Additional Information

IMPORTANT: Please note that due to Australian Government regulations, student visas to enter Australia cannot be issued to students who enrol in Deakin's Cloud Campus courses. To participate in the mandatory campus based scheduled sessions, it is suggested that you apply for a Visitor Visa to study for a short period in Australia. Please be advised that Deakin University cannot guarantee that you will be granted a Visitor Visa by the Australian Government.

Read more about Visitor Visas on the [Department of Home Affairs website](#) and other options to study in Australia on the [Australian Government study in Australia website](#).

All places offered to international students in this course are only offered via cloud study mode. Deakin University is not obligated to provide any students with a COE (confirmation of enrolment) to facilitate a student visa application.

This program requires international students to attend one compulsory on-campus intensive to be held at a Deakin University campus in Trimester 3. It is the student's responsibility to ensure that they understand the visa options available to them to allow them to be in Australia to complete these intensive requirements. International Students are required to obtain a Visitor Visa to be able to undertake this compulsory intensive class.
