Connect with industry-leading partners

With work-integrated learning partners including the Geelong Cats, AFL/AFLW, Melbourne Cricket Ground, Melbourne Vixens, Sportradar and TLA worldwide, you'll enjoy unparalleled opportunities to gain experience and exposure in the areas of sport that drive your passion.

World-class facilities

We've got Australia's most advanced sports facilities and technology, including an MCG-sized AFL oval, clinical exercise centre, climate chamber, 3D Gait lab; as well as teaching labs designed for studies in biomechanics, exercise physiology, strength and conditioning.

Lead the way in sports research

Cutting-edge research shapes your learning and you'll be able to distinguish yourself by completing an honours year or higher degree by research. Our research is conducted by our Centre for Sport Research (CSR) and Institute for Physical Activity and Nutrition (IPAN).

'One thing that definitely stands out at Deakin, is you are being taught by people who are both awesome clinicians, but also doing research in the area that they're practicing and teaching into!'

Graduate Diploma of Applied Sport Science

OVERVIEW

The Graduate Diploma of Applied Sport Science prepares you for both the technical and managerial aspects of high-performance sport. Build specialised skills in sport science, performance analysis and strength and conditioning; and complement these skills by boosting your management capabilities through studies in leadership, culture development and continuous improvement. Upon completion of the Graduate Certificate of Applied Sport Science, you will meet the theoretical and practical skills required for Level 2 accreditation with the Australian Strength and Conditioning Association (ASCA) - additional eligibility requirements apply.

Master of Applied Sport Science

OVERVIEW

Our industry-leading Master of Applied Sport Science prepares you for the full spectrum of challenges faced by sport scientists and high-performance managers working at all levels of sport, from local to elite level. You will graduate with 220 hours of professional practice, or with the knowledge and skills to pursue entry into a PhD. Through our partnerships and your placements, you will build advanced skills and networks that open the door to senior roles. Upon completion of this course you may be eligible to apply for Associate level 2 accreditation with the Australian Strength and Conditioning Association (ASCA) or as a Level 1 or Level 2 Accredited Sports Scientist with Exercise and Sports Science Australia (ESSA) - other requirements apply.
