## Acknowledgement of Country

Deakin University acknowledges the Traditional Custodians of all the unceded lands, skies and waterways on which Deakin students, staff and communities come together. As we learn and teach through virtually and physically constructed places across time, we pay our deep respect to the Ancestors and Elders of Wadawurrung Country, Eastern Maar Country and Wurundjeri Country, where our physical campuses are located. We also acknowledge the many First Nations from where students join us online and make vital contributions to our learning communities.

Artwork: *Learning Together, Growing Together* by Nathan Patterson.

# Your future in business and commerce

## Move your career forward

Careers in all areas of business are growing in rapid and exciting ways. Graduate from a top 3 business school in Victoria<sup>1</sup> equipped with the hands-on experience and practical skills sought after by employers.

Our courses are shaped by industry leaders who harness cutting-edge technology and research to foster your expertise. With this foundation, you'll be ready to take on employment opportunities in just about any industry.

1 AFR Boss Best Business Schools 2024.

## Graduate ready to impress

Enter the workforce with an impressive CV, thanks to our internship and work integrated learning experiences.

Create positive change for a not-for-profit through our Business for Social Impact Projects unit, develop a revenue-raising roadmap for a small business through our Business Development Clinic or present a strategy to an existing client through our Australian Business Consultancy program, all while earning credits towards your degree.

The opportunities for work experience are vast, but they're also flexible, meaning you can balance the work around your other commitments.

[deakin.edu.au/business-wil](https://deakin.edu.au/business-wil)

## Graduate with an employment advantage

Deakin Business School holds both AACSB and EQUIS accreditations, meaning it's globally recognised, internationally benchmarked and part of an ongoing quality improvement system enriched by involvement with a vibrant learning community.

As one of a select group of universities in Australia with EQUIS accreditation, you can confidently embark on your studies with the knowledge that Deakin Business School has international relevance, which offers an employment advantage.

# Your future in business and commerce

## Network with our industry connections

Learn from award-winning experts and develop life-long networks through our close ties with industry, government departments, professional associations and other educational providers.

Follow in the footsteps of past students who've developed analytics-based solutions for World Vision, toured the Commonwealth Treasury and developed algorithms to help United Energy and C4Net manage the grid demand of electric vehicles.

Take advantage of Deakin's sport partnerships, which will open the door to exciting placement experiences and connect you with the best professionals in sport, including:

- Netball Victoria
- Melbourne Vixens
- Geelong Football Club.

## Educating tomorrow's leaders

You are tomorrow's change makers; educating you is not a responsibility we take lightly.

We will empower you to thrive in a rapidly changing world by offering progressive learning experiences, engagement with our communities and access to the newest technology and research.

We commit to the above by focusing our work on four key areas of strength that make up our core themes:

- Business and technology
- SMEs and entrepreneurship
- Business and society
- Capital markets

[deakin.au/business-school](https://deakin.au/business-school)

'Studying in Stockholm and the UK has been a highlight in my life. I am now aware of the multitude of career opportunities available to me through my Deakin degree. Studying abroad has given me the tools to approach learning from a more global perspective, and I am grateful for the personal and professional growth it has afforded me.

I am now that friend who is always recommending studying abroad through Deakin, and I am thankful to Deakin for facilitating such life-changing experiences for me.'

**Henry Van Til**

Bachelor of Laws/Bachelor of Commerce

### Access state-of-the-art facilities

Unleash your creativity and get hands-on experience using our high-tech, industry-standard facilities. For instance, gain insights into the foreign-exchange market and experience the fast-paced nature of the trading world with the Deakin Trading Room, an advanced model of an interbank trading floor.

[deakin.au/business-facilities](https://deakin.au/business-facilities)

### Find your tribe

Deakin Business School supports a range of clubs and societies, including Deakin Commerce Society, Deakin Law Students Society, Deakin Entrepreneurs Collective and many more. They are there to make sure you have the best time at Deakin, and to help you if times get tough.

[deakin.au/business-law-student-societies](https://deakin.au/business-law-student-societies)

### Gain international experience

In 2024, Deakin Business School students solved business problems in Japan and England, strategised with companies in Milan and Lisbon and immersed themselves in a professional sport environment in Las Vegas with the NBA Summer League.

Students have gone behind the scenes at Disneyland, worked in the island state of Penang and travelled through France and Hungary to explore contemporary issues in European business.

These experiences enhance your global employability skills in areas like teamwork, critical thinking and intercultural communication, while immersing you in a new cultural and learning environment.

You can connect with the world through faculty-led programs, short-term study programs, international internships and volunteering.

# Where can a business degree take me?

When you picture your future career, where do you see yourself?

With a business degree, you can choose a unique path from a diverse range of options. You can build specialised skills or get broad expertise. You can choose a global career or stay local. You can start your own business or use your skills in any sector.

Maybe you want to be an accountant who works in fashion, the CEO of a startup or a business analyst helping an environmental not-for-profit reach their audience – the possibilities are endless with a business degree.

## Where do you want to work?

Different types of organisations offer different opportunities. Thinking about where you would like to work can help you find the right course to get you there.

### Small-to-medium enterprises (SMEs)

Want to work in a hands-on role? Small-to-medium enterprises make an invaluable contribution to the economy – around 98% of businesses are small businesses. The advancement of technology means that small businesses are no longer simply hiring family members. They require skilled professionals to propel the reach of their products and services. Want to work for an established business or start your own business from scratch? Success in business requires more than just a great idea – our courses give you the fundamental skills you need to make an impact.

Some examples of SME opportunities:

- accounting and finance
- tech and analytics
- retail and ecommerce
- media and digital marketing.

### Not-for-profit (NFP) and community sector

Are you passionate about social impact? Working for a not-for-profit or community organisation allows you to use your expertise to drive change. This sector needs the best of the best: the strength of your business skills contributes to the success of the cause. Want to manage corporate partnerships for a charity, develop marketing campaigns for a social enterprise or work in HR to build employee wellbeing? Whatever you pursue, you'll have the business skills to come up with innovative strategies to solve challenges. Find your purpose with a meaningful role that fits with your values.

Some NFP and community sector employers include:

- Beyond Blue
- Oxfam
- Cancer Council
- RSPCA
- Climate Council.

### Corporate sector

Curious about how business and society intersect? Careers within the corporate sector are diverse and span all areas of business. Want to work for a multinational as an accredited economist or bring your communication, negotiation and decision-making skills to a management role? You'll find opportunities for career progression and networking and you can take your career global. In big business, you have the capacity to be a part of powerful social impact.

Some businesses our graduates have found roles with include:

- ANZ
- KPMG
- Deloitte
- MECCA
- Country Road Group.

'Studying a Bachelor of Marketing (Psychology) has been pivotal in my career. My studies have given me the ability to create compelling psychology driven marketing strategies, and these learnings have truly set me up for success.'

### Garrett McNamara

PR and Influencer Executive  
Bachelor of Marketing (Psychology) graduate

## Skills to get you a job

At Deakin, every course is shaped by industry experts. You'll graduate with real-world expertise and practical skills, giving you a competitive edge in the workplace. Secure your future today at Victoria's #1 university for graduate employment<sup>1</sup> and course satisfaction.<sup>2</sup>

- 1 Graduate Outcomes Survey 2023, Quality Indicators for Learning and Teaching (QILT), based on overall employment for domestic undergraduates, 4–6 months after course completion, equal overall employment rate with Monash University.
- 2 Australian Graduate Survey 2010–2015, Graduate Outcomes Survey 2016–2023, Quality Indicators for Learning and Teaching (QILT).

### Have you considered a career in these emerging sectors?

If you're looking for something different, prepare yourself for a rewarding career in an emerging sector. Here are some ideas:

#### Business analytics

A business analyst interprets data and information and uses these insights to unlock creative solutions for businesses. It is a role where your practical commercial skills enable you to advise organisations and solve complex problems and you can work in any sector.

Some examples of roles for business analysts include:

- artificial intelligence (AI) specialist
- climatologist
- fashion trend analyst
- financial crime analyst
- disease mapper.

#### Brand management

Brand management is about influencing the public perception of what a brand stands for through strategic marketing campaigns. It is a role where creative thinking, networking and communication skills pair with your ability to understand and meet the needs of target markets.

Some examples of organisations that hire brand managers include:

- Victorian Health Promotion Foundation
- Lindt & Sprungli
- Remedy Kombucha
- Adidas, and many more.

#### Talent acquisition and recruitment

Talent acquisition is about connecting the right person with the right job. The pandemic drastically changed the face of work, creating a demand for experts who can identify and recruit talent, market businesses and individuals, and forecast demands. It can be highly impactful work – you're making a genuine difference to someone's life and contributing to the success of an organisation.

Talent acquisition managers and recruitment specialists are employed by:

- medium to large organisations across all sectors
- recruitment agencies
- consultancy firms.

### Award-winning university career service<sup>1</sup>

DeakinTALENT will prepare you to secure the jobs of tomorrow. Our award-winning service is available to you from day one and will support you for the rest of your career. You will have lifetime access to career coaching, industry networking opportunities and a comprehensive suite of digital resources helping you develop the most employable version of yourself.

[deakintalent.deakin.edu.au](https://deakintalent.deakin.edu.au)

<sup>1</sup> Australian Graduate Recruitment Industry Awards, 2017, 2018, 2019, 2020 winner for most popular career service in Australia; Employability award, 2021 Australian Financial Review Higher Education Awards.

# Disciplines

Your dream course starts here. Take a look through some of our majors and minors to choose your area of expertise. Knowing what you'd like to specialise in helps career advisers find the best course for you. Corresponding courses are featured later in this guide, so you can learn more about what you'll study, available work experience opportunities and the types of careers you could pursue.

## Accounting

Complex global markets and reporting requirements mean accounting is an increasingly dynamic and exciting profession. Accountants are finance and information specialists who inform business decision-making within a wide range of organisations. Businesses and individuals rely on accountants to assess their financial situation, prepare reports and give advice on financial dealings.

## Business analytics

Every business seeks to gain a competitive advantage through data and graduates with analytical skills are in high demand. Learn to find meaning and extract value from data by applying creativity to real-world problems. Gain data analysis skills and discover how to apply problem-solving and creative thinking to the needs of business, science and society.

## Business and digital communications

Manage and coordinate relationships between organisations, agencies and the public through effective internal and external communications. With a focus on ethical and sustainable research and practices, build key knowledge and skills in brand management, content marketing, social media, strategic public relations and marketing communications.

## Commerce

Lead positive change and become essential to an organisation by specialising in one of the core functions of business. Commerce requires strong problem solving and analytical skills and offers a variety of majors from accounting through to marketing and human resource management.

## Economics

Learn about the production, distribution and consumption of wealth. Economics is a social science based on human behaviour that helps you enhance all aspects of business. Gain business acumen and learn to adapt to various policy environments. Develop quantitative and analytical skills that are highly valued by employers and can complement your future career path.

## Entrepreneurship and innovation

Develop skills and strategic tools, and benefit from work-integrated learning experiences to prepare for starting your own business, running a family business, becoming a social entrepreneur, or helping existing organisations to launch and manage new products and enter into new markets.

## Event management

Work in diverse fields like government, education and the not-for-profit sector. You'll develop a comprehensive set of skills that include project management, marketing, communication, innovation and planning for unique events.

## Finance

A career in finance can open doors to almost any industry. Learn about the operations of financial markets and institutions, and how decision-making processes are administered where uncertainty is involved. Finance deals with investment, payout decisions of firms, the effects of interest rates and risks on the pricing of assets, and the structure and operations of financial markets and institutions.

## #1 Victorian university for course satisfaction

Year on year, Deakin's students have the highest course satisfaction rate of all Victorian universities.<sup>1</sup> We've ranked this highly for the past 14 years, with our students being particularly happy with our:

- teaching
- learning resources
- student support
- skills development
- learner engagement.

<sup>1</sup> Australian Graduate Survey 2010–2015, Graduate Outcomes Survey 2016–2023, Quality Indicators for Learning and Teaching (QILT).

# Disciplines

'The opportunities offered in the Bachelor of Business are endless. I most valued studying abroad, engaging with real-life clients and developing lifelong relationships with the people I met throughout my university journey.'

**Isabelle Banovac**  
Bachelor of Business graduate

## Financial planning

Financial planners have the necessary breadth and depth of financial skills and knowledge to help people achieve financial success. Innovative and lateral in their thinking, financial planners are up-to-date with the latest changes and are committed to providing sound, independent and ethical financial advice to their clients.

## Human resource management

An understanding of how to manage human resources is critical for all managers in all industries. Human resource management covers recruitment, selection, training and development, workplace diversity, employee relations, performance and change management, and remuneration. Develop invaluable counselling, mediation and negotiation skills that will stand you in good stead in any field you enter in the future.

## Information systems

Work in a globally significant field where you'll implement cutting-edge technologies to solve business problems. If you have a passion for new technologies, business analytics and eBusiness, a career in information systems may be for you.

## International trade and business

Gain the skills, knowledge and expertise to excel in a growing and changing global environment. From marketing and strategy through to international relations and law, a career in international trade and business could take you anywhere in the world.

## Management

Managers drive organisational culture, performance and results by leading, supporting and transforming organisations and their employees. Study management to formally develop the skills required to be an effective leader through a progressive program of theory and practice.

## Marketing

Marketing strategically and creatively adds value to the customer experience, building a relationship between consumers and sellers. Our courses cover a range of subjects, including brand management, consumer behaviour and digital media.

## Organisational psychology

Organisational psychologists apply science to the workplace to improve employee performance and wellbeing. You could work with organisations, teams and individual employees to devise strategies to recruit, motivate, develop, change and inspire your workforce.

## People management

People management is one of the fastest-growing fields of professional employment. This discipline provides skills and understanding of the critical dimensions required to successfully manage people. Develop an understanding of strategic human resource development and management, organisational behaviour, change management, workplace counselling and negotiation, and employment relations.

## Project management

Join a growing, dynamic profession that involves planning, coordinating, costing and evaluating projects of all sizes, as well as managing the people and risks involved. In a globalised economy, project management is central to developing and delivering new products, services and infrastructure, as well as implementing new techniques and processes to facilitate change.

## Property and real estate

The property industry is one of the world's largest employment areas. Deakin's unique property and real estate course leads to careers with long-term employment and rewarding salaries. With strong industry links and international demand for graduates, studies focus on investment, property development, property valuation, market analysis and property economics, with popular specialisations in sustainability or business disciplines.

# Disciplines

## Psychology

Combine psychology principles from complementary disciplines in marketing or human resource management. Dual expertise in psychology and business disciplines provides you with a competitive advantage as you enter employment.

## Recruitment and talent acquisition

A role in this area encompasses human resources, recruitment, marketing, brand management, relationship management and strategies for talent acquisition. Master these invaluable skills for recruitment both within and outside of organisations in a major designed in consultation with industry experts to meet a growing demand in the market. It's reinforced with hands-on learning programs that will see you graduating as a qualified and sought-after recruitment professional.

## Retail and supply chain management

Retail managers for the 21st century understand the retail process from sourcing and retail, to brand management and evaluating consumers. The field of retailing is still growing, but the impact of worldwide competition and short product lifecycles makes it a challenging and dynamic sector. This industry needs practitioners who can operate in a fast-changing environment.

## Sport development

Create positive change by helping sport organisations deliver their products and services. Combine your knowledge of marketing, sport management and coaching to develop key strategies. Implement sport programs and promote them as a vehicle to achieve community development outcomes.

## Sport management

Make your mark behind the scenes. Develop the skills required to lead in all facets of sport business, including the management of professional and community sport programs, competitions, facilities, events and more. You'll learn how to support marketable, profitable and competitive teams on and off the field, with specialised learning in systems, marketing, finance, management and law. You will also gain access to unique opportunities with leading clubs and organisations that will open the door to exciting placement experiences and invaluable connections.

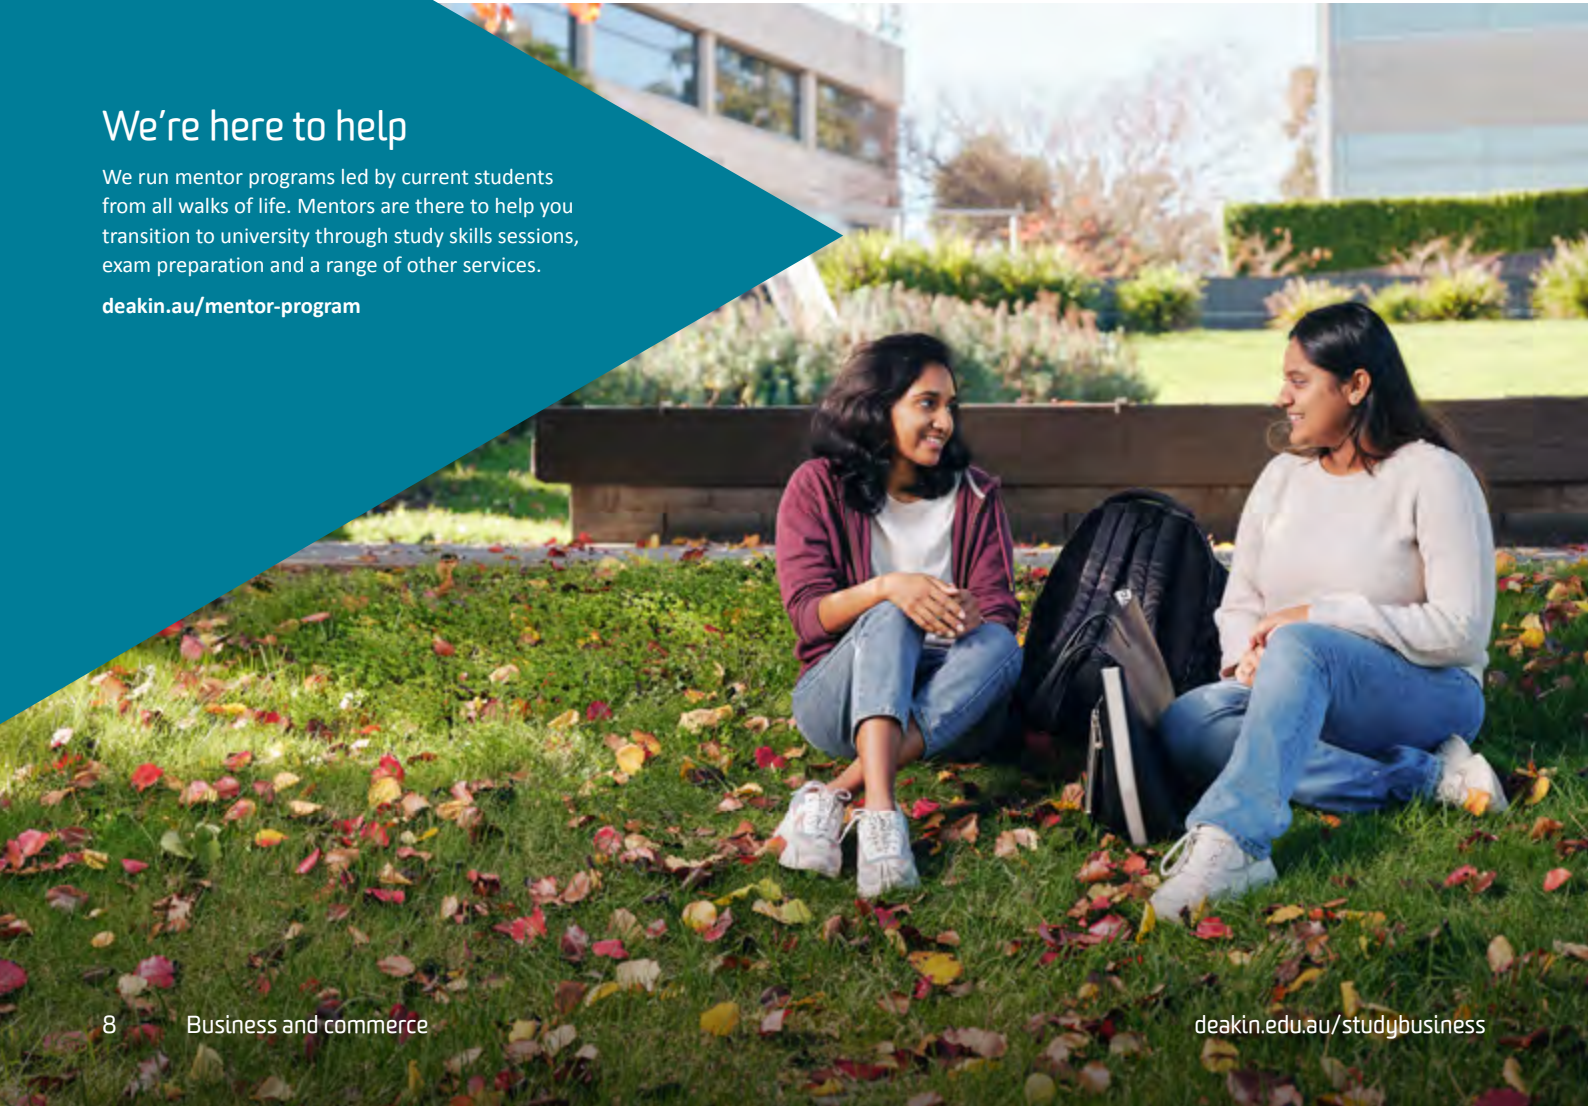

## Sustainability and development

The world is bracing for a new normal of uncertainty involving harsher, more frequent weather events with unpredictable costs. The sustainability and development major is built on this broad theme with opportunities for students to gain a practical understanding of the interactions between the economy and the environment, and how to propose solutions and approaches that can facilitate a sustainable co-existence of both.

## We're here to help

We run mentor programs led by current students from all walks of life. Mentors are there to help you transition to university through study skills sessions, exam preparation and a range of other services.

Launch a career in the booming world of business insights with Deakin's Bachelor of Business Analytics. You'll gain hands-on experience and become a confident business analytics translator who can unlock innovative solutions for businesses. In Victoria's longest-running specialised business analytics course, you will learn how to interpret data and information so that you can solve complex organisational problems.

### Professional recognition

Completion of the Bachelor of Business Analytics and associated double degrees grants eligibility for entry as a professional member of the Australian Computer Society (ACS).

### Careers

As a graduate, you can work across business and analytical fields. Career opportunities include:

- artificial intelligence specialist
- big data engineer
- business analytics translator
- business analyst
- business intelligence specialist
- computer system analyst or data analyst
- digital transformation consultant
- information analyst, manager or officer
- market analyst
- predictive modeller
- social media analyst.

### Work experience

Work experience is a core component of this degree. The work-integrated learning program connects students with employers. This ensures you have every opportunity to work with business analytics students and professionals each trimester, giving you a head-start in your career.

### Course structure

This 24-credit-point course consists of 16 credit points of core units (including one work-integrated learning unit or an approved international learning experience) and 8 credit points of elective units.

#### TRIMESTER 1

**YEAR 1** Business Analytics  
Managing Data and Information  
Professional Ethics in the Digital Age  
Introduction to Machine Learning for Business

Deakin's Bachelor of Business gives you the skills and experience needed to succeed in the business world. You'll solve practical business challenges, explore innovative and emerging business trends, and prepare for the nuances of international business relationships. There are opportunities to secure sought after work placements with our industry partners and gain global perspectives of business on international study tours.

### Careers

The Bachelor of Business can lead to a variety of careers in Australia and overseas, including:

- business analyst
- business development manager
- content manager
- digital communications manager
- entrepreneur
- events manager
- project manager
- responsible business planner
- sustainability manager.

### Work experience

Work-integrated learning is an essential component of your studies, letting you connect with the world by working in a range of organisational roles as part of your study. A capstone unit in your final year offers a great opportunity to practise and develop professional skills, such as teamwork, communication, negotiation, conflict resolution, decision-making, problem solving and leadership.

### Course structure

This 24-credit-point course consists of 10 credit points of core units, one 8-credit-point major sequence (including at least 1 credit point of a work-integrated learning unit or an approved 1-credit-point international learning experience and 1-credit-point capstone unit), and six elective units (which may include one 4-credit-point minor sequence).

Study Deakin's Bachelor of Commerce and receive an education that is relevant to industry and accredited by top industry bodies. You will graduate with three pillars of professional skills sought after by employers: financial acumen, market knowledge and management smarts.

### Professional recognition

The course is developed and reviewed with industry input, and fully aligned with professional expectations and accreditations. Due to our close links with government departments, professional associations and other educational providers, commerce graduates can apply for membership to these key professional bodies (depending on units taken):

- Association of Chartered Certified Accountants (ACCA)
- Australian Human Resources Institute (AHRI)
- Australian Marketing Institute (AMI)
- Certified Practising Accountants (CPA)
- CFA Institute University Affiliation Program
- Chartered Accountants Australia and New Zealand (CA ANZ)
- Financial Adviser Standards (FAS)
- Financial Adviser Association of Australia (FAAA) CERTIFIED FINANCIAL PLANNER®
- Institute of Public Accountants (IPA).

### Careers

Across almost every area of business and government, in Australia and overseas, there are excellent employment opportunities for commerce graduates, including:

- accountant
- business analytics professional
- economist
- financial planner
- human resource manager
- international trade officer
- marketing manager
- social and economic policy developer.

### Work and global learning experiences

Work experience, whether it be in Australia or overseas, can make all the difference when you graduate and are applying for jobs. Through our work-integrated learning program, you will gain work experience and credit towards your degree. Our curriculum is complemented by a range of experiential learning opportunities, such as mentoring, volunteering, consulting and internships. Opportunities to gain international experience abroad with a range of overseas internships, study tours and exchanges across Asia, Europe and North America enhance your global employability skills in areas like teamwork and intercultural communication.

### Course structure

This 24-credit-point course consists of 8 credit points of core units, at least one 8-credit-point major sequence, plus a 1-credit-point work-integrated learning unit and 7 credit points of elective units.

Build in-demand communication skills to be ready to step into the workplace.

- 1 Students commencing at the Geelong Waterfront Campus will be required to enrol in units offered in online mode in Trimester 3.
- 2 2026 DGAs are indicative at time of publishing. Visit individual course webpages for updated DGAs.

# Should I choose commerce or business?

While both degrees teach the fundamental mechanisms of business and even share some units, there are some distinct differences.

**The Bachelor of Commerce** is for students who want to work in the more traditional career professions.

**The Bachelor of Business** paves the pathway towards the more progressive careers and is also for students with an entrepreneurial mindset.

To decide which degree is right for you, the key is to look at the majors and choose the list that appeals to you most.

Once you've decided on your degree, you don't have to choose your major right away. As you'll see in the diagram below, during your first year, you will study core foundational units. These will give you a clear understanding of the different major streams and how much you enjoy studying them.

In your second year, you can then use this knowledge to branch into the major that supports your interests and career goals. You will also choose from a range of minors or elective units to complement these goals.

Your course can be completed in less time if you choose to study units in trimester 3.

Study Deakin's Bachelor of Property and Real Estate and gain the skills you need to build a successful career in property. In this fully accredited course, industry experts will teach you about the most current approaches, ideas and research so that you can capitalise on Australia's largest industry. This course provides a foundation for careers in property valuation, development and more.

### Professional recognition

This course is professionally accredited by the Australian Property Institute (API) and the Royal Institution of Chartered Surveyors (RICS). Graduates will meet the academic requirements for membership as a Certified Practising Valuer (CPV).

### Course structure

This 24-credit-point course consists of 15 credit points of core units (11 credit points of property and real estate units and 4 credit points of commerce units), plus a 1-credit-point work-integrated learning course elective. It also includes 8 credit points of electives (which may include one 4-credit-point minor sequence) in either Wealth Management, Finance, Sustainability or Economics.

## Bachelor of Marketing (Psychology) M336 🕒 3 📅 T1, T2

|                              |       |       |
|------------------------------|-------|-------|
| CAMPUS                       | 📍 B   | 📍 D   |
| ATAR                         | 65.25 | NP    |
| GUARANTEED ATAR <sup>1</sup> | 60.00 | 60.00 |

Study the Bachelor of Marketing (Psychology) and become an expert at uncovering the reasons behind consumer behaviour. Combine principles from both disciplines to unlock creative marketing solutions and graduate with a unique skill set that's in demand across all industries.

### Professional recognition

The Bachelor of Marketing (Psychology) is accredited by the Australian Marketing Institute (AMI) and the Australian Psychology Accreditation Council (APAC).

Graduates will be eligible for a one-year credit reduction, which is needed to become a Certified Practising Marketer by the AMI.

Completion of the course also provides students with an APAC accredited three-year degree in psychology. This allows students to then undertake additional study in pursuit of provisional and general registration as a psychologist through the Psychology Board of Australia (PsyBA).

### Careers

A dual expertise in psychology and marketing provides you with a competitive advantage as you enter into employment. Career opportunities include:

- advertising
- communications manager
- consumer advocacy
- customer experience officer
- customer journey expert
- customer insights analyst
- digital marketing director
- insights data translator
- market and consumer researcher
- touchpoint and engagement designer.

### Course structure

To complete the Bachelor of Marketing (Psychology), students must attain 24 credit points of core units (including one work-integrated learning unit from a specified list). All units in the Bachelor of Marketing (Psychology) are worth 1 credit point, so you must take 24 units (think of units as 'subjects') to complete your degree. Most students choose to study four units per trimester and usually undertake two trimesters each year.

|               | TRIMESTER 1  | TRIMESTER 2  |

Be empowered to see human resources from a different angle. Study Deakin's Bachelor of Human Resource Management (Psychology) and explore the human mind in a business context. As a graduate, you'll have a significant advantage when performing key functions in your human resources (HR) role, from recruitment and workplace negotiations, to creating high-performance environments.

### Professional recognition

The Bachelor of Human Resource Management (Psychology) is accredited by the Australian Human Resources Institute (AHRI) and Australian Psychology Accreditation Council (APAC).

Completion of the course also provides students with an APAC accredited three-year degree in psychology. This allows students to then undertake additional study in pursuit of professional registration as a practising psychologist through the Psychology Board of Australia (PsyBA).

### Careers

Deakin's Bachelor of Human Resource Management (Psychology) can lead you to a diverse range of local and international careers including:

- employee relations officer
- human resources compensation officer
- human resources consultant
- industrial relations officer
- organisational development consultant
- training and development manager.

### Work experience

This course offers you opportunities to learn through real experiences. Depending on units taken, opportunities may include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

### Course structure

This course consists of 24 credit points of core units, including one work-integrated learning course elective unit.

Make your mark behind the scenes of the dynamic sport industry through Deakin's Bachelor of Business (Sport Management). You will develop the skills required to manage sport organisations, coordinate sporting competitions and major events, and work in community-based sporting programs. You'll learn how to manage the business side of sport, with specialised training in sport marketing, finance, management and law. You can also expand your business expertise by completing a complementary business major.

### Careers

The professionalisation of sport in Australia and globally – especially women's and junior sport – has opened the door to exciting new roles and pathways. Career opportunities include:

- advertisement and sponsorship consultant
- commercial partnership administrator
- corporate partnerships coordinator
- event operations coordinator
- facility manager
- media and marketing manager
- player agent
- professional players' manager
- public relations officer
- sport analyst
- sport management consultant
- ticketing and engagement coordinator.

### Work experience

This course offers industry-based learning opportunities, so you'll get first-rate experience in your profession and the skills to help you succeed in your career.

## A home for elite athletes

We're dedicated to supporting elite athletes to achieve academic success alongside the demands of training and competition. That's why Deakin is a member of the Elite Athlete Education Network (EAEN).

We offer student athletes:

- flexibility around assessment deadlines, and lecture and tutorial attendance
- leaves of absence so you can meet your sporting commitments
- extensions on the time normally allowed to complete a course.

[deakin.edu.au/elite-athlete-program](https://deakin.edu.au/elite-athlete-program)

## Be rewarded for your hard work

A Deakin scholarship is more than just a financial boost. It is our chance to acknowledge your accomplishments and reward your hard work, setting you on the path to success at university. Our extensive scholarship program includes three key scholarships:

- Vice-Chancellor's Academic Excellence Scholarship
- Deakin Scholarship for Excellence
- Deakin Student Support Scholarship.

We also offer a range of donor and government-funded scholarships. Each is unique with differing criteria, rewarding aspiring students from diverse backgrounds.

 4 ShanghaiRanking's Global Ranking of Sport Science Schools and Departments 2021, 2022, 2023 and 2024.

## Enhance your employability with a double degree

A double degree allows you to study two degrees at the same time. This option reduces the cost and duration of your study, without increasing your workload. Enjoy studying a diverse mix of core units and acquire skills that will put you in demand across a variety of industries.

You will graduate with two certificates – one for each of the degrees you’ve completed – which will broaden your career options and attract potential employers.

## Double degrees

### Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management)

D394 ⌚ 4 📅 T1, T2 RRES ✓

| CAMPUS                       | B     | WP    |
|------------------------------|-------|-------|
| ATAR                         | 80.00 | 71.40 |
| GUARANTEED ATAR <sup>1</sup> | 75.00 | 70.00 |
| RRES                         | N/A   | 63.95 |

Join the #1 sport science school in the world<sup>4</sup> and learn from expert teachers in world-class facilities. This course offers an accredited pathway for you to be eligible to register and practise as an Accredited Exercise Scientist with Exercise and Sports Science Australia (ESSA). You will become a professional leader in exercise and sport science, equipped with the relevant business knowledge to manage sporting organisations and events.

#### Professional recognition

All graduates are eligible to apply for accreditation with ESSA as an Accredited Exercise Scientist (AES).

### Bachelor of Nutrition Science/Bachelor of Commerce

D301 ⌚ 4 📅 T1, T2 RRES ✓

| CAMPUS                       | B     | WP <sup>2</sup> |
|------------------------------|-------|-----------------|
| ATAR                         | 84.90 | NP              |
| GUARANTEED ATAR <sup>1</sup> | 75.00 | 65.00           |
| RRES                         | N/A   | NP              |

Build your foundational knowledge in nutrition science and learn how nutrition affects population health, disease and ageing. Gain a deep understanding of the commercial forces that guide Australia’s \$130 billion food industry. With Deakin’s Bachelor of Nutrition Science/Bachelor of Commerce, you will graduate with highly transferable skills that allow you to work in either field, or in fields where nutrition and business connect.

#### Professional recognition

This qualification allows you to receive recognition from both nutrition and business professional bodies.

Enrolled students and graduates may apply for membership of the Nutrition Society of Australia (NSA). Registration will ensure you’re recognised as a qualified nutrition professional in the field.

By undertaking international and commerce studies in tandem, you'll gain a unique skill set in applying business foundations globally. Through Deakin's Bachelor of International Studies/Bachelor of Commerce, you'll develop your understanding of the international forces shaping government, business and communities, and gain skills to analyse and interpret these forces.

[deakin.edu.au/course/D338](https://deakin.edu.au/course/D338)

## Can we help you find your pathway into university?

There are many different ways you can get into an undergraduate course at Deakin. Whether you get the ATAR you hoped for or not, we'll make sure your hard work is rewarded with a pathway to university. Try our Pathways Finder tool and explore the options that might be available to you at [deakin.edu.au/pathways-finder](https://deakin.edu.au/pathways-finder) or call us on 1800 693 888.

### Bachelor of Property and Real Estate/Bachelor of Commerce

D325 🕒 4 📅 T1, T2, T3

| CAMPUS                       | 📍 B   | 📍 D   |
|------------------------------|-------|-------|
| ATAR                         | 80.15 | 70.80 |
| GUARANTEED ATAR <sup>3</sup> | 75.00 | 65.00 |

Study the Bachelor of Property and Real Estate/Bachelor of Commerce and become an in-demand professional. In just four years, you'll graduate with professionally recognised qualifications in both real estate and commerce. Gain industry experience through practical learning opportunities, build relationships with industry partners, take on coveted internships and learn from global leaders through overseas study experiences.

#### Professional recognition

The Bachelor of Property and Real Estate has professional accreditation by the Australian Property Institute (API) and the Royal Institution of Chartered Surveyors (RICS). Graduates will meet the academic requirement to be eligible for registration as a Certified Practising Valuer (CPV). See also Bachelor of Commerce (page 11) for further accreditation available in this course.

[deakin.edu.au/course/D325](https://deakin.edu.au/course/D325)

### Bachelor of Property and Real Estate/Bachelor of Laws

D396 🕒 5 📅 T1, T2

| CAMPUS                       | 📍 B   | 📍 D   |
|------------------------------|-------|-------|
| ATAR                         | 90.05 | NP    |
| GUARANTEED ATAR <sup>3</sup> | 85.00 | 79.00 |

Secure a competitive edge and gain hands-on experience in the dynamic real estate industry. You'll acquire skills across property investment, valuation, development and management. This unique double degree gives you professionally recognised qualifications in both property and law, unlocking exciting career options.

#### Professional recognition

The Bachelor of Property and Real Estate/Bachelor of Laws fulfils the academic requirements to practise as an Australian lawyer, as set by the Victorian Legal Admissions Board (VLAB).

Graduates also meet professional accreditation requirements set by the Australian Property Institute (API) and the Royal Institution of Chartered Surveyors (RICS). This also satisfies the academic requirements to be eligible for registration as a Certified Practising Valuer (subject to final approval by the accrediting bodies).

'I think my overseas experiences were a key contributor to getting me where I am today. Not only have they provided me with experience in a corporate environment that I have been able to draw on in my internship, but they have also helped me grow into a more independent and confident person.'

**Maddie Matthews**

Bachelor of Property and Real Estate/Bachelor of Commerce graduate

## Double degrees

### Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate<sup>1</sup>

D336 🕒 5 📅 T1, T2

| CAMPUS                       | WF <sup>2</sup> |
|------------------------------|-----------------|
| ATAR                         | 66.35           |
| GUARANTEED ATAR <sup>3</sup> | 61.00           |

Deakin's Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate combines site skills with business execution. Explore building practice, technology, economics and law, property market analysis, and valuation. Learn how to drive growth, make strong commercial decisions, understand regulations, and manage construction projects of any size.

#### Professional recognition

Both single degree courses are professionally accredited by multiple professional bodies including the Royal Institution of Chartered Surveyors (RICS), Chartered Institute of Building (CIOB), Australian Institute of Quantity Surveyors (AIQS), and Australian Property Institution (API) for Certified Practising Valuer (CPV) status.

[deakin.edu.au/course/D336](https://deakin.edu.au/course/D336)

### Bachelor of Design (Architecture)/Bachelor of Property and Real Estate<sup>1</sup>

D307 🕒 4.5 📅 T1, T2

| CAMPUS                       | WF <sup>2</sup> |
|------------------------------|-----------------|
| ATAR                         | 73.35           |
| GUARANTEED ATAR <sup>3</sup> | 67.00           |

Set yourself apart with Deakin's Bachelor of Design (Architecture)/Bachelor of Property and Real Estate. This cross-disciplinary course combines the creativity of architectural design with the practical skills needed to build a successful career in the growing property sector. Develop theoretical knowledge through cutting-edge content and build complementary skills in property valuation, development and more.

#### Professional recognition

The Property and Real Estate stream of this combined course has received professional accreditation by the Australian Property Institute (API) and the Royal Institution of Chartered Surveyors (RICS).

[deakin.edu.au/course/D307](https://deakin.edu.au/course/D307)

### Bachelor of Public Health and Health Promotion/Bachelor of Commerce<sup>1</sup>

D388 🕒 4 📅 T1, T2

| CAMPUS                       | 📍     | 📍     | 📍     |
|------------------------------|-------|-------|-------|
| ATAR                         | NP    | NP    | NP    |
| GUARANTEED ATAR <sup>3</sup> | 76.00 | 65.00 | 65.00 |

This double degree allows you to take your commercial knowledge into the fast-growing health sector, or your health expertise into the commercial world. Graduates can register with the International Union for Health Promotion and Education (IUHPE); Deakin is the only Victorian university to hold this accreditation. You will also gain a globally recognised commerce qualification, learning to solve real commercial challenges alongside industry leaders.
