HSN206 Food Analysis and Quality Assurance
HSN223 Sensory Evaluation of Food
HSN315 Food Manufacturing and Process Innovation
HSN319 Consumer and Sensory Innovation of Food
HSN320 Trends in Product Development

GENERAL INFORMATION

This course map is a guide only. You must, in addition to using this map, ensure you meet the course rules and structure as set out in the official University Handbook - of the year you commenced your course (deakin.edu.au/handbook). This course map has been created to be used electronically.

This course map is a typical enrolment pattern for full time study. To study part time you would typically undertake two or fewer units each trimester/ semester, which will extend the duration of your studies. Trimester 3 is optional.

Each year's unit offerings options can be found via 'Advanced Unit Search' in the most current year's Handbook.

If you have applied for or received credit for units as recognition of your prior learning (**RPL**), it may alter your course pattern and the units you need to undertake.

Please seek advice from a Student Adviser in StudentCentral if you have any queries or need help understanding your course structure and unit choices.

SPECIFIC COURSE INFORMATION

COMPULSORY ZERO (0) CREDIT POINT UNITS & CO-REQUISITES:

When you see a credit point unit that has a co-req (co-requisite) unit listed next to it, this indicates that you need to enrol in the co-requisite unit in the same trimester as the credit point unit. You only need to complete these co-requisite units once in your degree. For example: HSN106 has the co-req HSN010, this means you need to enrol into HSN010 in the same trimester as HSN106. You would not need to complete HSN010 again in your degree.

The following co-requisite units need to be completed in your degree:

Year 1, Trimester 2 - HAI010 Academic Integrity, HSN010 Food and Nutrition Laboratory Safety Year 2, Trimester 1 - SLE010 Laboratory and Fieldwork Safety Induction Program
