesis and application of theory and practice to international and community development within diverse disciplinary contexts and worldviews.
Communication	Apply oral, written and interpersonal communication skills to plan, inform, and debate complex multi-disciplinary and multi-sectoral issues for improved social, environmental and economic outcomes to a wide range of audiences, and contexts, including scholarly research scenarios and real-world situations.
Digital literacy	Source, analyse and report on complex data and information, utilising a range of digital sources for effective research and professional development, across interpersonal, organisational and professional contexts
Critical thinking	Conduct in-depth scholarly and practice-based research to investigate, critically analyse, report and propose actions on local issues and opportunities in the context of historical and contemporary development discourse.
Problem solving	Apply advanced skills in research, comprehension, interpretation and analyses of competing option for solving complex or “wicked” problems with creativity, innovation and respect.
Self-management	Plan, organise and manage competing demands on time, to work mindfully in a personal and professional capacity, and commit to ongoing learning and self-reflection on the development as a professional practitioner.

Deakin graduate learning outcomes	Course learning outcomes
Teamwork	Work collaboratively as an active, engaged and reflective team member by contributing to mutual goals, research, tasks and leadership across practice, cultures and disciplines.
Global citizenship	Question, engage, provoke and innovate on a broad and interrelated range of social justice, environmental and development issues taking into consideration cross-cultural, indigenous, local and global contexts.

Approved by Faculty Board November 2018

## Course rules

To qualify for the Master of International Community Development, a student must successfully complete 8 credit points of study according to one of the options listed below and AAI018 (0-credit-point compulsory unit).

## Course structure

### Core unit and streams

Students complete one core unit (1 credit point), plus one of three streams (2 credit points or 4 credit points), plus one of two research options (1 credit points, 2 credit points) plus electives to a total of 8 credit points.

#### Core unit

AIX706 Research Design

#### Streams (select one)

##### *Stream 1 (Combined Stream – International Development and Community Development)*

ADS704 Community Development Theory and Practice A  
 ADS705 Participatory and Community Development Practice  
 ADS733 The Economic Development Record  
 ADS734 Political Development Record

##### *Stream 2 International Development Stream*

ADS733 The Economic Development Record  
 ADS734 Political Development Record

##### *Stream 3 Community Development Stream*

ADS704 Community Development Theory and Practice A  
 ADS705 Participatory and Community Development Practice

#### Research options

##### *Option 1:*

AIX701 Research Project (1cp)

OR

##### *Option 2:*

AIX704 Research Paper A  
 and  
 AIX705 Research Paper B

## Electives

(select between one and four, depending on choice of research and stream)

ADS704	Community Development Theory and Practice A
ADS705	Participatory and Community Development Practice
ADS711	Non-Government Organisations and other Development Actors
ADS733	The Economic Development Record
ADS734	Political Development Record
ADS720	Arts and Sports-based Approaches to Community Development
ADS721	Policy and Advocacy in Development Contexts
ADS722	Private Sector Development: Corporations, Social-Enterprise and Microfinance
ADS723	The Development Project Cycle
ADS753	International and Community Development Internship
ADH712	Food Security
ADH714	Gender and Development
ADH717	Sustainability and Development

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Master of Humanitarian Assistance

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Humanitarian Assistance
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	A767
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Note: This course includes a compulsory 5 day intensive class in Trimester 2 held at Deakin University Burwood campus for both campus and cloud located students.*

*There is also elective unit that contains an intensive in Trimester 3 held at a Deakin University campus for both campus and cloud located students.*

## Course overview

If you're working in or wishing to work in the humanitarian sector, kick-start your career with an industry-relevant, formal qualification.

The current environment in which humanitarian workers find themselves is more complex and diverse than ever. Conflicts are increasingly complicated and natural disasters are escalating in number and intensity. These often occur in regions already struggling with socio-economic and political constraints and fragility.

This course in humanitarian assistance is strategically positioned as the first course of its kind in the Asia-Pacific region. It builds a unique platform where humanitarian practitioners and academics can share knowledge and experience, with a focus on improving leadership, preparedness and response capacities to national and international emergencies.

Combining theory and practice, the course is delivered using both Deakin's interactive online study and intensive, located learning practice-based units. Coupled with action-based research in the sector this course enables you to be an effective and highly-skilled worker, both in Australia and internationally.

You will also be able to capitalise on Deakin's strong partnerships with relevant international non-government organisations (NGOs), United Nations agencies, other locally-based NGOs, government agencies such as Department of Foreign Affairs and Trade and other relevant stakeholders in the sector.

## Career opportunities

It is expected that completion of the Master of Humanitarian Assistance will place you in a favourable position to advance your professional standing. Employment in the humanitarian field is expanding, including in related areas, such as teaching, training, organisation and community capacity building, disaster risk reduction assessment and programming, consulting enterprises, journalism and communications, project management and community development. Opportunities are available in government and non-government agencies concerned with the provision of all aspects of emergency and humanitarian responses including service provision, logistical support, communications, program management and support, community engagement and support, funding, coordination, monitoring and evaluation.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Research information

Students will undertake research training and complete a research project in one of the three following options:

- one credit points of research training in research design, and a one credit point research project;
- two credit points of research training in research design and methods (qualitative or quantitative), and a two credit point research project; or
- two credit points of research training in research design and methods (qualitative or quantitative), and a four credit point research project developed in consultation with a supervisor from the relevant discipline

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Critique the historical development of the humanitarian system and apply the key principles, exemplary practices and sector standards to current humanitarian context, both national and international, with particular focus on coordination, resilient communities, risk management, emergency responses, recovery strategies
Communication	Integrate, analyse, synthesise and evaluate the theory and practice of humanitarian action and communicate to a range of specialist and non-specialist audiences through reports, briefings, essays, case studies, and oral presentations.
Digital literacy	Research, analyse, report and communicate complex information via the employment of a range of sectorspecialised and generic technological modes to a wide variety of audiences including humanitarian, professional and scholarly communities.
Critical thinking	Investigate, critically analyse, synthesise and report on issues facing contemporary humanitarian scenarios in light of established concepts, practice and design and develop actions, solutions and strategies to address them.
Problem solving	Apply initiative, creativity and intellectual rigor in researching, identifying, planning, implementing, managing people and processes and evaluating proposed innovative responses to complex situations and problems encountered in a range of humanitarian emergencies, locally and globally.

Deakin graduate learning outcomes	Course learning outcomes
Self-management	Plan, organise and perform as an independent and reflective practitioner in the field as well as in the system generally, demonstrating a commitment to continuing professional development, scholarly research and professional contribution.
Teamwork	Contribute to the achievement of team goals and cohesiveness in diverse humanitarian emergency scenarios, humanitarian planning, implementation projects and research projects through active and constructive participation and contributions to resolving impasses and conflict.
Global citizenship	Adopt a number of roles, in an efficacious and ethical manner, in a broad range of humanitarian operations across diverse cultural, social, political, economic and environmental spectrums.

Approved by Faculty Board November 2018

## Course rules

To qualify for the Master of Humanitarian Assistance, students must successfully complete 8 credit points of study comprising:

- AAI018 Academic Integrity (0-credit-point compulsory unit);
- 4 credit points of core units
- Research Project 1 or 2 credit points
- 2–3 credit points of elective units pending research project

## Course structure

### Core units

Students to complete the following 4 core units (4 credit points of study)

AHA721	Dynamics and Dilemmas of the Humanitarian Sector
AHA722	Applied Humanitarian Assistance: From Theory to Practice
AHA724	Disaster Risk Reduction and Management in Humanitarian Contexts
AIX706	Research Design

### Electives and research options

Students to select 4 credit points of study as a combination of research and elective units listed below

#### Electives

AHL701	The Humanitarian World
AHA716	Humanitarian Settlement
AHA723	Fundamentals of Humanitarian Management
AHA725	Project and Financial Management in Humanitarian Contexts
AHL705	Management of Humanitarian Health Programs
ADH702	Humanitarian – Development Nexus
ADH703	Evidence and Decision Making in Humanitarian Action
ADH717	Sustainability and Development
ADS715	Cross Cultural Communication and Practice
AIR707	The United Nations and International Organisation
AIR717	International Conflict Analysis
AIR726	Human Rights in World Politics
HSH701	Principles and Practice of Public Health
HSH704	Health Communication
HSH709	Health and Social Impact Assessment
HSH728	Health Equity and Human Rights

## Internship

AHA726 Humanitarian Assistance Internship

ADS753 International and Community Development Internship (2 credit points)

## Research options

### *Option 1*

AIX704 Research Paper A

And

AIX705 Research Paper B

### *Option 2*

AIX701 Research Project

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Master of Cultural Heritage

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Cultural Heritage
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	<p>Depending on your professional experience and previous qualifications, the Master of Cultural Heritage is typically 1, 1.5 or 2 years duration.</p> <ul style="list-style-type: none"> <li>• 1 year full time (2 years part time) – 8 credit points</li> <li>• 1.5 years full time (3 years part time) – 12 credit points</li> <li>• 2 years full time (4 years part time) – 16 credit points</li> </ul> <p>Deakin courses can also be studied part time over a longer period.</p>
<i>CRICOS course code</i>	084543G
<i>Deakin course code</i>	A787
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

Develop the knowledge, research skills and practical experience to make a difference in the cultural heritage sector. Whether you want to work with collections, manage a museum or heritage site, or protect and interpret significant sites, landscapes or intangible cultural heritage, specific pathways through the Masters mean you can create a program that is right for you.

Through this program, you'll develop an extensive, cross-disciplinary knowledge of heritage principles and practice across many disciplines.

Whether you're a mid-career professional consolidating your practical experience, looking for a change in career, or a recent graduate who'd like to work in museums or heritage organisations, Deakin's Master in Cultural Heritage provides a pathway into employment in this diverse and exciting field.

## Career opportunities

This course provides an integrated approach for those working in government agencies, private corporations, community organisations and in private practice in a range of professions. Typical job titles include: heritage officer, heritage site or museum manager, interpretation officer, registrar, curator, public programs officer, researcher, and project officer.

The course also offers a PhD pathway for those students without an undergraduate Honours degree. See option 1 below.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A529, A685, A585, A629.

## Research information

Students will undertake research training and complete a research project in one of the three following options:

- one credit point of research training in research design, and a one credit point research project;
- one credit point of research training in research design and methods (qualitative or quantitative), and a two credit point research project; or
- two credit points of research training in research design and methods (qualitative or quantitative), and a four credit point research project developed in consultation with a supervisor from the relevant discipline

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Understand, investigate and critically reflect on the diverse tangible and intangible manifestations of social memory as expressed in places and sites, objects, traditional practices and beliefs on a personal and collective level and evaluate different conceptual and practical approaches to the identification, conservation, interpretation, management and use.
Communication	Effectively communicate the findings and analysis of cultural heritage concepts, theories and applied knowledge, in written, digital and oral formats to specialist and non-specialist audiences
Digital literacy	Use a range of generic and specialist cultural heritage digital technologies and information sources to discover, select, analyse, employ, evaluate, and disseminate technical and non-technical information and research outcomes.
Critical thinking	Critically reflect on, analyse, evaluate and synthesise key concepts in the identification, conservation, interpretation, management and use of cultural heritage.  Apply expert knowledge of, and, technical and creative skills in cultural heritage to evaluate issues and problems in professional practice and scholarship
Problem solving	Apply expert knowledge to critical analyse, and develop innovative and creative solutions to real-world and ill-defined problems or issues in the identification, conservation, interpretation, management and use of cultural heritage.

Deakin graduate learning outcomes	Course learning outcomes
Self-management	Apply knowledge and skills in creative ways to new situations in professional practice and/or further learning in the field of Cultural Heritage with adaptability, autonomy, responsibility and personal accountability for actions as a critically self-reflexive practitioner and learner.
Teamwork	Apply the principles of effective team work as a member and/or leader of diverse teams.
Global citizenship	Analyse and address Cultural Heritage issues in the domestic, regional and global context as a critically reflexive scholar and practitioner, taking into consideration cultural and socio-economic diversity, social and environmental responsibility and the application of the highest ethical standards.

Approved by Faculty Board 2015

## Course rules

The Master of Cultural Heritage is typically 8, 12 or 16 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To qualify for the Master of Cultural Heritage, students must successfully complete the following:

- AA1018 Academic Integrity (0-credit-point compulsory unit)
- 6 core units
- 10 credit points of study combining research and elective units

## Course structure

### Core units

AIM708	World Heritage and International Heritage Practice
AIM709	Intangible Heritage
AIM723	Heritage Interpretation
AIM734	Understanding Significance
AIM735	Leadership in Museums and Heritage Organisations
AIM736	Museums, Heritage and Society

### Electives

AIM703	Introduction to Heritage Planning
AIM704	Heritage, Development and Tourism in the Asia-Pacific Region
AIM705	Conservation Management Planning
AIM714	Cultural Landscapes
AIM715	Virtual Heritage
AIM717	Heritage in the Field
AIM722	Collections and Curatorship
AIM727	Exhibitions
AIM733	Applied Heritage Project

2 credit points of the electives may be selected from other Deakin postgraduate units with the approval of the course director.

## Research

The 10 credit points of study combining research and elective units can be attained in one of the following configurations:

### Option 1: Dissertation

- 2 credit points of research training (AIX706, plus one of AIX707 or AIX708)
- 4 credit point independent research project (AIX702, AIX703)
- 4 credit points of Cultural Heritage and Museum Studies electives

### Option 2: Research Paper

- 1 credit point of research training (AIX706)
- 2 credit point independent research project (AIX704 and AIX705)
- 7 credit points of Cultural Heritage and Museum Studies electives

### Option 3: Research Project

- 1 credit point of research training (AIX706)
- 8 credit points of Cultural Heritage and Museum Studies electives
- 1 credit point independent research project (AIX701)

### Research units

AIX701	Research Project
AIX702	Dissertation A
AIX703	Dissertation B
AIX704	Research Paper A
AIX705	Research Paper B
AIX706	Research Design
AIX707	Qualitative Research
AIX708	Quantitative Research

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There are options for WIL and study tours across many of the SHSS courses.

## Research and research-related study

Independent research components are embedded across a number of units.

# Master of Arts

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Arts
<i>Campus</i>	Offered at Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years full time or part time equivalent
<i>CRICOS course code</i>	001869E
<i>Deakin course code</i>	A800
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

Undertake supervised research in arts and contribute to your chosen discipline area.

This is an exciting opportunity to thoroughly immerse yourself in an interesting topic – all the while learning research and analytical skills to apply in your professional life.

You'll complete a thesis of 40,000–50,000 words, embodying the results of research carried out in your chosen field of study. You may submit a thesis comprising creative works and an exegesis of no fewer than 10,000–12,000 words.

The Master of Arts is conducted under the supervision of a panel, chaired by an experienced principal supervisor. If you show significant promise as a research student, you might be invited to apply to enrol in the Doctor of Philosophy program.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Research information

### Research areas

Supervision is available in most discipline areas offered by the Faculty. Contact the Higher Degree by Research Officer on Tel 03 5227 2226 or email [artsed-research@deakin.edu.au](mailto:artsed-research@deakin.edu.au).

### Research scholarships

Deakin University offers scholarships for study towards higher degrees by research. For further information, contact the Research Scholarships Officer, telephone 03 5227 3492 or email [research-scholarships@deakin.edu.au](mailto:research-scholarships@deakin.edu.au).

## Course learning outcomes

Course learning outcomes	Deakin graduate learning outcomes
Demonstrate an advanced and integrated understanding of a complex body of knowledge in one or more discipline areas by generating substantial contribution to knowledge through the use of appropriate research principles and methods.	<p>Discipline-specific knowledge and capabilities: appropriate to the level of study related to a discipline or profession.</p> <p>Digital literacy: using technologies to find, use and disseminate information.</p> <p>Self-management: working and learning independently, and taking responsibility for personal actions.</p>
<p>Apply critical analysis and reflection to ethically research, synthesize and evaluate complex information, problems, concepts, interpretations and theories to demonstrate cognitive and technical skills in a body of knowledge or practice.</p> <p>Effectively disseminate research outcomes to a variety of audiences using highly developed communication skills and work productively within a team of experts in the field.</p>	<p>Critical thinking: evaluating information using critical and analytical thinking and judgment.</p> <p>Problem solving: creating solutions to authentic (real world and ill-defined) problems.</p> <p>Teamwork: working and learning with others from different disciplines and backgrounds.</p>
Demonstrate autonomy, expert judgement, adaptability, initiative, resilience and responsibility as a practitioner or learner.	<p>Communication: using oral, written and interpersonal communication to inform, motivate and effect change.</p> <p>Global citizenship: engaging ethically and productively in the professional context and with diverse communities and cultures in a global context.</p>

Approved by Faculty Board July 2016

## Course rules

A candidate is required to complete a thesis of 40,000–50,000 words, embodying the results of research carried out in the field of study specified at the time of enrolment. Candidates in the arts may submit a thesis comprising creative works and an exegesis of no fewer than 10,000–12,000 words.

After a suitable qualifying period, generally at or post colloquium, Master of Arts candidates showing significant promise as research students may apply to transfer their enrolment to the Doctor of Philosophy program. Transfer is dependent on meeting the required academic standard and full support from your principal supervisor.

Coursework unit – to be completed by all students.

Details available at the following site: [deakin.edu.au/research/become-a-research-student/phd-xtra](http://deakin.edu.au/research/become-a-research-student/phd-xtra).

Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Doctor of Philosophy

<i>Year</i>	2019 course information
<i>Award granted</i>	Doctor of Philosophy
<i>Campus</i>	Offered at Burwood (Melbourne), Waurm Ponds (Geelong), Waterfront (Geelong), Warrnambool
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	006239F
<i>Deakin course code</i>	A900
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 10.

## Course overview

The Doctor of Philosophy (PhD) is a supervised research program where you'll make a substantial, original contribution to knowledge in your chosen arts field.

Deakin currently has around 1600 higher degree by research candidates – intelligent people making the most of our excellent facilities, partnerships, strategic research centres and excellent reputation.

Your research will be conducted under the supervision of a panel, which is chaired by the principal supervisor – a full-time member of staff experienced in research.

You'll write a thesis of 80,000–100,000 words, embodying the results of research carried out your field of study. If you're studying for a PhD in the creative arts, you can submit a thesis comprising creative work and an exegesis of between 25,000 and 50,000 words.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Alternative exits

A800.

## Course overview

Build your foundation knowledge in nutrition science while understanding how business operates and guides Australia's \$20 billion food industry. With a Bachelor of Nutrition Science/Bachelor of Commerce, you'll graduate with highly transferable skills that allow you to understand and navigate the relationship between nutrition and business.

Why not combine your passion for food and nutrition with the business skills that will prepare you for a career in the food industry?

Create unique career paths with a combined degree in nutrition sciences and the highly transferable skills of a business degree. Behind every industry is a business operation, and with this degree you'll learn both the implications of nutrition on our population and the business skills that can be applied to the field.

While studying nutrition sciences, you will build an understanding of how nutrition affects all aspects of our lives from our overall health, to disease and ageing. You will graduate with the advanced knowledge to provide evidence-based nutrition advice throughout community settings.

Your commerce degree will arm you with the versatile skills that ensure you graduate ready to confidently advise in roles across business and government. By choosing to complete a business major, you will gain insight into how a specialised area of commerce affects the nutrition industry. The majors available in the Commerce portion of this degree include:

- accounting
- economics
- finance
- human resource management
- management
- management information systems

The core units within this combined degree prepare you for a range of careers, including:

- business analytics
- disease prevention
- economics
- finance
- food habits
- food sustainability
- food science
- lifespan nutrition
- management
- marketing
- nutritional physiology
- sustainable food systems.

Both the School of Exercise and Nutrition Sciences and Deakin Business School house state-of-the-art facilities to expose you to industry standard environments while you study. Put theories to the test in our food sensory labs and develop your skills in business analytics at the IBM Centre of Excellence.

Broaden your cultural understanding of nutrition and commerce by taking your studies overseas. Learn about strategic management in South Korea or head to the US to visit some of the world's biggest food organisations. You will gain invaluable experience that will ensure that you can take your degree into careers within Australia and internationally.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

This qualification allows you to receive recognition from both nutrition and business professional bodies.

Enrolled students and graduates may apply for membership of the Nutrition Society of Australia (NSA). Graduates may apply for registration which will ensure you're recognised as a qualified nutrition professional in the field.

Deakin's Bachelor of Commerce is internationally recognised and EPAS accredited by the European Foundation for Management Development (EFMD). We are also the only Australian university with this accreditation, meaning you are graduating with a degree that is of a global standard.

## Career opportunities

This combined course will give you a competitive edge when it comes to employment. You will not only have the understanding of how nutrition affects our population, but the business skills to critically analyse its relationship to commerce. Find yourself in roles including:

- brand/product management
- consumer education
- consumer research
- food composition
- food policy
- food regulation
- management
- marketing and media
- quality assurance
- wholesale and retail.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Pathways

This course can be a pathway to:

- H418 Bachelor of Food and Nutrition Sciences (Honours)
- H714 Master of Human Nutrition
- H748 Master of Nutrition and Population Health

## Alternative exits

- Bachelor of Nutrition Science (H315)
- Bachelor of Commerce (M300)

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Nutrition Science (H315) or Bachelor of Commerce (M300).

## Course rules

To complete the Bachelor of Food and Nutrition Sciences/Bachelor of Commerce students must attain 32 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 32 credit points you will need to study 32 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester, and usually undertake two trimesters each year.

The course comprises 32 credit points. 16 credit points are Nutrition Science units, and 16 credit points are Commerce units, which includes the completion of a prescribed Commerce major sequence from one of the following options: Accounting, Economics, Finance, Human Resource Management, Management, Management Information Systems and Marketing, which must include the following:

- 16 credit points studied within the Faculty of Business and Law must include the 8 Bachelor of Commerce core units: MAA103, MAE101, MAF101, MLC101, MMK101, MMM132, MIS171 and MWL101.
- Completion of HSN010 Food and Nutrition Laboratory Safety prior to your first laboratory based unit in this course.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

Refer to the details of each major sequence for availability.

- Accounting
- Economics
- Finance
- Human Resource Management
- Management
- Management Information Systems
- Marketing

## Course structure

### Core units

Course structure applies for students who commenced in 2018 onwards. Students who commenced prior to 2018 should refer to previous online Handbooks or consult your course enrolment officer.

Students may be able to complete their course in three years by undertaking units in Trimester 3, subject to availability of units in Trimester 3. Course maps to aid students with course planning and progression are available at the School of Exercise and Nutrition Sciences page.

### Year 1

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
SLE010	Laboratory and Fieldwork Safety Induction Program (0 credit points)
HSN101	Foundations of Food, Nutrition and Health
SLE133	Chemistry in Our World
MAA103	Accounting for Decision Making
MAF101	Fundamentals of Finance

#### Trimester 2

HSN010	Food and Nutrition Laboratory Safety (0 credit points)
HBS109	Human Structure and Function
HSN106	Food Fundamentals
MAE101	Economic Principles
MLC101	Law for Commerce

### Year 2

#### Trimester 1

HSN105	Healthy and Sustainable Food Systems
HSN211	Nutritional Physiology
MMM132	Management
MMK101	Marketing Fundamentals

#### Trimester 2

HSN104	The Science of Food
HSN107	Physiology of Human Growth and Development
MIS171	Business Analytics
MWL101	Professional Insight

### Year 3

#### Trimester 1

HSN223	Sensory Evaluation of Food
HSN301	Diet and Disease

Plus two units from one Business major sequence

#### Trimester 2

HSN202	Lifespan Nutrition
HSN210	Nutrition and Food Promotion

Plus two units from one Commerce major sequence

## Year 4

### Trimester 1

HSN309 Food Policy and Regulation

HSN319 Consumer and Sensory Innovation of Food

Plus two units from one Commerce major sequence

### Trimester 2

HSN302 Population Nutrition

HSN305 Assessing Food Intake and Activity

Plus two units from one Commerce major sequence

## Business majors

- Accounting
- Economics
- Finance
- Human Resource Management
- Management
- Management Information Systems
- Marketing

## Work experience

Not applicable

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Vision Science/Master of Optometry

<i>Deakin course code</i>	D302
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7/9.

## Course overview

The Bachelor of Vision Science/Master of Optometry is a specialised combined degree that lets you graduate with a professional qualification in optometry in just three and a half years. You will gain the discipline-specific knowledge and skills to be work-ready and practise as an optometrist in Australia and New Zealand, as well as learn about the broader effects that visual health has on society.

Do you want to graduate job ready as a qualified optometrist?

Deakin offers Australia's first accelerated optometry course, which means you can graduate and begin your career sooner. Our optometry program will give you a comprehensive understanding of the practice of optometry, with strong foundations in science, inter-professional health practice, commercial awareness and practice management.

You will investigate the structure and function of the visual system while learning about various visual health issues and their wider impact on the local and international community. Gain crucial skills in the clinical assessment, treatment and management of eye and vision disorders, as well as forming a strong understanding of the ethical, legal and professional standards of practice.

Clinical placements are a big focus of this program. You will take part in a variety of short-term industry placements from your first year, and spend the final six months of the course as a student resident in one of a range of clinical optometric and medical settings.

These extensive rotations take place in both metropolitan and regional or rural settings, where you'll consolidate your knowledge and skills under the supervision of qualified optometrists.

As well as equipping you to diagnose and manage ocular conditions, this unique combined degree has a strong emphasis on the underlying social and environmental factors that contribute to the health gap between regional communities and urban populations, ensuring you graduate with a well-rounded understanding of the field of optometry.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

On successfully completing this course, you can apply for registration to practise as an optometrist in Australia. Deakin optometry has been awarded accreditations by the Optometry Board of Australia, following assessment by the Optometry Council of Australia and New Zealand (OCANZ). You will also be eligible to apply for registration to practise as an optometrist with the Australian Health Practitioner Regulation Agency (AHPRA), and to Medicare as a service provider. This will enable you to pursue employment opportunities throughout Australia and New Zealand.

## Career opportunities

Deakin optometry graduates are well prepared for employment in a diverse range of work settings, including:

- clinics
- corporate and community settings
- health services
- hospitals
- non-government organisations
- private practice
- research institutes
- state and local governments
- tertiary education institutions.

Career opportunities for qualified optometrists include:

- practice ownership
- private and public eye care
- research and education
- recognised specialties within optometry such as:
  - myopia control
  - dry eye management
  - low vision
  - paediatric vision.

As well as pursuing a career in optometry, this course could lead you towards a number of other rewarding careers, including:

- ophthalmic practice business owner
- spectacle retailer
- not-for-profit campaigner
- visual simulator designer.

## Participation requirements

The course has been developed to provide students with opportunities to practice optometry (under supervision) in a variety of contexts. In keeping the Deakin Optometry's commitment to improving rural eyecare delivery, students will spend at least three months of their extended residential placement in a regional, rural or remote location to develop a deeper understanding of the challenges faced by these communities when attempting to access eye care.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](https://deakin.edu.au/courses/key-dates).

Students are required to complete units in Trimester 3.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Requirements for Clinical Placements and Registration

All students are required to undertake a Police and a Working with Children Check at the commencement of their course. Students who fail to do so prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students are also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs.

## Alternative exits

H310.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply advanced integrated optometric knowledge to evaluate clinical information, utilising expert skills and judgement to independently perform optometric examinations, establish diagnoses and design appropriate management plans within a robust practice management system.
Communication	Employ a range of communication strategies to interpret theoretical positions, methodologies and conclusions, and explain and justify professional and clinical decisions to other health professionals, peers and colleagues (specialist and non-specialist audiences).  Employ a range of communication strategies that take into account individual diversity to effectively communicate information regarding informed consent, diagnoses and management plans to patients, carers and other health-care professionals.
Digital literacy	Choose appropriate technologies to effectively find, use and disseminate clinical and research findings; demonstrate skills in applying new technologies in clinical settings to implement examination plans and manage patient records.
Critical thinking	Apply expert knowledge to critically analyse and synthesise complex optometric information and theories to address research questions and new situations in professional practice.

Graduate learning outcomes	Course learning outcomes
Problem solving	Apply an advanced body of knowledge in order to define and frame clinical optometric problems and apply evidence based strategies to solve such problems.  Apply business and practice management skills to identify areas of optometric business in need of improvement and strategies to improve and maintain a safe and efficient/compliant optometric practice.
Self-management	Operate in a professional, reflective and ethical manner, being cognisant of the accountability and responsibilities that come with professional optometric practice, thereby employing a structured and efficient approach to professional practice.
Teamwork	Operate as an independent optometric professional, capable of demonstrating leadership in practice management and collaboration with other health professionals in providing high quality optometric care for patients.
Global citizenship	Model behaviour consistent with professional and ethical standards of the profession, being sensitive to cultural and social diversity and the issues impacting on eye and vision care in regional and rural communities, adopting a global perspective to evidence-based practice and advocacy.

## Course rules

To complete the Bachelor of Vision Science/Master of Optometry students must attain 40 credit points. This is an accelerated three and a half year course delivered over ten consecutive trimesters commencing in Trimester 1. All the units in the course are core (these are compulsory).

Students must pass all first year units, or be granted Recognition of Prior Learning for these units, before proceeding to second year.

Due to the integrated nature of the curriculum and assessment, and the requirements of the external accrediting body, from Year 2 onwards, students must pass all units in a given trimester prior to proceeding to the next trimester. Any student who fails to meet this requirement will need to intermit until the next offering of the unit, which will usually be in a period of two trimesters.

To support student reintegration to the course after a period of intermission, students will be required to demonstrate that they have maintained skills and knowledge at a level required to practice safely. To support students in doing this, non-award units will be offered in the trimester preceding re-entry to the course. Please contact your course advisor for assistance.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Units

Course structure applies to students who commenced in 2015 onwards. Students who commenced prior to 2015 should refer to previous online Handbooks or consult your course enrolment officer.

Students must enrol in the Waurn Ponds (Geelong) offering of all units

### Year 1

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
SLE010	Laboratory and Fieldwork Safety Induction Program (0 credit points)
HBS107	Understanding Health
HBS108	Health Information and Data
HMO101	Principles of Optics
SLE111	Cells and Genes

#### Trimester 2

HMO102	Science of Vision 1
HMO103	Clinical Optics
HMO104	Ocular Structure

And

SLE155	Chemistry for the Professional Sciences (if Chemistry completed in Year 12)
OR	
SLE133	Chemistry in Our World (if Chemistry not completed in Year 12 – offered in Trimester 1 and Trimester 3)

#### Trimester 3

HMO105	The Business of Optometry
HMO201	Science of Vision 2
HMO202	Ocular Function
MAA103	Accounting for Decision Making

### Year 2

#### Trimester 1

HMO203	Health and Vision Sciences 1
HMO204	Principles and Practice of Optometry 1

#### Trimester 2

HMO303	Health and Vision Sciences 2
HMO304	Principles and Practice of Optometry 2

#### Trimester 3

HMO305	Health and Vision Sciences 3
HMO306	Principles and Practice of Optometry 3

### Year 3

#### Trimester 1

HMO701	Advanced Optometric Studies 1
--------	-------------------------------

#### Trimester 2

HMO702	Advanced Optometric Studies 2
--------	-------------------------------

#### Trimester 3

HMO703	Community Optometry 1
--------	-----------------------

### Year 4

#### Trimester 1

HMO704	Community Optometry 2
--------	-----------------------

## Work experience

Clinical placements are an integral part of the program. You will undertake a variety of short-term industry placements and spend the final six months of the course as a 'student resident' in one of a range of clinical optometric and medical settings. These extensive rotations take place in both metropolitan and regional or rural settings, and will enable you to consolidate your knowledge and skills in supported environments under the supervision of qualified optometrists.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

The course includes an extensive practical placement component (cost incurred by the student) including a Clinical Residential Placement in the last six months of the course. Students will also need to purchase personal optometric diagnostic (costing approximately \$3500) in Year 2 of the program.

## Third party arrangements

There is an arrangement with the Australian College of Optometry, Barwon Health, Lorne Community Hospital and approximately 200 optometry practices across Australia and New Zealand to provide clinical training to our students.

The Dean of the School of Medicine signs the agreements with the ACO and Barwon Health. A member of the Optometry Executive signs the individual agreements and the practice accreditation documents (see below) and these are stored by the School of Medicine Student Experience Team.

### Nature of third party arrangements

These partners allow our students access to clinical optometric training (pre-clinical and clinical) by providing opportunities to:

- Observe optometric and ophthalmological consultations and
- Undertake optometric consultations under the guidance and supervision of optometrists and ophthalmologist

### Quality assurance arrangements

Supervisors that are responsible for providing summative and formative feedback are offered compulsory supervisor training modules (approx. 5 hours duration).

Practices offering student placements must pass an initial audit and sites are audited on a rolling basis (approximately 20% per annum).

Deakin staff liaise with supervisors (primarily via education officers at the ACO and Barwon Health and via telephone contact with individual optometrist practitioners in private practice).

## Work experience

Clinical placements are an integral part of the program. You will undertake a variety of short-term industry placements and spend the final six months of the course as a 'student resident' in one of a range of clinical optometric and medical settings. These extensive rotations take place in both metropolitan and regional or rural settings, and will enable you to consolidate your knowledge and skills in supported environments under the supervision of qualified optometrists.

## Research and research-related study

A Research component (Honours equivalent) is scaffolded throughout the BVisSc/MOptom course. In HMO305, 30% of the 2CP unit is devoted to an expanded literature review and in HMO701 and 702 this research is continued in the form of a research project with protocol writing, data collection, analysis and presentation (written and oral) in HMO70. In HMO306, HMO703 and HMO704 independent Research-based case reports assess clinical research skills.

## Bachelor of Arts/Master of Teaching (Secondary)

*This course is for continuing students only.*

### Course overview

Combine your passion for the arts with a desire to inspire the generations of tomorrow, with a Bachelor of Arts/Master of Teaching (Secondary) at Deakin. Our school-based learning programs and teaching practicums ensure you're ready to teach today and into the future.

Are you ready to join Australia's largest profession?

Fast-track your studies and graduate with a postgraduate teaching degree in just four years. You'll gain hands-on teaching experience and will be supported in all aspects of professional experience. Plus, you'll have ongoing communication with staff to ensure that you have the best opportunity to develop as a teacher.

Start with Deakin's Bachelor of Arts, allowing you to design your studies around your interests, creating unique combinations of majors and minors to customise your learning. While studying your undergraduate degree, you'll also be building your foundation knowledge that will take you into your postgraduate studies. Choose from relevant arts disciplines that will form your teaching specialisations, including:

- anthropology
- Arabic, Chinese, Indonesian or Spanish
- children's literature
- dance
- drama
- history
- media studies
- philosophy
- politics and policy studies or sociology
- visual arts or photography.

During your postgraduate studies, Deakin's Professional Experience Program is a key part of your course, ensuring you have the practical skills needed from day one of your teaching career. Our professional experience team works with more than 1400 schools across Australia, arranging more than 7000 placements per year to develop professional readiness for success in the education sector.

You'll also have the opportunity to add a global perspective to your degree by studying abroad. Head to the US to study history, or capture images of renowned landmarks while studying photography in the Czech Republic.

Before beginning your Master of Teaching (Secondary), prospective education students need to successfully complete the CASPer test – an online, video scenario-based test that lets you demonstrate your suitability for a teaching career.

## Professional recognition

The Master of Teaching (Secondary) is accredited by the Victorian Institute of Teaching (VIT). Students are eligible to apply for registration with VIT upon successful completion of this degree for the purposes of teacher registration in Victoria.

## Career opportunities

Teaching courses at Deakin lead to a career that can make a profound and lasting contribution to the future by positively educating and influencing the lives of students. Teaching is the largest profession in Australia, with more than 200,000 teachers working across 10,000 schools, teaching more than three million students. It's a rewarding career that offers creativity, flexibility and opportunity.

Graduates of the Bachelor of Arts/Master of Teaching (Secondary) are qualified to teach in secondary schools within Victoria, in the private, independent, or public education sectors.

Your specialisations and advanced knowledge will also open doors to roles in:

- community services
- government agencies
- not-for-profit organisations.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Students are required to complete units in Trimester 3 of the third year of study.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

To qualify for the award of Bachelor of Arts/Master of Teaching (Secondary), students must complete a total of 36 credit points of units comprising of:

### Bachelor level studies

1. Two approved Arts major sequences of at least 8 credit points each selected from:

- One of Anthropology, Philosophy, Politics and Policy Studies or Sociology
- One of Children's Literature or Literature Studies
- One of Arabic or Chinese or Indonesian or Spanish
- One of Visual Arts or Photography
- History
- Drama
- Media Studies

2. 4 elective units selected from another of the groups of Arts major disciplines listed above.

*Note: Students taking a major in Anthropology, Philosophy, Politics or Sociology must select 2 credit points of units in one of the others of these or Geography/History among their electives.*

3. 4 credit points selected from:

- EDU201 Educational Psychology
- EDU202 Educators and Learners
- EDU203 Literacy, Numeracy and Education
- EDU303 Education, Communication and Technology
- EDU301 Culture, Diversity and Participation in Education
- EDU302 Education and Humanitarian Development

4. Students must complete no more than 10 credit points at level 1

5. Students must complete at least 4 credit points at level 3

Following successful completion of the first 3 undergraduate levels of the course, students with a Weighted Average Mark (WAM) above 60 and meet the entry requirements for the Master of Teaching (Secondary) will progress to the postgraduate level of the course. Students cannot progress to the postgraduate level of study without completing all 24 credit points at undergraduate level. An alternative exit from D303 with an A300 Bachelor of Arts award is available to students with a WAM of less than 60.

A Working with Children Check is required before commencing school experience in Trimester 3 of Year 3.

### Postgraduate level studies

Students must complete:

- 8 core teaching units
- 2 curriculum study units in first teaching specialist area
- 2 curriculum study units in second teaching specialist area

This course includes 60 days of supervised professional experience.

Students are also required to complete below two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) and AAI018 Academic Integrity (0-credit-point compulsory unit) in order to graduate from their course.

## Course structure

### Bachelor structure

Students to select 2 of the below arts major sequences (8 cps each)

- Anthropology Burwood (Melbourne), Cloud (online)
- Arabic Burwood (Melbourne), Cloud (online)
- Children's Literature Burwood (Melbourne), Cloud (online)
- Chinese Burwood (Melbourne) only
- Drama Burwood (Melbourne) only
- History Burwood (Melbourne), Cloud (online)
- Indonesian Burwood (Melbourne), Cloud (online)
- Literary Studies Burwood (Melbourne), Cloud (online)
- Media Studies Burwood (Melbourne), Cloud (online)
- Philosophy Burwood (Melbourne), Cloud (online)
- Photography Burwood (Melbourne) only
- Politics and Policy Studies Burwood (Melbourne), Cloud (online)
- Sociology Burwood (Melbourne), Cloud (online)
- Spanish Burwood (Melbourne), Cloud (online)
- Visual Arts Burwood (Melbourne) only

Plus 4 electives selected from another Arts major discipline listed above

*Note: Students taking a major in Anthropology, Philosophy, Politics or Sociology must select 2 credit points of units in one of the others of these or Geography/History among their electives.*

Plus 4 credit points selected from:

EDU201	Educational Psychology
EDU202	Educators and Learners
EDU203	Literacy, Numeracy and Education
EDU303	Education, Communication and Technology
EDU301	Culture, Diversity and Participation in Education
EDU302	Education and Humanitarian Development

### Postgraduate structure

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)

### 8 core units

EEE751	Teaching: Promoting Successful Learning
EEE752	Planning and Assessment with Diverse Learners
EEE753	Becoming a Professional Educator
EEH730	Promoting Student Wellbeing
EPR731	Planning for Learning in Professional Experience
EPR732	Managing Teaching in Professional Experience
EPR733	Reflecting On Practice in Professional Experience
EXC725	Literacy and Numeracy Across the Curriculum

Plus two Secondary Curriculum Studies units in a first teaching method area

Plus two Secondary Curriculum Studies units in a second teaching method area

## Secondary Curriculum Study units

Teaching method area	Discipline studied	Curriculum study units
Art*	Photography Visual Arts	ECA731 ECA732
Drama*	Drama	ECA731 ECA732
English	Children's Literature Literary Studies	ECL761 ECL762
History	History	EHU701* EHI702
Languages Teaching	Arabic Chinese Indonesian Spanish	ETL710 ETL716
Media^	Media Studies	ECA735 ECA736
Studies of Society and Environment (SOSE)	Anthropology History Philosophy Politics and Policy Sociology	EHU701 EHU702

\* Students undertaking any two of Art, Drama or Media as their two teaching method areas that the units will be ECA731, ECA732, ECA735, ECA736

^ Media units ECA735 and ECA736 are also used to deliver Art, Visual Arts, Music, Dance and Drama where students are already enrolled in ECA731 and ECA732 for their first Arts discipline method area.

\*\* Prior to 2019 students completed EHI701

## Professional experience placement

Students are required to apply for a Working with Children Check before commencing school experience in Trimester 3 of Year 3. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>

For further information contact the School of Education, Professional Experience office.

## Course duration

4 years full-time (taking advantage of Trimester 3 between undergraduate and postgraduate components), or part-time equivalent.

## Other learning experiences

Experiences in community and school or early childhood settings are embedded in some curriculum units beyond the professional experience placements. Students are also encouraged to volunteer in these settings. Wherever possible, academic staff work alongside education professionals and preservice teachers in these authentic learning experiences.

## Research and research-related study

Independent research and practitioner research components are embedded across a number of units. Preservice teachers are expected to engage in critically reflective research on their own practice as a way of demonstrating their progress against the professional standards for graduate teachers.

## Course overview

Translate your passion for the study of sciences into a career that inspires others, with a Bachelor of Science/Master of Teaching (Secondary) at Deakin. Create unique course combinations with science specialisations and graduate as a qualified secondary school educator.

Are you ready to join Australia's largest profession?

Fast-track your studies and graduate with a postgraduate teaching degree in just four years. This combined course prepares graduates with the attributes, discipline-specific knowledge, professional behaviours and standards required to practice as a secondary school teacher in Australia, teaching from junior secondary to VCE levels.

Start with Deakin's Bachelor of Science, and alongside your core units, choose two science majors that will lead to your postgraduate specialisations. Create unique course combinations that when paired with teaching, customise your degree and boost your employability. Study disciplines including:

- animal biology
- cell biology
- chemistry and materials science
- environmental science
- human biology
- humanities
- mathematical modelling
- plant biology
- natural history.

During your postgraduate studies, Deakin's Professional Experience Program is a key part of your course, ensuring you have the practical skills needed from day one of your teaching career. Our professional experience team works with more than 1,400 schools across Australia, arranging more than 7,000 placements per year.

Take part in our study abroad and work-integrated learning programs and gain invaluable experience you won't find in the classroom. You'll have the opportunity to be a part of our Global Science and Technology Program, or develop industry-relevant skills through our professional learning placements.

Before beginning your Master of Teaching, prospective education students need to successfully complete the CASPer test – an online, video scenario-based test that lets you demonstrate your suitability for a teaching career.

## Professional recognition

The Master of Teaching (Secondary) is accredited by the Victorian Institute of Teaching (VIT). Students are eligible to apply for registration with VIT upon successful completion of this degree for the purposes of teacher registration in Victoria.

## Career opportunities

Graduates of the Bachelor of Science/Master of Teaching (Secondary) are qualified to teach in secondary schools within Victoria, in the private, independent or public education sectors.

Your specialisations and advanced knowledge will also open doors to roles in:

- community services
- government agencies
- not-for-profit organisations.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Students are required to complete units in Trimester 3 of the third year of study.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

To qualify for the award of Bachelor of Science/Master of Teaching (Secondary), students must complete a total of 36 credit points of units comprising of:

### Bachelor level studies

Students must complete:

1. 7 credit points of core science units
2. 2 credit points of units as follows:
  - Students who have not completed Year 12 Chemistry or equivalent take SLE133 and SLE155
  - Students who completed Year 12 Chemistry or equivalent take SLE155 and 1 cp elective (must be Science course grouped)
3. A 6 credit point approved Science major sequence selected from either of the following 2 groups:
  - Major Group 1: Animal Biology, Cell Biology, Genomics, Human Biology, Natural History and Plant Biology
  - Major Group 2: Chemistry and Materials Science, Environmental Science, Geography, Mathematical Modelling

4. 5 credit points of units chosen from another group of the Science majors listed above\*

\* Students taking a major sequence in Group 1 must choose these 5 units from one of majors in Group 2. Students taking a major sequence in Group 2 must choose these 5 units from one of majors in Group 1.

5. Students must complete both units:

- SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit point compulsory unit) and;
- STP010 Introduction to Work Placements (0 credit point unit)

6. 4 credit points selected from:

- EDU201 Educational Psychology
- EDU202 Educators and Learners
- EDU203 Literacy, Numeracy and Education
- EDU303 Education, Communication and Technology
- EDU301 Culture, Diversity and Participation in Education
- EDU302 Education and Humanitarian Development

Following successful completion of the first 3 undergraduate levels of the course, students with a Weighted Average Mark (WAM) above 60 progress to the postgraduate level of the course. Students cannot progress to the postgraduate level of study without completing all 24 credit points at undergraduate level. A WAM of less than 60 results in an alternative exit from D304 with award S320 Bachelor of Science.

A Working with Children Check is required before commencing school experience in Trimester 3 of Year 3.

### Postgraduate level studies

Students must complete:

- 8 core teaching units
- 2 curriculum study units in first teaching specialist area
- 2 curriculum study units in second teaching specialist area

This course includes 60 days of supervised professional experience.

Students are also required to complete below two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) and AAI018 Academic Integrity (0-credit-point compulsory unit) in order to graduate from their course.

## Course structure

### Bachelor structure

#### Core units

SLE103	Ecology and the Environment
SLE111	Cells and Genes
SLE123	Physics for the Life Sciences
SIT191	Introduction to Statistics and Data Analysis
SLE200	Communicating Science Ideas
SLE209	History and Philosophy of Science
SLE352	Community Science Project
SLE010	Laboratory and Fieldwork Safety Induction Program (0 credit points)
STP010	Introduction to Work Placements (0 credit points)

Plus 2 credit points as follows:

SLE133	Chemistry in Our World
SLE155	Chemistry for the Professional Sciences

Or

SLE155	Chemistry for the Professional Sciences
--------	---

And 1 elective unit (science course grouped)

*Note: Students who have not completed Year 12 Chemistry or equivalent take SLE133 and SLE155. Students who completed Year 12 Chemistry or equivalent take SLE155 and a one credit point elective unit (science course grouped).*

### Major sequences

Refer to the details of each major sequence for availability

Students must complete 6 credit points from one of the following:

#### *Major Group 1:*

- Animal Biology
- Cell Biology
- Human Biology
- Genomics
- Natural History
- Plant Biology

OR

#### *Major Group 2:*

- Chemistry and Materials Science
- Environmental Science
- Mathematical Modelling
- Geography

Plus 5 credit points of units chosen from another one of the Science majors listed above\*

\* Students taking a major sequence in Group 1 must choose these 5 units from one of majors in Group 2. Students taking a major sequence in Group 2 must choose these 5 units from one of majors in Group 1.

Plus 4 credit points selected from:

EDU201	Educational Psychology
EDU202	Educators and Learners
EDU203	Literacy, Numeracy and Education
EDU301	Culture, Diversity and Participation in Education
EDU302	Education and Humanitarian Development
EDU303	Education, Communication and Technology

### Postgraduate structure

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)

### 8 core teaching units

EEE751	Teaching: Promoting Successful Learning
EEE752	Planning and Assessment with Diverse Learners
EEE753	Becoming a Professional Educator
EEH730	Promoting Student Wellbeing
EPR731	Planning for Learning in Professional Experience
EPR732	Managing Teaching in Professional Experience
EPR733	Reflecting On Practice in Professional Experience
EXC725	Literacy and Numeracy Across the Curriculum

Plus two Secondary Curriculum Studies units in a first teaching method area

Plus two Secondary Curriculum Studies units in a second teaching method area

## Secondary Curriculum Study units

Teaching method area	Discipline studied	Curriculum studies units
Geography	Humanities	EHU701 EHU702
Science (Secondary Senior), specialist science area Biology	Animal Biology Cell Biology Human Biology Plant Biology Natural History	ESS744 ESS767
Science (Secondary Senior), specialist science area Chemistry	Chemistry and Materials Science	ESS744 ESS768
Science (Secondary Senior), specialist science area Environmental Science	Environmental Science	ESS744* ESS742
Mathematics	Mathematical Modelling	ESM724 ESM725
Double – Secondary Curriculum Study units	Sciences	ESS744 ESS741  Plus 2 of: ESS742 ESS767 ESS768 ESS755

\* Prior to 2019 students completed ESS741

### Professional experience placement

Students are required to apply for a Working with Children Check before commencing school experience in Trimester 3 of Year 3.

For further information contact the School of Education, Professional Experience office.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

Experiences in community and school or early childhood settings are embedded in some curriculum units beyond the professional experience placements. Students are also encouraged to volunteer in these settings. Wherever possible, academic staff work alongside education professionals and preservice teachers in these authentic learning experiences.

### Research and research-related study

Independent research and practitioner research components are embedded across a number of units. Preservice teachers are expected to engage in critically reflective research on their own practice as a way of demonstrating their progress against the professional standards for graduate teachers.

*Pipelining course version from 2019*

## Course overview

Studying Deakin's Bachelor of Arts/Master of Arts (International Relations) develops your understanding of the key political dynamics of our time. International relations encompasses the study of policy-related dynamics such as diplomacy, foreign policy and global governance, as well as dynamics relating to questions of order, justice and resistance in world politics.

Do you want to know more about Australia's position in the world of international relations?

Challenge perceptions, test theories and pose solutions to the relationships between countries throughout the world.

Choose to major in international relations (IR) as part of your Bachelor of Arts degree, then enhance your career options by advancing into a Master of Arts (International Relations). You'll also be able to pair your international relations major with other majors or minors, creating unique combinations, which let you study electives that complement your IR major.

When completing your masters degree, choose a specialisation within IR and complete a research project that puts into practice all you've learnt throughout your studies. Your specialisation will mean you have the opportunity to delve into any aspect of IR and acquire advanced knowledge. Choose to specialise in:

- Asia-Pacific regional dynamics
- conflict and security
- human rights and international law
- international political economy and global governance
- transnational activism and civil society.

There is no better way to learn about IR than taking your studies overseas to different cultures and political climates, with opportunities to join study abroad and internship programs. Find yourself in China or South Korea, the UK or US and further develop your understanding of the changing nature of international relations.

You can even apply your knowledge to real-world scenarios by gaining professional experience through our work-integrated learning opportunities. Spend time immersing yourself in organisations including NGOs, agencies and private sector corporations and arm yourself with skills to take into the workplace.

## Career opportunities

Graduate with a unique skill set that will set you apart from the rest. Find employment across a range of organisations including:

- consulting agencies
- defence forces
- education
- foreign affairs departments
- immigration departments
- media
- multicultural associates
- NGOs
- private sector corporations
- research.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes Bachelor of Arts	Course learning outcomes Master of Arts (International Relations)
Discipline specific knowledge and capabilities	Demonstrate a broad and coherent body of knowledge in the Arts disciplines, with depth in the underlying principles and concepts in one or more disciplines or areas of practice.	Review and analyse major theoretical, conceptual and policy debates and disputes in International Relations pertaining to foreign policy, conflict and security, international and regional politics, globalisation, and international law with reference to empirical cases.
Communication	Demonstrate highly developed skills in oral, written and electronic communication and the ability to communicate research outcomes, and produce scholarly papers.	Effectively communicate the findings and analyses of International Relations theories, concepts and their application to real-world contexts, in a selection of written, oral and digital formats, to a range of audiences.
Digital literacy	Research, analyse, synthesise and disseminate information using a range of appropriate technologies and resources in a rapidly-changing global environment.	Employ a range of digital communication technologies and platforms appropriately to conduct research, engage in debate, communicate findings, and deliver reports and presentations to a diverse range of audiences.

Deakin graduate learning outcomes	Course learning outcomes Bachelor of Arts	Course learning outcomes Master of Arts (International Relations)
Critical thinking	Use critical and analytical thinking and judgment in selecting and applying appropriate theories and methodologies to evaluate information and knowledge about society, culture and the arts.	Analyse, critically evaluate and synthesise theoretical conceptualisations of international politics and policy responses by a range of actors in the context of the changing international political system.
Problem solving	Apply cognitive, technical and creative skills to generate solutions to unpredictable and sometimes complex problems in the Humanities, Social Sciences and the Creative Arts, including cross-disciplinary approaches.	Employ initiative and creativity in conjunction with appropriate Social Science methods of research and analysis to investigate complex real-world problems in a systematic manner and generate and evaluate potential responses to issues in the areas of conflict and security, globalization, international crises and risks, foreign policy and international law.
Self-management	Demonstrate autonomy, responsibility and accountability for personal actions and a continued commitment to learning in personal, professional, and scholarly contexts.	Demonstrate autonomy, responsibility, accountability and a continued commitment to learning and skill development personally, academically and professionally in the field of International Relations.
Teamwork	Work and learn collaboratively with colleagues, other professionals and members of the wider community.	Work and learn collaboratively with others in the field of International Relations and from other backgrounds while still maintaining responsibility for their own learning.
Global citizenship	Demonstrate an awareness of ethical issues, cultural diversity, and social responsibility when engaging in scholarship and professional roles in the local, national or international community.	Analyse and respond to issues in global politics in domestic, regional and international contexts as a reflective scholar and practitioner, taking into account cultural and socio-economic diversity, social and environmental responsibility and adherence to professional and academic ethical standards.

Approved by Faculty Board

## Course rules

To qualify for the award of Bachelor of Arts (Years 1 to 3), students must complete 24 credit points as follows:

- An approved Arts major sequence in International Relations
- An approved Arts minor sequence of at least 4 credit points, or a second approved Arts major sequence of at least 8 credit points as listed below
- No more than 10 credit points of units at level 1
- A minimum of 4 credit points at level 3.

*Note: Students completing minors in Arabic, Chinese, Indonesian and Spanish are permitted to complete 4 cp across any 2 levels, i.e. students may complete 2 credit points at level 2 and 2 credit points at level 3*

*Students must have completed 24 credit points of study successfully and achieved a WAM of 60 to continue through to the Master of Arts (International Relations). Students not having fulfilled this requirement are eligible to graduate with the Bachelor of Arts as an alternative exit.*

To qualify for the award of Master of Arts (International Relations), students must complete 12 credit points including two core units and one of the following streams:

2 core units AIR726 and AIR728

### Option 1

- 6 credit points of research project units (AIX706; AIX707 or AIX708; AIX702 (2cps); AIX703 (2cps))
- 4 credit points of electives chosen from the specialisations or general electives

### Option 2

- 3 credit points of research units (AIX704, AIX705, AIX706)
- 7 credit points of electives chosen from the specialisations or general electives

### Option 3

- 2 credit point of research units (AIX701 and AIX706)
- 8 credit points of electives chosen from the specialisations or general electives

Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit)

## Transition to university study

The Faculty offers two units AIX160 Introduction to University Study and AIX117 Professional Writing for Work, that are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Major sequences

All students enrolled in the Bachelor of Arts are required to complete at least one Arts major sequence. Please see A300 Bachelor of Arts for available majors and minors.

## Specialisations

Students who complete a specialisation of 4 credit points will have the specialisation indicated on their academic transcript.

Specialisations are available in the following areas:

- Asia-Pacific Regional Dynamics
- Conflict and Security
- Human Rights and International Law
- International Political Economy and Global Governance
- Transnational Activism and Civil Society
- General electives

## Course structure

### Core units

AAI018	Academic Integrity
AIR726	Human Rights in World Politics
AIR728	Global Political Economy

### *Option 1*

AIX702	Dissertation A (2 credit points)
AIX703	Dissertation B (2 credit points)
AIX706	Research Design

Plus either

AIX707	Qualitative Research
--------	----------------------

or

AIX708	Quantitative Research
--------	-----------------------

Plus 4 electives chosen from the specialisations or general electives

### *Option 2*

AIX704	Research Paper A
AIX705	Research Paper B
AIX706	Research Design

Plus 7 electives chosen from the specialisations or general electives

### *Option 3*

AIX706	Research Design
AIX701	Research Project

Plus 8 electives chosen from the specialisations or general electives

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Independent research components are embedded across a number of units.

# Bachelor of Arts/Bachelor of Science

<i>Award granted</i>	Bachelor of Arts/Bachelor of Science
<i>Duration</i>	4 years full-time or part-time equivalent
<i>Deakin course code</i>	D311 (version 1)

*Offered to continuing students only from 2015*

## Course overview

This combined course enables students to pursue studies in a variety of contemporary themes such as the body, the environment, science policy and practice, and others. Students may combine major sequences such as public relations/chemistry, philosophy/mathematics, sociology/biology, environmental science/journalism.

## Alternate exits

A300, S320

## Course rules

Students will undertake 16 credit points in the Faculty of Arts and Education and 16 credit points in the Faculty of Science, Engineering and Built Environment. Course requirements for both the Bachelor of Arts and the Bachelor of Science must be satisfied.

Within the 16 credit points required for the Bachelor of Arts portion of the degree a minimum of 4 credit points must be completed at level 3 and a major sequence as described under course A300 Bachelor of Arts must also be completed.

See course entry for Bachelor of Arts (A300) or Bachelor of Science (S320).

## Course overview

This double degree lets you combine complementary arts and science major sequences. Studying arts provides students with highly-developed critical-thinking skills, while undertaking units in science prepares students for work in areas such as biology, environmental policy, and industrial development.

Successful graduates of this course receive two degrees and a competitive advantage over those with a single only one degree.

## Career opportunities

This combined course offers you the chance to broaden your career opportunities after graduation. This course allows you to explore the relationships between various areas of study, combining them in innovative ways to prepare yourself for a career in the humanities, social sciences, creative arts, and the various science fields. The types of opportunities available will depend on the major sequences taken within the course. For more detailed information on career outcomes for this combined course see the entries for the Bachelor of Arts and the Bachelor of Science.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

S320, A300.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

In order to qualify for the award of Bachelor of Arts/Bachelor of Science (D311), students must complete 32 credit points (16 credit points in the Faculty of Arts and Education and 16 credit points in the Faculty of Science, Engineering and Built Environment, which must include the following:

- No more than 10 credit points of units at level 1
- Course requirements for both the Bachelor of Arts and the Bachelor of Science must be satisfied.
- Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

### Bachelor of Arts

- Two major sequences of at least 8 credit points each. Majors must comprise 2 credit points at level 1 and a minimum of 2 credit points at level 3 (unless otherwise stated); or
- One major of at least 8 credit points and one minor of at least 4 credit points consisting of a minimum of 1 credit point at level one and no more than 1 credit point at level 3 (the remaining 4 credit points may be used to undertake an additional minor sequence, or to take electives chosen from the Bachelor of Arts); plus
- A minimum of 4 credit points at level 3; and
- AAI018 Academic Integrity (0 credit-point compulsory unit)

### Bachelor of Science

- At least 16 credit points from science course grouped units, including:
- 8 core science units;
- At least one 6 credit point approved Science major sequence;
- Level 3 – at least 6 credit points (including a minimum of 4 Science units)
- SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit-point compulsory unit)
- STP010 Career Tools for Employability (0 credit-point compulsory unit)

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Independent research components are embedded across a number of units.

## Bachelor of Arts/Bachelor of Laws

*Students enrolled at Waterfront (Geelong) in this combined course will be required to undertake units of study at both Waurn Ponds (Geelong) and Waterfront (Geelong).*

## Course overview

Combining an Arts degree with a Law degree enhances students' understanding of the context in which the law operates. In this combined Arts/Law course students can choose to study areas such as history, sociology, philosophy, politics or literature in addition to studies in Law. The Faculty of Arts and Education and the Faculty of Business and Law are responsible for this combined course, which leads to the awards of Bachelor of Arts and Bachelor of Laws.

Deakin's Bachelor of Laws provides the robust training and recognised qualifications you need to start your career as a first-class legal practitioner. All major areas of law are covered, such as contract, torts, property, legal practice and ethics, constitutional law, criminal law and procedure, and administrative law.

## Indicative student workload

As a student you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. The minimum expected workload for a Law unit will normally be around 150 hours, which includes attendance at class, reading, completion of any assessment, and preparation for the exam.

## Professional recognition

Deakin's Bachelor of Laws is designed to satisfy the university component of the requirements to become an Australian Lawyer set by the Victorian Legal Admissions Board (VLAB). In addition to completing an approved LLB degree, a person seeking entry is required to work for one year as a legal trainee, or to undertake a practical legal training (PLT) course.

## Career opportunities

Combining an Arts degree with a Law degree enhances students' understanding of the context in which the law operates. In this combined Arts/Law course students can choose to study areas such as history, sociology, philosophy, politics or literature in addition to studies in Law. The Faculty of Arts and Education and the Faculty of Business and Law are responsible for this combined course, which leads to the awards of Bachelor of Arts and Bachelor of Laws.

Deakin's Bachelor of Laws provides the robust training and recognised qualifications you need to start your career as a first-class legal practitioner. All major areas of law are covered, such as contract, torts, property, legal practice and ethics, constitutional law, criminal law and procedure, and administrative law.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Alternative exits

A300, M312.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Arts/Bachelor of Laws, students must attain a total of 40 credit points, consisting of 16 credit points from the Faculty of Arts and Education and 24 credit points from the Faculty of Business and Law. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

## Course structure

### Units

The 24 credit points from the Bachelor of Laws (M312) include:

- 18 credit points of core units
- 6 credit points of law elective units including 1 credit point of an experiential unit from the WIL/Practical Elective units list.
- MAI010 Academic Integrity (0-credit-point compulsory unit)

The 16 credit points from the Bachelor of Arts (A300) include:

- Level 3 – at least 4 credit points
- either two major sequences, or a major sequence and a minor sequence

# Bachelor of Arts/Bachelor of Commerce

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Arts/Bachelor of Commerce
<i>Campus</i>	Offered at Melbourne Burwood Campus, Geelong Waterfront Campus/Geelong Waurnd Ponds Campus, Warrnambool Campus
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	016883F
<i>Deakin course code</i>	D313 (version 1)

*Offered to continuing students only. Students who commenced prior to 2016 should refer to the Handbook Archive for their course structure and consult with their enrolment officer.*

*Notes:*

*(i) Students enrolled at Waurnd Ponds (Geelong) in this combined course will be required to undertake units of study at both Waurnd Ponds (Geelong) and Waterfront (Geelong).*

*(ii) Not all Bachelor of Commerce major sequences are available via campus mode study at Warrnambool. Students may undertake major sequences not available via campus enrolment by enrolling in units in Cloud (online) mode.*

## Course overview

Deakin's Bachelor of Arts/Bachelor of Commerce is a combined course which leads to two awards. The course allows you to combine complementary major sequences such as politics and policy studies and economics; marketing and journalism; and management and public relations.

As a graduate of this course you will acquire a broad knowledge in all aspects of business as well as developing the valuable skills of becoming an expert at managing and communicating knowledge, critical analysis and systematic thinking.

## Alternative exits

A300, M300, M201.1

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

The combined course comprises 32 credit points of study. Students will undertake 16 credit points in the Faculty of Arts and Education and 16 credit points in the Faculty of Business and Law.

Course requirements for both the Bachelor of Arts (A300) and the Bachelor of Commerce (M300) must be satisfied.

The 16 credit points studied within the Faculty of Business and Law must include the 8 Bachelor of Commerce core units: MAA103, MAE101, MAF101, MIS171, MLC101, MMK101, MMM132, MWL101 and MCA010 (0 credit points). In addition students must complete a prescribed Commerce major sequence and a minimum of 4 credit points at level 3 which must be Faculty of Business and Law units course grouped to a Faculty of Business and Law undergraduate degree.

Within the 16 credit points required for the Bachelor of Arts portion of the degree a minimum of 4 credit points must be completed at level 3 and a major sequence as described under course A300 Bachelor of Arts must also be completed.

See course entry for Bachelor of Arts (A300) or Bachelor of Commerce (M300).

## Course overview

Combine arts major sequences with complementary commerce majors in Deakin's Bachelor of Arts/Bachelor of Commerce to create a unique qualification. Learn to think more critically as you gain a strong foundation in all aspects of business with a focus on a commerce major like economics or marketing. At the same time, a complementary choice from Deakin's arts major sequences will mean you graduate with the balanced education employers want.

Want versatile job-ready skills in both the arts and business?

Students at Deakin's world-class business school graduate with work-ready skills and practical experience. Combine this with your arts major sequence and you will be equipped with the transferable skills to launch a career in many industries.

In this combined course, you'll study a range of topics across both areas. Hone your business knowledge through one of our leading commerce majors:

- accounting
- economics
- finance
- financial planning
- food and agribusiness
- human resources management
- management
- management information systems
- marketing.

At the same time, explore a complementary area of the arts and strengthen your understanding of people, society, politics, language or the world. Choose from:

- anthropology
- criminology
- gender and sexuality studies
- geography and society
- history
- international politics and relations
- language and culture studies
- philosophy
- politics and policy studies
- sociology
- studies of religions
- sustainability and society.

Because your teachers are active in their fields, you'll enjoy a classroom that's innovative and contemporary while providing industry expertise. Plus, you'll have the chance to grow your connections through their professional networks.

Each degree offers opportunities to get involved in hands-on learning including study abroad, international and domestic internships, work placements and exchanges. Graduate with a well-rounded and global perspective employers will love.

## Professional recognition

Depending on the major sequence you choose, your Bachelor of Commerce component may give you eligibility for a range of professional memberships and accreditations.

Students who complete the accounting major sequence are eligible to apply for:

- the CA Program of the Chartered Accountants Australia and New Zealand (CAANZ)
- Associate membership for the CPA Program
- IPA Program of the Institute of Public Accountants (IPA)
- Association of Chartered Certified Accountants (ACCA).

Students who complete the marketing major sequence are eligible for a one-year credit reduction from the five years needed to become a Certified Practising Marketer by the Australian Marketing Institute (AIM).

Students who complete the financial planning major sequence will satisfy the education standards prescribed by the Financial Adviser Standards and Ethics Authority (FASEA) to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students should consult with a course adviser to identify any additional requirements for membership for each professional body, and also consult with the professional body.

## Career opportunities

As a Bachelor of Arts/Bachelor of Commerce graduate, you'll be ready for a variety of career opportunities including:

- art centre manager
- artist agent
- careers counsellor
- image consultant
- import/export manager
- marketing and communications manager
- media analyst
- NGO advisor
- public relations manager
- public servant
- small business owner
- trade delegate.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A300, M300, M201.1

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Arts (A300) or Bachelor of Commerce (M300)

## Course rules

To qualify for the award of Bachelor of Arts/Bachelor of Commerce, students must complete 32 credit points as follows:

16 credit points of Arts coded units, of which:

- two major sequences of at least 8 credit points each. Majors must comprise 2 credit points at level 1 and a minimum of 2 credit points at level 3 (unless otherwise stated)

Or;

- One major of at least 8 credit points and one minor of at least 4 credit points consisting of a minimum of 1 credit point at level one and no more than 1 credit point at level 3 \*\*

And;

- A minimum of 4 credit points at level 3 of Arts coded units
- A maximum of 6 credit points at level 1 of Arts coded units

\*\* Students completing minors in Arabic, Chinese, Indonesian and Spanish are permitted to complete 4 cp across any 2 levels. i.e. students may complete 2 credit points at level 2 and 2 credit points at level 3

16 credit points of Commerce coded units, of which:

- 8 credit points of core units.
- one major sequence of 8 credit points must be included.
- A minimum of 4 credit points at level 3 of Commerce coded units

Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit)

Course requirements for both the Bachelor of Arts (A300) and the Bachelor of Commerce (M300) must be satisfied.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Independent research components are embedded across a number of units.

# Bachelor of Arts – Chinese/Bachelor of Commerce

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Arts – Chinese/Bachelor of Commerce
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	012757M
<i>Deakin course code</i>	D317 (version 1)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course structure applies to students who commenced from 2016. Students who commenced prior to 2016 should refer to the Handbook Archive for their course structure and consult with their enrolment officer.*

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Accelerate your business skills and experience full immersion in the culture and history of China.

Australia's strong economic relationship with China means there is a huge demand for graduates who are both proficient in Chinese (Mandarin), and qualified in business.

As a graduate of this course, you'll be able to communicate in Mandarin and have a strong understanding of Chinese culture and trading strategies. You'll also understand Australian and international economic systems, and be familiar with the basics of accounting, economics, finance, marketing, business law, and business management.

Furthermore, you'll build specialist knowledge in one area of business. This is the perfect degree for those wanting to take advantage of the many graduate business opportunities currently available in China.

These attributes are strongly supported by employer and government bodies and indicate the wide variety of employment opportunities available.

## Professional recognition

Students who complete the accounting major sequence are eligible to apply for admission to the:

- CA Program of the Chartered Accountants Australia and New Zealand (CAANZ)
- Associate membership for the CPA Program, CPA Australia
- IPA Program of the Institute of Public Accountants (IPA) and
- Association of Chartered Certified Accountants (ACCA) – A limited number of exemptions may apply. Please refer to the Association of Chartered Certified Accountants (ACCA) for further information.

The Bachelor of Commerce (with a major in Financial Planning) is a course approved by the new financial planning standards body – the Financial Adviser Standards and Ethics Authority (FASEA). Graduates who complete the Financial Planning major sequence in the Bachelor of Commerce will satisfy the education standards prescribed by FASEA to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students who complete the marketing major are eligible for a one year credit reduction, off the five years, needed to become a Certified Practising Marketer by the Australian Marketing Institute (AMI).

Students should consult with a course adviser to identify any additional requirements for membership for each professional body, and also consult with the professional body.

## Alternative exits

M300, A300, M201.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

The Bachelor of Arts-major sequence in Chinese/Bachelor of Commerce is a 32-credit-point course. Students will undertake 16 credit points in the Faculty of Arts and Education and 16 credit points in the Faculty of Business and Law. Course requirements for both the Bachelor of Arts (A300) and the Bachelor of Commerce (M300) must be satisfied.

The 16 credit points studied within the Faculty of Business and Law must include the 8 Bachelor of Commerce core units: MAA103, MAE101, MAF101, MIS171, MLC101, MMK101, MMM132 and MWL101. In addition students must complete a prescribed Commerce major sequence and a minimum of 4 credit points at level 3 which must be Faculty of Business and Law units grouped to a Faculty of Business and Law undergraduate degree.

The 16 credit points within the Faculty of Arts and Education must include a Chinese language major sequence and the following:

Year 12 students who are not background speakers must complete the following units:

AIE334	China: From Empire to Republic
AIE335	Modern China: Liberation, Cultural Revolution and Reform
AIC385	Chinese for Business Purposes A
AIC386	Chinese for Business Purposes B

The remaining Arts units may be electives.

For advanced level background speakers must complete the following units:

AIE334	China: From Empire to Republic
AIE335	Modern China: Liberation, Cultural Revolution and Reform
AIC387	Advanced Chinese for Business Purposes C
AIC389	Advanced Chinese for Business Purposes D

Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit).

See course entry for Bachelor of Arts (A300) or Bachelor of Commerce (M300).

These attributes are strongly supported by employer and government bodies and indicate the wide variety of employment opportunities available.

## Career opportunities

At present, China, including Hong Kong, is Australia's largest trading partner. As a Deakin University graduate of Chinese you will be able to combine your mastery of language and your management/business skills to find graduate-level work in government bodies and companies which have dealings with, or operations in, Chinese-speaking countries and regions or other Asian countries.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

<i>Award granted</i>	Bachelor of Arts/Bachelor of Commerce
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	012760E
<i>Deakin course code</i>	D319

*Offered to continuing students only. Continuing students should contact a course advisor for further information. Further course structure information can be found in the handbook archive.*

# Bachelor of Business Information Systems/ Bachelor of Information Technology

<i>Award granted</i>	Bachelor of Information Technology/Bachelor of Business Information Systems
<i>Campus</i>	For students who commenced prior to 2013
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	055287C
<i>Deakin course code</i>	D320

*The final intake to this course version was in 2012. Students should contact a student advisor for course and enrolment information. Further course structure information can be found in the Handbook archive.*

## Course overview

The course offers a modern and learning-oriented study of Information Technology and Business Information Systems and produces graduates with practical and theoretical knowledge in IT with a broadly based business foundation, an emphasis on information systems knowledge and with the skills to construct and implement software and manage information systems.

Units in the course may include assessment hurdle requirements.

## Career opportunities

Graduates will be prepared for careers in which a broad knowledge and understanding of the technological aspects of IT, in particular software development, system software, internet programming, computer networks and distributed systems and programming are required.

Equipment requirements for Cloud (online) students

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [deakin.edu.au/information-technology](http://deakin.edu.au/information-technology), or by telephone 03 9244 6699.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

The course comprises 32 credit points usually completed over 4 years of full-time study, or the part time equivalent. It is structured to include:

- 4 information systems core units;
- 7 information technology core units;
- 4 commerce core units;
- 4 Information Systems elective units;
- 3 SIT Course Grouped elective units;
- 1 IT major sequence; and
- 4 credit points of elective units from the Faculty of Business and Law

## Major sequences

Refer to the details of each major sequence for availability.

Students must complete at least one 6-credit point major from the following areas:

- Computer Science
- Game Development
- Interactive Media Design
- Networking
- Security
- Software Development
- Mathematical Modelling

# Bachelor of Commerce/Bachelor of Science

<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Take your science career beyond the lab with a combined degree that allows you to pair specialist science knowledge with a solid foundation in business disciplines.

Choosing from a wide range of subjects in both streams you'll gain a unique skill-set ideal for careers in the business and management side of the science industry.

The commerce stream ensures graduates will also gain decision-making skills that prepares them for the business careers of the future. Deakin's commerce degree builds core skills in financial, market and personal acumen domains, extends knowledge within chosen discipline areas such as accounting, finance and marketing and ensures graduates are professionally ready. You'll then combine this with a relevant science stream, which may include environmental science, natural history, chemistry and materials science, animal biology, plant biology, cell biology, human biology or mathematical modelling.

Led by a team of academics who are experts in their field, our science programs offer choice from a broad range of subject areas. Science at Deakin is not just about lab work, you'll have access to the latest research findings, develop skills in evidence-based decision-making, and gain real-life work experience through our innovative practical programs.

Deakin's commerce courses are world quality accredited by AACSB and EPAS by the European Foundation for Management Development (EFMD). AACSB and EPAS are quality benchmarks for business education programs globally.

As a graduate you'll be prepared for business, marketing and management roles in a range of science-related areas. You may also choose to continue with further study.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Students who complete the accounting major sequence are eligible to apply for admission to the:

- CA Program of the Chartered Accountants Australia and New Zealand (CA ANZ)
- Associate membership for the CPA Program, CPA Australia
- IPA Program of the Institute of Public Accountants (IPA) and
- Association of Chartered Certified Accountants (ACCA) – A limited number of exemptions may apply. Please refer to the Association of Chartered Certified Accountants (ACCA) for further information.

The Bachelor of Commerce (with a major in Financial Planning) is a course approved by the new financial planning standards body – the Financial Adviser Standards and Ethics Authority (FASEA). Graduates who complete the Financial Planning major sequence in the Bachelor of Commerce will satisfy the education standards prescribed by FASEA to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students who complete the marketing major are eligible for a one year credit reduction, off the five years, needed to become a Certified Practising Marketer by the Australian Marketing Institute (AMI).

Students should consult with a course adviser to identify any additional requirements for membership for each professional body, and also consult with the professional body.

## Career opportunities

A combined course offers you the chance to broaden your career opportunities after graduation. The types of opportunities available will depend on the major sequences you take within the course. For information on career outcomes for this combined course see the entries for Bachelor of Commerce and Bachelor of Science.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Alternative exits

M300, S320, M201.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Commerce/Bachelor of Science, students must attain a total of 32 credit points, consisting of 16 credit points from the Faculty of Business and Law and 16 credit points from the Faculty of Science, Engineering and Built Environment. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

## Course structure

### Units

The 16 credit points from the Bachelor of Commerce include:

- 8 credit points of core units (MAA103, MAE101, MAF101, MIS171, MLC101, MMK101, MMM132 and MWL101)
- Completion of MAI010 Academic Integrity (0-credit-point compulsory unit)
- an 8 credit point major sequence
- Level 3 – at least 4 credit points (which must be course grouped to a Faculty of Business and Law undergraduate degree)

The 16 credit points from the Bachelor of Science include:

- 8 credit points of core units
- a 6 credit point approved science major sequence
- 2 credit points of elective units
- Level 3 – a least 4 credit points of Science units
- SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit point unit)
- STP010 Introduction to Work Placements (0 credit point unit)

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Commerce/Bachelor of Laws

Award granted	Bachelor of Commerce/Bachelor of Laws
Deakin course code	D322 (version 2)

*Offered to continuing students only. Students who commenced this course prior to 2019, please refer to the 2018 handbook. Continuing students should discuss unit selections with their enrolment officer.*

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Other optional learning experiences that differentiate the course are:

- MLL301 International Litigation and Dispute Settlement- Jessup Moot
- MLT344 Chinese Commercial Law
- MLT345 Criminal Justice Study Tour
- MLT366 International Alternative Dispute Resolution

# Bachelor of Commerce/Bachelor of Laws

<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong), Warrnambool
<i>Cloud Campus</i>	Yes
<i>Duration</i>	5 years full-time or part-time equivalent
<i>CRICOS course code</i>	002452M
<i>Deakin course code</i>	D322 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Please note: There will be no Warrnambool intakes in 2019.*

*Not all major sequences are available via Campus study at Warrnambool. Students may undertake major sequences not available in Campus mode by enrolling in units via Cloud (online) study mode.*

*The first two years available at Warrnambool Campus. The remaining course load can be taken by transferring to Geelong Waterfront Campus or the Cloud Campus.*

## Course overview

The Bachelor of Commerce/Bachelor of Laws combined degree will give you a sound understanding of the context in which the law operates in the business world.

The course opens up specific opportunities in the area of business law. Deakin's Bachelor of Laws provides the robust training and recognised qualifications you need to start your career as a first-class legal practitioner. All major areas of law are covered, such as contract, torts, property, legal practice and ethics, constitutional law, criminal law and procedure, and administrative law. A distinctive feature of the Deakin Law degree is the large number of commercial law elective units offered in the course, allowing students to further enhance the commercial focus of the degree.

Studying commerce at Deakin allows you to gain a sound foundation in key business disciplines giving you opportunities in virtually every area of business and government, in Australia and overseas. The Faculty of Business and Law is responsible for this combined course which leads to the awards of Bachelor of Commerce and Bachelor of Laws.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. The minimum expected workload for a Law unit will normally be around 150 hours, which includes attendance at class, reading, completion of any assessment, and preparation for the exam.

## Professional recognition

Deakin's Bachelor of Laws is designed to satisfy the university component of the requirements to become an Australian Lawyer set by the Victorian Legal Admissions Board (VLAB). In addition to completing an approved LLB degree, a person seeking entry is required to work for one year as a legal trainee, or to undertake a practical legal training (PLT) course.

Students who complete the accounting major sequence are eligible to apply for admission to the:

- CA Program of the Chartered Accountants Australia and New Zealand (CA ANZ)
- Associate membership for the CPA Program, CPA Australia
- IPA Program of the Institute of Public Accountants (IPA) and
- Association of Chartered Certified Accountants (ACCA) – A limited number of exemptions may apply. Please refer to the Association of Chartered Certified Accountants (ACCA) for further information.

The Bachelor of Commerce (with a major in Financial Planning) is a course approved by the new financial planning standards body – the Financial Adviser Standards and Ethics Authority (FASEA). Graduates who complete the Financial Planning major sequence in the Bachelor of Commerce will satisfy the education standards prescribed by FASEA to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students who complete the marketing major are eligible for a one year credit reduction, off the five years, needed to become a Certified Practising Marketer by the Australian Marketing Institute (AMI).

Students should consult with a course adviser to identify any additional requirements for membership for each professional body, and also consult with the professional body.

## Career opportunities

This combined course offers unequalled career opportunities. As an alternative to practising as a barrister or solicitor, you may pursue a career in business (eg. as a corporate lawyer, compliance officer, consultant, company administrator or business manager), investment banking, government or non-government organisations (such as the Australian Taxation Office), industrial relations, research, law reform or education. Broad career paths based on the study of selected commerce units enable job prospects ranging from being a professional accountant, IT and systems professional, economist, financial planner, human resources manager, social and economic policy developer, international trade officer and marketing assistant/manager.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Alternative exits

M300, M312, M201.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Commerce/Bachelor of Laws, students must attain a total of 40 credit points consisting of 16 credit points from the Bachelor of Commerce and 24 credit points from the Bachelor of Laws. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

## Course structure

### Units

The 16 credit points from the Bachelor of Commerce include:

- 7 credit points of core units (MAA103, MAE101, MAF101, MIS171, MMK101, MMM132 and MWL101)
- Completion of MAI010 Academic Integrity (0-credit-point compulsory unit)
- an 8 credit point major sequence
- a one credit point elective unit
- Level 3 – at least 4 credit points (which must be course grouped to a Faculty of Business and Law undergraduate degree)

The 24 credit points from the Bachelor of Laws include:

- 18 credit points of core units
- 6 credit points of law elective units, including 1 credit point of WIL/practical unit

*Please note: Students enrolled in the Bachelor of Commerce/Bachelor of Laws course must not undertake MLC101 Law for Commerce (a core unit in the Bachelor of Commerce) as this unit is incompatible with MLL111 Contract (a core unit in the Bachelor of Laws).*

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Laws/Bachelor of International Studies

Award granted	Bachelor of Laws/Bachelor of International Studies
Deakin course code	D323 (version 3)

*Offered to continuing students only. Students who commenced this course prior to 2019, please refer to the 2018 handbook. Continuing students should discuss unit selections with their enrolment officer.*

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

<i>Deakin course code</i>	D323 (version 4)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Students enrolled in this combined course will be required to undertake units of study at both Waurn Ponds (Geelong) and Waterfront (Geelong)*

## Course overview

This course is designed for students seeking a broader education and an international edge. The course is based around an international orientation; students make a commitment to studying at an overseas university or taking up an internship with an overseas organisation.

This course will enable students to: develop their understanding of the international forces shaping government, business and community life in contemporary Australia; analyse and interpret these forces; develop cross-cultural competencies through an internationally oriented curriculum; participate in an international study experience; and learn the principles of 'the internationalisation of the law'.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Deakin's Bachelor of Laws is designed to satisfy the university component of the requirements to become an Australian Lawyer set by the Victorian Legal Admissions Board (VLAB). In addition to completing an approved LLB degree, a person seeking entry is required to work for one year as a legal trainee, or to undertake a practical legal training (PLT) course.

## Career opportunities

A Law degree, especially when combined with another degree, such as Arts, Commerce, Management or Science, is a qualification that offers unequalled career opportunities. As an alternative to practising as a barrister or solicitor, you may enter many areas of work including business and management roles in a wide range of organisations, government services, and industrial relations. You may find a role in research, public administration, diplomatic service, the media, legal aid, law reform or teaching either in schools or universities.

For further information on career outcomes for this combined course, see the entries for Bachelor of International Studies and Bachelor of Laws.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Alternative exits

A326, M312.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Laws/Bachelor of International Studies, students must attain a total of 40 credit points consisting of 24 credit points from the Faculty of Business and Law and 16 credit points from the Faculty of Arts. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

## Course structure

The 24 credit points from the Bachelor of Laws include:

- 18 credit points of Bachelor of Laws core units
- 6 credit points of Law elective units, including 1 credit point of an experiential unit from the WIL/Practical Elective units list.
- MAI010 Academic Integrity (0-credit-point compulsory unit)

For students who commenced from 2014 onwards, the 16 credit points from the Bachelor of International Studies include:

- 6 credit points of core units
- an 8 credit point major sequence
- an approved international experience (2 credit points minimum) to be completed in the third or fourth year of the course

Students are required to meet the University's academic progress and conduct requirements. See Deakin's website for more information.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Other optional learning experiences that differentiate the course are:

- MLL301 International Litigation and Dispute Settlement-Jessup Moot
- MLT345 Criminal Justice Study Tour

# Bachelor of Property and Real Estate/Bachelor of Commerce

Year	2019 course information
Award granted	Bachelor of Property and Real Estate/ Bachelor of Commerce
Course Map	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
Campus	Offered at Burwood (Melbourne)
Cloud Campus	Yes
Duration	4 years full-time or part-time equivalent
CRICOS course code	072834F
Deakin course code	D325
Approval status	This course is approved by the University under the Higher Education Standards Framework.
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course structure applies to students who commenced in 2016. Students who commenced prior to 2016 should refer to the Handbook Archive for their course structure and consult with their enrolment officer.*

## Course overview

The Bachelor of Property and Real Estate/Bachelor of Commerce, brings together Deakin's Bachelor of Property and Real Estate and the Bachelor of Commerce into a four-year program of study. This degree will provide you with the opportunity to undertake complementary major sequences in commerce, along with studies in property and real estate.

Deakin's Bachelor of Commerce has an established reputation with industry and professional bodies. Property and real estate is an established discipline in Australia and the course is designed to produce highly-skilled property professionals who are able to enter the workforce with a qualification fully recognised by employers, government and professional organisations.

Combining the two courses will facilitate practical experience and project work that relates theory with practice, providing a broad business educational experience.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

The Bachelor of Property and Real Estate has professional accreditation by the Australian Property Institute (API) and the Royal Institution of Chartered Surveyors (RICS). Graduates will meet the academic requirement to be eligible for registration as a Certified Practising Valuer (CPV).

Students who complete the accounting major sequence are eligible to apply for admission to the:

- CA Program of the Chartered Accountants Australia and New Zealand (CAANZ)
- Associate membership for the CPA Program, CPA Australia
- IPA Program of the Institute of Public Accountants (IPA) and
- Association of Chartered Certified Accountants (ACCA) – A limited number of exemptions may apply. Please refer to the Association of Chartered Certified Accountants (ACCA) for further information.

The Bachelor of Commerce (with a major in Financial Planning) is a course approved by the new financial planning standards body – the Financial Adviser Standards and Ethics Authority (FASEA). Graduates who complete the Financial Planning major sequence in the Bachelor of Commerce will satisfy the education standards prescribed by FASEA to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students who complete the marketing major are eligible for a one year credit reduction, off the five years, needed to become a Certified Practising Marketer by the Australian Marketing Institute (AMI).

Students should consult with a course adviser to identify any additional requirements for membership for each professional body, and also consult with the professional body.

Units in addition to the 16 credit points required for completion of the Bachelor of Commerce component of this combined course may be necessary to attain some of these professional accreditations.

## Career opportunities

The BPRE/BCom prepares you for a career in the business world and in the global property and real estate industries. As a graduate of this course you will have an understanding of the legalities, principles and processes required to fill a professional role in this field, and an appreciation of a professional ethic which emphasises responsibility and responsiveness to community needs.

Students undertaking this combined course have the option to undertake a business internship program which provides a realistic business experience in their area of specialisation. By undertaking the business internship program, you will obtain a better understanding of the business workplace environment and enhanced opportunities for future employment.

Graduates can find employment in a wide range of property-related positions in both private and government sectors including property developers, valuers, investors, asset managers, property market analysts, property management, leasing agents, funds managers and government advisors.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Property and Real Estate/Bachelor of Commerce students must attain a total of 32 credit points consisting of 16 credit points from the Bachelor of Property and Real Estate and 16 credit points from the Bachelor of Commerce. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

To complete the course you must include:

- 12 credit points of Property and Real Estate core units
- 4 credit points of Commerce core units
- 4 credit points of core units common to both the Bachelor of Property and Real Estate and the Bachelor of Commerce
- Completion of MAI010 Academic Integrity (0-credit-point compulsory unit)
- an 8 credit point major from the Bachelor of Commerce
- 4 credit points of elective units (which may include a minor sequence from the Bachelor of Property and Real Estate)
- Level 3 – at least 6 credit points (of which a minimum of 4 credit points must be course grouped to a Faculty of Business and Law undergraduate degree)

## Course structure

### Bachelor of Commerce core units

MIS171 Business Analytics  
 MMK101 Marketing Fundamentals  
 MMM132 Management  
 MWL101 Professional Insight

### Bachelor of Property and Real Estate core units

MMP111 Introduction to Property  
 MMP122 Introduction to Property Development  
 MMP223 Property Law and Practice #  
 SRT112 Sustainable Construction \*  
 MMP211 Statutory Valuation  
 MMP212 Property Investment  
 MMP213 Property Economics  
 SRT214 Commercial Property Construction Studies ^  
 MMP221 Property Management  
 MMP322 Advanced Property Development ~  
 MMP311 Advanced Property Valuation  
 MMP321 Advanced Property Analysis

\* previously coded MMP112

^ previously coded MMP214

# This unit was previously coded MMP121

~ This unit was previously coded MMP222

### Common core units

MAA103 Accounting for Decision Making  
 MAE101 Economic Principles  
 MLC101 Law for Commerce  
 MAF101 Fundamentals of Finance

Plus completion of MAI010 Academic Integrity (0-credit-point compulsory unit)

Plus an 8 credit point Bachelor of Commerce major sequence

Plus completion of 4 credit points of elective units

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Other course information

*Please note: The eligibility of students for membership of the accrediting body is subject to meeting the requirements of that body and that Deakin makes no representations that individuals will meet those requirements.*

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

This course includes the option of other learning experiences (i.e. an approved international learning experience).

# Bachelor of Arts/Bachelor of Management

<i>Award granted</i>	Bachelor of Arts/Bachelor of Management
<i>CRICOS course code</i>	062180M
<i>Deakin course code</i>	D326

*Note: Offered to continuing students only. Continuing students should discuss unit selections with their enrolment officer.*

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

<i>Deakin course code</i>	D329
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Explore the nature of crime and the science behind the collection, examination and presentation of evidence with this combined degree in criminology and forensic science. You'll discover what's behind criminal behaviour, learn valuable courtroom skills and get hands-on experience examining evidence in simulated crime scenes.

Criminology is the study of crime and the motivations behind criminal behaviour. Forensic science is an applied science concerned with the law and legal proceedings and can include specialist areas such as crime scene investigation, forensic medicine and lab sciences.

Led by a team of highly experienced criminology and forensic science experts, you'll learn about the many interrelated concepts that underpin these professional areas where the law meets science.

The combined degree draws from both the arts and science disciplines. It's designed to give you a broad appreciation of the professional, social, economic and cultural contexts of why crimes are committed and teach you how to examine evidence for the purposes of legal proceedings.

In the forensic science stream you can choose to focus your studies by completing a major sequences in either Forensic Biology or Forensic Chemistry. Depending on your major, you'll cover a wide range of disciplines, including toxicology, arson and explosives investigations, analysis of illicit drugs, DNA analysis, blood spatter pattern analysis and entomology, and also undertake studies in criminology. Forensic study will focus on the examination, interpretation and presentation of evidence, and include courtroom presentations.

Our purpose-built crime scene facility lets you search for evidence and you'll also learn how to apply forensic analysis including chemical, biological and physical techniques.

In the criminology stream you'll take a close look at the nature of crime, investigating why crimes are committed. You'll explore the various theoretical approaches that shape our understanding of crime in contemporary society and how communities respond to criminal behaviour. You'll examine the criminal justice system from a sociological perspective, explore crime prevention and security, criminal and civil law and the laws of evidence.

This double degree prepares you for careers in criminology, forensic science and forensic criminology. You might choose to work in crime prevention, community development, security, policing, corrections, military services or criminal justice research. Other specialist areas you can explore include forensic sociology, criminal psychology and forensic investigation.

Units in the course may include assessment hurdle requirements.

## Indicative student workload

You can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

The Bachelor of Forensic Science has been professionally accredited by the Chartered Society of Forensic Sciences. Graduates of this course are encouraged to apply for membership of the Australian and New Zealand Forensic Science Society (ANZFSS) and the Australian and New Zealand Society of Criminology (ANZSOC).

## Career opportunities

As a graduate of this course, you may find employment opportunities as a forensic scientist, criminologist or related role, in both the public and private sector, including areas such as the forensic science industry, science-based industries, teaching, government agencies, state and federal police, ASIO, correctional services, community services, and private security industries.

## Participation requirements

You may be required to complete units in Trimester 3 depending on your chosen major. Please refer to the Handbook for unit offering patterns.

Elective units may be selected that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Alternative exits

A329, S324.2,,S200.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

To complete the Bachelor of Forensic Science/Bachelor of Criminology, students must attain 32 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. So that means in order to gain 32 credit points, you'll need to study 32 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester, and usually undertake two trimesters each year.

This combined course comprises 32 credit points of study. Students will undertake 16 credit point in the Faculty of Science, Engineering and Built Environment and 16 credit points in the Faculty of Arts and Education units. Course requirements for both the Bachelor of Forensic Science (S324) and Bachelor of Criminology (A329) must be satisfied. ^

Forensic Science requirements (16 cp):

- 10 credit points of core Forensic Science units (plus 1 other core unit shared with Criminology – ACR102);
- Successful completion of STP050 Academic Integrity (0-credit-point compulsory unit)
- Successful completion of SLE010 Laboratory and Fieldwork Safety Induction Program (0 cp);
- Successful completion of STP010 Introduction to Work Placements (0 cp);
- Successful completion of a major sequence in either Forensic Chemistry or Forensic Biology;
- At least 6 credit points at level 3 (including a minimum of 4 Science units).

Criminology requirements (16 cp):

- Students must complete 16 credit points of study from the Faculty of Arts and Education including;
- 12 credit points of ACR coded core units;
- At least 4 credit points at level 3 including ACR301 and ACR302;
- 4 elective units available from within the Bachelor of Arts major sequences. Please refer to A300 Bachelor of Arts for a list of Faculty of Arts and Education units.

<sup>^</sup> Combined rule: No more than 10-credit-points at level 1 including SIT191, SLE111, SLE112, SLE132, SLE133, SLE155, ACR101 and ACR102

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

Bachelor of Forensic Science major sequences:

- Forensic Chemistry
- Forensic Biology

Refer to the details of each major sequence for availability.

## Course structure

### Bachelor of Forensic Science core units

STP050	Academic Integrity (0 credit points)
SLE010	Laboratory and Fieldwork Safety Induction Program (0 credit points)
STP010	Introduction to Work Placements (0 credit points)
SLE111	Cells and Genes
SLE133	Chemistry in Our World
SLE112	Fundamentals of Forensic Science
SLE132	Biology: Form and Function
SLE155	Chemistry for the Professional Sciences
SIT191	Introduction to Statistics and Data Analysis
SLE208	Forensic Biology #
SLE212	Biochemistry
SLE213	Introduction to Spectroscopic Principles
SLE313	Forensic Analysis and Interpretation

Students must complete a major sequence in either Forensic Biology or Forensic Chemistry on top of the core unit requirements.

# Must have successfully completed STP010 Introduction to Work Placements (0 credit point unit)

## Bachelor of Criminology core units

ACR101	Introducing Crime and Criminology
ACR102	Introducing Crime and Criminal Justice
ACR201	Issues in Criminal Justice
ACR202	Criminology Theory
ACR301	International and Comparative Criminal Justice
ACR302	Criminology Research
ACR203	Crime, Victims and Justice
ACR211	Crime Prevention and Security **
ACR212	Crime, Surveillance and Technology *
ACR213	Crime, Terrorism and Security *
ACR204	Crime, Media and Justice
ACR210	Crime, Surveillance and Society **

\* ACR212, ACR213 Trimester 1 (2019, 2021, 2023) and trimester 3 (alternate years 2020, 2022)

\*\* ACR210, ACR211 Trimester 1 (alternate years 2020, 2022) and trimester 3 (alternate years 2019, 2021, 2023)

## Electives

Select from a range of elective units offered across many courses. In some cases you may even be able to choose elective units from a completely different discipline area (subject to meeting unit requirements).

It is important to note that some elective units may include compulsory placement, study tours, work-based training or collaborative research training arrangements.

## Work experience

This course aims to provide students with a holistic experience of their role as forensic analysts. You will have the opportunity to visit a court, a crime scene and participate in a 'moot court' which allows students to experience a simulated courtroom environment.

## Details of major sequences

### **Forensic Biology – unit set code – MJ-S000049**

*Waurin Ponds (Geelong)*

### Overview

The forensic biology major aims to provide you with the specific biological skills that are very important in the forensic science workplace. These biological-based skills complement the generic forensic science attributes developed in the core units of the course. Study in this area may lead to a career in forensic laboratories, entomology, human anatomy, research science, policing and biological and food industries.

### Units

SLE211	Principles of Physiology
SLE212	Biochemistry *
SLE221	Systems Physiology
SLE254	Genetics and Genomics
SLE356	Advanced Topics in Forensic Biology (Tri-3)
SLE340	Genomes and Bioinformatics

\* Already core units in the degree.

## **Forensic Chemistry – unit set code – MJ-SU00015**

*Waurm Ponds (Geelong)*

### **Overview**

The forensic chemistry major aims to provide you with the specific chemistry skills that are very important in the forensic science workplace. These chemically-based skills complement the generic forensic science attributes developed in the core units of the course. Study in this area may lead to a career in forensic laboratories, toxicology, drug detection, chemical detection, research science, policing, and chemical, food and pharmaceutical industries.

### **Units**

SLE210	Chemistry the Enabling Science
SLE214	Organic Chemistry
SLE229	Introduction to Separation Science
SLE316	Analytical Chemistry
SLE318	Synthetic and Medicinal Chemistry
SLE312	Toxicology

### **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Science/Bachelor of Laws

Award granted	Bachelor of Science/Bachelor of Laws
Deakin course code	D331 (version 3)

*Offered to continuing students only. Students who commenced this course prior to 2019, please refer to the 2018 handbook. Continuing students should discuss unit selections with their enrolment officer.*

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Science/Bachelor of Laws

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Science/Bachelor of Laws
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	5 years full-time or part-time equivalent
<i>CRICOS course code</i>	015203K
<i>Deakin course code</i>	D331 (version 4)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Complementing Bachelor of Laws with a science degree is an excellent way to enhance your understanding of the context in which the law operates. As a graduate of Deakin's Bachelor of Science/Bachelor of Laws, you'll be sought after for specialist roles in areas where law and science meet.

The Bachelor of Science lets you start with a broad-based program in your first year, so you can experience the different areas science has to offer. You can choose from major sequences such as cell biology, chemistry, environmental science or mathematical modelling.

Led by a team of academics who are experts in their field, our science programs offer choice in a broad range of subject areas. Science at Deakin is not just about lab work, you'll have access to the latest research findings, develop skills in evidence-based decision making, and gain real-life work experience through our innovative practical programs.

Deakin's Bachelor of Laws provides the robust training and recognised qualifications you need to start your career as a first-class legal practitioner. All major areas of law are covered, such as contract, torts, property, legal practice and ethics, constitutional law, criminal law and procedure, and administrative law.

For more information on career outcomes for this combined course see the individual entries for Bachelor of Science and Bachelor of Laws.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Deakin's Bachelor of Laws is designed to satisfy the university component of the requirements to become an Australian Lawyer set by the Victorian Legal Admissions Board (VLAB). In addition to completing an approved LLB degree, a person seeking entry is required to work for one year as a legal trainee, or to undertake a practical legal training (PLT) course.

## Career opportunities

A Law degree, especially when combined with another degree such as Science, is a qualification that offers unequalled career opportunities. As an alternative to practising as a barrister or solicitor, you may choose to pursue a career in a government department or agency (such as the CSIRO or the Environment Protection Authority), research, public administration, law reform or education or as a patent attorney. There is also an increasing need for forensic scientists to deal with complex, often intertwined scientific and legal issues.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Science/Bachelor of Laws, students must attain a total of 40 credit points consisting of 16 credit points from the Bachelor of Science and 24 credit points from the Bachelor of Laws. Most units (think of units as 'subjects') are equal to 1 credit point. Course requirements for both the Bachelor of Science (S320) and the Bachelor of Laws (M312) must be satisfied. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

The 16 credit points from the Bachelor of Science include:

- 8 credit points of core units
- a 6 credit point approved science major sequence
- 2 credit points of Science elective units
- Level 3 – at least 4 credit points of Science units
- SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit point unit)
- STP010 Introduction to Work Placements (0 credit point unit)

The 24 credit points from the Bachelor of Laws include:

- 18 credit points of core units
- completion of MAI010 Academic Integrity (0-credit-point compulsory unit)
- 6 credit points of law elective units, including 1 credit point of WIL/practical unit.

## Course structure

### Units

To assist you in following the course rules please see course entry for Bachelor of Science (S320) and Bachelor of Laws (M312).

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Exercise and Sport Science/ Bachelor of Nutrition Science

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full-time or part-time equivalent
<i>Deakin course code</i>	D333
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

This combined course gives you the opportunity to study two complementary fields and understand how the whole athlete works, as well as the fuel required to enable them to perform at their best. Discover wide-ranging career opportunities when you combine a drive for exercise and sports with a passion for food and nutrition.

Want to graduate with the knowledge and skills to become an expert in elite athletic preparation?

Exercise and sports science at Deakin gives you a nationally recognised, field-leading education in improving the performance, health and participation of individuals and teams through structured exercise, training, coaching and advice. You will develop the expertise to become a professional leader in the field, and gain a comprehensive understanding of the biology, technology, behaviour and best practices that underpin exercise and sport science.

You will have the opportunity to participate in two sport industry practical experiences during this course. In second year, students complete 80 hours of practical experience in Exercise Programming. The Exercise and Sports Science Practicum in final year offers a minimum 140 hours of practical experience.

Additionally, you can choose to study the Food and Nutrition Practicum in your final year, giving you 100 hours of practical food or nutrition industry experience.

These experiences are a core feature of this Deakin course which, combined with one-on-one career mentoring by staff, sets you apart from other graduates.

These work-integrated learning experiences give you the opportunity to undertake hands-on experience in a variety of sporting, exercise or health environments, and set you apart from other graduates. The roles can involve coaching, sport science, sports administration, sport management, exercise research and fitness. Many graduates have even been offered employment based on their excellent fieldwork performance.

You can find work experience with a variety of organisations such as:

- AFL/VFL football clubs
- Basketball Victoria
- Cricket Victoria
- Cycling Victoria
- Football Federation Victoria
- health and fitness providers
- recreational gyms

- rehabilitation clinics
- state and national sporting organisation and clubs
- state and national institutes of sport
- Tennis Australia.

The complementary nutrition science component of this course provides you with an understanding of the nature of food and the importance of nutrition for health. Become career ready with a comprehensive knowledge of human nutrition, as well as the complexity of current issues relating to food and human health:

- bone health
- cardiovascular disease
- children's food habits
- food policy, regulation and sustainability
- nutrition and ageing
- social and physiological aspects of food and nutrition.

With an increase in demand for qualified nutrition professionals, you will be in a strong position to pursue various career opportunities.

Combining studies in exercise and sports and nutrition sciences means you will be ready to take your expertise into the field and find new and innovative ways to promote health across a broad range of organisations and communities.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Current students are eligible to apply for student membership with the Nutrition Society of Australia (NSA), and apply as an 'ordinary member' upon graduating.

Graduates are eligible to apply to become a Registered Associate Nutritionist with the:

- Nutrition Society of Australia
- Hong Kong Nutrition Association
- UK Association for Nutrition.

## Exercise and Sports Science Australia (ESSA)

D333 Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science is currently NOT an accredited course with ESSA. This does not mean that ESSA accreditation is not available to you. What it means is that to apply to become an AES you will need to do so through the non-ESSA-Accredited Course application pathway. Please refer to ESSA webpage for more information.

## Career opportunities

As well as typical roles in the sport, exercise, coaching and fitness industries, you may pursue employment in:

- sports administration
- facility management
- community health and wellness
- rehabilitation
- sport science.

Other employment opportunities include:

- elite, professional sporting clubs
- local and state government agencies
- professional sporting bodies
- local and community sporting clubs
- hospital and rehabilitation clinics
- fitness and aquatic centres
- private health and recreation centres
- large business organisations in corporate health.

You will also be well prepared for a nutrition-focused career and can work in areas in the nutrition and food industry such as:

- food analysis
- food manufacturing
- food quality and safety
- food laboratories and research institutes
- food policy and regulation
- food wholesale and retail
- individual and population health
- nutrition research and education
- public health nutrition
- community nutrition
- consumer education and awareness campaigns
- nutrition and agribusiness
- product development
- sensory analysis.

After successfully completing the Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science, you may consider applying for further study to advance your career in the sport science and nutrition industry. We offer:

- Bachelor of Exercise and Sport Science (Honours)
- Bachelor of Food and Nutrition Sciences (Honours)
- Master of Dietetics
- Master of Clinical Exercise Physiology
- Master of Applied Sport Science.

## Participation requirements

The course contains compulsory practicum hours designed to meet the ESSA Accredited Exercise Scientist (AES) professional standards, which comprise a minimum of 80 hours of exercise prescription and 140 hours of work integrated learning in an exercise and sports science directly aligned to their chosen career path.

Upon achievement of the prerequisite requirements, placement can occur at any time, including during standard holiday breaks. See Deakin's website for further details.

Reasonable adjustments to participation and other course requirements will be made for students with a disability and/or athletes registered with the Elite Athlete Friendly University programme.

## Mandatory student checks

Any unit that contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer to the relevant unit guide.

## Pathways

This course can be a pathway to:

- H442 Bachelor of Exercise and Sport Science (Honours)
- H418 Bachelor of Food and Nutrition Sciences (Honours)
- H517 Graduate Certificate of Public Health Nutrition
- H616 Graduate Diploma of Human Nutrition
- H714 Master of Human Nutrition
- H718 Master of Dietetics
- H707 Master of Applied Sport Science (not offered to international students)
- H743 Master of Clinical Exercise Physiology

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Demonstrate autonomy, responsibility and well-developed theoretical and technical knowledge within the broad disciplines of exercise and sport science and nutrition, food and health.
Communication	Demonstrate clear and accurate communication using a range of modes to select and deliver relevant information.
Digital literacy	Use a range of digital tools within both exercise and sport science and nutrition, food and health environments to accurately and efficiently locate, evaluate, and disseminate information, including the collection and analysis of data.
Critical thinking	Use information from multiple sources of evidence to inform decision making applied to both exercise and sport science, and nutrition, food and health.
Problem solving	Independently deconstruct a range of real world and complex problems within both exercise and sport science, and nutrition, food and health environments to formulate, execute and evaluate possible solutions.
Self-management	Demonstrate the capacity to learn and work independently, taking personal responsibility for actions and outcomes commensurate with priorities and timeframes established both personally and by others.
Teamwork	Consistently demonstrate professional behaviours while making effective contributions across a range of roles when undertaking collaborative work within intra- and inter-disciplinary teams.
Global citizenship	Practise ethical and professional behaviours with an awareness of, and sensitivity to, diverse global and local perspectives in both exercise and sport science, and nutrition, food and health.

## Course rules

To complete the Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science students must attain 32 credit points which includes 16 exercise core units and 16 core nutrition units (one HSN coded elective unit).

Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 32 credit points you will need to study 32 units (AKA 'subjects'). Most students choose to study 4 units per trimester and usually undertaken two trimesters each year.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity, HSE010 Exercise and Sport Laboratory Safety, HSN010 Food and Nutrition Laboratory Safety and SLE010 Laboratory and Fieldwork Safety Induction Program in their first trimester of study (all 0 credit point compulsory units).

## Course structure

### Core units

#### Year 1

##### Trimester 1

SLE010	Laboratory and Fieldwork Safety Induction Program (0 credit points)
HAI010	Academic Integrity (0 credit points)
HBS109	Human Structure and Function *
HSE113	Human Growth, Development and Ageing for Exercise Scientists
HSN101	Foundations of Food, Nutrition and Health *
SLE133	Chemistry in Our World *

##### Trimester 2

HSE010	Exercise and Sport Laboratory Safety (0 credit points)
HSE102	Functional Human Anatomy *
HSE104	Research Methods and Statistics in Exercise and Sport
HSN107	Physiology of Human Growth and Development
SLE155	Chemistry for the Professional Sciences

#### Year 2

##### Trimester 1

HSE111	Physical Activity and Exercise for Health
HSE201	Exercise Physiology *
HSN104	The Science of Food
SLE212	Biochemistry

##### Trimester 2

HSN010	Food and Nutrition Laboratory Safety (0 credit points)
HSE103	Essentials of Exercise Delivery
HSE204	Motor Learning and Development
HSN106	Food Fundamentals
SLE222	Biochemical Metabolism

#### Year 3

##### Trimester 1

HSE212	Physical Activity Promotion and Evaluation
HSE302	Exercise Programming
HSN105	Healthy and Sustainable Food Systems
HSN211	Nutritional Physiology *

##### Trimester 2

HSE202	Biomechanics
HSE208	Integrated Human Physiology *
HSN202	Lifespan Nutrition
HSN305	Assessing Food Intake and Activity

## Year 4

### Trimester 1

HSE312	Exercise and Sports Science Practicum
HSE323	Clinical and Sport Biomechanics
HSN301	Diet and Disease
HSN309	Food Policy and Regulation

### Trimester 2

HSE309	Behavioural Aspects of Sport and Exercise
HSE330	Nutrition for Exercise Scientists
HSN302	Population Nutrition

plus one nutrition elective unit (must be HSN coded unit from level 3)

\* Unit also available in Trimester 3

## Elective units

Select one unit

### Trimester 1

HSN309	Food Policy and Regulation
HSN313	Sensory Evaluation of Foods

### Trimester 2

HSN308	Food, Nutrition and Society
HSN311	Food and Nutrition Practicum

### Trimester 3

HSN360	International Perspectives in Food and Nutrition (next offered Trimester 3 2019)
--------	--

## Work experience

The Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science features two compulsory practical experiences through work-based practicum. In third year, students will complete 80 hours of work integrated learning in exercise assessment, prescription and delivery in both third and final year. In their fourth year, students will also complete 140 hours of work integrated learning in an exercise and sport science setting directly related to their career path.

These work integrated learning experiences provide you with the opportunity to undertake hands-on experience in a variety of sporting, exercise or health environments. These may vary from local, state or national sporting organisations and professional sporting clubs; state and national institutes of sport; as well as health, and fitness providers. The roles can involve coaching, sport science, sports administration, sport management, exercise research and fitness, while many graduates have been offered subsequent employment based on their excellent practicum/fieldwork performance.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Criminology/Bachelor of Laws

<i>Award granted</i>	Bachelor of Laws/Bachelor of Criminology
<i>CRICOS course code</i>	060431B
<i>Deakin course code</i>	D335 (version 2)

*Offered to continuing students only. Students who commenced this course prior to 2019, please refer to the 2018 handbook. Continuing students should discuss unit selections with their enrolment officer.*

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Criminology/Bachelor of Laws

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Criminology/Bachelor of Laws
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Burwood (Melbourne), Waterfront (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	5 years full-time or part-time equivalent
<i>CRICOS course code</i>	060431B
<i>Deakin course code</i>	D335 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Students enrolled in this combined course at Geelong will be required to undertake units of study at both Waurn Ponds (Geelong) and Waterfront (Geelong).*

## Course overview

You'll explore the meaning of crime and justice to graduate with a highly-regarded law degree from one of Victoria's leading law schools. Deakin's Bachelor of Criminology/Bachelor of Laws brings together two independent degrees in an attractive five-year combined course.

Combining law with criminology means you'll gain broad theoretical, applied knowledge and skills concerning the meaning of crime; the forms, causes and consequences of crime; the different institutions and processes involved in preventing and controlling crime; policy development, policing and security; and related fields.

Deakin's Bachelor of Laws provides the robust training and recognised qualifications you need to start your career as a first-class legal practitioner. All major areas of law are covered, such as contract, torts, property, legal practice and ethics, constitutional law, criminal law and procedure, and administrative law.

In the criminology stream you'll learn about the various theoretical approaches that shape our understanding of crime in contemporary society. You'll become familiar with the criminal justice system, crime prevention and security, criminal and civil law, the laws of evidence and crime prevention.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. The minimum expected workload for a Law unit will normally be around 150 hours, which includes attendance at class, reading, completion of any assessment, and preparation for the exam.

## Professional recognition

Deakin's Bachelor of Laws is designed to satisfy the university component of the requirements to become an Australian Lawyer set by the Victorian Legal Admissions Board (VLAB). In addition to completing an approved LLB degree, a person seeking entry is required to work for one year as a legal trainee, or to undertake a practical legal training (PLT) course.

## Career opportunities

A Law degree, especially when combined with a Criminology degree, is a qualification that offers unequalled career opportunities. As a graduate you can choose to pursue a career as a lawyer, or to take on business and management roles in a range of corporate and private organisations and government agencies. Opportunities exist within state and federal police, ASIO (Australia's national security service) and various correctional services, community services and private security industries.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Alternative exits

A329, M312.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Criminology/Bachelor of Laws, students must attain a total of 40 credit points consisting of 16 credit points from the Faculty of Arts and Education and 24 credit points from the Faculty of Business and Law. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

## Course structure

### Units

The 16 credit points from the Bachelor of Criminology (A329) include:

- at least 12 credit points of ACR coded units (including the core units ACR101, ACR102, ACR201, ACR202, ACR301 and ACR302)
- up to 4 credit points of elective units from the Faculty of Arts and Education

The 24 credit points from the Bachelor of Laws (M312) include:

- 18 credit points of core units
- 6 credit points of law elective units<sup>^</sup>, including 1 credit point of an experiential unit from the WIL/Practical Elective Units list.
- MAI010 Academic Integrity (0-credit-point compulsory unit)

<sup>^</sup> Law electives are offered on a yearly rotational basis. Not every unit is offered every year

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Construction Management (Honours)/ Bachelor of Property and Real Estate

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Construction Management (Honours)/ Bachelor of Property and Real Estate
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Burwood (Melbourne), Waterfront (Geelong)*
<i>Cloud Campus</i>	No
<i>Duration</i>	5 years full-time or part-time equivalent
<i>Deakin course code</i>	D336
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

\* Students are able to commence this course at either Burwood (Melbourne) or Waterfront (Geelong).

*Delivery is at both campuses and students will be required to undertake units of study from both the Geelong Waterfront Campus and the Melbourne Burwood Campus. Students should seek advice from their course advisor prior to the commencement of their course.*

*This course is not available to international students.*

*Please note that all property and real estate units are also offered in Cloud (online) mode.*

## Course overview

Build your knowledge of commercial, industrial and residential real estate and construction with Deakin's combined Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate. Learn about property development and investment as well as the technology, regulations and management of construction projects in a course only offered in Victoria by Deakin.

The construction management component of this combined course provides you with a professionally recognised qualification that combines construction practice with essential theory of construction management. You'll cover areas like building economics and law, project management, building technology, measurement and estimation and quantity surveying.

The property and real estate component focuses on property development, valuation and property market analysis with supporting studies in business law, accounting, economic principles, and marketing.

The combined degree gives you the skills to oversee large projects from start to finish and because of your expertise in both construction and property, you'll be uniquely positioned for employment in commercial, industrial or residential property development. You'll also be equipped for roles in property valuation and management, and may seek employment as a construction manager, private or government valuer, property advisor, estimator, project manager, facility manager or quantity surveyor.

The course is professionally accredited by the Australian Property Institute (API) and the Royal Institution of Chartered Surveyors (RICS). This means you'll be getting an education that meets industry standards and the expectations of employers.

As a graduate you'll be eligible for membership to the Australian Property Institute (API) as a Certified Practising Valuer (CPV) – recognised nationally, this certification is required by anyone intending to work as a valuer.

Units in the course may include assessment hurdle requirements.

## Indicative student workload

You can expect to participate in a range of teaching activities each week. This could include classes, seminars, workshops, site visits and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Both single degree courses are professionally accredited by multiple professional bodies, including Royal Institution of Chartered Surveyors (RICS), Australian Institute of Building (AIB), the Chartered Institute of Building (CIOB), the Australian Institute of Quantity Surveyors (AIQS) and the Australian Property Institution (API) for Certified Practising Valuer (CPV) status.

## Career opportunities

Graduates may find employment as construction managers, property developers, private or government valuers, property advisors, estimators, project managers, facility managers or quantity surveyors. Graduates are able to specialise in all facets of the construction management and property and real estate markets including commercial, industrial and residential property.

## Participation requirements

Elective units may be selected that may include compulsory placement, study tours, work-based training or collaborative research training arrangements.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

To complete the Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate, students must attain 40 credit points. Most students choose to study 4 units per trimester, and usually undertake two trimesters each year.

Course requirements for both the Bachelor of Property and Real Estate (M348) and the Bachelor of Construction Management (Honours) (S346) must be satisfied.

The course comprises a total of 40 credit points, which must include the following:

- 37 core units (38 credit points), including 16 core units from the Bachelor of Property and Real Estate, and 21 core units (22 credit points) from the Bachelor of Construction Management (Honours)
- 2 credit points of elective units
- Completion of SRA010 Safety Induction Program (0-credit-point compulsory unit)
- Completion of STP050 Academic Integrity (0-credit-point compulsory unit)
- Note – students will be precluded from the following two core Property and Real Estate units in the single degree course structure:
  - SRT112 Sustainable Construction
  - SRT214 Commercial Property Construction Studies

## Course structure

### Core

#### Year 1

##### Trimester 1

SRA010	Safety Induction Program (0 credit points)
STP050	Academic Integrity (0 credit points)
MMP111	Introduction to Property
MAF101	Fundamentals of Finance
MLC101	Law for Commerce
SRT153	Building Materials Science

##### Trimester 2

MAE101	Economic Principles
MMP223	Property Law and Practice #
MMP122	Introduction to Property Development
MAA103	Accounting for Decision Making

# This unit was previously coded MMP121

#### Year 2

##### Trimester 1

MMP212	Property Investment
SRM181	Project Management 1
MMP211	Statutory Valuation
MMP213	Property Economics

##### Trimester 2

SRM261	Contract Administration 2
MMP221	Property Management
MMP322	Advanced Property Development ~
SRT151	Construction and Structures 1

~ This unit was previously coded MMP222

#### Year 3

##### Trimester 1

MMP321	Advanced Property Analysis
SRE272	Building Measurement
SRT251	Construction and Structures 2

plus one elective unit

##### Trimester 2

MMP311	Advanced Property Valuation
SRM310	Project Planning and Scheduling
SRQ301	Building Cost Planning
SRT351	Construction and Structures 3

## Year 4

### Trimester 1

SRT141	Building Safety
SRM281	Project Management 2
SRM461	Contract Administration 3
SRE302	Building Measurement and Estimating

### Trimester 2

SRT259	Construction Projects 2
SRT257	Building Environmental Studies 1
SRQ460	Quantity Surveying Practice
SRM381	Project Management 3

## Year 5

### Trimester 1

SRT358	Building Environmental Services
SRR401	Introduction to Construction Research
SRM489	Professional Practice

plus one elective unit

### Trimester 2

SRV499	Built Environment Integrated Research
SRE464	Building Development Appraisal
SRR402	Construction Research Thesis (2cp)

## Electives

Select from a range of elective units offered across many courses. In some cases you may even be able to choose elective units from a completely different discipline area (subject to meeting unit requirements). Students are advised to discuss alternative exit options with a student adviser when selecting electives.

## Work experience

You'll have the opportunity to undertake a discipline-specific industry placement as part of your course. [deakin.edu.au/sebe/wil](http://deakin.edu.au/sebe/wil)

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of International Studies/Bachelor of Commerce

Year	2019 course information
Award granted	Bachelor of International Studies/Bachelor of Commerce
Duration	4 years full-time or part-time equivalent
CRICOS course code	075376C
Deakin course code	D338 (version 2)

*Note: Students enrolled at Geelong in this combined course will be required to undertake units of study at both Waurn Ponds (Geelong) and Waterfront (Geelong).*

*Offered to continuing students only.*

## Course overview

This specialist degree is designed to provide students with the opportunity to combine complementary major sequences in international studies and commerce. The focus is on an international orientation and students will be expected to make a commitment to an internship with an overseas organisation, or a period of study at an overseas university, or to participate in an in-country language program.

This course is designed to enable students to:

- develop their understanding of the international forces shaping government, business and community life in contemporary Australia
- develop a range of skills in analysis and interpretation of these forces
- have a grounding in business disciplines
- develop cross-cultural competencies through an internationally oriented curriculum and through participation in international study or work experience.

## Alternate exits

A326.2, M300

## Course rules

To qualify for the Bachelor of International Studies/Bachelor of Commerce students must complete 32 credit points of study.

Students will undertake 16 credit points in the Faculty of Arts and Education and 16 credit points in the Faculty of Business and Law.

Course requirements for both the Bachelor of International Studies (A326) and Bachelor of Commerce (M300) must be satisfied.

The 16 credit points studied within the Faculty of Business and Law must include the 10 Bachelor of Commerce core units: MAA103, MAE101, MAE102, MAF101, MLC101, MMM132, MIS101, MIS171, MMH299 and MMK277. In addition students must complete a prescribed Commerce major sequence and a minimum of 4 credit points at level 3 which must be Faculty of Business and Law units course grouped to a Faculty of Business and Law undergraduate degree.

Within the 16 credit points required for the Bachelor of International Studies:

- Students who commenced 2014–2015 must complete 6 credit points of core units, an 8-credit-point major sequence and an approved international experience (2 credit points minimum). It is envisaged that students would complete the international experience in the third or fourth year of their course.
- Students who commenced prior to 2014 should refer to the Handbook of the year they commenced.

## Course overview

Gain a competitive business foundation with global application. Through Deakin's Bachelor of International Studies/Bachelor of Commerce, you'll develop your understanding about the international forces shaping government, business and communities, and gain skills to analyse and interpret these forces. You'll learn about commerce focuses like accounting, marketing and law, and gain insights through valuable overseas study experiences.

Want to take your business ideas to the world stage?

Business is global. This course will equip you with a solid foundation in business, and the international context you need to live and work anywhere in the world.

You'll commit to an exciting international learning program, either as a student at one of our university exchange partners or in an approved internship. Develop your understanding of foreign governments, businesses and communities on the ground, and immerse yourself in the culture while you're there.

Choose a major commerce sequence that reflects your specialised passion:

- accounting
- economics
- finance
- financial planning
- food and agribusiness
- human resources management
- management
- management information systems
- marketing.

This combined course is led by academics who are experts in their field, so you'll always be learning the latest concepts, ideas and approaches from inside the industry. Plus, you'll benefit from networking with and learning from their real-world connections.

Graduate with in-demand skills from one of Victoria's only AACSB-accredited business schools and start a career on a global scale.

## Professional recognition

Students who complete the accounting major sequence are eligible to apply for:

- the CA Program of the Chartered Accountants Australia and New Zealand (CAANZ)
- Associate membership for the CPA Program
- IPA Program of the Institute of Public Accountants (IPA)
- Association of Chartered Certified Accountants (ACCA).

Students who complete the marketing major sequence are eligible for a one-year credit reduction from the five years needed to become a Certified Practising Marketer by the Australian Marketing Institute (AIM).

Students who complete the financial planning major sequence will satisfy the education standards prescribed by the Financial Adviser Standards and Ethics Authority (FASEA) to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students should consult with a course adviser to identify any additional requirements for membership for each professional body, and also consult with the professional body.

## Career opportunities

As a Bachelor of International Studies/Bachelor of Commerce graduate, your skills will be in demand in a range of careers, including:

- diplomat
- foreign affairs officer
- foreign exchange analyst
- import/export manager
- international management consultant
- NGO policy officer
- politician
- trade delegate.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternate exits

A326.2, M300

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

To qualify for the award of Bachelor of International Studies/Bachelor of Commerce, students must complete 32 credit points as follows:

16 credit points of International Studies units must be completed as follows:

- 6 credit points of core units
- an 8-credit-point major sequence
- an approved international experience (2 credit points minimum)\*
- AAI018 Academic Integrity (0-credit-point compulsory unit)

\* It is envisaged that students will complete the international experience in the third or fourth year of their course.

16 credit points of Commerce units must be completed as follows:

- 8 credit points of core units – MAA103, MAE101, MAF101, MIS171, MLC101, MMK101, MMM132 and MWL101.
- one prescribed Commerce major sequence of 8 credit points
- A minimum of 4 credit points at level 3 of Commerce coded units

Within the total 32 credit points no more than 12 credit points of units may be taken at level 1.

Course requirements for both the Bachelor of International Studies (A326) and the Bachelor of Commerce (M300) must be satisfied.

## Work experience

This course includes completion of least 2 credit points of international experience, selected from one or more of the following:

- Trimester of study at an overseas university exchange partner
- International internship (AIS330 or AIS331) \*in-country language program (in Chinese, Indonesian or Arabic)
- Approved study abroad program or approved study tour (AIS203 or other)
- Approved onshore internship with an international organisation (available for AIS330 only).
- 2 credit points of consecutive language units other than an in-country language program can be taken to achieve one credit point of the international experience requirement

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Independent research components are embedded across a number of units.

# Bachelor of Teaching (Secondary)/Bachelor of Arts

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Teaching (Secondary)/Bachelor of Arts
<i>Duration</i>	4 years full-time
<i>CRICOS course code</i>	073789J
<i>Deakin course code</i>	D347

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Deakin's Bachelor of Teaching (Secondary)/Bachelor of Arts degree will introduce you to the knowledge and competencies required by secondary teachers as well as providing you with a broad understanding of the practice of educators. The course will also give you in-depth knowledge in one or more fields of study within the Bachelor of Arts.

As part of the teaching component of this course you will learn key skills required for working as a secondary teacher through studying topics such as teacher-learner identity, policy, schooling and society, how to create learning-teaching environments, pedagogy, understanding children and adolescents, and professional identity and curriculum. You are required to complete a minimum of 80 days supervised school experience over the duration of the course, providing hands-on experience in a classroom setting.

Studies in the arts will provide you with opportunities to develop skills of critical and systematic thinking; an imaginative understanding and appreciation of the theory and practice of the social sciences; enhanced cultural sensitivity and understanding; skills and knowledge relevant to employment in the modern workforce and familiarity with the use and importance of information technology in learning and employment. All of these skills will complement the teaching profession.

## Professional recognition

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the award of Bachelor of Teaching (Secondary)/Bachelor of Arts, students must complete 32 credit points as follows:

### Education

Students must complete 16 credit points of units comprising:

- 10 core units
- 2 curriculum study units in a first teaching method area
- 2 curriculum study units in a second teaching method area
- 2 electives

The Education component of this course includes 80 days of supervised professional experience.

### Arts

Students must complete 16 credit points of units comprising:

- An approved Arts major sequence of at least 8 credit points
- No more than 6 credit points of units at level 1
- And either:
  1. A further 8 credit points of Arts units; or
  2. A further 4 credit points of Arts units plus 4 credit points of Mathematical Modelling units (From 2015, Mathematical Modelling is available to continuing students only); or
  3. A further 4 credit points of Arts units plus 4 credit points of Psychology units (From 2015, Psychology is available to continuing students only); or
  4. A further 2 credit points of Arts units plus 6 credit points of Photography or Visual Arts units, or the equivalent of 6 credit points of Music units by cross-institutional enrolment at Box Hill Institute.

*Note: From 2015 only continuing students may undertake units from outside the Faculty of Arts and Education, to take Psychology or Mathematics as their second teaching method area*

## Detailed course rules

Satisfactory completion of this course requires students to choose Arts units that are in recognised areas of teaching method study.

For the 8 credit point major sequence, students must choose an approved Arts major recognised for discipline study in one of the following first teaching method areas:

- Arts (Major in Photography or Visual Arts)
- Dance (Major in Dance)
- Drama (Major in Drama)
- English (Major in one of Children's Literature or Literary Studies)
- LOTE (Major in one of Arabic, Chinese, Indonesian or Spanish)\*
- Media (Major in one of Film Studies or Media Studies)\*\*
- SOSE (Major in one of Anthropology, Australian Studies, History, Philosophy, or Politics and Policy Studies)
- TESOL (Major in one of Arabic, Chinese, Indonesian or Spanish)

*(Note: Music, Mathematics and Psychology may not be taken as first teaching methods in this course because these are not approved major sequences within the Bachelor of Arts).*

\* Students selecting LOTE as a first teaching method who do not have a background of Year 12 studies in the language must select a further 2 credit points of study in the language of their major in following the rule below.

\*\* Continuing students enrolled 2011-2015 may take Photography as a Media teaching method area.

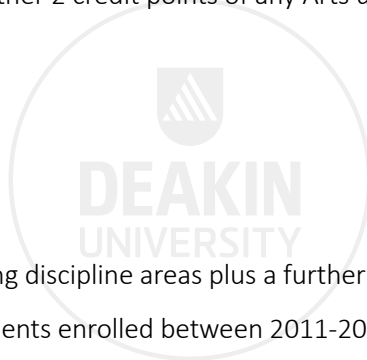

Choose 8 further Arts units, which must include discipline studies in one of the following second teaching method areas:

1. 4 credit points in one of the following discipline areas, plus a further 4 credit points of any Arts units:

- Arabic (TESOL)
- Chinese (TESOL)
- Dance
- Drama
- Film Studies (Media)
- Literary Studies (English)
- Children’s Literature (English)
- Mathematical Modelling (From 2015, Mathematical Modelling is available to continuing students only)
- Media Studies (Media)
- Psychology (From 2015, Psychology is available to continuing students only)
- Indonesian (TESOL)
- Spanish (TESOL)

2. 4 credit points in one of the following discipline areas, plus a further 2 credit points in another one of the following discipline areas, plus a further 2 credit points of any Arts units:

- Anthropology (SOSE)
- Australian Studies (SOSE)
- History (SOSE)
- Philosophy (SOSE)
- Politics and Policy Studies (SOSE)
- Sociology (SOSE)

3. 6 credit points in one of the following discipline areas plus a further 2 credit points of any Arts units:

- Music – Box Hill (for continuing students enrolled between 2011-2015)
- Photography (Art)
- Visual Arts (Art)

4. 8 credit points in one of the following discipline areas:

- Arabic (LOTE – Only for students who completed the language at Year 12)
- Chinese (LOTE – Only for students who completed the language at Year 12)
- Indonesian (LOTE – Only for students who completed the language at Year 12)
- Spanish (LOTE – Only for students who completed the language at Year 12)
- Music – Box Hill (students commencing 2016)

*Note: Native speakers of a language other than English can study two teaching methods and have LOTE recognised as a third teaching method area. Contact Student Services for advice on this option.*

## Course structure

### Year 1

EPP101 Teacher-Learner Identity  
EPP102 Learning-Teaching Communities

6 credit points of Arts units chosen in accordance with the detailed course rules for your selected teaching method areas (see Teaching Method Areas heading).

### Year 2

EEL201 Literacy Across the Curriculum\*  
EPP207 Pedagogy

\* NOTE: 2019 will be the final year of offer for EEL201.

6 credit points of Arts units chosen in accordance with the detailed course rules for your selected teaching method areas (see Teaching Method Areas heading).

### Year 3

EEH531 Promoting Student Wellbeing  
EPP304 Ways of Knowing Children and Adolescents

4 credit points of Arts units to complete major sequence

2 credit points of curriculum study units in second teaching method area (see Teaching Method Areas heading)

### Year 4

EEM401 Numeracy Across the Curriculum\*  
EPP305 Policy, Schooling and Society  
EPP406 Professional Identity and Curriculum Work  
EXC440 Teaching for Diversity^

\* NOTE: 2019 will be the final year of offer for EEM401, contact student support.

^ NOTE: 2019 will be the final year of offer for EXC440, students to select EDU301.

2 credit points of Education electives (see Recommended Educational Electives heading)

2 credit points of curriculum study units in first teaching method area (see Teaching Method Areas heading)

## Teaching method areas

Teaching method area	Discipline study units	Curriculum study units
Art	Photography (students commencing 2016) Visual Arts	ECA431* ECA432*
Dance	Dance	ECA431* ECA432*
Drama	Drama	ECA431* ECA432*
English	Children's Literature Literary Studies	ECL461 ECL462
LOTE	Arabic Chinese Indonesian Spanish	ESJ457 ESJ458
Mathematics	Mathematical Modelling (From 2015, Mathematics is available to continuing students only)	ESM424 ESM425

Teaching method area	Discipline study units	Curriculum study units
Media	Media Studies Film Studies Photography (continuing students enrolled 2011–2015)	ECA435^ ECA436^
Music	By cross institutional study at Box Hill Institute only	ECA431* ECA432*
Psychology	Psychology (From 2015, Psychology is available to continuing students only)	ESP202 ESP203
Studies of Society and Environment (SOSE)	Anthropology Australian Studies History Philosophy Politics and Policy Sociology	ECS471 ECS472
Teaching English to Speakers of Other Languages (TESOL)	Arabic Chinese Indonesian Spanish	ESJ459 ESJ460

\* Students undertaking any two of Art, Dance, Drama and Music as their two teaching method areas that the units will be ECA431, ECA432, ECA435, ECA436.

^ Media units ECA435 and ECA436 are also used to deliver Art, Visual Arts, Music, Dance and Drama where students are already enrolled in ECA431 and ECA432 for their first Arts Discipline method area.

## Recommended Education electives

ECP303	Child Protection
EEG402	Teaching in a Global World
ELL101	Language: Speech and Sounds *
ELL102	Language: Words and Structure
ESP401	Student Behaviour Management and Welfare no longer offered

\* Students undertaking English or TESOL as teaching method areas are particularly recommended to take one or more Linguistics electives.

## Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au)

School experience placements in schools in the course of a university degree are “child-related work”. Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance – a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

## Professional experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement.

Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit transfer for supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

## Professional experience enrolment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (handbook is available at [deakin.edu.au/education/students/professional-experience](http://deakin.edu.au/education/students/professional-experience)). Students should note that a 'day' constitutes a whole school day (not part thereof).

Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

## Schedule of School Experience units

### Bachelor of Teaching (Secondary)

EPP101	Teacher-Learner Identity [Coursework only from 2015]
EPP102	Learning-Teaching Communities
EPP207	Pedagogy
EPP304	Ways of Knowing Children and Adolescents
EPP305	Policy, Schooling and Society
EPP406	Professional Identity and Curriculum Work

To pass the units listed above pre-service teachers must successfully complete the unit work assignment component, submitting and passing the unit's associated assessment pieces; and successfully complete the appropriate professional experience days based in school/s.

The professional experience component is assessed primarily by the supervising classroom teacher in consultations with the pre-service teacher. Satisfactory completion of the professional experience component within each education studies/professional experience unit is compulsory in order for the student to progress.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Teaching (Science)/Bachelor of Science

Year	2019 course information
Award granted	Bachelor of Teaching (Science)/Bachelor of Science
Duration	4 years full-time or part-time equivalent
Deakin course code	D351 (version 2)

*Offered to continuing students only*

## Course overview

Deakin's innovative Bachelor of Teaching (Science)/Bachelor of Science degree provides graduates with a full science degree and a complete secondary teaching qualification. It will prepare you for a career in science education, but also provide career flexibility through the widening field of science communication, and science-related industries.

## Professional recognition

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Course rules

The Bachelor of Teaching (Science) is offered as a combined course of 32 credit points (four years of full time study or part-time equivalent) with the Bachelor of Science to prepare secondary teachers in the disciplines of science and mathematics. Each Faculty teaches 16 credit points.

To satisfy the Bachelor of Science requirements students must complete 16 credit points in the Faculty of Science, Engineering and Built Environment, including at least one 8-credit-point major sequence in a specific science discipline and a 4 credit point (minimum) science sub-major sequence consisting of 2 credit points at each of levels 1 and 2.

## Major sequences

Refer to the details of each major sequence for availability.

- Biology
- Biological Chemistry
- Environmental Science
- Mathematical Modelling

*Note: Specialist Area Guidelines for teachers can be found on the Victorian Institute of Teaching (VIT) website.*

## Course structure

### Level 1

#### Trimester 1

EPP101 Teacher-Learner Identity

SLE010 Laboratory and Fieldwork Safety Induction Program (Compulsory zero credit point unit)

SLE111 Cells and Genes

One Science major unit

Plus one elective

Or

SLE133 Chemistry in Our World

## Trimester 2

EPP102 Learning-Teaching Communities  
 SLE123 Physics for the Life Sciences (Formerly coded SEP122)

One Science minor unit

Or

SLE133 Chemistry in Our World

One Science major unit

Or

SLE155 Chemistry for the Professional Sciences

*Note: Students who have not completed Year 12 Chemistry or equivalent should choose SLE133. Students who have completed Year 12 Chemistry or equivalent should choose SLE155.*

## Level 2

### Trimester 1

SIT194 Introduction to Mathematical Modelling

Or

SLE251 Research Methods and Data Analysis

Plus

EES200 Communicating Science (no longer offered, Alternate unit SLE200)

SLE103 Ecology and the Environment

One Science major unit

EPP207 Pedagogy

SLE352 Community Science Project

One Science minor unit

One Science major unit

## Level 3

EPP304 Ways of Knowing Children and Adolescents

Plus Secondary Curriculum Study 1A for 1st teaching method

One Science minor unit

One Science major unit

### Trimester 2

EEH531 Promoting Student Wellbeing

Plus Secondary Curriculum Study 1B for 1st teaching method

Two Science major units

## Level 4

EXC425 Literacy and Numeracy Across the Curriculum

ESS439 Issues in Science and Environmental Education

Or

ESM415 Problem solving and Modelling in the Mathematics Classroom (Final year of offer 2015 – Students to select ESS439 from 2016)

EPP305 Policy, Schooling and Society

Plus Secondary Curriculum Study 2A for 2nd teaching method

## Trimester 2

EPP406 Professional Identity and Curriculum Work

Plus Secondary Curriculum Study 2B for 2nd teaching method\*

ESS415 Resources in the Contemporary Science Curriculum

EXC440 Teaching for Diversity

\* NOTE: 2019 will be the final year of offer for EXC440.

## Teaching method areas

Teaching method area	Discipline studies units	Curriculum studies units
Science (Secondary Senior), specialist science area Biology	Biology	ESS444* ESS467
Science (Secondary Senior), specialist science area Chemistry	Biological Chemistry	ESS444* ESJ460
Science (Secondary Senior), specialist science area Environmental Science	Environmental Science	ESS441 ESS442
Mathematics	Mathematical Modelling	ESM424 ESM425

\* Students choosing both of Biology and Chemistry as their two teaching methods should also undertake curriculum study unit ESS441 for their second method area.

## Details of major sequences

Students are required to complete at least one 8 credit point major sequence (8 units of study) and a minor sequence of at least 4 credit points (4 units of study) in the second discipline.

- Biology
- Biological Chemistry
- Environmental Science
- Mathematical Modelling

## Secondary Curriculum Method study units

### **Mathematics**

ESM424 Mathematics: Curriculum Study

ESM425 Senior Mathematics: Curriculum Study

### **Environmental Science**

ESS441 Environmental Science and Society: Curriculum Study

ESS442 Senior Environmental Science: Curriculum Study

### **Biology**

ESS444 Science: Curriculum Study

ESS467 Senior Biology: Curriculum Study

### **Chemistry**

ESS444 Science: Curriculum Study

ESJ460 Studies in Curriculum (Senior Chemistry or TESOL B)

# Bachelor of Teaching (Science)/Bachelor of Science

Year	2019 course information
Award granted	Bachelor of Teaching (Science)/Bachelor of Science
Campus	Burwood (Melbourne)
Duration	4 years full-time
VTAC Codes	
Deakin course code	D351 (version 3)

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Deakin's innovative Bachelor of Teaching (Science)/Bachelor of Science degree provides graduates with a full science degree and a complete secondary teaching qualification.

It will prepare you for a career in science education, but also provide career flexibility through the widening field of science communication, and science-related industries.

The flexible course structure gives you the opportunity to pursue two major study areas. Discipline and elective units in a variety of contemporary teaching fields – such as animal biology, cell biology, human biology, chemistry, mathematical modelling, natural history, and environmental science – will help you to build a breadth of knowledge in areas of interest. In addition to specialising in two major study areas the Bachelor of Science degree component of the course requires you to complete at least one unit in each of the areas of biology, chemistry, physics, environmental studies mathematics and a unit on the history and philosophy of science. This will give you a broad knowledge base in science which represents a key skill in most science careers and particularly in the career field of science teaching.

The course places great emphasis on industry experience and innovative teaching practices, and has a strong focus on integrating the traditional disciplines with vocational education and training.

The course includes 80 days of supervised school experience. Some of this experience may take place in non-school settings, consistent with current directions advocated by the Victorian Institute of Teaching.

Units in the course may include assessment hurdle requirements.

## Professional recognition

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the award of Bachelor of Teaching (Science)/Bachelor of Science, students must complete 32 credit points as follows:

### Education

Students must complete 16 credit points of units comprising:

- 11 core units
- Either ESS439 Issues in Science and Environmental Education OR ESM415 Problem solving and Modelling in the Mathematics Classroom (ESM415 – No longer available for enrolment – Students to select ESS439 from 2016)
- 2 curriculum study units in a first teaching method area
- 2 curriculum study units in a second teaching method area

The Education component of this course includes 80 days of supervised professional experience.

### Science

Students must complete 16 credit points of units comprising:

- 6 core units
- Either SLE133 Chemistry in Our World (for students who did not complete Year 12 Chemistry) or SLE155 Chemistry for the Professional Sciences (for students who completed Year 12 Chemistry)
- SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit point compulsory unit; must be completed before classes commence)
- STP010 Induction to Work Placements (0 credit point compulsory unit)
- 6 credit point Science major sequence
- 3 credit points in a single discipline area of another approved Science major sequence

## Detailed course rules

Satisfactory completion of this course requires students to choose Science units that are in recognised areas of teaching method study.

For the 6 credit point major sequence, students must choose an approved Science major sequence recognised for discipline study in the first teaching method area:

- Senior Secondary in specialist science area Biology (Major in one of Animal Biology, Cell Biology, Plant Biology, Human Biology, Natural History)
- Senior Secondary in specialist science area Chemistry (Major in Chemistry and Material Science)
- Senior Secondary in specialist science area Environmental Science (Major in Environmental Science)
- Mathematics (Major in Mathematical Modelling)

*(Note: students who did not complete Year 12 Chemistry may not undertake Chemistry as a first teaching method.)*

The remaining 3 credit points of Science units constitute the discipline studies for the second teaching method area.

No more than one Biology major sequence area may be studied in this course.

## Course structure

### Year 1

EPP101	Teacher-Learner Identity
EPP102	Learning-Teaching Communities
SLE123	Physics for the Life Sciences (Formerly coded SEP122)
SIT191	Introduction to Statistics and Data Analysis
SLE111	Cells and Genes
SLE133	Chemistry in Our World
Or	
SLE155	Chemistry for the Professional Sciences

2 credit points of Science units in your chosen areas of teaching method study

### Year 2

EES200	Communicating Science (no longer offered, Alternate unit SLE200)
EPP207	Pedagogy
SLE103	Ecology and the Environment
SLE209	History and Philosophy of Science
SLE352	Community Science Project

3 credit points of Science units in your chosen areas of teaching method study

### Year 3

EEH531	Promoting Student Wellbeing
EPP304	Ways of Knowing Children and Adolescents

4 credit points of Science units in your chosen areas of teaching method study

2 credit points of curriculum study units for the first teaching method

### Year 4

EPP305	Policy, Schooling and Society
EPP406	Professional Identity and Curriculum Work
ESM415	Problem solving and Modelling in the Mathematics Classroom (No longer available for enrolment – Students to select ESS439 from 2016)
Or	
ESS439	Issues in Science and Environmental Education
ESS415	Resources in the Contemporary Science Curriculum
EXC425	Literacy and Numeracy Across the Curriculum*
EXC440	Teaching for Diversity^

2 credit points of curriculum study units for the second teaching method

\* NOTE: 2019 will be the final year of offer for EXC425. Students to contact student support.

^ NOTE: 2019 will be the final year of offer for EXC440. Students to complete EDU301.

## Teaching method areas

Teaching method area	Discipline studies units	Curriculum studies units
Science (Secondary Senior), specialist science area Biology	Animal Biology Cell Biology Human Biology Plant Biology Natural History	ESS444* ESS467
Science (Secondary Senior), specialist science area Chemistry	Chemistry and Materials Science	ESS444* ESJ460
Science (Secondary Senior), specialist science area Environmental Science	Environmental Science	ESS441 ESS442
Mathematics	Mathematical Modelling	ESM424 ESM425

\* Students choosing both of Biology and Chemistry as their two teaching methods should also undertake curriculum study unit ESS441

## Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au)

Professional experience placements in schools in the course of a university degree are “child-related work”. Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance – a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student’s responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Professional experience requirements

Professional experience within the Bachelor of Teaching (Science)/Bachelor of Science will be embedded within the Education Major units (EPP101 [EPP101 is coursework only from 2015], EPP102, EPP207, EPP304, EPP305, EPP406), the first of which will run in the second Trimester of the first year of this course. This enables students to build up skills in teaching in schools setting over the length of the course as well as gaining greater opportunities to connect theory with practice.

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances.

Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher’s aide will not be recognised for credit transfer for supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An “unsatisfactory” result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

## Professional experience enrolment

Students must follow Faculty requirements in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

The Professional Experience Handbook is available at [deakin.edu.au/education/students/professional-experience](http://deakin.edu.au/education/students/professional-experience). Information contained in the Handbook is updated annually and is a summary of Faculty requirements in relation to school experience.

## Professional experience units

### Bachelor of Teaching (Science)/Bachelor of Science

EPP101	Teacher-Learner Identity [Coursework only from 2015]
EPP102	Learning-Teaching Communities
10 days	
EPP207	Pedagogy
10 days	
EPP304	Ways of Knowing Children and Adolescents
15 days	
EPP305	Policy, Schooling and Society
10 days	
EPP406	Professional Identity and Curriculum Work
35 days in total	

To pass the units listed above pre-service teachers must successfully complete the unit work assignment component, submitting and passing the unit's associated assessment pieces; and successfully complete the appropriate professional experience days based in school/s.

The professional experience component is assessed primarily by the supervising classroom teacher in consultations with the pre-service teacher. Satisfactory completion of the professional experience component within each education studies/professional experience unit is compulsory in order for the student to progress.

# Bachelor of Nursing/Bachelor of Midwifery

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Nursing/Bachelor of Midwifery
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong), Warrnambool
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full time (This course is only available full time)
<i>CRICOS course code</i>	057656M
<i>Deakin course code</i>	D355
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Midwives play an invaluable role in facilitating childbirth and caring for mothers and babies throughout pregnancy, labour and beyond. With Deakin's combined Bachelor of Nursing/Bachelor of Midwifery, you will graduate with the skills and knowledge to gain registration as a nurse and a midwife, opening the door to a highly rewarding and diverse career.

Do you want to enter the health care sector with the confidence to succeed as both a nurse and a midwife?

Throughout this course, you will gain a valuable mix of hands-on clinical practice and theory. Clinical placement gives you the opportunity to develop skills in a range of areas, such as:

- maternity care, including antenatal, birthing and post-natal
- neonatal care
- paediatrics
- acute/sub-acute care
- medical and surgical care
- aged care
- rehabilitation
- community nursing
- mental health nursing.

You will gain real-world experience by spending approximately half of your degree on clinical placement in various health care settings, including hospitals and community health centres in metropolitan, rural and regional areas.

You will be provided with the tools necessary to obtain the knowledge, skills and ethical behaviours appropriate for contemporary nursing and midwifery practice in health care.

With help from our industry leading academics, you will develop the ability to bring your practical knowledge to life when you begin your nursing practice. These competencies will ensure you achieve the standards expected of registered nurses and registered midwives in a variety of contexts.

As a nurse and midwife, you will be part of the largest health professional group in the world. This means your skills will be in-demand, both in Australia and overseas.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This may include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. Clinical practicums may take place outside of trimester dates. All expenses associated with clinical placements are your responsibility.

## Professional recognition

On successful completion of your course, you will be eligible to apply for registration as a Registered Nurse and as a Registered Midwife with the Nursing and Midwifery Board of Australia (NMBA).

*Notes:*

*The NMBA has registration requirements that must be met in order to register. Course completion is one of these requirements.*

*This course is currently accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and is an NMBA approved course at the date of publishing.*

## Career opportunities

Nursing and midwifery is a career rich with opportunity. As a Deakin graduate, you will be highly sought-after for the many transferable skills you will obtain, such as:

- nursing and midwifery skills
- health sector knowledge
- critical thinking and problem solving
- communication

You will enter the world of nursing and midwifery with the ability to provide high-quality, person-centred and evidence-based care focused on improving patient outcomes.

As a registered nurse and registered midwife, you can pursue a global career in a range of work settings, such as:

- maternity services
- acute care/sub-acute care
- emergency
- paediatrics
- neonatal care
- rehabilitation
- community health centres
- hospitals
- homes
- hospices
- aged care settings
- clinics
- schools
- universities
- government agencies and private industries.

Nursing and midwifery are diverse professions with a number of specialty areas available. We encourage you to look at continuing professional development throughout your career; this may include postgraduate degrees and/or research degrees, including masters and PhDs

## Participation requirements

The course involves compulsory clinical placement totalling 41 weeks. The midwifery component consists of 21 weeks in midwifery settings across Victoria. The nursing component consists of 20 weeks in hospitals and community health centres in metropolitan, rural and regional areas.

These placements may require travel to rural areas. Placement may occur at any time, including during standard holiday breaks. See Deakin's website for further details.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students are also required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Inherent requirements

Essential knowledge, skills and capabilities are required to undertake and successfully complete the undergraduate nursing and midwifery courses and to practice safely as a registered nurse and/or midwife. The inherent requirements of the course are listed on Deakin's website at School of Nursing and Midwifery Undergraduate Courses: Inherent Requirements.

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs.

## Alternate exits

H326

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply specialised knowledge, evidence-based practice, research and scholarly activity to provide woman-centred midwifery care;  Practice in a competent and professional manner to design, implement and evaluate midwifery care based on safety and quality principles that optimize maternal and foetal/infant well-being.
Communication	Communicate effectively and respectfully with women, their families and other health care team members using clear and appropriate language and communication modes;  Use well developed communication skills to facilitate a woman's informed decision making and to identify issues that may impact upon maternal and foetal/infant wellbeing.
Digital literacy	Critically evaluate information located and accessed from digital technologies to inform midwifery practice and support continuing professional development;
Critical thinking	Critically evaluate information located and accessed from digital technologies to inform midwifery practice and support continuing professional development.
Problem solving	Demonstrate problem solving skills using critical thinking, decision making and reflection in the design, implementation and evaluation of safe and quality woman-centred midwifery care.
Self-management	Promote and demonstrate professional competence through critical reflection, accountability and feedback while engaging in lifelong learning.
Teamwork	Demonstrate effective collaboration, responsible and accountable practice as a midwifery and multidisciplinary team member in the provision of safe and quality maternity care.
Global citizenship	Apply ethical and culturally safe decision making in the provision of woman-centred care, including social, economic and ecologically sustainable considerations respectful of the diverse needs within the Australian community.

## Course rules

To complete the Bachelor of Nursing/Bachelor of Midwifery students must attain 32 credit points. Units (think of units as 'subjects') may be worth 1 or 2 credit points – check each unit for its credit point value by clicking on the unit in the course structure below. Most students choose to study 4 credit points per trimester and usually undertake two trimesters each year. All units in this course are core units and are compulsory.

The course consists of 32 credit points of study which includes the following:

- 10 credit points are course grouped for both nursing and midwifery
- 11 credit points are specific to nursing
- 11 credit points are specific to midwifery.

The course aims to provide graduates with a blend of knowledge, skill, and ethical behaviours appropriate to the professions of both nursing and midwifery.

There is an expectation that you will be available to undertake clinical placement outside of trimester dates. All expenses associated with clinical placements are your responsibility.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Units

Course structure for students who commenced in 2015 onwards. Students who commenced prior to 2015 should refer to previous online Handbooks and consult your course enrolment officer.

#### Level 1

##### Trimester 1

HAI010	Academic Integrity (0 credit points)
HBS109	Human Structure and Function
HNM101	Partnerships in Midwifery Care 1
HNN112	Quality and Safety: Nursing Practice 1
HNN120	Quality and Safety in Health Care

##### Trimester 2

HNM102	Partnerships in Midwifery Care 2
HNN114	Health Assessment
HNN122	Quality and Safety: Nursing Practice 2

#### Level 2

##### Trimester 1

HNM201	Partnerships in Midwifery Care 3
HNN215	Quality Use of Medicines
HNN227	Quality and Safety: Nursing Practice 3

##### Trimester 2

HBS107	Understanding Health (Trimester 1 at Level 3 at Waterfront (Geelong) and Warrnambool)
HNM202	Collaboration in Midwifery Care
HNN222	Mental Health and Illness

#### Level 3

##### Trimester 1

HNM323	Challenges in Infant Care
HNN217	Community Nursing Practice (Trimester 2 at Level 2 at Waterfront (Geelong) and Warrnambool)
HNN318	The Older Person and Supportive Care
HNN319	Chronic Illness and Supportive Care

##### Trimester 2

HNM310	Midwifery Practice 1
HNN108	Understanding Research Evidence
HNN300	Child and Adolescent Health

#### Level 4

##### Trimester 1

HNM311	Midwifery Practice 2
HNM313	Complexities in Midwifery Care
HNN320	Leadership and Clinical Governance

##### Trimester 2

HNM314	Primary Midwifery Practice
HNN301	Mental Health Promotion
HNN325	Comprehensive Nursing Practice

## Work experience

### Clinical practice

Beginning soon after commencement of the course, early exposure to the clinical environment gives you extensive opportunities to develop clinical skills in a variety of settings including acute/sub-acute care, medical and surgical care, paediatrics, aged care, rehabilitation, community nursing and mental health nursing. Midwifery clinical experiences includes all areas of midwifery practice, including pregnancy care, labour and birth, postnatal care and neonatal care. These may be undertaken in hospitals and community health care centres in metropolitan, rural and regional areas.

There is an expectation that you will be available to undertake clinical practicum outside of trimester dates. All expenses associated with clinical placements are your own responsibility.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing clinical placements.

### Third party arrangements

Student Placement Agreements exist between Deakin University, SoNM and Clinical Placement Providers and are generally revised every 3–5 years.

### Quality assurance arrangements

Deakin, SoNM provides training through facilitator and preceptorship workshops. Unit Chairs provide regular clinical support to facilitators whilst students are on placements.

### Other learning experiences

The BN has 3 elective units which may be undertaken from any faculty as long as pre requisite requirements are met.

The School offers nursing elective units e.g HNN216 International Nursing Study Tour x 3. (Thailand, Bhutan, Philippines).

# Bachelor of Design (Architecture)/Bachelor of Construction Management

<i>Award granted</i>	Bachelor of Design (Architecture)/Bachelor of Construction Management
<i>Duration</i>	5 years full-time or part-time equivalent
<i>CRICOS course code</i>	060347J
<i>Deakin course code</i>	D364 (version 2)

*The final intake to this course version was in 2012. Students who commenced after 2013 should refer to the current version. Students should contact a student advisor for course and enrolment information.*

*Further course structure information can be found in the Handbook archive.*

## Course overview

The construction industry is increasingly looking for multi-skilled graduates. Deakin's Bachelor of Design (Architecture)/Bachelor of Construction Management ensures that you graduate with both architecture and construction management specialisations.

This combined course offers an excellent mix of hands-on practice and theory, with study areas including building economics and law, project management, building technology, measurement and estimation, quantity surveying, building practice, architectural ideas, history, philosophy, design, sustainability, communication and building science and technology.

## Professional recognition

Graduates of this course will qualify for membership of the Australian Institute of Building (AIB), the Chartered Institute of Building (CIOB), the Australian Institute of Quantity Surveyors (AIQS) and the Royal Institution of Chartered Surveyors (RICS).

The construction management stream of this double degree is professionally accredited by the Chartered Institute of Building (CIOB) and the Royal Institute of Chartered Surveyors (RICS). The architecture stream of this double degree is accredited (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria and the Architects Accreditation Council of Australia, when followed by successful completion of the Master of Architecture (Design), S701.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

The course comprises a total of 40 credit points, which must include the following:

- 37 core units (including 3 core units of 2 credit points each)
- Completion of SRA010 Safety Induction Program (0-credit-point compulsory unit)

# Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Waterfront (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	5 years full-time or part-time equivalent
<i>CRICOS course code</i>	080118A
<i>Deakin course code</i>	D364 (version 4)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

This combined course provides you with an internationally recognised qualification in construction management and a complementary understanding of architecture and design – making it ideal for those interested in a career across the diverse opportunities within the built environment industry. Articulation to further postgraduate study provides an accredited qualification towards professional registration as an architect\*.

Employers are increasingly looking for multi-skilled graduates with the knowledge, skills and practical experience required to tackle complex projects head-on. Deakin's combined course in design (architecture) and construction management takes an innovative, integrated approach to multidisciplinary education. You'll explore studies in building economics and law, project management, building technology, measurement and estimation, quantity surveying, building practice, design studio and architectural history and theory.

Clever sustainable design is in high demand all around the world, and today more than ever, architects need to know how to design great buildings that are also economically and environmentally viable. The design (architecture) component of this course comprises cutting edge content from the latest research and has been developed with a global perspective in mind. You'll get a chance to develop your design and communication skills, with a focus on innovation and sustainability.

The construction management component is professionally accredited by industry. You'll learn about the management of small to large projects requiring broad knowledge across construction technology and processes, resource management, law, information technology, environmental management and construction economics.

As a graduate you'll be able to seek employment in private firms, government organisations, property development companies, building companies and large manufacturing firms. You may also choose start your own practice or consultancy.

Following successful completion of the course you'll qualify for membership of the Australian Institute of Building (AIB), the Chartered Institute of Building (CIOB), the Australian Institute of Quantity Surveyors (AIQS) and the Royal Institution of Chartered Surveyors (RICS). This means that your qualifications will be recognised by employers, clients and peers.

Units in the course may include assessment hurdle requirements.

\* Following successful completion of this course, graduates can apply for entry to Deakin's Master of Architecture (Design Management).

## Indicative student workload

You can expect to participate in a range of teaching activities each week. This could include classes, seminars, workshops, site visits and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Graduates of this course will qualify for membership of the Australian Institute of Building (AIB), the Chartered Institute of Building (CIOB), the Australian Institute of Quantity Surveyors (AIQS) and the Royal Institution of Chartered Surveyors (RICS).

The architecture stream of this combined course is accredited (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria and the Architects Accreditation Council of Australia, when followed by successful completion of the Master of Architecture (Design Management), S701.

## Career opportunities

Deakin's combined course in design (architecture) and construction management takes an innovative, integrated approach that gives you cross-discipline career capability and recognition, and provides you with increased options in your future career. Graduates from this combined course may be sought after by private architectural practice firms, government organisations and private companies in property development, building and design. Students may also find employment as a construction manager, estimator, project manager or quantity surveyor in a range of industry organisations such as contractors, property developers and consulting firms.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Alternative exits

S346.2, S342.2, S200.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

To complete the Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours), students must attain 40 credit points. Most students choose to study 4 units per trimester, and usually undertake two trimesters each year.

The course comprises a total of 40 credit points, which must include the following:

- 36 core units (including 3 core units of 2 credit points each, and an elective unit at level 2 or above)
- Completion of SRA010 Safety Induction Program (0-credit-point compulsory unit)
- Completion of STP050 Academic Integrity (0-credit-point compulsory unit)

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

- SRQ460 Quantity Surveying Practice
- SRE302 Building Measurement and Estimating

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

You will have an opportunity to contribute to the student led, designed and managed end of year curated exhibition – PaperSpace.

# Bachelor of Commerce/Bachelor of Information Systems

<i>Award granted</i>	Bachelor of Commerce/Bachelor of Information Systems
<i>CRICOS course code</i>	078142G
<i>Deakin course code</i>	D366 (version 1)

*Note: Offered to continuing students only. Students commencing in 2019, please refer to the new version of the D366 Bachelor of Commerce/Bachelor of Business Analytics course. Continuing students should discuss unit selections with their enrolment officer and refer to D366 Bachelor of Commerce/Bachelor of Information Systems (2018 Handbook).*

## Participation requirements

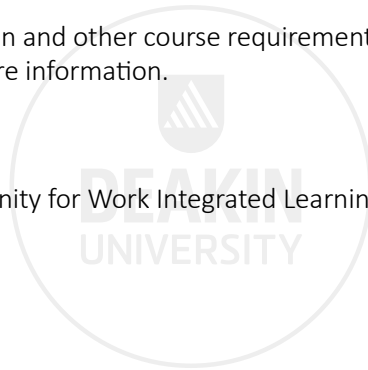

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

# Bachelor of Commerce/Bachelor of Business Analytics

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Commerce/Bachelor of Business Analytics
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	4 years full-time or part-time equivalent
<i>Deakin course code</i>	D366 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course structure applies to students who commenced in 2019. Students who commenced prior to 2019 should refer to the Handbook Archive for their course structure and consult with their enrolment officer.*

## Course overview

Bachelor of Commerce/Bachelor of Business Analytics allows students to combine studies in business analytics with studies in commerce such as accounting, finance, economics, marketing and management leading to a broad range of technology enabled business roles. Within the BA stream, you'll look at the way businesses structure their information architectures, and the ways people and organisations use technology to improve their processes and workflows, and innovate their products or services. This course gives you the skills to analyse data, existing information systems, plan the introduction of commercial systems, and find solutions to common management problems (eg approaches to innovation) using business analytics software tools.

Graduates with double degrees in commerce and technology are highly sought after by employers.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Students who complete the accounting major sequence are eligible to apply for admission to the:

- CA Program of the Chartered Accountants Australia and New Zealand (CAANZ)
- Associate membership for the CPA Program, CPA Australia
- IPA Program of the Institute of Public Accountants (IPA) and
- Association of Chartered Certified Accountants (ACCA) – A limited number of exemptions may apply. Please refer to the Association of Chartered Certified Accountants (ACCA) for further information.

The Bachelor of Commerce (with a major in Financial Planning) is a course approved by the new financial planning standards body – the Financial Adviser Standards and Ethics Authority (FASEA). Graduates who complete the Financial Planning major sequence in the Bachelor of Commerce will satisfy the education standards prescribed by FASEA to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students who complete the marketing major are eligible for a one year credit reduction, off the five years, needed to become a Certified Practicing Marketer by the Australian Marketing Institute (AMI).

Students should consult with a course adviser to identify any additional requirements for membership for each professional body, and also consult with the professional body.

## Career opportunities

A combined course such as the Bachelor of Commerce/Bachelor of Information Systems offers you the chance to broaden your career opportunities after graduation. For further information on career outcomes for this combined course, see the entries for Bachelor of Information Systems and Bachelor of Commerce.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Alternative exits

M300, M340, M201.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Commerce/Bachelor of Business Analytics, students must attain a total of 32 credit points consisting of 16 credit points from the Bachelor of Commerce and 16 credit points from the Bachelor of Business Analytics. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

## Course structure

### Units

The 16 credit points from the Bachelor of Commerce (M300) include:

- 8 credit points of core units (MAA103, MAE101, MAF101, MIS171, MLC101, MMK101, MMM132 and MWL101)
- completion of MAI010 Academic Integrity (0-credit-point compulsory unit)
- an 8 credit point major sequence (excluding Management Information Systems)
- Level 3 – at least 4 credit points (which must be course grouped to a Faculty of Business and Law undergraduate degree)

The 16 credit points from the Bachelor of Business Analytics (M340) include:

- 15 credit points of core units (excluding MIS171) including one work integrated learning unit (WIL) OR an approved international learning experience
- MIS010 Academic Induction for the Bachelor of Business Analytics (0 credit point unit)
- a 1 credit point elective unit

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Information Systems/Bachelor of Health Sciences

*The final intake to this course version was in 2013. Students should contact a student advisor for course and enrolment information. Further course structure information can be found in the Handbook archive.*

## Course overview

The Bachelor of Engineering/Bachelor of Science course takes five and a half years to complete on a full-time basis or part time equivalent (unless trimesters are fully utilised by students).

You may combine one of the engineering major sequences – civil, electrical and electronics, mechanical or mechatronics and robotics engineering – with a Science stream, for example, Biology, Biological Chemistry, Chemistry, Mathematical Modelling and Zoology. Only the Mathematical Modelling major is available in Cloud (online) mode.

## Career opportunities

The Bachelor of Engineering/Bachelor of Science offers you the chance to broaden your career opportunities after graduation. The opportunities available will depend on the major sequences you take within your course. For information on career outcomes for this combined course see the entries for Bachelor of Science and Bachelor of Engineering.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

This combined course comprises a total of 44 credit points which must include the following:

### Engineering component

- 30 credit points of core engineering units
- One approved Engineering major:
  - civil
  - electrical and electronics
  - mechanical
  - mechatronics and robotics

Combined Engineering students are exempt from Engineering elective requirements.

See course entry for the Bachelor of Engineering (S367) for details of core units.

## Science component

- 16 credit points of Science units including:
  - 7 Bachelor of Science core units
  - One 8 credit point major from the Bachelor of Science:
    - » Biology
    - » Biological Chemistry
    - » Chemistry
    - » Mathematical Modelling
    - » Zoology
- 2 Engineering units course grouped for Science: SEP101 and SIT194

See course entry for the Bachelor of Science (S320) for further details.

Students must meet the minimum requirements for each award.

# Bachelor of Engineering/Bachelor of Commerce

<i>Award granted</i>	Bachelor of Engineering/Bachelor of Commerce
<i>Campus</i>	For students who commenced prior to 2012
<i>Duration</i>	5 years full-time or part-time equivalent
<i>CRICOS course code</i>	023641K
<i>Deakin course code</i>	D373 (version 2)

*The final intake to this course version was in 2011. Students should contact a student advisor for course and enrolment information. Further course structure information can be found in the Handbook archive.*

## Course overview

The Bachelor of Engineering/Bachelor of Commerce course takes five years to complete on a full-time basis. You may combine one of the engineering major sequences – Civil, Mechatronics and Robotics or Mechanical – with a relevant Commerce major, for example, Economics, eBusiness, Technology Management or International Trade and Economic Policy.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

This combined course comprises 40 credit points of study. Students will undertake 26 credit points in the Faculty of Science, Engineering and Built Environment and 14 credit points in the Faculty of Business and Law. Course requirements for both the Bachelor of Engineering (S367) and the Bachelor of Commerce (M300) must be satisfied.

Students must complete all core engineering units excluding SEB121 and SEB421.

The 14 credit points studied within the Faculty of Business and Law must include the 10 Bachelor of Commerce core units: MAA103, MAE101, MAE102, MAF101, MLC101, MMM132, MSC120, MSQ171, MMH299 and MMK277. In addition, students must complete a prescribed Commerce major sequence and a minimum of 4 credit points at level 3, which must be Faculty of Business and Law units course-grouped\* to a Faculty of Business and Law undergraduate degree.

\* For the purposes of this course, SEB322 Research and Design Project Management and SEB323 Managing Industrial Organisations, have been course grouped.

See course entry for Bachelor of Engineering (S367) or Bachelor of Commerce (M300).

# Bachelor of Engineering/Bachelor of Commerce

<i>Award granted</i>	Bachelor of Engineering/Bachelor of Commerce
<i>Campus</i>	For students who commenced prior to 2014
<i>Duration</i>	5.5 years full-time or part-time equivalent
<i>CRICOS course code</i>	075866G
<i>Deakin course code</i>	D373 (version 3)

*The final intake to this course version was in 2013. Students should contact a student advisor for course and enrolment information. Further course structure information can be found in the Handbook archive.*

## Course overview

The Bachelor of Engineering/Bachelor of Commerce course takes five and a half years to complete on a full-time basis or part time equivalent (unless trimesters are fully utilised by students).

You may combine one of the engineering major sequences – civil, electrical and electronics, mechanical or mechatronics and robotics engineering – with a relevant Commerce major.

## Career opportunities

The Bachelor of Engineering/Bachelor of Commerce offers you the chance to broaden your career opportunities after graduation. The opportunities available will depend on the major sequences you take within your course. For information on career outcomes for this combined course see the entries for Bachelor of Commerce and Bachelor of Engineering.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

This combined course comprises a total of 44 credit points which must include the following:

### Engineering component

- 29 core engineering units (D373 students complete MMM132 and are exempt from SEB121)
- One approved Engineering major:
  - civil
  - electrical and electronics
  - mechanical
  - mechatronics and robotics

Combined Engineering students are exempt from Engineering elective requirements.

See course entry for the Bachelor of Engineering (S367) for details of core units.

## Commerce component

- 16 credit points of units from the Faculty of Business and Law including:
  - 10 Bachelor of Commerce core units: MAA103, MAE101, MAE102, MAF101, MLC101, MMM132, MIS101, MIS171, MMH299 and MMK277;
  - One 6 credit point major sequence from the Bachelor of Commerce:
    - » Accounting
    - » Accounting Information Systems
    - » Business Information Systems
    - » Commercial Law
    - » eBusiness
    - » Economics
    - » Finance
    - » Financial Planning
    - » Human Resource Management
    - » Interactive Marketing
    - » International Management
    - » International Trade and Economic Policy
    - » Management
    - » Marketing
    - » Quantitative Business Analysis
    - » Supply Chain Management
- a minimum of 4 credit points at level 3, which must be Faculty of Business and Law units course-grouped\* to a Faculty of Business and Law undergraduate degree.
- 2 Engineering units course grouped for Commerce: SEB223 and SEB324\*

See course entry for the Bachelor of Commerce (M300) for further details.

Students must meet the minimum requirements for each award.

# Bachelor of Engineering/Bachelor of Information Technology

<i>Award granted</i>	Bachelor of Engineering/Bachelor of Information Technology
<i>Campus</i>	For students who commenced prior to 2014
<i>Duration</i>	5.5 years full-time or part-time equivalent
<i>CRICOS course code</i>	075867F
<i>Deakin course code</i>	D375

*The final intake to this course version was in 2013. Students should contact a student advisor for course and enrolment information. Further course structure information can be found in the Handbook archive.*

## Course overview

The Bachelor of Engineering/Bachelor of Information Technology course takes five and a half years to complete on a full-time basis or part time equivalent (unless trimesters are fully utilised by students).

You may combine one of the engineering major sequences – civil, electrical and electronics, mechanical or mechatronics and robotics engineering – with a major in Information Technology.

## Career opportunities

The Bachelor of Engineering/Bachelor of Information Technology offers you the chance to broaden your career opportunities after graduation. The opportunities available will depend on the major sequences you take within your course. For information on career outcomes for this combined course see the entries for Bachelor of Information Technology and Bachelor of Engineering.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

This combined course comprises a total of 44 credit points which must include the following:

### Engineering component

- 30 credit points of core engineering units
- One approved Engineering major:
  - civil
  - electrical and electronics
  - mechanical
  - mechatronics and robotics

Combined Engineering students are exempt from Engineering elective requirements.

See course entry for the Bachelor of Engineering (S367) for details of core units.

## Information Technology component

- 16 credit points of Information Technology units including:
  - 8 credit points of core IT units
  - One IT major:
    - » Computer Science
    - » Game Development
    - » Networking
    - » Security
    - » Software Development
    - » Mathematical Modelling
- 2 Engineering units course grouped for IT: SIT172 and SEP291.

See course entry for the Bachelor of Information Technology (S326) for further details.

Students must meet the minimum requirements for each award.

# Bachelor of Criminology/Bachelor of Information Technology (I.T. Security)

Year	2019 course information
Award granted	Bachelor of Criminology/Bachelor of Information Technology (I.T. Security)
Duration	4 years full-time or part-time equivalent
Deakin course code	D380 (version 1)

*Offered to continuing students only*

## Course overview

Deakin's Bachelor of Criminology/Bachelor of Information Technology (IT Security) brings together two independent degrees in criminology and information technology (IT security) into a four-year combined course.

## Professional recognition

The Bachelor of Information Technology (I.T. Security) part of this double-degree is professionally accredited with the Australian Computer Society (ACS).

## Alternative exits

A329, S334.

## Course rules

**Criminology:** Students must complete 16 credit points of study from the Faculty of Arts and Education including a minimum 12 credit points of ACR coded units, including the core units of ACR101, ACR102, ACR201, ACR202, ACR301, and ACR302.

**Information Technology (I.T. Security):** Students must complete 16 core units of SIT coded units plus SIT010 Safety Induction Program (0 credit point compulsory unit)

## Course structure

### Level 1

ACR101	Introducing Crime and Criminology
ACR102	Introducing Crime and Criminal Justice
SIT010	Safety Induction Program (Zero credit point)
SIT101	Fundamentals of Information Technology
SIT103	Data and Information Management
SIT104	Introduction to Web Development
SIT105	Thinking Technology and Design

Plus two elective units

### Level 2

ACR201	Issues in Criminal Justice
ACR202	Criminology Theory
ACR203	Crime, Victims and Justice
ACR204	Crime, Media and Justice
SIT182	Real World Practices for Cyber Security
SIT192	Discrete Mathematics
SIT202	Networks and Communications
SIT223	Professional Practice in Information Technology

**Level 3**

ACR301	International and Comparative Criminal Justice
ACR302	Criminology Research
SIT281	Cryptography
SIT282	Computer Crime and Digital Forensics
SIT284	Cyber Security Management
SIT374	Project Design ^

Plus 1 unit from the following:

ACR210	Crime, Surveillance and Society
ACR212	Crime, Surveillance and Technology
ACR211	Crime Prevention and Security
ACR213	Crime, Terrorism and Security

Plus one 1 elective unit

**Level 4**

ACR303	Criminology Practicum (2 credit point elective unit)
SIT302	Project Delivery
SIT382	System Security
SIT384	Cyber Security Analytics
SIT392	Public-Key Cryptography

Plus 2 elective units from the following:

ACR210	Crime, Surveillance and Society
ACR212	Crime, Surveillance and Technology
ACR211	Crime Prevention and Security
ACR213	Crime, Terrorism and Security

^ Note: Students are expected to undertake SIT374 and SIT302 in consecutive trimesters. Students should seek advice from the unit chair if they are unable to complete SIT374 and SIT302 consecutively.

# Bachelor of Criminology/Bachelor of I.T. Security

Year	2019 course information
Award granted	Bachelor of Criminology/Bachelor of I.T. Security
Duration	4 years full-time or part-time equivalent
CRICOS course code	083991B
Deakin course code	D380 (version 2)

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Deakin's Bachelor of Criminology/Bachelor of I.T. Security is the only degree of its kind in Australia. It brings together two independent degrees in criminology and I.T. security into an attractive four-year combined course. The course will provide you with skills in securing data and data communications, as well as investigating, analysing and providing solutions to computer crime. The course assists you to attain the knowledge required to become a Certified Information Systems Security Professional.

Combining IT security with criminology covers a wide range of topics concerning the meaning of crime; different forms, causes and consequences of crime; and the different institutions and processes developed for preventing and controlling crime. You will be provided with broad theoretical and applied knowledge and skills in relation to policy development, policing and security, and related fields. Topic areas include crime, justice, security and surveillance.

You should consider this degree if you are interested in pursuing a career in criminology or IT security, and particularly the many areas where criminology and IT security overlap (such as in relation to cyber-crime and cyber-security).

You will have the opportunity to complete the Criminology Practicum in your final year of study, a unit that brings the professions to the classroom (including online via the 'cloud') with practitioner-driven seminars, activities bridging theory and practice, and the development of an e-portfolio that can be used for employment or career development.

In line with Deakin's commitment to providing flexible study options, you can choose to study the Bachelor of Criminology/Bachelor of I.T. Security full time or part time, at Waurm Ponds (Geelong) or via Cloud (online) mode. All subjects provide considerable online activities.

You will also have the opportunity to significantly fast-track your studies using Deakin's trimester system.

## Professional recognition

The Bachelor of I.T. Security part of this double-degree is professionally accredited with the Australian Computer Society (ACS).

## Alternative exits

A329, S334.

## Equipment requirements

For information regarding hardware and software requirements, please refer to the School of Information Technology's website, [deakin.edu.au/information-technology/students](http://deakin.edu.au/information-technology/students) or telephone 03 9244 6699.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

### Criminology

Students must complete 16 credit points of study from the Faculty of Arts and Education including a minimum 12 credit points of ACR coded units, including the core units of ACR101, ACR102, ACR201, ACR202, ACR301, and ACR302.

### I.T. Security

Students must complete 16 core units# of SIT coded units plus SIT010 Safety Induction Program (0 credit point compulsory unit).

See course entry for Bachelor of Criminology (A329) or Bachelor of I.T. Security (S334)

# Students undertaking D380 are not required to undertake SIT306.

## Course structure

### Level 1

#### Trimester 1

- ACR101 Introducing Crime and Criminology (ACR101 Also offered in Trimester 3)
- SIT101 Fundamentals of Information Technology
- SIT105 Thinking Technology and Design
- SIT010 Safety Induction Program (SIT010 is a zero (0) credit point safety induction unit)

Plus one (1) elective unit

#### Trimester 2

- ACR102 Introducing Crime and Criminal Justice
- SIT103 Data and Information Management
- SIT104 Introduction to Web Development

Plus one (1) elective unit

### Level 2

#### Trimester 1

- ACR201 Issues in Criminal Justice
- ACR203 Crime, Victims and Justice
- SIT223 Professional Practice in Information Technology
- SIT192 Discrete Mathematics

#### Trimester 2

- ACR202 Criminology Theory
- ACR204 Crime, Media and Justice
- SIT182 Real World Practices for Cyber Security
- SIT202 Networks and Communications

### Level 3

#### Trimester 1

- ACR301 International and Comparative Criminal Justice
- SIT374 Project Design ^
- SIT282 Computer Crime and Digital Forensics

Plus one (1) unit from the following:

- ACR210 Crime, Surveillance and Society \*
- ACR212 Crime, Surveillance and Technology \*\*
- ACR211 Crime Prevention and Security \*
- ACR213 Crime, Terrorism and Security \*\*

## Trimester 2

ACR302 Criminology Research  
SIT281 Cryptography  
SIT284 Cyber Security Management

Plus one (1) elective unit

## Level 4

### Trimester 1

SIT384 Cyber Security Analytics  
SIT392 Public-Key Cryptography

Plus two (2) elective units from the following

ACR210 Crime, Surveillance and Society \*  
ACR212 Crime, Surveillance and Technology \*\*  
ACR211 Crime Prevention and Security \*  
ACR213 Crime, Terrorism and Security \*\*

### Trimester 2

ACR303 Criminology Practicum (2 credit point elective unit)  
SIT302 Project Delivery  
SIT382 System Security

\* ACR210, ACR211 are offered in Trimesters 1 and 3 in alternating years; Trimester 1 2018, 2020, Trimester 3 2018, 2020.

\*\* ACR212, ACR213 are offered in Trimesters 1 and 3 in alternating years; Trimester 3 2018, 2020, Trimester 1 2018, 2020.

^ Note: Students are expected to undertake SIT374 and SIT302 in consecutive trimesters. Students should seek advice from the unit chair if they are unable to complete SIT374 and SIT302 consecutively.

# Bachelor of Criminology/Bachelor of Cyber Security

<i>Cloud Campus</i>	Yes
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	091788E
<i>Deakin course code</i>	D380 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Deakin's Bachelor of Criminology/Bachelor of Cyber Security is the only degree of its kind in Australia. It brings together two independent degrees in Criminology and Cyber Security into an attractive four-year combined course. The course will provide you with skills in securing data and data communications, as well as investigating, analysing and providing solutions to computer crime. The course assists you to attain the knowledge required to become a Certified Information Systems Security Professional.

Combining cyber security with criminology covers a wide range of topics concerning the meaning of crime; different forms, causes and consequences of crime; and the different institutions and processes developed for preventing and controlling crime. You will be provided with broad theoretical and applied knowledge and skills in relation to policy development, policing and security, and related fields. Topic areas include crime, justice, security and surveillance.

You should consider this degree if you are interested in pursuing a career in criminology or cyber security, and particularly the many areas where criminology and cyber security overlap (such as in relation to cyber-crime and cyber-security).

You will have the opportunity to complete the Criminology Practicum in your final year of study, a unit that brings the professions to the classroom (including online via the 'cloud') with practitioner-driven seminars, activities bridging theory and practice, and the development of an e-portfolio that can be used for employment or career development.

In line with Deakin's commitment to providing flexible study options, you can choose to study the Bachelor of Criminology/Bachelor of Cyber Security full time or part time, at Waurn Ponds (Geelong) or via Cloud (online) mode. All subjects provide considerable online activities.

You will also have the opportunity to significantly fast-track your studies using Deakin's trimester system.

## Professional recognition

The Bachelor of Cyber Security part of this double-degree is professionally accredited with the Australian Computer Society (ACS).

## Career opportunities

Promising career opportunities await in the areas of both criminology and cyber security. Graduates may find employment in areas such as government agencies, state and federal police, security and intelligence agencies, research and policy development, correctional services, community services, and private security and consultative industries, as well as more technical roles such as security analyst, security systems manager, security system developer/programmer, anti-virus software developer or computer forensic specialist.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A329, S334.

## Equipment requirements

For information regarding hardware and software requirements, please refer to the School of Information Technology's website, [deakin.edu.au/information-technology/students](http://deakin.edu.au/information-technology/students) or telephone 03 9244 6699.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of the single degree.

## Course rules

To qualify for the award of Bachelor of Criminology/Bachelor of Cyber Security students must complete 32 credit points as follows:

### Criminology

16 credit points of study from the Faculty of Arts and Education including a minimum 12 credit points of ACR coded units, including the core units of ACR101, ACR102, ACR201, ACR202, ACR301, and ACR302. Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit)

### Cyber Security

16 core units# of SIT coded units plus the completion of SIT010 Safety Induction Program (0-credit-point compulsory unit).

See course entry for Bachelor of Criminology (A329) or Bachelor of Cyber Security (S334)

Students are encouraged to consider taking electives from the Professional Experience and Practice Minor sequence APE101, APE201, APE202 and APE301.

# Students undertaking D380 are not required to undertake SIT306.

## Course structure

### Criminology core units

ACR101	Introducing Crime and Criminology (also offered in Trimester 3)
ACR102	Introducing Crime and Criminal Justice
ACR201	Issues in Criminal Justice
ACR202	Criminology Theory
ACR301	International and Comparative Criminal Justice
ACR302	Criminology Research

### Cyber Security core units

SIT102	Introduction to Programming
SIT124	Exploring I.T.
SIT103	Data and Information Management
SIT105	Thinking Technology and Design
SIT182	Real World Practices for Cyber Security
SIT192	Discrete Mathematics
SIT202	Networks and Communications
SIT223	Professional Practice in Information Technology
SIT281	Cryptography
SIT282	Computer Crime and Digital Forensics
SIT284	Cyber Security Management
SIT302	Project Delivery
SIT374	Project Design ^
SIT382	System Security
SIT384	Cyber Security Analytics
SIT379	Ethical Hacking
SIT010	Safety Induction Program (zero (0) credit point safety induction unit)

### Elective units

ACR203	Crime, Victims and Justice
ACR204	Crime, Media and Justice
ACR210	Crime, Surveillance and Society *
ACR212	Crime, Surveillance and Technology **
ACR211	Crime Prevention and Security *
ACR213	Crime, Terrorism and Security **
ACR303	Criminology Practicum (2 credit point elective unit)

\* ACR210, ACR211 are offered in Trimesters 1 and 3 in alternating years; Trimester 1 2020, 2022, and Trimester 3 2019, 2021.

\*\* ACR212, ACR213 are offered in Trimesters 1 and 3 in alternating years; Trimester 3 2020, 2022, and Trimester 1 2019, 2021.

^ Note: Students are expected to undertake SIT374 and SIT302 in consecutive trimesters. Students should seek advice from the unit chair if they are unable to complete SIT374 and SIT302 consecutively.

## Work experience

Elective units may provide the opportunity for Work Integrated Learning experiences.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Independent research components are embedded across a number of units.

# Bachelor of Nursing/Bachelor of Public Health and Health Promotion

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Nursing/Bachelor of Public Health and Health Promotion
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full-time
<i>CRICOS course code</i>	018323M
<i>Deakin course code</i>	D381
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Gain a valuable qualification in nursing, along with a deep understanding of the contributors to population health and the skills needed to help people engage in healthier lifestyles. Deakin's Bachelor of Nursing/Bachelor of Public Health and Health Promotion allows you to make a difference in health outcomes of individuals, communities and global populations.

Do you want to help people lead healthier lives, across clinical and community settings?

Throughout this course, you will gain a valuable mix of hands-on clinical practice and theory. Clinical placements begin in Trimester 1 of your first year, and continue throughout every trimester of the course, totalling 800 hours. Clinical placements support and consolidate your learning and are undertaken in various metropolitan, regional and rural health care settings, under the supervision of qualified practitioners.

Deakin's purpose-built clinical simulation centres, simulating real healthcare settings, provide you with the facilities and equipment required to develop practical nursing skills, which are further enhanced through clinical placements.

This combined degree also gives you the specialised education in public health and health promotion. Public health is the organised response by society to protect and promote health and prevent disability. By looking at the patterns of health and disease, public health focuses on the health of populations, rather than at the level of the individual. Health promotion is about working with people to improve their health and creating environments that support health – be they environmental, legal, physical, economic or social.

You will also get the chance to study the foundations of health promotion practice, such as:

- biostatistics
- environmental health
- epidemiology
- health sociology
- planning and evaluation

While you will graduate with a suite of specialised and highly sought-after healthcare skills, you will also leave Deakin instilled with lifelong competencies, such as skills across:

- research
- analytical thinking
- project management
- communication
- community development

In your final year, you will also have the opportunity to build practical industry experience in public health through the Public Health and Health Promotion Practicum unit, giving you 120 hours of real-world experience.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. There is an expectation that you are available to undertake clinical practicum outside of trimester dates. All expenses associated with clinical placements are your own responsibility.

## Professional recognition

On successful completion of your course, you will be eligible to apply for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

You may also be eligible to become a member of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

*Notes:*

*The NMBA has registration requirements that must be met in order to register. Course completion is one of these requirements.*

*Bachelor of Nursing component: This course is currently accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and is an NMBA approved course at the date of publishing.*

*Bachelor of Public Health and Health Promotion component: All information regarding professional recognition is accurate at the date of publication. Enquiries regarding accreditation and professional membership should be directed to the School of Health and Social Development in order to ascertain the current status of accreditation at any future point in time beyond publication. Representations about accreditation apply only to the course, and the relevant professional body retains discretion as to who they admit as members of their association. Deakin University cannot exercise any control over membership of an external body.*

## Career opportunities

As a registered nurse with public health and health promotion knowledge, you can pursue career opportunities around the world in a range of work settings, including:

- hospitals
- homes
- hospices
- aged care settings
- clinics
- schools
- universities
- community health centres
- government agencies and private industries.

The skills you will develop in the growing public health and health promotion area will qualify you to work in diverse areas, including:

- health education
- health and human services
- public health communication
- health policy development and implementation.

Your knowledge of the social and environmental factors that affect the health of individuals and populations will prepare you for a career in a range of clinical and community settings, such as:

- public health
- schools
- rehabilitation
- health education
- voluntary organisations
- patient support agencies
- working abroad.

## Participation requirements

Students will be expected to complete 800 hours of supervised workplace experience in the Bachelor of Nursing and 120 hours of fieldwork in public health and health promotion.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students are also required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Inherent requirements

Essential knowledge, skills and capabilities are required to undertake and successfully complete the undergraduate nursing and midwifery courses and to practice safely as a registered nurse and/or midwife. The inherent requirements of the course are listed on Deakin's website at School of Nursing and Midwifery Undergraduate Courses: Inherent Requirements.

## Alternative exits

H326.,H313.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Nursing (H326) or Bachelor of Public Health and Health Promotion (H313)

## Course rules

To complete the Bachelor of Nursing/Bachelor of Public Health and Health Promotion students must attain 32 credit points. Units (think of units as 'subjects') may be worth 1 or 2 credit points – click on each unit to check its credit point value in the course structure below. Students choose to study 4 credit points per trimester and usually undertake two trimesters each year. All units in this course are core units and are compulsory.

The course consists of 32 credit points of study which includes the following:

- 19 credit points are specific to nursing
- 13 credit points are specific to public health and health promotion.

You must fulfil the requirements of each component of the combined degree.

See course entry for Bachelor of Nursing (H326) or Bachelor of Public Health and Health Promotion (H313).

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Units

Course structure for students who commenced in 2015 onwards. Students who commenced prior to 2015 should refer to previous online Handbooks or consult your course enrolment officer.

### Level 1

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
HBS109	Human Structure and Function
HNN112	Quality and Safety: Nursing Practice 1
HNN120	Quality and Safety in Health Care
HSH111	Introduction to Public Health and Health Promotion

#### Trimester 2

HNN114	Health Assessment
HNN122	Quality and Safety: Nursing Practice 2
HBS107	Understanding Health

### Level 2

#### Trimester 1

HNN227	Quality and Safety: Nursing Practice 3
HNN215	Quality Use of Medicines
HSH208	Health Communication

#### Trimester 2

HNN222	Mental Health and Illness
HNN108	Understanding Research Evidence
HSH212	Professional Practice

### Level 3

#### Trimester 1

HNN318	The Older Person and Supportive Care
HSH201	Planning and Evaluation 1
HSH205	Epidemiology and Biostatistics 1
HSH112	Local and Global Environments for Health

## Trimester 2

HNN217	Community Nursing Practice
HNN300	Child and Adolescent Health
HSH216	Epidemiology and Biostatistics 2
HSH218	Planning and Evaluation 2

## Level 4

### Trimester 1

HNN319	Chronic Illness and Supportive Care
HNN320	Leadership and Clinical Governance
HSH302	Politics, Policy and Health
HSH303	Public Health and Health Promotion Practicum

### Trimester 2

HNN325	Comprehensive Nursing Practice
HNN301	Mental Health Promotion
HSH319	Population Health: A Research Perspective

## Work experience

### Clinical practice

Beginning soon after commencement of the course, early exposure to the clinical environment gives you extensive opportunities to develop clinical skills in a variety of settings including acute/sub-acute care, medical and surgical care, paediatrics, aged care, rehabilitation, community nursing and mental health nursing.

There is an expectation that you will be available to undertake clinical practicum outside of trimester dates. All expenses associated with clinical placements are your own responsibility.

### Public Health and Health Promotion

The Public Health and Health Promotion Practicum requires you to undertake a minimum of 120 hours of work experience in a health-related agency. In addition to developing a practical understanding of public health-health promotion, this experience will help you further develop the professional and personal skills required to work in a public health-health promotion role.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Third party arrangements

Student Placement Agreements exist between Deakin University, SoNM and Clinical Placement Providers and are generally revised every 3–5 years.

### Quality assurance arrangements

Deakin, SoNM provides training through facilitator and preceptorship workshops. Unit Chairs provide regular clinical support to facilitators whilst students are on placements.

### Other learning experiences

The BN has 3 elective units which may be undertaken from any faculty as long as pre requisite requirements are met.

The school offers nursing elective units e.g HNN216 International Nursing Study Tour x 3. (Thailand, Bhutan, Philippines).

# Bachelor of Nursing/Bachelor of Applied Science (Psychology)

Award granted	Bachelor of Nursing/Bachelor of Applied Science (Psychology)
Duration	4 years full-time
CRICOS course code	031150G
Deakin course code	D387 (version 1)

*For continuing students only – Course structure applies for students who commenced in 2012 and 2013. Students who commenced prior to 2012 must discuss their course structure with the campus enrolment officer. Students commencing after 2013 should refer to Bachelor of Nursing/Bachelor of Psychological Science*

## Course overview

Deakin University was the first university in Australia to offer combined nursing degree courses. This was in response to signals from the health sector that there is a need for nurses with multidisciplinary skills.

This course is particularly well suited to those interested in the growing field of mental health nursing. It will prepare you with a strong understanding of research methods in psychology, human behaviour and mental processes and provide you with the knowledge and skills to comprehensively care for patients.

Throughout the course you will benefit from our purpose-built Clinical Simulation Centre which provides you with the facilities and equipment required to develop practical skills which are further enhanced through clinical work placements.

In addition you will study a wide range of units that provide the scientific knowledge base for mental health practice such as psychology as a behavioural science, statistics, mental health promotion and research.

## Professional recognition

On successful completion of the course you will be eligible to apply for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

*Note: the NMBA has registration requirements that must be met in order to register. Course completion is one of these requirements. You will also have gained a three-year undergraduate psychology sequence that is accredited by the Australian Psychology Accreditation Council (APAC), recognised for registration purposes by the Psychology Board of Australia and enables you to undertake additional study in pursuit of provisional registration.*

*Note: This course is currently accredited by the Australian Nursing and Midwifery Accreditation Council and is an NMBA approved course at the date of publishing.*

## Department of Human Services policy and Working with Children check

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. In accordance with the Working with Children Act 2005\*\*, all students are required to undertake a Working with Children Check at commencement of the course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

\* Department of Human Services Policy on Working with Children Check and Police Records Checks can be found at: <http://www.dhs.vic.gov.au/about-the-department/our-organisation/careers/applying-for-a-job/application-process/step-4-safety-screening-checks>

\*\* Department of Justice 2007, Working with Children Act 2005, Victoria, Australia retrieved April 2012.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

The Bachelor of Nursing/Bachelor of Applied Science (Psychology) course comprises thirty two (32) credit points. Twenty two (22) credit points are specific to nursing and ten (10) credit points are specific to psychology. These core units provide students with an opportunity to engage in multidisciplinary learning. Students gain an understanding of basic scientific foundations in the areas of biomedical and human behaviour studies.

There is an expectation that students be available to undertake clinical practicum outside of trimester dates. Failure of a compulsory practicum component in any unit of study will normally lead to exclusion. All expenses associated with clinical practicum are the responsibility of the student.

For students studying at Waterfront (Geelong) and Warrnambool some psychology units may only be available in Cloud (online) in years two, three and four. Students enrolled at the Waterfront (Geelong) will be required to take some units at Waurn Ponds (Geelong).

See course entry Bachelor of Nursing (H326) or Bachelor of Applied Science (Psychology) (H344).

## Course structure

### Level 1

#### Trimester 1

HBS109	Human Structure and Function
HNN112	Quality and Safety: Nursing Practice 1
HNN120	Quality and Safety in Health Care
HPS111	Psychology A: Fundamentals of Human Behaviour

#### Trimester 2

HNN114	Health Assessment
HNN122	Quality and Safety: Nursing Practice 2
HPS121	Psychology B: Individual and Social Development

### Level 2

#### Trimester 1

HBS107	Understanding Health
HBS108	Health Information and Data (Trimester 2 at W)
HNN222	Mental Health and Illness (Trimester 2 at W)

#### Trimester 2

HBS110	Health Behaviour
HNN215	Quality Use of Medicines (Trimester 1 at W)
HNN227	Quality and Safety: Nursing Practice 3 (Trimester 1 at W)

### Level 3

#### Trimester 1

HNN217	Community Nursing Practice (Trimester 2 at W)
HNN318	The Older Person and Supportive Care
HPS203	The Human Mind
HPS204	Human Social Behaviour

### Trimester 2

- HNN300 Child and Adolescent Health
- HPS201 Research Methods in Psychology A (Trimester 1 at W via Cloud (online) mode)
- HPS202 Child and Adolescent Development
- HPS205 Brain, Biology and Behaviour (No longer available for enrolment)

### Level 4

#### Trimester 1

- HNN319 Chronic Illness and Supportive Care
- HNN320 Leadership and Clinical Governance
- HPS301 Research Methods in Psychology B
- HPS307 Personality +

#### Trimester 2

- HNN301 Mental Health Promotion
- HNN325 Comprehensive Nursing Practice
- HPS308 Psychopathology

- \* Students who have not completed HPS205 by the end of 2015 must do HPS310 from 2016. HPS310 is not offered in Trimester 2
- + HPS307 is not offered in T1 from 2016. Students progressing to Year 4 D387 in 2016 who have not completed HPS307 by the end of 2015 will need to do this unit in T3 2015 or T3 2016.

# Bachelor of Nursing/Bachelor of Psychological Science

<i>Deakin course code</i>	D387 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Deakin's Bachelor of Nursing/Bachelor of Psychological Science develops your understanding of human behaviour, and helps to build the skills you need to become a competent and successful nurse. Armed with a wealth of real-world knowledge through your clinical placements, you will graduate ready for work as a registered nurse and be eligible to pursue further study towards qualification as a registered psychologist.

Do you have good communication and decision-making skills and want to make a genuine difference in people's lives?

This combined degree helps you understand human personality, behaviour, emotion, underlying mental processes and the factors that lead people to differ in the ways they think and behave. You will graduate with solid clinical experience and the knowledge and skills to comprehensively care for patients and their families.

Nursing clinical placements begin in Trimester 1 of your first year, and continue throughout every trimester of the course, totalling 800 hours. Clinical placements support and consolidate your learning and are undertaken in various metropolitan, regional and rural health care settings, under the supervision of qualified practitioners.

Deakin's Clinical Simulation Centres provide flexible learning spaces that simulate clinical settings with state-of-the-art equipment designed to develop your practical skills, which are further consolidated through extensive clinical work placements. A wide range of units provide you with a scientific knowledge base for mental health practice, such as psychological testing and measurement, mental health promotion and research.

With so much diversity and growth in the healthcare sector, you will be in the best position possible to follow your interests and shape your future. The nursing component of your degree provides eligibility to become a registered nurse through the Nursing and Midwifery Board of Australia (NMBA).

Similarly, the psychology stream of your degree is recognised by the Psychology Board of Australia (PsyBA) and accredited by the Australian Psychological Society (APAC). This is the first step in your journey to becoming a qualified psychologist.

To progress your career in psychology, an approved fourth year of psychology study will allow you to apply for provisional registration with the PsyBA and seek associate membership of the Australian Psychological Society. In order to gain full registration, provisional psychologists must then complete a further two years of supervised practice, or a minimum of two years of postgraduate study.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. There is an expectation that you are available to undertake clinical practicum outside of trimester dates. All expenses associated with clinical placements are your own responsibility.

## Professional recognition

On successful completion of your course, you will be eligible to apply for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

You will also have gained a three-year undergraduate psychology sequence that is accredited by the Australian Psychology Accreditation Council (APAC), recognised for registration purposes by the PsyBA and enabling you to undertake additional study in pursuit of provisional registration.

*Notes:*

*The NMBA has registration requirements that must be met in order to register. Course completion is one of these requirements.*

*This course is currently accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and is an NMBA approved course at the date of publishing.*

## Career opportunities

As a registered nurse with psychology experience, you will be a unique graduate who can pursue career opportunities around the world, in a range of work settings, including:

- mental health rehabilitation
- youth work
- careers counselling
- community development and work/life counselling
- hospitals
- homes
- hospices
- aged care settings
- clinics
- schools
- universities
- community health centres
- government agencies and private industries.

Alternatively, if you are interested in pursuing a professional career in psychology, your next step involves enrolling into an approved 'fourth year' of psychology study (such as Deakin's Graduate Diploma of Psychology or honours in psychology), after which you may apply for provisional registration with the Psychology Board of Australia (PsyBA) and seek associate membership of the Australian Psychological Society (APS).

In order to gain full registration, provisional psychologists can then complete either two years of supervised practise, or two years of postgraduate study – such as Deakin's Master of Psychology (Clinical), Master of Psychology (Organisational), or Doctor of Psychology (Clinical) (with supervised practice completed outside the degree).

## Participation requirements

Students will be expected to complete 800 hours of supervised workplace experience in the Bachelor of Nursing.

Placement can occur at any time, including during the standard holiday breaks listed here:

[deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students are also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Inherent requirements

Essential knowledge, skills and capabilities are required to undertake and successfully complete the undergraduate nursing and midwifery courses and to practice safely as a registered nurse and/or midwife. The inherent requirements of the course are listed on Deakin's website at School of Nursing and Midwifery Undergraduate Courses: Inherent Requirements.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Nursing (H326) or Bachelor of Psychological Science (H344)

## Course rules

To complete the Bachelor of Nursing/Bachelor of Psychological Science students must attain 32 credit points. Units (think of units as 'subjects') may be worth 1 or 2 credit points – check each unit for its credit point value in the course structure below. Most students choose to study 4 credit points per trimester and usually undertake two trimesters each year. All units in this course are core units (these are compulsory).

The course consists of 32 credit points of study which includes the following:

- 19 credit points are specific to nursing
- 10 credit points are specific to psychology

The three remaining credit points are foundation units offered by the Faculty of Health which provide you with an opportunity to engage in multidisciplinary learning. You will gain an understanding of basic scientific foundations in the areas of biomedical and human behaviour studies.

There is an expectation that you will be available to undertake clinical practicum outside of trimester dates. All expenses associated with clinical placements are your responsibility.

If you are studying at Waterfront (Geelong) and Warrnambool some units may only be available in Cloud (online) in years two, three and four. If you are enrolled at the Waterfront (Geelong), you will be required to take some units at Waurin Ponds (Geelong).

See course entry Bachelor of Nursing (H326) or Bachelor of Psychological Science (H344).

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Units

Award granted	Bachelor of Public Health and Health Promotion/Bachelor of Commerce
Course Map	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
Campus	Offered at Burwood (Melbourne)
Cloud Campus	No
Duration	4 years full-time or part-time equivalent
CRICOS course code	031151F
Deakin course code	D388
Approval status	This course is approved by the University under the Higher Education Standards Framework.
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Choose to take your business nous into the thriving health industry, or your health expertise into the world of business with a versatile combined degree in Health and Commerce.

Good health is crucial to the wellbeing of individuals and societies.

This combined course gives you a thorough understanding of the social and environmental factors that cause poor health as well as those factors that create and sustain good health. You will examine how health is created and influenced in our society, and look at the different approaches for improving the population's health.

Through community engagement, program planning and evaluation, capacity building, research, policy development and health communication you will learn professional practices that and can be applied to a range of settings and population groups. You will also gain a professional business qualification through your studies in the complementary discipline of Commerce.

Deakin's commerce courses are some of the most flexible and broad-based business programs on offer at any Australian university. Our Bachelor of Commerce is the only Australian Bachelor of Commerce that is internationally recognised and EPAS accredited by the European Foundation for Management Development (EFMD). EPAS is a quality benchmark for business education programs globally.

As a graduate, you will be prepared for business, marketing and management roles within the health industry, as well as for health promotion and public health roles within the government, corporate, private and public sectors.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Graduates from the Bachelor of Public Health and Health Promotion may be eligible to become members of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA). Commerce graduates may apply for membership of CPA, CAANZ, IPA and ACCA.

Students who complete the accounting major sequence are eligible to apply for admission to the:

- CA Program of the Chartered Accountants Australia and New Zealand (CAANZ)
- Associate membership for the CPA Program, CPA Australia
- IPA Program of the Institute of Public Accountants (IPA) and
- Association of Chartered Certified Accountants (ACCA) – A limited number of exemptions may apply. Please refer to the Association of Chartered Certified Accountants (ACCA) for further information.

The Bachelor of Commerce (with a major in Financial Planning) is a course approved by the new financial planning standards body – the Financial Adviser Standards and Ethics Authority (FASEA). Graduates who complete the Financial Planning major sequence in the Bachelor of Commerce will satisfy the education standards prescribed by FASEA to be able to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner designation offered by the Association of Financial Advisers (AFA).

Students who complete the marketing major are eligible for a one year credit reduction, off the five years, needed to become a Certified Practising Marketer by the Australian Marketing Institute (AMI).

*Note: All information regarding professional recognition is accurate at the date of publication. Enquiries regarding accreditation and professional membership should be directed to the School of Health and Social Development in order to ascertain the current status of accreditation at any future point in time beyond publication. Representations about accreditation apply only to the course, and the relevant professional body retains discretion as to who they admit as members of their association. Deakin University cannot exercise any control over membership of an external body.*

## Career opportunities

As a graduate of this course you may find employment in either of these professional areas and work with groups such as children, adults, the disadvantaged and employees. Knowledge of business and health issues assists with executive management positions within the health industry that have policy development, budget and staff management responsibilities.

As a graduate you may qualify to work in positions such as Health Promotion Officer, Community Development Officer, Social Planning Officer, Health Educator, Women's Health Officer, Health Policy Developer, Planning Officer, Health Researcher, Partnerships Coordinator or Program Evaluator. You will be prepared for a diverse range of employment areas including but not limited to healthy eating, physical activity, mental health, social inclusion, chronic illness (such as asthma, arthritis, heart disease) and women's health.

The opportunities available to you will be somewhat dependent on the major sequence you choose to undertake as part of your degree.

The degree is a foundation for Honours and postgraduate study that lead to a research career in public health and/or health promotion or commerce.

## Participation requirements

The course contains core public health-health promotion unit HSH303 Public Health and Health Promotion Practicum that aims to provide students with an in-depth, working understanding of public health-health promotion principles and approaches in the field. Students are required to undertake a minimum of 120 hours of work experience in a health-related agency. In addition to developing a practical understanding of public health-health promotion, this experience will help students further develop the professional and personal skills required to work in a public health-health promotion role. The practicum component follows one seminar session covering: the expectations of the unit, and overview of project management; and an introduction to workplace organisation and context.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community, may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

This course provides pathway to the Honours program and subsequently higher degree by research courses and other postgraduate coursework courses.

## Alternative exits

- Bachelor of Public Health and Health Promotion (H313)
- Bachelor of Commerce (M300)

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Public Health and Health Promotion (H313) or Bachelor of Commerce (M300).

## Course rules

To complete the Bachelor of Public Health and Health Promotion/Bachelor of Commerce students must complete 32 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 32 credit points you will need to study 32 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester and usually undertake two trimesters each year.

The course comprises a total of 32 credit points, which must include the following:

- 3 foundation health units (these are compulsory)
- 13 core units in public health and health promotion (these are compulsory)
- 8 Bachelor of Commerce core units: MAA103, MAE101, MAF101, MIS171, MLC101, MMK101, MMM132 and MWL101 (these are compulsory).
- a prescribed Commerce major sequence
- a minimum of 4 credit points at level 3 which must be Faculty of Business and Law units course grouped to a Faculty of Business and Law undergraduate degree.

See course entry Bachelor of Public Health and Health Promotion (H313) or Bachelor of Commerce (M300).

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

Refer to the details of each major sequence for availability.

- Students who commenced prior to 2016: Commerce Major Sequence
- Students commencing from 2016: Commerce Major Sequence

## Course structure

### Core units

This course structure applies to students who commenced in 2016. Students who commenced prior to 2016 should refer to the Handbook Archive for their course structure and consult with their enrolment officer.

#### Level 1

##### Trimester 1

- HAI010 Academic Integrity (0 credit points)
- HBS107 Understanding Health
- HSH111 Introduction to Public Health and Health Promotion

Two commerce units

##### Trimester 2

- HSH319 Population Health: A Research Perspective

Two commerce units

## Work experience

### Public Health and Health Promotion

The Public Health and Health Promotion Practicum requires you to undertake a minimum of 120 hours of work experience in a health-related agency. In addition to developing a practical understanding of public health-health promotion, this experience will help you further develop the professional and personal skills required to work in a public health-health promotion role.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Third party arrangements

Placement agreements are compliant with the Student Placement Procedure.

Placement partners establish and operate facilities with the capacity to educate Deakin students relevant to the partner's core business (which is health and course related), supervising the development of industry skill-sets and training for each individual over 120 hours.

### Quality assurance arrangements

Discussions have commenced with Curtin University to benchmark exemplar units in 2018.

### Other learning experiences

Students are invited to participate in study tours – previous examples have included Cambodia and India.

# Bachelor of Criminology/Bachelor of Psychological Science

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Criminology/Bachelor of Psychological Science
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurin Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	079572M
<i>Deakin course code</i>	D390
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Combining Deakin's Bachelor of Criminology/Bachelor of Psychological Science will make you rethink what we perceive as 'crime' and the social justice and rehabilitation that goes along with it. Offering you an accredited pathway in psychology, you'll graduate ready to enter the workforce or continue your study in the pursuit of becoming a fully qualified psychologist.

Are you prepared to question the link between crime and human behaviour?

If you are interested in the many areas where psychology and criminology overlap, this is the degree for you. Whether it's crime prevention or the subsequent justice and rehabilitation of offenders, the knowledge you will develop, paired with an understanding of the 'why' behind psychological science, will put you in high demand when starting your career.

By studying the two disciplines simultaneously, you will gain broad, theoretical, applied knowledge and skills concerning:

- the meaning of crime
- the forms, causes and consequences of crime
- the different institutions and processes involved in preventing and controlling crime
- policy development
- policing and security.

The psychological science component of this double degree recognises the importance of, and interrelationships between, a range of human factors you will encounter in your future career. You will explore diverse areas of psychology, including behavioural neuroscience, cognitive psychology, forensic psychology and psychopathology, and be able to use this knowledge when analysing the causes and consequences of crime.

In this double degree, you will have the opportunity to complete a criminology practicum in your final year of study. This unit brings your new profession to the classroom (including online) with practitioner-driven seminars, activities bridging theory and practice, and the development of an e-portfolio that can be used for employment or career development.

Additionally you will get the chance to build real-world experience by electing to undertake the Psychology at Work (Internship) unit in your final year of study, giving you 140 hours of practical psychology industry placement, strengthening your employment prospects.

## Professional recognition

All of the psychology courses offered at Deakin meet the requirements of the Psychology Board of Australia (PBA) and the Australian Psychological Society (APS), translating into excellent job and career opportunities for our graduates. Upon graduation of this degree, you'll have gained a three-year undergraduate psychology sequence that is accredited by the Australian Psychology Accreditation Council (APAC) and recognised for registration purposes by the PBA, enabling you to undertake additional study in pursuit of provisional registration.

## Career opportunities

Promising career opportunities await in the areas of criminology and psychology. You may find employment in areas such as:

- government agencies
- state and federal police
- security and intelligence agencies
- research and policy development
- correctional services
- community services
- private security and consultative industries.

Students wanting to take the next step towards becoming a psychologist must apply for an honours year (e.g. Deakin's Bachelor of Psychological Science (Honours) or Graduate Diploma of Psychology). Once completed, you will be able to register as a provisional psychologist with the PBA.

If you are ready to take your psychology career further, the option to become a fully registered psychologist is available by undertaking a master's or doctorate qualification in psychology.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

A329, H344.2

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Criminology (A329) or Bachelor of Psychological Science (H344)

## Course rules

To qualify for the award of Bachelor of Criminology/Bachelor of Psychological Science students must complete:

- 32 credit points. Course requirements for both the Bachelor of Psychological Science (H344) and Bachelor of Criminology (A329) must be satisfied.<sup>^</sup>
- 16 credit points of Arts course grouped units and 16 credit points of Health course grouped units

<sup>^</sup> No more than 10 credit points at level 1

### Psychological Science

- 3 core foundation Health units (HBS107, HPS104, HBS110)
- 11 credit points of Psychology core units (HPS111, HPS121, HPS201, HPS202, HPS203, HPS204, HPS206, HPS301, HPS307, HPS308, HPS310)
- 2 credit points of level 3 HPS electives or 1 level 3 HPS and 1 level 3 HXX units.

### Criminology

- 6 credit points of Criminology core units (ACR101, ACR102, ACR201, ACR202, ACR301 and ACR302)
- At least 6 credit points of Criminology electives (ACR coded units) taken at level 2 or above
- At least 4 credit points at level 3 including ACR301 and ACR302
- Up to 4 credit points of electives chosen from Arts course grouped units.
- AAI018 Academic Integrity (0 credit point compulsory unit)

Students are also encouraged to consider taking electives from the Professional Experience and Practice Minor sequence APE101, APE201, APE202 and APE301.

## Course structure

### Core units

*Note: Many of the HPS coded units are also offered in Trimester 3, offering students the opportunity to accelerate their studies.*

### Criminology core units

ACR101	Introducing Crime and Criminology #
ACR102	Introducing Crime and Criminal Justice #
ACR201	Issues in Criminal Justice
ACR202	Criminology Theory
ACR301	International and Comparative Criminal Justice
ACR302	Criminology Research

### Psychological Science core units

HBS107	Understanding Health
HBS110	Health Behaviour
HPS104	Foundations of Psychological Science
HPS111	Psychology A: Fundamentals of Human Behaviour
HPS121	Psychology B: Individual and Social Development
HPS201	Research Methods in Psychology A
HPS202	Child and Adolescent Development
HPS203	The Human Mind
HPS204	Human Social Behaviour
HPS206	Introduction to Forensic Psychology (this is a core only for the D390 course in the list)
HPS301	Research Methods in Psychology B
HPS307	Personality
HPS308	Psychopathology
HPS310	Brain, Biology and Behaviour

\* ACR210, ACR211 are offered in Trimesters 1 and 3 in alternating years; Trimester 1 2020, 2022, and Trimester 3 2019, 2021

\*\* ACR212, ACR213 are offered in Trimesters 1 and 3 in alternating years; Trimester 3 2020, 2022, and Trimester 1 2019, 2021

### **Criminology electives**

ACR203	Crime, Victims and Justice
ACR204	Crime, Media and Justice
ACR210	Crime, Surveillance and Society
ACR211	Crime Prevention and Security
ACR212	Crime, Surveillance and Technology
ACR213	Crime, Terrorism and Security
ACR303	Criminology Practicum 2 credit points

The remaining Arts course grouped electives can be found within the Bachelor of Arts.

### **Psychological Science electives**

2 credit points of level 3 HPS electives or 1 level 3 HPS and 1 level 3 HXX units.

### **Work experience**

Elective units may provide the opportunity for Work Integrated Learning experiences.

### **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### **Research and research-related study**

Independent research components are embedded across a number of units.

# Bachelor of Health Sciences/Bachelor of Arts

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Health Sciences/Bachelor of Arts
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	035503K
<i>Deakin course code</i>	D391 (version 2)

*Students commencing in 2017 onwards should go to the handbook entry appropriate for your year of commencement*

## Course overview

This flexible, well-rounded combined degree lets you choose your course structure so that you can find a special niche that reflects your individual passions and interests. Careers might include those in policy, health education or health/wellness media.

Choose from health majors such as environmental health, exercise science, food studies, psychology and sport coaching. Arts majors include politics and policy, public relations, journalism, gender studies and film and television.

With a wide range of study areas available, you can tailor your course to tap into your unique interests and career aspirations. You could combine politics and policy studies with nutrition for careers in health policy, combine sport coaching with media and communication and become a sports commentator, or match food studies with journalism to become a food blogger or restaurant reviewer.

Depending on the study areas you choose in the Health Sciences component, you may qualify to work in areas such as health promotion, community health, project management, program planning, family and community support, housing services, sports psychology, sports nutrition and sports development.

An Arts degree can open doors to careers in international relations, journalism, advertising, public relations, policy development, research, community services, sociology, community development, and visual arts.

Holding a degree in both disciplines means that you can pursue careers where the two overlap. These might include roles in sports and health media, food writing, community health education, public relations for health or food companies, health research or coordinating community arts projects.

## Work-Integrated Learning

You can enhance your employment prospects and consolidate your knowledge and skills through an industry placement unit. Depending on the major sequences you choose to study, this option may be available in the final year of your course.

## Alternative exits

- Bachelor of Health Sciences (H300)
- Bachelor of Arts (A300)

## Course rules

To complete the Bachelor of Health Sciences/Bachelor of Arts students must attain 32 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 32 credit points you will need to study 32 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester and usually undertake two trimesters each year.

You must fulfil the requirements of each of the two degrees in your course of study.

The course comprises a total of 32 credit points which must include:

- 16 credit points from the Bachelor of Health Sciences
- 16 credit points from the Bachelor of Arts
- HBS107 Understanding Health and HBS108 Health Information and Data
- 2 major sequences of study as described under course H300 Bachelor of Health Sciences.
- two major sequences (8 credit points each) or one major sequence (8 credit points) and one minor sequence (4 credit points) as described under course A300 Bachelor of Arts.

See course entry Bachelor of Arts (A300) or Bachelor of Health Sciences (H300).

# Bachelor of Health Sciences/Bachelor of Arts

<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	035503K
<i>Deakin course code</i>	D391 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Build a degree tailored to your interests with a Bachelor of Health Sciences/Bachelor of Arts. This flexible degree allows you to major in fields from both health sciences and arts, tapping into unique course combinations and career opportunities. You can choose your course structure to hone in on whichever niche reflects your individual passions.

Do you want the cross-disciplinary skills to design your own future?

Become a specialist in your chosen field with the combination of a health sciences and arts degree. Choose majors that interconnect and expand your career prospects. You will study equal parts health sciences and arts to ensure you graduate with a skill set in both disciplines.

You will build a solid foundation in health while developing your skills across a range of arts, communications, humanities and social science disciplines. Your options are endless when it comes to choosing your majors and minors. Create original course combinations by choosing majors including (but not limited to):

- advertising
- criminology
- disability and inclusion
- education
- family, society and health
- food studies
- health and sustainability
- health promotion
- international studies
- journalism
- language and culture studies
- media
- physical activity and health
- politics and policy studies
- sociology
- sport and society.

This combined degree provides you with double the opportunity to pursue work-integrated learning experiences and industry practicums, including the Health Science Practicum offered in third year, giving you the option to complete a 120-hour practice education placement.

You will gain invaluable experience by immersing yourself in your chosen field – help design public relations campaigns for major food companies or work in the community through health education programs.

You will also have the opportunity to experience different cultures by taking your studies abroad. You could find yourself visiting the International Institute of Health Sciences in Sri Lanka, or studying politics and policy in Norway. Gain a global perspective that will give you an international outlook and a competitive edge.

Studying a combined degree will advance your knowledge in the areas of health science and arts and provide you with the opportunity to develop a unique skill set that will set you apart from the rest. Take the opportunity to follow your passions and design your journey at Deakin.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Not applicable

## Career opportunities

Your career outcomes will depend on the majors you complete with this degree.

Studying health sciences could lead you into careers in areas such as:

- community health
- counselling
- disability and inclusion
- environmental health
- health education
- health promotion
- nutrition
- psychological science
- regional health service planning
- sports development.

An arts degree provides you with solid transferable skills that can be applied across industries and careers. Depending on your majors, you could find yourself in fields such as:

- advertising and marketing
- business
- education
- ethnic affairs
- government
- international relations
- media
- politics and policy
- public relations.

Your majors could also help you pursue careers where your degrees overlap. Careers such as health media, food writing and public relations for health and food organisations all require the skills acquired from both health science and arts degrees.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

This course provides a pathway to higher degree by research courses (if students undertake an additional Honours year) and other postgraduate coursework programs.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Health Sciences (H300) or Bachelor of Arts (A300)

## Course rules

To complete the Bachelor of Health Sciences/Bachelor of Arts students must attain 32 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 32 credit points you will need to study 32 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester and usually undertake two trimesters each year.

You must fulfil the requirements of each of the two degrees in your course of study.

The course comprises a total of 32 credit points which must include:

- 16 credit points from the Faculty of Health including 6 compulsory core units in the Bachelor of Health Sciences PLUS one major (6 credit points) and one minor (4 credit points)
- 16 credit points from the Faculty of Arts comprising two major sequences (8 credit points each) or one major sequence (8 credit points) and one minor sequence (4 credit points) as described under course A300 Bachelor of Arts.

See course entry for Bachelor of Health Sciences (H300) or Bachelor of Arts (A300)

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

The course structure includes 16 credit points from each of the two component courses. The 16 unit maximum size of the component degrees of combined courses does not permit students in D391 to complete two major sequences within the Health Sciences degree. For this reason, they are restricted to a major sequence and a minor sequence. The sixteen credit points within the Health Sciences component of the combined course are made up of:

- The six core units of the Bachelor of Health Sciences;
- A major sequence of six credit points (as listed above), consisting of the specified units at Levels 1, 2 and 3;
- A minor sequence of four credit points, consisting of at least one unit at Level 1 and no more than one unit at Level 3 (subject to pre-requisite requirements) from the set of approved major sequences.

Students cannot select a minor in Environmental Health, or Psychological Science, due to difficulties of sequencing and in maintaining curriculum logic.

## Work experience

### Work-Integrated Learning

A core unit at third-year level, based on inter-professional learning (IPL), provides students the opportunity to draw together their cross-disciplinary learning to demonstrate the knowledge and the skills they have acquired throughout the course and apply them to real-world issues. HSH324 Integrated Learning for Practice involves interdisciplinary teams working to develop responses to real-world problems for presentation to a professional audience.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Third party arrangements

#### Nature of third party arrangements

Deakin College offers a subset of 1st year subjects of the degree as part of the Diploma of Health Sciences. Students who complete the program with a WAM of at least 50, can gain entry into H300, with credit for core and other units already completed, enabling them to enter at 2nd yr level of the degree.

### Quality assurance arrangements

The units offered by Deakin College are those offered as part of the H300. Quality assurance is as for the rest of H300.

### Research and research-related study

The degree includes two core units that offer research-related study, HBS108 and HSH219. HBS108 'Health Information and Data' provides the basic skills necessary to be consumers and providers of health research information. The unit comprises nine topics, covering: measuring health and disease in populations, introduction to qualitative research, study design, obtaining online health information, evaluating popular health claims, introduction to quantitative research, evidence based practice including critical appraisal. HSH219 'Population Health: A Research Perspective' aims to introduce students to the principles and practices of research in public health and health promotion with a focus on current population health issues using qualitative, quantitative and mixed methods approaches. The unit covers topics such as the development and expression of research aims, questions and hypotheses; the application of appropriate research methods specific to research questions; and the different ways of collecting data in various research settings. In addition, the capstone unit in the final year, HSH324, may further provide some students with opportunities to conduct research activities dependent on the nature of projects offered by employers/organisations. Finally, a range of units across the majors incorporate smaller applied research tasks, such as health needs analyses of specific groups, service profiles, social issues research etc.

# Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurin Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	072594F
<i>Deakin course code</i>	D394
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course structure is for students commencing Trimester 1 2018 onwards. Students who commenced their course in 2017, please go to the 2017 course handbook entry.*

*Note for Geelong students: Exercise and Sport Science (H-coded) units are offered at Waurin Ponds (Geelong); Business (Sport Management) (M-coded) units are mostly offered via Cloud (online), and/or delivered at Waterfront (Geelong). Students may need to travel between Waterfront (Geelong) and Waurin Ponds (Geelong) to complete this course.*

## Course overview

Experience the synergy of sport science and the business of sporting organisations with Deakin's Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management). Gain the skills to improve the sporting performance and health of athletes and teams, as well as the expertise to become a professional leader in exercise and sport science in areas from strength and conditioning, to physiology.

Want to learn the science behind elite performance and influence the business of sport?

With this combined course, you will gain unique knowledge and skills in managing organisations that support sports and events within disciplines such as:

- athlete management
- equipment/merchandising
- finance
- marketing
- promotion
- sponsorship

At the same time, you will focus your expertise on sport science and elite performance. The nationally recognised Bachelor of Exercise and Sport Science is the field leader in Victoria and focuses on areas like:

- behavioural aspects of sport and exercise
- exercise physiology
- human growth and ageing
- improved performance
- motor learning and development.

Learning from teachers who are active in the industry means your classroom becomes a hub of the latest ideas, approaches and techniques. As well as classroom-based learning, you will undertake at least 220 hours of fieldwork experience in exercise and sport science settings through the Exercise Programming, and Exercise and Sports Practicum units, plus 100 or more hours with a host sporting organisation in the Sport Management Practicum unit.

This extensive practical experience gives you the expertise to pursue opportunities varying from traditional sport, exercise and coaching occupations to well-established sports administration, management, governance and development roles.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

### Exercise and Sports Science Australia (ESSA)

All graduates are eligible to apply for accreditation with Exercise and Sports Science Australia (ESSA) as an Accredited Exercise Scientist (AES). Please refer to ESSA webpage for more information.

Bachelor of Exercise and Sport Science students who have been awarded Recognition for Prior Learning for study below Australian Qualifications Framework (AQF) level-7 (e.g. non-university study undertaken via TAFE, Deakin College or within overseas qualifications that are not equivalent to an Australian Bachelor degree (i.e. AQF-7) may not be eligible for immediate accreditation with ESSA. This does not mean that ESSA accreditation is not available to you. What it means is that to apply to become an AES you will need to do so through the non-ESSA Accredited Course application pathway.

For D394 graduates who have NOT received any Recognition for Prior Learning from study undertaken below AQF-7 (e.g. non-university study undertaken via TAFE, Deakin College or within overseas qualifications that are not equivalent to an Australian Bachelor degree (i.e. AQF-7), please refer to the ESSA Accredited Course information application process.

## Career opportunities

With this combined degree, you will be equipped to provide professional leadership in the field and contribute to the development of the Australian sporting industry. Career opportunities may include:

- business development manager
- exercise scientist
- player manager/agent
- recreation officer
- sports administrator
- elite coach
- strength and conditioning coach
- sports development officer
- sports event manager.

Students wanting to pursue further study in exercise and sport science may consider applying for Deakin's:

- Bachelor of Exercise and Sport Science (Honours)
- Master of Clinical Exercise Physiology
- Master of Applied Sport Science.

## Participation requirements

The course contains two compulsory placements comprising a minimum of 240 hours. One placement from the Bachelor of Exercise and Sport Science (minimum 140 hours) and one from the Bachelor of Business (Sport Management) (minimum 100 hours).

Elective units may be selected that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Upon achievement of the prerequisite requirements, placement can occur at any time, including during standard holiday breaks. See Deakin's website for further details.

Reasonable adjustments to participation and other course requirements will be made for students with a disability.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

This course can be a pathway to:

- H442 Bachelor of Exercise and Sport Science (Honours)
- H707 Master of Applied Sport Science

## Work-Integrated Learning

This combined course features extensive practical experience in exercise and sport science so you can start your career before you graduate with hands-on work placement experience.

You have the opportunity to undertake hands-on experience in a variety of sporting, exercise or health environments. These may vary from local, state or national sporting organisations and professional sporting clubs; state and national institutes of sport; as well as health, fitness and rehabilitation providers. The roles can involve coaching, sport science, sports administration, sport management, rehabilitation and fitness. Many graduates have been offered work based on their excellent fieldwork performance.

^ Indicates compulsory practicum core unit students need to complete in this course – refer course structure.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

See course entry for Bachelor of Exercise and Sport Science (H343) or Bachelor of Business (Sport Management) (M391).

## Course rules

To complete the Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management) students must attain 32 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 32 credit points you will need to study 32 units (AKA 'subjects'). Most students choose to study 4 units per trimester and usually undertaken two trimesters each year.

The course comprises a total of 32 credit points which must include 16 core units in the Bachelor of Exercise and Sport Science, 15 core units and 1 elective unit in the Bachelor of Business (Sport Management).

*Note for Geelong students:*

- *Exercise and Sport Science (H-coded) units are offered at Waurn Ponds (Geelong)*
- *Business (Sport Management) (M-coded) units are mostly offered via Cloud (online), and/or delivered at Waterfront (Geelong)*

*You may need to travel between Waterfront (Geelong) and Waurn Ponds (Geelong) to complete this course.*

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

Please refer to the School of Exercise and Nutrition Sciences page for course map information.

### Year 1

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
HSE010	Exercise and Sport Laboratory Safety (0 credit points)
HSE113	Human Growth, Development and Ageing for Exercise Scientists
HBS109	Human Structure and Function
MAA103	Accounting for Decision Making
MMS100	Sport Organisation

#### Trimester 2

HSE102	Functional Human Anatomy
HSE104	Research Methods and Statistics in Exercise and Sport
MAE101	Economic Principles
MMM132	Management

### Year 2

#### Trimester 1

HSE201	Exercise Physiology
HSE111	Physical Activity and Exercise for Health
MWL101	Professional Insight
MLC101	Law for Commerce

#### Trimester 2

HSE103	Essentials of Exercise Delivery
HSE204	Motor Learning and Development
MAF101	Fundamentals of Finance
MMS201	Sport in Society

## Year 3

### Trimester 1

- HSE212 Physical Activity Promotion and Evaluation
- HSE302 Exercise Programming
- MMK101 Marketing Fundamentals
- MIS171 Business Analytics

### Trimester 2

- HSE202 Biomechanics
- HSE208 Integrated Human Physiology
- MMS313 Sport Leadership and Governance

One Business and Law elective unit (level 2 or level 3)

## Year 4

### Trimester 1

- HSE312 Exercise and Sports Science Practicum
- HSE323 Clinical and Sport Biomechanics
- MLC310 Sport and the Law
- MMS307 Sport Facility and Event Management

### Trimester 2

- HSE309 Behavioural Aspects of Sport and Exercise
- HSE330 Nutrition for Exercise Scientists
- MMS306 Sport Management Practicum
- MMS308 Sport Marketing

## Work experience

### Exercise and Sport Science

The Exercise and Sport Science Practicum gives you the opportunity to undertake a formalised fieldwork experience of a minimum of 140 hours in an exercise and sport organisational setting. You will be responsible for selecting and negotiating an appropriate work experience. Field experiences are intended to provide you with opportunities to develop skills and knowledge in areas of exercise and sport science which will enhance your professional development and vocation potential.

### Sport Management

The Sport Management Practicum will be a placement organised by you with a host sporting organisation, association or facility for a period of 100 hours.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

Students have the opportunity to undertake an elective unit in the Business (Sport Management) component, while opportunities for Study Abroad exist across the entire course.

### Research and research-related study

Components of research and research-related study may be embedded across a number of units where student achievement is demonstrated in specific assessment tasks.

# Bachelor of Property and Real Estate/Bachelor of Laws

Award granted	Bachelor of Laws/Bachelor of Property and Real Estate
Deakin course code	D396 (version 2)

*Offered to continuing students only. Students who commenced this course prior to 2019, please refer to the 2018 handbook. Continuing students should discuss unit selections with their enrolment officer.*

*Please note: The eligibility of students for membership of the accrediting body is subject to meeting the requirements of that body and that Deakin makes no representations that individuals will meet those requirements.*

## Mandatory student checks

Any unit which contains work-integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer to the relevant unit guide.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Property and Real Estate/Bachelor of Laws

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Property and Real Estate/Bachelor of Laws
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	5 years full-time or part-time equivalent
<i>Deakin course code</i>	D396 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

The Bachelor of Property and Real Estate/Bachelor of Laws will provide you with a thorough understanding of both law and property and real estate disciplines, building on the strong synergy between the two.

The Bachelor of Laws component of the course provides first-rate legal education, emphasises a case study approach and has a strong practical legal skills component. Property and real estate is an established discipline in Australia with global recognition.

Deakin's Bachelor of Laws provides the robust training and recognised qualifications you need to start your career as a first-class legal practitioner. All major areas of law are covered, such as contract, torts, property, legal practice and ethics, constitutional law, criminal law and procedure, and administrative law.

The property and real estate component of the course is designed to produce highly skilled property professionals who are able to enter the workforce with a qualification fully recognised by employers, government and professional organisations.

Combining the two courses into a five-year program of study will facilitate practical experience and project work that relates theory with practice, providing a broad business educational experience.

## Indicative student workload

As a student in the Faculty of Business and Law, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. The minimum expected workload for a Law unit will normally be around 150 hours, which includes attendance at class, reading, completion of any assessment, and preparation for the exam.

## Professional recognition

Deakin's Bachelor of Laws is designed to satisfy the university component of the requirements to become an Australian Lawyer set by the Victorian Legal Admissions Board (VLAB). In addition to completing an approved LLB degree, a person seeking entry is required to work for one year as a legal trainee, or to undertake a practical legal training (PLT) course.

The Bachelor of Property and Real Estate is designed to meet professional accreditation requirements set by the Australian Property Institute ([www.api.org.au](http://www.api.org.au)) and the Royal Institution of Chartered Surveyors ([www.rics.org/oceania](http://www.rics.org/oceania)). Graduates will meet the academic requirements to be eligible for registration as a Certified Practising Valuer (subject to final approval by the accrediting bodies).

## Career opportunities

The BPRE/BLaws prepares you for a career in the business world and in the global property and real estate industries. As a graduate of this course you will have an understanding of the legalities, principles and processes required to fill a professional role in these fields and an appreciation of a professional ethic that emphasises responsibility and responsiveness to community needs.

This course offers a large number of international career opportunities with very good levels of remuneration and associated employer demand. As an alternative to practising as a barrister or solicitor, you may also pursue a career in a wide range of legal firms, organisations, government services, industrial relations, research, public administration, diplomatic service, legal aid, the media or law reform.

Graduates can also find employment in a wide range of property-related positions in both private and government sectors including as a property developer, valuer, investor, asset manager, property market analyst, property manager, leasing agent, funds manager and government adviser. The course also presents graduates with opportunities to work in property departments in legal firms, which is a rapidly growing area. Conversely, many property firms and government bodies have both legal and property departments due to the close links between the two disciplines.

## Participation requirements

Units in this course may have participation requirements that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

## Mandatory student checks

Units which contain work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. These requirements will be detailed in unit guides upon enrolment.

## Alternative exits

M348, M312, M201.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Please refer to the Course learning outcomes of each of the single degrees.

## Course rules

To complete the Bachelor of Property and Real Estate/Bachelor of Laws students must attain a total of 40 credit points, consisting of 16 credit points from the Bachelor of Property and Real Estate and 24 credit points from the Bachelor of Laws. Most units (think of units as 'subjects') are equal to 1 credit point. Most students choose to study 4 units per trimester, and usually undertake 2 trimesters each year.

The 16 credit points from the Bachelor of Property and Real Estate (M348) must include:

- 12 credit points of Property and Real Estate core units; and
- 3 credit points of core Business units (excludes MLC101); and
- a 1 credit point Business and Law elective unit (any level); and
- Level 3 – at least 3 credit points (which must be course grouped to a Faculty of Business and Law undergraduate degree)

The 24 credit points from the Bachelor of Laws (M312) include:

- 18 credit points of Bachelor of Laws core units
- Completion of MAI010 Academic Integrity (0-credit-point compulsory unit)
- 6 credit points of Law elective units, including 1 credit point of an experiential unit from the WIL/Practical Elective units list.

## Course structure

### Bachelor of Laws core units

MAI010	Academic Integrity (0 credit points)
MLL110	Legal Research and Statutory Interpretation
MLL111	Contract
MLL113	Legal Communication and Ethical Decision Making

*The final intake to this course version was in 2014. Students should contact a student advisor for course and enrolment information. Further course structure information can be found in the Handbook archive.*

## Course overview

The Master of Information Technology/Master of Information Systems is a combined degree which provides a balance of theoretical and practical skills in both modern information technology and recent development of information systems and eCommerce. This course covers the technical and theoretical essentials of these two areas, giving you the opportunity to apply this knowledge in practice, helping you to become qualified professional in both information technology and information systems.

Units in the course may include assessment hurdle requirements.

## Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [deakin.edu.au/information-technology](http://deakin.edu.au/information-technology), or by telephone 03 9244 6699.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

The course comprises a total of 16 credit points, which must include the following:

- 8 credit points of core units;
- 3 credit points of elective units of Information Systems;
- one 4-credit point specialism from the Master of Information Technology;
- 1 credit point of elective Information Technology units.

## Specialisations

### Information Technology specialisms

Refer to the details of each specialisation for availability.

- Network Computing
- Software Development
- IT Security
- IT Services

## Information Technology specialism

### **Network Computing specialism – unit set code SP-S000021**

*Burwood (Melbourne)*

Plan, install and manage both local area networks and wide area networks with a strong focus on network design, routing protocols and switching concepts. The specialism incorporates the CISCO CCNA curriculum which prepares students for the CCNA industry certification. There is a strong focus on application development for networked systems and supporting user mobility from both application and network perspectives.

SIT701	Enterprise Network Construction
SIT702	Enterprise Network Management
SIT706	Cloud Computing Technologies
SIT735	Communications Network Security

### **Software Development specialism – unit set code SP-S000023**

*Burwood (Melbourne), Cloud (online)*

Gain theoretical and practical skills in current trends in the analysis, design and implementation of complex and large-scale software systems. Designed with input from industry leaders, there is a strong focus on the development of high quality software using methodologies, tools, techniques and management principles relevant to industry. There is emphasis on the development of web-based and distributed applications and the use and development of open source software.

SIT725	Software Engineering
SIT707	Software Quality and Testing
SIT780	Enterprise Applications Development
SIT708	Mobile Systems Development

### **IT Security specialism – unit set code SP-S000028**

*Burwood (Melbourne), Cloud (online)*

Develop skills in securing data, communications and infrastructure as well as investigating, analysing and providing solutions to computer crime. Students gain an understanding of problem solving, communication and technical capabilities related to information technology Security and the legal, regulatory and ethical contexts in which these skills are used. The security units provide a solid foundation in areas including information security, internet and network security, access controls and firewalls. These units prepare students towards certification as a Certified Information Systems Security Professional on completion of the CISSP exam administered by The International Information Systems Security Certification Consortium (ISC)2.

SIT703	Advanced Digital Forensics
SIT704	Advanced Topics in Digital Security
SIT735	Communications Network Security
SIT763	Cyber Security Management

### **IT Services specialism – unit set code SP-S000048**

*Burwood (Melbourne), Cloud (online)*

Designed in partnership with IBM, to develop specialised information technology skills by providing up-to-date knowledge of recent developments in computing technology and practical IT consulting skills. Learn about cutting-edge work in computer science, operation research, business strategy, management sciences, social and cognitive sciences and the legal sciences to develop the skills needed in a services-led economy.

SIT737	Service Oriented Architectures and Technologies
SIT775	IT Services in Organisations
SIT794	Services Management
SIT717	Enterprise Business Intelligence

# Associate Degree of Education

Year	2019 course information
Award granted	Associate Degree of Education
Duration	2 years full-time or part-time equivalent
Deakin course code	E200 (version 1)

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Create a pathway into your dream Deakin course by studying the Associate Degree of Education.

This course develops your learning skills to be successful at university, such as communication skills, digital literacy, critical thinking, and teamwork skills. You will also begin your studies in Primary Teaching.

Best of all, if you have completed Deakin's Associate Degree of Education and meet the entry requirements for the Bachelor of Education (Primary), you'll be eligible for credit – saving you time and money.

You may also take the Associate Degree of Education a stand-alone qualification, increasing your employment opportunities.

## Articulation

This course is designed to support your pathway to the Bachelor of Education (Primary). On successful completion of the Associate Degree of Education, you may articulate into the Bachelor of Education (Primary) and be eligible for guaranteed entry, subject to meeting the entry requirements of that course\*.

You may receive up to 12 credit points of Recognition of Prior Learning for units undertaken in E200 Associate Degree of Education.

\* All Applicants into E359 Bachelor of Education (Primary) must complete an additional selection tool for non-academic attributes. Deakin University is using the CASPer assessment tool. CASPer is an online, video-scenario based situational judgement test, designed to measure non-academic suitability for teaching.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the Associate Degree of Education, students will be required to complete 16 credit points of study comprising:

- 4 credit points of foundation units
- 12 credit points of core units

## Course structure

### Year 1

#### Foundation units

- EAD110 Communication Skills for Study and Work
- EAD111 Digital literacy: Finding, Evaluating and Interpreting Information
- EAD112 Critical Thinking and Problem solving: Using Analysis to Develop Solutions
- EAD113 Teamwork: Working Constructively with Others

#### Core units

- AIA105 Visions of Australia: Time and Space From 1700 to 2010
- ALL153 Literature for Children and Young Adults
- SIT106 Fundamental Concepts of Mathematics
- SLE103 Ecology and the Environment

### Year 2

- AIA106 Sex, Race and Australia's People (No longer available for enrolment)
- ALL154 Power Politics and Texts for Young People
- ECA209 Arts Education in Primary Schools (No longer available for enrolment, students to select ECA100)
- ECL210 Multiliterate Learners in Early Years Environments
- EEH216 Primary Physical Education (No longer available for enrolment, students to select EEH116)
- ESM210 Children and Mathematics: Developing Mathematical Concepts (No longer available for enrolment)
- ETP101 Perspectives On Learning and Teachers' Work
- ETP102 Social Contexts of Education

## Course overview

Begin your journey to becoming a teacher by studying an Associate Degree of Education at Deakin. You'll complete core units from the Bachelor of Education (Primary), and develop the foundation skills required to succeed at university.

Do you want to begin studying at university, but not sure where to start?

Whether you're looking to forge a path in education, have never studied at university – or you're not sure if you meet the entry requirements, this degree is designed to introduce you to what it's like to study at Deakin and to set you on the pathway to becoming a teacher. You'll learn the essential skills needed to succeed at university, including effective communication, digital literacy and critical thinking. Once you've got the foundation skills, you'll start studying core units that will kickstart your learning in education. You'll cover units including:

- Australian history
- ecology
- humanities
- maths
- physical education
- science.

You'll experience smaller class sizes, giving you better access to teachers in your first year. Immerse yourself in the campus environment and our world-class teaching facilities while benefiting from a supported entry into tertiary study.

Best of all, once you've successfully completed your degree, you'll be on track to meet the requirements needed to transfer into a Bachelor of Education (Primary). And because you've already completed core education units as part of your associate degree, you'll be able to graduate sooner – saving you time and money.

Before heading into a Bachelor of Education (Primary), prospective education students are required to successfully complete the CASPer test – an online, video scenario-based test that lets you demonstrate your suitability for a teaching career.

## Career opportunities

Graduates of the Associate Degree of Education have guaranteed entry into our Bachelor of Education (Primary), provided they pass the CASPer test.

An associate degree equips you with the skills to succeed at both university and in your future career. Graduates find employment opportunities in a range of fields, including:

- Government departments
- Education
- Health sector
- Media
- Public service
- Private academies/agencies.

## Pathways

This course is designed to support your pathway to the Bachelor of Education (Primary).

On successful completion of the Associate Degree of Education, you may articulate into the Bachelor of Education (Primary) and be eligible for guaranteed entry, subject to meeting the entry requirements of that course\*.

You may receive up to 12 credit points of Recognition of Prior Learning for units undertaken in E200 Associate Degree of Education.

\* All Applicants into E359 Bachelor of Education (Primary) must complete an additional selection tool for non-academic attributes. Deakin University is using the CASPer assessment tool. CASPer is an online, video-scenario based situational judgement test, designed to measure non-academic suitability for teaching.

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Early Childhood Studies

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Education (Early Years)
<i>Deakin course code</i>	E320
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*The course is an Exit Only award from the E330 Bachelor of Early Childhood Education.*

*The course is not accredited as an initial teaching qualification and does not give students VIT (Victorian Institute of Teaching) accreditation.*

## Course overview

Students completing the course have a broad and coherent understanding of child development, curriculum theories and pedagogies in designing and implementing child-centred, play-based and developmentally appropriate programs in childcare, preschool and school contexts.

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire broad and coherent body of knowledge of education principles and practice, and in depth theoretical and technical knowledge of early childhood education.</p> <p>Use knowledge and understanding of child development in Australian society in a range of professional contexts.</p> <p>Understand curriculum theories and pedagogies in the design and implementation of child-centred, play-based and developmentally appropriate programs, in a range of early childhood and school contexts.</p>
Communication	<p>Have well-developed cognitive, technical and communication skills, and be able to select and apply these skills and technologies to transmit knowledge, skills and ideas in academic and professional early childhood and school contexts.</p> <p>Communicate effectively with colleagues and others acknowledging the need to support and respect differences in child rearing and family cultural expectations.</p>
Digital literacy	<p>Employ a range of technologies to collect, analyse, synthesise and evaluate and disseminate information in a rapidly changing global environment.</p>
Critical thinking	<p>Identify contemporary issues in early childhood education and the changing work context and be able to respond positively to these issues.</p> <p>Use cognitive and technical skills to critically review, analyse, consolidate and synthesise and communicate knowledge for a range of audiences.</p>

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Use critical reflection and analytical skills to determine solutions to unpredictable and sometimes complex problems and adapt these solutions to diverse contexts and learners.  Analyse and evaluate information in relation to content knowledge, and applied practice and generate and transmit solutions to unpredictable and sometimes complex problems.
Self-management	Apply knowledge and skills with autonomy, well-developed judgement and responsibility requiring self-directed work and learning.  Demonstrate abilities and dispositions underpinning lifelong learning and personal attributes that enable a positive contribution to society including critical thinking, creative and problem solving skills.
Teamwork	Take responsibility for personal learning and accountability in professional practice in collaboration with others.  Justify and understand leadership and advocacy for collaborative work-based practices in early childhood contexts and schools.
Global citizenship	Demonstrate understandings of the diversity of Australian society and the influences on development of culture, family contexts, gender and disability and the influences of these on the education and care of children.  Adapt knowledge and skills to culturally and socially diverse contexts and communities.

Approved by Faculty Board May 2014

## Course rules

To qualify for the award of Bachelor of Early Childhood Studies, students must complete 24 credit points comprising:

- 6 units of Curriculum Studies, Child Protection, and a Child Development Studies
- 16 credit points at level 2
- 6 credit points at level 3
- AAI018 Academic Integrity (0-credit-point compulsory unit)

This course may include supervised professional experience.

## Course structure

### Units

#### Level 1

ECE110	Child Development 1
ECE111	Curriculum 1: Pedagogies and Play
ECE112	Curriculum 2: Planning and Assessment for Teaching and Learning
ECP128	Professional Knowledge (0-2 Years)
ECE130	Partnerships with Families and Communities
ECE116	Promoting Health, Wellbeing and Nutrition
ECE113	Young Children's Mathematical Development [No longer available for enrolment]
ECE115	Foundations of Early Childhood Education: Past and Present [No longer available for enrolment]
ECP127	Professional Experience 1 (0-2 Years) [No longer available for enrolment]

**Level 2**

ECE212	Curriculum 3: Planning and Assessment for Teaching and Learning
ECE220	Science 1: Science and Environmental Awareness for Young Children
ECE230	Language and Literacy Development in Early Childhood
ECE241	Creative Arts 2: Music and Visual Arts
ECP228	Professional Practice 2 (3–5 years)
IND201	Aboriginal Knowledges and Experiences: Historical Journeys–Contemporary Perspectives
ECE210	Child Development 2 (Final year of offer 2017, students to enrol in ECE312)

**Level 3**

ECE360	Protective Education and Child Well-Being
ECE370	Guiding Engaged, Resilient Learners
EEO320	Humanities Education Across the Primary Levels
ECE320	Science 2: Science and Design Technology
ECE330	Multiliterate Learners in Early Years and School Environments
ECP327	Professional Engagement 1 (Primary School 1)
ECE312	Lifespan Development
ECE350	Transition Case Study (2 credit points) (Final year of offer 2017, students to enrol in ECE420 and ECE404)
ECE390	Management and Leadership (Final year of offer 2017, students to enrol in ECE491. The 35-hour professional placement linked to ECE390 to be undertaken in ECE430)

**Level 4**

ECE491	Perspectives of Management and Leadership
ECE404	Inclusive Education for Young Children (commences 2018)
ECP410	Professional Teaching Practice and Child Study (0-3 Years)
ECE420	Supporting Children Making Transitions
ECE430	Teacher as Researcher
ECE455	Effective Primary Mathematics Learning
ECP427	Professional Engagement 2 (Primary School 2)
ECE475	Effective Partnerships for Learning (Final year of offer 2017, students to enrol in ECE130)
ESE499	Independent Project (Final year of offer 2017, students to enrol in ECE430 – Cloud (online) only unit)

**Professional experience placement**

Students may be required to apply for a Working with Children Check. Apply online as a volunteer at <https://online.justice.vic.gov.au/wwccu/onlineapplication.doj>

For further information contact the School of Education, Professional Experience office.

**Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

**Other learning experiences**

There will be opportunities throughout the course for students to engage with educational or industry professionals. These experiences will be integrated into units where students will have early childhood directors, principals, inclusive education providers and Department of Human Services workers provide content to more closely connect the learning experience with industry practices.

# Bachelor of Early Childhood Education

Year	2019 course information
Award granted	Bachelor of Early Childhood Education
Duration	4 years full-time, 3 year fast-track or part-time equivalent
CRICOS course code	078148B
Deakin course code	E330 (version 2)

*Note: Pipelining students will be able to complete their studies in a DLC site dependant on enrolments.*

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

The course teaches students to apply an understanding of child development, curriculum theories and pedagogies in designing and implementing child-centred, play-based and developmentally appropriate programs in childcare, preschool and school contexts. Students also learn to identify and respond positively to contemporary issues and the changing work context within early childhood and primary education.

The course meets new national and international standards in early childhood education, and includes a primary teaching component, allowing students to teach children from early childhood across the whole range of primary schooling.

## Professional recognition

This program has been approved by the Australian Children's Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia.

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire broad and coherent body of knowledge of education principles and practice and in depth theoretical, technical and applied knowledge of early childhood education.</p> <p>Use knowledge and understanding of child development in Australian society to work effectively with children aged from birth to eight years, in a range of early childhood and primary school educational settings.</p> <p>Apply curriculum theories, pedagogies in the design and implementation of child-centred, play-based and developmentally appropriate programs, in a range of early childhood and school educational contexts.</p>

Deakin graduate learning outcomes	Course learning outcomes
Communication	<p>Have well-developed cognitive, technical and communication skills, and be able to select and apply these skills and technologies to transmit knowledge, skills and ideas to others in early childhood education and the care of children.</p> <p>Communicate effectively with a diverse range of families and communities acknowledging the need to support and respect differences in child rearing and family cultural expectations.</p>
Digital literacy	<p>Employ a range of technologies to collect, analyse, synthesise and evaluate and disseminate information for the purposes of teaching and learning in a rapidly-changing global environment.</p>
Critical thinking	<p>Identify contemporary issues in early childhood education and the changing work context and be able respond positively to these issues.</p> <p>Use cognitive and technical skills to critically review, analyse, consolidate and synthesise knowledge as demonstrated in a range of class activities, including responding to set questions.</p>
Problem solving	<p>Use critical and analytical skills to determine solutions to unpredictable and sometimes complex problems in teaching and learning and to adapt these solutions to diverse contexts and learners.</p> <p>Analyse and evaluate information in relation to content knowledge, and applied practice and generate and transmit solutions to unpredictable and sometimes complex problems.</p>

# Bachelor of Education (Early Years)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Education (Early Years)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Burwood (Melbourne), Cloud (Online) with compulsory online learning and face to face cloud conferences (2 per trimester)
<i>Duration</i>	4 years full-time, 3 year fast-track or part-time equivalent
<i>CRICOS course code</i>	093571F
<i>Deakin course code</i>	E330 (version 3)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Deakin's Bachelor of Education (Early Years) allows you to teach young children in early childhood and primary school settings. With professional experience opportunities and the option to choose from a range of curriculum areas, you'll graduate with a qualification that's in high demand, meeting the significant growth of the Australian early childhood education sector.

Are you interested in an exciting and rewarding career teaching children?

Deakin's dual accredited early years degree opens up a range of career opportunities, spanning the early childhood and primary education sectors. Studies focus on contemporary issues in children's learning and development, curriculum theories and pedagogies, discipline knowledge and the changing work context within early childhood and primary education.

Early years teaching specialisations include:

- Aboriginal knowledge and experiences
- arts education
- promoting equity, social justice and inclusivity.

Primary teaching specialisations include:

- language and literacy
- science.

The Professional Experience Program is a key part of every Deakin teaching student's course experience. Working with more than 1400 schools across Australia, we'll arrange at least 80 days of placements for you in schools where you'll learn from experienced teachers.

Students also have access to specialised teaching spaces on campus to prepare for teaching.

Give your studies a different perspective and take part in our Global Education Program. Learn about Aboriginal culture while teaching in remote communities in the Northern Territory, or head to countries including Chile, Nepal or Vanuatu and learn about intercultural education.

Deakin maintains close links with the education sector to ensure our courses are developed and reviewed with industry and professional input. You'll be taught by staff members who have industry experience and who are recognised as leaders and innovators in their fields. This means you can be confident that what you learn at Deakin will be relevant to your future teaching career.

Choose to study at our award-winning Cloud Campus and have the additional flexibility to balance work, life and study. Studying online is collaborative and engaging, while still allowing you to complete your studies when and where it suits you.

Before beginning your degree, prospective teaching students need to successfully complete the CASPer test – an online, video scenario-based test that lets you demonstrate your suitability for a teaching career.

Start your journey to becoming an early years teacher with a Deakin degree and learn how you can change the lives of others.

## Professional recognition

This course is approved by the Australian Children’s Education and Care Quality Authority (ACEQA) as an early childhood teaching qualification in Australia.

It is also accredited by the Victorian Institute of Teaching (VIT) for the purposes of teacher registration in Victoria. Students are eligible to apply for registration with VIT upon successful completion of this degree.

## Career opportunities

There’s an increasing demand for qualified early childhood teachers, with a 22% projected employment growth expected in the sector, to 2023.

Graduates are qualified to work in early childhood settings as early childhood teachers, educational leaders, coordinators or advisers. They are also qualified to work as a primary teacher working across all year levels from foundation through to grade 6.

Early years graduates may also find careers within:

- community services
- early childhood facilities
- education organisations
- government agencies
- not-for-profit organisations.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin’s website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire broad and coherent body of knowledge of education principles and practice, and in depth theoretical and applied knowledge of early childhood that incorporates early childhood and primary education.
Communication	Use and engage effectively interpersonal communication skills (oral, written, digital and nonverbal) to convey knowledge and ideas with diverse individuals and groups (such as children, families, parents and caregivers, colleagues and other professionals, community organisations) to enhance children's learning and wellbeing.
Digital literacy	Employ a range of technologies to collect, analyse, synthesise and evaluate and disseminate information for the purposes of teaching and learning in a rapidly changing global environment.
Critical thinking	Critically engage with and analyse contemporary issues and research in early years education and changing societal contexts at local, national and global scales, and be able to make informed judgements relating to teaching and learning.
Problem solving	Use critical reflection and analytical skills to determine creative, innovative and authentic solutions to real-life and complex problems encountered in teaching and learning and adapt these solutions to diverse contexts, communities and learners.
Self-management	Work autonomously and responsibly in early childhood and primary school contexts, drawing on knowledge and skills of teaching and learning and demonstrate abilities and dispositions underpinning lifelong learning and personal attributes that enable a positive contribution to society including critical thinking, creative and problem solving skills.
Teamwork	Work, advocate, and learn collaboratively with colleagues, other professionals, families and members of the wider community who share responsibility for the learning and wellbeing of young children.
Global citizenship	Demonstrate understandings of the diversity of Australian society and the influences on development of culture, family contexts, gender and disability and the influences of these on the education and care of children.  Adapt knowledge and skills to culturally and socially diverse contexts and communities.

Approved by Faculty Board June 2014

## Course rules

To qualify for the award of Bachelor of Education (Early Years), students must complete 32 credit points comprising:

- 29 credit points of core units;
- 1 credit point of Early Years Teaching Specialisation in one of either: i) Promoting Equity, Social Justice and Inclusivity; ii) Arts Education; or iii) Aboriginal Knowledge and Experiences
- 2 credit points of Primary Teaching Specialisation in either: i) Science; or ii) Language and Literacy
- AAI018 Academic Integrity (0-credit-point compulsory unit)

This course includes 115 days of supervised professional experience.

Students are also required to complete below two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate from their course.

## Course structure

### Year 1

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)
ECE110	Child Development 1
ECE111	Curriculum 1: Pedagogies and Play
ECE112	Curriculum 2: Planning and Assessment for Teaching and Learning
ECP128	Professional Knowledge (0-2 Years)
ECE130	Partnerships with Families and Communities
ECE120	Contemporary Perspectives of Education
ECE116	Promoting Health, Wellbeing and Nutrition
ECE140	Creative Arts 1: Young Children and the Arts

### Year 2

ECE212	Curriculum 3: Planning and Assessment for Teaching and Learning
ECP227	Professional Practice 1 (3–5 years)
ECE220	Science 1: Science and Environmental Awareness for Young Children
ECE230	Language and Literacy Development in Early Childhood
ECE211	Mathematical Learning in the Early Years
ECE241	Creative Arts 2: Music and Visual Arts
ECP228	Professional Practice 2 (3–5 years)

1 credit point from early years teaching specialisation

### Year 3

ECE312	Lifespan Development
ECE360	Protective Education and Child Well-Being
ECE370	Guiding Engaged, Resilient Learners
ECE491	Perspectives of Management and Leadership
ECE404	Inclusive Education for Young Children
ECP410	Professional Teaching Practice and Child Study (0-3 Years)
ECE420	Supporting Children Making Transitions
ECE430	Teacher as Researcher

### Year 4

ECE320	Science 2: Science and Design Technology
ECE330	Multiliterate Learners in Early Years and School Environments
ECE455	Effective Primary Mathematics Learning
ECP327	Professional Engagement 1 (Primary School 1)
ECP427	Professional Engagement 2 (Primary School 2)
EEO320	Humanities Education Across the Primary Levels

2 credit points from primary teaching specialisation

## Early Years teaching specialisations

Select one of the following three specialisations:

### ***Promoting Equity, Social Justice and Inclusivity***

EAA301 Personalising Learning: a Transdisciplinary Approach

### ***Arts Education***

ECE340 Creative Learning Through the Arts

### ***Aboriginal Knowledge and Experiences***

IND201 Aboriginal Knowledges and Experiences: Historical Journeys-Contemporary Perspectives

## Primary teaching specialisations

Select one of the following two specialisations:

### ***Science***

SLE209 History and Philosophy of Science

ECE345 Integrated Science and Technology Education

### ***Language and Literacy***

ALL153 Literature for Children and Young Adults

ECL351 Diversity, Language and Literacy

## Professional experience placement

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>.

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

There will be opportunities throughout the course for students to engage with educational or industry professionals. These experiences will be integrated into units where students will have early childhood directors, principals, inclusive education providers and Department of Human Services workers provide content to more closely connect the learning experience with industry practices.

# Bachelor of Early Childhood Education (International)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Early Childhood Education (International)
<i>Campus</i>	Off shore – Singapore (SEED Institute), Burwood (Melbourne)
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	
<i>Deakin course code</i>	E331
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*Note: This course does not give students VIT (Victorian Institute of Teaching) accreditation.*

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

The course teaches students to apply an understanding of child development, curriculum theories and pedagogies in designing and implementing child-centred, play-based and developmentally appropriate programs in childcare, preschool and school contexts. Students also learn to identify and respond positively to contemporary issues and the changing work context within early childhood and primary education.

## Professional recognition

Australian Children’s Education and Care Quality Authority (ACECQA) (subject to approval)

International students or permanent residents should note the essential difference is the BECE E330 offered in Australia is accredited through the ACECQA and the Victorian Institute of Teaching for registration to teach in early childhood and primary educational settings. Any students undertaking the BECE international E330A program would need to complete the required units in Australian educational settings to gain registration with the Victorian Institute of Teaching. Students would also need to demonstrate standards of competence in both written and oral communication in the English language according to VIT’s Qualification for Teachers Registration policy which is available at: Further information

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

The course comprises 32 credit points of core units over the equivalent of four years of full-time study.

Students who have completed the Diploma of Early Childhood Care and Education – Teaching (DECCE-T) (or equivalent) will receive credit for the eight units which make up the first year of the course. These students will begin their study at Year 2 (see below)

Students who have completed both the Diploma of Early Childhood Care and Education – Teaching (DECCE-T) (or equivalent) and the Diploma in Early Childhood Care and Education – Leadership (DECCE-L) (or equivalent) may be eligible to apply for 4 additional credit points of credit:

- ECI226 Professional Teaching Practice and Child Study (Birth to 3 Years) (2 credit points)
- ECI360 Critical Issues in Safety and Child Protection (no longer available for enrolment)
- ECI390 Management and Leadership (Final year of offer 2019)

Students are also required to complete AAI018 Academic Integrity (0-credit-point compulsory unit)

### Level 1

- ECI110 Child Development 1 (no longer available for enrolment)
- ECI111 Curriculum, Theory, Development and Evaluation (no longer available for enrolment)
- ECI112 Planning and Assessment for Teaching and Learning (no longer available for enrolment)
- ECI113 Young Children's Mathematical Development (no longer available for enrolment)
- ECI114 Contexts for Learning in Early Childhood Education (no longer available for enrolment)
- ECI115 Foundations of Early Childhood Education: Past and Present (no longer available for enrolment)
- ECI116 Health, Safety, Wellbeing and Nutrition (no longer available for enrolment)
- ECI127 Professional Experience 1 (Birth – 2 Years) (no longer available for enrolment)

### Level 2

- ECI210 Child Development 2 (no longer available for enrolment)
- ECI212 Planning and Assessment for Teaching and Learning (3-8 Years) (no longer available for enrolment)
- ECI216 Children's Health, Well-being and Physical Education (no longer available for enrolment)
- ECI220 Science and Environmental Awareness for Young Children (no longer available for enrolment)
- ECI226 Professional Teaching Practice and Child Study (Birth to 3 Years) (2 credit points)
- ECI227 Professional Experience II (3–5 years) (no longer available for enrolment)
- ECI228 Professional Experience III (3–5 years) (no longer available for enrolment)
- ECI230 Language and Literacy Development in Early Childhood (no longer available for enrolment)
- ECI240 Visual Art and Media Arts (No longer available for enrolment)

### Level 3

- ECI305 Professional Experience (3-6 Years)
- ECI320 Science and Design Technology
- ECI330 Multiliterate Learners in Early Years and School Environments
- ECI350 Transition Case Study (2 credit points)
- ECI360 Critical Issues in Safety and Child Protection (no longer available for enrolment)
- ECI390 Management and Leadership (Final year of offer 2019)

### Level 4

- ECI401 Advanced Management of Children's Behaviour (no longer available for enrolment)
- ECI405 Unit description is currently unavailable
- ECI440 Music, Dance & Drama (no longer available for enrolment)
- ECI455 Unit description is currently unavailable
- ECI465 Unit description is currently unavailable
- ECI475 Effective Partnerships for Learning (no longer available for enrolment)
- ECI499 Independent Project (no longer available for enrolment)

The Faculty also offers a fast track option using Trimester Three. This option takes nine trimesters (or three years).

## Level 1, Year 12 entry only

### Trimester 1

- ECE110 Child Development 1
- ECE111 Curriculum 1: Pedagogies and Play
- ECE113 Young Children's Mathematical Development (No longer available for enrolment)
- ECE115 Foundations of Early Childhood Education: Past and Present (No longer available for enrolment)

### Trimester 2

- ECE114 Contexts for Learning in Early Childhood Education [No longer available for enrolment]
- ECE116 Promoting Health, Wellbeing and Nutrition
- ECE112 Curriculum 2: Planning and Assessment for Teaching and Learning
- ECP127 Professional Experience 1 (0–2 Years) (No longer available for enrolment, students to enrol in ECP128)

### Trimester 3

- ECP226 Professional Teaching Practice and Child Study (0-3 Years) (2 credit points) (No longer available for enrolment – students to enrol in ECP410 and IND201)

## Level 2, Student entering with approved TAFE qualification

### Trimester 1

- ECE212 Curriculum 3: Planning and Assessment for Teaching and Learning
- ECP227 Professional Practice 1 (3–5 years)
- ECE216 Children's Health, Wellbeing and Physical Education
- ECE220 Science 1: Science and Environmental Awareness for Young Children

### Trimester 2

- ECE230 Language and Literacy Development in Early Childhood
- ECP228 Professional Practice 2 (3–5 years)
- ECE240 Creative Arts 1: Visual Art and Media Arts (Final year of offer 2018, students to enrol in ECE140)
- ECE210 Child Development 2 (Final year of offer 2017, students to enrol in ECE312)

### Trimester 3

- ECE350 Transition Case Study (2 credit points) (Final year of offer 2017, students to enrol in ECE420 and ECE404)
- ECE360 Protective Education and Child Well-Being

## Levels 3 and 4 – commencing 2014

### Trimester 1

- ECE320 Science 2: Science and Design Technology
- ECP327 Professional Engagement 1 (Primary School 1)
- ECE370 Guiding Engaged, Resilient Learners
- ECE330 Multiliterate Learners in Early Years and School Environments
- ECE390 Management and Leadership (Final year of offer 2017, students to enrol in ECE491. The 35-hour professional placement linked to ECE390 to be undertaken in ECE430)

### Trimester 2

- ECE455 Effective Primary Mathematics Learning
- ECP427 Professional Engagement 2 (Primary School 2)
- ECE465 Ecological Perspectives for Learning and Teaching in Early Childhood (Final year of offer 2018, students to enrol in EEO320)
- ECE475 Effective Partnerships for Learning (Final year of offer 2017, students to enrol in ECE130)
- ESE499 Independent Project (Final year of offer 2017, students to enrol in ECE430 – Cloud (online) only unit)

### Trimester 3

- ECE440 Creative Arts 2: Music, Dance and Drama (Final year of offer 2018, students to enrol in ECE241)

#### Notes:

- (i) ECP226 VET/TAFE credit transfer and recognition entry students complete ECP226 in Tri 1 or 3 in Years 2 or 3.
- (ii) From 2015, units ECP226, ECE360

## Level 2, Student entering with approved TAFE qualification

### Trimester 1

- ECE212 Curriculum 3: Planning and Assessment for Teaching and Learning
- ECP227 Professional Practice 1 (3–5 years)
- ECE216 Children’s Health, Wellbeing and Physical Education
- ECE220 Science 1: Science and Environmental Awareness for Young Children

### Trimester 2

- ECE230 Language and Literacy Development in Early Childhood
- ECP228 Professional Practice 2 (3–5 years)
- ECE240 Creative Arts 1: Visual Art and Media Arts (Final year of offer 2018, students to enrol in ECE140)
- ECE210 Child Development 2 (Final year of offer 2017, students to enrol in ECE312)

### Trimester 3

- ECE350 Transition Case Study (2 credit points) (Final year of offer 2017, students to enrol in ECE420 and ECE404)
- ECE360 Protective Education and Child Well-Being

## Levels 3 and 4 – commencing 2014

### Trimester 1

- ECE320 Science 2: Science and Design Technology
- ECP327 Professional Engagement 1 (Primary School 1)
- ECE370 Guiding Engaged, Resilient Learners
- ECE330 Multiliterate Learners in Early Years and School Environments
- ECE390 Management and Leadership (Final year of offer 2017, students to enrol in ECE491. The 35-hour professional placement linked to ECE390 to be undertaken in ECE430)

### Trimester 2

- ECE455 Effective Primary Mathematics Learning
- ECP427 Professional Engagement 2 (Primary School 2)
- ECE465 Ecological Perspectives for Learning and Teaching in Early Childhood (Final year of offer 2018, students to enrol in EEO320)
- ECE475 Effective Partnerships for Learning (Final year of offer 2017, students to enrol in ECE130)
- ESE499 Independent Project (Final year of offer 2017, students to enrol in ECE430 – Cloud (online) only unit)

### Trimester 3

- ECE440 Creative Arts 2: Music, Dance and Drama (Final year of offer 2018, students to enrol in ECE241)

#### Notes:

- (i) ECP226 VET/TAFE credit transfer and recognition entry students complete ECP226 in Tri 1 or 3 in Years 2 or 3.
- (ii) From 2015, units ECP226, ECE360, and ECE440 also offered in trimester 1.
- (iii) From 2015, units ECE350, ECE390, and ESE499 also offered in trimester 2.

# Bachelor of Education (Primary)

Year	2019 course information
Award granted	Bachelor of Education (Primary)
Campus	Offered at Burwood (Melbourne), Waurin Ponds (Geelong), Warrnambool
Cloud Campus	No
Duration	4 years full-time or part-time equivalent
CRICOS course code	015204J
Deakin course code	E359 (version 3)

*Offered to continuing students only*

## Course overview

Deakin's Bachelor of Education (Primary) is a highly regarded, undergraduate degree that will prepare you for a career as a primary school teacher. Students have the option to undertake a sequence of units which will prepare them for teaching in a discipline area in the Middle Years (years 7–10).

## Professional recognition

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Career opportunities

Graduates of Deakin's Bachelor of Education (Primary) will be eligible for registration and employment in all states and territories in Australia as primary school teachers at all year levels within state and independent schools and related teaching services.

Graduates have also been able to use the skills and knowledge derived from the course to pursue careers in children's services and education leadership-related areas, in both government and private sectors, including the media and service industries.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

Students must complete 32 credit points:

- 26 core units
- Either 6 credit points of electives or 6 credit points of Middle Years study option

## Course structure

### Level 1

AIA104	Australian Identities (No longer available for enrolment)
AIA106	Sex, Race and Australia's People (No longer available for enrolment)
AIX117	Professional Writing for Work
ALL153	Literature for Children and Young Adults
SLE103	Ecology and the Environment

- And  
SLE102 Physical Geography  
Or  
ALC102 Contemporary Communication: Making Sense of New Media (No longer available for enrolment)

2 credit points of electives or Middle Years study option

*Note: Warrnambool students should consult a course advisor for unit enrolment advice.*

### Level 2

- ECL210 Multiliterate Learners in Early Years Environments  
EEE207 Understanding Children and Adolescents: Primary [No longer available for enrolment]  
EEE208 Understanding Learners: Primary [No longer available for enrolment]  
EEO210 Primary Humanities, Societies and Environments 1 [No longer available for enrolment]  
EEP201 Primary School Experience 1 [No longer available for enrolment]  
EEP202 Primary School Experience 2  
EES240 Primary Science Education 1 [No longer available for enrolment]  
ESM210 Children and Mathematics: Developing Mathematical Concepts [No longer available for enrolment – students to select ESM211 and contact their Professional Experience Office team member for enrolment advice]

2 credit points of electives or Middle Years study option

### Level 3

- ECL310 Multiliterate Learners in Middle Years Environments  
EEE307 Creating Effective Learning Environments: Primary [No longer available for enrolment]  
EEE308 Curriculum, Assessment and Reporting: Primary  
EEP301 Primary School Experience 3  
EEP302 Primary School Experience 4  
EES340 Primary Science Education 2 [No longer available for enrolment]  
ESM310 Teachers and Mathematics: Creating An Effective Classroom  
EE0310 Primary Humanities, Societies and Environments 2 (No longer available for enrolment)

Students from 2016 to complete:

- EE0410 Learners Inquiring in and About Their World: Human Disciplines

2 credit points of electives or Middle Years study option

### Level 4

- ECA551 Primary Arts Education (Formerly ECA409 – no longer available for offer – students to select ECA433 or ECA434)  
ECL410 Literacy Teacher – Researchers in New Times (LOTE students exempt from ECL410)  
EEA410 Primary Arts Education: Focussed Study (No longer available for enrolment – students to select ECA434 and contact Student Experience staff for enrolment advice)  
EEE401 Professional Relationships  
EEE402 Transition to Beginning Teaching  
EEH416 Primary Physical Education (No longer available for enrolment. Students to select EEH216 from 2016 [EEH216 final year of offer 2018, students to select EEH116])  
EEP401 Primary School Experience 5  
EEP402 Primary School Experience 6  
EEP403 Primary School Experience 7  
ESJ457 Studies in Curriculum (LOTE A)  
ESM410 Professional Practice and Mathematics: Designing an Inclusive Program  
EST400 Primary Technology Education: Creativity and Design

For Middle Years study option unit sequences see 2016 course version.

*Note: Some Middle Years options require a total of 7 credit points, which will require students to complete an additional unit over and above the 32 credit points for the course at full fee paying rate.*

# Bachelor of Education (Primary)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Education (Primary)
<i>Campus</i>	Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool
<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	015204J
<i>Deakin course code</i>	E359 (version 4)

*Offered to continuing students only*

## Course overview

Deakin's Bachelor of Education (Primary) is one of the School of Education's core teacher education programs, and focuses on initial professional studies in primary education for school leavers and other entrants who do not already have a degree or diploma.

The course covers all areas of primary curriculum including English language, mathematics, science, arts, social education, health and physical education, and technology, and contains a strand of six elective units which provides the opportunity to build breadth of knowledge in areas of interest.

As a graduate of this course you will be equipped to teach young people the knowledge, skills, understandings and values to enable them to make sense of, and contribute to, the world now and in the future. Our aim is for graduates to be professional educators who see themselves as being responsible for the intellectual, physical, social, emotional, ethical, spiritual and aesthetic development, and wellbeing of their students.

Study towards a creative, rewarding and challenging career and develop your skills in communication, leadership, organisation, management, and information technology.

## Professional recognition

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Pathways

The Bachelor of Education (Primary) provides an approved pathway from the Associate Degree of Education (E200)\*. On successful completion of the Associate Degree of Education students are eligible to articulate (or pathway) into the Bachelor of Education (Primary) into the second year of the course.

Applicants who have completed the Advanced Diploma of Rudolph Steiner Education may articulate into the Bachelor of Education (Primary). Applicants are advised to contact the Faculty (details above) for course advice and credit arrangements.

\* Specific units of study must be completed within E200 for full credit to be granted. You can also refer to the Recognition of Prior Learning System

## Contact hours

For each unit of study, you are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

You will complete a minimum of 80 days supervised school experience over the duration of the course, providing hands-on experience in a primary school setting.

## Middle Years (7–10) discipline choice

Students have the option to undertake a sequence of units which will prepare them for teaching in a discipline area in the Middle Years (7–10). Students are to use the 6 elective sequence to build content knowledge to a sub-major level (4units), a Year 7–10 secondary methodology unit, and a 45 day secondary school placement. Discipline studies areas vary according to campus and will include: Biology, Chemistry, Environmental Science, Humanities, Societies and Environments (HSE), Performing Arts, and Visual Arts.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the award of Bachelor of Education (Primary), students must complete 32 credit points of study as follows:

- 26 core units; either
- 6 credit points of electives taken from anywhere within the university; or
- 6 credit point Middle Years teaching option (4 credit points of discipline study units, 1 credit point of curriculum study, 1 credit point elective)

This course includes 80 days of supervised professional experience.

## Middle Years option

Instead of 6 credit points of electives, students may choose to undertake 6 credit points of units that provide a Middle Years teaching specialisation (secondary years 7 to 10) in one of the following teaching method areas:

- Art – Visual
- Drama
- English
- Health
- History
- Humanities/Studies of Society and Environment (SOSE)
- Languages Other Than English (LOTE) (by concurrent enrolment in A225 Diploma of Language)
- Mathematics
- Music
- Science – General

For all teaching methods other than LOTE, Visual Arts and Music, the 6 credit point Middle Years Option comprises 4 credit points of discipline study units, 1 credit point of curriculum study, and 1 credit point elective. It is highly recommended that students chose a further unit in their discipline study area for this elective. Discipline study units must be taken from the approved list of units or approved major sequences recognised for each teaching method area. For discipline study unit selection for each teaching method area see below.

For the LOTE teaching method, students must have completed Year 12 studies in that language and concurrently enrol in A225 Diploma of Language (or equivalent course). Students will receive 5 credit points of RPL into this course from A225, and take 1 credit point of curriculum study. Note that A225 must be completed: it is not possible to become VIT registered for the LOTE teaching method without completing a total of 8 credit points of language units. Native speakers of a language should instead obtain a certificate of equivalence and take 1 credit point of curriculum study and 5 credit points of electives.

For Visual Arts and Music methods you will require 6 credit points of discipline studies which is taken from the elective options; and 2 credit points of curriculum study, which are embedded in the core program. Discipline study units must be taken from the approved list of units (see below) or approved major sequences recognised for each teaching method area. For discipline study unit selection for each teaching method area see below [i.e., ECA209 (1 credit point) and you'll need to select ECA431 (1 credit point)]. You are encouraged to contact Student Services for course map and further unit enrolment advice for these particular specialisations.

Contact Student Services for further unit enrolment advice.

## Course structure

### Year 1

AIA105	Visions of Australia: Time and Space From 1700 to 2010
ALL153	Literature for Children and Young Adults
ETP101	Perspectives On Learning and Teachers' Work
ETP102	Social Contexts of Education
SLE103	Ecology and the Environment
SIT106	Fundamental Concepts of Mathematics

Either 2 credit points of Elective units;

Or

2 credit points of Middle Years option discipline study units

### Year 2

ECA209	Arts Education in Primary Schools [Final year of offer 2018, students to select ECA100]
ECL210	Multiliterate Learners in Early Years Environments
EEH216	Primary Physical Education [Final year of offer 2018, students to select EEH116]
EEH217	Student Health and Wellbeing
ESM210	Children and Mathematics: Developing Mathematical Concepts [No longer available for enrolment – students to select ESM211 and contact their Professional Experience Office team member for enrolment advice]
ETP200	Classroom Relationships [Previously coded ETP201]

Either 2 credit point of Elective units;

Or

2 credit points of Middle Years option discipline study

### Year 3

ECL310	Multiliterate Learners in Middle Years Environments
EES345	Primary Science Education 1
ESM310	Teachers and Mathematics: Creating An Effective Classroom
EEO311	Learners Living in Their World: Humanities Perspectives

Plus either:

ETP301 Pedagogy [Final year of offer 2018, students to select ETP300]

ETP302 Curriculum Inquiry [Final year of offer 2018, students to select ETP303]

Or Middle Years Option:

ETS301 Pedagogy – Middle Years (7–10)

ETS302 Curriculum Inquiry – Middle Years (7–10)

1 credit point curriculum study unit

1 credit point elective

### Year 4

ECL410	Literacy Teacher – Researchers in New Times
EEA411	Primary Arts Education: Focussed Study [Final year of study 2018, students to select EEA311]
EEO410	Learners Inquiring in and About Their World: Human Disciplines
EES440	Primary Science Education 2
ESM410	Professional Practice and Mathematics: Designing an Inclusive Program
EST400	Primary Technology Education: Creativity and Design
ETP401	Assessment: Ways of Knowing Learners
ETP402	University-To-Work Transition

## Discipline study units

Teaching method area	Discipline studies units	Middle years curriculum study unit
Art	ACV101 ACV102 EEA211 EEA212 [No longer available for enrolment] ECA433 ECA434	ECA431
Drama – Burwood only	Drama	ECA431
English	Children’s Literature Literary Studies	ECL461
General Science	SLE102 SLE111 SLE202 SLE237 SLE132	ESS441
Health	HBS109 HBS110 HSH206  Plus one of: HSN101 HSN210 HSN308	ESH402
History	History	ECS471
Humanities/Studies of Society and Environment (SOSE)	AIA106 Sex, Race and Australia’s People (No longer available for enrolment)  Plus 4 units in one of: Anthropology History Philosophy Politics and Policy Sociology	ECS471
Languages	5 credit points of RPL granted upon completion of A225 Diploma of Language (or equivalent)	ESJ457
Mathematics	SIT192 SIT194 SIT291  Plus one of: SIT281 SIT292	ESM424
Music	ECA110 no longer on offer (Formerly ECA310) ECA111 no longer on offer ECA212 (Formerly EEA312) no longer on offer ECA213 no longer on offer ECA433 ECA434	ECA431

## 2 first-level discipline units

Discipline units are to be taken from faculties other than the School of Education in the Foundation (first) level of the course.

It is recommended that first level students select their electives in a particular area of interest they wish to pursue, e.g. Humanities, Health & Physical Education, Mathematics, Science, Literature, Visual Arts, Technology or Foreign Language.

## 4 elective units

The electives component of this course provides a great opportunity for you to develop breadth or depth in your studies. Choice of electives should be based on personal interest, existing expertise, getting a broader tertiary education, or developing a subject sequence relevant to primary teaching (see Health and Physical Education and Visual Arts examples below) or a sub-major in one discipline area and the associated junior secondary curriculum studies unit to enable you to teach that subject up to level 10. Use the elective sequence as an opportunity to make yourself more employable.

You may choose units from most of those offered from across the University. School of Education electives relate to teaching while electives from other Faculties relate to a specific discipline. School of Education electives will not clash with professional experience rounds in schools. You should choose units from other Faculties if these units enable you to achieve a goal such as teaching LOTE.

### **Health and Physical Education Unit Sequence for Primary Levels (P–6):**

Students wishing to develop particular expertise in the Health and Physical Education area of the primary curriculum should enrol in the following mix of discipline studies and elective units:

#### **First Level**

- HBS107 Understanding Health  
Or  
HBS109 Human Structure and Function
- And  
HSE102 Functional Human Anatomy  
Or  
HBS110 Health Behaviour

#### **Second Level**

- EEH426 Physical Education and the Curriculum [No longer available for enrolment]  
EEH428 Contemporary Issues in Physical Education [No longer available for enrolment]

#### **Third Level**

- EEH315 Teaching Sexuality and Relationship Education  
EEH317 Children in Sport: Issues and Controversies [No longer available for enrolment]

*Note: Students must enrol in one of HBS107 and HBS109 and in one of HSE102 and HBS110.*

### **Visual Art Unit Sequence for Primary Levels (P–6)**

Students wishing to develop particular expertise in the Visual Arts area of the primary curriculum should enrol in the following mix of discipline studies and elective units:

#### **First Level**

- ACV101 Contemporary Art Practice: Body  
ACV102 Contemporary Art Practice: Space

#### **Second Level**

- EEA211 Navigating the Visual World  
EEA212 Visual Culture: Images, Meaning and Contexts [No longer available for enrolment]

#### **Third Level**

- ECA433 Arts Education Discipline Study 3  
ECA434 Arts Education Discipline Study 4

**Notes:**

(i) ECA433 students to select the Art as Experience specialism.

(ii) ECA434 students to select the Concepts and Bases of Art specialism.

**Other elective units available 2012**

*Note: Offering is subject to availability of staff and sufficient students enrolled to meet University requirements.*

**Aesthetics; Arts Education; Performing Arts Education**

ECA310	Discovering Music A [No longer offered for enrolment. Students to select ECA110] – ECA110 no longer on offer
ECA311	Discovering Music A [No longer offered for enrolment. Students to select ECA111] – ECA111 no longer on offer
ECA433	Arts Education Discipline Study 3 T1
ECA434	Arts Education Discipline Study 4 T2
EEA211	Navigating the Visual World T1
EEA212	Visual Culture: Images, Meaning and Contexts [No longer available for enrolment]
EEA227	Exploring Cultural Diversity through the Performing Arts [No longer offered for enrolment]
EEA228	Engaging Community through the Performing Arts [No longer offered for enrolment]
EEA312	Discovering Music A [No longer offered for enrolment. Students to select ECA212]
EEA313	Discovering Music A [No longer offered for enrolment. Students to select ECA213] [ECA213 no longer offered for enrolment]

**Notes:**

(i) ECA433, ECA434 students to check the campus availability for their preferred specialism.

(ii) EEA228 is offered in flexible WEXP mode, ie. unit is taken in off campus mode with on campus intensives to be held at the Geelong campus. EEA228 is offered in trimester 3.

(iii) EEA227, EEA228, EEA312 and EEA313 offered in trimester 3.

**Health and Physical Education**

EEH315	Teaching Sexuality and Relationship Education T3
EEH317	Children in Sport: Issues and Controversies [No longer available for enrolment]
EEH426	Physical Education and the Curriculum T1 [No longer available for enrolment]
EEH428	Contemporary Issues in Physical Education [No longer available for enrolment]
ESH457	Youth and Recreation [No longer offered for enrolment]
ESS420	Outdoor and Environmental Education [No longer offered for enrolment]

**Humanities, Societies and Environments**

EEC312	Playing with and Education for Multiple Futures [No longer offered for enrolment]
EEG402	Teaching in a Global World T3

**Information, Communication and Technology Education**

EET330	Teaching with New Technologies [No longer offered for enrolment]
EST430	Education Software Tools [No longer offered for enrolment]

**Linguistics**

ELL201	Language and Social Contexts [No longer offered for enrolment]
ELL202	Texts Across Cultures [No longer offered for enrolment]

**Mathematics and Science Education**

ESM415	Problem solving and Modelling in the Mathematics Classroom [No longer offered for enrolment]
ESM438	Evaluating Children's Progress [No longer offered for enrolment]
ESS412	Science Experiments You Can Eat *T3

\* ESS412 offered trimester 3.

\*\* ESM438 offered in alternating years 2012, 2014.

## Professional Development

ECE310	Transition Case Study [No longer offered for enrolment]
EEC381	Classroom and Behaviour Management T1
ESP437	Teaching for Interpersonal Development [No longer offered for enrolment]

*Note: ECE310 is a trimester 3, 2 credit point unit.*

## Teaching Children with Individual Needs

EEl414	Meeting the needs of Diverse Learners through Effective Planning [No longer offered for enrolment]
ECP303	Child Protection T2
EEl322	Teaching the Learner with Special Needs in the General Education Classroom T2
ESP401	Student Behaviour Management and Welfare [No longer offered for enrolment]
ESP485	Teaching Thinking Skills [No longer offered for enrolment]

*Note: ECP303 recommended as a 3rd level elective as prerequisite knowledge of schools and professional issues is required.*

## Elective units available 2013

*Notes:*

- (i) Offering is subject to availability of staff and sufficient student enrolled to meet University requirements.*
- (ii) An updated list will be provided prior to your re-enrolment in 2012 for 2013.*

### Additional electives

EEl302	Role of Multimodal Therapies in Special Education (offered 2018)
EES301	Digital Technologies: Programming and Robotics (offered 2018)
ECA210	Music Studies: Earth, Wind and Fire (offered 2018)
EEG302	Place, Culture and Teaching in a Global Context
ECL307	Introduction to the International Baccalaureate Primary Years Programme (IBPYP) (offered 2019)
EEG402	Teaching in a Global World
EEA211	Navigating the Visual World

## Detailed course rules

The Bachelor of Education (Primary) may be awarded at pass level.

To be awarded the Bachelor of Education (Primary) pass degree a person shall:

1. be accepted for enrolment in a course of study leading to the award of a Bachelor of Education (Primary) pass degree and continue to be accepted for enrolment until completion of that course of study;
2. complete a course of study amounting to 32\* credit points provided that the course of study:
  - 2.1 shall include units amounting to 26# credit points (inclusive of a 7 unit professional studies sequence) from those units specified by Faculty Board from time to time as course-grouped units leading to the award of the degree of Bachelor of Education (Primary)
  - 2.2 shall include units amounting to not less than 22 credit points at level 2 or higher, at least 6 credit points of which shall be taken at level 4 or higher
  - 2.3 shall include 4 credit points of course-grouped units in discipline studies as agreed with the Schools of Arts and the Faculty of Science and Technology
  - 2.4 shall include at least 4 credit points selected from identified discipline subject areas.
3. the course of study shall be completed within a period of not less than four years and except with the permission of the Faculty Board not more than 10 consecutive years from the date the person first enrolled in the course.
4. the course of study shall include satisfactory completion of at least 80 days of supervised school experience.

Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

*Note: Students undertaking languages other than English (LOTE) will be required to complete ESJ357 Studies in LOTE Curriculum A and ESJ358 Studies in LOTE Curriculum B (in lieu of 2 electives).*

## Elective units

Elective units may be taken from faculties other than Arts and Education and provide a great opportunity to develop breadth or depth in your studies.

Choice of electives should be based on personal interest, existing expertise, getting a broader tertiary education, or developing a subject sequence relevant to primary teaching. Use the elective sequence as an opportunity to broaden your content area of interest.

Options for teaching, for example, include choosing electives in the Humanities, SOSE, Health and Physical Education, Mathematics, Science, English, Visual Arts, or a Language other than English. Further information will be available from your campus course director.

Remember to consider your professional experience school rounds requirements when choosing electives so that that they do not clash.

## Language other than English (LOTE) requirements

A LOTE strand is offered at Burwood (Melbourne) only

### Students with a year 12 LOTE background

Students who passed a LOTE in year 12 must study 6 credit points of language discipline units plus 2 methodology units (ESJ357 and ESJ358). A total of 8 credit points of study.

Please note that because there are 8 units required to complete a LOTE sequence for teaching, an additional 2 credit points of units will need to be taken as a course overload. You should discuss this with the course director and options may depend on the language undertaken.

### Students with no year 12 LOTE background

Students who did not do a LOTE in year 12 must complete a total of 10 credit points of study, comprising the following:

- 8 credit points of discipline language units (language major study), and
- 2 credit points of teaching methodology units – ESJ357 and ESJ358

Please note that because there are 10 units required to complete a LOTE sequence for teaching, an additional 4 credit points of units will need to be taken as a course overload. You should discuss this with the course director and options may depend on the language undertaken.

## Middle Years (7–10) study option

You may undertake a sequence of units in the following areas which will prepare you for teaching in a discipline area in years 7–10 (middle years) of secondary school:

- Drama
- English
- Mathematics
- Health
- History
- Humanities/SOSE
- LOTE
- Music
- Visual Arts
- General Science

Two options of study are available, depending on the discipline requirements established by the Victorian Institute of Teaching (VIT) – some disciplines require a major study or combination of sub majors to a total of 6 credit points, and others require a sub major sequence.

1. You may use the 6 unit electives in the course structure to build content knowledge to either a major sequence level. A total of 6 credit points from elective options. An additional secondary methodology (Years 7–10) for teaching in the discipline will need to be taken as a course overload.

OR

2. You may use 4 electives as discipline units and add a unit in secondary methodology (Years 7–10) (in the relevant discipline area), a total of 6 credit points from the elective options.

In addition to discipline and secondary methodology units, you will undertake a 20 day secondary school placement.

Please request the details of VIT discipline requirements from course director before selecting units.

## Professional experience placement

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://online.justice.vic.gov.au/wwccu/onlineapplication.doj>

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Education (Primary)

## Course overview

Explore all areas of primary curriculum and build a solid understanding of what it takes to make a difference as a primary school educator, with a Bachelor of Education (Primary) at Deakin. From mathematics to science, visual arts to technology, you'll learn how to guide children through their primary years learning – and graduate qualified to teach from grades prep to Year 6.

Are you interested in an exciting and rewarding career teaching primary school aged children?

Gain the knowledge, skills and values required to teach young people. You'll graduate as a professional educator, able to demonstrate classroom readiness and make a difference to students' learning.

The Professional Experience Program is a key part of every Deakin teaching student's course experience. Working with more than 1400 schools across Australia, we'll arrange at least 80 days of placements for you in schools where you'll learn from experienced teachers. Students also have access to specialised teaching spaces on campus to help you prepare for classroom teaching. Choose a specialisation and develop advanced skills in a priority area of the primary curriculum, such as:

- health and physical education
- humanities
- languages
- language and literacy
- mathematics and numeracy
- science
- special education needs
- visual arts.

You can select the International Baccalaureate Primary Years option and complete some of your placements in IBPYP schools, differentiating you from other graduates. This Deakin course is the only undergraduate teacher education program in Victoria to be accredited with the International Baccalaureate Organisation and to offer a recognised pathway for teaching in the IB Primary Years Program.

Give your studies a different perspective and take part in our Global Education Program. You'll get to experience remote communities in Australia and abroad, while gaining credit towards your degree. Learn about Aboriginal culture while teaching in remote communities in the Northern Territory, or head to countries including Chile, Nepal or Vanuatu and learn about intercultural education.

Deakin maintains close links with the education sector to ensure our courses are developed and reviewed with industry and professional input. You'll be taught by staff who have industry experience and who are recognised as leaders and innovators in their fields. This means you can be confident that what you learn at Deakin will be relevant to your future teaching career.

Before beginning your studies, prospective teaching students need to successfully complete the CASPer test – an online, video scenario-based test that lets you demonstrate your suitability for a teaching career.

## Professional recognition

Deakin's Bachelor of Education (Primary) is accredited with the Victorian Institute of Teaching (VIT), as a nationally accredited course. Upon graduation, you'll be prepared to register with VIT as a registered educator.

## Career opportunities

Studying a Bachelor of Education (Primary) will equip you with the skills and knowledge for a successful career in education. Upon graduation you'll be ready to teach in primary schools within the private, independent, IB schools or public education sectors.

Graduates may also find work in other fields including:

- community services
- government agencies
- not-for-profit organisations
- IB accredited primary schools.

For more information visit [deakintalent.deakin.edu.au](https://deakintalent.deakin.edu.au).

## Participation requirements

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](https://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Professional experience placement

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>. For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Pathways

The Bachelor of Education (Primary) provides an approved pathway from the Associate Degree of Education (E200)\*. On successful completion of the Associate Degree of Education students are eligible to articulate (or pathway) into the Bachelor of Education (Primary) into the second year of the course.

Applicants who have completed the Advanced Diploma of Rudolph Steiner Education may articulate into the Bachelor of Education (Primary). Applicants are advised to contact the Faculty (details above) for course advice and credit arrangements.

All Applicants into E359 Bachelor of Education (Primary) must complete an additional selection tool for non-academic attributes. Deakin University is using the CASPer assessment tool. CASPer is an online, video-scenario based situational judgement test, designed to measure non-academic suitability for teaching.

\* Specific units of study must be completed within E200 for full credit to be granted. You can also refer to the Recognition of Prior Learning System

## Contact hours

For each unit of study, you are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

You will complete a minimum of 80 days supervised school experience over the duration of the course, providing hands-on experience in a primary school setting.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire broad and coherent theoretical knowledge and understanding of education and the application of this knowledge and skills in teaching and learning, particularly for primary school contexts
Communication	Engage in appropriately diverse effective interpersonal, oral, written, digital and non-verbal communication with students, their parents or caregivers, colleagues and other stakeholders to demonstrate empathy, develop rapport and build professional teacher/student/parent/caregiver relationships with trust for quality learning and teaching.
Digital literacy	Select, collect, use and create a range of digital teaching and learning resources and technologies to support student engagement and learning.
Critical thinking	Critically evaluate and synthesise contemporary research and theoretical perspectives relating to teaching, student learning, and using diverse assessment data to make judgments about the use of appropriate teaching, learning and assessment strategies.
Problem solving	Critically reflect on professional practice to generate creative, innovative and authentic solutions to a range of real-world problems encountered in the learning and teaching contexts and professional learning communities.
Self-management	Actively work and learn independently with responsibility taken for professional actions and judgements
Teamwork	Work and learn collaboratively with colleagues, other professionals, families and members of the wider community who share responsibility for student learning and their wellbeing.
Global citizenship	Engage in professional, intercultural and ethical approaches that addresses social justice, equity, diversity, and sustainability issues.

*Approved by Faculty Board*

## Course rules

To qualify for the award of Bachelor of Education (Primary), students must complete 32 credit points of study as follows:

- 26 core units;
- 4 credit points of primary subject specialisation
- 2 credit points of electives
- AAI018 Academic Integrity (0-credit-point compulsory unit)

This course includes 80 days of supervised professional experience.

Students are also required to complete two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate from their course.

Contact Student Services for further unit enrolment advice.

## Course structure

### Core units

#### Year 1

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)
AIA105	Visions of Australia: Time and Space From 1700 to 2010
ALL153	Literature for Children and Young Adults
ETP101	Perspectives On Learning and Teachers' Work
ETP102	Social Contexts of Education
SLE103	Ecology and the Environment
SIT106	Fundamental Concepts of Mathematics
ECA100	Engaging and Exploring Arts Education
EEH116	Primary Physical Education

#### Year 2

ECL210	Multiliterate Learners in Early Years Environments
EEH217	Student Health and Wellbeing
ESM211	Children and Mathematics: Developing Mathematical Concepts
ETP200	Classroom Relationships
EEO211	Humanities Education in the 3-6 Primary Levels
EES245	Primary Science Education 1

2 credit points of specialisation units from the table below

#### Year 3

ESM310	Teachers and Mathematics: Creating An Effective Classroom
ETP300	Educating Students with Additional Needs
ETP303	Curriculum and Pedagogy
ECL310	Multiliterate Learners in Middle Years Environments
EEA311	Primary Arts Education: Focussed Study

2 x 1 credit point elective units (IB PYP pathway students take specific elective units)

1 credit point specialisation unit from the table below

## Year 4

EEO410	Learners Inquiring in and About Their World: Human Disciplines
ECL410	Literacy Teacher – Researchers in New Times
EES440	Primary Science Education 2
ESM410	Professional Practice and Mathematics: Designing an Inclusive Program
EST400	Primary Technology Education: Creativity and Design
ETP400	Assessment: Ways of Knowing Learners
ETP403	University-To-Work Transition

1 credit point specialisation unit:

ECP400	Building Leadership Capacity in the School and Wider Community
--------	--

## Electives

In your course you have two electives. These can be made up by completing the IB PYP option OR a combination of two units from the recommended electives listed below.

You will be able to deepen your studies in your chosen specialisation or develop breadth through pursuing studies in other area(s) of interest. However you are not limited to this list for your electives.

## IB PYP Teaching and Learning Certificate

If you would like to be eligible to apply for the IB PYP Teaching and Learning Certificate from the IBO, in addition to your core coursework you will need to successfully complete

- two elective units:
  - EEG402 Teaching in a Global World
  - ECL307 Introduction to the International Baccalaureate Primary Years Programme (IBPYP) (Commencing 2018)
- your two x Yr 3 Professional Experience placements in IB PYP schools.

## Recommended electives

These recommended electives have been clustered in discipline areas but you may select from two different disciplines.

Visual Arts	ECA210 Music Studies: Earth, Wind and Fire EEA211 Navigating the Visual World ACV210 Integrated Practice 1
Health and Physical Education	EEH301 Nutrition, Growth and Development for Health Educators EEH315 Teaching Sexuality and Relationship Education
Humanities	EEG302 Place, Culture and Teaching in a Global Context EEG402 Teaching in a Global World ASP216 Ethics in Global Society
Languages	Concurrent enrolment in a Diploma of Languages with up to two credit points given for two electives on evidence of completion.
Language and Literacy	ECL350 Teaching EAL/D Students ALC104 Media Genres: Negotiating Textual Forms and Pleasures ALL154 Power Politics and Texts for Young People
Mathematics and Numeracy	SIT190 Introductory Mathematical Methods SIT191 Introduction to Statistics and Data Analysis SIT192 Discrete Mathematics SIT194 Introduction to Mathematical Modelling
Science	EES301 Digital Technologies: Programming and Robotics
Special Educational Needs	EEL302 Role of Multimodal Therapies in Special Education

## Specialisations

Primary Specialisation	Specialisation Unit 1	Specialisation Unit 2	Specialisation Unit 3	Specialisation Unit 4 (commencing 2020)
Mathematics and Numeracy	SIT176 Mathematical Visualisation and Reasoning	ESM215 Problem solving, Modelling and Mathematical Applications	ESM303 Primary Mathematics Lesson Study	ECP400 Building Leadership Capacity in the School and Wider Community
Language and Literacy	ALM101 Making Social Media	ALL230 Re-Imagining Literature for Young People	ECL351 Diversity, Language and Literacy	ECP400 Building Leadership Capacity in the School and Wider Community
Science	SLE111 Cells and Genes OR SLE133 Chemistry in Our World	SLE123 Physics for the Life Sciences	EES300 Science, Technology, Engineering and Mathematics (STEM) Education	ECP400 Building Leadership Capacity in the School and Wider Community
Humanities	AIG103 People and Place: An Introduction to Human Geography OR AIH267 Conflict and Its Legacies in Modern Asia	AIH288 Exploring Australia's Indigenous Pasts	EEO301 Sustainability, Inquiry and Action – a Humanities Perspective	ECP400 Building Leadership Capacity in the School and Wider Community
Visual Arts	ACV101 Contemporary Art Practice: Body	ACV102 Contemporary Art Practice: Space	ECA304 Arts Education Specialisation Study	ECP400 Building Leadership Capacity in the School and Wider Community
Special Educational Needs (quotas apply)	EEI202 Communication and Diverse Learners	HDS106 Diversity, Disability and Social Inclusion	EEI301 Personalising Learning: a Transdisciplinary Approach	ECP400 Building Leadership Capacity in the School and Wider Community
Health and Physical Education (quotas apply)	EEH203 Sport and Exercise Practice	HBS110 Health Behaviour	EEH302 Health and Physical Education in the Curriculum	ECP400 Building Leadership Capacity in the School and Wider Community
Languages	Diploma of Languages units <sup>^</sup>	Diploma of Languages units <sup>^</sup>	ECL306 Teaching and Learning Languages in Primary Contexts	ECP400 Building Leadership Capacity in the School and Wider Community

<sup>^</sup> Deakin has four options for languages study: Arabic, Chinese, Indonesian, Spanish: Concurrent enrolments in A221 Diploma of Arabic or A222 Diploma of Chinese, or A223 Diploma of Indonesian, or A224 Diploma of Spanish or equivalent with up to 4 credit points of RPL are given upon the completion. Completion of 3 units from any of A221 or A222 or A223 or A224 and enrolment in one further unit of A221, A222, A223 or A224 or equivalent are pre-requisite for ECL306. The Diploma can be undertaken concurrently with another course and is of 3 years part time duration with eight credit points. There are two options for each Diploma: i) for students with no background in the language; or ii) an advanced study for those with Year 12 level (or equivalent) in the language.

## Professional experience placement

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>.

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Pre-service teachers from the Bachelor of Education (Primary) have opportunities to complete their third year placement or a component in the elective unit EEG302 – Place, Culture and Teaching in a Global Context. Eligibility for a GEP is restricted to students who have successfully completed a local practicum and are in at least the third year of their four year degree.

# Bachelor of Health and Physical Education

Year	2019 course information
Award granted	Bachelor of Health and Physical Education
Duration	4 years full-time or part-time equivalent
CRICOS course code	073714F
Deakin course code	E377 (version 3)

*Note: Dance and Drama discipline sequences are offered Burwood (Melbourne) only.*

*Offered to continuing students only*

## Course overview

Deakin's Bachelor of Health and Physical Education prepares you for a career in health and physical education teaching in upper primary and secondary schools. The course provides theory and practice in the study of education, discipline studies, curriculum studies and in the specialised teaching methods of health and physical education. In addition, you will study a second teaching method of your choice from a selected range of discipline studies offered by the Faculty of Science, Engineering and Built Environment or the Faculty of Arts and Education.

You will participate in a highly rewarding professional experience program spending at least 80 days working in schools, with children and alongside experienced teachers.

## Professional recognition

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To qualify for the award of Bachelor of Health and Physical Education, students must complete 32 credit points of units comprising:

- 26 core units (which include discipline study and curriculum study units for the Physical Education and Health teaching method areas)
- HSE010 Exercise and Sport Laboratory Safety (0 credit point compulsory unit; this safety training must be completed before classes commence)
- 4 credit points of discipline study units in a third teaching method area
- 2 credit points of curriculum study units in the third teaching method area

Students must additionally complete an Emergency First Aid Certificate (Level 2) and AUSTSWIM qualifications prior to graduation.

For available third teaching method areas see below.

This course includes 80 days of supervised professional experience.

## Course structure

### Year 1

EEH101	Health and Physical Education Studies
EEH102	The Art and Science of Movement
EPP101	Teacher-Learner Identity
EPP102	Learning-Teaching Communities
HBS109	Human Structure and Function
HSE010	Exercise and Sport Laboratory Safety (0 credit points)
HSE102	Functional Human Anatomy

2 credit points of discipline study units in third teaching method area

### Year 2

EEH201	Health and Physical Education: Curriculum Study B (Final year of offer 2017)
EPP203	Professional Experience in Health and Physical Education: Curriculum Study A
HSE201	Exercise Physiology
HSE202	Biomechanics
HSE203	Exercise Behaviour
HSE204	Motor Learning and Development

2 credit points of discipline study units in third teaching method area

### Year 3

EEH315	Teaching Sexuality and Relationship Education
EEH405	Senior Physical Education: Curriculum Study
EPP304	Ways of Knowing Children and Adolescents
HSE311	Applied Sports Science 1
HSE314	Applied Sports Science 2
HSN101	Foundations of Food, Nutrition and Health

2 credit points of curriculum study units in third teaching method area

### Year 4

EEH401	Professional Issues in Health and Physical Education
EEH404	Health: a Family and Community Focus
EEH455	Approaches to Teaching Health and Physical Education
EPP305	Policy, Schooling and Society
EPP406	Professional Identity and Curriculum Work
ESH403	Senior Health and Human Development: Curriculum Study
EXC425	Literacy and Numeracy Across the Curriculum (Final year of offer 2019, students to contact student services)
HSE301	Exercise Prescription for Fitness and Health

Teaching method area	Discipline studies units	Curriculum studies units
Science (Senior Secondary) in specialist science area Biology	SLE010 (0 credit point unit) SLE111  Plus 3 credit points of units from one of: <ul style="list-style-type: none"> <li>• Animal Biology</li> <li>• Cell Biology</li> <li>• Human Biology</li> <li>• Plant Biology</li> <li>• Natural History</li> </ul>	ESS444 ESS467
Science (Senior Secondary) in specialist science area Chemistry	SLE010 (0 credit point unit) SLE155  Plus 3 credit points of units from one of: <ul style="list-style-type: none"> <li>• Chemistry (Geelong only)</li> <li>• Chemistry and Materials Science (Burwood only)</li> </ul>	ESS444 ESJ460
Dance	Dance (Burwood only)	ECA431 ECA432
Drama	Drama (Burwood only)	ECA431 ECA432
English	Children's Literature Literary Studies	ECL461 ECL462
History	History	ECS471 ECS472
Mathematics	Mathematical Modelling	ESM424 ESM425

## Professional experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students are asked to ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school-based experience is organised by the Faculty of Arts and Education Professional Experience Office in consultation with schools. Students are advised that (normally) any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit in the course. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course are advised that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Teacher registration includes the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au)).

The Professional Experience Handbook is available at [deakin.edu.au/education/students/professional-experience](http://deakin.edu.au/education/students/professional-experience)

Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Health and Physical Education

<i>Duration</i>	4 years full-time or part-time equivalent
<i>CRICOS course code</i>	089295M
<i>Deakin course code</i>	E377 (version 4)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Develop the skills, knowledge and understanding to become a secondary school health and physical education teacher who makes a difference to every student. You'll learn how to create safe, inclusive and engaging learning environments to provide learning experiences that support lifelong health and physical activity with a Bachelor of Health and Physical Education.

Our growing population requires qualified professionals who can teach and advise on the benefits of health and physical education. Do you want to make a difference?

From day one, you'll be immersed in the world of secondary school health and physical education teaching, learning how you can instil change in younger generations.

Deakin works closely with school partners and relevant organisations to deliver you customised learning experiences tailored to this degree, meaning you'll be learning about the most relevant and pressing health problems facing our population – and the most effective ways to reduce them.

As part of your core studies, learn foundation knowledge surrounding the human body including anatomical and physiological terminology. Through mediums such as gymnastics and dance, you'll explore the science and art of movement and performance and gain an understanding of how the body reacts to movement and the repercussions this has on various body systems (cardiovascular, respiratory, musculoskeletal and nervous systems).

Choose a third discipline to pair with your core studies and advance your cross-disciplinary knowledge. You'll be able to choose disciplines including:

- biology
- chemistry
- drama (Burwood only)
- English
- history
- home economics (Burwood only)
- mathematics.

Learn in our state-of-the-art facilities, including Deakin's Elite Sports Precinct and specialised teaching labs. You'll have access to industry-standard resources, preparing you for your career while you study.

The Professional Experience Program is a key part of every Deakin teaching student's course experience. Working with more than 1,400 schools across Australia, we'll arrange at least 80 days of placements for you in schools where you'll learn from experienced teachers. Students also have access to specialised teaching spaces on campus to prepare for teaching.

Give your studies a different perspective and take part in our Global Education Program. You'll get to experience remote communities in Australia and abroad, while gaining credit towards your degree. Learn about Aboriginal culture while teaching in remote communities in the Northern Territory, or head to countries including Chile, Nepal or Vanuatu and learn about intercultural education.

Before commencing your studies, prospective education students need to successfully complete the CASPer test – an online assessment that measures your academic and non-academic suitability for teaching.

Start your journey to becoming a health and physical educator with a Deakin degree and learn how you can change the lives of others.

## Professional recognition

Our education courses are accredited by the Victorian Institute of Teaching (VIT), meaning you'll graduate as a qualified educator. Students are eligible to apply for registration with VIT upon successful completion of this degree.

## Career opportunities

Graduate ready to take your career into teaching within the private, independent or public education sectors or advisory roles. You can even work closely with sporting organisations.

As well as working as an educator, you may find yourself working in fields including:

- community programs
- government agencies
- human resource management
- private academies/agencies
- professional coaching
- sport management.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire broad and coherent theoretical knowledge in the disciplines of Health, Physical Education and one other teaching area.</p> <p>Apply the principles of contemporary curriculum design, pedagogy and assessment for teaching and learning in Health and Physical Education.</p>
Communication	Use a range of oral and written communication skills and technologies to transmit knowledge and skills to others in the classroom and the broader school community.
Digital literacy	Employ a range of technologies to collect, analyse, synthesise and evaluate information for the purposes of teaching and learning in a rapidly-changing global environment.
Critical thinking	Use critical and analytical skills to determine solutions to unpredictable and sometimes complex problems in teaching, learning and assessment practices and to adapt these solutions to diverse contexts and learners.
Problem solving	<p>Use critical and analytical skills to determine solutions to unpredictable and sometimes complex problems in teaching, learning and assessment practices and to adapt these solutions to diverse contexts and learners.</p> <p>Demonstrate the capacity to identify a students' prior knowledge, learning strengths and weaknesses and develop a range of strategies to effectively manage diverse classroom learning.</p>
Self-management	<p>Acquire understanding of the importance of reflective practice to plan and deliver coherent teaching and learning experiences for students in Health, Physical Education and one other teaching area.</p> <p>Act with autonomy and responsibility in making well-developed judgements in individual and collaborative professional practice in Health and Physical Education teaching contexts</p>
Teamwork	Work and learn collaboratively with colleagues and other professionals and members of the wider community.
Global citizenship	Develop an understanding of multicultural and inclusive pedagogies to sustain ethical approaches to teaching and learning.

*Approved by Faculty Board June 2014*

## Course rules

To qualify for the award of Bachelor of Health and Physical Education, students must complete 32 credit points of units comprising:

- 26 core units
- HSE010 Exercise and Sport Laboratory Safety (0 credit point compulsory unit; this safety training must be completed before classes commence)
- 4 credit points of discipline study units in a third teaching method area
- 2 credit points of curriculum study units in the third teaching method area
- AAI018 Academic Integrity (0-credit-point compulsory unit)

Students must additionally complete an Emergency First Aid Certificate (Level 2) and AUSTSWIM qualifications prior to graduation.

This course includes 80 days of supervised professional experience.

Students are also required to complete below two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate from their course.

## Course structure

### Year 1

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)

## Professional experience placement

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>.

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Early Childhood Education (Honours)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Early Childhood Education (Honours)
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	E430
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

Extend what you've learnt in your early childhood undergraduate degree with this merit-based 1-year full time (or part time equivalent) honours course that features Cloud learning and research-focused study.

Deakin's education discipline is ranked 23rd in the world by the prestigious QS World University Rankings (2014). The Bachelor of Early Childhood Education (Honours) course equips you to plan, implement and evaluate a rigorous research project in early childhood education and care. The honours research units are designed to help you extend your research ability and understanding in the contemporary early childhood context. The coursework is comprised of advanced research methodology units, literature review critiques, and the development and presentation of a minor thesis.

If you've demonstrated academic merit (i.e., distinction average) and an ability to work independently throughout your undergraduate degree you are eligible to apply for the BECE (Honours) course.

There's an increasing demand for qualified and approved early childhood educators, teachers and researchers across Australia and in other countries. As a graduate of this course you'll have advanced knowledge and skills for professional research work and/or further study in early childhood education. You'll boost your career prospects in early childhood sectors, school settings and academic research context.

Following successful completion of this course, high-achieving students may be eligible to undertake PhD study.

## Professional recognition

This program has been approved by the Australian Children's Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire advanced knowledge and skills in professional teaching including teaching in early childhood and primary school educational contexts.</p> <p>Demonstrate coherent and advanced knowledge of the principles and concepts in early childhood education, and knowledge of appropriate research principles and methods.</p> <p>Acquire specialist knowledge and skills in of early childhood education that will enable them to be leaders in the field of early childhood capable of initiating and responding to change.</p>

## Research and research-related study

Independent research components are embedded across a number of units.

# Graduate Certificate of Specialist Inclusive Education

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Specialist Inclusive Education
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Cloud Campus</i>	Yes
<i>Duration</i>	1 year part time
<i>Deakin course code</i>	E544
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Certificate of Specialist Inclusive Education is designed for individuals interested in a pathway for further learning and employment in the area of inclusive education. The course services current demand for teacher and allied education staff professional development and certification around high quality educational provision for students with diverse educational needs.

You will develop advanced knowledge of contemporary education issues and graduate with high-level critical and evaluative skills. The course takes in to account the implementation of social justice policy and addresses the fundamental philosophy of access and success for people with diverse educational needs.

## Career opportunities

Graduate Certificate of Specialist Inclusive Education offers coursework equipping graduates with advanced practice skills and sophisticated knowledge transferable across a variety of educational sites, including mainstream and specialist contexts.

Elective unit options include specialist studies in a variety of teaching areas including literacy, numeracy and arts-based education. The program prepares graduates to take a critically reflective, research-oriented approach to their practice while opening up pathways for students wishing to pursue higher degree research studies.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

# Graduate Certificate of Teaching English to Speakers of other Languages (Education)

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Teaching English to Speakers of other Languages (Education)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	For students commencing T1 this course is 0.5 years full-time or part-time equivalent duration. For students commencing T2 this course is 1 year part-time.
<i>Deakin course code</i>	E552
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Certificate of Teaching English to Speakers of other Languages (Education) develops specialised expertise for teaching English as an additional language or dialect (EAL/D) in the primary, secondary and adult sectors both inside and outside of Australia.

This course is designed to provide qualified teachers eligible to teach in Australia with a grounding in the theory and practice of Teaching English to Speakers of other Languages and for experienced teachers who wish to develop their professional skills and knowledge in the discipline.

## Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for specialist teaching.

## Career opportunities

This course is designed to broaden the skills of those working as registered teachers in primary and secondary schools, by adding a VIT-endorsed specialist teaching method area in Teaching English to Speakers of Other Languages to their existing teacher registration.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire advanced and specialised knowledge of and the ability to apply the theoretical principles, concepts and methodologies which underpin contemporary approaches to TESOL
Communication	Effectively communicate to a range of audiences the key concepts relevant to TESOL including second language teaching methodologies, theories of second language acquisition, and structural aspects of language
Digital literacy	Have advanced knowledge of and technical proficiency in digital technologies that can be specifically used to creatively support TESOL
Critical thinking	Critically analyse and reflect on current theories in second language acquisition, TESOL principles and practice
Problem solving	Use advanced knowledge of second language teaching methodologies and understanding of the diverse needs of students to frame creative solutions to problems of pedagogy in TESOL and apply these in a range of classroom teaching scenarios
Self-management	Understand the importance of self-directed learning for professional growth and demonstrate responsibility for individual intellectual development
Teamwork	Collaborate effectively with others to achieve high standards and best practice in TESOL
Global citizenship	Appreciate the value of cultural and linguistic diversity and its place in TESOL and use knowledge of the sociocultural contexts of TESOL to enhance teaching and learning

Approved by Faculty Board 2015

## Course rules

To be awarded the Graduate Certificate of Teaching English to Speakers of other Languages (Education), students are required to successfully complete 4 credit points of core units and AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

### Core units

Students must complete the following 4 core units:

ETL700	Pedagogy for EAL Classrooms
ETL704	Innovation in Language Curriculum
ETL705	Pedagogic Grammar
ETL706	Reflective Practice in EAL and Languages Classrooms

## Professional experience placement

Students must ensure they have a current up to date Working with Children Check prior to going on placement.

<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Certificate of STEM Education at Deakin, is a newly developed program, responding to international and national calls for educators and others to be adept and efficient in dealing with the STEM challenges in schools and workplaces. The four units will provide the opportunity to deepen knowledge of STEM Curriculum, including Digital Technologies, reflect on teaching and leadership practice in STEM, learn more about STEM pedagogies that support engagement in learning, and enact and research these practices in work situations and with STEM colleagues.

The sequence of units is designed to move from personal insight into the nature of STEM learning and teaching and curriculum activities to support quality engagement, through to a focus on leading curriculum development and monitoring their own and school/workplace innovation in STEM.

## Career opportunities

Any educational role in a STEM industry field e.g. Frontier Materials Education Officer, or in an educational field with a focus on STEM eg Education Officer for the Zoo or a Science Centre.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

Students must complete 4 credit points of core units and AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

- ETM701 Knowledge, Learning and Learners in STEM
- ETM702 Designing Contemporary STEM education programs
- ETM703 Researching your practice as a STEM Educator and Leader
- ETM704 Supporting and Leading Development of Communities of STEM Practice

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

*This course replaces the Graduate Certificate of Higher Education (E570) from Trimester 2 2014.*

*This course is for continuing students only.*

## Course overview

Progress your career in tertiary education and enhance your understanding of teaching and learning.

This course teaches you the most effective ways to approach important tasks in tertiary education – from curriculum design, to assessment, to the leadership of teaching teams. This type of qualification is becoming increasingly valued across the higher education sector – both locally and internationally.

Our Graduate Certificate of Higher Education Learning and Teaching is suitable for all academics teaching undergraduate or postgraduate students, those in research supervision, as well as leaders and managers of higher education.

You'll also investigate your own teaching practices and contexts, so it's highly desirable that you're already engaged in tertiary teaching in some way.

## Career opportunities

As a graduate of the Graduate Certificate of Higher Education Learning and Teaching, you will advance your professional understanding and be prepared for academic undergraduate and postgraduate teaching, research supervision and for leadership roles in higher education, particularly in universities and tertiary institutions.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Articulation to Masters course

The Graduate Certificate may articulate into the Master of Education.

## Teaching methods

This course will be offered in Cloud (online) mode with online and distance education elements. Some face-to-face seminars will be available. Instruction will be provided through CloudDeakin, multimedia resources and recommended texts and readings.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Acquire advanced and specialised knowledge of the principles of contemporary curriculum design, pedagogy and evidence-based assessment and their application for teaching and learning in higher education.
Communication	Employ a range of oral and written communication skills and standards required of the higher education teacher and scholar to be able to transmit complex knowledge to a variety of audiences.
Digital literacy	Select and use a range of digital technologies and data sources to search, analyse, report, evaluate and communicate within the practice and scholarship of teaching.
Critical thinking	Critically review, analyse and synthesise complex ideas and make informed judgements to improve teaching and learning in higher education.
Problem solving	Use specialist knowledge and cognitive skills to analyse and review key drivers, challenges and trends impacting higher education, identify implications for teaching and scholarship by drawing on relevant theories of learning and recommend a range of approaches and solutions.
Self-management	Apply an evidence-based approach to critical self-reflection in relation to teaching and learning, and have a commitment to ongoing, self-directed professional development.
Teamwork	Work collaboratively in an interdisciplinary team to create solutions to authentic problems of practice in higher education.
Global citizenship	Apply ethical and professional standards to engage with key challenges in teaching and learning globally, within diverse socioeconomic, cultural and religious contexts.

Approved by Faculty Board June 2014

## Course rules

The course requires the completion of 4 credit points comprising four core units and AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

### Core units

- EEE730 Contextualising Learning and Teaching in Higher Education
- EEE731 Designing, Teaching and Assessing Higher Education Programs (OR EEE726 Digital Learning, Design and Assessment)
- EEE732 HDR Supervision
- EEE733 The Scholarship of Learning and Teaching

<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

*Note: This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of our five Master of Teaching courses or E730 Master of Applied Learning and Teaching.*

## Course overview

The Graduate Certificate of Teaching English to Speakers of other Languages develops specialised skills and knowledge for professional practice in Teaching English to Speakers of other Languages (TESOL). This course is designed to provide international candidates and those who are eligible to work in adult education in Australia with a grounding in the theory and practice of Teaching English to Speakers of other Languages. It is also useful for experienced teachers in adult education who wish to develop their professional skills and knowledge in the discipline.

It is not an initial TESOL teaching qualification in Australia.

## Career opportunities

This course is designed to provide professional development for teaching English to speakers of other languages in adult education contexts and for teaching English overseas.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Acquire specialist knowledge and understanding of contemporary socio-cultural, linguistic and pedagogical knowledge required in a range of language-related, professional learning and educational contexts.</p> <p>Acquire a specialist understanding of contemporary English as a global language, the socio-cultural contexts of teaching, learning and using of English, the institutional context of the teaching and learning of English, including curriculum design, pedagogy, evidence-based assessment and program evaluation.</p> <p>Apply socio-cultural, linguistic and pedagogical knowledge in a range of international professional learning and educational contexts in particular the teaching of English in diverse linguistic cultural, religious and socio-economic context.</p>
Communication	Employ a range of oral and written communication skills and standards required of professional educators and learning professionals to be able to transmit complex knowledge in one or more languages to students from diverse cultural and linguistic backgrounds and in professional and scholarly contexts.
Digital literacy	<p>Develop knowledge of and proficiency in a range of digital technologies to teach languages and analyse, report, evaluate and communicate within education contexts and in online contexts in particular.</p> <p>Understand digital literacies and use digital technologies to mediate the teaching and learning of languages</p>
Critical thinking	<p>Engage critically with ideas, practices, skills and knowledges in language education by using socio-cultural theory of language pedagogy and applied linguistics.</p> <p>Develop high level skills in the critical analysis and synthesis of complex ideas in professional practice in education.</p>
Problem solving	Demonstrate specialist knowledge of relevant learning theories to identify, analyse and evaluate authentic problems of practice, and generate informed and innovative solutions.
Self-management	Apply the knowledge and skills required of professional educators and learning professionals to demonstrate autonomy, leadership and expert judgement, adaptability and responsibility in education contexts and for further learning.
Teamwork	Work effectively and collaboratively in an interdisciplinary team to create solutions to authentic problems of practice.
Global citizenship	Develop an understanding of issues relating to the ethical and responsive teaching of languages in diverse communities, in a global context and to students with diverse linguistic, cultural, religious and socio-economic backgrounds.

Approved by Faculty Board June 2014

## Course rules

Students must complete 4 credit points of core units as detailed below and AAI018 Academic Integrity (0-credit-point compulsory unit).

## Course structure

### Core units

ETL701	TESOL Method
ETL702	Linguistics for Second Language Teachers
ETL708	Language Teaching in Practice
ETL711	Learning An Additional Language

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Under certain circumstances students may be permitted access to practicum experience necessary for employment in adult education.

# Graduate Certificate of Education Research

Year	2019 course information
Award granted	Graduate Certificate of Education Research
Course Map	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
Campus	This course is only offered in Cloud (online) mode
Cloud Campus	Yes
Duration	1.3 year part-time or equivalent. <i>Note: It is recommended to be completed over four trimesters</i>
Deakin course code	E590
Approval status	This course is approved by the University under the Higher Education Standards Framework
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Certificate of Education Research provides a grounding in education research theories, methodologies, design, ethics and conduct for those who have gained an Education related qualification, or a Bachelor degree or higher in any discipline PLUS three years relevant work experience but are ineligible for a Doctor of Philosophy (PhD). Participants design and conduct a guided research project and develop a Research Paper.

Graduates will develop knowledge and skills in:

- identification of an issue in education and design of a related research study
- evaluation of research in education through understanding a range of research theories and methodologies
- conduct of a guided education research project
- engagement with a community of education researchers through knowledge exchange
- creation of shareable products that adhere to the conventions of research including a research paper that reports on the project

## Career opportunities

The Graduate Certificate of Education Research supports development of research projects and research capacities required for contemporary leadership in education. For those who achieve 70+ on their Research Paper, it also provides a pathway into a PhD at Deakin University.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Pathways

Result of 60–69 marks in EDX704 Research Paper B is a pathway to Master of Education (Research) with opportunity to upgrade to a PhD at Colloquium.

Result of 70+ marks in EDX704 Research Paper B is a pathway to a PhD.

## Research information

The four unit sequence comprises two research training units which provide foundational specialist research training knowledge; and two units wherein a guided research project in a specialist area is undertaken with assistance from an academic supervisor.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate specialist knowledge of contemporary research methodologies and traditions; apply this knowledge to the critique and conduct of research in a range of education contexts.
Communication	Employ a range of oral and written communication strategies required of professional educators and learning professionals to be able to critique and conduct research in professional and scholarly contexts.
Digital literacy	Apply advanced digital skills to select appropriate digital technologies to research, analyse, report, evaluate and communicate within education research contexts.
Critical thinking	Demonstrate specialist skills in critical analysis and synthesis of complex ideas in education research contexts.
Problem solving	Analyse critically issues and problems in education research contexts and generate approaches to examine them appropriately
Self-management	Apply the knowledge and skills required of professional educators and learning professionals to demonstrate autonomy, judgement, adaptability and ethical behaviours and responsibility in education research contexts.

*Approved by Faculty Board August 2017*

# Graduate Certificate of Digital Learning Leadership

<i>Year</i>	2019 course information
<i>Award granted</i>	Graduate Certificate of Digital Learning Leadership
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Duration</i>	1 to 1.5 years part time
<i>Deakin course code</i>	E598
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

The Graduate Certificate of Digital Learning Leadership offers experienced educators a validated, practice-based model of learning that warrants their capabilities in digital. It is suitable for those with significant professional experience relevant to digital learning contexts, including those without an undergraduate degree in the domain.

## Indicative student workload

Successful students typically spend about 150 hours in learning and assessment for each one credit point unit. The time required to prepare evidence for credential assessment varies based on the student's existing documentation.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Successful students in this course will be able to demonstrate:

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Capacity to use advanced technologies and specialised knowledge to create effective and engaging learning experiences across a wide range of disciplines and contexts
Communication	Using advanced design, analytics, visualisation, and instructional approaches to create accessible and engaging digital learning experiences
Digital literacy	Create compelling digital learning solutions using a range of channels appropriate to the users' device and location
Critical thinking	Systematically investigate and critically evaluate new technologies, methodologies and theories of learning and teaching in online environments

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Apply advanced problem solving skills to conceptualise, design, construct, test and validate innovative digital learning solutions
Self-management	Sustain self-directed professional development to keep pace with innovation and actively transfer advanced theory and skills into the creation of effective digital learning and teaching solutions
Teamwork	Use advanced technologies and media for professional collaboration and improve the individual and group learning and teaching experience
Global citizenship	Develop and manage learning strategies and systems sensitive to the ethical, social and cultural contexts and different user requirements

Approved by Faculty Board October 2016

## Course rules

To qualify for the Graduate Certificate of Digital Learning Leadership, a student must successfully complete:

- 2 credit points in coursework units
- 4 Professional Practice credentials and
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Introductory unit

EEE726 Digital Learning, Design and Assessment

### Credentials

Students must successfully complete the following Professional Practice credentials based on evidence from their own professional practice. The credentials may be attempted separately or simultaneously and are assessed by an assessment panel that includes both academic and industry representatives.

You will have six months to complete a credential from the time of enrolment.

Credential	Code	Must have been achieved with the previous*
Digital Learning Professional Expertise 1 (Broad)	CRXBD-A1	3 years
Communication	CRCOM-A1	5 years
Critical thinking	CRCRI-A1	5 years
Digital literacy	CRDIL-A1	5 years

\* Applicants who have not satisfied the AQF level requirement, or who have successfully achieved the credential but not within the required timeframe may be permitted to seek re-credentialing.

### Capstone unit

EDE798 Cloud and Online Learning Practice

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Education

<i>Award granted</i>	Master of Education
<i>Campus</i>	Offered at Burwood (Melbourne) and Cloud (online)
<i>Cloud Campus</i>	No
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	E700

*Offered to continuing students only from 2015*

## Course overview

The Master of Education is offered to professional educators. Graduates will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; translate into practice your experiences and understandings of the program; and have demonstrated their ability to undertake educational research projects.

## Course rules

Students must complete 8 credit points in one of the following configurations:

- 8 credit points of electives chosen from any units at Masters level offered by the School of Education.
- 4 credit points of electives chosen from any units at Masters level offered by the School of Education, plus 4 credit points of research preparation and research paper.
  - EDX701 Research Design Development and Method (Formerly EXR781/EXR782)
  - EDX712 Theory and Methodology in Education Research (Formerly EDX702, EXR791)
  - EDX703 Research Paper A (Formerly EXR796)
  - EDX704 Research Paper B (Formerly EXR797)
- 2 credit points of electives chosen from any units at Masters level offered by the School of Education, plus 6 credit points of research preparation and minor thesis.
  - EDX701 Research Design Development and Method (Formerly EXR781/EXR782)
  - EDX712 Theory and Methodology in Education Research (Formerly EDX702, EXR791)
  - EDX705 Minor Thesis A (2 credit points) (Formerly EXR798)
  - EDX706 Minor Thesis B (2 credit points) (Formerly EXR799)

# Master of Applied Learning and Teaching

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Applied Learning and Teaching
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is offered in Cloud (online) mode.  <i>Please note students will be required to attend intensives on campus at Waurn Ponds</i>
<i>Duration</i>	2 years full-time (with the option to complete in 1.5 years if taken over 4 consecutive trimesters), or part-time equivalent
<i>Deakin course code</i>	E730
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Pipelining course version*

## Course overview

The Master of Applied Learning and Teaching is a secondary teacher qualification which qualifies you to work in secondary schools and other youth settings such as the Victorian Certificate of Applied Learning (VCAL) and the Vocational Education and Training System (TAFE).

The course uses a problem-based approach that is closely aligned with authentic school improvement initiatives and linking theory and practice through strong work-integrated learning partnerships. The course focuses on the middle years and upper years of schooling and has a strong emphasis on experiential and applied learning pedagogies which enhance student engagement. You will be asked to engage critically with your developing expertise in teaching practice and be open to contemporary ideas and research, challenging traditional transmissive approaches to teaching and responding to a need for greater cultural diversity and inclusivity in patterns of Australian educational participation.

## Indicative student workload

Successful students typically spend about 150 hours in learning and assessment for each one credit point unit. The time required to prepare evidence for credential assessment varies based on the student's existing documentation.

## Professional recognition

This initial teacher program is approved by the Victorian Institute of Teaching (VIT) against the National Graduate Teacher standards for the purposes of teacher registration in Victoria. Graduates intending to apply for registration in Victoria should carefully check all VIT requirements relating to this process.

## Career opportunities

The Master of Applied Learning and Teaching aims to prepare graduate teachers with the advanced professional knowledge, skills and attributes required of educators working in high schools and other youth learning contexts where applied and vocational learning are being implemented.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Alternate exits

E530

## Research information

Students are able to undertake one of three options for research training and research in the course. Each option has a common foundation that is based on an introductory unit of one credit point in research design and method. This research study is then further supported by one of the three research options:

- Option 1: application of the research training through a one credit point research based project for professional practice;
- Option 2: advanced research training of one credit point of either quantitative or qualitative research methods; and Research Paper (2 credit points);
- Option 3: advanced research training of one credit point of either quantitative or qualitative research methods; and Minor Thesis (4 credit points).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Apply an advanced and integrated understanding of current theories of young people's social and cognitive development, learning and curriculum development as applied to the middle and later years of schooling, principles and applications of applied learning in a range of educational contexts, critical perspectives on cultural diversity, social disadvantage and barriers/enablers to young people's learning and educational success, research informing literacy and numeracy development and applied strategies for youth engagement in schooling, critical engagement with contemporary policy informing educational practice, social justice and schooling, research informing the analysis and use of data for improvement in teaching and learning.</p> <p>Research and reflect critically on professional practice and the scholarship of teaching.</p>
Communication	<p>Use professional judgment to engage in effective and inclusive interpersonal, oral, written and electronic communication skills to create positive learning relationships with students, parents, colleagues and stakeholders.</p> <p>Apply expert and specialised cognitive, communicative and professional skills to motivate learning in the middle and later years, and independently and collaboratively create new knowledge informing change and improvement in teachers' professional practice.</p>
Digital literacy	<p>Select, create, apply and evaluate a range of digital teaching and learning resources and technologies to facilitate creative but safe student engagement in learning in accordance with responsible and ethical practice.</p>

Deakin graduate learning outcomes	Course learning outcomes
Critical thinking	Apply contemporary theories of learning and research to critically evaluate and synthesise context-specific information relating to students' learning outcomes, including formative/summative assessment data, to evaluate teaching approaches and make informed judgements about appropriate pedagogical and assessment strategies to be applied in the middle and later years of schooling
Problem solving	Demonstrate autonomy and critical thinking to investigate authentic problems of professional practice specifically addressing issues of student engagement in learning and inclusive educational practices, and apply professional knowledge, skills and expert judgment in the development and implementation of informed solutions.
Self-management	Participate actively as a member of the teaching profession, demonstrating engagement with professional networks and the autonomous development of a responsive professional learning plan.
Teamwork	Work effectively and collaboratively within the context of professional practice and in an interdisciplinary team to create solutions to authentic problems of teaching practice.
Global citizenship	Apply advanced knowledge and skills as an educator to develop learning environments and experiences that address cultural diversity and socioeconomic factors to positively influence students' learning.  Demonstrate and apply the legal and ethical standards required in the teaching profession.

Approved by Faculty Board 2014

## Course rules

To be awarded a Master of Applied Learning and Teaching, students are required to successfully complete 16 credit points comprising:

- 10 credit points of core units
- 6 credit points in one of the following 3 configurations:
  - Option 1: Research Project
    - » EDX701, EDX707 plus 4 credit points of electives from the list below
  - Option 2: Research Paper
    - » EDX701, EDX712, EDX703, EDX704 plus 2 credit points of electives from the list below
  - Option 3: Minor Thesis
    - » EDX701, EDX712, EDX705 (2 credit points) and EDX706 (2 credit points)
- AAI018 Academic Integrity (0-credit-point compulsory unit)

Students must additionally complete TAE40110 – Certificate IV in Training and Assessment with a Registered Training Provider prior to graduation.

In addition to 75 days of professional experience in schools, students will complete 10 unsupervised professional development days.

Students are also required to complete below two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate from their course.

## Course structure

### Core units

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)
ECN704	Applied Learning: Theories and Practice
ECN720	Youth Cultures and Learning Pathways
ECN721	Introduction to Teaching: Middle Years
ECN723	Middle Years Teaching Strategies (Years 5-9)
ECN724	Later Years Teaching Strategies (Years 10–12)
ECN725	Teaching Strategies for Vocational Pathways
ECN726	Teaching Literacy and Numeracy
ECN728	Indigenous Students and Cultural Diversity
ECN730	Introduction to Teaching: Later Years
ECN731	Becoming a Teacher in the 21st Century: From Novice to Graduate

### Elective units

ECN722	Assessment Frameworks and Equity in the Workplace
ECN729	Teaching Aboriginal and Torres Strait Islander Students
EEG701	Contemporary Issues in International Education
EIE701	Personalising Learning
EIE703	Designing Engagement for Learning
EXE732	Social Justice and Difference
ECN727	Working with Data for School Improvement

### Research units

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX703	Research Paper A
EDX704	Research Paper B
EDX705	Minor Thesis A (2 credit points)
EDX706	Minor Thesis B (2 credit points)
EDX707	Independent Research Project for Professional Practice

## Professional experience placement

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>.

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Education (Leadership and Management)

<i>Deakin course code</i>	E732
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Note: This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of our Master of Teaching courses or E730 Master of Applied Learning and Teaching*

## Course overview

The management of learning is becoming a feature of many complex organisations that see themselves as ‘learning organisations’. This course explores what might constitute the responsibilities of those involved in managing such organisations and the learning processes within them. While schools are a focus of much of the work in this program the basic ideas are equally applicable to other learning organizations and those who work within them.

As a graduate of this course you will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; translate into practice your experiences and understandings of the program; and select appropriate research methods and techniques for educational research projects.

## Career opportunities

Graduates of this course enhance their professional standing and opportunities for promotion to leadership positions within the school teaching sector and allied areas.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin’s website for more information.

## Research information

Students are able to undertake one of two options for research training and research in the course. Each option has a common foundation that is based on an introductory unit of one credit point in research design and method. This research study is then further supported by one of the three research options:

- Option 1: advanced research training of one credit point of either quantitative or qualitative research methods; and Research Paper (2 credit points);
- Option 2: advanced research training of one credit point of either quantitative or qualitative research methods; and Minor Thesis (4 credit points).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Use advanced and integrated understanding of the development of contemporary educational management and leadership in evidence based research in the field of educational management and leadership and apply theoretical knowledge to practice in a range of professional learning and educational contexts.
Communication	Employ a range of oral and written communication skills and standards required of professional educators and learning professionals to be able to transmit complex knowledge in professional and scholarly contexts.
Digital literacy	Demonstrate knowledge of and proficiency in a range of digital technologies to research, analyse, report, evaluate and communicate within education contexts and for further learning.
Critical thinking	Demonstrate high level skills in the critical analysis and synthesis of complex ideas in research and professional practice in the discipline of education.
Problem solving	Demonstrate expert and specialist knowledge of relevant learning theories to identify, analyse and evaluate authentic problems of practice, and generate informed and innovative solutions.
Self-management	Apply the knowledge and skills required of professional educators and learning professionals to demonstrate autonomy, leadership and expert judgement, adaptability and responsibility in education contexts, research and for further learning.
Teamwork	Work effectively and collaboratively in an interdisciplinary team to create solutions to authentic problems of practice.
Global citizenship	Demonstrate high level understanding of, and the capacity to engage ethically and productively in professional contexts with diverse communities and in a global context.

*Approved by Faculty Board June 2014*

## Course rules

The Master of Education (Leadership and Management) is typically 8 or 12 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To qualify for the award of Master of Education (Leadership and Management), students must successfully complete the following:

### Option 1

- 4 credit points of core units
- 4 credit points of research units (EDX701, EDX712, EDX703, EDX704)
- 4 credit points of electives from a single specialist strand

### Option 2

- 4 credit points of core units
- 6 credit points of research units (EDX701, EDX712, EDX705 (2cp), EDX706 (2cp))
- 2 credit points of electives from a single specialist strand

and

AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

ECM710	An Inquiry Based Approach to Leading with Data and Evidence
ECM711	Education Governance and Policy
ECM712	Education Leadership in Changing Times
ECM713	Education Leadership Development and Capacity Building

### Option 1

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX703	Research Paper A
EDX704	Research Paper B

plus 4 electives from a single specialist strand

### Option 2

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX705	Minor Thesis A (2 credit points)
EDX706	Minor Thesis B (2 credit points)

plus 2 electives from a single specialist strand

## Specialist strands

### ***Professional Education and Training***

- ECJ723 Applied Learning in the Post-compulsory Education and Training Sector [No longer available for enrolment – students are invited to contact the Course Director for advice on alternative units]
- ECN704 Applied Learning: Theories and Practice
- ECN722 Assessment Frameworks and Equity in the Workplace
- EXE731 Professional Learning and Development

### ***International Education***

- EEG701 Contemporary Issues in International Education
- EEG702 Professional Learning Theory and Practice in International Education
- EEG703 Governance and Capacity Building in International Education
- EEG704 Internationalising Curriculum in Education

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Students undertake two units of research training and either a 2 or 4 unit research paper/minor thesis as part of this course. Together, these units comprise a research pathway that is common to all courses within the Deakin education Master of Education suite of courses. Students who achieve a grade of Distinction or higher for their research paper/minor thesis are eligible for admission to a Deakin PhD.

# Master of Education (Special Educational Needs)

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Education (Special Educational Needs)
<i>Duration</i>	1.5 years full-time or part-time equivalent
<i>Deakin course code</i>	E734 (version 1)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Note: This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of our five Master of Teaching courses or E730 Master of Applied Learning and Teaching.*

*Note: Offered to continuing students only. Continuing students should contact their course advisor for further information. Further course structure information can be found in the handbook archive.*

## Course overview

The Master of Education (Special Educational Needs) is designed for qualified teachers interested in a pathway for further learning and employment in the area of special educational needs. This course is conducted via Cloud (online) mode and consists of twelve credit points taken over one and a half years of full-time study or up to three years of part-time study.

As a graduate of this course you will possess advanced knowledge of contemporary education issues and discourses; have high-level critical and evaluative research skills; and translate your understandings of individualised, inclusive educational programs into practice. The course takes in to account the implementation of social justice policy and addresses the fundamental philosophy of access and success for people with diverse educational needs.

The Master of Education (Special Educational Needs) is an externally accredited program that meets the requirements of the Department of Education and Training Victoria and the Victorian Institute of Teaching guidelines for special education. The requirements within the two professional experience units EEI700 and EEI716 include 15 days of supervised teaching experience, a supervised case study (15 days or equivalent) and 15 days of professional development activities e.g. seminars related to specialist/inclusive education.

Please note that EEI700 and EEI716 may be completed in a specialised area such as vision impairment where supervision would be conducted by a member from the visiting teacher service.

## Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for meeting the Specialist Area Guidelines for Special Education, for already qualified teachers.

## International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. You are advised to read the VIT's Qualification for Teachers Registration policy carefully.

## Alternative exits

E544, E500.

## Research information

Students are able to undertake one of three options for research training and research in the course. Each option has a common foundation that is based on an introductory unit of one credit point in research design and method. - Option 1: application of the research training through a one credit point research based project for professional practice;
- Option 2: advanced research training of one credit point of either quantitative or qualitative research methods; and Research Paper (2 credit points);
- Option 3: advanced research training of one credit point of either quantitative or qualitative research methods; and Minor Thesis (4 credit points).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To be awarded a Master of Education (Special Educational Needs), students are required to successfully complete 12 credit points including:

- AAI018 Academic Integrity (0-credit-point compulsory unit) and
- 4 credit points of compulsory core units (EEI714, ECP703, EXE732, EEI715) and
- 2 credit points of professional experience units (EEI700 and EEI716) and
- 6 credit points of study that combine research and elective units in one of following three options:

### Option 1

- 2 credit points of research units (EDX701 and EDX707)# and
- 4 credit points of elective units selected from ESP701, ESM701, ECP711, EEL702, ESP703

### Option 2

- 4 credit points of research units including a 2cp research paper (EDX701, EDX712, EDX703, EDX704)# and
- 2 credit points of elective units selected from ESP701, ESM701, ECP711, EEL702, ESP703

### Option 3

- 6 credit points of research units which include a minor thesis (EDX701, EDX712, EDX705 and EDX706)#

# EDX coded units formerly EXR coded units.

## Course structure

### Core units

ECP703	Child Protection
EEI714	Individualised Program Planning
EEI715	Effective Classroom Management: Positive Learning Environments
EXE732	Social Justice and Difference

### Professional experience units

EEI700	Practicum Case Study
EEI716	Practicum: Special Educational Needs

### Elective units

ECP711	Creativity and the Arts in Childhood
EEL702	New and Traditional Literacies and Diverse Student Needs
ESM701	Teaching Mathematics Successfully
ESP701	Education and Development of Exceptional Learners
ESP703	Student Welfare and Discipline Issues (No longer available for enrolment)

*Note: it is recommended that students select ESP701 and ESP703 [ESP703 No longer available for enrolment] as particularly suitable for teachers of special needs students.*

### Research units

- EDX701 Research Design Development and Method (Formerly EXR781/EXR782)
- EDX712 Theory and Methodology in Education Research
- EDX703 Research Paper A (Formerly EXR796)
- EDX704 Research Paper B (Formerly EXR797)
- EDX705 Minor Thesis A (2 credit points) (Formerly EXR798)
- EDX706 Minor Thesis B (2 credit points) (Formerly EXR799)
- EDX707 Independent Research Project for Professional Practice (Formerly EXR783)

# Master of Specialist Inclusive Education

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Specialist Inclusive Education
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Cloud Campus</i>	Yes
<i>Duration</i>	Depending on your professional experience and previous qualifications, the Master of Specialist Inclusive Education is typically between 1 year full time (2 years part time) – 8 credit points, and 1.5 years full time (3 years part time) – 12 credit points. Deakin courses can also be studied part time over a longer period.
<i>Deakin course code</i>	E734 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Note: This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of our five Master of Teaching courses or E730 Master of Applied Learning and Teaching.*

## Course overview

The Master of Specialist Inclusive Education is designed for qualified teachers interested in a pathway for further learning and employment in the area of specialist inclusive education. You will develop advanced knowledge of contemporary education issues and discourses and graduate with high-level critical and evaluative research skills. The course takes in to account the implementation of social justice policy and addresses the fundamental philosophy of access and success for people with diverse educational needs.

The course services current demand for teacher professional development and certification around high quality educational provision for students with diverse educational needs. The course promotes authentic learning providing students with professional experiences related to the skills and practices required by specialist teachers in schools, and where possible, to alternative formal educational contexts.

## Professional recognition

The Master of Specialist Inclusive Education [formally Master of Education (Special Educational Needs)] holds VIT program endorsement through to June 2020.

## International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. You are advised to read the VIT's Qualification for Teachers Registration policy carefully.

## Career opportunities

The Master of Specialist Inclusive Education and the Graduate Certificate of Specialist Inclusive Education offer coursework equipping graduates with advanced practice skills and sophisticated knowledge transferable across a variety of educational sites, including mainstream and specialist contexts. In addition, the Master of Specialist Inclusive Education provides research training and investigation options as part of the course. Elective unit options include specialist studies in a variety of teaching areas including literacy, numeracy and arts-based education.

The programs prepare graduates to take a critically reflective, research-oriented approach to their practice while opening up pathways for students wishing to pursue higher degree research studies.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Alternative exits

E544.

## Research information

Students are able to undertake one of three options for research training and research in the course. Each option has a common foundation that is based on an introductory unit of one credit point in research design and method. This research study is then further supported by one of the three research options:

- Option 1: application of the research training through a one credit point research based project for professional practice;
- Option 2: advanced research training of one credit point of either quantitative or qualitative research methods; and Research Paper (2 credit points);
- Option 3: advanced research training of one credit point of either quantitative or qualitative research methods; and Minor Thesis (4 credit points).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Integrate, analyse, evaluate and critically review inclusive education theoretical foundations and practices, and create and apply specialist pedagogies, curriculum and assessments across a range of educational contexts.
Communication	Develop personal, professional and scholarly communication strategies for application to varied channels of communication (including oral, written, digital and/or augmented) that effectively supports partnerships between specialist and non-specialist stakeholders of inclusive learning in diverse contexts.
Digital literacy	Critically analyse, design, implement and evaluate high quality, credible, adaptive digital resources to support equitable access, participation and engagement in learning for all students.
Critical thinking	Analyse the interrelationship between philosophies, theories and practices of inclusive education to inform strategies that advance equitable access and positive learning outcomes for students and complex learning partnerships.

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Critically analyse, reflect and use professional and ethical judgement to realise creative, positive and inclusive solutions to complex teaching and learning problems across a range of learning partnerships.
Self-management	Actively engage in critical reflective practice and ongoing professional learning and support the development of inclusive communities of practice, cross-disciplinary dialogue and scholarship.
Teamwork	Collaborate, build, contribute to and lead learning partnerships and multidisciplinary teams across a range of diverse contexts to advance the inclusive learning and development of all learners.
Global citizenship	Analyse national and international practice and theory of inclusive education in relation to legal, ethical and policy frameworks to address issues of equity and social justice across diverse communities in a global context.

Approved by Faculty Board July 2017

## Course rules

The Master of Specialist Inclusive Education is typically 12 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To be awarded a Master of Specialist Inclusive Education, students are required to successfully complete the following:

- AAI018 Academic Integrity (0 credit point compulsory unit)
- 3 credit points of compulsory core units (EIE702, EXE732, EEI715)
- 3 credit points of professional experience units (EEI703, EEI704 and EEI705)
- 6 credit points of study that combine research and elective units in one of the following three options:

### Option 1

- 2 credit points of research units (EDX701 and EDX707); and
- 4 credit points of elective units selected from ESP701, ESM701, ECP711, EEL702, ESP707, ECP703, EIE704, ECM711, ECM712

### Option 2

- 4 credit points of research units including a 2 credit point research paper (EDX701, EDX712, EDX703, EDX704); and
- 2 credit points of elective units selected from ESP701, ESM701, ECP711, EEL702, ESP707, ECP703, EIE704, ECM711, ECM712

### Option 3

- 6 credit points of research units which include a minor thesis (EDX701, EDX712, EDX705 and EDX706)

## Course structure

### Core units

- EIE702 Teaching and Learning in the Inclusive Classroom  
 EXE732 Social Justice and Difference  
 EEI715 Effective Classroom Management: Positive Learning Environments

### Professional experience units

- EEI703 Personalised Program Planning  
 EEI704 Advanced Inclusive Practice  
 EEI705 Practicum: Specialist Inclusive Education

### Research options

#### *Option 1*

2 credit points of research units

- EDX701 Research Design Development and Method  
 EDX707 Independent Research Project for Professional Practice

PLUS

4 credit points of electives

#### *Option 2*

4 credit points of research units including a 2 credit point research paper

- EDX701 Research Design Development and Method  
 EDX712 Theory and Methodology in Education Research  
 EDX703 Research Paper A  
 EDX704 Research Paper B

PLUS

2 credit points of electives

#### *Option 3*

6 credit points of research units which include a minor thesis

- EDX701 Research Design Development and Method  
 EDX712 Theory and Methodology in Education Research  
 EDX705 Minor Thesis A (2 credit points)  
 EDX706 Minor Thesis B (2 credit points)

### Elective units

- ESP701 Education and Development of Exceptional Learners  
 ESM701 Teaching Mathematics Successfully  
 ECP711 Creativity and the Arts in Childhood  
 EEL702 New and Traditional Literacies and Diverse Student Needs  
 ECP703 Child Protection  
 EIE704 Supporting Communication in Inclusive Classrooms  
 ESP707 Psychology in Education  
 ECM711 Education Governance and Policy  
 ECM712 Education Leadership in Changing Times

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Education (Leadership and Management)

Year	2019 course information
Award granted	Master of Education (Leadership and Management)
Duration	2 years full-time or part-time equivalent
Deakin course code	E740

*Offered to continuing students only*

## Course overview

The Master of Education (Leadership and Management) is offered to professional educators.

The management of learning is becoming a feature of many complex organisations that see themselves as 'learning organisations'. This course explores what might constitute the responsibilities of those involved in managing such organisations and the learning processes within them. While schools are a focus of much of the work in this program the basic ideas are equally applicable to other learning organizations and those who work within them.

## Course rules

To be awarded a Master of Education (Leadership and Management), students are required to successfully complete 16 credit points in one of the following configurations:

### Option 1

Students must successfully complete:

- 4 credit points of foundational units
- 4 credit points of core units
- 4 credit points of research units (\*EDX701, EDX712, EDX703, EDX704)
- 4 credit points of electives from a single specialist strand

### Option 2

Students must successfully complete:

- 4 credit points of foundational units
- 4 credit points of core units
- 6 credit points of research units (\*EDX701, EDX712, EDX705, EDX706)
- 2 credit points of electives from a single specialist strand

\* EDX coded units formerly EXR coded units.

## Course structure

### Foundational units

EXE721	Assessment and Learning (No longer available for enrolment)
EXE722	Curriculum and Pedagogy (No longer available for enrolment)
EXE735	Evaluation: Improvement and Accountability (No longer available for enrolment)
EXE736	Knowledge, Learning and Learners (No longer available for enrolment)

### Core units

ECM704	Introduction to Educational Leadership and Administration (no longer available for enrolment)
ECM706	Education, Governance, Quality and Accountability (no longer available for enrolment)
EXE737	Leading and Managing Learning Organisations (no longer available for enrolment)
EXE738	Policy Studies in Global and Local Contexts (no longer available for enrolment)

## Research units

- EDX701 Research Design Development and Method (Formerly EXR781/EXR782)
- EDX712 Theory and Methodology in Education Research (Formerly EDX702, EXR791)
- EDX703 Research Paper A (Formerly EXR796)
- EDX704 Research Paper B (Formerly EXR797)
- EDX705 Minor Thesis A (2 credit points) (Formerly EXR798)
- EDX706 Minor Thesis B (2 credit points) (Formerly EXR799)

## Specialist strands

### ***Professional Education and Training***

- ECJ723 Applied Learning in the Postcompulsory Education and Training Sector [No longer available for enrolment]
- ECN704 Applied Learning: Theories and Practice
- ECN722 Assessment Frameworks and Equity in the Workplace
- EXE731 Professional Learning and Development

### ***International Education***

- EEG701 Contemporary Issues in International Education
- EEG702 Professional Learning Theory and Practice in International Education
- EEG703 Governance and Capacity Building in International Education
- EEG704 Internationalising Curriculum in Education

# Master of Education (Special Educational Needs)

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Education (Special Educational Needs)
<i>Duration</i>	1 year full-time or part-time equivalent
<i>Deakin course code</i>	E744SP

*Offered to continuing students only.*

## Course overview

The Master of Education (Special Educational Needs) is designed for qualified teachers interested in a pathway for further learning and employment in the area of special educational needs.

## Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) as meeting the Specialist Area Guidelines for Special Education, for already qualified teachers.

## Alternate exits

E544

# Master of Education (Teaching English to Speakers of other Languages)

Year	2019 course information
Award granted	Master of Education (Teaching English to Speakers of other Languages)
Duration	1.5 years full-time or part-time equivalent
CRICOS course code	027532E
Deakin course code	E753

*Note: This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of the Master of Teaching courses or E730 Master of Applied Learning and Teaching*

*Major changes are happening to this course for 2016. For enrolment advice please contact Student Services.*

*Offered to continuing students only*

## Course overview

This course is designed for qualified\* TESOL professionals wishing to develop their understandings of current practice and issues in English language teaching in Australia and overseas. It is also suitable for qualified teachers who are newcomers to the field of TESOL, as the first four core units explore the key principles and practices in contemporary English language teaching.

A number of adult EAL settings and programs may also require this level of qualification for employment purposes.

Applicants without a recognised teaching qualification and who are working in the field of adult education or in overseas countries may undertake the Master of TESOL E758 course.

\* Applicants who wish to teach English to speakers of other languages (TESOL) within the school sector and in most adult English education centres in Victoria must meet specific content and practical teaching requirements in the Master of Education in the related specialist field, as well as having a recognised teaching qualification which permits them to be employed as a teacher in Victoria.

## Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for specialist teaching in combination with an approved preservice education qualification.

## International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. You are advised to read the VIT's Qualification for Teachers Registration policy carefully.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To be awarded a Master of Education (TESOL), students are required to successfully complete 12 credit points comprising:

- 4 credit points of compulsory core units (ETL700, ETL704, ETL705, ETL706); and
- 8 credit points of study as a combination of research and elective units in one of the following three options:

### Option 1:

- 2 credit points of research units (\*EDX701 and EDX707) and
- 6 credit points of TESOL/TLOTE electives

### Option 2:

- 4 credit points of research units including a 2cp research paper (\*EDX701, EDX712, EDX703, EDX704) and
- 4 credit points of TESOL/TLOTE electives

### Option 3:

- 6 credit points of research units including a 4cp thesis (\*EDX701, EDX712, EDX705, EDX706) and
- 2 credit points of TESOL/TLOTE electives

*Note: Option 3 provides a research pathway for students to apply for entry to PhD.*

\* EDX coded units formerly EXR coded units.

## Course structure

### TESOL Coursework units:

#### Core units

ECL751	Pedagogy in the Globalised Language Classroom is no longer available for enrolment. Students are advised to complete the following unit:
ETL700	Pedagogy for EAL Classrooms
ECL752	Innovation in Language Curriculum is no longer available for enrolment. Students are advised to complete the following unit:
ETL704	Innovation in Language Curriculum
ECL753	Linguistics for Language Teaching is no longer available for enrolment. Students are advised to complete the following unit:
ETL705	Pedagogic Grammar
ECL755	Professional Practice in TESOL or LOTE is no longer available for enrolment. Students are advised to complete the following unit:
ETL706	Reflective Practice in EAL and Languages Classrooms

*NOTE: ETL706 Reflective Practice in EAL and Languages Classrooms incorporates professional experience of 22 days of supervised teaching practice in TESOL. As a capstone unit at a post service level its main focus is to allow students to be reflective and analytic of the TESOL principles taught in the course as they are evidenced in real classrooms. This capstone unit also includes professional practice to meet Victorian Institute of Teaching requirements. The type of professional experience undertaken and the number of days satisfactorily completed will be identified on the student's transcript.*

## Elective units

- ETL703 Intercultural Communication in Language Classrooms
- ECL774 Learning an Additional Language is no longer available for enrolment. Students are advised to complete the following unit:
- ETL711 Learning An Additional Language
- ECL777 Bilingualism and the Principles and Practices of Language Education is no longer available for enrolment. Students are advised to complete the following unit:
- ETL709 Multilingualism and Multilingual Education in Global Contexts
- ETL712 Discourse Analysis for Language Teaching
- ETL713 Learning Global English in Diverse Social Contexts
- ETL714 Language Testing and Assessment
- ETL715 Internationalising the Curriculum

## TESOL Research units

- EDX701 Research Design Development and Method (Formerly EXR781)
- EDX712 Theory and Methodology in Education Research (Formerly EDX702, EXR791)
- EDX703 Research Paper A (Formerly EXR796)
- EDX704 Research Paper B (Formerly EXR797)
- EDX705 Minor Thesis A (2 credit points) (Formerly EXR798)
- EDX706 Minor Thesis B (2 credit points) (Formerly EXR799)
- EDX707 Independent Research Project for Professional Practice (Formerly EXR783)

# Master of Languages Teaching

Year	2019 course information
Award granted	Master of Languages Teaching
Course Map	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
Campus	Offered at Burwood (Melbourne)
Cloud Campus	Yes
Duration	The Master of Languages Teaching is typically 1.5 years full time – 12 credit points. Deakin courses can also be studied part time over a longer period.
Deakin course code	E756
Approval status	This course is approved by the University under the Higher Education Standards Framework.
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of our five Master of Teaching courses or E730 Master of Applied Learning and Teaching.*

## Course overview

The Masters of Languages Teaching develops specialised skills and knowledge for professional practice in teaching. This course is designed to provide qualified teachers with a comprehensive grounding in the theory and practice of languages teaching.

## Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for specialist teaching in combination with an approved preservice education qualification.

## Career opportunities

This course is designed to broaden the skills of those working as registered teachers in primary and secondary schools, by adding a VIT-endorsed specialist teaching method area in Languages teaching to their existing teacher registration. A Masters level qualification in Education additionally offers relevant professional learning to teachers who seek to move into, or already occupy, leadership, coordination or specialist positions in school systems.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Alternative exits

E554.

## Research information

Students are able to undertake one of two options for research training and research in the course. Each option has a common foundation that is based on an introductory unit of one credit point in research design and method. This research study is then further supported by one of the three research options:

- Option 1: application of the research training through a one credit point research based project for professional practice;
- Option 2: advanced research training of one credit point of either quantitative or qualitative research methods; and Minor Thesis (4 credit points).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Use expert specialist knowledge of the theoretical principles, concepts and methodologies which underpin contemporary approaches to languages teaching (Teaching English to Speakers of Other Languages) and apply this knowledge to: <ul style="list-style-type: none"> <li>critically analyse and interpret languages teaching environments</li> <li>utilise contextually responsive and innovative approaches in languages teaching contexts and practices</li> <li>reflect on performance feedback to identify self-improvement opportunities</li> <li>adhere to professional and ethical standards in languages teaching research and practice; undertake research in languages teaching</li> </ul>
Communication	Use advanced communication skills to interpret theoretical propositions, methodologies, and professional decisions, and communicate these to both languages teaching and non-languages teaching audiences
Digital literacy	Use expert knowledge of and technical proficiency in digital technologies that can be specifically used to creatively support languages teaching
Critical thinking	Have expert knowledge and skills in the critical analysis of, and the capacity to reflect on current theories in second language acquisition, languages teaching principles and practice
Problem solving	Use expert knowledge of languages teaching methodologies and understanding of the diverse needs of students to make high level, independent judgements in a range of languages teaching related problems and questions
Self-management	Understand the importance of self-directed learning for professional growth and demonstrate personal autonomy and accountability for individual intellectual development and furthering learning
Teamwork	Collaborate effectively with others to achieve high standards and best practice in languages teaching
Global citizenship	Understand and appreciate the value of cultural and linguistic diversity and its place in languages teaching and use knowledge of the sociocultural contexts of languages teaching to enhance teaching and learning

*Approved by Faculty Board June 2015*

## Course rules

The Master of Languages Teaching is typically 12 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To be awarded a Master of Languages Teaching, students are required to successfully complete the following:

- AAI018 Academic Integrity (0-credit-point compulsory unit) and
- 4 credit points of compulsory core units (ETL706, ETL709, ETL710 and ETL716); and
- 8 credit points of study as a combination of research and elective units in one of the following configurations:

### Option 1

- 2 credit points of research units – EDX701 and EDX707; and
- 6 credit points of electives

### Option 2 (PHD Pathway)

- 6 credit points of research units – EDX701, EDX712, EDX705 (2cps), EDX706 (2cps); and
- 2 credit points of electives

## Course structure

### Core units

ETL706	Reflective Practice in EAL and Languages Classrooms
ETL709	Multilingualism and Multilingual Education in Global Contexts
ETL710	Teaching and Learning in Languages Classrooms
ETL716	CLIL Pedagogy

### Option 1

EDX701	Research Design Development and Method
EDX707	Independent Research Project for Professional Practice

Plus 6 credit points of electives

### Option 2

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX705	Minor Thesis A (2 credit points)
EDX706	Minor Thesis B (2 credit points)

Plus 2 credit points of electives

### Elective units

ETL703	Intercultural Communication in Language Classrooms
ETL704	Innovation in Language Curriculum
ETL705	Pedagogic Grammar
ETL711	Learning An Additional Language
ETL712	Discourse Analysis for Language Teaching
ETL713	Learning Global English in Diverse Social Contexts
ETL714	Language Testing and Assessment
ETL715	Internationalising the Curriculum

## Professional experience placement

Students must ensure they have a current up to date Working with Children Check prior to going on placement.

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Teaching English to Speakers of other Languages

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Teaching English to Speakers of Other Languages

<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	The Master of Teaching English to Speakers of Other Languages is typically 1.5 years full time (3 years part time) – 12 credit points.  Candidates in Stream B who do not have an undergraduate degree in Education or a Language-related discipline may be required to take a further four education units, in consultation with the course director.
<i>CRICOS course code</i>	089293B
<i>Deakin course code</i>	E757
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of the five Master of Teaching courses or E730 Master of Applied Learning and Teaching.*

## Course overview

The Master of Teaching English to Speakers of Other Languages develops specialised skills and knowledge for professional practice in teaching. This course is designed to provide graduates with a comprehensive grounding in the theory and practice of Teaching English to Speakers of Other Languages.

Two streams are available in the Master of TESOL, and the four core units in each stream also form an embedded graduate certificate, differentiated as follows:

Stream A is for teachers of any method who are registered or eligible for primary or secondary registration in Australia and would like to add TESOL as a method or gain further recognition as a TESOL specialist. Qualified teachers who complete this course or its embedded graduate certificate can work in a wide range of professional contexts in Australia or internationally.

Stream B is for applicants who do not require Australian teacher recognition, such as those who teach or intend to teach English overseas, or work in adult education in Australia, including adult migrant programs or ELICOS (English Language Intensive Courses for Overseas Students).

## Career opportunities

This course is designed to provide the skills and knowledge for professional practice in the field of teaching English to speakers of other languages. Students with an existing registration for primary or secondary teaching in Australia can gain professional recognition for TESOL as a specialist teaching method area. The course also provides professional development for teaching English to speakers of other languages in adult education contexts and for teaching English overseas.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Alternative exits

- Graduate Certificate of Teaching English to Speakers of other Languages (E580)
- Graduate Certificate of Teaching English to Speakers of other Languages (Education) (E552)

## Research information

Students are able to undertake one of three options for research training and research in the course. Each option has a common foundation that is based on an introductory unit of one credit point in research design and method (EDX701). This research study is then further supported by additional units via one of the three research options:

- Option 1: application of the research training through a one credit point research based project for professional practice;
- Option 2: advanced research training of one credit point in theory and methodology in education research and research paper units (2 credit points);
- Option 3: advanced research training of one credit in theory and methodology in education research and minor thesis units (4 credit points).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Use expert specialist knowledge of the theoretical principles, concepts and methodologies which underpin contemporary approaches to TESOL (Teaching English to Speakers of Other Languages) and apply this knowledge to: critically analyse and interpret TESOL environments; utilise contextually responsive and innovative approaches in TESOL contexts and practices; reflect on performance feedback to identify self-improvement opportunities; adhere to professional and ethical standards in TESOL research and practice; undertake research in TESOL
Communication	Use advanced communication skills to interpret theoretical propositions, methodologies, and professional decisions, and communicate these to TESOL and non-TESOL audiences
Digital literacy	Use expert knowledge of and technical proficiency in digital technologies that can be specifically used to creatively support TESOL
Critical thinking	Have expert knowledge and skills in the critical analysis of, and the capacity to reflect on current theories in second language acquisition, TESOL principles and practice

Deakin graduate learning outcomes	Course learning outcomes
Problem solving	Use expert knowledge of TESOL methodologies and understanding of the diverse needs of students to make high level, independent judgements in a range of TESOL related problems and questions
Self-management	Understand the importance of self-directed learning for professional growth and demonstrate personal autonomy and accountability for individual intellectual development and furthering learning
Teamwork	Collaborate effectively with others to achieve high standards and best practice in TESOL
Global citizenship	Understand and appreciate the value of cultural and linguistic diversity and its place in TESOL and use knowledge of the sociocultural contexts of TESOL for to enhance teaching and learning

Approved by Faculty Board 2015

## Course rules

The Master of Teaching English to Speakers of Other Languages is typically 12 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To be awarded a Master of Teaching English to Speakers of Other Languages, students are required to successfully complete the following:

- AAI018 Academic Integrity (0-credit-point compulsory unit)
- 4 credit points from Stream A  
or
- 4 credit points from Stream B  
plus
- 8 credit points of study as a combination of research and elective units in one of the following configurations:

### Option 1

- 2 credit points of research units (EDX701 and EDX707) and
- 6 credit points of electives

### Option 2

- 4 credit points of research units (EDX701, EDX712, EDX703 and EDX704) and
- 4 credit points of electives

### Option 3

- 6 credit points of research units (EDX701, EDX712, EDX705 (2cps) and EDX706 (2cps) and
- 2 credit points of electives

## Course structure

### Stream A (VIT endorsed)

For students with an existing registration for primary or secondary teaching in Australia, who wish to gain professional recognition for TESOL as a specialist teaching method area.

ETL700	Pedagogy for EAL Classrooms
ETL704	Innovation in Language Curriculum
ETL705	Pedagogic Grammar
ETL706	Reflective Practice in EAL and Languages Classrooms

### Stream B

For international students who wish to return to their home countries upon graduation for practice, and domestic students who wish to seek employment in the adult education sector in Australia or for practice overseas.

ETL701	TESOL Method
ETL702	Linguistics for Second Language Teachers
ETL708	Language Teaching in Practice
ETL711	Learning An Additional Language

#### *Option 1*

EDX701	Research Design Development and Method
EDX707	Independent Research Project for Professional Practice

Plus 6 electives

#### *Option 2*

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX703	Research Paper A
EDX704	Research Paper B

Plus 4 electives

#### *Option 3*

EDX701	Research Design Development and Method
EDX705	Minor Thesis A (2 credit points)
EDX706	Minor Thesis B (2 credit points)
EDX712	Theory and Methodology in Education Research

Plus 2 electives

### Elective units

ETL703	Intercultural Communication in Language Classrooms
ETL709	Multilingualism and Multilingual Education in Global Contexts
ETL711	Learning An Additional Language
ETL712	Discourse Analysis for Language Teaching
ETL713	Learning Global English in Diverse Social Contexts
ETL714	Language Testing and Assessment
ETL715	Internationalising the Curriculum
ETL705	Pedagogic Grammar
ETL716	CLIL Pedagogy

## Professional experience placement

For students undertaking Stream A, please ensure you have a current up to date Working with Children Check prior to going on placement.

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

The professional placement unit is available to stream A students, who are eligible for teacher registration in Australia.

Stream B students who are already working in TESOL institutions may be permitted access by invitation only, if their institution is willing to provide placement supervision. For further information please contact Dr Rod Neilsen [rod.neilsen@deakin.edu.au](mailto:rod.neilsen@deakin.edu.au) or Dr Ruth Arber [ruth.arber@deakin.edu.au](mailto:ruth.arber@deakin.edu.au)

## Research and research-related study

This Masters Degree includes research-related study (1cp) and independent research (1cp or equivalent) minimum. Components of research and research-related study are also embedded across a number of units where student achievement is demonstrated in specific assessment tasks.

# Master of Teaching

<i>Award granted</i>	Master of Teaching
<i>CRICOS course code</i>	068926C
<i>Deakin course code</i>	E760

*Offered to continuing students only. Continuing students should contact a course advisor for further information. Further course structure information can be found in the handbook archive.*

# Master of Teaching (Early Childhood)

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Teaching (Early Childhood)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	
<i>Cloud Campus</i>	No
<i>Duration</i>	2 years full time (4 years part time) – 16 credit points. Deakin courses can also be studied part time over a longer period.
<i>CRICOS course code</i>	088430F
<i>Deakin course code</i>	E761
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*This course is for continuing students only.*

## Course overview

Early Childhood Education focuses on birth to 5 years. As Australia is in the midst of significant growth in the early childhood education sector, Master of Teaching (Early Childhood) has been developed to address the potential shortage of trained early childhood teachers.

## Professional recognition

This program has been approved by the Australian Children's Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia.

## Career opportunities

There is a strong demand for qualified teachers and graduate starting salaries for teachers are high compared to the graduate average. The increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. As a graduate of this course you may find employment as a teacher within the private or public education sectors. You will complete at least 60 days of supervised school or early childhood education experience and will be required to apply for the Working With Children Check (WWCC) administered by the Department of Justice.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Research information

This is a graduate entry teaching course that introduces research based practice throughout the core professional studies units (a total of six credit points), which includes demonstrating their application of knowledge and skills through their 70 days of professional practice in education based contexts e.g. early childhood settings. As part of the series of core professional studies units, students are also required to complete a capstone assessment in the final year (1 credit point unit) to demonstrate their evidence based professional practice informed by data analysis and scholarship of teaching and learning.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Apply an advanced, integrated understanding of: current theories of child and adolescent development; contemporary theories and early childhood pedagogy; conceptual, cognitive and developmental theories of learning and of barriers to learning to teaching practice, with a particular focus on literacy and numeracy skills of all children.</p> <p>Demonstrate, analyse and synthesize an advanced and integrated understanding of the complex bodies of knowledge specific to the content areas to be taught and effective pedagogical approaches in early childhood education.</p>
Communication	<p>Discern and use high level effective interpersonal, oral, written and electronic communication skills with students, their parents, colleagues and other stakeholders to demonstrate empathy, develop rapport and build teacher/student/parent partnerships and trust.</p> <p>Use expert and specialised professional skills in teaching and learning to interpret and develop new knowledge and multimodal skills with students colleagues and the community.</p> <p>Contribute to scholarly and professional practice and inquiry using a range of communication methods to engage and motivate students and establish positive and inclusive learning environments.</p>
Digital literacy	<p>Select, create, curate and evaluate a range of digital teaching and learning resources and technologies to support student engagement and learning in accordance with responsible and ethical practice.</p> <p>Employ a range of digital resources to analyse and disseminate classroom research as a professional practitioner and in scholarly contexts and/or in leadership roles.</p>

Deakin graduate learning outcomes	Course learning outcomes
Critical thinking	<p>Critically evaluate and synthesise information relating to student learning, using formative and summative assessment data, taking into consideration contemporary theories of curriculum and pedagogy to make judgments about the use of appropriate teaching, learning and assessment strategies and apply this understanding in professional practice, research and/or leadership roles.</p> <p>Identify, analyse, implement, evaluate and adapt a range of cross-curricula and learning activities in response to the needs of students.</p> <p>Inquire, research and reflect critically on professional practice and the scholarship of teaching.</p>
Problem solving	<p>Demonstrate expert and specialised knowledge and apply technical and creative skills to research, critically analyse, implement, evaluate a range of problems and issues in the learning environment and communities.</p> <p>Use leadership, creativity and initiative to identify solutions and develop inclusive and supportive learning environments.</p> <p>Critically reflect on professional practice and/or leadership role to generate creative approaches to a range of problems encountered in learning environment and communities.</p>
Self-management	<p>Work autonomously and responsibly and identify and plan for professional development as a reflective practitioner committed to high standards of professional practice.</p> <p>Actively participate in an/or lead professional learning communities to deepen professional skills in and knowledge of contemporary educational issues.</p>
Teamwork	<p>Work collaboratively with colleagues, other professionals, families and members of the wider community who share responsibility for the learning and wellbeing of students to optimise student learning.</p>
Global citizenship	<p>Apply advanced knowledge and skills as an educator to develop learning environments and experiences that address cultural diversity and socioeconomic factors to positively influence students' learning.</p> <p>Demonstrate and apply the legal and ethical responsibility required in the teaching profession.</p>

Approved by Faculty Board 2014

## Course rules

The Master of Teaching (Early Childhood) is typically 16 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To qualify for the award of Master of Teaching (Early Childhood), students must complete the following:

- 12 core units
- A further 4 credit points in one of the following specialisations:
  - Inclusive Education
  - Internship
  - Research
  - Leadership (Only available Cloud (online)) and
- AAI018 Academic Integrity (0-credit-point compulsory unit)

This course includes 70 days of supervised professional experience.

## Course structure

### Core units

#### Year 1

ECE761	Early Childhood Pedagogy, Curricula and Programmes
ECE762	Language and Literacy
ECE763	Science and Environmental Awareness
ECE764	Young Children's Mathematics
EEE751	Teaching: Promoting Successful Learning
EEE752	Planning and Assessment with Diverse Learners
EPR711	Planning for Learning in Professional Experience
EPR712	Managing Teaching in Professional Experience

#### Year 2

ECP711	Creativity and the Arts in Childhood
ECP712	Social, Physical and Emotional Health and Wellbeing
EEE753	Becoming a Professional Educator
EPR713	Reflecting On Practice in Professional Experience

## Specialisations

Students complete the remaining four credit points from one of following specialisations:

### **Internship**

EPR704	Internship (4 credit points)
--------	------------------------------

### **Research**

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX703	Research Paper A )
EDX704	Research Paper B

### **Leadership of Teaching**

*Only available Cloud (online)*

ELT711	Theories and Models of Leadership: Introduction
ELT712	Leadership Communities of Learners
ELT713	Researching the Leadership of Teaching
ELT714	Leadership of Teaching Profile

### **Inclusive Education**

EIE701	Personalising Learning
EIE702	Teaching and Learning in the Inclusive Classroom
EIE703	Designing Engagement for Learning
EIE704	Supporting Communication in Inclusive Classrooms

### **Professional experience placement**

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>.

All professional experience placements must be undertaken in an Australian school setting. Overseas placements are not permitted.

For further information contact the School of Education, Professional Experience office.

### **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### **Other learning experiences**

Experiences in community and school or early childhood settings are embedded in some curriculum units beyond the professional experience placements. Students are also encouraged to volunteer in these settings. Wherever possible, academic staff work alongside education professionals and preservice teachers in these authentic learning experiences.

### **Research and research-related study**

Independent research and practitioner research components are embedded across a number of units. Preservice teachers are expected to engage in critically reflective research on their own practice as a way of demonstrating their progress against the professional standards for graduate teachers.

*This course is for continuing students only.*

## Course overview

The Master of Teaching (Primary) course is fully accredited by the Victorian Institute of Teaching (VIT) and prepares graduates for employment as a primary teacher in Australia and overseas. The course includes core subjects of the primary curriculum: English, mathematics, science, humanities and social sciences, the arts, technology, health and physical education, and opportunities to develop breadth of knowledge in areas of interest.

## Professional recognition

This course is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

## Career opportunities

There is a strong demand for qualified teachers and graduate starting salaries for teachers are high compared to the graduate average. The increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. ## Course rules

The Master of Teaching (Primary) is typically 16 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To qualify for the award of Master of Teaching (Primary), students must complete the following:

- 12 core units
- A further 4 credit points in one of the following specialisations:
  - Inclusive Education
  - Internship
  - Languages Teaching. Note: Students undertaking the Languages Teaching specialisation must have the appropriate prior study of a language, as per the VIT Specialist Area Guidelines
  - Research
  - Teaching English to Speakers of Other Languages (TESOL)
  - Leadership (Only available Cloud (online)) and
- AAI018 Academic Integrity (0-credit-point compulsory unit)

This course includes 60 days of supervised professional experience.

Students are also required to complete below two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate from their course.

## Course structure

### Core units

#### Year 1

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)
EEE751	Teaching: Promoting Successful Learning
EEE752	Planning and Assessment with Diverse Learners
EPL746	Primary Literacy
EPM742	Fostering Primary Children's Mathematical Development
EPO701	Primary Humanities, Societies and Environments
EPR721	Planning for Learning in Professional Experience
EPR722	Managing Teaching in Professional Experience
EPS735	Primary Science and Technology Education

#### Year 2

ECP711	Creativity and the Arts in Childhood
ECP712	Social, Physical and Emotional Health and Wellbeing
EEE753	Becoming a Professional Educator
EPR723	Reflecting On Practice in Professional Experience

plus a four credit point specialisation

## Specialisations

Students complete the remaining four credit points from one of following specialisations:

### **Internship**

EPR704 Internship (4 credit points)

### **Research**

EDX701 Research Design Development and Method  
 EDX712 Theory and Methodology in Education Research  
 EDX703 Research Paper A  
 EDX704 Research Paper B

### **Leadership of Teaching**

*Only available Cloud (online)*

ELT711 Theories and Models of Leadership: Introduction  
 ELT712 Leadership Communities of Learners  
 ELT713 Researching the Leadership of Teaching  
 ELT714 Leadership of Teaching Profile

### **Inclusive Education**

EIE701 Personalising Learning  
 EIE702 Teaching and Learning in the Inclusive Classroom  
 EIE703 Designing Engagement for Learning  
 EIE704 Supporting Communication in Inclusive Classrooms

### **Teaching English to Speakers of Other Languages**

ETL700 Pedagogy for EAL Classrooms  
 ETL704 Innovation in Language Curriculum  
 ETL705 Pedagogic Grammar  
 ETL711 Learning An Additional Language

### **Languages Teaching**

Student must meet the VIT Specialist Area Guidelines for Languages Teaching to enrol in this specialisation.

ETL709 Multilingualism and Multilingual Education in Global Contexts  
 ETL710 Teaching and Learning in Languages Classrooms  
 ETL711 Learning An Additional Language  
 ETL716 CLIL Pedagogy

## Professional experience placement

## Course overview

The Master of Teaching (Secondary) course is fully accredited by the Victorian Institute of Teaching (VIT) and prepares graduates for employment as a secondary teacher in Australia and overseas. Alongside core studies, you will complete two secondary curriculum studies from English, TESOL, Languages other than English, Drama, Dance, Media, Visual Arts, Music, Humanities, Commerce and Business, Geography, History, Mathematics, Health, Physics, Biology, Psychology, Chemistry, Science and Environmental Science.

In addition to your curriculum studies, the final stage of the Masters of Teaching (Secondary) course offers you the opportunity to choose one of the following specialisation pathways: Internship, Leadership, Inclusive Education, Languages Teaching, Teaching English to Speakers of other Languages, Internationalisation, or Research.

You'll be able to teach in secondary schools from junior secondary to VCE levels, as well as taking up education positions within organisations, cultural institutions, TAFE and adult community educational settings.

## Professional recognition

This course is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. Global citizenship	<p>Apply advanced knowledge and skills as an educator to develop learning environments and experiences that address cultural diversity and socioeconomic factors to positively influence students' learning.</p> <p>Demonstrate and apply the legal and ethical responsibility required in the teaching profession.</p>

Approved by Faculty Board 2014

## Course rules

The Master of Teaching (Secondary) is typically 16 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To qualify for the award of Master of Teaching (Secondary), students must complete the following:

- 8 core units
- 2 curriculum study units in a first teaching method area
- 2 curriculum study units in a second teaching method area
- A further 4 credit points in one of the following specialisations:
  - Inclusive Education
  - Internship
  - Languages Teaching. Note: Students undertaking the Languages Teaching specialisation must have the appropriate prior study of a language, as per the VIT Specialist Area Guidelines
  - Research
  - Teaching English to Speakers of Other Languages (TESOL)
  - Internationalisation (Only available Cloud (online))
  - Leadership (Only available Cloud (online)) and
- AAIO18 Academic Integrity (0-credit-point compulsory unit)

This course includes 60 days of supervised professional experience.

Students are also required to complete below two zero (0) credit point units ELN010 and ELN011 as part of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate from their course.

## Course structure

### Core units

#### Year 1

ELN010	Australian Literacy Test (zero (0) credit points)
ELN011	Australian Numeracy Test (zero (0) credit points)
EEE751	Teaching: Promoting Successful Learning
EEE752	Planning and Assessment with Diverse Learners
EPR731	Planning for Learning in Professional Experience
EPR732	Managing Teaching in Professional Experience

Two Secondary Curriculum Studies units in a first teaching method area

Two Secondary Curriculum Studies units in a second teaching method area

#### Year 2

EEE753	Becoming a Professional Educator
EEH730	Promoting Student Wellbeing
EPR733	Reflecting On Practice in Professional Experience
EXC725	Literacy and Numeracy Across the Curriculum

Students complete the remaining four credit points from one of the following specialisations:

Inclusive Education, Internship, Internationalisation, Languages Teaching, Leadership of Teaching, Research, Teaching English to Speakers of Other Languages

## Specialisations

Students to select 4 credit points in one of the following specialisations:

### **Internship**

EPR704 Internship (4 credit points)

### **Research**

EDX701 Research Design Development and Method  
 EDX712 Theory and Methodology in Education Research  
 EDX703 Research Paper A  
 EDX704 Research Paper B

### **Leadership of Teaching**

*Only available Cloud (online)*

ELT711 Theories and Models of Leadership: Introduction  
 ELT712 Leadership Communities of Learners  
 ELT713 Researching the Leadership of Teaching  
 ELT714 Leadership of Teaching Profile

### **Inclusive Education**

EIE701 Personalising Learning  
 EIE702 Teaching and Learning in the Inclusive Classroom  
 EIE703 Designing Engagement for Learning  
 EIE704 Supporting Communication in Inclusive Classrooms

### **Teaching English to Speakers of Other Languages**

ETL700 Pedagogy for EAL Classrooms  
 ETL704 Innovation in Language Curriculum  
 ETL705 Pedagogic Grammar  
 ETL711 Learning An Additional Language

### **Languages Teaching**

Student must meet the VIT Specialist Area Guidelines for Languages Teaching to enrol in this specialisation.

ETL709 Multilingualism and Multilingual Education in Global Contexts  
 ETL710 Teaching and Learning in Languages Classrooms  
 ETL711 Learning An Additional Language  
 ETL716 CLIL Pedagogy

### **Internationalisation**

EEG701 Contemporary Issues in International Education  
 EEG702 Professional Learning Theory and Practice in International Education  
 EEG703 Governance and Capacity Building in International Education  
 EEG704 Internationalising Curriculum in Education

## Secondary Curriculum Study units

### **Biology**

ESS744 Science: Curriculum Study  
 ESS767 Senior Biology: Curriculum Study

### **Chemistry**

ESS744 Science: Curriculum Study  
 ESS768 Curriculum Studies (Senior Chemistry)

### **Commerce and Business**

- EHU701 Humanities Societies and Environments A  
 ECB704 Commerce and Business Studies Curriculum Study B

### **Dance\***

*only available Burwood (Melbourne)*

- ECA731 Arts Education Curriculum Study 1  
 ECA732 Arts Education Curriculum Study 2

### **Drama\***

*only available Burwood (Melbourne)*

- ECA731 Arts Education Curriculum Study 1  
 ECA732 Arts Education Curriculum Study 2

### **English**

- ECL761 English Education A  
 ECL762 English Education B

### **Teaching English as a Second Language (TESOL)**

- ETL700 Pedagogy for EAL Classrooms  
 ETL705 Pedagogic Grammar

### **Environmental Science**

- ESS744 Science: Curriculum Study#  
 ESS742 Senior Environmental Science: Curriculum Study

# note prior to 2019 students completed ESS741

### **Geography**

- EHU701 Humanities Societies and Environments A  
 EHU702 Humanities Societies and Environments B

### **Health**

- ESH702 Health Education: Curriculum Study  
 ESH703 Senior Health and Human Development: Curriculum Study

### **History**

- EHU701 Humanities Societies and Environments A#  
 EHI702 History B

# note prior to 2019 students completed EHI701

### **Humanities**

- EHU701 Humanities Societies and Environments A  
 EHU702 Humanities Societies and Environments B

### **Languages Teaching**

- ETL710 Teaching and Learning in Languages Classrooms  
 ETL716 CLIL Pedagogy

### **Mathematics**

- ESM724 Mathematics: Curriculum Study  
 ESM725 Senior Mathematics: Curriculum Study

### **Media^**

*only available Burwood (Melbourne) and subject to quotas*

- ECA735 Arts Education Curriculum Study 5  
 ECA736 Arts Education Curriculum Study 6

### **Music\***

- ECA731 Arts Education Curriculum Study 1  
 ECA732 Arts Education Curriculum Study 2

### **Physics**

- ESS744 Science: Curriculum Study  
 ESS745 Senior Physics Curriculum Study

### **Psychology**

*Subject to quotas*

- ESP705 Psychology Curriculum Study 1  
 ESP706 Psychology Curriculum Study 2

### **Science**

- ESS744 Science: Curriculum Study  
 ESS755 Resources in the Contemporary Science Curriculum

### **Studies of Societies and Environments**

- EHU701 Humanities Societies and Environments A  
 EHU702 Humanities Societies and Environments B

### **Visual Arts\***

- ECA731 Arts Education Curriculum Study 1  
 ECA732 Arts Education Curriculum Study 2

\* Note Students undertaking any two of Visual Arts, Dance, Drama or Music as their two teaching method areas that the units will be ECA731, ECA732, ECA735, ECA736

^ Note Media units ECA735 and ECA736 are also used to deliver Visual Arts, Dance, Drama and Music where students are already enrolled in ECA731 and ECA732 for their first Arts discipline method area.

## **Double – Secondary Curriculum Study units**

### **Dance**

*only available Burwood (Melbourne)*

- ECA731 Arts Education Curriculum Study 1  
 ECA732 Arts Education Curriculum Study 2  
 ECA733 Arts Education Curriculum Study 3  
 ECA734 Arts Education Curriculum Study 4

### **Drama**

*only available Burwood (Melbourne)*

- ECA731 Arts Education Curriculum Study 1  
 ECA732 Arts Education Curriculum Study 2  
 ECA733 Arts Education Curriculum Study 3  
 ECA734 Arts Education Curriculum Study 4

### **Mathematics**

*[ESM733 offered in alternating years 2019, 2021]*

- ESM704 Problem solving and Modelling  
 ESM725 Senior Mathematics: Curriculum Study  
 ESM724 Mathematics: Curriculum Study  
 ESM733 Exploring Space and Number

**Music**

ECA731	Arts Education Curriculum Study 1
ECA732	Arts Education Curriculum Study 2
ECA733	Arts Education Curriculum Study 3
ECA734	Arts Education Curriculum Study 4

**Studies of Societies and Environments**

EHI701	History A
EHI702	History B
EHU701	Humanities Societies and Environments A
EHU702	Humanities Societies and Environments B

**Sciences**

ESS744	Science: Curriculum Study
ESS741	Science and Environmental Sustainability: Curriculum Study (Years 7–10)

Plus 2 of:

ESS742	Senior Environmental Science: Curriculum Study
ESS767	Senior Biology: Curriculum Study
ESS768	Curriculum Studies (Senior Chemistry)
ESS745	Senior Physics Curriculum Study
ESS755	Resources in the Contemporary Science Curriculum

**Visual Arts**

ECA731	Arts Education Curriculum Study 1
ECA732	Arts Education Curriculum Study 2
ECA733	Arts Education Curriculum Study 3
ECA734	Arts Education Curriculum Study 4

**Professional experience placement**

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>.

All professional experience placements must be undertaken in an Australian school setting. Overseas placements are not permitted.

For further information contact the School of Education, Professional Experience office.

**Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

**Other learning experiences**

Experiences in community and school or early childhood settings are embedded in some curriculum units beyond the professional experience placements. Students are also encouraged to volunteer in these settings. Wherever possible, academic staff work alongside education professionals and preservice teachers in these authentic learning experiences.

**Research and research-related study**

Independent research and practitioner research components are embedded across a number of units. Preservice teachers are expected to engage in critically reflective research on their own practice as a way of demonstrating their progress against the professional standards for graduate teachers.

# Master of Teaching (Primary and Early Childhood)

Year	2019 course information
Award granted	Master of Teaching (Primary and Early Childhood)
Course Map	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
Campus	
Cloud Campus	No
Duration	2-years full time (4-years part time) – 16 credit points. Deakin courses can also be studied part time over a longer period.
CRICOS course code	088432D
VTAC Codes	
Deakin course code	E764
Approval status	This course is approved by the University under the Higher Education Standards Framework.
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*This course is for continuing students only.*

## Course overview

The Master of Teaching (Primary/Early Childhood) is course fully accredited by the Victorian Institute of Teaching (VIT) for both early childhood and primary teacher registration. This course prepares graduates for employment as primary and early childhood teachers in Australia and overseas.

Selecting this course offers you more flexibility in the settings you will be qualified to teach in when you graduate. You will study units relevant to early childhood and primary education including: curriculum, math, science, the arts, English/literacy, language, humanities, health and physical education and play pedagogy.

Practical teaching experiences throughout your Masters of Teaching (Primary/Early childhood) course will ensure you have the practical experience you need to launch into your teaching career.

## Professional recognition

This program is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) may be required to provide further information. You are advised to check the VIT registration requirements carefully.

This program has been approved by the Australian Children's Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia.

## Career opportunities

There is a strong demand for qualified teachers and graduate starting salaries for teachers are high compared to the graduate average. The increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. As a graduate of this course you may find employment as a teacher within the private or public education sectors. You will complete 95 days of professional experience and will be required to apply for the Working With Children Check (WWCC) administered by the Department of Justice.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Research information

This is a graduate entry teaching course that introduces research based practice throughout the core professional studies units (a total of six credit points), which includes demonstrating their application of knowledge and skills through their 95 days of professional practice in education based contexts e.g. primary schools and early childhood settings. As part of the series of core professional studies units, students are also required to complete a capstone assessment in the final year (1 credit point unit) to demonstrate their evidence based professional practice informed by data analysis and scholarship of teaching and learning.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	<p>Apply an advanced, integrated understanding of: current theories of child and adolescent development; contemporary theories and early childhood pedagogy; conceptual, cognitive and developmental theories of learning and of barriers to learning to teaching practice, with a particular focus on literacy and numeracy skills of all children.</p> <p>Demonstrate, analyse and synthesize an advanced and integrated understanding of the complex bodies of knowledge specific to the content areas to be taught and effective pedagogical approaches in early childhood and primary education.</p>
Communication	<p>Discern and use high level effective interpersonal, oral, written and electronic communication skills with students, their parents, colleagues and other stakeholders to demonstrate empathy, develop rapport and build teacher/student/parent partnerships and trust.</p> <p>Use expert and specialised professional skills in teaching and learning to interpret and develop new knowledge and multimodal skills with students colleagues and the community.</p> <p>Contribute to scholarly and professional practice and inquiry using a range of communication methods to engage and motivate students and establish positive and inclusive learning environments.</p>

Deakin graduate learning outcomes	Course learning outcomes
Digital literacy	<p>Select, create, curate and evaluate a range of digital teaching and learning resources and technologies to support student engagement and learning in accordance with responsible and ethical practice.</p> <p>Employ a range of digital resources to analyse and disseminate classroom research as a professional practitioner and in scholarly contexts and/or in leadership roles.</p>
Critical thinking	<p>Critically evaluate and synthesise information relating to student learning, using formative and summative assessment data, taking into consideration contemporary theories of curriculum and pedagogy to make judgments about the use of appropriate teaching, learning and assessment strategies and apply this understanding in professional practice, research and/or leadership roles.</p> <p>Identify, analyse, implement, evaluate and adapt a range of cross-curricula and learning activities in response to the needs of students.</p> <p>Inquire, research and reflect critically on professional practice and the scholarship of teaching.</p>
Problem solving	<p>Demonstrate expert and specialised knowledge and apply technical and creative skills to research, critically analyse, implement, evaluate a range of problems and issues in the learning environment and communities.</p> <p>Use leadership, creativity and initiative to identify solutions and develop inclusive and supportive learning environments.</p> <p>Critically reflect on professional practice and/or leadership role to generate creative approaches to a range of problems encountered in learning environment and communities.</p>
Self-management	<p>Work autonomously and responsibly and identify and plan for professional development as a reflective practitioner committed to high standards of professional practice.</p> <p>Actively participate in an/or lead professional learning communities to deepen professional skills in and knowledge of contemporary educational issues.</p>
Teamwork	<p>Work collaboratively with colleagues, other professionals, families and members of the wider community who share responsibility for the learning and wellbeing of students to optimise student learning.</p>
Global citizenship	<p>Apply advanced knowledge and skills as an educator to develop learning environments and experiences that address cultural diversity and socioeconomic factors to positively influence students' learning.</p> <p>Demonstrate and apply the legal and ethical responsibility required in the teaching profession.</p>

 ESS768 Curriculum Studies (Senior Chemistry)  
 ESS745 Senior Physics Curriculum Study  
 ESS755 Resources in the Contemporary Science Curriculum

## Visual Arts

- ECA731 Arts Education Curriculum Study 1  
 ECA732 Arts Education Curriculum Study 2  
 ECA733 Arts Education Curriculum Study 3  
 ECA734 Arts Education Curriculum Study 4

## Professional experience placement

Students are required to apply for a Working with Children Check. Apply online as a volunteer at <https://www.workingwithchildren.vic.gov.au>.

All professional experience placements must be undertaken in an Australian school setting. Overseas placements are not permitted.

For further information contact the School of Education, Professional Experience office.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Other learning experiences

Experiences in community and school or early childhood settings are embedded in some curriculum units beyond the professional experience placements. Students are also encouraged to volunteer in these settings. Wherever possible, academic staff work alongside education professionals and preservice teachers in these authentic learning experiences.

## Research and research-related study

Independent research and practitioner research components are embedded across a number of units. Preservice teachers are expected to engage in critically reflective research on their own practice as a way of demonstrating their progress against the professional standards for graduate teachers.

# Master of Education

Year	2019 course information
Award granted	Master of Education
Duration	2 years full-time or part-time equivalent
Deakin course code	E770

*Note: This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of the Master of Teaching courses or E730 Master of Applied Learning and Teaching.*

*For continuing students only. For enrolment advice please contact Student Services.*

## Course overview

The Master of Education is offered to professional educators and other professionals. Students undertake a mixture of coursework units and a research paper/thesis.

The Master of Education builds upon the Graduate Certificate offered within the Faculty and may articulate to the Doctor of Philosophy (PhD).

Graduates of this course will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; will be able to translate into practice their experiences and understandings of the program; and will have demonstrated their ability to undertake educational research projects.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

To be awarded a Master of Education, students are required to successfully complete 16 credit points in one of the following configurations:

### Option 1

Students must successfully complete:

- 4 credit points of foundational units
- 2 credit points of core units
- 4 credit points of research units (\*EDX701, EDX712, EDX703, EDX704)
- 4 credit points of electives from a single specialist strand
- 2 credit points of electives from another specialist strand

### Option 2

Students must successfully complete:

- 4 credit points of foundational units
- 2 credit points of core units
- 6 credit points of research units (\*EDX701, EDX712, EDX705(2cp), EDX706(2cp))
- 4 credit points of electives from a single specialist strand

*Note: Professional Education and Training and International Education specialisations only available in Cloud (online) mode.*

\* EDX coded units formerly EXR coded units.

## Course structure

### Foundational units

- EXE721 Assessment and Learning (No longer available for enrolment)
- EXE722 Curriculum and Pedagogy (No longer available for enrolment)
- EXE735 Evaluation: Improvement and Accountability (No longer available for enrolment)
- EXE736 Knowledge, Learning and Learners (No longer available for enrolment)

### Core units

- EXE723 Curriculum and Assessment Design
- EXE734 New Technologies in Education and Training

### Research units

- EDX701 Research Design Development and Method (Formerly EXR781/EXR782)
- EDX712 Theory and Methodology in Education Research (Formerly EDX702, EXR791)
- EDX703 Research Paper A (Formerly EXR796)
- EDX704 Research Paper B (Formerly EXR797)
- EDX705 Minor Thesis A (2 credit points) (Formerly EXR798)
- EDX706 Minor Thesis B (2 credit points) (Formerly EXR799)

## Specialist strands

### **Professional Education and Training**

- ECJ723 Applied Learning in the Postcompulsory Education and Training Sector  
[No longer available for enrolment]
- ECN704 Applied Learning: Theories and Practice
- ECN722 Assessment Frameworks and Equity in the Workplace
- EXE731 Professional Learning and Development

### **Inclusive Education**

- EIE701 Personalising Learning
- EIE702 Teaching and Learning in the Inclusive Classroom
- EIE703 Designing Engagement for Learning
- EIE704 Supporting Communication in Inclusive Classrooms

### **International Education**

- EEG701 Contemporary Issues in International Education
- EEG702 Professional Learning Theory and Practice in International Education
- EEG703 Governance and Capacity Building in International Education
- EEG704 Internationalising Curriculum in Education

*Note: Professional Education and Training and International Education specialisations only available in Cloud (online) mode.*

# Master of Education

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Education
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	Depending on your professional experience and previous qualifications, the Master of Education is typically 1 or 1.5 years duration. <ul style="list-style-type: none"> <li>• 1 year full time (2 years part time) – 8 credit points</li> <li>• 1.5 years full time (3 years part time) – 12 credit points.</li> </ul> Deakin courses can also be studied part time over a longer period.
<i>Deakin course code</i>	E771
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

*Note: This is not an initial teacher education qualification. Students wishing to enter the profession of teaching should instead consider one of our five Master of Teaching courses or E730 Master of Applied Learning and Teaching*

## Course overview

Graduates of this course will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; will be able to translate into practice their experiences and understandings of the program; and will have demonstrated their ability to undertake educational research projects.

## Career opportunities

This course offers relevant professional learning to teachers who seek to move into, or who already occupy, leadership, coordination, specialist or professional development positions in school systems, or who seek to move from school education to other education and training sectors.

For more information visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au).

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, Working with Children Check or other check.

## Research information

Students are introduced to research training through a one credit point introductory unit in research design and method; and this training is deepened in either a qualitative or quantitative method research unit of one credit point. This research training is then demonstrated through completion of research via a Research Paper (two credit points) or Minor Thesis (four credit points).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Demonstrate an advanced and integrated understanding of contemporary curriculum design, pedagogy, evidence-based assessment and program evaluation; apply this knowledge to research and in a range of professional learning and educational contexts.
Communication	Employ a range of oral and written communication skills and standards required of professional educators and learning professionals to be able to transmit complex knowledge in professional and scholarly contexts
Digital literacy	Demonstrate advanced knowledge of and proficiency in a range of digital technologies to research, analyse, report, evaluate and communicate within education contexts and for further learning.
Critical thinking	Demonstrate high level skills in the critical analysis and synthesis of complex ideas in research and professional practice in the discipline of education.
Problem solving	Demonstrate expert and specialist knowledge of relevant learning theories to identify, analyse and evaluate authentic problems of practice, and generate informed and innovative solutions.
Self-management	Apply the knowledge and skills required of professional educators and learning professionals to demonstrate autonomy, leadership and expert judgement, adaptability and responsibility in education contexts, research and for further learning.
Teamwork	Work effectively and collaboratively in an interdisciplinary team to create solutions to authentic problems of practice.
Global citizenship	Demonstrate high level understanding of, and the capacity to engage ethically and productively in professional contexts with diverse communities and in a global context.

*Approved by Faculty Board June 2014*

## Course rules

The Master of Education is typically 8 or 12 credit points.

The exact number of credit points you study depends on how much credit you receive as recognition of prior learning (RPL) – your professional experience and previous qualifications – which can save you time and money.

To qualify for the award of Master of Education, students must complete one of the following options:

### Option 1: Dual specialist strand

- 2 credit points of core units
- 4 credit points of research units (EDX701, EDX712, EDX703, EDX704)
- 4 credit points of electives from a single specialist strand
- 2 credit points of electives from another specialist strand

### Option 2: Research intensive strand

- 2 credit points of core units
- 6 credit points of research units (EDX701, EDX712, EDX705 (2cp), EDX706 (2cp))
- 4 credit points of electives from a single specialist strand

Students must also complete AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Core units

EXE723	Curriculum and Assessment Design
EXE734	New Technologies in Education and Training

### *Option 1: Dual specialist strands*

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX703	Research Paper A
EDX704	Research Paper B

Plus 4 electives from a single specialist strand

Plus 2 electives from another specialist strand

### *Option 2: Research intensive strand*

EDX701	Research Design Development and Method
EDX712	Theory and Methodology in Education Research
EDX705	Minor Thesis A (2 credit points)
EDX706	Minor Thesis B (2 credit points)

Plus 4 electives from a single specialist strand

## Specialist strands

### **Professional Education and Training**

*Available Cloud (online) only. International campus-based students must seek approval from the course director prior to enrolment in this specialist strand.*

- ECJ723 Applied Learning in the Post-compulsory Education and Training Sector  
[No longer available for enrolment]
- ECN704 Applied Learning: Theories and Practice
- ECN722 Assessment Frameworks and Equity in the Workplace

### **International Education**

*Available Cloud (online) only. International campus-based students must seek approval from the course director prior to enrolment in this specialist strand.*

- EEG701 Contemporary Issues in International Education
- EEG702 Professional Learning Theory and Practice in International Education
- EEG703 Governance and Capacity Building in International Education
- EEG704 Internationalising Curriculum in Education

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

Independent research components are embedded across a number of units.

# Master of Digital Learning Leadership

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Digital Learning Leadership
<i>Course Map</i>	<a href="https://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	This course is only offered in Cloud (online) mode
<i>Duration</i>	2 to 2.5 years part-time
<i>Deakin course code</i>	E798
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

The Master of Digital Learning Leadership is designed for experienced professionals seeking to progress their career through a postgraduate qualification. The course will suit those working in the fields of digital learning and emerging technologies in higher education who seek recognition for their prior learning, skills, demonstrated expertise and extensive experience through a combination of professional practice credentials and coursework units. The course offers educators, learning designers and educational resource managers a credible and validated approach to optimising prior learning and workplace experience to accelerate achievement of the course learning outcomes. The course recognises the rapid pace of innovation in digital learning environments, and the skills required by educational professionals amid constant change. Employability skills are validated and endorsed through a final holistic assessment activity that requires students to demonstrate their expertise.

## Indicative student workload

Successful students typically spend about 150 hours in learning and assessment for each one credit point unit. The time required to prepare evidence for credential assessment varies based on the student's existing documentation.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](https://deakin.edu.au/fees).

## Course learning outcomes

Successful students in this course will be able to demonstrate:

Deakin graduate learning outcomes	Course learning outcomes
Discipline specific knowledge and capabilities	Capacity to use advanced technologies and specialised knowledge to create effective and engaging learning experiences across a wide range of disciplines and contexts
Communication	Using advanced design, analytics, visualisation, and instructional approaches to create accessible and engaging digital learning experiences
Digital literacy	Create compelling digital learning solutions using a range of channels appropriate to the users' device and location
Critical thinking	Systematically investigate and critically evaluate new technologies, methodologies and theories of learning and teaching in online environments
Problem solving	Apply advanced problem solving skills to conceptualise, design, construct, test and validate innovative digital learning solutions
Self-management	Sustain self-directed professional development to keep pace with innovation and actively transfer advanced theory and skills into the creation of effective digital learning and teaching solutions
Teamwork	Use advanced technologies and media for professional collaboration and improve the individual and group learning and teaching experience
Global citizenship	Develop and manage learning strategies and systems sensitive to the ethical, social and cultural contexts and different user requirements

Approved by Faculty Board October 2016

## Course rules

To qualify for the award of Master of Digital Learning Leadership, a student must successfully complete:

- 4 credit points
- 10 Professional Practice credentials and
- AAI018 Academic Integrity (0-credit-point compulsory unit)

## Course structure

### Introductory units

EEE726 Digital Learning, Design and Assessment  
EDX701 Research Design Development and Method

### Credentials

Students must complete ten Professional Practice credentials.

Students must successfully complete the following Professional Practice credentials based on evidence from their own professional practice. The credentials may be attempted separately or simultaneously and are assessed by an assessment panel that includes both academic and industry representatives.

You will have six months to complete a credential from the time of enrolment.

Credential	Code	Must have been achieved with the previous*
Digital Learning Professional Expertise 1 (Broad)	CRXBD-A1	5 years
Digital Learning Professional Expertise 2 (Deep)	CRXDD-A1	5 years
Critical thinking	CRCRI-A1	5 years
Communication	RCOM-A1	5 years
Digital literacy	CRDIL-A1	5 years
Innovation	CRINN-A1	5 years
Problem solving	CRPSV-A1	5 years
Teamwork	CRTWK-A1	5 years
Self Management	CRSMA-A1	5 years
Global citizenship	CRGCZ-A1	5 years

\* Applicants who have not satisfied the level requirement, or who have successfully achieved the credential but not within the required timeframe may be permitted to seek re-credentialing.

### Research units

EDX703 Research Paper A  
EDX704 Research Paper B

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Research and research-related study

1 CP of research training and 2 CP of independent research.

# Master of Education (Research)

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Education (Research)
<i>Campus</i>	Offered at Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	006243K
<i>Deakin course code</i>	E850
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

This is a supervised research program. The research of each candidate is conducted under the supervision of a full-time member of the academic staff. Candidates are required to participate in an oral colloquium about one third of the way through candidature in which the proposed research is defended, and will ultimately to submit a thesis embodying the results of their research. The thesis may be a single volume of disciplinary scholarship or a folio consisting of an exegesis and two to four research products relating to professional practice.

Candidates showing significant promise as research students may be invited to transfer their enrolment to the Doctor of Philosophy program. This generally occurs at or post colloquium. Transfer is dependent on meeting the academic requirements for PhD entry and must have the full support of the principal supervisor.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Course learning outcomes

Course learning outcomes	Deakin graduate learning outcomes
Demonstrate an advanced and integrated understanding of a complex body of knowledge in one or more discipline areas by generating substantial contribution to knowledge through the use of appropriate research principles and methods.	<p>Discipline-specific knowledge and capabilities: appropriate to the level of study related to a discipline or profession.</p> <p>Digital literacy: using technologies to find, use and disseminate information.</p> <p>Self-management: working and learning independently, and taking responsibility for personal actions.</p>
<p>Apply critical analysis and reflection to ethically research, synthesize and evaluate complex information, problems, concepts, interpretations and theories to demonstrate cognitive and technical skills in a body of knowledge or practice.</p> <p>Effectively disseminate research outcomes to a variety of audiences using highly developed communication skills and work productively within a team of experts in the field.</p>	<p>Critical thinking: evaluating information using critical and analytical thinking and judgment.</p> <p>Problem solving: creating solutions to authentic (real world and ill-defined) problems.</p> <p>Teamwork: working and learning with others from different disciplines and backgrounds.</p>

Course learning outcomes	Deakin graduate learning outcomes
Demonstrate autonomy, expert judgement, adaptability, initiative, resilience and responsibility as a practitioner or learner.	Communication: using oral, written and interpersonal communication to inform, motivate and effect change.  Global citizenship: engaging ethically and productively in the professional context and with diverse communities and cultures in a global context.

*Approved by Faculty Board July 2016*

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Philosophy (Electromaterials)

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Philosophy (Electromaterials)
<i>Campus</i>	Offered at Burwood (Melbourne), Waurn Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	090009A
<i>Deakin course code</i>	F801

## Course overview

The Master of Philosophy (Electromaterials) provides unique research training to equip you for a range of exciting future careers. It provides both a pathway to future PhD studies and also training for future jobs in the energy, manufacturing and health arenas.

This is your chance to discover new materials and develop smart devices to help solve some of today's most challenging global problems.

As a student in the world-first Master of Philosophy (Electromaterials) course, your study will be hands-on – discovering new materials, using cutting-edge characterisation techniques and assembling new materials into electrochemical devices for applications in clean energy, health or advanced manufacturing. You'll be working with leading, world-renowned researchers in electromaterials through the ARC Centre of Excellence for Electromaterials Science.

Deakin University and the University of Wollongong have teamed up to offer this unique opportunity. You'll choose from a variety of unique research projects – anything from medical bionics to sustainable energy generation, robotic hands to solar water splitting and the next generation of battery designs. In addition, core units will be streamed live between the two campuses, so you get the best of both worlds.

Find out more about how you can play a part in developing solutions for global issues through the Master of Philosophy (Electromaterials).

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](https://deakin.edu.au/fees).

## Course rules

The course comprises a total of 16 credit points, including:

- Year 1 – 2 core units, 2 elective units\*\* and Research Thesis unit (8 credit points)
- Year 2 – research project and thesis (8 credit points)

### Year 1

FME801	Electromaterials Synthesis and Characterisation
FME802	Electromaterials Fabrication and Application
FMR801	Research thesis

\*\* Electives can be taken at either Deakin University or University of Wollongong and will be selected in consultation with your supervisor.

### Year 2

FMR802	Research thesis
--------	-----------------

## Course structure

Where applicants are admitted on the basis of a degree that does not include a research training component, it will be compulsory for that student to complete a research training unit as part of their coursework requirement.

### Year 1

#### Trimester 1

FME801 Electromaterials Synthesis and Characterisation  
FMR801 Rt1: Research Thesis 1

Plus one elective which can be taken at either Deakin University or University of Wollongong and will be selected in consultation with your supervisor.

#### Trimester 2

FME802 Electromaterials Fabrication and Application  
FMR801 Rt1: Research Thesis 1

Plus one elective which can be taken at either Deakin University or University of Wollongong and will be selected in consultation with your supervisor.

### Year 2

#### Trimester 1 and 2

FMR802 Rt2: Research Thesis 2

As part of the University of Wollongong and Deakin University joint MPHil you will have supervisors from both Universities.

You will also be required to study up to one third of the Research Component at Wollongong University. You will be financially responsible for your accommodation while attending each University, however each University will assist you in finding suitable accommodation.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Science

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Science
<i>Campus</i>	Offered at Burwood (Melbourne), Waurn Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	006261G
<i>Deakin course code</i>	F802
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

A full-time member of the academic staff in the Institute for Frontier Materials (IFM), experienced in research, will be appointed as supervisor for each student in the Master of Science – Biological and Chemical Sciences. Associate supervisors, internal or external, may be appointed to assist the principal supervisor. Students may be required to meet certain attendance requirements and will be required to complete a thesis embodying the results of research carried out in the field of study specified at the time of enrolment. Students will be referred to prospective supervisors in order to establish a possible research project.

To qualify for a Master by Research, students must demonstrate an advanced and integrated understanding of a complex body of knowledge in one or more discipline areas by generating a substantial contribution to knowledge through the use of appropriate research principles and methods. This is in the form of a thesis of up to 50,000 words in length which will be assessed via an external examination. Although the focus of the degree is on research, students are also required to complete a minimum of one unit of coursework.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Deakin graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Demonstrate an advanced and integrated understanding of a complex body of knowledge in one or more discipline areas by generating substantial contribution to knowledge through the use of appropriate research principles and methods.
Communication	Demonstrate autonomy, expert judgement, adaptability, initiative, resilience and responsibility as a practitioner or learner.
Digital literacy	Demonstrate an advanced and integrated understanding of a complex body of knowledge in one or more discipline areas by generating substantial contribution to knowledge through the use of appropriate research principles and methods

Critical thinking	<p>Apply critical analysis and reflection to ethically research, synthesize and evaluate complex information, problems, concepts, interpretations and theories to demonstrate cognitive and technical skills in a body of knowledge or practice.</p> <p>Effectively disseminate research outcomes to a variety of audiences using highly developed communication skills and work productively within a team of experts in the field.</p>
Problem solving	<p>Apply critical analysis and reflection to ethically research, synthesize and evaluate complex information, problems, concepts, interpretations and theories to demonstrate cognitive and technical skills in a body of knowledge or practice.</p> <p>Effectively disseminate research outcomes to a variety of audiences using highly developed communication skills and work productively within a team of experts in the field.</p>
Self-management	<p>Demonstrate an advanced and integrated understanding of a complex body of knowledge in one or more discipline areas by generating substantial contribution to knowledge through the use of appropriate research principles and methods.</p>
Teamwork	<p>Apply critical analysis and reflection to ethically research, synthesize and evaluate complex information, problems, concepts, interpretations and theories to demonstrate cognitive and technical skills in a body of knowledge or practice.</p> <p>Effectively disseminate research outcomes to a variety of audiences using highly developed communication skills and work productively within a team of experts in the field.</p>
Global citizenship	<p>Demonstrate autonomy, expert judgement, adaptability, initiative, resilience and responsibility as a practitioner or learner.</p>

*Approved by Faculty Board 7 June 2018*

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Master of Science

<i>Year</i>	2019 course information
<i>Award granted</i>	Master of Science
<i>Campus</i>	Burwood (Melbourne), Waurn Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	2 years full-time or part-time equivalent
<i>CRICOS course code</i>	070237K
<i>Deakin course code</i>	F843
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 9.

## Course overview

A full-time member of the academic staff in the Institute for Intelligent Systems Research and Innovation, experienced in research (IISRI), will be appointed as supervisor for each student in the Master of Science – Information Technology. Associate supervisors, internal or external, may be appointed to assist the principal supervisor. Students may be required to meet certain attendance requirements and will be required to complete a thesis embodying the results of research carried out in the field of study specified at the time of enrolment. Students will be referred to prospective supervisors in order to establish a possible research project.

To qualify for a Master by Research, students must demonstrate an advanced and integrated understanding of a complex body of knowledge in one or more discipline areas by generating a substantial contribution to knowledge through the use of appropriate research principles and methods. This is in the form of a thesis of up to 50,000 words in length which will be assessed via an external examination. Although the focus of the degree is on research, students are also required to complete a minimum of one unit of coursework.

## Participation requirements

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Course learning outcomes

# Return to Practice/Initial Registration of Overseas Nurses – Registered Nurse

<i>Year</i>	2019 course information
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	<p>The course is typically completed over a ten (10) week period and is offered twice a year subject to minimum enrolments and the availability of suitable clinical venues. Depending on the availability of clinical placements and other clinical requirements the duration may extend to 14 weeks.</p> <ul style="list-style-type: none"> <li>• June 2019 offering – applications are currently closed for assessment and applicants will be notified if they have been offered a place in the course.</li> <li>• January 2020 offering – applications open Monday 2 September 2019.</li> </ul> <p>Please check Deakin’s website again for information about future offerings.</p>
<i>CRICOS course code</i>	062983J
<i>Deakin course code</i>	H011

This is a full fee paying program. International applicants must contact Deakin International directly for details of course fees. Re-entry and Australian permanent resident applicants should contact the School of Nursing and Midwifery regarding fees.

## Course overview

The Return to Practice or Initial Registration of Overseas Nurses – Registered Nurse course is a non-award course for nurses who: a) have previously been registered in Australia, but have not had sufficient nursing practice in the preceding five years OR b) are wishing to obtain initial registration in Australia.

The course is made up of 6 weeks of theory and 4 weeks of clinical placement, normally conducted over a 10 week period. Depending on the availability of clinical placements and other clinical requirements the duration may extend to 14 weeks.

On successful completion of the course the student will be eligible to apply for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

*Note: the NMBA has registration requirements that must be met in order to register. Course completion is one of these requirements.*

This course is currently accredited as at the date of publishing.

## Professional recognition

On successful completion of the course, you will be eligible to seek registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

## Participation requirements

Students will undertake a clinical placement practicum of 160 hours

Placement can occur at any time, including during the standard holiday breaks listed here:  
[deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin’s website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Inherent requirements

Essential knowledge, skills and capabilities are required to undertake and successfully complete the undergraduate nursing and midwifery courses and to practice safely as a registered nurse and/or midwife. The inherent requirements of the course are listed on Deakin's website at School of Nursing and Midwifery Undergraduate Courses: Inherent Requirements.

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Provide competent, safe, and comprehensive nursing care in contemporary health care settings in Australia; select and evaluate current research and evidence; demonstrate the attitudes and skills required by ANMC competencies in nursing practice.
Communication	Demonstrate therapeutic communication skills to interact effectively and professionally within the multidisciplinary health care team.
Digital literacy	Use a range of information technologies and retrieve information via databases.
Critical thinking	Contribute to the development of nursing as a discipline through critical enquiry and professional engagement.
Problem solving	Demonstrate critical thinking and problem solving, innovative thinking, and the ability to transfer skills and knowledge to new and challenging situations.
Self-management	Develop the skills for independent study and a commitment to life-long learning.
Teamwork	Display a broad understanding of the professional, legal, and ethical responsibilities aligned with being a Registered Nurse within the Australian context.
Global citizenship	Demonstrate knowledge of the Australian social, cultural, political and economic context in which health services operate including those involved in the health of Aboriginal and Torres Strait Islanders.

## Course rules

To complete the Return to Practice or Initial Registration of Overseas Nurses – Registered Nurse course students must attain 4 credit points taken over three units. All units must be successfully completed.

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

The course is divided into two components: a 6 week academic component and a 4 week clinical component.

The duration of the course is normally 10 weeks. Depending on the availability of clinical placements and other clinical requirements the duration may extend to 14 weeks.

### Academic learning program: 6 weeks

The academic program comprises six weeks of full-time study, based at Melbourne Burwood campus, providing a broad overview of nursing practice in the contemporary Australian society and health care system. The program is offered in two units of study.

### Clinical learning program: 4 weeks

The clinical learning program aims to provide an opportunity for the student to consolidate their experience in the Australian clinical environment under the supervision and guidance of expert clinicians and clinical facilitators.

On successful completion of the course, each student will have met the Nursing and Midwifery Board of Australia's Registered Nurse Standards for Practice.

### Units offered

- HNN021 Nursing Practice in Australia
- HNN026 Legal Ethical and Contemporary Issues in Australian Nursing Practice
- HNN025 Clinical Practicum

## Work experience

Students will undertake a clinical placement practicum of 160 hours

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing clinical placements.

# Bachelor of Health Sciences

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Health Sciences
<i>Campus</i>	Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Deakin Learning Centre Dandenong, Hume Global Learning Centre – Craigieburn, Werribee Learning Centre, Hamilton Campus, South West TAFE, Portland Campus, South West TAFE
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	052823G
<i>Deakin course code</i>	H300 (version 1)

*Students commencing in 2017 should go to the 2017 handbook entry.*

## Course overview

If you know you want to work in the health sector, this health science course will help you explore the many career paths available. Learn about human structure and function, disease and infection, disability and inclusion issues, nutrition, physical activity and exercise, influences on human behaviour and more.

The Bachelor of Health Sciences allows you to concentrate your studies on two specialised health-related areas while diversifying your knowledge through elective units.

This flexible degree is an excellent option for those looking to discover their passion in the health sector, while creating a pathway to further professional studies.

## Course rules

To complete the Bachelor of Health Sciences students must attain 24 credit points. Most units (think of units as 'subjects') are equal to one credit point. In order to gain 24 credit points you will need to study 24 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester and usually undertake two trimesters each year.

The course comprises a total of 24 credit points, which must include the following:

- 2 major sequences of study from the Faculty of Health – see below
- At least 16 credit points must be selected from units offered by the Faculty of Health
- These must include core units HBS107 Understanding Health and HBS108 Health Information and Data
- A maximum of 10 credit points at level 1
- At least 14 credit points must be studied at level 2 or higher
- At least four credit points must be at level 3
- A maximum of 8 credit points may be selected from units offered by other faculties.

## Major sequences

The following majors are available within the Bachelor of Health Sciences for students that commenced the degree prior to 2017. Students who commenced in 2016 and have indicated they wish to complete the 2017 version of the degree need to refer to the 2017 handbook entry.

Availability of majors at each campus varies, including majors offered through Deakin Learning Centres. Refer to the details of each major for campus and Deakin Learning Centre availability.

- Environmental Health
- Exercise Science
- Family, Society and Health
- Food Studies
- Health Promotion

- Health and Sustainability
- Medical Biotechnology
- Nutrition
- People, Society and Disability
- Physical Activity and Health
- Psychology
- Sport Coaching

A major sequence in the Faculty of Health consists of a minimum of 6 credit points in a particular discipline area, including at least 2 credit points at each of levels 2 and 3. Students enrolled in other courses and faculties may take these sequences, or take minor sequences (4 credit points, 2 each at two level levels) or individual electives from these discipline areas, subject to meeting the prerequisites.

Individual units cannot be counted towards more than one major. Where the units in one major have already been counted towards another, students must take additional units in the second discipline area. For example, HBS109 is one of the units in Nutrition, as well as being part of the Exercise Science major sequence. Students wishing to combine these two majors must take an additional unit, either in Exercise (HSE) or in Nutrition (HSN).

Faculty of Health major sequences are described below. Each unit is worth 1 credit point (cp), unless otherwise specified. Unit offerings are subject to resources and demand.

## Details of major sequences

### **Exercise Behaviour**

This major provides students with an understanding of the behavioural basis of exercise and sport, with a particular emphasis on the relationships between physical activity and health.

HBS107	Understanding Health
HBS110	Health Behaviour
HSE203	Exercise Behaviour
HSE204	Motor Learning and Development
HSE309	Behavioural Aspects of Sport and Exercise
HSE316	Physical Activity and Population Health

### **Exercise Science – unit set code – MJ-H000016**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online) and students enrolled in H300DA and H300WE*

*Note: For Cloud (online) some units will require compulsory attendance at Burwood (Melbourne) for a limited period during the trimester.*

### **Overview**

This major provides students with a sound understanding of the core sciences underpinning both competitive sport and recreational physical activity. A variety of learning approaches is adopted, allowing students to integrate their sporting interests with their studies, as well as to match these with their employment objectives.

### **Units**

HBS109	Human Structure and Function
HSE102	Functional Human Anatomy
HSE201	Exercise Physiology
HSE202	Biomechanics
HSE301	Exercise Prescription for Fitness and Health
HSE302	Exercise Programming

**Environmental Health – unit set code – MJ-S000059***Burwood (Melbourne)***Overview**

Focusing on healthy environments and healthy people, this major is recommended for students interested in working in public health policy, environmental health and related areas.

**Units**

HBS107	Understanding Health
SLE111	Cells and Genes
HSN101	Foundations of Food, Nutrition and Health
SLE234	Microbiology
HSH205	Epidemiology and Biostatistics 1
SLE312	Toxicology
SLE342	Risks to Healthy Environments

**Family, Society and Health – unit set code – MJ-H000002***Burwood (Melbourne), Cloud (online) and students enrolled in H300DA and H300WE***Overview**

This major focuses on the household and family as a setting for public health. It explores the issues facing households and families, such as the link between healthy human development and healthy households, economic wellbeing and health, and the need for supportive environments. It is ideal for students wishing to work in welfare, health promotion, or with organisations offering support services and resources for families.

**Units**

HSH105	Understanding Families and Health
HBS108	Health Information and Data
HSH206	Human Development and Healthy Families
HSH207	Socio-Economic Status and Health
HSH306	People, Health and Place
HSH313	Contemporary Health Issues

**Food Studies – unit set code – MJ-H000003***Burwood (Melbourne)***Overview**

This major provides knowledge of food, ranging from the science of food composition to community issues such as genetically modified foods and food law. This understanding will be useful for a range of careers, including those in industry, health services, business and the mass media.

**Units**

HSN101	Foundations of Food, Nutrition and Health
HSN104	The Science of Food
HSN204	Food Safety
HSN209	Food Security and Safety
HSN309	Food Policy and Regulation
HSN315	Food Manufacturing and Process Innovation

**Recommended electives**

HSN313	Sensory Evaluation of Foods
HSN320	Trends in Product Development

**Trimester 3 elective:**

HSN360	International Perspectives in Food and Nutrition (next offered in 2017, unit description currently unavailable)
--------	---

### **Health Promotion – unit set code – MJ-H000004**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online) and students enrolled in H300DA and H300WE*

#### **Overview**

This major will equip students with a sound knowledge of the causes of health and illness and of effective strategies for prevention of the latter, as well as practical skills in health education and communication, health planning and management.

#### **Units**

HBS107	Understanding Health
HBS110	Health Behaviour
HSH201	Planning and Evaluation 1
HSH218	Planning and Evaluation 2
HSH302	Politics, Policy and Health
HSH313	Contemporary Health Issues

### **Health and Sustainability – unit set code – MJ-H000013**

*Burwood (Melbourne)*

#### **Overview**

This major will enable students to identify and predict the impact of human behaviours on natural systems and ecological sustainability and propose strategies that apply the principles of environmental sustainability and health promotion.

#### **Units**

SLE121	Environmental Sustainability
HSH112	Local and Global Environments for Health
HSH201	Planning and Evaluation 1
SHD201	Creating Sustainable Futures
HSH302	Politics, Policy and Health
HSH340	Health in Action: Planning for Sustainable Change

### **Human Services – unit set code MJ-H000024**

*Melbourne Burwood Campus and Geelong Waterfront Campus. Also available by off campus study.*

*Offered to continuing students only*

Through this major, students will develop knowledge and skills regarding the context, organisational structures and practices that support quality human service provision by government and non-government organisations.

HDS101	Communication and Diversity
HSH114	Introduction to Human Services (No longer available for enrolment)
HSW235	Community Development: Social Work Theory and Practice D
HSH214	Service Design and Delivery (No longer available for enrolment)
HSH302	Politics, Policy and Health
HSH312	Professional Practice in Human Services (No longer available for enrolment)

\*\* Only available to students enrolled in course codes H300 or D391

**Medical Biotechnology – unit set code – MJ-H000032***Waurm Ponds (Geelong), Burwood (Melbourne) – from 2016***Overview**

Medical Biotechnology uses cells and cell materials to produce pharmaceutical and diagnostic products that help treat and prevent human diseases. This major provides students with a sound understanding of the core sciences underpinning biotechnology for medical advancement.

**Units**

- HMM101 Introduction to Medical Biotechnology
- HMM102 Principles of Gene and Genomic Technology
- HMM201 Medical Nanotechnology
- HMM202 Molecular Diagnostics
- HMM302 Innovations in Medical Biotechnology
- HMM305 Cell and Tissue Engineering

**Nutrition – unit set code – MJ-H000007**

*Burwood (Melbourne), Waurm Ponds (Geelong), Warrnambool and students enrolled in H300DA and H300WE. Some units available in Cloud (online). H300DA and H300WE students: some units only available at Burwood (Melbourne)*

**Overview**

Students taking a nutrition major will gain a sound knowledge of the biological basis of human nutrition and the relationship between diet, health and disease.

**Units**

- HBS109 Human Structure and Function
- HSN101 Foundations of Food, Nutrition and Health
- HSN211 Nutritional Physiology
- HSN202 Lifespan Nutrition
- HSN301 Diet and Disease
- HSN302 Population Nutrition

Students who have previously completed HSN201 do not need to also complete HSN211

**Recommended electives**

- HSN210 Nutrition and Food Promotion
- HSN305 Assessing Food Intake and Activity

**Trimester 3 elective**

- HSN360 International Perspectives in Food and Nutrition (next offered in 2017, unit description currently unavailable)

**People, Society and Disability – unit set code – MJ-H000025**

*Burwood (Melbourne), Cloud (online) and students enrolled in H300DA and H300WE*

**Overview**

Completion of this major will give students an opportunity to expand their job opportunities by being better informed about positive options and techniques to assist and support the one in five members of the Australian population who has some form of disability. Students undertaking this major should note that new units will be introduced progressively and will replace existing units in second and third level.

**Units**

- HDS101 Communication and Diversity
- HDS106 Diversity, Disability and Social Inclusion
- HDS209 Inclusive Services
- HDS210 Diversity At Work
- HDS301 The Inclusive Practitioner
- HDS310 Human Rights and Advocacy

### **Physical Activity and Health – unit set code – MJ-H000023**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool and students enrolled in H300DA and H300WE. Some units available in Cloud (online). H300DA and H300WE students: some units only available at Burwood (Melbourne)*

#### **Overview**

This major provides students with an understanding of how behaviour influences health, with a particular emphasis on the relationships between physical activity and health.

#### **Units**

HBS107	Understanding Health
HBS110	Health Behaviour
HSE203	Exercise Behaviour
HSE212	Physical Activity Promotion and Evaluation
HSE313	Children's Physical Activity and Sport
HSE316	Physical Activity and Population Health

### **Psychology – unit set code – MJ-H000008**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online) and students enrolled in H300DA and H300WE. Individual units may not be available on every campus.*

D391 Bachelor of Health Sciences/Bachelor of Arts students must enrol in unit set code MJ-AH00008

#### **Overview**

This sequence develops students' understanding of a range of topics in psychology, which is the science concerned with unravelling questions about human behaviour and mental processes. This six unit major is not intended for the purpose of registration as a psychologist.

To obtain the six unit major students must complete HPS111 and HPS121 plus:

- Any two level 2 units from the list below.
- Any two level 3 units (for which the prerequisite units have been completed) from the list below.

Students intending to become psychologists must complete four years of academic study (three years of undergraduate study, including ten units of psychology, plus either an Honours year or the Graduate Diploma of Psychology).

#### **Units**

To obtain the ten unit undergraduate psychology sequence students must complete all the units listed below.

HPS111	Psychology A: Fundamentals of Human Behaviour
HPS121	Psychology B: Individual and Social Development
HPS201	Research Methods in Psychology A
HPS202	Child and Adolescent Development
HPS203	The Human Mind
HPS204	Human Social Behaviour
HPS301	Research Methods in Psychology B
HPS307	Personality
HPS308	Psychopathology
HPS310	Brain, Biology and Behaviour

**Sport Coaching – unit set code MJ-H000011***Burwood (Melbourne)***Overview**

This major will enhance students' job opportunities, as they will be better informed about sport coaching and techniques to assist and support the athletes and teams in a variety of settings.

**Units**

HSE105	Principles of Sport Coaching
HSE106	Introduction to Sport Coaching Practice (No longer available for enrolment)
HSE204	Motor Learning and Development *
HSE205	Advanced Sport Coaching Theory and Practice
HSE305	Issues in Sport Coaching
HSE321	Sport Coaching and Development Practicum

\* As part of this major sequence, students are not required to do HSE204 if they have completed HSE206.

**Psychology for Professional Development – unit set code – MJ-H000035 – Major; MN-H000035 – Minor**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online) and students enrolled in H300DA and H300WE. Individual units may not be available on every campus.*

**Overview**

This sequence prepares students for work in complementary professional fields upon graduation. Careers immediately available to health sciences graduates within the pathway to allied professions, can be divided broadly into the following categories (please refer to the Psychology Careers website for details):

- Community work
- Coaching and counselling individuals and groups
- Health and human services consulting

**Units**

Major students select three pairs of units to suit their career goals.

Minor students select Psychology for Health and one other pair of units to suit their career goals.

**Psychology of Health (pair)**

HBS110	Health Behaviour
HPS226	Applied Health Psychology

**Changing Behaviour (pair) – Not available Cloud (online) or Warrnambool**

HPY210	Coaching and Counselling for Behaviour Change
HPY310	Coaching and Counselling Groups for Behaviour Change

**Life Course Development (pair)**

HPS202	Child and Adolescent Development
HPS302	Pathways Through Adulthood

**Employability (pair)**

HPS207	Preparing for Employment
HPS328	Psychology At Work (Internship)

## **Psychological Science – unit set code – MJ-H000034 – Major**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online) and students enrolled in H300DA and H300WE. Individual units may not be available on every campus.*

### Overview

This sequence prepares students for postgraduate training towards becoming both a practicing registered psychologist. To practice as a psychologist students must complete an undergraduate degree with a major sequence in psychology followed by a fourth year of study in psychology (an Honours in Psychology or a Graduate Diploma of Psychology) that are accredited by the Australian Psychology Accreditation Council (APAC).

### Units

To obtain the ten unit undergraduate psychology sequence students must complete all the units listed below.

HPS111	Psychology A: Fundamentals of Human Behaviour
HPS121	Psychology B: Individual and Social Development
HPS201	Research Methods in Psychology A
HPS202	Child and Adolescent Development
HPS203	The Human Mind
HPS204	Human Social Behaviour
HPS301	Research Methods in Psychology B
HPS307	Personality
HPS308	Psychopathology
HPS310	Brain, Biology and Behaviour

# Bachelor of Health Sciences

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Health Sciences
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online) – only for majors Health Promotion, Disability and Inclusion, Family, Society and Health, Nutrition, Psychological Science, Psychology for Professional Development, Exercise Science
<i>Cloud Campus</i>	Yes
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	052823G
<i>Deakin course code</i>	H300 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

A rewarding career in a health-related field gives you the chance to reduce health disparity and to help people – whether in Australia or overseas – to lead fuller, healthier and happier lives. As a Bachelor of Health Sciences graduate, you can be confident that you will get a solid grounding in multiple fields of health sciences, and be prepared for a successful career in the fastest growing employment sector in Australia.

Do you want to study a flexible course that focuses on improving the health and wellbeing of people in local and global communities?

If you want to work in the health and human services sector, tackling the big issues in health, our degree gives you the opportunity to learn from leaders in their field and build industry connections. You will get the chance to explore and combine your specific interests and gain unique expertise relevant to contemporary issues in health.

Become a specialist in two major areas, and choose elective units to broaden your skill set even further. You can also consider selecting a third major area of study.\* Combining your interests with multiple majors can open more doors to further study and increase your employability. Major study areas include:

- disability and inclusion
- environmental health
- exercise science
- family, society and health
- food studies
- health promotion
- health and sustainability
- medical biotechnology
- nutrition
- physical activity and health
- psychological science
- psychology for professional development.

Health sciences also offers workplace learning opportunities, including units in your second and/or final year of study. The Health Sciences Practicum offered in final year gives you the option to complete a 120-hour practice education placement. This gives you the opportunity to apply your theoretical knowledge in a real-world context, adding experience to your resume and developing your professional networks in the health sector.

Whatever your choice of majors, this is the degree to propel you into a rewarding career contributing to the promotion of health and wellbeing across society.

\* Completing three majors is not possible if a student selects the psychological science major.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Not applicable

## Career opportunities

This flexible degree allows you to combine study areas that you are passionate about, and benefit from workplace learning to become a specialist in the booming health sector.

Depending on your majors, your health sciences degree can prepare you for work in the following roles and fields:

- case manager
- disability inclusion worker
- family/community/refugee/indigenous project officer
- environmental and sustainability officer
- policy adviser
- exercise specialist
- food and nutrition policy developer
- food scientist
- health educator or counsellor
- health and sports marketer or PR officer
- health policy development
- health promotion and communication officer
- international aid worker
- lifestyle and wellness professional
- medical biotechnology researcher
- nutrition and health promotion coordinator
- regional health service planner.

The health and human services sector is one of the largest and fastest growing industries in Australia and the world. With ageing populations and public health issues, such as obesity and chronic illness on the rise, and with governments around the world increasing emphasis on disease prevention, as well as treatment, employability in the sector is strong and continually increasing.

In Australia, the health and human services sector is projected to make the largest contribution to employment growth by 16.1% over the five years to May 2022.\*

You may choose to begin your studies with a Bachelor of Health Sciences to get a solid grounding in health sciences and explore your interest areas, then follow a pathway into psychology, nutrition, public health or nursing. This will allow you to pursue further career opportunities in specialist fields.

\* Australian Jobs 2018 Report, Department of Jobs and Small Business

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

The Bachelor of Health Sciences can be used as an excellent pathway to postgraduate study including:

- Master of Public Health
- Master of Health Promotion
- Master of Health Economics
- Master of Health and Human Services Management
- Master of Human Nutrition
- Master of Dietetics

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Integrate and apply a broad and coherent knowledge of the determinants of health and illness, health and social data, health equity, cultural diversity, human rights, public policy, health and social systems, and ethical practice, to plan, implement and evaluate programs relevant to health and community services sectors.
Communication	Use a range of modes of communication to engage and facilitate groups, organisations and culturally diverse communities as well as communicate discipline specific knowledge to a variety of audiences such as professionals, government and non-government representatives, community members, clients and/or patients.
Digital literacy	Select and use appropriate technologies to source, interpret, evaluate, adapt, collate and disseminate relevant information to professional networks and communities in an ethical and professional manner.
Critical thinking	Critically analyse evaluate and synthesise relevant discipline specific issues and contemporary literature/research within the health and social services field, applying an evidence-based approach.
Problem solving	Apply best practice and respond effectively using well-developed cognitive and creative skills within an evidence-based framework to identify, research, analyse, generate and provide practical solutions to a range of changing, diverse and complex health issues, contributing new insights, solutions or understanding.
Self-management	Employ independent, self-directed work and learning practices in a responsible manner, including self-reflection, in order to practice professionally and contribute to the improvement of the health and wellbeing of individuals and populations.

Graduate learning outcomes	Course learning outcomes
Teamwork	Establish and facilitate collaborative professional relationships, adapting roles and working as part of interdisciplinary teams with a range of stakeholders to advance the health science field.
Global citizenship	Reflect on a variety of viewpoints, attitudes and beliefs, including one's own, to engage ethically in professional practice and foster capacity building in health sciences within globally diverse social, cultural and environmental contexts.

## Course rules

*NOTE: If you commenced your study in, or prior to, 2015 then the former course structure with two core units may apply. Please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au) if you have any queries.*

To complete the Bachelor of Health Sciences students must attain 24 credit points. Most units (think of units as 'subjects') are equal to one credit point. In order to gain 24 credit points you will need to study 24 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester and usually undertake two trimesters each year.

The course comprises a total of 24 credit points and students must ensure that they have met the following course rules to be eligible to graduate.

Must complete:

- 6 core units (these are compulsory)
- at least 2 major sequences from list below.
- at least 18 credit points offered by the Faculty of Health.
- at least 14 credit points studied at level 2 or 3
- at least 6 credit points at level 3

May complete a maximum of 6 credit points from units offered by other Faculties.

Must not complete more than 10 credit points at level 1.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

The following majors and minors are available within the Bachelor of Health Sciences.

Availability of majors and minors at each campus varies, including majors and minors offered through Deakin Learning Centres. Refer to the details of each major for campus and Deakin Learning Centre availability.

- Environmental Health – Major
- Exercise Science – Major and Minor
- Family, Society and Health – Major and Minor
- Food Studies – Major and Minor
- Health Promotion – Major and Minor
- Health and Sustainability – Major and Minor
- Medical Biotechnology – Major and Minor
- Nutrition – Major and Minor
- Disability and Inclusion (previously titled: People, Society and Disability) – Major and Minor
- Physical Activity and Health – Major and Minor
- Psychological Science – Major
- Psychology for Professional Development – Major and Minor

A major sequence in the Faculty of Health consists of a minimum of 6 credit points in a particular discipline area, including at least 2 credit points at each of levels 2 and 3. Students enrolled in other courses and faculties may take these sequences, or take minor sequences (4 credit points) or individual electives from these discipline areas, subject to meeting the prerequisites.

Individual units cannot be counted towards more than one major. Where the units in one major have already been counted towards another, students must take additional units in the second discipline area. For example, HBS109 is one of the units in Nutrition, as well as being part of the Exercise Science major sequence. Students wishing to combine these two majors must take an additional unit, either in Exercise (HSE) or in Nutrition (HSN). Your student advisor can provide more information.

Faculty of Health minor sequences consist of 4 credit points, as outlined in each major that has a minor sequence available.

Faculty of Health major sequences are described below. Each unit is worth 1 credit point (cp), unless otherwise specified. Unit offerings are subject to resources and demand.

## Course structure

### Core units

#### Level 1

##### Trimester 1

HAI010 Academic Integrity (0 credit points)  
HBS107 Understanding Health

##### Trimester 2

HBS108 Health Information and Data

#### Level 2

##### Trimester 1

HSH211 Australian Health Care System

##### Trimester 2

HSH219 Population Health: A Research Perspective

#### Level 3

##### Trimester 1

HSH323 Program Planning, Management and Evaluation

##### Trimester 2

HSH324 Integrated Learning for Practice

## Work experience

Work-integrated learning is incorporated within this course, allowing students the opportunity to engage with industry and complete a range of authentic tasks. A core unit at third-year level, based on inter-professional learning (IPL), provides students the opportunity to draw together their cross-disciplinary learning to demonstrate the knowledge and the skills they have acquired throughout the course and apply them to real-world issues. HSH324 Integrated Learning for Practice, involves interdisciplinary teams working to develop responses to real-world problems for presentation to a professional audience.

Students have the option to complete a 120-hour field education placement unit (HSH322 Health Science Practicum) that provides you with an opportunity to transfer your knowledge and skills to a practical setting, where you can further your learning through realistic field experience. This placement enables you to consolidate your skills under the supervision of qualified practitioners, which assists you to be work-ready after graduation.

## Details of major sequences

### **Environmental Health – unit set code – MJ-S000059 – Major**

*Burwood (Melbourne), Waurn Ponds (Geelong)*

#### Overview

Focusing on healthy environments and healthy people, this major is recommended for students interested in working in public health policy, environmental health and related areas.

#### Units

SLE111	Cells and Genes
HSN101	Foundations of Food, Nutrition and Health
SLE234	Microbiology
HSH205	Epidemiology and Biostatistics 1
SLE312	Toxicology
SLE342	Risks to Healthy Environments

### **Exercise Science – unit set code – MJ-H000016 – Major; MN-H000016 – Minor**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Note: Cloud (online) offering has on campus intensive workshops of 2-4 days for HSE102, HSE201, HSE202, HSE301 and HSE302.*

#### Overview

This major provides students with a sound understanding of the core sciences underpinning both competitive sport and recreational physical activity. A variety of learning approaches is adopted, allowing students to integrate their sporting interests with their studies, as well as to match these with their employment objectives.

#### Units

HBS109	Human Structure and Function *
HSE102	Functional Human Anatomy
HSE201	Exercise Physiology *
HSE202	Biomechanics *
HSE301	Exercise Prescription for Fitness and Health *
HSE302	Exercise Programming

\* Units required for Minor sequence

### **Family, Society and Health – unit set code – MJ-H000002 – Major; MN-H000002 – Minor**

*Burwood (Melbourne), Cloud (online)*

#### Overview

This major focuses on the household and family as a setting for public health. It explores the issues facing households and families, such as the link between healthy human development and healthy households, economic wellbeing and health, and the need for supportive environments. It is ideal for students wishing to work in welfare, health promotion, or with organisations offering support services and resources for families.

#### Units

HSH105	Understanding Families and Health *
HSH113	Social Perspectives on Population Health
HSH206	Human Development and Healthy Families *
HSH207	Socio-Economic Status and Health *
HSH306	People, Health and Place *
HSH313	Contemporary Health Issues

\* Units required for Minor sequence

**Food Studies – unit set code – MJ-H000003 – Major; MN-H000003 – Minor***Burwood (Melbourne)***Overview**

This major provides knowledge of food, ranging from the science of food composition to community issues such as genetically modified foods and food law. This understanding will be useful for a range of careers, including those in industry, health services, business and the mass media.

**Units**

HSN101	Foundations of Food, Nutrition and Health *
HSN104	The Science of Food *
HSN204	Food Safety *
HSN223	Sensory Evaluation of Food *
HSN309	Food Policy and Regulation
HSN315	Food Manufacturing and Process Innovation

\* Units required for Minor sequence

**Recommended electives**

HSN320	Trends in Product Development
--------	-------------------------------

**Trimester 3 elective**

HSN360	International Perspectives in Food and Nutrition
--------	--

**Health Promotion – unit set code – MJ-H000004 – Major; MN-H000004 – Minor***Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online)***Overview**

This major will equip students with a sound knowledge of the causes of health and illness and of effective strategies for prevention of the latter, as well as practical skills in health education and communication, health planning and management.

**Units**

HBS110	Health Behaviour
HSH111	Introduction to Public Health and Health Promotion *
HSH208	Health Communication *
HSH212	Professional Practice *
HSH302	Politics, Policy and Health
HSH313	Contemporary Health Issues

\* Units required for Minor sequence and one of HSH302 or HSH313

**Health and Sustainability – unit set code – MJ-H000013 – Major; MN-H000013 – Minor***Burwood (Melbourne)***Overview**

This major will enable students to identify and predict the impact of human behaviours on natural systems and ecological sustainability and propose strategies that apply the principles of environmental sustainability and health promotion.

**Units**

SLE121	Environmental Sustainability
HSH112	Local and Global Environments for Health *
HSW235	Community Development: Social Work Theory and Practice D *
SHD201	Creating Sustainable Futures *
HSH302	Politics, Policy and Health *
HSH340	Health in Action: Planning for Sustainable Change

\* Units required for Minor sequence

**Nutrition – unit set code – MJ-H000007 – Major; MN-H000007 – Minor**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool. Some units available in Cloud (online).*

**Overview**

Students taking a nutrition major will gain a sound knowledge of the biological basis of human nutrition and the relationship between diet, health and disease.

**Units**

HBS109	Human Structure and Function *
HSN101	Foundations of Food, Nutrition and Health *
HSN211	Nutritional Physiology *
HSN202	Lifespan Nutrition *
HSN301	Diet and Disease
HSN302	Population Nutrition

\* Units required for Minor sequence

Students who have previously completed HSN201 do not need to also complete HSN211

**Recommended electives**

HSN210	Nutrition and Food Promotion
HSN305	Assessing Food Intake and Activity

**Trimester 3 elective**

HSN360	International Perspectives in Food and Nutrition
--------	--

**Medical Biotechnology – unit set code – MJ-H000032 – Major; MN-H000032 – Minor**

*Waurn Ponds (Geelong), Burwood (Melbourne)*

**Overview**

Medical Biotechnology uses cells and cell materials to produce pharmaceutical and diagnostic products that help treat and prevent human diseases. This major provides students with a sound understanding of the core sciences underpinning biotechnology for medical advancement.

**Units**

HMM101	Introduction to Medical Biotechnology *
HMM102	Principles of Gene and Genomic Technology *
HMM201	Medical Nanotechnology *
HMM202	Molecular Diagnostics
HMM302	Innovations in Medical Biotechnology
HMM305	Cell and Tissue Engineering *

\* Units required for Minor sequence

**Disability and Inclusion – unit set code – MJ-H000025 – Major; MN-H000025 – Minor**

*Burwood (Melbourne), Cloud (online)*

*(previously titled: People, Society and Disability)*

**Overview**

Completion of this major will equip students with skills to be an inclusion professional, working to overcome the social and structural barriers that contribute to disability. Students can apply these skills alongside those of other majors and disciplines, including skills in inclusive communication strategies, inclusive services, advocacy and human rights.

## Units

HDS101	Communication and Diversity *+
HDS106	Diversity, Disability and Social Inclusion *+
HDS209	Inclusive Services *
HDS210	Diversity At Work +
HDS301	The Inclusive Practitioner +
HDS310	Human Rights and Advocacy *

\* Units required for Minor sequence focusing on inclusive services and advocacy

+ Units required for Minor sequence focusing on inclusion practice in diverse professions

### **Physical Activity and Health – unit set code – MJ-H000023 – Major; MN-H000023 – Minor** *Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool. Some units available in Cloud (online)*

The minor sequence is under review. Students who wish to undertake the minor sequence should consult their course advisor.

## Overview

This major provides students with an understanding of how behaviour influences health, with a particular emphasis on the relationships between physical activity and health.

## Units

HSE111	Physical Activity and Exercise for Health *
HSE112	Pathways in the Physical Activity, Exercise and Health Industry
HSE212	Physical Activity Promotion and Evaluation *
HSE213	Children's Physical Activity and Sport *
HSE316	Physical Activity and Population Health *
HSE332	Global Perspectives in Physical Activity and Exercise for Health

\* Units required for Minor sequence

Students who commenced the major in or before 2016 who have completed HBS107 and HBS110 will need to enrol into these second and third year units: HSE203 and HSE212 in 2017, and HSE313 and HSE316 in 2018.

Students who commenced their course in or before 2016 and wish to start undertaking the major in 2017, but have not completed HBS107 and HBS110 will need to follow the new sequence above.

If you are unsure which sequence you can to undertake or have questions about this major, please contact your student adviser immediately by emailing: [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)

Students from courses other than H343 Bachelor of Exercise and Sport Science and H315 Bachelor of Nutrition Science will need to ensure that their course rules will allow them to undertake this major.

### **Psychological Science – unit set code – MJ-H000034 – Major**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online). Individual units may not be available on every campus.*

## Overview

This sequence prepares students for postgraduate training towards becoming both a practicing registered psychologist. To practice as a psychologist students must complete an undergraduate degree with a major sequence in psychology followed by a fourth year of study in psychology (an Honours in Psychology or a Graduate Diploma of Psychology) that are accredited by the Australian Psychology Accreditation Council (APAC).

*Note: This major cannot be undertaken as part of D391 Bachelor of Health Sciences/Bachelor of Arts*

## Units

To obtain the ten unit undergraduate psychology sequence students must complete all the units listed below.

HPS111	Psychology A: Fundamentals of Human Behaviour
HPS121	Psychology B: Individual and Social Development
HPS201	Research Methods in Psychology A
HPS202	Child and Adolescent Development
HPS203	The Human Mind
HPS204	Human Social Behaviour
HPS301	Research Methods in Psychology B
HPS307	Personality
HPS308	Psychopathology
HPS310	Brain, Biology and Behaviour

### **Psychology for Professional Development – unit set code – MJ-H00035 – Major; MN-H00035 – Minor**

*Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online). Individual units may not be available on every campus.*

## Overview

This sequence prepares students for work in complementary professional fields upon graduation. Careers immediately available to health sciences graduates within the pathway to allied professions, can be divided broadly into the following categories (please refer to the Psychology Careers website for details):

- Community work
- Coaching and counselling individuals and groups
- Health and human services consulting

## Units

HBS110	Health Behaviour
HPS202	Child and Adolescent Development
HPS207	Preparing for Employment
HPS226	Applied Health Psychology
HPS302	Pathways Through Adulthood
HPS328	Psychology At Work (Internship) (Start Anytime)

Minor students select HBS110 and HBS226 and either HPS202 and HPS302 OR HPS207 and HPS328 to suit your career goals.

It is recommended students complete HPS207 in second year to allow sufficient time to complete HPS328 in the final year

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Third party arrangements

Deakin College offers a subset of first year subjects of the degree as part of the Diploma of Health Sciences. Students who complete the program with a WAM of at least 50, can gain entry into H300, with credit for core and other units already completed, enabling them to enter at second year level of the degree.

## Quality assurance arrangements

The units offered by Deakin College are those offered as part of the H300. Quality assurance is as for the rest of H300.

## Research and research-related study

The degree includes two core units that offer research-related study, HBS108 and HSH219. HBS108 'Health Information and Data' provides the basic skills necessary to be consumers and providers of health research information.

The unit comprises nine topics, covering: measuring health and disease in populations, introduction to qualitative research, study design, obtaining online health information, evaluating popular health claims, introduction to quantitative research, evidence based practice including critical appraisal.

HSH219 'Population Health: A Research Perspective' aims to introduce students to the principles and practices of research in public health and health promotion with a focus on current population health issues using qualitative, quantitative and mixed methods approaches.

The unit covers topics such as the development and expression of research aims, questions and hypotheses; the application of appropriate research methods specific to research questions; and the different ways of collecting data in various research settings.

In addition, the capstone unit in the final year, HSH324, may further provide some students with opportunities to conduct research activities dependent on the nature of projects offered by employers/organisations.

Finally, a range of units across the majors incorporate smaller applied research tasks, such as health needs analyses of specific groups, service profiles, social issues research etc.

# Bachelor of Medical Imaging

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Medical Imaging
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Waurm Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full time program delivered over eight consecutive semesters commencing in Semester 1
<i>Deakin course code</i>	H309
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

The Bachelor of Medical Imaging has been developed to equip you with the latest knowledge in medical radiation science, and train you in techniques like ultrasound, magnetic resonance imaging (MRI) and computed tomography (CT). You will learn in our state-of-the-art facilities and take part in clinical placements in metro, rural and regional settings to ensure you graduate career-ready. This course will allow you to work as a registered diagnostic radiographer anywhere in Australia, New Zealand, the UK and Canada.

Want to gain the knowledge and clinical expertise to launch your career as a registered diagnostic radiographer?

Through this new and highly specialised course, you will develop an understanding of medical radiation science that informs principles of medical images and biological sciences, as well as important professionalism, communication, ethical and legal aspects of healthcare that will support your future career.

Using the latest equipment, you will learn basic X-ray techniques before advancing to more complex medical imaging procedures such as:

- general radiography
- digital vascular imaging
- mammography
- computed tomography (CT)
- general ultrasound (U/S)
- magnetic resonance imaging (MRI).

Clinical placements will be a core part of your study and start in your first year. A clinical placement model has been designed specifically for the course in association with metropolitan, rural and regional hospitals, and medical imaging clinics throughout Australia. You will gain valuable clinical practice in clinical centres and hospitals, as well our state-of-the-art medical imaging training unit, giving you diverse experience and skills.

Take advantage of Deakin's state-of-the-art facilities. Our medical imaging practical labs replicate real-world medical imaging clinics – two of the main X-ray examination rooms even include ceiling and floor-mounted imaging systems. The medical imaging labs are fully X-ray operational, so you will constantly be preparing yourself for your future with practical knowledge and skills.

## Indicative student workload

As a student in the Faculty of Health, you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

This course is designed to meet the requirements of the Australian Health Practitioners Regulation Agency (AHPRA). Deakin's Bachelor of Medical Imaging has been awarded accreditation with conditions by AHPRA, with statutory direction provided by the Medical Radiation Practice Board of Australia (MRPBA).

## Career opportunities

Upon graduation, you will be prepared to pursue a career as a diagnostic radiographer. You could find yourself working in a radiology department in a hospital, private radiology practice or health department. As a graduate, you will be eligible to work as a skilled practitioner across the broad range of diagnostic medical imaging, including:

- general radiography
- CT fluoroscopy

Having an AHPRA/MRPBA Statement of Accreditation enables registered graduates to work in a range of settings, such as:

- small regional clinics
- large metropolitan imaging departments
- hospitals and specialist medical facilities in Australia, New Zealand, the UK and Canada

## Participation requirements

The course involves compulsory clinical placements in each year. The sequence of eight clinical practice units is delivered over four years. These placements may require travel to rural areas and interstate travel.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

All students are required to undertake a Police and Working with Children Check at the commencement of their course. Students who fail to do so prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students are also required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply discipline specific knowledge to undertake radiographic procedures in a safe, accurate and ethical environment; develop clinical practices using evidence-based research.
Communication	Use oral, written and interpersonal forms of communication to communicate clearly, effectively and appropriately with a range of professionals, patients and their family/carers, taking into account the particular therapeutic context.
Digital literacy	Use digital technologies to critically evaluate information (including radiographic images), remain informed about current imaging theories and issues, and disseminate relevant information to professional networks, clients and communities.
Critical thinking	Analyse, evaluate and think critically and reflectively about radiographic factors (for example patient condition, clinical information, exposure) to ensure safe practice, resolve clinical challenges and obtain accurate diagnostic outcomes.
Problem solving	<p>Evaluate general radiography examinations for a range of patient/client presentations and complexities, problem solve in terms of new procedures and techniques used in medical imaging, and implement solutions.</p> <p>Recognise the advantages and limitations of available equipment and systems to provide a safe and effective radiographic examination that will ensure an accurate outcome.</p> <p>Use knowledge of available modalities and patient information to assess the most effective and appropriate means of finding an answer to a particular clinical question.</p>
Self-management	Maintain currency with developments in the field of radiological practice, use reflective practice to become a life-long learner by identifying ongoing learning needs and opportunities; assume responsibility and accept accountability for professional decisions.
Teamwork	Work effectively, ethically and responsibly within inter-disciplinary health care teams, and communicate clearly and professionally with team members to provide safe, high quality patient care.
Global citizenship	Demonstrate an understanding of one's own cultural perspectives and manage patients in a way that is culturally sensitive, consistent with legislation, professional, ethical and respectful.

## Course rules

To complete the Bachelor of Medical Imaging students must attain 32 credit points. Units (think of units as 'subjects') may be worth 1, 2 or 3 credit points – check each unit for its credit point value in the course structure below. Most students choose to study 4 credit points per semester. The course is delivered over eight consecutive semesters. All the units in the course are core (these are compulsory) other than a choice of one of two units in the final semester of the course.

Recognition of Prior Learning is not granted for this course.

## Course structure

### Units

#### Year 1

##### Semester 1

- HMI101 Medical Radiation Science 1
- HMI102 Foundation Principles and Application of Medical Imaging 1
- HMI103 Medical Imaging Practice 1

##### Semester 2

- HMI104 Foundation Principles and Application of Medical Imaging 2
- HMI105 Medical Imaging Practice 2

#### Year 2

##### Semester 1

- HMI201 Medical Radiation Science 2
- HMI202 Foundation Principles and Application of Medical Imaging 3
- HMI203 Medical Imaging Practice 3

##### Semester 2

- HMI204 Foundation Principles and Application of Medical Imaging 4
- HMI205 Medical Imaging Practice 4

#### Year 3

##### Semester 1

- HMI301 Principles of Advanced Modality Imaging 1
- HMI302 Medical Imaging Practice 5

##### Semester 2

- HMI303 Principles of Advanced Modality Imaging 2
- HMI304 Medical Imaging Practice 6

#### Year 4

##### Semester 1

- HMI401 Research Methods and Critical Appraisal
- HMI402 Medical Imaging Practice 7

##### Semester 2

- HMI403 Medical Imaging Practice 8

and one of:

- HMI404 Advanced Modalities OR
- HMI405 Practice Management

## Work experience

### Work Integrated Learning and clinical practice

During part of each semester of the four years of the course there will be opportunities to convert theory to competent practice, working under supervision with real patients in clinical environments. You will be rostered to placements in a broad range of hospitals and private radiology clinics throughout Australia. Further skills practice and consolidation will be conducted in the medical imaging training unit at the Waurn Ponds (Geelong) campus.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

The course includes an extensive practical placement component throughout Australia (cost incurred by the student).

# Bachelor of Medicine Bachelor of Surgery

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Medicine Bachelor of Surgery
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full-time. The course is only available to students on a full-time basis. This is a four-year graduate entry program for students who have already completed an undergraduate degree.
<i>CRICOS course code</i>	064429G
<i>Deakin course code</i>	H311
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course is offered to continuing students only. Commencing students should refer to the course entry for H911 Doctor of Medicine.*

## Course overview

Enjoy extensive clinical training in health services, with an emphasis on rural and regional medicine.

The Bachelor of Medicine Bachelor of Surgery is a graduate entry program for students wishing to qualify as medical practitioners.

Learn about anatomy, physiology, and pathology, plus clinical procedural skills, public health issues, and managing chronic diseases.

During the clinical placement component of this course, all students will complete at least four weeks of a dedicated rural attachment (to comply with Commonwealth Department of Health requirements).

You will study at Waurn Ponds (Geelong) for the first two years, learning through problem-based seminars and practical classes. You will also get clinical experience in laboratories, hospitals, and other health services in the Geelong region.

During year three most students will undergo intensive clinical training within health services attached to one of four clinical schools.

Most students will be based at public and private hospitals and general practices in Geelong, Warrnambool, Ballarat or Melbourne for four five-week rotations. A small cohort will attend our Rural Community Clinical School (RCCS) where they will be based in GP clinics with local hospital visiting rights across a number of towns in western Victoria. The course concludes in year four with three six-week terms: two 'selectives', a pre-internship hospital rotation and a further ambulatory rotation, and an 'elective' that can be taken in Australia or overseas.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals, online interaction and clinical placements. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

This course is accredited with the Australian Medical Council (AMC). Graduates who satisfactorily complete pre-registration training will qualify as Registered Medical Practitioners in Australia and New Zealand.

*Note: This course is currently accredited as at the date of publishing.*

## Career opportunities

Deakin Medical School graduates will be well prepared to work as interns in regional, metropolitan and interstate hospitals. They will be equipped to enter training programs for a diverse range of medical careers, including general practice, surgery, pathology, emergency medicine, obstetrics and gynaecology, paediatrics, anaesthetics, geriatric medicine, radiology, occupational and rehabilitation medicine and many other specialities. Other possible career paths include academia, medical research and hospital and government medical administration.

## Participation requirements

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

All enrolled students are required to read, understand and comply with the School of Medicine Infectious Diseases and Immunisation Policy. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

If you are an International student you need to be aware the Australian Government caps Commonwealth Supported Places (CSP) for the Bachelor of Medicine/Bachelor of Surgery. If you are enrolled in this course and transfer from a student visa or other temporary visa to a permanent visa, you are unlikely to receive a CSP place. You would however be eligible for a full fee-paying domestic place. For more information about fees, please visit Current students fees website.

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Diagnose and manage clinical conditions, and carry out practical procedures to provide safe patient care.
Communication	Communicate complex knowledge, skills and ideas to patients, carers, colleagues and communities, and the wider community by selecting appropriate communication modes whilst demonstrating collaboration and teamwork in caring for patients, professionalism, well developed judgement, adaptability, accountability and responsibility.
Digital literacy	Using digital technology responsibly to enhance medical practice.
Critical thinking	Critically appraise and apply knowledge to problem solve and make sound professional and patient care decisions.
Problem solving	Find healthcare solutions through the application of evidence based practice.
Self-management	Work ready doctors who demonstrate professional obligation and responsibility to patients, the profession and self; and show a lifelong commitment to reflective learning through practice, research and teaching.
Teamwork	Demonstrate collaborative practice within a health care team to provide safe, high quality medical care.
Global citizenship	Prioritise prevention and implement holistic approaches to enhance the health and wellbeing of individuals, communities and populations. Public health advocates committed to advancing the health and wellbeing of rural, remote, Indigenous and marginalised individuals and communities.

## Course rules

To complete the Bachelor of Medicine Bachelor of Surgery students must attain 32 credit points. All units are core units (these are compulsory). The course is only available on a full-time basis. Students must pass all units including all components of units in the course.

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

#### **Semester 2**

HME302 Medicine 3B (No longer available for enrolment)

### **Year 4**

#### **Semester 1**

HME401 Medicine 4A

#### **Semester 2**

HME402 Medicine 4B

## **Work experience**

There are extensive clinical placements throughout the course – see individual unit descriptions for full details.

## **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## **Other learning experiences**

The BMBS program has a compulsory 6-week pre-internship experience in which students perform the role of a junior doctor, under supervision, prior to graduation. Students also have the opportunity to extend this experience, through a 6-week elective, which might be undertaken in an area of special interest either locally, interstate or overseas.

# Bachelor of Public Health and Health Promotion

Year	2019 course information
Award granted	Bachelor of Public Health and Health Promotion
Course Map	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>

Cloud Campus	No
Duration	3 years full-time or part-time equivalent
CRICOS course code	012753D
Deakin course code	H313
Approval status	This course is approved by the University under the Higher Education Standards Framework.
Australian Qualifications Framework (AQF) recognition	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*NOTE: This course has a new version commencing from 2020 – see 2020 handbook entry*

## Course overview

Make a difference to people's lives on a broad scale with a Bachelor of Public Health and Health Promotion. You will learn how to tackle minor and major health issues and boost the wellbeing of individuals, communities and populations. Combined approaches involving community engagement, policy development, research, education and the media will give you the expertise needed to address the causes of poor health and boost wellbeing throughout society.

Do you want to understand key public health issues and improve the lives of others by contributing to a healthier community?

This course seeks to examine and act on the factors that cause poor health, as well as understanding those that create and sustain good health. You will work towards creating a healthier population by increasing health education, encouraging healthy practices and influencing policy.

Build your expertise in health promotion and gain important skills in industry-recognised competencies, including:

- planning and evaluation
- health communication strategies
- epidemiology
- health research.

You will also earn valuable experience through extensive work placements. Work-integrated learning is a core component of this course and provides you with the chance to gain real-world experience to further develop your expertise. The final year unit, Public Health and Health Promotion Practicum, gives you a 120-hour practice education placement in a health-related agency, where you can put your knowledge and skills to use in a practical setting under the supervision of qualified practitioners. You will be combining a strong theoretical base with hands-on learning in the field and graduating confident and career-ready.

With a variety of public health issues affecting healthcare systems globally, job growth in the sector is increasing. There are many different pathways and career opportunities in government and the private sector across Australia and internationally. You will be qualified for work in areas such as:

- community development
- health education
- health promotion
- health research
- policy and planning
- program development
- social planning
- women's health.

You also have the option of joining a study tour, where you will use your acquired skills to promote health internationally in countries such as Cambodia.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

Graduates from the Bachelor of Public Health and Health Promotion may be eligible to become members of the Public Health Association of Australia (PHAA) and obtain professional accreditation as a Health Promotion Practitioner with the Australian Health Promotion Association (AHPA).

## Career opportunities

Job growth in the health sector continues to increase as public health issues – such as obesity, heart disease, diabetes, food access, sedentary lifestyles and ageing populations – affect healthcare systems globally.

These are just some examples, and with many other public health issues becoming more prevalent, you can mould your career around those that match your interests and passions in the health field. Throughout your degree, we frequently discuss different case studies to help spark ideas for your unique career pathway.

Career opportunities in government and private sector roles across Australia and internationally include:

- community development coordinator
- health policy developer
- health promotion officer
- health researcher
- program development coordinator
- program evaluator
- social planning officer
- women's health officer.

You may find employment in a range of health areas including:

- tackling chronic illness (such as asthma, arthritis and heart disease), plus developing and implementing prevention strategies
- healthy eating
- mental health
- physical activity and environmental health
- social inclusion
- women's health.

## Participation requirements

The course contains core public health-health promotion unit HSH303 Public Health and Health Promotion Practicum that aims to provide students with an in-depth, working understanding of public health-health promotion principles and approaches in the field. Students are required to undertake a minimum of 120 hours of work experience in a health-related agency. In addition to developing a practical understanding of public health-health promotion, this experience will help students further develop the professional and personal skills required to work in a public health-health promotion role. The practicum component follows one seminar session covering: the expectations of the unit, and overview of project management; and an introduction to workplace organisation and context.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

This course provides pathway to the Honours program and subsequently higher degree by research courses and other postgraduate coursework courses.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply evidence-based research and a determinants-based knowledge of public health and health promotion to advocate for social change, promote good health and wellbeing, prevent poor health and reduce inequalities for individuals and populations alike.
Communication	Communicate effectively in oral and written forms with a range of stakeholders and promote positive, desired change.
Digital literacy	Use information technology to effectively communicate, locate information and analyse data.
Critical thinking	Apply critical thinking and reflection to issues of contemporary health, related to policy and planning in public health and health promotion practice within an evidence-based framework.
Problem solving	Apply an evidence-based learning framework to create solutions to diverse and complex health problems.
Self-management	Monitor and reflect on one's own professional practice.
Teamwork	Develop knowledge and implement strategies in collaboration with others to build and enhance relevant partnerships and actions as a public health and health promotion practitioner.
Global citizenship	Support public health and health promotion practice within diverse social, cultural and environmental contexts and communities.

## Course rules

To complete the Bachelor of Public Health and Health Promotion students must attain 24 credit points. Most units (think of units as 'subjects') are equal to one credit point. In order to gain 24 credit points you will need to study 24 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester and usually undertake two trimesters each year.

The course comprises a total of 24 credit points which must include the following:

- 3 foundation health units (these are compulsory)
- 13 core units in public health and health promotion (these are compulsory)
- 8 elective units chosen from any Faculty in the University
- No more than 10 credit points may be taken at level 1.
- At least 14 credit points of study must be at level 2 or higher
- at least 4 credit points must be at level 3

Any majors completed will be recognised on a student's final academic transcript.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

Students undertaking a Bachelor of Public Health and Health Promotion are able to undertake a major sequence of study to suit their interests and diversify their employment opportunities. However, as the course provides training in specialist public health and health promotion skills, it is not necessary to undertake a major sequence of study.

## Course structure

### Core units

#### Level 1

##### Trimester 1

HAI010	Academic Integrity (0 credit points)
HBS107	Understanding Health
HSH111	Introduction to Public Health and Health Promotion
HSH112	Local and Global Environments for Health

plus one elective unit

##### Trimester 2

HBS108	Health Information and Data
HBS110	Health Behaviour
HSH113	Social Perspectives on Population Health

plus one elective unit

#### Level 2

##### Trimester 1

HSH201	Planning and Evaluation 1
HSH205	Epidemiology and Biostatistics 1
HSH208	Health Communication

plus one elective unit

### Trimester 2

- HSH212 Professional Practice
- HSH216 Epidemiology and Biostatistics 2
- HSH218 Planning and Evaluation 2

plus one elective unit

### Level 3

#### Trimester 1

- HSH302 Politics, Policy and Health
- HSH303 Public Health and Health Promotion Practicum

plus two elective units

#### Trimester 2

- HSH313 Contemporary Health Issues
- HSH319 Population Health: A Research Perspective

plus two elective units

### Health Promotion elective units

- HSH105 Understanding Families and Health
- HSH206 Human Development and Healthy Families
- HSH207 Socio-Economic Status and Health
- HSH306 People, Health and Place

### Other elective units

- SHD201 Creating Sustainable Futures
- SHD301 Creating Sustainable Futures

## Work experience

Work Integrated Learning is a core feature of this course, and is embedded within all units, which includes assignments that replicate work in the field. Another feature of this course is the capstone experience, a 120-hour field education placement that provides you with an opportunity to transfer your knowledge and skills to a practical setting, where you can further your learning through realistic field experience. These placements enable you to consolidate your skills under the supervision of qualified practitioners, which assists you to be work-ready after graduation.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Third party arrangements

Placement agreements are compliant with the Student Placement Procedure.

## Nature of third party arrangements

Placement partners establish and operate facilities with the capacity to educate Deakin students relevant to the partner's core business (which is health and course related), supervising the development of industry skill-sets and training for each individual over 120 hours.

## Quality assurance arrangements

Discussions have commenced with Curtin University to benchmark exemplar units in preparation for the Major Course Review 2018.

## Other learning experiences

Students are invited to participate in study tours – previous examples have included Cambodia and India.

# Bachelor of Food and Nutrition Sciences

<i>Deakin course code</i>	H315 (version 6)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Study a Bachelor of Nutrition Science and develop an understanding of human nutrition and its impact on our population. Learn how to tackle challenges facing our society including disease prevention, lifespan nutrition, obesity, the spread of misinformation, and the social and physiological effects of food on our wellbeing.

Do you want to have a real impact on population health, and improve the wellbeing of communities?

Graduate with a unique perspective on the world of nutrition and learn about the fascinating role of food in both individual and population health. There is more demand than ever for qualified nutrition professionals as society grapples with nutrition-related disease and the impact on quality of life.

In this course, you will find yourself studying a range of subjects that will build your foundational nutrition knowledge and translate into a number of career opportunities. Gain a comprehensive understanding of:

- the role of food in disease prevention
- nutrition education and research
- food choice and intake
- food regulation
- nutritional physiology
- lifespan nutrition
- sustainable food systems
- the science of food.

To add diversity to your degree and expand your career opportunities, you can choose elective units in complementary areas such as food innovation, health promotion, psychology, physical activity and health or exercise science.

You will be able to put theory into practice in our state-of-the-art food sensory labs located within our Centre for Advanced Sensory Science.

Designed just like those found in industry settings, you will get hands-on experience that will prepare you for the workplace.

You will also have the opportunity to gain 100 hours of valuable practical experience, either by studying the volunteering unit in year 2 or 3, or the Food and Nutrition Practicum unit in your final year, ensuring you get the opportunity to receive on-site training in a food and nutrition organisation.

The major in food innovation will prepare you for a career in the food industry, where your knowledge of nutrition and food composition will facilitate the creation and marketing of food products that help to improve health.

You can also learn about nutrition perceptions and issues in different cultures by taking your studies abroad to gain an international perspective. Find yourself learning about food policy in Thailand, visiting Hershey's in the US or even travelling to the Netherlands to study organic farming.

It is also possible to go on to study the Master of Dietetics and become a dietitian, but you'll need to ensure you complete the required electives – see the course information section for more information.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

While studying, you are eligible to apply for student membership with the Nutrition Society of Australia (NSA). Graduates with a Bachelor of Nutrition Science can apply for ordinary membership of NSA or apply to become a registered nutritionist. Registration will ensure you are recognised as a qualified nutrition professional in the field.

Additionally, if you have completed this degree with a major in food innovation, you may also seek membership into the Australian Institute of Food, Science and Technology (AIFST).

Graduates are eligible to apply to become a Registered Associate Nutritionist with the:

- Nutrition Society of Australia
- Hong Kong Nutrition Association
- UK Association for Nutrition.

## Career opportunities

As a nutritionist, you will have the knowledge and skills to confidently provide evidence-based advice to communities regarding food and its impact on our health. Graduates of the Bachelor of Nutrition Science will be well prepared for careers requiring knowledge surrounding:

- nutrition
- individual and population health
- food analysis
- food sustainability
- food policy
- nutrition for disease prevention
- assessing and evaluating food intake.

Students completing the food innovation major will be prepared for careers requiring knowledge of:

- consumer behaviour
- education and research
- the food industry
- food policy and regulation
- sensory analysis
- product development
- food quality and safety
- food manufacturing.

You will gain the skills required to perform a range of roles across:

- advocacy
- nutrition promotion
- nutrition media and marketing
- quality assurance
- self-employment and consulting

Visit our nutrition careers page for more on the different pathways available to you.

Students can choose to study the prerequisite subjects for further study in Dietetics and apply for the Master of Dietetics on completion of their Bachelor degree. 60% of places in Deakin's Master of Dietetics are allocated to Deakin graduates.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

This course can be a pathway to:

- H418 Bachelor of Food and Nutrition Sciences (Honours)
- H517 Graduate Certificate of Public Health Nutrition
- H714 Master of Human Nutrition
- H718 Master of Dietetics
- H748 Master of Nutrition and Population Health

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply food and nutrition and health knowledge from a range of perspectives.
Communication	Select and use a variety of engaging communication modes to disseminate knowledge to individuals, groups, government and non-government organisations and health professionals.
Digital literacy	Select and use appropriate technologies to source, understand, evaluate, and communicate information to professional networks and communities.
Critical thinking	Source and critically analyse the food and nutrition literature to apply an evidence-based approach to the field.
Problem solving	Identify and apply practical solutions to a range of changing and complex food and nutrition and health issues.
Self-management	Employ self-directed, reflective work and learning practices in a responsible manner to professionally contribute to nutrition sciences.
Teamwork	Work collaboratively as part of interdisciplinary teams with a range of stakeholders to advance the field of nutrition sciences.
Global citizenship	Engage in professional and ethical practice that demonstrates awareness of, and adaptability to, diverse social, cultural and environmental contexts in nutrition sciences.

## Course rules

To complete the Bachelor of Nutrition Science, students must attain 24 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 24 credit points, you will need to study 24 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester, and usually undertake two trimesters each year.

The course comprises a total of 24 credit points, which must include the following:

- 12 core units (these are compulsory)
- Completion of HSN010 Food and Nutrition Laboratory Safety prior to your first laboratory based unit in this course.
- Completion of either the 6 unit Food Innovation major sequence or 6 HSN coded (nutrition and food) elective units.
- 6 elective units which may form a major sequence and can be selected from any faculty (you can choose which ones to study)
- No more than 10 credit points may be taken at level 1 and at least 6 credit points must be taken at level 3

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

Refer to the details of each major sequence for availability.

It is recommended that students commencing in first year in 2018 take the Food Innovation major sequence.

*Note: Students who commenced H315 Bachelor of Nutrition Science in 2018 and received credits, please contact a Course Adviser via [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au) before you enrol into the Food Innovation major.*

Alternative major sequences can be undertaken from undergraduate courses offered by any faculty at Deakin University (subject to unit and course rules).

Students can choose to undertake majors from other courses as long as they can fit the major into their course structure and the majors are available for you to undertake.

Please ensure you discuss your request with your Course Adviser to ensure you are still meeting your course rules.

- Bachelor of Health Sciences
- Bachelor of Commerce majors
- Bachelor of Arts majors
- Bachelor of Science majors

Other major sequences available include:

- Disability and Inclusion
- Exercise Science
- Family, Society and Health
- Health Promotion
- Physical Activity and Health
- Psychology

*Note: Minor sequences are not available to H315 Bachelor of Nutrition Science students.*

## Course structure

### Core units

Course structure applies for students who commenced in 2018 onwards. Students who commenced prior to 2018 should refer to previous online Handbooks or consult your course enrolment officer.

Please refer to the School of Exercise and Nutrition Sciences page for course map information.

### Level 1

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
SLE010	Laboratory and Fieldwork Safety Induction Program (0 credit points)
HSN101	Foundations of Food, Nutrition and Health
HBS109	Human Structure and Function
HSN105	Healthy and Sustainable Food Systems
SLE133	Chemistry in Our World

#### Trimester 2

HSN010	Food and Nutrition Laboratory Safety (0 credit points)
HSN104	The Science of Food
HSN106	Food Fundamentals

plus two elective units (recommended at Level 1)

### Level 2

#### Trimester 1

HSN211	Nutritional Physiology
--------	------------------------

plus 2 HSN-coded units (selective or Food Innovation major sequence)  
plus 1 elective unit (recommended at Level 1 or Level 2)

#### Trimester 2

HSN202	Lifespan Nutrition
--------	--------------------

plus 1 HSN-coded unit (selective or Food Innovation major sequence)  
plus two elective units (recommended at Level 2)

### Level 3

#### Trimester 1

HSN301	Diet and Disease
HSN309	Food Policy and Regulation

plus 2 HSN-coded units (selective or Food Innovation major sequence)

#### Trimester 2

HSN302	Population Nutrition
HSN305	Assessing Food Intake and Activity

plus 1 HSN-coded unit (selective or Food Innovation major sequence)  
plus one elective unit (recommended at Level 2 or Level 3)

Students who want to complete H718 Master of Dietetics pre-requisites must enrol in ALL the following elective units:

HSN107	Physiology of Human Growth and Development
HSE208	Integrated Human Physiology
SLE155	Chemistry for the Professional Sciences
SLE212	Biochemistry
SLE222	Biochemical Metabolism

If an exercise physiology unit has been completed at level 2 (e.g. HSE201 Exercise Physiology, it must be combined with one of these units to meet H718 Master of Dietetics pre-requisites:

SLE211	Principles of Physiology
SLE221	Systems Physiology

## Elective units

Electives are offered subject to availability of resources and quotas where applicable.

### Trimester 1

HSN206	Food Analysis and Quality Assurance
HSN223	Sensory Evaluation of Food
HSN307	Sports Nutrition: Theory and Practice
HSN315	Food Manufacturing and Process Innovation
HSN319	Consumer and Sensory Innovation of Food

### Trimester 2

HSN204	Food Safety
HSN210	Nutrition and Food Promotion
HSN227	Volunteering in Exercise and Nutrition Sciences
HSN308	Food, Nutrition and Society
HSN311	Food and Nutrition Practicum
HSN320	Trends in Product Development
HSN360	International Perspectives in Food and Nutrition (next offered Trimester 3 2019)

## Work experience

### Work Integrated Learning

If you are interested in the possibility of enhancing your employment prospects by consolidating your knowledge and skills through realistic field experience, you are encouraged to consider undertaking an industry placement or volunteering experience. You can do this by choosing to complete HSN311 Food Science and Nutrition Practicum or HSN227 Volunteering in Exercise and Nutrition Sciences as an elective unit in your final year.

## Details of major sequences

### ***Food Innovation – unit set code – MJ-H000036***

*Burwood (Melbourne)*

#### Overview

By completing the Food Innovation major you can also establish a career in the food industry, where your knowledge of nutrition and food composition facilitate the creation and marketing of food products that help to improve health.

You may also gain employment in food regulation, food safety and Quality, food product development and sensory analysis

#### Units

*Note: Students who commenced H315 Bachelor of Nutrition Science in 2018 and received credits, please contact a Course Adviser via [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au) before you enrol into this major.*

HSN204	Food Safety
HSN206	Food Analysis and Quality Assurance
HSN223	Sensory Evaluation of Food
HSN315	Food Manufacturing and Process Innovation
HSN319	Consumer and Sensory Innovation of Food
HSN320	Trends in Product Development

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Nutrition Science (Dietetics Pathway)

<i>Year</i>	2020 course information
<i>Award granted</i>	Bachelor of Nutrition Science (Dietetics Pathway)
<i>Course Map</i>	To follow soon
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>Deakin course code</i>	H318
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7

## Course overview

Study a Bachelor of Nutrition Science (Dietetics Pathway) and develop an understanding of human nutrition and its impact on our population. Learn how to tackle challenges facing our society including disease prevention, obesity, the spread of misinformation, and the social and physiological effects of food on our wellbeing. This course is designed for students who wish to study nutrition with a pathway to the Master of Dietetics.

Do you want to have a real impact on population health, and improve the wellbeing of communities?

Graduate with a unique perspective on the world of nutrition and learn about the fascinating role of food in both individual and population health. There is more demand than ever for qualified nutrition and dietetics professionals as society grapples with nutrition-related disease and the impact on quality of life.

In this course, if you achieve an average weighted average mark (WAM) of 75 or above, you will be guaranteed entry into the Master of Dietetics. This course offers the same structure and units as for our Bachelor of Nutrition Science but also ensures that the dietetics prerequisites are incorporated as core units, to fulfil the entry requirements for dietetics. Graduates will be made an offer to study in the Master of Dietetics once they have completed all the necessary units and met the hurdle WAM requirement.

In this course, you will find yourself studying a range of subjects that will build your foundational nutrition knowledge and translate into a number of career opportunities. Gain a comprehensive understanding of:

- the role of food in disease prevention
- nutrition education and research
- food choice and intake
- food regulation
- nutritional physiology
- lifespan nutrition
- sustainable food systems
- the science of food.

To add diversity to your degree and expand your career opportunities, you can choose elective units in complementary areas such as food innovation, health promotion, psychology, physical activity and health or exercise science.

You will be able to put theory into practice in our state-of-the-art food sensory labs located within our Centre for Advanced Sensory Science. Designed just like those found in industry settings, you will get hands-on experience that will prepare you for the workplace.

A major in food innovation will prepare you for a career in the food industry, where your knowledge of nutrition and food composition will facilitate the creation and marketing of food products that help to improve health.

You will also have the opportunity to gain 100 hours of valuable practical experience, either by studying the volunteering unit in year 2 or 3, or the Food and Nutrition Practicum unit in your final year, ensuring you get the opportunity to receive on-site training in a food and nutrition organisation.

## Indicative student workload

Approximately 150 hours of learning and assessment activities per credit point.

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

This course is not accredited by a professional body.

## Career opportunities

Career skills are developed throughout the course. Specific Work integrated learning is offered as an elective from the second year of study. Students can enrol in HSN227 Volunteering in Exercise and Nutrition Sciences or HSN311 Food and Nutrition Practicum. We encourage students to undertake a placement to enable them to gain hands on experience, and a pathway to their future career. Upon graduating from H718 Master of Dietetics (subject to course rules) students are well placed to pursue careers in all areas of dietetics.

## Participation requirements

Students are required to complete laboratory safety modules and a compulsory zero credit point Academic Integrity unit.

Deakin's standard holiday breaks are listed here: [deakin.edu.au/courses/key-dates](https://deakin.edu.au/courses/key-dates)

This course allows you to select elective units that may include placements, work based training, community-based learning and collaborative research training arrangements. Before you enrol in units, please check the unit specification to understand these compulsory learning experiences.

Placement may occur at any time, including during standard holiday breaks, upon discussion with host organisation.

Reasonable adjustments to participation and other course requirements will be made for students with a disability.

## Mandatory student checks

HSN227 and HSN311, which are both elective, work-integrated learning units, require a community placement or interaction with the community. These units may require a police check and working with children check. Refer to the relevant unit guide for further details.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](https://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply food and nutrition and health knowledge from a range of perspectives.
Communication	Select and use a variety of engaging communication modes to disseminate knowledge to individuals, groups, government and non-government organisations and health professionals.
Digital literacy	Select and use appropriate technologies to source, understand, evaluate, and communicate information to professional networks and communities.
Critical thinking	Source and critically analyse the food and nutrition literature to apply an evidence-based approach to the field.
Problem solving	Identify and apply practical solutions to a range of changing and complex food and nutrition and health issues.
Self-management	Employ self-directed, reflective work and learning practices in a responsible manner to professionally contribute to nutrition sciences.
Teamwork	Work collaboratively as part of interdisciplinary teams with a range of stakeholders to advance the field of nutrition sciences.
Global citizenship	Engage in professional and ethical practice that demonstrates awareness of, and adaptability to, diverse social, cultural and environmental contexts in nutrition sciences.

## Course rules

To complete the Bachelor of Nutrition Science (Dietetic Pathway), students must attain 24 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 24 credit points, you will need to study 24 units (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester, and usually undertake two trimesters each year.

The course comprises a total of 24 credit points, which must include the following:

- 17 core units (these are compulsory)
- Completion of either the 6 unit Food Innovation major sequence or 5 HSN coded (nutrition and food) elective units.
- 1–2 elective unit(s) which can be selected from any faculty (you can choose which ones to study)
- No more than 10 credit points may be taken at level 1 and at least 6 credit points must be taken at level 3
- Students must enrol and pass HAI010 – Academic Integrity.
- Completion of HSN010 Food and Nutrition Laboratory Safety prior to the first laboratory based unit in this course.
- Completion of SLE010 Laboratory and Fieldwork Safety Induction Program prior to the first SLE coded unit.
- Completion of HSE010 Exercise and Sport Laboratory Safety prior to commencing HSE208.
- Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

Refer to the details of each major sequence for availability.

It is recommended that students commencing in first year in 2018 take the Food Innovation major sequence.

*Note: Students who commenced H315 Bachelor of Nutrition Science in 2018 and received credits, please contact a Course Adviser via [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au) before you enrol into the Food Innovation major.*

Alternative major sequences can be undertaken from undergraduate courses offered by any faculty at Deakin University (subject to unit and course rules).

Students can choose to undertake majors from other courses as long as they can fit the major into their course structure and the majors are available for you to undertake.

Please ensure you discuss your request with your Course Adviser to ensure you are still meeting your course rules.

- Bachelor of Health Sciences
- Bachelor of Commerce majors
- Bachelor of Arts majors
- Bachelor of Science majors

Other major sequences available include:

- Disability and Inclusion
- Exercise Science
- Family, Society and Health
- Health Promotion
- Physical Activity and Health
- Psychology

*Note: Minor sequences are not available to H315 Bachelor of Nutrition Science students.*

## Course structure

### Core units

#### Level 1

##### Trimester 1

HAI010	Academic Integrity (0 credit points)
SLE010	Laboratory and Fieldwork Safety Induction Program (0 credit points)
HSN101	Foundations of Food, Nutrition and Health
HBS109	Human Structure and Function
HSN105	Healthy and Sustainable Food Systems
SLE133	Chemistry in Our World

##### Trimester 2

HSN010	Food and Nutrition Laboratory Safety (0 credit points)

<i>Campus</i>	Offered at Burwood (Melbourne), Waterfront (Geelong), Warrnambool
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full time
<i>CRICOS course code</i>	018327G
<i>Deakin course code</i>	H326
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Deakin's Bachelor of Nursing gives you the knowledge, skills and ethical understanding you need to become a competent and successful registered nurse. This course prepares you to provide high-quality, safe, patient-centred care in a range of settings, with clinical placements starting from year 1.

Are you ready to get hands-on experience in a clinical setting as soon as you begin your course?

Clinical placements begin in Trimester 1 of your first year, and continue throughout every trimester of the course, totalling over 800 hours. Clinical placements support and consolidate your learning and are undertaken in various metropolitan, regional and rural health care settings, under the supervision of qualified practitioners.

Under the supervision of registered nurses, you will gain real-world experience by working with multidisciplinary healthcare teams across disciplines such as:

- acute/sub-acute care
- medical and surgical care
- aged care
- rehabilitation
- paediatrics
- community nursing
- mental health nursing.

When you are not on placement, you will receive hands-on personalised learning at Deakin's purpose-built clinical simulation spaces, which replicate real-world hospital and community settings, with state-of-the-art equipment.

Deakin's Bachelor of Nursing is accredited by the Australian Nursing and Midwifery Accreditation Council and approved by the Nursing and Midwifery Board of Australia, ensuring clear career outcomes upon graduation.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This may include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

On successful completion of your course, you will be eligible to apply for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Notes:

*The NMBA has registration requirements that must be met in order to register. Course completion is one of these requirements.*

*This course is currently accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and is an NMBA approved course at the date of publishing*

## Career opportunities

As a Deakin nursing graduate, you will be highly sought-after for your nursing and health sector knowledge, communication skills, professionalism and ability to provide personal, evidence-based care – which is why we are proud to record a high graduate employment rate of over 95%\*.

As a registered nurse, you can pursue career opportunities around the world in a range of work settings, including:

- hospitals
- homes
- hospices
- aged care settings
- clinics
- schools
- universities
- community health centres
- government agencies and private industries.

Given nursing is a diverse profession with a number of speciality practise areas available, it is expected that graduates will look at continuing professional development throughout their careers. This may include postgraduate degrees and/or research degrees, including master's degrees and PhDs.

## Participation requirements

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Elective units may be selected that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course. Students are also required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Inherent requirements

Essential knowledge, skills and capabilities are required to undertake and successfully complete the undergraduate nursing and midwifery courses and to practice safely as a registered nurse and/or midwife. The inherent requirements of the course are listed on Deakin's website at School of Nursing and Midwifery Undergraduate Courses: Inherent Requirements.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	<p>Practise comprehensive, safe and evidenced-based nursing care by applying nursing knowledge to make thorough and systematic nursing assessments, identify patient problems and clinical risk and develop plan of care in consultation with individuals/groups, significant others and the multidisciplinary health care team.</p> <p>Accurately evaluate patient response to care.</p>
Communication	<p>Use clear and appropriate language to establish, maintain and appropriately conclude therapeutic relationships when interacting with patients, families, and health care team members to ensure information is understood and necessary actions are taken.</p> <p>Demonstrate clear and accurate documentation in relation to patient management.</p>
Digital literacy	<p>Use technologies to locate, select, and disseminate information to patients, significant others, and members of the health care team.</p> <p>Use technologies to deliver safe and quality patient care.</p>
Critical thinking	<p>Analyse and interpret patient assessments and make critical judgements about approaches to care, within an evidence-based framework that reflects an understanding of the dignity, religion, culture, values, beliefs and rights of patients and their significant others.</p> <p>Evaluate and reflect on practice in a range of contexts.</p>
Problem solving	<p>Apply knowledge to make thorough and systematic nursing assessments, identify patient problems and clinical risk and develop plan of care in consultation with individuals/groups, significant others and the multidisciplinary health care team.</p> <p>Respond effectively to rapidly changing situations in patient care to create best practice solutions using discipline knowledge, evidence, professional, social, legal and ethical considerations.</p>

Graduate learning outcomes	Course learning outcomes
Self-management	<p>Exhibit expected professional behaviours in practice responsibly within the framework of a health care team structure and maintain a personal knowledge base through critical reflection and lifelong learning practices.</p> <p>Reflect on self and practice contexts to identify personal learning needs and is self-directed to seek additional knowledge and/or information when required.</p>
Teamwork	<p>Collaborate effectively as a member of a multidisciplinary health care team and recognise the roles and functions of other members in providing comprehensive care to meet optimal health outcomes.</p> <p>Practise within the recognised scope of practice for a beginning registered nurse.</p>
Global citizenship	<p>Apply nursing knowledge to provide professional and ethical care in diverse contexts in accordance with social, cultural and environmental considerations, and in accordance with legal and ethical requirements.</p>

## Course rules

To complete the Bachelor of Nursing students must attain 24 credit points. Units (think of units as ‘subjects’) may be worth 1 or 2 credit points – click on each unit to check its credit point value in the course structure below. Students choose to study 4 credit points per trimester and usually undertake two trimesters each year.

The course comprises a total of 24 credit points which must include:

- 17 core units worth 21 credit points (these are compulsory)
- 3 elective units (you can choose which ones to study) worth 3 credit points
- At least one of the electives must be taken at level 2 or 3.

There is an expectation that you are available to undertake clinical placements outside of trimester dates. All expenses associated with clinical placements are your responsibility.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University’s academic progress and conduct requirements. Visit Deakin’s website for more information.

## Course structure

### Core units

Course structure applies for students who commenced in 2015 onwards. Students who commenced prior to 2015 must discuss their course structure with the Faculty enrolment officer.

### Level 1

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
HNN120	Quality and Safety in Health Care
HBS109	Human Structure and Function
HBS107	Understanding Health
HNN112	Quality and Safety: Nursing Practice 1

## Trimester 2

- HNN108 Understanding Research Evidence
- HNN114 Health Assessment
- HNN122 Quality and Safety: Nursing Practice 2

## Level 2

### Trimester 1 or Trimester 2

- HNN222 Mental Health and Illness (Not offered Trimester 1 at Warrnambool)
- HNN217 Community Nursing Practice (Not offered Trimester 1 at Warrnambool)

plus one elective unit

Students must complete HNN217 and HNN222 in the same trimester

### Trimester 2 or Trimester 1

- HNN227 Quality and Safety: Nursing Practice 3 (Not offered Trimester 2 at Warrnambool)
- HNN215 Quality Use of Medicines (Not offered Trimester 2 at Warrnambool)

plus one elective unit

Students must complete HNN215 and HNN227 in the same trimester

## Level 3

### Trimester 1

- HNN318 The Older Person and Supportive Care
- HNN319 Chronic Illness and Supportive Care
- HNN320 Leadership and Clinical Governance

plus one elective unit

### Trimester 2

- HNN300 Child and Adolescent Health
- HNN301 Mental Health Promotion
- HNN325 Comprehensive Nursing Practice

## Elective units

Students must select units in consultation with the Faculty enrolment officer. Students may take electives from any School of the University provided that prerequisites are met. At least one of the three electives must be taken at level two or three. Particular electives that may be of special interest to nursing students include:

- HNN207 Maternity Nursing: Pregnancy, Birth and the Newborn
- HNN313 Perioperative Nursing
- HNN348 Rural and Remote Area Nursing

### International study tour elective unit:

- HNN216 International Nursing Study Tour

### Inter Professional Education (IPE) elective unit:

- HBS345 Collaborative Practice in Healthcare

## Work experience

### Clinical practice

Clinical placements are conducted throughout your course beginning in Trimester 1 of your first year. This early exposure to the clinical environment gives you extensive opportunities to develop clinical skills under the supervision of registered nurses and enables you to experience being part of a multidisciplinary health care team. You will gain clinical experience in a variety of settings including acute/sub-acute care, medical and surgical care, aged care, rehabilitation, community nursing and mental health nursing. These may be undertaken in hospitals and community health care centres in metropolitan, rural and regional areas.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Third party arrangements

Student Placement Agreements exist between Deakin University, SoNM and Clinical Placement Providers and are generally revised every 3–5 years.

## Quality assurance arrangements

Deakin, SoNM provides training through facilitator and preceptorship workshops. Unit Chairs provide regular clinical support to facilitators whilst students are on placements.

## Other learning experiences

The Bachelor of Nursing has 3 elective units which may be undertaken from any faculty as long as pre requisite requirements are met.

The School offers nursing elective units e.g HNN216 International Nursing Study Tour x 3. (Thailand, Bhutan, Philippines).

# Bachelor of Nursing (Clinical Leadership)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Nursing (Clinical Leadership)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full time
<i>Deakin course code</i>	H329
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

The Bachelor of Nursing (Clinical Leadership) is the only undergraduate degree of its kind in Victoria, giving you individualised mentoring in clinical leadership. Focusing on clinical nursing leadership and management, research, and education, you will graduate with confidence in your ability to successfully step into the role of a registered nurse.

Do you want to use your leadership skills to help those in need?

Healthcare is one of the most important priorities for populations worldwide and nurses play a pivotal role in delivering quality and safe services. Thanks to our extensive clinical partnership network with many of Victoria's major healthcare providers, this course is designed to ensure you gain the leadership knowledge and hands-on skills that are most relevant to employers in the healthcare sector.

As part of your core leadership units, you will participate in mentored learning experiences, providing you with the opportunity to observe and work with:

- clinical nurse leaders from our partners in clinical settings
- research professors from the School of Nursing and Midwifery
- world-class educators from the School of Nursing and Midwifery

Throughout your course, you will benefit from access to our purpose-built Clinical Simulation Centre, gaining familiarity with the facilities and equipment to develop your practical skills. From the first trimester in the first year of your degree, clinical placements offer the opportunity to develop and consolidate your learning, and are undertaken in various metropolitan, regional and rural health care settings under the supervision of registered nurses.

You will experience being part of a multidisciplinary health care team and gain clinical experience in a variety of settings, including acute/sub-acute care, medical and surgical care, aged care, rehabilitation, community nursing and mental health nursing.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This may include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time. There is an expectation that you will be available to undertake clinical placements outside of trimester dates. All expenses associated with clinical placements are your responsibility.

## Professional recognition

On successful completion of your course, you will be eligible to apply for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

*Notes:*

*The NMBA has registration requirements that must be met in order to register. Course completion is one of these requirements.*

*This course is currently accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and is an NMBA approved course at the date of publishing.*

## Career opportunities

As a Deakin nursing graduate, you will be highly sought-after for your nursing knowledge, communication skills, professionalism and ability to provide personal, evidence-based care – which is why we're proud to record a high graduate employment rate of over 95%.

On completing this course, you will be able to bring your nursing and leadership skills to life in a range of professional settings. You may find roles in all areas of nursing, such as:

- acute care/sub-acute care
- emergency
- aged care
- paediatrics

In terms of settings, you may find work in:

- hospitals
- government departments
- district health services
- community health services
- the education sector
- businesses
- private industry.

## Participation requirements

The course involves compulsory 20 weeks of clinical placement in hospitals and community health centres in metropolitan, rural and regional areas.

Placement can occur at any time, including during standard holiday breaks. See Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students are also required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Inherent requirements

## Course overview

The Bachelor of Social Work equips you with the knowledge and skills to enhance the wellbeing of others through an understanding of policy, socioeconomic factors and social justice issues. If you are passionate about human rights and have a strong sense of social justice, this is the perfect course to begin your journey towards a rewarding career in social work.

Want to graduate with the skills and professional experience to launch a career in helping others?

In this course, you will gain the skills to work effectively with individuals, families and communities to address key factors causing inequality. Enabling social change, you will help to improve the quality of life for those who need it most.

With an emphasis on progressive, student-centred teaching practices, we ensure you will be learning the latest approaches and techniques for a career improving the lives of others. You will cover contemporary social topics including:

- human behaviour
- public policy
- processes and interventions
- social justice.

You will gain an understanding of a range of social research methods and contemporary health issues – learning how to design and conduct research relevant to social work practice.

The practice education placements included within this course will give you invaluable experience as you learn from qualified social work practitioners who have a minimum of two years work experience. You will complete two placements of 500 hours each, in a variety of communities and workplaces in metropolitan and regional settings. This ensures you will gain multiple perspectives and will help you graduate job-ready.

The Bachelor of Social Work is an Australian Association of Social Workers (AASW) accredited qualification, so you will graduate with an entry qualification into the social work profession.

## Indicative student workload

### Attendance requirements for Cloud students

Cloud students will be required to attend on-campus intensive workshops depending upon units of enrolment. Dates for 2019 are listed on Deakin's website: [deakin.edu.au/students/faculties/faculty-of-health/school-of-health-and-social-development/course-info/bsw-attendance-requirements](http://deakin.edu.au/students/faculties/faculty-of-health/school-of-health-and-social-development/course-info/bsw-attendance-requirements).

## Professional recognition

This course is accredited with the Australian Association of Social Workers (AASW). Students completing the course are eligible to apply for membership of AASW and can practise professionally throughout Australia.

*Note: All information regarding professional recognition is accurate at the date of publication. Enquiries regarding accreditation and professional membership should be directed to the School of Health and Social Development in order to ascertain the current status of accreditation at any future point in time beyond publication. Representations about accreditation apply only to the course, and the AASW retains discretion as to who they admit as members of their association. Deakin University cannot exercise any control over membership of an external body.*

## Career opportunities

Social work is part of a growing human services field, with graduates working across local, state and federal government departments, in private and non-government human services organisations, and in various advocacy, policy making and tribunal capacities.

After completing this course, you will be a sought-after graduate, ready to pursue a rewarding career in social work. You may work in many general and specialist areas of social work such as:

- activism
- advocacy
- community development
- consultancy
- counselling
- drug and alcohol counselling
- education
- facilitation
- family therapy
- health
- housing
- policy development and research
- program management and coordination
- refugee assistance and tribunal capacities
- assisting groups such as the aged, women, youth or multicultural populations.

Examples of specific roles you may pursue include:

- careers counsellor
- case manager
- child and family counsellor
- child protection officer
- community development access officer
- community development and education officer
- disability support coordinator
- diversity officer
- drug and alcohol case manager
- family relationship adviser
- mental health coordinator
- school counsellor
- youth projects officer

## Participation requirements

Two practice education placements of 500 hours each, totalling a minimum of 1000 hours that are conducted in a variety of communities and workplaces in metropolitan and regional settings.

International students studying through the Cloud Campus may not be granted a visitor visa to complete mandatory onsite components of the course.

Placement can occur at any time, including during the standard holiday breaks listed here: [deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Elective units may be selected that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Pathways

H330 is a qualifying degree and does not have a formal pathway to further study. Graduates can however enrol in an HDR masters in social work or another discipline. Graduates of H430 can enrol in an HDR masters in social work or another discipline or an HDR doctoral program.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply a broad and coherent understanding in contemporary Australian and international contexts of the histories, aims, values, ethics, theories and practice approaches of social work. This knowledge is to cover all domains including working with individuals, families, groups, communities, management, research education and social policy. Practise social work reflectively according to the code of ethics and professional practice standards of the Australian Association of Social Workers.
Communication	Evaluate and apply appropriate communication and interpersonal skills in a broad range of social work practice contexts and with a diversity of people, communities and organisations.
Digital literacy	Use digital technology in social work practice ethically and appropriately, including in service provision and management, information acquisition and dissemination, and research and evaluation.
Critical thinking	Analyse, synthesise and apply knowledge of social work theories, methods and skills, with an emphasis on critical social work with the goal of social change.
Problem solving	Apply social work knowledge and intervention skills to appropriately and creatively respond to the needs of individuals, groups and communities in diverse settings, client groups and geographic locations. Apply research knowledge and skills to evaluate evidence and contribute to the role of research in social work practice.
Self-management	Engage in critical reflective, reflexive and responsive practice, demonstrating an awareness of social location and positioning of self and others. Demonstrate a developing sense of identity, integrity and self-management as a professional social worker in all areas of practice. Participate in on-going professional development including engaging in professional supervision.
Teamwork	Work and learn respectfully and inclusively in collaborative intra and inter disciplinary settings.
Global citizenship	Engage in decolonising practises in order to acknowledge Aboriginal and Torres Strait Island people as Traditional Owners of Australian lands. Evaluate and apply local and global knowledge of the social, political, cultural, legal and economic contexts of social work practice to respond effectively within a human rights and social justice framework. Work and learn across diverse social, cultural and political locations.

## Course rules

To complete the Bachelor of Social work students must attain 32 credit points. Units (think of units as 'subjects') may be worth 1, 2, 3 or 4 credit points – check each unit for its credit point value in the course structure below. Most students choose to study 4 credit points per trimester and usually undertake two trimesters each year.

The course comprises 32 credit points which must include the following:

### Pass stream:

- 29 core units (these are compulsory)
- 3 elective units (you can choose which ones to study)

### H430 Bachelor of Social Work (Honours):

- 30 core units including HSW401, HSW402, HSW404, HSW416 and HSW417 (these are compulsory)
- 2 elective units (you can choose which ones to study)

Students must complete two practice education units as part of the core units, each involving a minimum of 500 hours (across at least 65 days) of practicum (field placement) in a social or community service agency or program.

Failure of a practice education placement will normally lead to exclusion.

## Inherent requirements

Students should also be aware of the inherent requirements of the course.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

#### Level 1

##### Trimester 1

HAI010	Academic Integrity (0 credit points)
IND101	Introduction to Aboriginal Studies
ASC101	Introduction to Sociology A
HSW101	Introduction to Social Work: Social Work Theory and Practice A
HBS107	Understanding Health

##### Trimester 2

ASC102	Introduction to Sociology B
HSW111	Theories for Social Work Practice: Social Work Theory and Practice B
HSW118	Social Work Methods in Context: Social Work Theory and Practice C

plus

HBS110 Health Behaviour

Or

HPS111 Psychology A: Fundamentals of Human Behaviour

## Level 2

### Trimester 1

- HSW216 Public Policy and Politics for Critical Social Workers
- HSW221 Social Work Research in Ethical and Political Contexts
- HSW235 Community Development: Social Work Theory and Practice D

plus one elective

### Trimester 2

- HSW201 Human Rights and Social Justice: Values, Ethics and the Legal Context of Social Work
- HSW212 Social Work Processes and Interventions: Social Work Theory and Practice E
- HSW219 Self and Society
- HSW202 Placement Readiness: Preparing for Supervised Social Work Practice

## Level 3

### Trimester 1

- HSW314 Social Work Field Education A

### Trimester 2

- HSW313 Doing Critical Social Work: Social Work Theory and Practice F
- HSW316 Critical Social Policy
- HSW322 Applied Social Research in Ethical and Political Context

Plus one elective

## Level 4 – Pass stream

### Trimester 1

- HSW402 Critical Approaches to Social Work: Social Work Theory and Practice G
- HSW434 Administration and Policy Development: The Organisational Context
- HSW452 Working in Uncertainty: Social Work Theory and Practice H

plus one elective

### Trimester 2

- HSW415 Social Work Field Education B

## Level 4 – H430 Bachelor of Social Work (Honours)

(CRICOS code: 088319E)

### Trimester 1

- HSW401 Social Work Research Methods
- HSW402 Critical Approaches to Social Work: Social Work Theory and Practice G
- HSW416 Social Work Honours Research Project A

### Trimester 2

- HSW404 Social Work Field Education B Research Focused
- HSW417 Social Work Honours Research Project B

## Elective units

Elective units may be chosen from any faculty in the University provided that prerequisites are met. A maximum of 2 elective units may be studied at level 1.

## Work experience

### Practice Education

Students must complete two practice education units, each involving a minimum of 500 hours (across at least 65 days) of practicum (field placement) in a social or community service agency or program. Students must also attend and participate in the associated pre-placement preparation seminars at Waterfront (Geelong) in the Trimester prior to the placement being undertaken – dates to be advised.

Recognition for Prior Learning (RPL) is possible for the first placement only (HSW314-Social Work Field Education A) for students who are able to demonstrate that their prior experience has provided them with the knowledge and experience that would normally be provided in the first placement. Applications for RPL are due 30 November of the year prior to students undertaking their first placement. Late applications cannot be accepted.

Further information is available in the RPL Guidelines.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Third party arrangements

Social work has a range of agreements with agencies to deliver practicum experiences, including field educators. These are signed by the HoS.

### Other learning experiences

There is an opportunity for students to take part in exchange programs or study tours.

### Research and research-related study

For H430, there are 4 credit points that focus explicitly on research or research training. This is achieved in HSW416 Social Work Honours Research Project A (2 credit points), HSW417 Social Work Honours Research Project B (1 credit point) and the research course work unit HSW401 Social Work Research Methods (1 credit point). In addition the social work field education placement unit HSW404 Social Work Field Education B: Research Focused (3 credit points) not only meets the requirement for applied professional training but also contributes to the research and research training.

# Bachelor of Exercise and Sport Science

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Exercise and Sport Science
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne), Waurm Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	045332G
<i>Deakin course code</i>	H343 (version 4)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

This course structure is for students commencing Trimester 1 2018 onwards. Students who commenced their course in or before 2017, please go to the 2017 course handbook entry

## Course overview

Deakin's Bachelor of Exercise and Sport Science helps you apply knowledge and skills in exercise and sport science to improve performance, health and participation of individuals, athletes and teams through training, coaching and advice. You will learn in world-class facilities at our Elite Sports Precinct in Geelong and brand new Specialised Indoor Exercise and Sport Science building in Burwood (due for completion by Trimester 2, 2019). You will also graduate job-ready with 220 hours of practical experience via the Exercise Programming and Exercise and Sports Science Practicum units.

Why not fulfil your potential in the world of exercise and sports science and graduate with a practical degree that lets you hit the ground running in the industry?

This course gives you the skills to become a professional leader in exercise and sport science and allied fields, with a focus on the biological, sociological and behavioural bases of exercise and sport science.

Tailor the course to your interests and career goals, choosing from the following majors:

- applied sport science
- disability and inclusion
- exercise physiology
- family, society and health
- health promotion
- physical activity and health
- psychology
- sport coaching
- sports nutrition
- strength and conditioning.

With 220 hours of hands-on, practical experience opportunities, you'll graduate job-ready. Our course offers the most practicum hours of any comparable accredited program in Victoria. You'll have the opportunity to participate in work experience placements in a variety of environments such as:

- AFL/VFL football clubs
- Football Federation Victoria
- Tennis Australia
- WNBL clubs
- Cricket Victoria
- private strength and conditioning and high performance centres (including Institutes of Sport)
- recreational gyms
- rehabilitation clinics.

All students participate in two industry-based practical experiences. In second year, students complete 80 hours of practical experience in Exercise Programming. The Exercise and Sports Science Practicum in final year offers a minimum 140 hours of practical experiences. These are a core feature of the course which, combined with one-on-one career mentoring by staff in particular units, set you apart from other graduates.

Deakin's world-class facilities mean that you will be learning in some of the most elite environments. The Geelong Waurn Ponds Campus' Elite Sports Precinct supports the activities of a wide range of users, from the Geelong Cats AFL team, to the student-based Deakin Ducks Soccer Club – providing outstanding placement opportunities for students. Due for completion in mid-2019, a new specialised indoor exercise and sport science building at the Melbourne Burwood Campus will feature four levels of state-of-the-art sport science learning facilities, providing a broad range of hands-on learning experiences for students.

Deakin's Bachelor of Exercise and Sports Science is the first and longest-standing undergraduate course in Victoria, with an accredited pathway to register and practice as an Accredited Exercise Scientist with the peak national accrediting body, Exercise and Sport Science Australia (ESSA).

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and on-line interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

### Exercise and Sports Science Australia (ESSA)

All graduates are eligible to apply for accreditation with Exercise and Sports Science Australia (ESSA) as an Accredited Exercise Scientist (AES). Please refer to ESSA webpage for more information.

Bachelor of Exercise and Sport Science students who have been awarded Recognition for Prior Learning for study below Australian Qualifications Framework (AQF) level-7 (e.g. non-university study undertaken via TAFE, Deakin College or within overseas qualifications that are not equivalent to an Australian Bachelor degree (i.e. AQF-7) may not be eligible for immediate accreditation with ESSA. This does not mean that ESSA accreditation is not available to you. What it means is that to apply to become an AES you will need to do so through the non-ESSA Accredited Course application pathway.

For H343 graduates who have NOT received any Recognition for Prior Learning from study undertaken below AQF-7 (e.g. non-university study undertaken via TAFE, Deakin College or within overseas qualifications that are not equivalent to an Australian Bachelor degree (i.e. AQF-7), please refer to the ESSA Accredited Course information application process.

## Career opportunities

As well as typical roles in the sport, exercise, coaching and fitness industry, you may pursue employment in sport science, sports administration, facility management, community health and wellness, or rehabilitation.

Upon graduating, you may find employment opportunities in:

- elite, professional sporting clubs
- local and state government agencies
- professional sporting bodies
- local and community sporting clubs
- hospital and rehabilitation clinics
- fitness and aquatic centres
- private health and recreation centres
- large organisations in corporate health.

After successfully completing the Bachelor of Exercise and SportScience, you may consider applying for further study to advance your career in the sport science industry. We offer:

- Bachelor of Exercise and Sport Science (Honours)
- Master of Clinical Exercise Physiology
- Master of Applied Sport Science.

## Participation requirements

The course contains compulsory practicum placements designed to meet the ESSA Accredited Exercise Scientist (AES) professional standards. Comprising a minimum of 140 hours.

Elective units may be selected that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Upon achievement of the prerequisite requirements, placement can occur at any time, including during standard holiday breaks. See Deakin's website for further details.

Reasonable adjustments to participation and other course requirements will be made for students with a disability and/or athletes registered with the Deakin Elite Athlete program.

Placement can occur at any time, including during the standard holiday breaks listed here:

[deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Elective units may be selected that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

Any unit that contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

This course can be a pathway to:

- H442 Bachelor of Exercise and Sport Science (Honours)
- H707 Master of Applied Sport Science
- H743 Master of Clinical Exercise Physiology

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Demonstrate autonomy, responsibility and well-developed theoretical and technical knowledge within the broad disciplines of exercise and sport science.
Communication	Demonstrate clear and accurate communication using a range of modes to select and deliver relevant information.
Digital literacy	Use a range of digital tools within exercise and sport science environments to accurately and efficiently locate, evaluate, and disseminate information, including the collection and analysis of data.
Critical thinking	Use information from multiple sources of evidence to inform decision making applied to exercise and sport science.
Problem solving	Independently deconstruct a range of real world and complex problems within exercise and sport science environments to formulate, execute and evaluate possible solutions.
Self-management	Demonstrate the capacity to learn and work independently, taking personal responsibility for actions and outcomes commensurate with priorities and timeframes established both personally and by others.
Teamwork	Consistently demonstrate professional behaviours while making effective contributions across a range of roles when undertaking collaborative work within intra- and inter-disciplinary teams.
Global citizenship	Practise ethical and professional behaviours with an awareness of, and sensitivity to, diverse global and local perspectives in exercise and sport science.

## Course rules

Course structure applies for students who commenced in 2018 onwards. Students who commenced prior to 2018 should refer to previous online Handbooks or consult your course enrolment officer

To complete the Bachelor of Exercise and Sport Science students must attain 24 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 24 credit points you will need to study 24 units (AKA 'subjects'). Most students choose to study 4 units per trimester and usually undertaken two trimesters each year.

The course comprises 24 credit points which includes 16 core units (these are compulsory and 8 elective units (you can choose which ones to study)). No more than 10 credit points may be taken at level 1 and at least 6 credit points must be taken at level 3.

Also, you can select elective units to form a major sequence. Majors can be selected from within the Faculty of Health or any other Faculty, subject to availability and pre-requisites. Majors may include applied sport science, exercise physiology, strength and conditioning, sport coaching, nutrition, physical activity and health, health promotion, management, sports nutrition, marketing, languages or media.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

Refer to the details of each major sequence for availability.

- Exercise Physiology – Burwood (Melbourne), Waurm Ponds (Geelong)
- Applied Sport Science – Burwood (Melbourne), Waurm Ponds (Geelong)
- Physical Activity and Health – Burwood (Melbourne), Waurm Ponds (Geelong), Warrnambool
- Sports Nutrition – Burwood (Melbourne), Waurm Ponds (Geelong)
- Sport Coaching – Burwood (Melbourne), Waurm Ponds (Geelong)
- Strength and Conditioning – Burwood (Melbourne), Waurm Ponds (Geelong)
- Psychology – Burwood (Melbourne), Waurm Ponds (Geelong), Warrnambool, Cloud (online). Individual units may not be available on every campus
- Nutrition – Burwood (Melbourne), Waurm Ponds (Geelong)
- Health Promotion – Burwood (Melbourne), Waurm Ponds (Geelong), Warrnambool, Cloud (online)
- Family, Society and Health – Burwood (Melbourne), Cloud (online)
- Disability and Inclusion – Burwood (Melbourne), Cloud (online)

Students can choose to undertake majors from other courses as long as they can fit the major into their course structure and the majors are available for you to undertake.

Please ensure you discuss your request with your Course Adviser to ensure you are still meeting your course rules.

- Bachelor of Health Sciences
- Bachelor of Commerce majors
- Bachelor of Arts majors
- Bachelor of Science majors

## Course structure

### Core units

#### Level 1

##### Trimester 1

- |        |  |
|--------|--|
| HAI010 | Academic Integrity (0 credit points)                         |
| HSE010 | Exercise and Sport Laboratory Safety (0 credit points)       |
| HBS109 | Human Structure and Function *                               |
| HSE111 | Physical Activity and Exercise for Health                    |
| HSE113 | Human Growth, Development and Ageing for Exercise Scientists |

plus one elective unit (recommended from level 1)

##### Trimester 2

- |        |   |
|--------|---|
| HSE102 | Functional Human Anatomy                              |
| HSE103 | Essentials of Exercise Delivery                       |
| HSE104 | Research Methods and Statistics in Exercise and Sport |

plus one elective unit (recommended from level 1)

#### Level 2

##### Trimester 1

- |        |  |
|--------|--|
| HSE201 | Exercise Physiology *                      |
| HSE212 | Physical Activity Promotion and Evaluation |
| HSE302 | Exercise Programming                       |

plus one elective units (recommended from level 1 or level 2)

##### Trimester 2

- |        |                                |
|--------|--------------------------------|
| HSE202 | Biomechanics                   |
| HSE204 | Motor Learning and Development |
| HSE208 | Integrated Human Physiology    |

plus one elective unit (recommended from level 2 or level 3)

### Level 3

#### Trimester 1

- HSE312 Exercise and Sports Science Practicum
- HSE323 Clinical and Sport Biomechanics

plus two elective unit (recommended from level 2 or level 3)

#### Trimester 2

- HSE309 Behavioural Aspects of Sport and Exercise
- HSE330 Nutrition for Exercise Scientists

plus two elective units (recommended from level 2 or level 3)

\* Unit also available in Trimester 3

### Exercise and Sport Science elective units

Electives are offered subject to availability of resources and quotas where applicable.

### Level 1

#### Trimester 1

- HSE105 Principles of Sport Coaching

#### Trimester 2

- HSE110 Muscle Biology for Exercise Science
- HSE112 Pathways in the Physical Activity, Exercise and Health Industry

### Level 2

#### Trimester 1

- HSE205 Advanced Sport Coaching Theory and Practice
- HSN227 Volunteering in Exercise and Nutrition Sciences

#### Trimester 2

- HSE205 Advanced Sport Coaching Theory and Practice

### Level 3

#### Trimester 1

- HSE303 Exercise Metabolism
- HSE305 Issues in Sport Coaching
- HSE309 Behavioural Aspects of Sport and Exercise
- HSE311 Applied Sports Science 1
- HSE313 Children's Physical Activity and Sport
- HSE323 Clinical and Sport Biomechanics

#### Trimester 2

- HSE304 Physiology of Sport Performance
- HSE314 Applied Sports Science 2
- HSE316 Physical Activity and Population Health
- HSE320 Exercise in Health and Disease
- HSE321 Sport Coaching and Development Practicum ~

## Work experience

### Work Integrated Learning

The Bachelor of Exercise and Sport Science features compulsory practical experience through work-based practicum, so you can start your career before you graduate with hands-on work placement experience.

You have the opportunity to undertake hands-on experience in a variety of sporting, exercise or health environments. These may vary from local, state or national sporting organisations and professional sporting clubs; state and national institutes of sport; as well as health, fitness and exercise physiology rehabilitation providers. The roles can involve coaching, sport science, sports administration, sport management, exercise physiology and fitness, while many graduates have been offered subsequent employment based on their excellent practicum/fieldwork performance.

To meet the ESSA professional standards for accreditation, at least 80 hours of course practicum hours must demonstrate attainment of competency in exercise assessment, prescription and delivery.

### Details of major sequences

The following are suggested major sequences in Exercise and Sport Science.

#### **Exercise Physiology – unit set code – MJ-H000029**

*Burwood (Melbourne), Waurn Ponds (Geelong)*

##### Overview

Graduates from the Exercise Physiology major will have an in-depth understanding of human physiology applied to exercise, the adaptations following exercise training and how they relate to enhanced sporting performance, improved health and prevention of chronic disease.

Students will develop the skills to monitor and interpret physiological responses during exercise, and develop job ready skills by gaining hands-on, practical experience utilising a range of laboratory techniques. Exercise Physiology is a fundamental discipline for sport and exercise science and complements interests in other Exercise and Sport Science major sequences. Common career pathways for graduates include exercise and sport science roles in sporting clubs and organisations, health and fitness clubs, and rehabilitation centres. The knowledge and skills gained in this major are also relevant for further postgraduate study such as honours and higher degree by research programs, Deakin's Master of Clinical Exercise Physiology and other clinical career pathways.

Major structure applies to students commencing this major in 2018 onwards. Students that commenced this major before 2018 should refer to previous handbook entries

##### Units

HSE110	Muscle Biology for Exercise Science
HSE201	Exercise Physiology
HSE208	Integrated Human Physiology
HSE303	Exercise Metabolism
HSE304	Physiology of Sport Performance
HSE320	Exercise in Health and Disease

**Physical Activity and Health – unit set code – MJ-H000023***Burwood (Melbourne), Warrnambool, Waurn Ponds (Geelong)***Overview**

Students undertaking this major will develop an in-depth understanding of current research evidence relating to physical activity and sedentary behaviour and how it relates to the health of the community, populations and individuals.

They will be equipped with the knowledge and critical awareness of how research informs current physical activity recommendations, policy and practice. Students will develop the skills required to monitor and assess physical activity and sedentary behaviour in relation to current policy. Students will gain practical experience developing programs to improve participation in physical activity and /or reduce sedentary behaviour and evaluation of program effectiveness. Students will also advance a wide range of transferrable graduate employment skills including: Discipline-specific knowledge and capabilities (used as a basis for many of the other major sequences students may select), Communication (used extensively for health promotion), Interpretive and analytical thinking, Project development and implementation, Team building, and Evaluation.

**Units**

HSE111	Physical Activity and Exercise for Health
HSE112	Pathways in the Physical Activity, Exercise and Health Industry
HSE212	Physical Activity Promotion and Evaluation
HSE213	Children's Physical Activity and Sport
HSE316	Physical Activity and Population Health
HSE332	Global Perspectives in Physical Activity and Exercise for Health

**Sports Nutrition – unit set code – MJ-H000028***Burwood (Melbourne), Waurn Ponds (Geelong)***Units**

HSN101	Foundations of Food, Nutrition and Health
HSN211	Nutritional Physiology
HSN202	Lifespan Nutrition
HSE303	Exercise Metabolism
HSN305	Assessing Food Intake and Activity
HSN307	Sports Nutrition: Theory and Practice

Students who have previously completed HSN201 do not need to also complete HSN211

**Sport Coaching – unit set code – MJ-H000011 – Major; MN-H000011 – Minor***Burwood (Melbourne), Waurn Ponds (Geelong)***Overview**

The coaching major develops leadership skills for sports coaching and instruction. It is underpinned by sports science, pedagogy, personal development, and practical real world coaching experience.

The emphasis is on development of essential skills employers value including planning, organisation, presentation, evaluation, and problem solving. The coaching major has been developed with national sporting organisations, elite coaches, and expert academics to provide the latest in innovative coaching theory and practice. This major provides a necessary skill set for those considering a career where skills in coaching, instruction, or teaching are an essential component.

## Units

HSE103	Essentials of Exercise Delivery
HSE105	Principles of Sport Coaching *
HSE204	Motor Learning and Development
HSE205	Advanced Sport Coaching Theory and Practice *
HSE305	Issues in Sport Coaching *
HSE321	Sport Coaching and Development Practicum *

\* Units required for Minor sequence

This minor sequence is available only to courses who offer a minor sequence in their course. H343 Bachelor of Exercise and Sport Sciences and H315 Bachelor of Nutrition Science courses do not offer a minor sequence in the course.

### **Applied Sport Science – unit set code – MJ-H000038**

*Burwood (Melbourne), Waurn Ponds (Geelong)*

#### Overview

In the Applied Sport Science major, students will learn to apply scientific thinking and methods to solve problems and generate insights in sport. This major is suitable for those who aspire to work as sport scientists in real sporting settings (e.g., community sport, junior sport, and high performance sport).

Completing this sequence will help students prepare to apply for postgraduate sport science scholarships and internships, such as those offered by the AIS, VIS, and AFL clubs. The sequence also provides a platform for progression to postgraduate study options, such as Deakin's Master of Applied Sport Science, Honours and other research opportunities.

#### Units

HSE105	Principles of Sport Coaching
HSE302	Exercise Programming
HSE304	Physiology of Sport Performance
HSE311	Applied Sports Science 1
HSE314	Applied Sports Science 2
HSE323	Clinical and Sport Biomechanics

### **Strength and Conditioning – unit set code – MJ-H000039**

*Burwood (Melbourne), Waurn Ponds (Geelong)*

#### Overview

The Strength and Conditioning major sequence will develop the theoretical knowledge and technical competencies required to develop and deliver evidence-based strength and conditioning programs for a range of individuals including the general population, those with specific needs, and athletic populations.

Disciplines of study include Sports Coaching, Exercise Prescription and Programming, Sports Physiology and Advanced Anatomy. Additional skills and competencies developed allow strong articulation into further study opportunities such as Master of Applied Sport Science, Master of Clinical Exercise Physiology and other external post-graduate courses such as Medicine or Physiotherapy. Career pathways in Sport Science, Strength and Conditioning and Exercise Physiology are all enhanced through the completion of this major sequence.

#### Units

HSE103	Essentials of Exercise Delivery
HSE105	Principles of Sport Coaching
HSE302	Exercise Programming
HSE304	Physiology of Sport Performance
HSE329	Advanced Anatomy for Exercise Scientists
HSE331	Advanced Strength and Conditioning

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Third party arrangements

### Nature of third party arrangements

Deakin College offers a subset of 1st year subjects of the degree as part of the Diploma of Health Sciences. Students who complete the program with a WAM of at least 50, can gain entry into H343, with credit for core and other units already completed, enabling them to enter at 2nd year level of the degree.

### Quality assurance arrangements

The units offered by Deakin College are those offered as part of the H343. Quality assurance is as for the rest of H343.

## Other learning experiences

Students have the opportunity to undertake elective units and major sequences that include units in Volunteering and a Study Tour unit, while opportunities for Study Abroad exist across the course.

## Research and research-related study

Components of research and research-related study may be embedded across a number of units where student achievement is demonstrated in specific assessment tasks.

# Bachelor of Applied Science (Psychology)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Applied Science (Psychology)
<i>Campus</i>	Offered at Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online)
<i>Cloud Campus</i>	No
<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	018299F
<i>Deakin course code</i>	H344

*For continuing students only. Course structure applies for students who commenced in 2012 or 2013. Students that commenced in 2014 should refer to the 2014 handbook entry. Students that commenced in 2015 or later should go to H344 Bachelor of Psychological Science.*

## Course overview

Psychology is concerned with understanding human personality, behaviour, emotion, underlying mental processes and the factors that lead people to differ in the way they think and behave. In the Bachelor of Applied Science (Psychology) you will be exposed to a contemporary integrative approach to psychology, one that recognises the importance of, and interrelationships between, biological, developmental, social, cognitive, and developmental factors. In undertaking this course of study you will cover broad areas of psychology including behavioural and clinical neuroscience, child and adolescent psychology, relationships and the psychology of groups, cognitive psychology, forensic psychology, and psychopathology.

An undergraduate major sequence in psychology is also available to students enrolled in the following degrees: H345 Bachelor of Psychology (Honours), H300 Bachelor of Health Sciences, D387 Bachelor of Nursing/ Bachelor of Psychological Science), D391 Bachelor of Health Sciences/Bachelor of Arts.

## Work-Integrated Learning

As part of this course, you will also be given the opportunity to undertake an internship in psychology as well as develop your counselling skills through a suite of elective units offered by the School of Psychology.

## Professional recognition

Deakin's Bachelor of Applied Science (Psychology) is recognised for registration by the Psychology Board of Australia, accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of professional registration.

## Registration as a psychologist

The current requirements for registration as a provisional psychologist include the completion of four years of academic study of psychology that is recognised by the Psychology Board of Australia. The academic program usually consists of an approved undergraduate psychology sequence – such as Deakin's Bachelor of Applied Science (Psychology) – followed by an approved fourth-year of study (such as Deakin's Graduate Diploma of Psychology or honours in psychology).

Following successful completion of an approved fourth-year of psychology study, you may apply for provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS).

In order to gain full registration, provisional psychologists must then complete either two years of supervised practice, or a minimum two years of further study, which may include: Master of Psychology, Doctor of Psychology or a Doctor of Philosophy (PhD) (with supervised practice completed outside the degree).

*Note: This course is currently accredited as at the date of publishing.*

## Psychology major sequence in other degrees

In addition to the Bachelor of Applied Science (Psychology), psychology may be studied as a three-year major sequence in any of the following degrees: Bachelor of Health Sciences, Bachelor of Arts (Psychology) or Bachelor of Management.

Students intending to become psychologists, however, must take four years of academic study (three years of undergraduate study, including ten units of psychology, plus either a level-4 Honours year or the level-4 Graduate Diploma of Psychology).

The 10-credit-point undergraduate Psychology sequence consists of two units at level 1, HPS111 and HPS121; five units at level 2, HPS201, HPS202, HPS203, HPS204 and HPS205 ; plus three units at level 3, HPS301, HPS307 and HPS308.

Students may also choose to take a limited sequence in psychology of 6 or 8 credit points (depending on the requirements of their course). These sequences are designed as terminal studies in psychology to complement other studies within an award. They do not meet the 10-credit-point requirement for entry into fourth-year studies in psychology; nor will they lead to professional qualifications in psychology. However, these requirements may be met by completing additional psychology units, either as single-unit enrolments or via the Graduate Diploma of Psychological Studies.

The 6 or 8-credit-point sequences consist of two units at level one, HPS111 and HPS121; two or three units at level 2, selected from HPS201, HPS202, HPS203, HPS204 and HPS205; and two or three units at level 3, selected from HPS301, HPS302, HPS303, HPS304, HPS307, HPS308 and HPS395. Students wishing to take alternative psychology units must seek approval from the School of Psychology .

For details of the campus on which the unit is offered, please refer to the Unit Descriptions section of the Handbook. Cloud (online) students may apply to enrol in campus units. The fourth-year programs, however, are only available in campus mode. Students studying in both campus and Cloud (online) modes may apply for entry to either the Honours or Graduate Diploma of Psychology programs.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course rules

The Bachelor of Applied Science (Psychology) consists of 24 credit points, of which at least 12 must be Psychology (i.e., 'HPS') units.

At level 1, two Psychology units, HPS111 and HPS121, and three foundation health units, HBS107, HBS108 and HBS110, are compulsory.

At level 2, HPS201, HPS202, HPS203, HPS204, and HPS205 are compulsory.

At level 3, HPS301, HPS307 and HPS308 are compulsory, and an additional two level-3 HPS elective units must also be completed.

In summary, Bachelor of Applied Science (Psychology) students must complete two Psychology (HPS) units at level 1, five at level 2, and five at level 3.

No more than 10 credit points may be taken at level 1, and a maximum of 8 credit points may be taken outside the Faculty of Health.

Students may choose to accelerate their progress through the course by selecting from the following units that are normally offered in Trimester 3: HBS110, HBS107, HBS108, HPS111, HPS121, HPS201, HPS204, HPS205, HPS206 and HPS307.

Following completion of the Bachelor of Applied Science (Psychology), students intending to become psychologists must successfully apply for and complete a level-4 Honours year or the level-4 Graduate Diploma of Psychology.

## Course structure

### Level 1

#### Trimester 1

HPS111 Psychology A: Fundamentals of Human Behaviour  
HBS107 Understanding Health

plus two elective units

#### Trimester 2

HPS121 Psychology B: Individual and Social Development  
HBS108 Health Information and Data  
HBS110 Health Behaviour

plus one elective unit

### Level 2

#### Trimester 1

HPS203 The Human Mind  
HPS204 Human Social Behaviour

plus two elective units

#### Trimester 2

HPS201 Research Methods in Psychology A  
HPS202 Child and Adolescent Development  
HPS205 Brain, Biology and Behaviour (No longer available for enrolment)

plus one elective unit

### Level 3

#### Trimester 1

HPS301 Research Methods in Psychology B  
HPS307 Personality

plus two elective units

#### Trimester 2

HPS308 Psychopathology

plus three elective units

\* Students who have not completed HPS205 by the end of 2015 must do HPS310

### Elective units

Two of the 11 elective units must be chosen from the psychology units listed below.

#### Trimester 1

HPS302 Pathways Through Adulthood  
HPS395 Cognitive Neuroscience

#### Trimester 2

HPS303 Unit description is currently unavailable  
HPS304 The Social Psychology of Relationships

The remaining nine electives may include other psychology units such as:

HPS206 Introduction to Forensic Psychology  
HPY210 Coaching and Counselling for Behaviour Change  
HPY310 Coaching and Counselling Groups for Behaviour Change

or students may choose to take complementary studies in other disciplines.

# Bachelor of Psychological Science

<i>Duration</i>	3 years full-time or part-time equivalent
<i>CRICOS course code</i>	079316E
<i>Deakin course code</i>	H344 (version 2)
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Gain insight into why people think, feel and behave the way they do. You will uncover all aspects of human behaviour and personality, giving you the best possible foundation for further study in psychology to apply for provisional registration, or to pursue a range of careers in the fast-growing health sector.

Do you want to learn from psychology professionals, and be exposed to real-world workplace experience?

Deakin's School of Psychology is one of the largest in Victoria and offers the Bachelor of Psychological Science across all campuses, including fully online through our Cloud campus, enabling you to study where and when it suits you.

Deakin is also the only university in Victoria where you can study specialist psychology majors during your undergraduate degree. Start following your passion sooner with a major in Child and Family, Organisational Studies or Forensic Studies.

You will get the chance to build real-world experience by electing to undertake the Psychology at Work (Internship) unit in your final year of study, giving you 140 hours of practical industry placement, strengthening your employment prospects.

This course recognises the importance of, and interrelationships between, a range of human factors you will encounter in your future career. You will explore diverse areas of psychology, including:

- behavioural and clinical neuroscience
- child and adolescent psychology
- human social behaviour
- cognitive psychology
- forensic psychology

You will also have the opportunity to develop your counselling and coaching skills through a suite of specialised elective units, or further explore topics including addiction and cognitive neuroscience.

The Bachelor of Psychological Science is recognised for registration purposes by the Psychology Board of Australia, and enables you to undertake additional study in pursuit of professional registration as a psychologist. The course is also accredited by the Australian Psychology Accreditation Council (APAC).

Deakin's School of Psychology has strong partnerships with industry, including collaborative activities with government agencies, public and private organisations, hospitals and other universities.

These partnerships ensure that your degree remains relevant to industry and workforce needs. You will be in high demand by employers who want graduates that are ready to face real-world problems with confidence.

If you are intending to become a psychologist, this course is the pathway to a 4th year level of study (honours or graduate diploma level). After completing a 4th year of study, you will be eligible to apply to register as a provisional psychologist. Students wishing to become fully registered psychologists can then apply to continue their study by undertaking one of the following:

- Master of Psychology (Clinical)
- Master of Psychology (Organisational)
- Master of Professional Psychology
- Doctor of Psychology (Clinical).

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

All of the psychology courses offered at Deakin meet the requirements of the Psychology Board of Australia (PBA) and the Australian Psychological Society (APS), translating into excellent job and career opportunities for our graduates. Deakin's Bachelor of Psychological Science is accredited by the Australian Psychology Accreditation Council (APAC).

## Career opportunities

Following the completion of your bachelor's degree, taking the next step towards becoming a psychologist involves applying for an honours year (e.g. Bachelor of Psychological Science (Honours)) or Graduate Diploma of Psychology). Once completed, you'll be able to register as a provisional psychologist with the Psychology Board of Australia.

If your passion isn't to complete further study to become a registered psychologist, there are still many diverse career options available, including:

- child protection
- counselling
- family support
- human services
- marketing
- not for profit aid
- public health
- social work.

If you choose to pursue full registration as a psychologist, you may find employment in a variety of roles, including:

- clinical psychologist
- cognitive neuroscientist
- counsellor
- criminal psychologist
- educational and developmental psychologist
- family therapist
- forensic psychologist
- health and community psychologist
- organisational psychologist
- rehabilitation counsellor
- sport and exercise psychologist
- youth psychologist.

These positions can be found in:

- private clinics and practices
- public and private hospitals
- corporate organisations
- schools and universities
- government departments and agencies
- sporting clubs and institutes
- social research organisations.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Registration as a psychologist

The current requirements for registration as a provisional psychologist include the completion of four years of academic study of psychology that is recognised by the Psychology Board of Australia. The academic program usually consists of an approved undergraduate psychology sequence – such as Deakin's Bachelor of Psychological Science – followed by an approved fourth-year of study (such as Deakin's Graduate Diploma of Psychology or honours in psychology).

Following successful completion of an approved fourth-year of psychology study, you may apply for provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS).

In order to gain full registration, provisional psychologists must then complete either two years of supervised practice, or a minimum two years of further study, which may include: Master of Psychology, Doctor of Psychology or a Doctor of Philosophy (PhD) (with supervised practice completed outside the degree).

*Note: This course is currently accredited as at the date of publishing.*

## Psychology major sequence in other degrees

In addition to the Bachelor of Psychological Science, psychology may be studied as a three-year major sequence in any of the following degrees: Bachelor of Health Sciences, Bachelor of Arts (Psychology) or Bachelor of Management.

Students intending to become psychologists, however, must take four years of academic study (three years of undergraduate study, including ten units of psychology, plus either a level-4 Honours year or the level-4 Graduate Diploma of Psychology).

The 10-credit-point undergraduate Psychology sequence consists of two units at level 1, HPS111 and HPS121; four units at level 2, HPS201, HPS202, HPS203 and HPS204; plus four units at level 3, HPS301, HPS307, HPS308 and HPS310.

Students may also choose to take a limited sequence in psychology of 6 or 8 credit points (depending on the requirements of their course). These sequences are designed as terminal studies in psychology to complement other studies within an award. They do not meet the 10-credit-point requirement for entry into fourth-year studies in psychology; nor will they lead to professional qualifications in psychology. However, these requirements may be met by completing additional psychology units, either as single-unit enrolments or via the Graduate Diploma of Psychological Studies.

The 6 or 8-credit-point sequences consist of two units at level one, HPS111 and HPS121; two or three units at level 2, selected from HPS201, HPS202, HPS203, HPS204, HPS206, HPS207 and HPS226; and two or three units at level 3, selected from HPS301, HPS302, HPS304, HPS307, HPS308, HPS310, HPS325, HPS327, HPS328 and HPS395. Students wishing to take alternative psychology units must seek approval from the School of Psychology.

For details of the campus on which the unit is offered, please refer to the Unit Descriptions section of the Handbook. Cloud (online) students may apply to enrol in campus units. Students studying in both campus and cloud (online) modes may apply for entry to either the Honours or Graduate Diploma of Psychology programs.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Integrate theoretical knowledge of the discipline of psychology in relation to: health, social, cognitive, methodology, neuroscience, development, and personality.
Communication	Communicate psychological knowledge and arguments effectively using the most appropriate means utilising clear, discipline appropriate, coherent and well-developed communication skills.
Digital literacy	Utilise online technologies to interact with others, access research and evaluate empirical evidence; and create and disseminate psychology-relevant content.
Critical thinking	Identify and critique the factors that contribute to the development of unhealthy mental processes and behaviours, develop arguments, reports, or commentaries based on empirical research and apply the results to affect healthy behaviour change in oneself or others, and; apply the skills required to affect healthy behaviour change in oneself and in others in diverse contexts.
Problem solving	Apply knowledge of the scientific method when addressing problems related to behaviour and mental processes; design, plan, and conduct research that addresses these problems; and apply analytic and statistical skills to interpret the results and validity of research.
Self-management	Engage in independent learning as a reflective practitioner to sustain personal and professional development in the changing world of the science and practice of psychology; and manage resources, timelines and other constraints to achieve quality and timely outcomes.
Teamwork	Collaborate and communicate psychological principles and practices effectively in interdisciplinary teams to work and learn in a range of environments including communities of practice, research and professional practice.
Global citizenship	Embody the values and attitudes of the scientist-practitioner; applying ethical and professional responsibilities to local and global communities and future clients and employers; within diverse cultural, social, and regulatory frameworks.

## Course rules

To complete the Bachelor of Psychological Science students must attain 24 credit points. Most units (think of units as 'subjects') are equal to 1 credit point. In order to gain 24 credit points you will need to study 24 units (AKA 'subjects'). Most students choose to study 4 units per trimester and usually undertake two trimesters each year.

The course comprises a total of 24 credit points which must include the following:

- At least 13 must be Psychology units
- At level 1, three Psychology units, HPS111, HPS121 and HPS104, and two foundation health units, HBS107 and HBS110, are compulsory.
- At level 2, HPS201, HPS202, HPS203 and HPS204 are compulsory.
- At level 3, HPS301, HPS307, HPS308 and HPS310 are compulsory
- An additional three health electives across levels 2 and 3 must also be completed. These can be in the form of a level 2 or 3 psychology elective (HPS2XX or HPS3XX), plus either two more level 3 psychology electives (HPS3XX and HPS3XX) OR one level 3 psychology elective and one general level 3 health elective (HPS3XX and HXX3XX).
- No more than 10 credit points may be taken at level 1
- Students must complete a minimum of 7 credit points at each level.
- A maximum of 8 credit points (electives) may be taken outside the Faculty of Health

In summary, Bachelor of Psychological Science students must complete three Psychology (HPS) units at level 1, four at level 2, five at level 3 and one at level 2 or level 3.

Students may choose to accelerate their progress through the course by selecting from the following units that are normally offered in Trimester 3: HBS110, HBS107, HPS104, HPS105, HPS111, HPS121, HPS201, HPS202, HPS203, HPS204, HPS206 (psychology elective unit), HPS301, HPS307, HPS308 and HPS310.

Following completion of the Bachelor of Psychological Science students intending to become psychologists must successfully apply for and complete a level-4 Honours year or the level-4 Graduate Diploma of Psychology.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Major sequences

The following majors are available within the Bachelor of Psychological Science

- Forensic Studies
- Child and Family
- Organisational Studies

Refer to the details of each major sequence for availability.

## Course structure

### Core units

Course structure applies for students who commenced in 2016 onwards.

Students who commenced in 2014 and 2015 should refer to previous online Handbooks or consult your course enrolment officer.

### Level 1

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
HPS111	Psychology A: Fundamentals of Human Behaviour
HBS107	Understanding Health
HPS104	Foundations of Psychological Science

plus one level 1 elective unit from any discipline

#### Trimester 2

HPS121	Psychology B: Individual and Social Development
HBS110	Health Behaviour

plus two level 1 elective units from any discipline

## Level 2

### Trimester 1

- HPS203 The Human Mind  
HPS204 Human Social Behaviour

plus two level 2 elective units from psychology or any discipline

### Trimester 2

- HPS201 Research Methods in Psychology A  
HPS202 Child and Adolescent Development

plus one level 2 or level 3 HPS psychology elective unit AND one level 2 elective unit

## Level 3

### Trimester 1

- HPS301 Research Methods in Psychology B  
HPS310 Brain, Biology and Behaviour

plus one level 3 HPS psychology elective unit and one level 3 elective unit

### Trimester 2

- HPS307 Personality  
HPS308 Psychopathology

plus one level 3 HPS psychology elective unit OR one level 3 health elective unit

AND

one level 3 elective unit

## Elective units

Three of the 11 elective units must be chosen from the psychology units listed below – one from level 2 or level 3 and two from level 3.

### Trimester 1

- HPS302 Pathways Through Adulthood  
HPS325 Addiction

### Trimester 2

- HPS105 Foundations of Psychological Practice  
HPS206 Introduction to Forensic Psychology  
HPS207 Preparing for Employment  
HPS226 Applied Health Psychology  
HPS304 The Social Psychology of Relationships  
HPS327 Research Methods Capstone  
HPS395 Cognitive Neuroscience

The remaining eight electives may include other psychology units such as:

- HPY210 Coaching and Counselling for Behaviour Change  
HPY310 Coaching and Counselling Groups for Behaviour Change

## Start Anytime

- HPS328 Psychology At Work (Internship)

or students may choose to take complementary studies in other disciplines.

## Work experience

As part of this course, you will also be given the opportunity to undertake preparation for work and work placement elective units as well as elective units designed to develop your counselling skills.

## Details of major sequences

### **Forensic Studies – unit set code – MJ-H000040**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Waurn Ponds (Geelong) students: some of the units are offered at Waurn Ponds and some at Waterfront. Travel between campuses may be required.*

#### Overview

This major brings together complementary units from criminology and forensic psychology for students to gain an understanding of the fundamentals of crime and criminal justice issues, addiction, and how psychological knowledge is applied in legal and criminal matters.

#### Units

ACR101	Introducing Crime and Criminology
ACR102	Introducing Crime and Criminal Justice
ACR202	Criminology Theory
ACR302	Criminology Research
HPS206	Introduction to Forensic Psychology
HPS325	Addiction

### **Child and Family – unit set code – MJ-H000041**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Waurn Ponds (Geelong) students: some of the units are offered at Waurn Ponds and some at Waterfront. Travel between campuses may be required.*

#### Overview

This major brings together complementary units from within Health and Social Development and Psychology with a particular focus on the health and development of the family system and its members. It will be of particular interest to those wanting to work supporting children and/or families in the community.

#### Units

HSH105	Understanding Families and Health
HSH206	Human Development and Healthy Families
HSH207	Socio-Economic Status and Health
HPS105	Foundations of Psychological Practice
HPS302	Pathways Through Adulthood
HPS304	The Social Psychology of Relationships

### **Organisational Studies – unit set code – MJ-H000043**

*Burwood (Melbourne)*

#### Overview

This major brings together fundamental units from the disciplines of Management and Human Resource Management, to give students a grounding in organisational behaviour, recruitment and training, and change management. Students will also gain skills in counselling, mediation and negotiation.

#### Units

MMM132	Management
MMH230	Fundamentals of Human Resource Management
MMH349	Employment Relations
MMH250	Workplace Counselling and Negotiation
MMM240	Organisational Behaviour
MMH356	Change Management

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Psychology (Honours)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Psychology (Honours)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Burwood (Melbourne), Waurn Ponds (Geelong)
<i>Cloud Campus</i>	Yes
<i>Duration</i>	4 years full-time or part-time equivalent. Course available to local students only
<i>Deakin course code</i>	H345
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

## Course overview

Study the mind and its processes, behaviour and mental states. With increasing focus on mental health in contemporary society, career prospects for psychology graduates are strong and varied. The honours year included in this course prepares you for provisional registration as a psychologist with the Psychology Board of Australia (PBA), and sets you on the pathway to full registration.

Do you want to understand human behaviour, personality and emotion, and use those skills to help people?

This course differs to the Bachelor of Psychological Science and the Bachelor of Arts (Psychology), as it provides you with the opportunity to complete honours in psychology as part of your final year, enabling you to register as a provisional psychologist with the PBA.

You can then pursue two distinct paths: further study in pursuit of full registration as a psychologist, or employment that doesn't require registration, such as:

- counselling
- social work
- youth work
- careers counselling
- life counselling
- mental health rehabilitation
- marketing
- social research
- human resources management
- developmental psychology.

Psychology is about understanding human personality, behaviour, emotion, underlying mental processes and the factors that lead people to differ in the way they think and behave. This course will equip you with the skills and strategies to be able to help people, no matter which area of psychology you pursue.

Deakin is the only university in Victoria where you can study specialist psychology majors during your undergraduate degree. Start following your passion sooner with a major in Child and Family, Organisational Studies or Forensic Studies.

In addition to your chosen major sequence, you will cover a number of broad areas of psychology, including:

- behavioural and clinical neuroscience
- child and adolescent psychology
- cognitive psychology
- forensic psychology
- psychopathology
- relationships and the psychology of groups.

To gain full registration, Bachelor of Psychology (Honours) graduates complete either one of the following:

- two years of supervised practice
- two years of postgraduate study, with some supervised practice, specialising in a particular area of psychology that appeals to your interests and career aspirations.

Students wishing to become fully registered psychologists can apply to continue their study by undertaking one of the following Deakin postgraduate courses:

- Master of Psychology (Clinical)
- Master of Psychology (Organisational)
- Master of Professional Psychology
- Doctor of Psychology (Clinical).

Deakin's School of Psychology is one of the largest and most progressive psychology departments in Australia. The School has strong partnerships with industry, including collaborative activities with government agencies, public and private organisations, hospitals and other universities.

These partnerships ensure that your degree remains relevant to industry and workforce needs. You'll be in high demand by employers who want graduates that are ready to face problems with confidence.

During this course you will get the chance to build real-world experience by electing to undertake the Psychology at Work (Internship) unit in your third year of study, giving you 140 hours of practical industry placement, strengthening your employment prospects.

There is a quota on honours places and successful applicants must achieve at least a mid-credit (65%) for Research Methods B and a sufficient mark for their remaining level-2 and level-3 psychology core units.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals and online interaction. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

All of the psychology courses offered at Deakin meet the requirements of the PBA and the Australian Psychological Society (APS), translating into excellent job and career opportunities for our graduates. Deakin's Bachelor of Psychology (Honours) is accredited by the Australian Psychology Accreditation Council (APAC).

## Career opportunities

If you are ready to take your psychology career further, the option to become a fully registered psychologist is available by undertaking a master's or doctorate qualification in psychology.

If you choose to pursue full registration as a psychologist, you may find employment in a variety of roles, including:

- clinical psychologist
- cognitive neuroscientist
- counsellor
- criminal psychologist

- educational and developmental psychologist
- family therapist
- forensic psychologist
- health and community psychologist
- mental health officer
- organisational psychologist
- rehabilitation counsellor
- social worker
- sport and exercise psychologist
- youth psychologist.

The contexts in which you work may include:

- private clinics and practices
- public and private hospitals
- business corporate organisations
- schools and universities
- government departments and agencies
- community sporting clubs and institutes
- various social research organisations.

If your passion is not to complete further study to become a registered psychologist, there are still many diverse career options available, including child protection, family support, human services, marketing and communications, not-for-profit aid, public health, social work and youth work.

## Mandatory student checks

Any unit which contains work integrated learning, a community placement or interaction with the community may require a police check, working with children check or other check. Refer the relevant unit guide.

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs, including PhD

## Registration as a psychologist

The current requirements for registration as a provisional psychologist include the completion of four years of academic study of psychology that is recognised by the Psychology Board of Australia. The academic program usually consists of an approved undergraduate psychology sequence followed by an approved fourth-year of study, such as Deakin's Graduate Diploma of Psychology or honours in psychology.

Following successful completion of an approved fourth-year of psychology study, you may apply for provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS). Deakin's Bachelor of Psychology (Honours) can lead directly to provisional registration provided the honours year is completed within this four-year course.

In order to gain full registration, provisional psychologists must then complete either two years of supervised practice, or a minimum two years of further study, which may include: Master of Psychology, Doctor of Psychology or a Doctor of Philosophy (PhD) (with supervised practice completed outside the degree).

*Note: This course is currently accredited as at the date of publishing.*

## Alternative exit

Bachelor of Psychological Science (H344)

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Demonstrate understanding of advanced knowledge (theoretical, empirical and practical) in the areas of psychological assessment, counselling, advanced research methods and research practice.
Communication	Demonstrate clear written and oral communication skills in order to convey complex psychological knowledge and ideas to laypeople and professionals.
Digital literacy	Apply advanced skills to select appropriate digital tools to source, interpret, adapt, collate, analyse and disseminate discipline specific information in psychology to a variety of audiences relevant to pre-professional practice of psychology.
Critical thinking	Competence in the design and conduct of research, critically evaluate, synthesise and integrate complex scientific evidence, and apply this knowledge to assessment, counselling and case management that demonstrate evidence-based pre-professional practice in the field of psychology.
Problem solving	Respect and use critical and creative thinking, sceptical inquiry and the scientific approach to solve problems related to research and applied skills (psychological assessment, counselling and case-management) in the field of psychology.
Self-management	Display high level self-management through reflection, continual improvement and learning that reinforces the importance of responsibility and accountability for pre-professional development in the field of psychology.
Teamwork	Communicate effectively in a variety of formats and in a variety of contexts with diverse ethnic and cultural partners and teams.
Global citizenship	Demonstrate, report and apply ethical principles to understand how to work productively in the field of psychology within diverse social, cultural and environmental contexts by collaborating and communicating in a self-reflective and culturally sensitive manner.

## Course rules

To complete the Bachelor of Psychology (Honours) students must attain 32 credit points. Units (think of units as 'subjects') may be worth 1 or 4 credit points – check each unit for its credit point value in the course structure below. Most students choose to study 4 credit points per trimester and usually undertake two trimesters each year.

The course comprises a total of 32 credit points which must include the following:

- At least 21 must be Psychology (i.e., 'HPS') units
- At level 1, three Psychology units, HPS111, HPS121 and HPS104, and two foundation health units, HBS107 and HBS110, are compulsory.
- At level 2, HPS201, HPS202, HPS203 and HPS204 are compulsory.
- At level 3, HPS301, HPS307, HPS308 and HPS310 are compulsory
- An additional three health electives across levels 2 and 3 must also be completed. These can be in the form of a level 2 or 3 psychology elective (HPS2XX or HPS3XX), plus either two more level 3 psychology electives (HPS3XX and HPS3XX) OR one level 3 psychology elective and one general level 3 health elective (HPS3XX and HXX3XX).
- No more than 10 credit points may be taken at level 1
- Students must complete a minimum of 7 credit points at each level.
- A maximum of 8 credit points (electives) may be taken outside the Faculty of Health

In summary, Bachelor of Psychological Science students must complete three Psychology (HPS) units at level 1, four at level 2, five at level 3 and one at level 2 or level 3.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students may choose to accelerate their progress through the course by selecting from the following units that are normally offered in Trimester 3: HBS110, HBS107, HPS104, HPS111, HPS121, HPS201, HPS202, HPS203, HPS204, HPS206 (psychology elective unit), HPS301, HPS307, HPS308 and HPS310.

Following successful completion of the first 3 levels of the course (i.e., at the completion of 24 credit points), students will be considered for progression to the level-4 'honours' year of the course.

There is a quota on honours places and successful applicants must achieve at least a mid-credit (65%) for Research Methods B and a sufficient mark for their remaining level-2 and level-3 psychology core units (a 'minimum mark' is calculated each year based on the previous year's competition for places and the academic merit of the cohort of students who apply).

Failure to achieve an honours place results in an alternative exit from H345 with course H344 Bachelor of Psychological Science. In this case you may apply for a fee-paying alternative to honours: course H650 Graduate Diploma of Psychology. Students who do not wish to complete the honours year may also opt for this alternative exit.

The six units HPS431, HPS432, HPS433, HPS434, HPS435 and HPS436 comprise the honours sequence in psychology.

Total coursework weighting at fourth level is 50%. The research thesis at fourth level is completed across the entire level and accounts for 50% of the total weighting. Attendance and presentation at the annual School Honours Conference are hurdle requirements

## Major sequences

From 2020, the following majors are available within the Bachelor of Psychological Science:

- Forensic Studies
- Child and Family
- Organisational Studies

Refer to the details of each major sequence for availability.

## Course structure

### Core units

Course structure applies for students who commenced in 2016 onwards. Students who commenced in 2014 and 2015 should refer to previous online Handbooks or consult your course enrolment officer

### Level 1

#### Trimester 1

- HAI010 Academic Integrity (0 credit points)
- HPS111 Psychology A: Fundamentals of Human Behaviour
- HBS107 Understanding Health
- HPS104 Foundations of Psychological Science

plus one level 1 elective unit from any discipline

#### Trimester 2

- HPS121 Psychology B: Individual and Social Development
- HBS110 Health Behaviour

plus two level 1 elective units from any discipline

### Level 2

#### Trimester 1

- HPS203 The Human Mind
- HPS204 Human Social Behaviour

plus two level 2 elective units from psychology or any discipline

#### Trimester 2

- HPS201 Research Methods in Psychology A
- HPS202 Child and Adolescent Development

plus one level 2 or level 3 HPS psychology elective unit AND one elective unit

### Level 3

#### Trimester 1

- HPS301 Research Methods in Psychology B
- HPS310 Brain, Biology and Behaviour

plus one level 3 HPS psychology elective unit and one level 3 elective unit

#### Trimester 2

- HPS307 Personality
- HPS308 Psychopathology

plus one level 3 HPS psychology elective unit OR one level 3 health elective unit

AND

one level 3 elective unit

### Level 4

#### Trimester 1

- HPS431 Psychological Assessment
- HPS432 Research Methods in Psychology C
- HPS435 Research Project A

#### Trimester 2

- HPS433 Client-Centred Skills in Practice
- HPS434 Research Methods in Psychology D
- HPS436 Research Project B

## Elective units

Three of the 11 elective units must be chosen from the psychology units listed below – one from level 2 or level 3 and two from level 3.

### Trimester 1

- HPS302 Pathways Through Adulthood
- HPS325 Addiction

### Trimester 2

- HPS105 Foundations of Psychological Practice
- HPS206 Introduction to Forensic Psychology
- HPS207 Preparing for Employment
- HPS226 Applied Health Psychology
- HPS304 The Social Psychology of Relationships
- HPS327 Research Methods Capstone
- HPS395 Cognitive Neuroscience

### Start Anytime

- HPS328 Psychology At Work (Internship)

or students may choose to take elective units in other disciplines

The remaining eight electives may include other psychology units such as:

- HPY210 Coaching and Counselling for Behaviour Change
- HPY310 Coaching and Counselling Groups for Behaviour Change

## Work experience

As part of this course, you will also be given the opportunity to undertake preparation for work and work placement elective units as well as elective units designed to develop your counselling skills.

## Details of major sequences

### **Forensic Studies – unit set code – MJ-H000040**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Waurn Ponds (Geelong) students: some of the units are offered at Waurn Ponds and some at Waterfront. Travel between campuses may be required.*

### Overview

This major brings together complementary units from criminology and forensic psychology for students to gain an understanding of the fundamentals of crime and criminal justice issues, addiction, and how psychological knowledge is applied in legal and criminal matters.

### Units

- ACR101 Introducing Crime and Criminology
- ACR102 Introducing Crime and Criminal Justice
- ACR202 Criminology Theory
- ACR302 Criminology Research
- HPS206 Introduction to Forensic Psychology
- HPS325 Addiction

### **Child and Family – unit set code – MJ-H000041**

*Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Waurn Ponds (Geelong) students: some of the units are offered at Waurn Ponds and some at Waterfront. Travel between campuses may be required.*

#### **Overview**

This major brings together complementary units from within Health and Social Development and Psychology with a particular focus on the health and development of the family system and its members. It will be of particular interest to those wanting to work supporting children and/or families in the community.

#### **Units**

HSH105	Understanding Families and Health
HSH206	Human Development and Healthy Families
HSH207	Socio-Economic Status and Health
HPS105	Foundations of Psychological Practice
HPS302	Pathways Through Adulthood
HPS304	The Social Psychology of Relationships

### **Organisational Studies – unit set code – MJ-H000043**

*Burwood (Melbourne)*

#### **Overview**

This major brings together fundamental units from the disciplines of Management and Human Resource Management, to give students a grounding in organisational behaviour, recruitment and training, and change management. Students will also gain skills in counselling, mediation and negotiation.

#### **Units**

MMM132	Management
MMH230	Fundamentals of Human Resource Management
MMH349	Employment Relations
MMH250	Workplace Counselling and Negotiation
MMM240	Organisational Behaviour
MMH356	Change Management

#### **Course duration**

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

# Bachelor of Occupational Therapy

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Occupational Therapy
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Waterfront (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	4 years full-time or part-time equivalent. Students who meet eligibility requirements will enrol in H455 Bachelor of Occupational Therapy (Honours) for their fourth year of study.
<i>Deakin course code</i>	H355
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 7.

*This course has changes for 2020 – please refer to the 2020 handbook entry*

## Course overview

Through the Bachelor of Occupational Therapy, you will receive a cutting-edge and practical education that provides you with over 1000 hours of real-world experience. This course will prepare you to improve people's quality of life, and to educate them on how best to transition back into the occupations that are meaningful to them. We will give you the expertise to provide personalised strategies to work collaboratively with people who have a range of health limitations including those caused by injury, health conditions, delayed development or the effects of ageing. Take the next step towards a rewarding career helping people from all walks of life.

Want to promote good health and wellbeing and improve people's lives at home and work?

Occupation refers to everything that makes up a person's life, not just their job. As a qualified occupational therapist, you will work collaboratively with people who have a range of health limitations, including those caused by injury, health conditions, delayed development or the effects of aging.

This course will enable you to assist people of all ages to engage in aspects of daily living. You will help them achieve independence at home, at work and in the community, and help them enhance their quality of life. You could also work with children with physical or intellectual disabilities, with people who have had accidents or are suffering from medical problems, or people in aged care.

Starting in your first year, you will take part in a series of supervised placements, giving you over 1000 hours of practice education placement in a range of occupational therapy practices. You will gain insight into what it means to be an occupational therapist from day one. All-up, you will engage in eight different placement opportunities, more than any other occupational therapy course in Victoria. Deakin's Bachelor of Occupational Therapy is the only course in Victoria to provide extra placement hours over the 1000 minimum standard.

Make the most of our new world-class facilities, such as our on campus clinical skills laboratory, which simulates real-life settings to prepare you for your work placements and beyond.

You will be learning from our expert occupational therapy staff who are leaders in their fields of research and have extensive experience in a diverse range of occupational therapy specialisations.

During this course, you have the option to complete a study tour to countries including Denmark, India, Sri Lanka and Sweden, to put your acquired skills into practice and learn about the occupational therapy profession from different perspectives.

## Indicative student workload

As a student in the Faculty of Health you can expect to participate in a range of teaching activities each week. This could include classes, seminars, practicals, online interaction and practicum placements. You can refer to the individual unit details in the course structure for more information. You will also need to study and complete assessment tasks in your own time.

## Professional recognition

The Bachelor of Occupational Therapy is accredited by the Occupational Therapy Council (Australia and New Zealand Ltd) and the World Federation of Occupational Therapists, which means you will be able to practise professionally in Australia and overseas.

## Career opportunities

Occupational therapy has experienced one of the strongest growth rates in the health industry over the past 10 years, with available jobs increasing from 8100 in 2007 to 16,700 in 2017.\*

Through this course, you could find employment in areas as diverse as:

- acute, psychiatric or rehabilitation hospitals
- community health organisations
- government departments or agencies
- mental health services
- private practices
- research institutes
- primary and secondary schools
- workplace wellbeing, occupational health and safety, and rehabilitation services.

Our graduates have found employment with the following organisations, as well as many more:

- Alfred Health
- Barwon Health
- Bellarine Community Health
- Department of Education
- genU
- private occupational therapy practices
- primary and secondary schools
- Western District Health.

\* Australian Government Job Outlook 2017

## Participation requirements

The course involves compulsory professional practice education (clinical placements) in each year of the course. The requirement of at least 1000 hours of professional practice during the course is essential for the course to meet national and international accreditation standards. These placements may require travel to rural areas. Students must meet requirements for police records, working with children regulations and immunisation status.

Placement can occur at any time, including during the standard holiday breaks listed here:

[deakin.edu.au/courses/key-dates](http://deakin.edu.au/courses/key-dates).

Elective units may be selected that include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply specialised knowledge about occupation and health across the lifespan; and knowledge of research principles and methods, to provide person centred occupational therapy services for individuals, groups, organisations, communities or populations and to conduct an occupationally relevant research project.
Communication	Communicate effectively, professionally and respectfully with clients, families, carers, co-workers and colleagues using clear and appropriate language and communication modes. 2.2 Effectively communicate the implication of research findings for occupational therapy practice
Digital literacy	Seek out and critically evaluate information located and accessed from digital and other technologies to inform occupational therapy practice, support continuing professional development, research projects and promote participation for people with diverse abilities.
Critical thinking	Critically assess, interpret, and evaluate information to plan and implement appropriate, person-centred occupational therapy intervention and to inform research ethics and activity.
Problem solving	Effectively apply problem solving skills using critical thinking, professional reasoning, decision making and reflection to the design, implementation and evaluation of person centred occupational therapy service, research and scholarship.

Graduate learning outcomes	Course learning outcomes
Self-management	Demonstrate high professional standards through identification and implementation of independent learning and professional development strategies for the benefit of clients, families and others, colleagues and the profession.
Teamwork	Establish and maintain occupational therapy practice within inter-professional teams that is ethical, evidence based, professional, respectful and collaborative, and assume leadership, supervisory and management roles as appropriate.
Global citizenship	Apply ethical, culturally relevant, professional and appropriate decision making which is respectful of the diverse social, cultural and environmental contexts within Australian and global communities. Justify the position of a research project within a national and international context.

## Course rules

The Bachelor of Occupational Therapy comprises 32 credit points, including 29 credit points of core units, 1 selective unit and 2 credit points of elective units.

To be awarded H455 Bachelor of Occupational Therapy (Honours) a person must

- achieve at least a distinction average upon completion of level 3 studies;
- successfully complete HSO302 Evidence-Based Occupational Therapy Practice 1
- complete the four honours units at level 4 (listed under course structure H455 below).

Failure of a fieldwork component in the Bachelor of Occupational Therapy will normally lead to exclusion. Students will be required to complete at least one fieldwork component in a regional area of Victoria or adjacent areas.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

#### Level 1

##### Trimester 1

- HAI010 Academic Integrity (0 credit points)
- HBS107 Understanding Health
- HBS109 Human Structure and Function
- HDS101 Communication and Diversity
- HSO102 Foundations of Occupational Science and Therapy A

##### Trimester 2

- HSE102 Functional Human Anatomy
- HSE208 Integrated Human Physiology
- HSO104 Foundations of Occupational Science and Therapy B

Plus select one unit from the following choices:

- HBS110 Health Behaviour
- HPS111 Psychology A: Fundamentals of Human Behaviour
- HPS121 Psychology B: Individual and Social Development

## Level 2

### Trimester 1

- HSO202 Impact of Health Conditions On Occupational Performance
- HSO205 Occupations in Childhood Development
- HSO207 Neurological Structure, Function and Plasticity

plus one elective unit

### Trimester 2

- HBS108 Health Information and Data
- HSO206 Occupation Across the Lifespan
- HSO208 Analysis of Occupational Performance

plus one elective unit

## Level 3

### Trimester 1

- HBS345 Collaborative Practice in Healthcare
- HSO302 Evidence-Based Occupational Therapy Practice 1
- HSO305 Occupational Performance: Evaluation and Intervention 1
- HSO307 Psychosocial Influences on Occupational Performance

### Trimester 2

- HSO303 Evidence-Based Occupational Therapy Practice 2
- HSO304 Work Integrated Learning A
- HSO306 Occupational Performance: Evaluation and Intervention 2

## Level 4 – Pass stream

### Trimester 1

- HSO401 OT Practice Applying Knowledge and Reasoning
- HSO403 Promoting Occupational Engagement Through Assistive Technology
- HSO405 Work Integrated Learning B

### Trimester 2

- HSO408 Transition to Practice
- HSO417 Occupational Therapy Professional Development
- HSO418 Innovation and Evaluation in OT Practice

## Level 4 – H455 Bachelor of Occupational Therapy (Honours)

(CRICOS code: 088320A)

### Trimester 1

- HSO403 Promoting Occupational Engagement Through Assistive Technology
- HSO405 Work Integrated Learning B
- HSO411 OT Honours Proposal Ethics and Literature

### Trimester 2

- HSO414 OT Honours Analysis and Critique
- HSO416 Honours Research Project

## Elective units

Elective units may be chosen from any faculty in the University provided that prerequisites are met. A maximum of two elective units may be studied at level 1.

### Sociology elective unit:

- ASC206 Sociology of Health

## Work experience

### Work Integrated Learning

You will undertake a variety of practicum placements throughout the four years of the course, commencing in your first year. Practice Education provides you with the opportunity to gain valuable skills and experience under the supervision of qualified practitioners, which will enable you to practise confidently as an occupational therapist. You will complete a minimum of 1000 hours of practical experience. Practice Education is conducted in a range of settings including schools, hospitals, clinics, community health organisations and industry, in metropolitan, regional and rural locations. In a host agency, you can play a meaningful role in a variety of activities, including planning programs and events, undertaking needs assessments, developing evaluation tools, counselling, group work, completing literature reviews and producing promotional materials. Placements begin shortly after you commence your first year of study.

### Practice Education

Students are required to undertake practice education placements throughout the course of their degree. A schedule detailing these placements is developed in advance of the commencing academic year. See Deakin's website to view the 2019 OT Practice Education Schedule.

Our Occupational Therapy team welcomes new placement partners. If you are interested in supervising Deakin students on placement, please contact [hsd-otpraced@deakin.edu.au](mailto:hsd-otpraced@deakin.edu.au). Further details relating to placement can be found at the School Practice Education page on Deakin's website.

### Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

### Other learning experiences

Students are encouraged to take on voluntary learning experiences offered by community organisations. These opportunities are promoted through the course website.

Students are also encouraged to undertake international learning experiences offered through Deakin. Many students use elective options to undertake study tours offered by the School, including those offered by the occupational therapy team.

### Research and research-related study

The Bachelor of Occupational Therapy Honours consists of an 8 credit point sequence. 5 credit points are specifically related to a research project. Proposal, ethics and literature review: 1 credit point; Analysis and critique: 1cp, implementing project, data collection and presentation of results: 3 credit point. The remaining 3 credit points relate to study of assistive technology in occupational therapy practice (1 credit point), and a 2 credit point professional practice education placement.

# Bachelor of Health Sciences (Honours)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Health Sciences (Honours)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Burwood (Melbourne)
<i>Cloud Campus</i>	No
<i>Duration</i>	1 year full-time or part-time equivalent
<i>CRICOS course code</i>	060188G
<i>Deakin course code</i>	H400
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Build on your knowledge of health care, policy and systems with a Bachelor of Health Sciences (Honours). Through a combination of coursework and original research, you'll learn the analytical skills and research techniques that will take you into further study, or employment in the booming health sector.

Do you have questions about the health of our population you want answered? Why not follow your passions and discover the answers with your own research?

Contribute to existing studies in the contemporary health sector by completing an honours degree. You will have the opportunity to work with a world-class supervisor who will guide you through all the stages of research from data collection to implementation and execution, helping you produce a piece of independent, original research.

Focus on an area within the health sciences that you are passionate about. Research themes can include:

- community health
- gambling
- gender, family, reproductive and sexual health
- health, diversity and social inclusion
- health economics
- health literacy
- nature and health
- obesity prevention, healthy food environments and food policy
- physical activity, motor skill competence and self-perception
- refugee health
- sustainability
- violence and abuse, prevention and intervention.

You will learn more than just your topic of research. You will develop the necessary skills to successfully conduct research, with units designed to build your knowledge of the process.

You can be confident that your research is guided by the most recent and groundbreaking findings within the health sector. Deakin's School of Health and Social Development is home to three research centres, committed to improving the health of the population:

- The Centre for Population Health Research (CPHR)
- The Centre for Health through Action on Social Exclusion (CHASE)
- The Health, Nature and Sustainability Group (HNS).

The school addresses the complex connections between determinants of health in their broadest sense, and social development in a variety of settings, and at a range of intervention levels. This means you will be immersed in the work of some of the world's best researchers.

Follow your passion to improve the health and wellbeing of society by studying a Bachelor of Health Sciences (Honours).

## Indicative student workload

You should be able to commit 35 hours a week to your honours degree

## Professional recognition

Not applicable

## Career opportunities

Completing an honours year in health sciences prepares you for careers requiring an advanced skill set. Career opportunities include:

- community health development officer
- community recreation officer
- disability services advocacy and development
- family and community support
- food safety and development
- health services management
- health reform, policy and health promotion roles
- program developer in physical health and nutrition
- officer for refugee advocacy.

Your studies will also equip you with the research skills to take you into further postgraduate and research degrees.

## Participation requirements

This course is run from Burwood. It is possible to VMP into sessions if not located near Burwood. There is a minimum of four compulsory sessions although more sessions are offered to help students in their Honours year.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

There are no mandatory student checks required for this course.

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs.

## Honours

For detailed information, particularly with respect to the selection of areas of study and availability of appropriate supervision, students should consult the School of Health and Social Development Current Student Honours page.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply Health Sciences/Public Health and Health Promotion knowledge to formulate a testable research question; develop a conceptual framework and select the appropriate methodological procedures for the collection, analysis and interpretation of data; and disseminate research findings.
Communication	Communicate, defend and discuss all elements of the research project in the chosen field of study via oral and written means to a variety of audiences.
Digital literacy	Select and use appropriate technologies to source, interpret, adapt, collate, analyse and disseminate relevant information to a variety of audiences.
Critical thinking	Critically evaluate and synthesise the literature in the chosen field of study; and interpret research findings in the context of the literature in the chosen field of study.
Problem solving	Select and apply appropriate methodological principles and analytical techniques to answer a research question within the context of Health Sciences/Public Health and Health Promotion; and troubleshoot solutions to resolve complex problems associated with the research study.
Self-management	Produce a realistic timeline for the research project and demonstrate effective self-management skills, autonomy and accountability that contribute to the development of lifelong learning as a researcher within Health Sciences/Public Health and Health Promotion.
Teamwork	Collaborate and work effectively with specialists, peers, academics and others from a range of disciplines and backgrounds.
Global citizenship	Engage in ethical and professional research practice whilst maintaining confidentiality, and respecting cultural sensitivities.

## Course rules

To complete the Bachelor of Health Sciences (Honours) students must attain 8 credit points, including two coursework units in research methods and research issues and an independent research project. Part-time students are required to complete the coursework components in their first year of study.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
HBS400	Research Methods
HSH401	Developing Research Skills

#### Trimester 2

HSH402	Honours Research Project
--------	--------------------------

## Work experience

Due to the nature of Honours, students may have supervisors who are based in industry, which gives them a chance for work integrated learning. Even for students whose supervisors are based at Deakin, the form of work integrated learning takes the form of a research internship. In terms of data collection, this can involve interviews, focus groups or surveys, which may happen in the context of health and other services in which the students will be exposed to professional staff and associates carrying out their duties.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

All 8 credit points of the course are comprised of research-related study (2 x 2 credit point units) or research (1 x 4 credit point unit). 100% of the course's research and research-related study is specifically assessed.

# Bachelor of Public Health and Health Promotion (Honours)

<i>Year</i>	2019 course information

## Course overview

Boost your understanding of health through a specialised year of study to bring together the theory and practical skills gained in your undergraduate studies. The Bachelor of Public Health and Health Promotion honours year will see you work within a specific area of expertise, sharpen your research skills and graduate with a competitive edge in the fast-growing global health job market.

Want to conduct in-depth research and further your career in the global health industry?

Expand on your general understanding of health, and the factors that contribute to community and population health by delving deeper into a research area of your choice. Undertaking this honours year offers you a specialised year of study, combining the theory and practical skills from your undergraduate degree or previous work experience to conduct in-depth research into a topic of your choice.

Alongside engaging coursework, you will hone in on your passion in the field of health, working closely with a supervisor to delve deep into an original research project to sharpen your expertise.

You will gain a deep understanding of the philosophies, ethics and principles of research and explore a range of research approaches and how they can best contribute to positively influencing public health.

As well as this, you will have the chance to equip yourself with extra skills to ensure you graduate career ready, such as communication, data management and the planning, implementing and reporting of research studies.

With a variety of public health issues affecting healthcare systems globally, job growth in the sector is increasing. There are career opportunities in government and private sector roles across Australia and internationally. You will be qualified for work in areas such as health promotion and education, policy and planning and research.

The research experience and knowledge that you will gain in this honours year also acts as a pathway to undertaking a masters or doctoral research program.

## Indicative student workload

You should be able to commit 35 hours a week to your honours degree

## Professional recognition

Graduates from the Bachelor of Public Health and Health Promotion may be eligible to become members of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

## Career opportunities

Job growth in the health sector continues to increase as public health issues such as obesity, heart disease, diabetes, sedentary lifestyles and ageing populations affect healthcare systems globally.

Career opportunities in government and private sector roles across Australia and internationally include:

- community development coordinator
- health policy developer
- health promotion officer
- health researcher
- program development coordinator
- program evaluator
- social planning officer
- women's health officer.

You may find employment in a diverse range of areas, including:

- chronic illness (such as asthma, arthritis, heart disease)
- healthy eating
- mental health
- physical activity
- social inclusion
- women's health.

## Participation requirements

This course is run from Burwood (Melbourne). It is possible to VMP into sessions if not located near Burwood. There is a minimum of four compulsory sessions although more sessions are offered to help students in their Honours year.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

There are no mandatory student checks required for this course.

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs

## Honours

For detailed information, particularly with respect to the selection of areas of study and availability of appropriate supervision, students should consult the School of Health and Social Development Honours page.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply Health Sciences/Public Health and Health Promotion knowledge to formulate a testable research question; develop a conceptual framework and select the appropriate methodological procedures for the collection, analysis and interpretation of data; and disseminate research findings.
Communication	Communicate, defend and discuss all elements of the research project in the chosen field of study via oral and written means to a variety of audiences.
Digital literacy	Select and use appropriate technologies to source, interpret, adapt, collate, analyse and disseminate relevant information to a variety of audiences.
Critical thinking	Critically evaluate and synthesise the literature in the chosen field of study; and interpret research findings in the context of the literature in the chosen field of study.
Problem solving	Select and apply appropriate methodological principles and analytical techniques to answer a research question within the context of Health Sciences/Public Health and Health Promotion; and troubleshoot solutions to resolve complex problems associated with the research study.
Self-management	Produce a realistic timeline for the research project and demonstrate effective self-management skills, autonomy and accountability that contribute to the development of lifelong learning as a researcher within Health Sciences/Public Health and Health Promotion.
Teamwork	Collaborate and work effectively with specialists, peers, academics and others from a range of disciplines and backgrounds.
Global citizenship	Engage in ethical and professional research practice whilst maintaining confidentiality, and respecting cultural sensitivities.

## Course rules

To complete the Bachelor of Public Health and Health Promotion (Honours) students must attain 8 credit points, including two coursework units in research methods and research issues and an independent research project. Part-time students are required to complete the coursework components in their first year of study.

All commencing Faculty of Health Undergraduate and Postgraduate course work students are required to complete HAI010 Academic Integrity in their first trimester of study (0 credit point compulsory unit).

Students are required to meet the University's academic progress and conduct requirements. Visit Deakin's website for more information.

## Course structure

### Core units

#### Trimester 1

HAI010	Academic Integrity (0 credit points)
HBS400	Research Methods
HSH401	Developing Research Skills

#### Trimester 2

HSH402	Honours Research Project
--------	--------------------------

## Work experience

Due to the nature of Honours, students may have supervisors who are based in industry, which gives them a chance for work integrated learning. Even for students whose supervisors are based at Deakin, the form of work integrated learning takes the form of a research internship. In terms of data collection, this can involve interviews, focus groups or surveys, which may happen in the context of health and other services in which the students will be exposed to professional staff and associates carrying out their duties.

## Course duration

Course duration may be affected by delays in completing course requirements, such as accessing or completing work placements.

## Research and research-related study

All 8 credit points of the course are comprised of research-related study (2 x 2 credit point units) or research (1 x 4 credit point unit). 100% of the course's research and research-related study is specifically assessed.

# Bachelor of Health and Medical Science (Honours)

<i>Year</i>	2019 course information
<i>Award granted</i>	Bachelor of Health and Medical Science (Honours)
<i>Course Map</i>	<a href="http://deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps">deakin.edu.au/students/enrolment-fees-and-money/enrolments/course-maps</a>
<i>Campus</i>	Offered at Waurm Ponds (Geelong)
<i>Cloud Campus</i>	No
<i>Duration</i>	1 year full time
<i>CRICOS course code</i>	075601K
<i>Deakin course code</i>	H413
<i>Approval status</i>	This course is approved by the University under the Higher Education Standards Framework.
<i>Australian Qualifications Framework (AQF) recognition</i>	The award conferred upon completion is recognised in the Australian Qualifications Framework at Level 8.

## Course overview

Undertake an additional year of study across a wide range of health and medical science disciplines through the Bachelor of Health and Medical Science (Honours) degree. You will extend your knowledge and investigative skills in health and medicine and conduct an independent research project in your chosen area of interest. You can choose to go on to a career in research or take your practical expertise to the workplace.

Do you want a competitive advantage in your career or to make a valuable impact in health or medical science research?

This honours program involves an additional year of study across a wide range of health and medical science disciplines for students with an undergraduate background in the area. You will develop your knowledge and investigative skills in health and medicine, building on your previous learning and experience in your chosen area.

Alongside engaging coursework and studies in research methodology, you will pursue an independent investigative research project, with supervision available from researchers who have expertise across health and medicine.

You will become highly sought after in roles across academia, private and government industries in a variety of areas such as biological sciences and clinical research.

## Indicative student workload

You should be able to commit 35 hours a week to your honours degree

## Professional recognition

Not applicable

## Career opportunities

This honours year will prepare you for a career in medical research, as well as acting as a pathway to further study such as a master's or PhD program.

As a graduate you will be highly sought after for academic, private and government roles in a variety of areas such as biological sciences and clinical research.

## Participation requirements

This course requires you to undertake your own research. Honours is a specialised year of study that allows you to draw together the theory and practical skills gained in previous undergraduate studies and to develop an in-depth knowledge of your particular discipline through research and additional coursework.

Reasonable adjustments to participation and other course requirements will be made for students with a disability. Visit Deakin's website for more information.

## Mandatory student checks

### Infectious Diseases and Immunisation Policy

All enrolled students who are working in a clinical setting who may be involved with blood sampling or invasive techniques are required to read, understand and comply with the School of Medicine Infectious Diseases and Immunisation Policy.

## Pathways

This course provides a pathway to higher degree by research courses and other postgraduate coursework programs.

## Fees and charges

Fees and charges vary depending on your course, your fee category and the year you started. To find out about the fees and charges that apply to you, visit [deakin.edu.au/fees](http://deakin.edu.au/fees).

## Course learning outcomes

Graduate learning outcomes	Course learning outcomes
Discipline-specific knowledge and capabilities	Apply discipline-specific knowledge to identify a gap in the literature within the chosen field of study; formulate a testable research question; develop a conceptual framework and select the appropriate methodological procedures for the collection, analysis and interpretation of data; and disseminate research findings.
Communication	Autonomously communicate, defend and discuss all elements of the research project in the chosen field of study via oral and written means to academics, specialists and others.
Digital literacy	Autonomously select and use appropriate technologies to source, interpret, adapt, collate, analyse and disseminate relevant information to an academic audience and specialists.
Critical thinking	Critically and constructively, evaluate, critique and synthesise the literature in the chosen field of study; select and apply appropriate methodological principles suitable for the research project; select and apply appropriate analytical techniques to test the hypothesis; and interpret, compare and contrast study findings to the wider literature in the chosen field of study.
Problem solving	Identify a suitable and novel research question based on the literature within the context of Health and Medical Science that can be completed within the given timeframe; address the research question in an appropriate, realistic and ethical manner; and troubleshoot solutions to resolve unplanned, unforeseen and complex problems associated with the research study.

Graduate learning outcomes	Course learning outcomes
Self-management	Produce a realistic timeline for the research project that incorporates the literature review, obtaining ethical approval (if applicable), sourcing and/or collecting and analysing data, and dissemination.  Demonstrate effective self-management skills, autonomy and accountability that contribute to the development of lifelong learning as a researcher within Health and Medical Science.
Teamwork	Collaborate and work effectively with specialists, peers, academics and others from a range of disciplines and backgrounds.
Global citizenship	Engage in ethical and professional research practice whilst maintaining confidentiality, and respecting cultural sensitivities.
