## Master of Business Administration (Healthcare Management)

### OVERVIEW

Healthcare managers and senior clinicians are increasingly expected to navigate a rapidly changing health landscape while also providing leadership across key business areas of strategic planning, marketing, finance and people management. Deakin's MBA (Healthcare Management) situates business decision-making in the health context to give healthcare leaders the tools to manage care delivery and the business and policy pressures that impact it.

### CAREERS

There is a pressing desire for trained and skilled healthcare executives and leaders in Australia and the Asia-Pacific to lead and manage healthcare service delivery into the future. With the Deakin MBA (Healthcare Management) qualification in hand you're well positioned to either progress in your existing healthcare career or embark on a new one as a healthcare manager.
